(a) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture, landscape architecture, engineering, environmental services, land surveying or construction project management.

(b) "Small Business" means a firm that complies with the provisions of Government Code Section 14837.

(c) "Executive Officer" means the Executive Officer of the San Gabriel and Lower Los Angeles Rivers Conservancy.

(d) "Conservancy" means the San Gabriel & Lower Los Angeles Rivers and Mountains Conservancy, established pursuant to the provisions of the Public Resources Code, commencing with Section 32600.

(e) "Architectural, landscape architectural, engineering, environmental, land surveying services" and "construction project management" means those services, as defined in Section 4525 of the Government Code.

(f) The term "Disabled Veteran Business Enterprise" shall have the meaning set forth in Section 999 of the Military and Veterans Code.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New chapter 2 (sections (14021–14032) and section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14022. Selection Criteria.

The Executive Officer shall utilize selection criteria for each proposed project which will comprise the basis for the selection of eligible firms to perform the required services. The criteria shall include such factors as:

(a) Professional experience of the firm in performing services of similar nature.

(b) Quality and relevance of recently completed or ongoing work.

(c) Reliability, continuity, and location of firm to the project site.

(d) Staffing capability.

(e) Education and experience of key personnel to be assigned.

(f) Knowledge of applicable regulations and technology associated with the services required.

(g) Specialized experience of the firm in the services to be performed.

(h) Participation as small business firm.

(i) Other factors the Executive Officer deems relevant to the specific task to be performed.

These factors shall be weighted by the Executive Officer according to the nature of the proposed project, the complexity and special requirements of the specific services or project, and the needs of the Conservancy.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14023. Announcement of Project.

(a) A statewide announcement of each proposed project shall be published in the California State Contracts Register, in accordance with the Government Code (commencing with Section 14825), and through the publications of the respective professional societies. Failure of any professional society to publish the announcement shall not invalidate any contract.

(b) The announcement for each proposed project shall include, as a minimum, a brief description of the services required, location, duration, eligibility and preferences, submittal requirements, contact person for the Conservancy, and the final response date for receipt of statements

from firms of their demonstrated competence and professional qualifications.

(c) The Executive Officer shall identify potentially qualified small business firms interested in contracting with the Conservancy, and provide copies of project announcements to those small business firms that have indicated an interest in receiving the announcements. Failure of the Executive Officer to send a copy of an announcement to any firm shall not invalidate any contract.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14024. Selection of Qualified Firms.

(a) After the expiration of the final response date in the published project announcement, the Executive Officer shall review and evaluate the written statements of demonstrated competence and professional qualifications using the selection criteria contained in Section 14022 of these regulations, and rank, in order of preference, the firms determined to be eligible to perform the required services.

(b) The Executive Officer shall conduct discussions with at least the three most eligible firms, about anticipated concepts and the benefit of alternative methods for furnishing the required services. From the firms with which discussions are held, the Executive Officer shall select, in order of preference, not less than three firms deemed to be the most highly qualified to perform the required services.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14025. Estimate of Value of Services.

(a) Before entering into discussion with any firm selected pursuant to section 14024 of these regulations, the Executive Officer shall prepare, or direct the preparation of, an estimate of the value of the proposed project, based upon accepted rates for comparable services. The estimate will serve as a guide in determining fair and reasonable compensation in the negotiation of a satisfactory contract in accordance with the provisions of section 14027 of these regulations, and shall not be disclosed until after the award of the contract or the abandonment of the negotiation process for the services to which it relates.

(b) At any time that the Executive Officer determines the estimate of value of services to be unrealistic for any reason, the Executive Officer shall require the estimate to be reevaluated and, if deemed necessary, modified.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14026. Statewide Participation Goals.

In the negotiation of a satisfactory contract as provided in section 14027 of these regulations, the best qualified firm must meet the statewide participation goal of not less than 3 percent for disabled veteran business enterprises, or demonstrate that a good faith effort was made to meet it, in order to comply with the statewide participation goals as required by the regulations contained in Title 2, California Code of Regulations, Sections 1896.61–1896.64.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14027. Negotiation.

(a) From among the firms selected through the procedure described in section 14024 of these regulations, as those most highly qualified to perform the services required, the Executive Officer shall attempt to negotiate a satisfactory contract with the best qualified firm at a compensation which the Conservancy determines is fair and reasonable.

(b) If the Executive Officer is unable to negotiate a satisfactory contract with the best qualified firm at a compensation which the Conservancy determines is fair and reasonable, negotiations with that firm shall be terminated and negotiations undertaken with the second best qualified firm. If the Executive Officer is unable to negotiate a satisfactory contract with the second best qualified firm at a compensation which the Conservancy determines is fair and reasonable, then negotiations with that firm shall be terminated and negotiations undertaken with the third best qualified firm. If the Executive Officer is unable to negotiate a satisfactory contract with the third best qualified firm at a compensation which the Conservancy determines is fair and reasonable, negotiations with that firm shall be terminated.

(c) If the Executive Officer is unable to negotiate a satisfactory contract in accordance with subsections (a) and (b) immediately above, the Executive Officer shall continue the negotiations process with the remaining qualified firms, if any, in order of preference, until a satisfactory contract is reached. If unable to negotiate a satisfactory contract with any of the qualified firms, the Executive Officer shall abandon the negotiation process for the requested services.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14028. Amendments.

If the Executive Officer determines that a change in the contract is necessary during the performance of the services being provided, then the contracting parties may, by mutual consent, in writing, agree to modifications, additions or deletions in the contract terms, conditions and specifications for the services involved, with a reasonable adjustment also in the compensation provided for the services.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14029. Contracting in Phases.

If the Executive Officer determines it is necessary or desirable for the project to be performed in separate phases, the Executive Officer may negotiate a partial compensation for the initial phase of the services required; provided, however, that the Executive Officer first determines that the firm selected is best qualified to perform the entire project. The contract shall include a provision that the Conservancy may, at its option, utilize the firm to perform other phases of the services at a compensation which the Conservancy determines is fair and reasonable, to be later negotiated and included in a mutually acceptable written agreement. In the event that the Conservancy exercises its option under the contract to utilize the firm to perform other phases of the project, the procedures of this Chapter with regard to estimates of value of services and negotiation shall similarly be followed.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14030. Executive Officer's Power to Require Bids.

If the Executive Officer determines that the services are technical in nature and involve little professional judgement and that requiring bids would be in the public interest, a contract shall be awarded on the basis of competitive bids and not the procedures of this Chapter.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14031. Unlawful Consideration.

Each contract shall include a provision by which the contracting firm warrants to the state that the contract was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any Conservancy officer or employee. Failure to adhere to this

warranty may be cause for contract termination and recovery of damages under the rights and remedies due the Conservancy under the default provisions of the contract.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

§ 14032. Prohibited Relationships.

No Conservancy employee, officer or Board member who participates in the evaluation or selection process leading to award of a contract shall have a relationship with any of the firms seeking that contract, if that relationship is subject to the prohibition of Government Code Section 87100.

NOTE: Authority cited: Section 32613, Public Resources Code. Reference: Section 32614, Public Resources Code.

HISTORY

1. New section filed 1–9–2002; operative 2–8–2002 (Register 2002, No. 2).

Chapter 4. Resources Agency—Conflict of Interest Code 714.30

Division 6. Resources Agency

Article 1. Definitions

§ 14100. Definitions.

All terms defined by Chapters 1 and 2, Statutes of 1971, First Extraordinary Session, and any amendments thereto, shall for the purpose of these rules and regulations be deemed to be used with the same force and effect as in said chapters except as expressly modified herein.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16142, 16144, 16154 and 65570, Government Code.

HISTORY

1. New Division 6 (Chapter §§ 14100 through 14125, not consecutive) filed 7–12–72; effective thirtieth day thereafter (Register 72, No. 29).
2. Amendment filed 10–2–73; effective thirtieth day thereafter (Register 73, No. 40).
3. Repealer of foreword for division 6 and amendment of NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).

§ 14101. "Act" Defined.

"Act" as used in these rules and regulations consists of Sections 16140–16154, 51200–51297.4, 66474.4, 65563, 65570 of the Government Code, Section 33321.5 of the Health and Safety Code, and Sections 421–430.5 of the Revenue and Taxation Code and any amendments thereto.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16142, 16144, 16154 and 65570, Government Code.

HISTORY

1. Amendment filed 10–2–73; effective thirtieth day thereafter (Register 73, No. 40).
2. Amendment of section and new NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).
3. Amendment filed 1–21–2003; operative 1–21–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14102. Terms Defined.

As used in these regulations, the following terms shall have the meanings noted:

(a) "Secretary" means the Secretary for Resources, State of California.

(b) "Governing Body" means the governing body of any county, city, or city and county.

(c) "Authorized Representative" means the individual appointed and authorized by resolution of the governing body to act on behalf of the governing body.

(d) "Effective Date" means the last day on which an instrument meeting requirements under Section 422 of the Revenue and Taxation Code can be signed or accepted and recorded, and the instrument is effective for assessment purposes and state payment in the forthcoming fiscal year.

(e) "Application Report" means the application and the accompanying material described in these regulations submitted to the Secretary for the determination of the eligibility and entitlement of a governing body for state payments under the Open Space Subvention Act.

(f) "Contract," "Agreement," "Scenic Restriction," and "Open Space Easement," shall have the meanings as defined in Section 421 of the Revenue and Taxation Code.

(g) "Enforceable Restriction" shall have the meaning as defined in Section 422 of the Revenue and Taxation Code.

(h) "Prime agricultural land" has the same meaning as provided in Government Code section 51201(c).

(i) "Director" shall mean the Director of the Department of Conservation.

(j) "Continuing" contract shall mean a contract that is not undergoing nonrenewal.

(k) "Non–prime land" shall mean any land other than prime agricultural land.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16142, 16144, 16154 and 65570, Government Code.

HISTORY

1. New subsections (h)–(j) and new NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).
2. New subsection (k) filed 1–21–2003; operative 1–21–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

Article 2. General Provisions

§ 14110. Filing of Application Reports.

Application reports for state payment shall be filed with the Secretary on or before October 31 of the year in which application is made according to instructions and on forms provided by the Secretary.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Section 16144, Government Code.

HISTORY

1. New NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).

§ 14110.1. County Filing of Application Reports for Lands Within Cities.

A county may claim on its application restricted acreage within the boundaries of a city, if:

(a) the county and each affected city adopt concurrent resolutions authorizing the county to claim restricted acreage on behalf of the city, and acknowleging a joint responsibility to enforce the contracts pursuant to section 51251 of the Government Code;

(b) each affected city shall include in the resolution required by subsection (a) verification that rules governing administration of the contracts, pursuant to Government Code Section 51231, have been adopted;

(c) the county shall identify the city contract lands and participating cities on the county application and map, and;

(d) the county shall include the resolutions and map with each application report pursuant to Section 14110.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16142, 16144, 16154 and 65570, Government Code.

HISTORY

1. New section filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).

§ 14111. Material to Accompany Application Reports.

Each application report filed with the Secretary shall include the following material:

(a) A resolution by the governing body authorizing the filing of the report and designating an authorized representative.

(b) A tabulation on Forms 100 (4/01), 101 (8/02), 102 (8/02), 102A (4/01), 103 (8/02), 104 (4/01), 105 (4/01), 106 (4/01), 107 (4/01), 108 (4/01), 109 (4/01), 110 (4/01), 111 (4/01), 112 (4/01), 113 (8/02), and 114 (4/01) provided by the Secretary, and incorporated by reference, summarizing the number of acres of land under the governing bodies' regulatory jurisdiction on the effective date, by each of the various categories as set forth in Section 422 of the Revenue and Tax Code qualified for state payments and the amounts of the state payments claimed pursuant to Section 16144 of the Government Code in accordance with the provisions in these regulations. The tabulation of non–prime lands shall indicate, by acreage, the section 14112(c) category under which payment is requested. The tabulation shall be certified by the authorized representative that the data given are correct and meet the criteria set forth in Section 14112 herein.

(c) A map showing the lands in the categories tabulated in (b) above. For the application report submitted for fiscal year 2000/2001, the map may be submitted in any reasonable form that certifies the land for which subvention payment is claimed. Beginning with the application report submitted for fiscal year 2001/2002, the map must be prepared as follows:

(1) The map must include the following information:

(A) The location and category of all lands tabulated in accordance with sub–section (b), above.

(B) The location and category of all enforceably restricted lands enrolled under contracts entered into pursuant to Section 51240 of the Gov-

ernment Code that are not otherwise tabulated in accordance with sub–section (b), above.

(C) If applicable, the location and type of enforceable restriction, as defined in Revenue and Taxation Code Section 422 for a scenic restriction entered into prior to January 1, 1975, an open space easement, or a wildlife habitat contract for which subventions are claimed.

(D) The boundaries of agricultural preserves established pursuant to Section 51230 of the Government Code.

(2) For all maps submitted pursuant to this section, the following production standards must be followed:

(A) The boundaries of all lands specified by sub–section (1), above, must be clearly and precisely delineated.

(B) Areas of 40 acres or more of lands specified by sub–section (1), above, must be shown on the map.

(C) Delineation within each parcel must be made, whenever possible, to indicate distinctions between land categories that exist within the parcel or parcels.

(3) Local governmental jurisdiction that use a computer–based mapping system for the purpose of mapping the location of lands specified by sub–section (1), above, may submit the map in a digital, electronic file format that is accessible by the Department. For map submittals of this type, the following additional production standards must be followed:

(A) Boundaries of land specified by sub–section (1), above, which are bounded by physical or cultural features, must accurately coincide with those features as the features are represented on reliable and readily available base maps such as the United States Geological Survey Topographic Quadrangle Map Series.

(B) The delineation of lands specified under subsection (1), above, must be based on original information no smaller than 1:125,000 in scale.

(C) The digital, electronic map file must include written documentation containing the following information: 1) the scale, map projection system, if any, and map coordinate system, if any, that was used to create and store the digital, electronic map file; and 2) a description of the computer–based mapping system used to create the digital, electronic map file, including the name of any proprietary file format.

(4) Local governmental jurisdictions that do not use a computer–based mapping system for the purpose of recording the location of lands specified under sub–section (1), above, must submit a map produced using a stable, durable material such as presentation–grade drafting film or paper. For map submittals of this type, the following additional production standards must be followed:

(A) Prominent physical and cultural features, such as county or city boundaries, major transportation routes, drainage courses, inland water bodies, and major population centers, must be clearly represented. Wherever the boundaries of lands specified by sub–section (1) above, coincide with such features, the boundaries must be represented in such a way that it is clear to the reader of the map that the boundary in fact coincides with the physical or cultural feature.

(B) The preferred scale for production is 1:100,000; the map must be produced at a scale no smaller than 1:125,000 and no larger than 1:60,000. The scale used must be clearly identified on the map.

(C) The type of map projection system used must be clearly identified on the map.

(D) Labeled reference marks or grid lines must be used whenever possible to indicate the location of the area depicted on the map relative to a commonly used coordinate system such as the public lands survey system or latitude and longitude.

(5) Local governmental jurisdictions may request consultation and technical assistance from the Department for the purpose of meeting the requirements of sub–sections (1–4) above.

(6) Local governmental jurisdictions that submit maps substantially meeting the criteria listed under sub–sections (1–4) above, may, on or before December 31 of each year, request that the Department incorporate the map submitted pursuant to this section into the Department's own computer–based mapping system. Contingent upon the availability of necessary resources the Department may incorporate within its computer–based mapping system the original map as submitted by the local governmental jurisdiction. If the local governing body chooses to adopt this file as its official map for purposes of meeting the requirements of this section, the following criteria shall apply in lieu of the normal requirement to submit an original map with each annual application report:

(A) For the year immediately following that for which the local governmental jurisdiction's initial map file with the Department is current, and for every second year thereafter, the local governmental jurisdiction must submit copies of assessor parcel maps that depict the location of parcels affected by changes to the number of acres of land specified under sub–section (1) above.

(B) For the second year immediately following that for which the local governmental jurisdiction's initial map file is current, and for every second year thereafter, the local governmental jurisdiction must submit materials needed to update the map file. The materials supplied by the local governmental jurisdiction for this purpose must be adequate to allow the map file to be updated in a manner consistent with the guidelines listed under subsections (1–4) above.

(d) A sample of each form of contract, agreement, scenic restriction, or open space easement used for placing land under enforceable restrictions if:

(1) The format of the document has been changed since the last application report; or

(2) A governing body is submitting an application report for the first time.

(e) If changed since the previous year's application report was filed with the Secretary, or not otherwise previously provided, the governing body's rules for the administration of agricultural preserves, including an enumeration of compatible uses as required by Government Code Section 51231 and any amendments thereof, as well as the governing body's designation of minimum parcel sizes for lands in agricultural preserves and/or subject to contract and rules governing the subdivision of lands subject to contract.

(f) If changed since the previous year's application report, and unless otherwise available through the California Environmental Resources Evaluation System (CERES), the open space element pursuant to Article 10.5, Chapter 3, Division 1 of Title 7 of the Government Code of the governing body's general plan, including a map of open space lands designated in the open space element, if available.

(g) A listing of all enforceable restrictions which were terminated, including the acreage involved, in the intervening year through any of the following:

(1) completion of contract nonrenewal pursuant to Government Code Section 51246.

(2) annexation pursuant to a city protest filed prior to January 1, 1991 pursuant to Government Code sections 51243–51243.5 The County shall also provide the name of the City and date of the resolution pursuant to Government Code Section 56844.2 that the City will not to succeed to the contract.

(3) contract rescision pursuant to Government Code Section 51256.

(4) cancellation pursuant to Government Code Sections 51280–51286 and 51297. The City or County shall specify the date of the final cancellation and the amount of the cancellation fee.

(5) acquisition for a public improvement pursuant to Government Code Section 51295, including a brief description of the public improvement.

(h) A list of contracts and corresponding acreage for which nonrenewal has been initiated in the intervening year pursuant to Government Code Section 51245.

(i) A list of all continuing contracts or other enforceable restrictions on land annexed by a city pursuant, including the name and address of the city assuming jurisdiction over the restriction.

(j) Such other material as the Secretary may require.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16142, 16142.1, 16144, 16154, 51207 and 65570, Government Code.

HISTORY

1. Amendment of subsection (b) filed 10–2–73; effective thirtieth day thereafter (Register 73, No. 40).
2. Amendment of subsections (a)–(c), new subsections (c)(1)–(c)(6)(B) and (e)–(i), subsection relettering, and new NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).
3. Amendment of subsection (b) and amendment of NOTE filed 10–3–2001; operative 10–3–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 40).
4. Amendment of subsections (b) and (g)(4) and amendment of NOTE filed 1–21–2003; operative 1–21–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14112. Determination of Eligibility.

(a) Eligibility of land for payment shall be determined in accordance with the provisions of the Act and these regulations. Land, which in the opinion of the Secretary is eligible, must be subject to an enforceable restriction and must have been assessed pursuant to Section 423, 423.3, 423.4, 423.5, or 426 if previously assessed under Revenue and Taxation Code section 423.4 and eligible pursuant to Government Code section 16142(c), and the governing body having jurisdiction over the land must have a local open space plan as required by Section 65563 of the Government Code. However, to be eligible, the land assessed pursuant to one of the above code sections need not be designated as open space in the plan, except as noted in the following subdivisions.

(b) The Secretary shall be the final judge of whether nonprime land devoted to open space use is of statewide significance. Only those nonprime lands devoted to open space use as defined in Section 51201 and Section 65560 of the Government Code which are designated for open space use in a local open space plan and which meet the criteria set forth in subdivision (c) shall be considered as land devoted to open space use of statewide significance and eligible for payment.

(c) Land shall be deemed to be devoted to open space use of statewide significance within the meaning of this section and Section 16143 of the Government Code if it meets at least one of the following criteria:

(1) Areas of outstanding scientific, scenic and recreation value.

(2) Areas which are required as habitat for significant fish and wildlife resources, including rare and endangered species.

(3) Forest and agricultural lands which are judged to be of major importance in meeting future needs for food, fiber, and timber.

(4) Areas which provide green space and open areas in and around high–density metropolitan development.

(5) Areas which are required to provide needed access to coastal beaches, lakeshores, and riverbanks.

(6) Areas which require special development regulation because of hazardous or special conditions, such as earthquake fault zones, unstable slide areas, flood plains, and watersheds.

(7) Areas which serve as connecting links between major public recreation and open space sites, such as utility easements, streambanks, trails, and scenic highway corridors.

(8) Areas of major historic or cultural interest.

(d) When determining whether enforceably restricted land meets the definition of prime agricultural land pursuant to Government Code section 51201(c)(1) and (2), a participating local government shall rely on the most current information suitable for that purpose. When determining whether enforceably restricted land meets the definition of prime agricultural land pursuant to Government Code section 51201(c)(3), (4) or (5), a participating local government shall rely on information derived from the assessment for the year in which the subvention claim is made, pursuant to subdivision (a) of this section."

(e) Agricultural conservation easements executed and approved pursuant to the provisions of Public Resources Code section 10200 through 10277 or Government Code sections 51256 and 51256.1 shall be eligible for payment.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16140, 16141, 16142, 16143, 51201, 51256 and 51256.1, Government Code; and Section 10211, Public Resources Code.

HISTORY

1. Amendment of subsection (d) filed 10–2–73; effective thirtieth day thereafter (Register 73, No. 40).
2. Amendment of section and new NOTE filed 1–21–2003; operative 1–21–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14113. Computation of the Amount of Entitlement.

The necessary computations to determine the amount of entitlement under the Act shall be made on a parcel–by–parcel basis by the governing body in accordance with Section 16142 of the Government Code, and the provisions of these regulations.

(a) To determine the total entitlement for each parcel that exceeds 40 acres, computations shall be made for all categories of open space land within the single parcel. Entitlements for parcels of 40 acres or less shall be determined by the category to which the major part of the area is assigned. Computations shall be made to the nearest 10 acres or less. Nothing in this subsection shall apply to any determination of the minimum legal size pursuant to Government Code Sections 51222, 66474.4, and/or any applicable State or local ordinance or rule regarding enrollment or subdivision of legal parcels subject to an enforceable restriction.

(b) The following types of lands shall not be entitled to payment:

(1) Acreage devoted to residential use and assessed pursuant to Section 428 of the Revenue and Taxation Code.

(2) Acreage assessed under Section 426, unless previously assessed under Revenue and Taxation Code section 423.4 and eligible pursuant to 16142(c) of the Government Code;

(3) Acreage enforceably restricted pursuant to the Open Space Easement Act of 1974 (Chapter 6.6 (commencing with Section 51070) of Part 1 of Division 1 of Title 5 of the Government Code);

(4) Parcels subject to contracts which are of less than 40 acres for Open Space Land of Statewide Significance, unless such parcels are contiguous to other restricted lands comprising more than 40 acres total, are subject to a written joint management agreement involving noncontiguous parcels which total more than 40 acres, or the board or council specifically finds these parcels will sustain commercial agricultural use; or

(5) Contracted acreage which is valued lower under Revenue and Taxation Code Section 110.1 than under Revenue and Taxation Code Section 423, 423.3 or 423.5.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16140, 16141, 16142 and 51222, Government Code.

HISTORY

1. Amendment filed 10–2–73; effective thirtieth day thereafter (Register 73, No. 40).
2. Amendment of section and new NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).
3. Amendment of subsection (b)(2) filed 1–21–2003; operative 1–21–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14114. Retention of Computations.

Governing bodies shall retain all computations and supporting documents for determining the amount of entitlement and will make them available to the Secretary, Director, State Board of Equalization or State Controller for audit upon request. Where such documents are otherwise privileged or confidential, such records shall not become public records upon transfer to a State agency as provided in this subsection. Retention of records regarding assessment of lands shall be for a period of six years. Retention of other records regarding contract administration and enforcement, including but not limited to compatible use determinations, subdivision and permit approvals, and cancellation decisions and valuations pursuant to Section 51283 of the Government Code, shall continue as long as the effected contract remains in effect plus nine years.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16146 and 16154, Government Code.

HISTORY

1. Amendment of section and new NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).
2. Amendment filed 1–21–2003; operative 1–21–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14115. Incomplete Application Records.

If the Secretary determines that an application report is improperly completed or incomplete, the governing body, upon written notification

by the Department, shall re-submit or submit additional information requested by the Department.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 16144 and 16146, Government Code.

HISTORY

1. Amendment filed 10-2-73; effective thirtieth day thereafter (Register 73, No. 40).
2. New NOTE filed 5-19-2000; operative 6-18-2000 (Register 2001, No. 3).
3. Renumbering of former section 14115 to section 14116 and renumbering of section 14116 to section 14115, including amendment of section heading, section and NOTE, filed 1-21-2003; operative 1-21-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14116. Review by Secretary.

Upon receipt of a properly completed application report, the Secretary will review it to determine the eligibility of the local government to receive payment and the amount to which it is entitled in accordance with the provisions of Section 16144 of the Government Code.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Section 16144, Government Code.

HISTORY

1. New NOTE filed 5-19-2000; operative 6-18-2000 (Register 2001, No. 3).
2. Renumbering of former section 14116 to section 14115 and renumbering of former section 14115 to section 14116 filed 1-21-2003; operative 1-21-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

§ 14117. Certification of Payment.

The Secretary, after determining the amount to which the governing body is entitled, shall certify the amount to the State Controller for payment.

(a) Annual entitlements may be certified for payment by the Secretary beginning in August of each year as the review of each application report pursuant to Section 14110 is completed, and in the order that each is determined to be complete and accurate.

(b) Application reports received after April 30 shall not be certified for payment by the Secretary until all application reports received pursuant to Section 14110 prior to April 30 have been certified for payment. The Secretary may delay payments on application reports received after April 30 until the following fiscal year. Notwithstanding Section 14118 reports received after October 31 of the following fiscal year are not eligible for payment.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Section 16144, Government Code.

HISTORY

1. Amendment of section and new NOTE filed 5-19-2000; operative 6-18-2000 (Register 2001, No. 3).

§ 14118. Adjustments.

(a) New or additional information pertaining to eligibility or entitlement may be submitted by a governing body at any time up to and including October 31 of the year following submission of a timely application report to which the information pertains. Based on this information, the Secretary may make supplemental reports to the State Controller in accordance with Section 16144 of the Government Code.

(b) Where the Secretary determines that an overpayment was made, deductions against an entitlement paid in accordance with provisions of Section 14113 may be made in subsequent years to correct such overpayment. When changes to entitlement claims are due to corrections in governing body records, or improvements to record-keeping systems, the governing body shall provide, when requested by the Secretary, documentation of the changes on a contract-by-contract or parcel-by-parcel basis. In addition, the Secretary may deduct cancellation fees which have not been collected or transmitted within the time frame required by Section 51283 of the Government Code.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Section 16144, Government Code.

HISTORY

1. Amendment filed 10-2-73; effective thirtieth day thereafter (Register 73, No. 40).
2. Amendment of section and new NOTE filed 5-19-2000; operative 6-18-2000 (Register 2001, No. 3).

§ 14119. Determination of Ineligibility; Failure to Enforce.

(a) In the event the Department finds that the Act as defined in this chapter, or any enforceable restriction, is violated by a county or city receiving open space subventions, the Department shall notify that city or county that the violation may result in a determination of ineligibility for open space subventions pursuant to Government Code 16146. Within 60 calendar days of receiving such notice, the city or county may request a hearing to contest the finding that a violation has occurred. Should the city or county fail to respond to this notice, otherwise fail to remedy the violation, or if the Department's finding of a violation be upheld following a hearing, the Director may certify to the controller that the city or county is ineligible to receive open space subventions.

(b) Nothing in this section shall limit the Secretary or Director's authority to otherwise pursue enforcement actions authorized by other state laws including but not limited to Government Code sections 16147 or 51294. A determination regarding subventions pursuant to this section shall not be construed as terminating the enforceable restriction in question.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Section 16144, Government Code.

HISTORY

1. New section filed 5-19-2000; operative 6-18-2000 (Register 2001, No. 3).

§ 14120. Hearings.

(a) Upon receiving notification of a violation pursuant to section 14119, or notification of an adjustment pursuant to section 14118, the city or county shall have the right to request an informal hearing with the Department of Conservation pursuant to Government Code section 11445.10 et seq.

(b) Within 60 calendar days from receipt of a notification of a violation or notification of an adjustment, the city or county may deliver or mail to the director of the Department, a written request for a hearing. Such request shall include a statement of the basis for contesting the notice.

(c) The director of the department shall schedule the hearing no more than 45 calendar days from receipt of the city or county's written request, and shall notify the city or county in writing of the date set for the hearing.

(d) Failure to submit a written request for a hearing within 60 calendar days from receipt of a notification of a violation or an adjustment shall constitute a waiver of the city or county's right to a hearing.

(e) The director shall make a determination based upon review of the facts, information, and evidence presented at the hearing.

(f) The city or county shall be notified of the director's determination in writing within 15 calendar days from the date of the hearing.

NOTE: Authority cited: Sections 16146 and 65570, Government Code. Reference: Sections 16146 and 11445.20(c), Government Code.

HISTORY

1. New section filed 1-21-2003; operative 1-21-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 4).

Article 3. Special Provisions

§ 14125. Waiver of Cancellation Fee for Terminating Open Space Easements and Agricultural Preserve Contracts.

In accordance with Sections 51061 and 51283 of the Government Code, when a governing body finds it in the public interest to waive the fee for abandoning open space easements or cancelling any Land Conservation Act contract or agreement for agricultural preserves and that such waiver or extension of time to pay following final cancellation otherwise comports with the requirements of Government Code sections 51061 or 51283, the governing body shall make a written request for approval of the waiver by the Secretary and provide the following information:

(a) Date of the public hearing as required by Sections 51284 and 51061 of the Government Code.

(b) A map showing the assessor's parcel number, size and location of the parcel and the relationship of the parcel to adjoining parcels.

(c) Present land use of the parcel.

(d) Proposed land use of the parcel and when the change in land use will occur.

(e) The amount of the cancellation or abandonment fee and the basis for its calculation, including how the valuation of the land pursuant to Subsections 51283(a) or 51061 was determined. A statement of the conditions shall be submitted for partial waivers.

(f) A narrative fully explaining the basis for cancellation or abandonment, including approved findings and a detailed summary of substantial evidence to support each finding, and the reason or reasons for determining that a waiver of the cancellation or abandonment fee is in the public interest pursuant to Sections 51283(c)(2) or 51061 of the Government Code.

NOTE: Authority cited: Sections 16144, 16154 and 65570, Government Code. Reference: Sections 51061 and 51283, Government Code.

HISTORY

1. Amendment of section and new NOTE filed 5–19–2000; operative 6–18–2000 (Register 2001, No. 3).

Chapter 2.5. Dredging Projects in San Francisco Bay

NOTE: Authority cited: Section 162, Harbors and Navigation Code.

HISTORY

1. New Chapter 2.5, Articles 1–5 (Sections 14200–14272, not consecutive) filed 12–19–75; effective thirtieth day thereafter (Register 75, No. 51).
2. Repealer of Chapter 2.5 (Article 1–5, Sections 14200–14272, not consecutive) filed 1–7–82; effective thirtieth day thereafter (Register 82, No. 2).

Chapter 3. Guidelines for Implementation of the California Environmental Quality Act

(State EIR Guidelines)

(Originally Printed 2–10–73)

Article 1. General

§ 15000. Authority.

The regulations contained in this chapter are prescribed by the Secretary for Resources to be followed by all state and local agencies in California in the implementation of the California Environmental Quality Act. These Guidelines have been developed by the Office of Planning and Research for adoption by the Secretary for Resources in accordance with Section 2108–3. Additional information may be obtained by writing:

SECRETARY FOR RESOURCES
ROOM 1311, 1416 NINTH STREET
SACRAMENTO, CA 95814

These Guidelines are binding on all public agencies in California.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082 and 21083, Public Resources Code; *City of Santa Ana* v. *City of Garden Grove*, (1979) 100 Cal. App. 3d 521.

HISTORY

1. New Chapter 3, Articles 1 through 10 (§§ 15000 through 15166, not consecutive) filed 2–7–73; designated effective upon filing as provided in Section 21083, Public Resources Code (Register 73, No. 6).
2. Amendment filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
3. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15001. Short Title.

These Guidelines may be cited as the "State CEQA Guidelines." Existing references to the "State EIR Guidelines" shall be construed to be references to the "State CEQA Guidelines."

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083, Public Resources Code.

HISTORY

1. New section filed 1–3–75; designated effective 4–1–75 (Register 75, No. 1).
2. Amendment filed 1–7–82; effective thirtieth day thereafter (Register 82, No. 2).
3. Amendment filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
4. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
5. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15002. General Concepts.

(a) Basic Purposes of CEQA. The basic purposes of CEQA are to:

(1) Inform governmental decision makers and the public about the potential, significant environmental effects of proposed activities.

(2) Identify ways that environmental damage can be avoided or significantly reduced.

(3) Prevent significant, avoidable damage to the environment by requiring changes in projects through the use of alternatives or mitigation measures when the governmental agency finds the changes to be feasible.

(4) Disclose to the public the reasons why a governmental agency approved the project in the manner the agency chose if significant environmental effects are involved.

(b) Governmental Action. CEQA applies to governmental action. This action may involve:

(1) Activities directly undertaken by a governmental agency,

(2) Activities financed in whole or in part by a governmental agency, or

(3) Private activities which require approval from a governmental agency.

(c) Private Action. Private action is not subject to CEQA unless the action involves governmental participation, financing, or approval.

(d) Project. A "project" is an activity subject to CEQA. The term "project" has been interpreted to mean far more than the ordinary dictionary definition of the term. See Section 15378.

(e) Time for Compliance. A governmental agency is required to comply with CEQA procedures when the agency proposes to carry out or approve the activity. See Section 15004.

(f) Environmental Impact Reports and Negative Declarations. An environmental impact report (EIR) is the public document used by the governmental agency to analyze the significant environmental effects of a proposed project, to identify alternatives, and to disclose possible ways to reduce or avoid the possible environmental damage.

(1) An EIR is prepared when the public agency finds substantial evidence that the project may have a significant effect on the environment. See Section 15064(a)(1).

(2) When the agency finds that there is no substantial evidence that a project may have a significant environmental effect, the agency will prepare a "Negative Declaration" instead of an EIR. See Section 15070.

(g) Significant Effect on the Environment. A significant effect on the environment is defined as a substantial adverse change in the physical conditions which exist in the area affected by the proposed project. See Section 15382. Further, when an EIR identifies a significant effect, the government agency approving the project must make findings on whether the adverse environmental effects have been substantially reduced or if not, why not. See Section 15091.

(h) Methods for Protecting the Environment. CEQA requires more than merely preparing environmental documents. The EIR by itself does not control the way in which a project can be built or carried out. Rather, when an EIR shows that a project could cause substantial adverse changes in the environment, the governmental agency must respond to the information by one or more of the following methods:

(1) Changing a proposed project;

(2) Imposing conditions on the approval of the project;

(3) Adopting plans or ordinances to control a broader class of projects to avoid the adverse changes;

(4) Choosing an alternative way of meeting the same need;

(5) Disapproving the project;

(6) Finding that changes in, or alterations, the project are not feasible.

(7) Finding that the unavoidable, significant environmental damage is acceptable as provided in Section 15093.

(i) Discretionary Action. CEQA applies in situations where a governmental agency can use its judgment in deciding whether and how to carry out or approve a project. A project subject to such judgmental controls is called a "discretionary project." See Section 15357.

(1) Where the law requires a governmental agency to act on a project in a set way without allowing the agency to use its own judgment, the project is called "ministerial," and CEQA does not apply. See Section 15369.

(2) Whether an agency has discretionary or ministerial controls over a project depends on the authority granted by the law providing the controls over the activity. Similar projects may be subject to discretionary controls in one city or county and only ministerial controls in another. See Section 15268.

(j) Public Involvement. Under CEQA, an agency must solicit and respond to comments from the public and from other agencies concerned with the project. See Sections 15073, 15086, 15087 and 15088.

(k) Three Step Process. An agency will normally take up to three separate steps in deciding which document to prepare for a project subject to CEQA.

(1) In the first step the lead agency examines the project to determine whether the project is subject to CEQA at all. If the project is exempt, the process does not need to proceed any farther. The agency may prepare a notice of exemption. See Sections 15061 and 15062.

(2) If the project is not exempt, the lead agency takes the second step and conducts an initial study (Section 15063) to determine whether the project may have a significant effect on the environment. If the initial study shows that there is no substantial evidence that the project may have a significant effect, the lead agency prepares a negative declaration. See Sections 15070 et seq.

(3) If the initial study shows that the project may have a significant effect, the lead agency takes the third step and prepares an EIR. See Sections 15080 et seq.

(*l*) Certified Equivalent Programs. A number of environmental regulatory programs have been certified by the Secretary of the Resources Agency as involving essentially the same consideration of environmental issues as is provided by use of EIRs and negative declarations. Certified programs are exempt from preparing EIRs and negative declarations but use other documents instead. Certified programs are discussed in Article 17 and are listed in Section 15251.

(m) This section is intended to present the general concepts of CEQA in a simplified and introductory manner. If there are any conflicts between the short statement of a concept in this section and the provisions of other sections of these guidelines, the other sections shall prevail.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000–21176, Public Resources Code; *No Oil, Inc.* v. *City of Los Angeles*, 13 Cal. 3d 68 (1974); *Running Fence Corp.* v. *Superior Court*, 15 Cal. App. 3d 400 (1975).

HISTORY

1. New section filed 5–8–80; effective thirtieth day thereafter (Register 80, No. 19).
2. Amendment filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
3. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15003. Policies.

In addition to the policies declared by the Legislature concerning environmental protection and administration of CEQA in Sections 21000, 21001, 21002, and 21002.1 of the Public Resources Code, the courts of this state have declared the following policies to be implicit in CEQA:

(a) The EIR requirement is the heart of CEQA. (*County of Inyo v. Yorty*, 32 Cal. App. 3d 795.)

(b) The EIR serves not only to protect the environment but also to demonstrate to the public that it is being protected. (*County of Inyo v. Yorty*, 32 Cal. App. 3d 795.)

(c) The EIR is to inform other governmental agencies and the public generally of the environmental impact of a proposed project. (*No Oil, Inc. v. City of Los Angeles*, 13 C. 3d 68.)

(d) The EIR is to demonstrate to an apprehensive citizenry that the agency has, in fact, analyzed and considered the ecological implications of its action. (*People ex rel. Department of Public Works v. Bosio*, 47 Cal. App. 3d 495.)

(e) The EIR process will enable the public to determine the environmental and economic values of their elected and appointed officials thus allowing for appropriate action come election day should a majority of the voters disagree. (*People v. County of Kern*, 39 Cal. App. 3d 830.)

(f) CEQA was intended to be interpreted in such a manner as to afford the fullest possible protection to the environment within the reasonable scope of the statutory language. (*Friends of Mammoth v. Board of Supervisors*, 8 Cal. 3d 247.)

(g) The purpose of CEQA is not to generate paper, but to compel government at all levels to make decisions with environmental consequences in mind. (*Bozung v. LAFCO* (1975) 13 Cal.3d 263)

(h) The lead agency must consider the whole of an action, not simply its constituent parts, when determining whether it will have a significant environmental effect. (*Citizens Assoc. For Sensible Development of Bishop Area v. County of Inyo* (1985) 172 Cal.App.3d 151)

(i) CEQA does not require technical perfection in an EIR, but rather adequacy, completeness, and a good-faith effort at full disclosure. A court does not pass upon the correctness of an EIR's environmental conclusions, but only determines if the EIR is sufficient as an informational document. (*Kings County Farm Bureau v. City of Hanford* (1990) 221 Cal.App.3d 692)

(j) CEQA requires that decisions be informed and balanced. It must not be subverted into an instrument for the oppression and delay of social, economic, or recreational development or advancement. (*Laurel Heights Improvement Assoc. v. Regents of U.C.* (1993) 6 Cal.4th 1112 and *Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal.3d 553)

HISTORY

1. New section filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Editorial correction of 7–13–83 order filed 7–26–83 (Register 83, No. 33).
4. New subsections (g)–(j) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
5. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15004. Time of Preparation.

(a) Before granting any approval of a project subject to CEQA, every lead agency or responsible agency shall consider a final EIR or negative declaration or another document authorized by these guidelines to be used in the place of an EIR or negative declaration. See the definition of "approval" in Section 15352.

(b) Choosing the precise time for CEQA compliance involves a balancing of competing factors. EIRs and negative declarations should be prepared as early as feasible in the planning process to enable environmental considerations to influence project program and design and yet late enough to provide meaningful information for environmental assessment.

(1) With public projects, at the earliest feasible time, project sponsors shall incorporate environmental considerations into project conceptualization, design, and planning. CEQA compliance should be completed prior to acquisition of a site for a public project.

[The next page is 665.]

(2) To implement the above principles, public agencies shall not undertake actions concerning the proposed public project that would have a significant adverse effect or limit the choice of alternatives or mitigation measures, before completion of CEQA compliance. For example, agencies shall not:

(A) Formally make a decision to proceed with the use of a site for facilities which would require CEQA review, regardless of whether the agency has made any final purchase of the site for these facilities, except that agencies may designate a preferred site for CEQA review and may enter into land acquisition agreements when the agency has conditioned the agency's future use of the site on CEQA compliance.

(B) Otherwise take any action which gives impetus to a planned or foreseeable project in a manner that forecloses alternatives or mitigation measures that would ordinarily be part of CEQA review of that public project.

(3) With private projects, the Lead Agency shall encourage the project proponent to incorporate environmental considerations into project conceptualization, design, and planning at the earliest feasible time.

(c) The environmental document preparation and review should be coordinated in a timely fashion with the existing planning, review, and project approval processes being used by each public agency. These procedures, to the maximum extent feasible, are to run concurrently, not consecutively. When the lead agency is a state agency, the environmental document shall be included as part of the regular project report if such a report is used in its existing review and budgetary process.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21105, Public Resources Code; *Friends of Mammoth* v. *Board of Supervisors*, (1972) 8 Cal. 3d 247; *Mount Sutro Defense Committee* v. *Regents of the University of California*, (1978) 77 Cal. App. 3d 20.

HISTORY

1. New section filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. New subsections (b)(2)–(b)(2)(B), subsection renumbering, amendment of subsection (c), and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15005. Terminology.

The following words are used to indicate whether a particular subject in the Guidelines is mandatory, advisory, or permissive:

(a) "Must" or "shall" identifies a mandatory element which all public agencies are required to follow.

(b) "Should" identifies guidance provided by the Secretary for Resources based on policy considerations contained in CEQA, in the legislative history of the statute, or in federal court decisions which California courts can be expected to follow. Public agencies are advised to follow this guidance in the absence of compelling, countervailing considerations.

(c) "May" identifies a permissive element which is left fully to the discretion of the public agencies involved.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082 and 21083, Public Resources Code.

HISTORY

1. New section filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For history of former section, see Register 75, No. 1.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Editorial correction of 7–13–83 order filed 7–26–83 (Register 83, No. 33).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15006. Reducing Delay and Paperwork.

Public agencies should reduce delay and paperwork by:

(a) Integrating the CEQA process into early planning. (15004(c))

(b) Ensuring the swift and fair resolution of lead agency disputes. (15053)

(c) Identifying projects which fit within categorical exemptions and are therefore exempt from CEQA processing. (15300.4)

(d) Using initial studies to identify significant environmental issues and to narrow the scope of EIRs. (15063)

(e) Using a negative declaration when a project not otherwise exempt will not have a significant effect on the environment. (15070)

(f) Using a previously prepared EIR when it adequately addresses the proposed project. (15153)

(g) Consulting with state and local responsible agencies before and during preparation of an environmental impact report so that the document will meet the needs of all the agencies which will use it. (15083)

(h) Urging applicants, either before or after the filing of an application, to revise projects to eliminate possible significant effects on the environment, thereby enabling the project to qualify for a negative declaration rather than an environmental impact report. (15063(c)(2))

(i) Integrating CEQA requirements with other environmental review and consulting requirements. (Public Resources Code Section 21080.5)

(j) Eliminating duplication with federal procedures by providing for joint preparation of environmental documents with federal agencies and by adopting completed federal NEPA documents. (15227)

(k) Emphasizing consultation before an environmental impact report is prepared, rather than submitting adversary comments on a completed document. (15082(b))

(*l*) Combining environmental documents with other documents such as general plans. (15166)

(m) Eliminating repetitive discussions of the same issues by using environmental impact reports on programs, policies, or plans and tiering from reports of broad scope to those of narrower scope. (15152)

(n) Reducing the length of environmental impact reports by means such as setting appropriate page limits. (15141)

(o) Preparing analytic rather than encyclopedic environmental impact reports. (15142)

(p) Mentioning only briefly issues other than significant ones in EIRs. (15143)

(q) Writing environmental impact reports in plain language. (15140)

(r) Following a clear format for environmental impact reports. (15120)

(s) Emphasizing the portions of the environmental impact report that are useful to decision–makers and the public and reducing emphasis on background material. (15143)

(t) Using incorporation by reference. (15150)

(u) Making comments on environmental impact reports as specific as possible. (15204)

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003 and 21083, Public Resources Code.

HISTORY

1. New section filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For history of former section, see Register 80, No. 19.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Amendment of subsections (g), (m) and (u) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15007. Amendments.

(a) These guidelines will be amended from time to time to match new developments relating to CEQA.

(b) Amendments to the guidelines apply prospectively only. New requirements in amendments will apply to steps in the CEQA process not yet undertaken by the date when agencies must comply with the amendments.

(c) If a document meets the content requirements in effect when the document is set out for public review, the document shall not need to be revised to conform to any new content requirements in guideline amendments taking effect before the document is finally approved.

(d) Public agencies shall comply with new requirements in amendments to the guidelines beginning with the earlier of the following two dates:

(1) The effective date of the agency's procedures amended to conform to the new guideline amendments; or

(2) The 120th day after the effective date of the guideline amendments.

(e) Public agencies may implement any permissive or advisory elements of the guidelines beginning with the effective date of the guideline amendments.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082–21086, Public Resources Code; *Stevens* v. *City of Glendale*, 125 Cal. App. 3d 986.

HISTORY

1. New section filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 2. General Responsibilities

§ 15020. General.

Each public agency is responsible for complying with CEQA and these Guidelines. A public agency must meet its own responsibilities under CEQA and shall not rely on comments from other public agencies or private citizens as a substitute for work CEQA requires the lead agency to accomplish. For example, a lead agency is responsible for the adequacy of its environmental documents. The lead agency shall not knowingly release a deficient document hoping that public comments will correct defects in the document.

HISTORY

1. Repealer of Article 2 (Sections 15005 and 15006) and new Article 2 (Sections 15020–15025) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 80, No. 19; 75, No. 1; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15021. Duty to Minimize Environmental Damage and Balance Competing Public Objectives.

(a) CEQA establishes a duty for public agencies to avoid or minimize environmental damage where feasible.

(1) In regulating public or private activities, agencies are required to give major consideration to preventing environmental damage.

(2) A public agency should not approve a project as proposed if there are feasible alternatives or mitigation measures available that would substantially lessen any significant effects that the project would have on the environment.

(b) In deciding whether changes in a project are feasible, an agency may consider specific economic, environmental, legal, social, and technological factors.

(c) The duty to prevent or minimize environmental damage is implemented through the findings required by Section 15091.

(d) CEQA recognizes that in determining whether and how a project should be approved, a public agency has an obligation to balance a variety of public objectives, including economic, environmental, and social factors and in particular the goal of providing a decent home and satisfying living environment for every Californian. An agency shall prepare a statement of overriding considerations as described in Section 15093 to reflect the ultimate balancing of competing public objectives when the agency decides to approve a project that will cause one or more significant effects on the environment.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000, 21001, 21002, 21002.1 and 21081, Public Resources Code; *San Francisco Ecology Center* v. *City and County of San Francisco*, (1975) 48 Cal. App. 3d 584; *Laurel Hills Homeowners Association* v. *City Council*, (1978) 83 Cal. App. 3d 515.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15022. Public Agency Implementing Procedures.

(a) Each public agency shall adopt objectives, criteria, and specific procedures consistent with CEQA and these Guidelines for administering its responsibilities under CEQA, including the orderly evaluation of projects and preparation of environmental documents. The implementing procedures should contain at least provisions for:

(1) Identifying the activities that are exempt from CEQA. These procedures should contain:

(A) Provisions for evaluating a proposed activity to determine if there is no possibility that the activity may have a significant effect on the environment.

(B) A list of projects or permits over which the public agency has only ministerial authority.

(C) A list of specific activities which the public agency has found to be within the categorical exemptions established by these guidelines.

(2) Conducting initial studies.

(3) Preparing negative declarations.

(4) Preparing draft and final EIRs.

(5) Consulting with and obtaining comments from other public agencies and members of the public with regard to the environmental effects of projects.

(6) Assuring adequate opportunity and time for public review and comment on the Draft EIR or Negative Declaration.

(7) Evaluating and responding to comments received on environmental documents.

(8) Assigning responsibility for determining the adequacy of an EIR or negative declaration.

(9) Reviewing and considering environmental documents by the person or decision making body who will approve or disapprove a project.

(10) Filing documents required or authorized by CEQA and these Guidelines.

(11) Providing adequate comments on environmental documents which are submitted to the public agency for review.

(12) Assigning responsibility for specific functions to particular units of the public agency.

(13) Providing time periods for performing functions under CEQA.

(b) Any district, including a school district, need not adopt objectives, criteria, and procedures of its own if it uses the objectives, criteria, and procedures of another public agency whose boundaries are coterminous with or entirely encompass the district.

(c) Public agencies should revise their implementing procedures to conform to amendments to these guidelines within 120 days after the effective date of the amendments. During the period while the public agency is revising its procedures, the agency must conform to any statutory changes in the California Environmental Quality Act that have become effective regardless of whether the public agency has revised its formally adopted procedures to conform to the statutory changes.

(d) In adopting procedures to implement CEQA, a public agency may adopt the State CEQA Guidelines through incorporation by reference. The agency may then adopt only those specific procedures or provisions described in subsection (a) which are necessary to tailor the general provisions of the guidelines to the specific operations of the agency. A public agency may also choose to adopt a complete set of procedures identifying in one document all the necessary requirements.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082, 21100.2 and 21151.5, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15023. Office of Planning and Research (OPR).

(a) From time to time OPR shall review the State CEQA Guidelines and shall make recommendations for amendments to the Secretary for Resources.

(b) OPR shall receive and evaluate proposals for adoption, amendment, or repeal of categorical exemptions and shall make recommendations on the proposals to the Secretary for Resources. People making suggestions concerning categorical exemptions shall submit their recommendations to OPR with supporting information to show that the class of projects in the proposal either will or will not have a significant effect on the environment.

(c) The State Clearinghouse in the Office of Planning and Research shall be responsible for distributing environmental documents to State agencies, departments, boards, and commissions for review and comment.

(d) Upon request of a Lead Agency or a project applicant, OPR shall provide assistance in identifying the various responsible agencies and any federal agencies which have responsibility for carrying out or approving a proposed project.

(e) OPR shall ensure that state responsible agencies provide the necessary information to lead agencies in response to notices of preparation within at most 30 days after receiving a notice of preparation.

(f) OPR shall resolve disputes as to which agency is the lead agency for a project.

(g) OPR shall receive and file all notices of completion, determination, and exemption.

(h) OPR shall establish and maintain a database for the collection, storage, retrieval, and dissemination of notices of exemption, notices of preparation, notices of determination, and notices of completion provided to the office. This database of notice information shall be available through the Internet.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.4, 21083, 21086, 21087, 21108, 21159.9 and 21161, Public Resources Code.

HISTORY

1. Amendment of subsection (e) and new subsection (g) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. New subsection (h) and amendment of NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15024. Secretary for Resources.

(a) The Guidelines shall be adopted by the Secretary for Resources. The Secretary shall make a finding that each class of projects given a categorical exemption will not have a significant effect on the environment.

(b) The Secretary may issue amendments to these Guidelines.

(c) The Secretary shall certify state environmental regulatory programs which meet the standards for certification in Section 21080.5, Public Resources Code.

(d) The Secretary shall receive and file notices required by certified state environmental regulatory programs.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.5, 21083, 21084, 21086, 21088 and 21152, Public Resources Code.

HISTORY

1. Amendment filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15025. Delegation of Responsibilities.

(a) A public agency may assign specific functions to its staff to assist in administering CEQA. Functions which may be delegated include but are not limited to:

(1) Determining whether a project is exempt.

(2) Conducting an initial study and deciding whether to prepare a draft EIR or negative declaration.

(3) Preparing a negative declaration or EIR.

(4) Determining that a negative declaration has been completed within a period of 180 days.

(5) Preparing responses to comments on environmental documents.

(6) Filing of notices.

(b) The decisionmaking body of a public agency shall not delegate the following functions:

(1) Reviewing and considering a final EIR or approving a negative declaration prior to approving a project.

(2) The making of findings as required by Sections 15091 and 15093.

(c) Where an advisory body such as a planning commission is required to make a recommendation on a project to the decisionmaking body, the advisory body shall also review and consider the EIR or negative declaration in draft or final form.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082, 21100.2 and 21151.5, Public Resources Code; *Kleist v. City of Glendale* (1976) 56 Cal. App. 3d 770.

HISTORY

1. Change without regulatory effect amending subsection (a)(4) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 3. Authorities Granted to Public Agencies by CEQA

§ 15040. Authority Provided by CEQA.

(a) CEQA is intended to be used in conjunction with discretionary powers granted to public agencies by other laws.

(b) CEQA does not grant an agency new powers independent of the powers granted to the agency by other laws.

(c) Where another law grants an agency discretionary powers, CEQA supplements those discretionary powers by authorizing the agency to use the discretionary powers to mitigate or avoid significant effects on the environment when it is feasible to do so with respect to projects subject to the powers of the agency. Prior to January 1, 1983, CEQA provided implied authority for an agency to use its discretionary powers to mitigate or avoid significant effects on the environment. Effective January 1, 1983, CEQA provides express authority to do so.

(d) The exercise of the discretionary powers may take forms that had not been expected before the enactment of CEQA, but the exercise must be within the scope of the power.

(e) The exercise of discretionary powers for environmental protection shall be consistent with express or implied limitations provided by other laws.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000, 21001, 21002, 21002.1 and 21004, Public Resources Code; Section 4, Chapter 1438, Statutes of 1982; *Golden Gate Bridge, Etc., Dist.* v. *Muzzi*, (1978) 83 Cal. App. 3d 707; *E.D.F.* v. *Mathews*, 410 F. Supp. 336, 339 (D.D.C., 1976); *Friends of Mammoth* v. *Board of Supervisors*, (1972) 8 Cal. 3d 247; *Pinewood Investors* v. *City of Oxnard* (1982) 133 Cal. App. 3d 1030.

HISTORY

1. Repealer of Article 3 (Sections 15010–15016) and new Article 3 (Sections 15040–15045) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 82, No. 2; 80, No. 19; 78, No. 5; 76, No. 41; 75, Nos. 1 and 18; 74, Nos. 3 and 4; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15041. Authority to Mitigate.

Within the limitations described in Section 15040:

(a) A lead agency for a project has authority to require feasible changes in any or all activities involved in the project in order to substantially lessen or avoid significant effects on the environment, consistent with applicable constitutional requirements such as the "nexus" and "rough proportionality" standards established by case law (Nollan v. California Coastal Commission (1987) 483 U.S. 825, Dolan v. City of Tigard, (1994) 512 U.S. 374, Ehrlich v. City of Culver City, (1996) 12 Cal. 4th 854.).

(b) When a public agency acts as a responsible agency for a project, the agency shall have more limited authority than a lead agency. The responsible agency may require changes in a project to lessen or avoid only the effects, either direct or indirect, of that part of the project which the agency will be called on to carry out or approve.

(c) With respect to a project which includes housing development, a lead or responsible agency shall not reduce the proposed number of housing units as a mitigation measure or alternative to lessen a particular significant effect on the environment if that agency determines that there is another feasible, specific mitigation measure or alternative that would provide a comparable lessening of the significant effect.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21002.1 and 21159.26, Public Resources Code; *Golden Gate Bridge, Etc., District* v. *Muzzi* (1978) 83 Cal. App. 3d 707; and *Laurel Hills Homeowners Assn. v. City Council of City of Los Angeles* (1978) 83 Cal.App.3d 515.

HISTORY

1. Amendment of first paragraph, subsection (a) and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15042. Authority to Disapprove Projects.

A public agency may disapprove a project if necessary in order to avoid one or more significant effects on the environment that would occur if the project were approved as proposed. A lead agency has broader authority to disapprove a project than does a responsible agency. A responsible agency may refuse to approve a project in order to avoid direct or indirect environmental effects of that part of the project which the responsible agency would be called on to carry out or approve. For example, an air quality management district acting as a responsible agency would not have authority to disapprove a project for water pollution effects that were unrelated to the air quality aspects of the project regulated by the district.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002 and 21002.1, Public Resources Code; *Friends of Mammoth* v. *Mono County*, 8 Cal. App. 3d 247; *San Diego Trust and Savings Bank* v. *Friends of Gill*, 121 Cal. App. 3d 203.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15043. Authority to Approve Projects Despite Significant Effects.

A public agency may approve a project even though the project would cause a significant effect on the environment if the agency makes a fully informed and publicly disclosed decision that:

(a) There is no feasible way to lessen or avoid the significant effect (see Section 15091); and

(b) Specifically identified expected benefits from the project outweigh the policy of reducing or avoiding significant environmental impacts of the project. (See Section 15093.)

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002 and 21002.1, Public Resources Code; *San Francisco Ecology Center* v. *City and County of San Francisco*, (1975) 48 Cal. App. 3d 584; *San Diego Trust & Savings Bank* v. *Friends of Gill*, (1981) 121 Cal. App. 3d 203.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15044. Authority to Comment.

Any person or entity other than a responsible agency may submit comments to a lead agency concerning any environmental effects of a project being considered by the lead agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000, 21001, 21002.1, 21104 and 21153, Public Resources Code.

HISTORY

1. Amendment filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15045. Fees.

(a) For a project to be carried out by any person or entity other than the lead agency, the lead agency may charge and collect a reasonable fee from the person or entity proposing the project in order to recover the estimated costs incurred in preparing environmental documents and for procedures necessary to comply with CEQA on the project. Litigation expenses, costs and fees incurred in actions alleging noncompliance with CEQA are not recoverable under this section.

(b) Public agencies may charge and collect a reasonable fee from members of the public for a copy of an environmental document not to exceed the actual cost of reproducing a copy.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21089 and 21105, Public Resources Code.

HISTORY

1. Amendment of subsection (a) and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 4. Lead Agency

§ 15050. Lead Agency Concept.

(a) Where a project is to be carried out or approved by more than one public agency, one public agency shall be responsible for preparing an EIR or negative declaration for the project. This agency shall be called the lead agency.

(b) Except as provided in subdivision (c), the decisionmaking body of each responsible agency shall consider the lead agency's EIR or negative declaration prior to acting upon or approving the project. Each responsible agency shall certify that its decisionmaking body reviewed and considered the information contained in the EIR or negative declaration on the project.

(c) The determination of the lead agency of whether to prepare an EIR or a negative declaration shall be final and conclusive for all persons, including responsible agencies, unless:

(1) The decision is successfully challenged as provided in Section 21167 of the Public Resources Code,

(2) Circumstances or conditions change as provided in Section 15162, or

(3) A responsible agency becomes a lead agency under Section 15052.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.1, 21165 and 21167.2, Public Resources Code.

HISTORY

1. Repealer of Article 4 (Sections 15020–15043) and new Article 4 (Sections 15050–15053) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 82, No. 2; 80, No. 19; 78, No. 5; 76, No. 41; 75, Nos. 1, 5 and 22; 74, Nos. 13 and 26; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending subsection (b) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15051. Criteria for Identifying the Lead Agency.

Where two or more public agencies will be involved with a project, the determination of which agency will be the lead agency shall be governed by the following criteria:

(a) If the project will be carried out by a public agency, that agency shall be the lead agency even if the project would be located within the jurisdiction of another public agency.

(b) If the project is to be carried out by a nongovernmental person or entity, the lead agency shall be the public agency with the greatest responsibility for supervising or approving the project as a whole.

(1) The lead agency will normally be the agency with general governmental powers, such as a city or county, rather than an agency with a single or limited purpose such as an air pollution control district or a district which will provide a public service or public utility to the project.

(2) Where a city prezones an area, the city will be the appropriate lead agency for any subsequent annexation of the area and should prepare the appropriate environmental document at the time of the prezoning. The local agency formation commission shall act as a responsible agency.

(c) Where more than one public agency equally meet the criteria in subdivision (b), the agency which will act first on the project in question shall be the lead agency.

(d) Where the provisions of subdivisions (a), (b), and (c) leave two or more public agencies with a substantial claim to be the lead agency, the

public agencies may by agreement designate an agency as the lead agency. An agreement may also provide for cooperative efforts by two or more agencies by contract, joint exercise of powers, or similar devices.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Change without regulatory effect amending subsections (c) and (d) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15052. Shift in Lead Agency Designation.

(a) Where a responsible agency is called on to grant an approval for a project subject to CEQA for which another public agency was the appropriate lead agency, the responsible agency shall assume the role of the lead agency when any of the following conditions occur:

(1) The lead agency did not prepare any environmental documents for the project, and the statute of limitations has expired for a challenge to the action of the appropriate lead agency.

(2) The lead agency prepared environmental documents for the project, but the following conditions occur:

(A) A subsequent EIR is required pursuant to Section 15162,

(B) The lead agency has granted a final approval for the project, and

(C) The statute of limitations for challenging the lead agency's action under CEQA has expired.

(3) The lead agency prepared inadequate environmental documents without consulting with the responsible agency as required by Sections 15072 or 15082, and the statute of limitations has expired for a challenge to the action of the appropriate lead agency.

(b) When a responsible agency assumes the duties of a lead agency under this section, the time limits applicable to a lead agency shall apply to the actions of the agency assuming the lead agency duties.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15053. Designation of Lead Agency by the Office of Planning and Research.

(a) If there is a dispute over which of several agencies should be the lead agency for a project, the disputing agencies should consult with each other in an effort to resolve the dispute prior to submitting it to the Office of Planning and Research. If an agreement cannot be reached, any of the disputing public agencies, or the applicant if a private project is involved, may submit the dispute to the Office of Planning and Research for resolution.

(b) For purposes of this section, a "dispute" means a contested, active difference of opinion between two or more public agencies as to which of those agencies shall prepare any necessary environmental document. A dispute exists where each of those agencies claims that it either has or does not have the obligation to prepare that environmental document.

(c) The Office of Planning and Research shall designate a lead agency within 21 days after receiving a completed request to resolve a dispute. The Office of Planning and Research shall not designate a lead agency in the absence of a dispute.

(d) Regulations adopted by the Office of Planning and Research for resolving lead agency disputes may be found in Title 14, California Code of Regulations, Sections 16000 et seq.

(e) Designation of a lead agency by the Office of Planning and Research shall be based on consideration of the criteria in Section 15051 as well as the capacity of the agency to adequately fulfill the requirements of CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21165, Public Resources Code; and California Code of Regulations, Title 14, Sections 16000–16041.

HISTORY

1. Change without regulatory effect amending subsections (c) and (d) and amending NOTE filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).
2. Change without regulatory effect amending section heading, section and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
3. Amendment filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

Article 5. Preliminary Review of Projects and Conduct of Initial Study

§ 15060. Preliminary Review.

(a) A lead agency is allowed 30 days to review for completeness applications for permits or other entitlements for use. While conducting this review for completeness, the agency should be alert for environmental issues that might require preparation of an EIR or that may require additional explanation by the applicant. Accepting an application as complete does not limit the authority of the lead agency to require the applicant to submit additional information needed for environmental evaluation of the project. Requiring such additional information after the application is complete does not change the status of the application.

(b) Except as provided in Section 15111, the lead agency shall begin the formal environmental evaluation of the project after accepting an application as complete and determining that the project is subject to CEQA.

(c) Once an application is deemed complete, a lead agency must first determine whether an activity is subject to CEQA before conducting an initial study. An activity is not subject to CEQA if:

(1) The activity does not involve the exercise of discretionary powers by a public agency;

(2) The activity will not result in a direct or reasonably foreseeable indirect physical change in the environment; or

(3) The activity is not a project as defined in Section 15378.

(d) If the lead agency can determine that an EIR will be clearly required for a project, the agency may skip further initial review of the project and begin work directly on the EIR process described in Article 9, commencing with Section 15080. In the absence of an initial study, the lead agency shall still focus the EIR on the significant effects of the project and indicate briefly its reasons for determining that other effects would not be significant or potentially significant.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(b), 21080.2 and 21160, Public Resources Code.

HISTORY

1. Repealer of Article 5 (Sections 15050–15056) and new Article 5 (Sections 15060–15065) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 80, No. 19; 78, No. 5; 76, No. 41; 75, Nos. 1, 5 and 22; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15060.5. Preapplication Consultation.

(a) For a potential project involving the issuance of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies, the lead agency shall, upon the request of a potential applicant and prior to the filing of a formal application, provide for consultation with the potential applicant to consider the range of actions, potential alternatives, mitigation measures, and any potential significant effects on the environment of the potential project.

(b) The lead agency may include in the consultation one or more responsible agencies, trustee agencies, and other public agencies who in the opinion of the lead agency may have an interest in the proposed project. The lead agency may consult the Office of Permit Assistant in the Trade and Commerce Agency for help in identifying interested agencies.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.1, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).

2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15061. Review for Exemption.

(a) Once a lead agency has determined that an activity is a project subject to CEQA, a lead agency shall determine whether the project is exempt from CEQA.

(b) A project is exempt from CEQA if:

(1) The project is exempt by statute (see, e.g. Article 18, commencing with Section 15260).

(2) The project is exempt pursuant to a categorical exemption (see Article 19, commencing with Section 15300) and the application of that categorical exemption is not barred by one of the exceptions set forth in Section 15300.2.

(3) The activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.

(4) The project will be rejected or disapproved by a public agency. (See Section 15270(b)).

(5) The project is exempt pursuant to the provisions of Article 12.5 of this Chapter.

(c) Each public agency should include in its implementing procedures a listing of the projects often handled by the agency that the agency has determined to be exempt. This listing should be used in preliminary review.

(d) After determining that a project is exempt, the agency may prepare a notice of exemption as provided in Section 15062. Although the notice may be kept with the project application at this time, the notice shall not be filed with the Office of Planning and Research or the county clerk until the project has been approved.

(e) When a non–elected official or decisionmaking body of a local lead agency decides that a project is exempt from CEQA, and the public agency approves or determines to carry out the project, the decision that the project is exempt may be appealed to the local lead agency's elected decisionmaking body, if one exists. A local lead agency may establish procedures governing such appeals.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(b), 21080.9, 21080.10, 21084, 21108(b), 21151, 21152(b) and 21159.21, Public Resources Code; *No Oil, Inc.* v. *City of Los Angeles* (1974) 13 Cal. 3d 68.

HISTORY

1. Amendment of subsection (d) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsection (d) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
4. New subsections (b)(5) and (e) and amendment of NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15062. Notice of Exemption.

(a) When a public agency decides that a project is exempt from CEQA pursuant to Section 15061, and the public agency approves or determines to carry out the project, the agency may file a notice of exemption. The notice shall be filed, if at all, after approval of the project. Such a notice shall include:

(1) A brief description of the project,

(2) The location of the project (either by street address and cross street for a project in an urbanized area or by attaching a specific map, preferably a copy of a U.S.G.S. 15′ or 7-1/2′ topographical map identified by quadrangle name).

(3) A finding that the project is exempt from CEQA, including a citation to the State Guidelines section or statute under which it is found to be exempt, and

(4) A brief statement of reasons to support the finding.

(b) A notice of exemption may be filled out and may accompany the project application through the approval process. The notice shall not be filed with the county clerk or OPR until the project has been approved.

(c) When a public agency approves an applicant's project, either the agency or the applicant may file a notice of exemption.

(1) When a state agency files this notice, the notice of exemption shall be filed with the Office of Planning and Research. A form for this notice is provided in Appendix E. A list of all such notices shall be posted on a weekly basis at the Office of Planning and Research, 1400 Tenth Street, Sacramento, California. The list shall remain posted for at least 30 days. The Office of Planning and Research shall retain each notice for not less than 12 months.

(2) When a local agency files this notice, the notice of exemption shall be filed with the county clerk of each county in which the project will be located. Copies of all such notices will be available for public inspection and such notices shall be posted within 24 hours of receipt in the office of the county clerk. Each notice shall remain posted for a period of 30 days. Thereafter, the clerk shall return the notice to the local agency with a notation of the period it was posted. The local agency shall retain the notice for not less than 12 months.

(3) All public agencies are encouraged to make postings pursuant to this section available in electronic format on the Internet. Such electronic postings are in addition to the procedures required by these guidelines and the Public Resources Code.

(4) When an applicant files this notice, special rules apply.

(A) The notice filed by an applicant is filed in the same place as if it were filed by the agency granting the permit. If the permit was granted by a state agency, the notice is filed with the Office of Planning and Research. If the permit was granted by a local agency, the notice is filed with the county clerk of the county or counties in which the project will be located.

(B) The notice of exemption filed by an applicant shall contain the information required in subdivision (a) together with a certified document issued by the public agency stating that the agency has found the project to be exempt. The certified document may be a certified copy of an existing document or record of the public agency.

(C) A notice filed by an applicant is subject to the same posting and time requirements as a notice filed by a public agency.

(d) The filing of a Notice of Exemption and the posting on the list of notices start a 35 day statute of limitations period on legal challenges to the agency's decision that the project is exempt from CEQA. If a Notice of Exemption is not filed, a 180 day statute of limitations will apply.

(e) When a local agency determines that a project is not subject to CEQA under sections 15193, 15194, or 15195, and it approves or determines to carry out that project, the local agency or person seeking project approval shall file a notice with OPR identifying the section under which the exemption is claimed.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21108, 21152 and 21152.1, Public Resources Code.

HISTORY

1. Amendment of subsections (b) and (c) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of subsections (a)(2), (c)(1), (c)(2), (c)(3)(A) and (c)(3)(C) filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. New subsection (c)(3) and subsection renumbering filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. New subsection (a)(2), subsection renumbering and amendment of subsections (c)(1)–(2) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
5. Change without regulatory effect amending subsections (c)(1), (c)(2) and (c)(4)(A) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
6. Amendment of subsection (a), new subsection (e) and amendment of NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15063. Initial Study.

(a) Following preliminary review, the lead agency shall conduct an initial study to determine if the project may have a significant effect on the environment. If the lead agency can determine that an EIR will clearly be required for the project, an initial study is not required but may still be desirable.

(1) All phases of project planning, implementation, and operation must be considered in the initial study of the project.

(2) To meet the requirements of this section, the lead agency may use an environmental assessment or a similar analysis prepared pursuant to the National Environmental Policy Act.

(3) An initial study may rely upon expert opinion supported by facts, technical studies or other substantial evidence to document its findings. However, an initial study is neither intended nor required to include the level of detail included in an EIR.

(b) Results.

(1) If the agency determines that there is substantial evidence that any aspect of the project, either individually or cumulatively, may cause a significant effect on the environment, regardless of whether the overall effect of the project is adverse or beneficial, the lead agency shall do one of the following:

(A) Prepare an EIR or

(B) Use a previously prepared EIR which the lead agency determines would adequately analyze the project at hand, or

(C) Determine, pursuant to a program EIR, tiering, or another appropriate process, which of a project's effects were adequately examined by an earlier EIR or negative declaration. Another appropriate process may include, for example, a master EIR, a master environmental assessment, approval of housing and neighborhood commercial facilities in urban areas, approval of residential projects pursuant to a specific plan as described in section 15182, approval of residential projects consistent with a community plan, general plan or zoning as described in section 15183, or an environmental document prepared under a State certified regulatory program. The lead agency shall then ascertain which effects, if any, should be analyzed in a later EIR or negative declaration.

(2) The lead agency shall prepare a negative declaration if there is no substantial evidence that the project or any of its aspects may cause a significant effect on the environment.

(c) Purposes. The purposes of an initial study are to:

(1) Provide the lead agency with information to use as the basis for deciding whether to prepare an EIR or negative declaration;

(2) Enable an applicant or lead agency to modify a project, mitigating adverse impacts before an EIR is prepared, thereby enabling the project to qualify for a negative declaration;

(3) Assist the preparation of an EIR, if one is required, by:

(A) Focusing the EIR on the effects determined to be significant,

(B) Identifying the effects determined not to be significant,

(C) Explaining the reasons for determining that potentially significant effects would not be significant, and

(D) Identifying whether a program EIR, tiering, or another appropriate process can be used for analysis of the project's environmental effects.

(4) Facilitate environmental assessment early in the design of a project;

(5) Provide documentation of the factual basis for the finding in a negative declaration that a project will not have a significant effect on the environment;

(6) Eliminate unnecessary EIRs;

(7) Determine whether a previously prepared EIR could be used with the project.

(d) Contents. An initial study shall contain in brief form:

(1) A description of the project including the location of the project;

(2) An identification of the environmental setting;

(3) An identification of environmental effects by use of a checklist, matrix, or other method, provided that entries on a checklist or other form are briefly explained to indicate that there is some evidence to support the entries. The brief explanation may be either through a narrative or a reference to another information source such as an attached map, photographs, or an earlier EIR or negative declaration. A reference to another document should include, where appropriate, a citation to the page or pages where the information is found.

(4) A discussion of ways to mitigate the significant effects identified, if any;

(5) An examination of whether the project would be consistent with existing zoning, plans, and other applicable land use controls;

(6) The name of the person or persons who prepared or participated in the initial study.

(e) Submission of Data. If the project is to be carried out by a private person or private organization, the lead agency may require such person or organization to submit data and information which will enable the lead agency to prepare the initial study. Any person may submit any information in any form to assist a lead agency in preparing an initial study.

(f) Format. Sample forms for an applicant's project description and a review form for use by the lead agency are contained in Appendices G and H. When used together, these forms would meet the requirements for an initial study, provided that the entries on the checklist are briefly explained pursuant to subdivision (d)(3). These forms are only suggested, and public agencies are free to devise their own format for an initial study. A previously prepared EIR may also be used as the initial study for a later project.

(g) Consultation. As soon as a lead agency has determined that an initial study will be required for the project, the lead agency shall consult informally with all responsible agencies and all trustee agencies responsible for resources affected by the project to obtain the recommendations of those agencies as to whether an EIR or a negative declaration should be prepared. During or immediately after preparation of an initial study for a private project, the lead agency may consult with the applicant to determine if the applicant is willing to modify the project to reduce or avoid the significant effects identified in the initial study.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(c), 21080.1, 21080.3, 21082.1, 21100 and 21151, Public Resources Code; *Gentry v. City of Murrieta* (1995) 36 Cal.App.4th 1359, *San Joaquin Raptor/Wildlife Rescue Center v. County of Stanislaus* (1994) 27 Cal.App.4th 713, *Leonoff v. Monterey County Board of Supervisors* (1990) 222 Cal.App.3d 1337.

HISTORY

1. Amendment filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
2. Amendment of subsection (a)(2), new subsection (b)(3) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsections (b)(1)(C) and (f) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15064. Determining the Significance of the Environmental Effects Caused by a Project.

(a) Determining whether a project may have a significant effect plays a critical role in the CEQA process.

(1) If there is substantial evidence, in light of the whole record before a lead agency, that a project may have a significant effect on the environment, the agency shall prepare a draft EIR.

(2) When a final EIR identifies one or more significant effects, the lead agency and each responsible agency shall make a finding under Section 15091 for each significant effect and may need to make a statement of overriding considerations under Section 15093 for the project.

(b) The determination of whether a project may have a significant effect on the environment calls for careful judgment on the part of the public agency involved, based to the extent possible on scientific and factual data. An ironclad definition of significant effect is not always possible because the significance of an activity may vary with the setting. For example, an activity which may not be significant in an urban area may be significant in a rural area.

(c) In determining whether an effect will be adverse or beneficial, the lead agency shall consider the views held by members of the public in all areas affected as expressed in the whole record before the lead agency. Before requiring the preparation of an EIR, the lead agency must still determine whether environmental change itself might be substantial.

(d) In evaluating the significance of the environmental effect of a project, the lead agency shall consider direct physical changes in the environment which may be caused by the project and reasonably foreseeable indirect physical changes in the environment which may be caused by the project.

(1) A direct physical change in the environment is a physical change in the environment which is caused by and immediately related to the project. Examples of direct physical changes in the environment are the dust, noise, and traffic of heavy equipment that would result from construction of a sewage treatment plant and possible odors from operation of the plant.

(2) An indirect physical change in the environment is a physical change in the environment which is not immediately related to the project, but which is caused indirectly by the project. If a direct physical change in the environment in turn causes another change in the environment, then the other change is an indirect physical change in the environment. For example, the construction of a new sewage treatment plant may facilitate population growth in the service area due to the increase in sewage treatment capacity and may lead to an increase in air pollution.

(3) An indirect physical change is to be considered only if that change is a reasonably foreseeable impact which may be caused by the project. A change which is speculative or unlikely to occur is not reasonably foreseeable.

(e) Economic and social changes resulting from a project shall not be treated as significant effects on the environment. Economic or social changes may be used, however, to determine that a physical change shall be regarded as a significant effect on the environment. Where a physical change is caused by economic or social effects of a project, the physical change may be regarded as a significant effect in the same manner as any other physical change resulting from the project. Alternatively, economic and social effects of a physical change may be used to determine that the physical change is a significant effect on the environment. If the physical change causes adverse economic or social effects on people, those adverse effects may be used as a factor in determining whether the physical change is significant. For example, if a project would cause overcrowding of a public facility and the overcrowding causes an adverse effect on people, the overcrowding would be regarded as a significant effect.

(f) The decision as to whether a project may have one or more significant effects shall be based on substantial evidence in the record of the lead agency.

(1) If the lead agency determines there is substantial evidence in the record that the project may have a significant effect on the environment, the lead agency shall prepare an EIR (*Friends of B Street* v. *City of Hayward* (1980) 106 Cal. App. 3d 988). Said another way, if a lead agency is presented with a fair argument that a project may have a significant effect on the environment, the lead agency shall prepare an EIR even though it may also be presented with other substantial evidence that the project will not have a significant effect (*No Oil, Inc.* v. *City of Los Angeles* (1974) 13 Cal. 3d 68).

(2) If the lead agency determines there is substantial evidence in the record that the project may have a significant effect on the environment but the lead agency determines that revisions in the project plans or proposals made by, or agreed to by, the applicant would avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment would occur and there is no substantial evidence in light of the whole record before the public agency that the project, as revised, may have a significant effect on the environment then a mitigated negative declaration shall be prepared.

(3) If the lead agency determines there is no substantial evidence that the project may have a significant effect on the environment, the lead agency shall prepare a negative declaration (*Friends of B Street* v. *City of Hayward* (1980) 106 Cal. App. 3d 988).

(4) The existence of public controversy over the environment effects of a project will not require preparation of an EIR if there is no substantial evidence before the agency that the project may have a significant effect on the environment.

(5) Argument, speculation, unsubstantiated opinion or narrative, or evidence that is clearly inaccurate or erroneous, or evidence that is not credible, shall not constitute substantial evidence. Substantial evidence shall include facts, reasonable assumptions predicated upon facts, and expert opinion support by facts.

(6) Evidence of economic and social impacts that do not contribute to or are not caused by physical changes in the environment is not substantial evidence that the project may have a significant effect on the environment.

(7) The provisions of sections 15162, 15163, and 15164 apply when the project being analyzed is a change to, or further approval for, a project for which an EIR or negative declaration was previously certified or adopted (e.g. a tentative subdivision, conditional use permit). Under case law, the fair argument standard does not apply to determinations of significance pursuant to sections 15162, 15163, and 15164.

(g) After application of the principles set forth above in Section 15064(f), and in marginal cases where it is not clear whether there is substantial evidence that a project may have a significant effect on the environment, the lead agency shall be guided by the following principle: If there is disagreement among expert opinion supported by facts over the significance of an effect on the environment, the Lead Agency shall treat the effect as significant and shall prepare an EIR.

(h)(1) When assessing whether a cumulative effect requires an EIR, the lead agency shall consider whether the cumulative impact is significant and whether the effects of the project are cumulatively considerable. An EIR must be prepared if the cumulative impact may be significant and the project's incremental effect, though individually limited, is cumulatively considerable. "Cumulatively considerable" means that the incremental effects of an individual project are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.

(2) A lead agency may determine in an initial study that a project's contribution to a significant cumulative impact will be rendered less than cumulatively considerable and thus is not significant. When a project might contribute to a significant cumulative impact, but the contribution will be rendered less than cumulatively considerable through mitigation measures set forth in a mitigated negative declaration, the initial study shall briefly indicate and explain how the contribution has been rendered less than cumulatively considerable.

(3) A lead agency may determine that a project's incremental contribution to a cumulative effect is not cumulatively considerable if the project will comply with the requirements in a previously approved plan or mitigation program which provides specific requirements that will avoid or substantially lessen the cumulative problem (e.g. water quality control plan, air quality plan, integrated waste management plan) within the geographic area in which the project is located. Such plans or programs must be specified in law or adopted by the public agency with jurisdiction over the affected resources through a public review process to implement, interpret, or make specific the law enforced or administered by the public agency. If there is substantial evidence that the possible effects of a particular project are still cumulatively considerable notwithstanding that the project complies with the specified plan or mitigation program addressing the cumulative problem, an EIR must be prepared for the project.

(4) The mere existence of significant cumulative impacts caused by other projects alone shall not constitute substantial evidence that the proposed project's incremental effects are cumulatively considerable.

HISTORY

1. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Repealer of subsection (i) and new subsections (i)(1)(A)–(i)(4) filed 8–24–98; operative 8–24–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 35).
3. Repealer of subsection (e), subsection relettering, new subsections (f)(7) and (i)(1)–(i)(5) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Change without regulatory effect amending subsections (g), (h)(1)(A), (h)(1)(C) and (h)(2) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
5. Change without regulatory effect repealing subsections (h)–(h)(4) and (i)(4), relettering and renumbering subsections, amending newly designated subsection (h)(1) and amending NOTE filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).
6. Amendment of subsections (h)(1) and (h)(3) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
7. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15064.5. Determining the Significance of Impacts to Archaeological and Historical Resources.

(a) For purposes of this section, the term "historical resources" shall include the following:

(1) A resource listed in, or determined to be eligible by the State Historical Resources Commission, for listing in the California Register of Historical Resources (Pub. Res. Code §5024.1, Title 14 CCR, Section 4850 et seq.).

(2) A resource included in a local register of historical resources, as defined in section 5020.1(k) of the Public Resources Code or identified as significant in an historical resource survey meeting the requirements section 5024.1(g) of the Public Resources Code, shall be presumed to be historically or culturally significant. Public agencies must treat any such resource as significant unless the preponderance of evidence demonstrates that it is not historically or culturally significant.

(3) Any object, building, structure, site, area, place, record, or manuscript which a lead agency determines to be historically significant or significant in the architectural, engineering, scientific, economic, agricultural, educational, social, political, military, or cultural annals of California may be considered to be an historical resource, provided the lead agency's determination is supported by substantial evidence in light of the whole record. Generally, a resource shall be considered by the lead agency to be "historically significant" if the resource meets the criteria for listing on the California Register of Historical Resources (Pub. Res. Code, § 5024.1, Title 14 CCR, Section 4852) including the following:

(A) Is associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage;

(B) Is associated with the lives of persons important in our past;

(C) Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values; or

(D) Has yielded, or may be likely to yield, information important in prehistory or history.

(4) The fact that a resource is not listed in, or determined to be eligible for listing in the California Register of Historical Resources, not included in a local register of historical resources (pursuant to section 5020.1(k) of the Public Resources Code), or identified in an historical resources survey (meeting the criteria in section 5024.1(g) of the Public Resources Code) does not preclude a lead agency from determining that the resource may be an historical resource as defined in Public Resources Code sections 5020.1(j) or 5024.1.

(b) A project with an effect that may cause a substantial adverse change in the significance of an historical resource is a project that may have a significant effect on the environment.

(1) Substantial adverse change in the significance of an historical resource means physical demolition, destruction, relocation, or alteration of the resource or its immediate surroundings such that the significance of an historical resource would be materially impaired.

(2) The significance of an historical resource is materially impaired when a project:

(A) Demolishes or materially alters in an adverse manner those physical characteristics of an historical resource that convey its historical significance and that justify its inclusion in, or eligibility for, inclusion in the California Register of Historical Resources; or

(B) Demolishes or materially alters in an adverse manner those physical characteristics that account for its inclusion in a local register of historical resources pursuant to section 5020.1(k) of the Public Resources Code or its identification in an historical resources survey meeting the requirements of section 5024.1(g) of the Public Resources Code, unless the public agency reviewing the effects of the project establishes by a preponderance of evidence that the resource is not historically or culturally significant; or

(C) Demolishes or materially alters in an adverse manner those physical characteristics of a historical resource that convey its historical significance and that justify its eligibility for inclusion in the California Register of Historical Resources as determined by a lead agency for purposes of CEQA.

(3) Generally, a project that follows the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings or the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings (1995), Weeks and Grimmer, shall be considered as mitigated to a level of less than a significant impact on the historical resource.

(4) A lead agency shall identify potentially feasible measures to mitigate significant adverse changes in the significance of an historical resource. The lead agency shall ensure that any adopted measures to mitigate or avoid significant adverse changes are fully enforceable through permit conditions, agreements, or other measures.

(5) When a project will affect state–owned historical resources, as described in Public Resources Code Section 5024, and the lead agency is a state agency, the lead agency shall consult with the State Historic Preservation Officer as provided in Public Resources Code Section 5024.5. Consultation should be coordinated in a timely fashion with the preparation of environmental documents.

(c) CEQA applies to effects on archaeological sites.

(1) When a project will impact an archaeological site, a lead agency shall first determine whether the site is an historical resource, as defined in subdivision (a).

(2) If a lead agency determines that the archaeological site is an historical resource, it shall refer to the provisions of Section 21084.1 of the Public Resources Code, and this section, Section 15126.4 of the Guidelines, and the limits contained in Section 21083.2 of the Public Resources Code do not apply.

(3) If an archaeological site does not meet the criteria defined in subdivision (a), but does meet the definition of a unique archeological resource in Section 21083.2 of the Public Resources Code, the site shall be treated in accordance with the provisions of section 21083.2. The time and cost limitations described in Public Resources Code Section 21083.2 (c–f) do not apply to surveys and site evaluation activities intended to determine whether the project location contains unique archaeological resources.

(4) If an archaeological resource is neither a unique archaeological nor an historical resource, the effects of the project on those resources shall not be considered a significant effect on the environment. It shall be sufficient that both the resource and the effect on it are noted in the Initial Study or EIR, if one is prepared to address impacts on other resources, but they need not be considered further in the CEQA process.

(d) When an initial study identifies the existence of, or the probable likelihood, of Native American human remains within the project, a lead agency shall work with the appropriate Native Americans as identified by the Native American Heritage Commission as provided in Public Resources Code section 5097.98. The applicant may develop an agreement for treating or disposing of, with appropriate dignity, the human remains and any items associated with Native American burials with the appropriate Native Americans as identified by the Native American Heritage Commission." Action implementing such an agreement is exempt from:

(1) The general prohibition on disinterring, disturbing, or removing human remains from any location other than a dedicated cemetery (Health and Safety Code Section 7050.5).

(2) The requirements of CEQA and the Coastal Act.

(e) In the event of the accidental discovery or recognition of any human remains in any location other than a dedicated cemetery, the following steps should be taken:

(1) There shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until:

(A) The coroner of the county in which the remains are discovered must be contacted to determine that no investigation of the cause of death is required, and

(B) If the coroner determines the remains to be Native American:

1. The coroner shall contact the Native American Heritage Commission within 24 hours.

2. The Native American Heritage Commission shall identify the person or persons it believes to be the most likely descended from the deceased Native American.

3. The most likely descendent may make recommendations to the landowner or the person responsible for the excavation work, for means of treating or disposing of, with appropriate dignity, the human remains and any associated grave goods as provided in Public Resources Code section 5097.98, or

(2) Where the following conditions occur, the landowner or his authorized representative shall rebury the Native American human remains and associated grave goods with appropriate dignity on the property in a location not subject to further subsurface disturbance.

(A) The Native American Heritage Commission is unable to identify a most likely descendent or the most likely descendent failed to make a recommendation within 24 hours after being notified by the commission.

(B) The descendant identified fails to make a recommendation; or

(C) The landowner or his authorized representative rejects the recommendation of the descendant, and the mediation by the Native American Heritage Commission fails to provide measures acceptable to the landowner.

(f) As part of the objectives, criteria, and procedures required by Section 21082 of the Public Resources Code, a lead agency should make provisions for historical or unique archaeological resources accidentally discovered during construction. These provisions should include an immediate evaluation of the find by a qualified archaeologist. If the find is determined to be an historical or unique archaeological resource, contingency funding and a time allotment sufficient to allow for implementation of avoidance measures or appropriate mitigation should be available. Work could continue on other parts of the building site while historical or unique archaeological resource mitigation takes place.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.2, 21084 and 21084.1, Public Resources Code; and *Citizens for Responsible Development in West Hollywood v. City of West Hollywood* (1995) 39 Cal.App.4th 490.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending subsections (c)(1), (c)(3), (d) and (e)(1)(B)2.–3. and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15064.7. Thresholds of Significance.

(a) Each public agency is encouraged to develop and publish thresholds of significance that the agency uses in the determination of the significance of environmental effects. A threshold of significance is an identifiable quantitative, qualitative or performance level of a particular environmental effect, non–compliance with which means the effect will normally be determined to be significant by the agency and compliance with which means the effect normally will be determined to be less than significant.

(b) Thresholds of significance to be adopted for general use as part of the lead agency's environmental review process must be adopted by ordinance, resolution, rule, or regulation, and developed through a public review process and be supported by substantial evidence.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082 and 21083, Public Resources Code.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15065. Mandatory Findings of Significance.

(a) A lead agency shall find that a project may have a significant effect on the environment and thereby require an EIR to be prepared for the project where there is substantial evidence, in light of the whole record, that any of the following conditions may occur:

(1) The project has the potential to substantially degrade the quality of the environment; substantially reduce the habitat of a fish or wildlife species; cause a fish or wildlife population to drop below self–sustaining levels; threaten to eliminate a plant or animal community; substantially reduce the number or restrict the range of an endangered, rare or threatened species; or eliminate important examples of the major periods of California history or prehistory.

(2) The project has the potential to achieve short–term environmental goals to the disadvantage of long–term environmental goals.

(3) The project has possible environmental effects that are individually limited but cumulatively considerable. "Cumulatively considerable" means that the incremental effects of an individual project are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.

(4) The environmental effects of a project will cause substantial adverse effects on human beings, either directly or indirectly.

(b)(1) Where, prior to the commencement of preliminary review of an environmental document, a project proponent agrees to mitigation measures or project modifications that would avoid any significant effect on the environment specified by subdivision (a) or would mitigate the significant effect to a point where clearly no significant effect on the environment would occur, a lead agency need not prepare an environmental impact report solely because, without mitigation, the environmental effects at issue would have been significant.

(2) Furthermore, where a proposed project has the potential to substantially reduce the number or restrict the range of an endangered, rare or threatened species, the lead agency need not prepare an EIR solely because of such an effect, if:

(A) the project proponent is bound to implement mitigation requirements relating to such species and habitat pursuant to an approved habitat conservation plan or natural community conservation plan;

(B) the state or federal agency approved the habitat conservation plan or natural community conservation plan in reliance on an environmental impact report or environmental impact statement; and

(C)1. such requirements avoid any net loss of habitat and net reduction in number of the affected species, or

2. such requirements preserve, restore, or enhance sufficient habitat to mitigate the reduction in habitat and number of the affected species to below a level of significance.

(c) Following the decision to prepare an EIR, if a lead agency determines that any of the conditions specified by subdivision (a) will occur, such a determination shall apply to:

(1) the identification of effects to be analyzed in depth in the environmental impact report or the functional equivalent thereof,

(2) the requirement to make detailed findings on the feasibility of alternatives or mitigation measures to substantially lessen or avoid the significant effects on the environment,

(3) when found to be feasible, the making of changes in the project to substantially lessen or avoid the significant effects on the environment, and

(4) where necessary, the requirement to adopt a statement of overriding considerations.

County of Stanislaus* (1996) 42 Cal.App.4th 608; *Los Angeles Unified School District v. City of Los Angeles* (1997) 58 Cal.App.4th 1019, 1024; and *Communities for a Better Environment v. California Resources Agency* (2002) 103 Cal.App.4th 98.

HISTORY

1. Amendment of subsection (a) and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Amendment of subsection (c) and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Amendment of section and NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending subsections (b)(1) and (c) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 6. Negative Declaration Process

§ 15070. Decision to Prepare a Negative or Mitigated Negative Declaration.

A public agency shall prepare or have preared a proposed negative declaration or mitigated negative declaration for a project subject to CEQA when:

(a) The initial study shows that there is no substantial evidence, in light of the whole record before the agency, that the project may have a significant effect on the environment, or

(b) The initial study identifies potentially significant effects, but:

(1) Revisions in the project plans or proposals made by or agreed to by the applicant before a proposed mitigated negative declaration and initial study are released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur, and

(2) There is no substantial evidence, in light of the whole record before the agency, that the project as revised may have a significant effect on the environment.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21064, 21064.5, 21080(c) and 21082.1, Public Resources Code; *Friends of B Street* v. *City of Hayward,* (1980) 106 Cal. App. 3d 988; *Running Fence Corp.* v. *Superior Court,* (1975) 51 Cal. App. 3d 400.

HISTORY

1. Repealer of Article 6 (Sections 15060–15069.8) and new Article 6 (Sections 15070–15075) filed 7–13–83; designated effective 8–1–83 (Register 83, No. 29). For prior history, see Registers 80, No. 19; 78, No. 5; 76, No. 41; 75, No. 1; and 73, No. 50).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15071. Contents.

A negative declaration circulated for public review shall include:

(a) A brief description of the project, including a commonly used name for the project, if any;

(b) The location of the project, preferably shown on a map, and the name of the project proponent;

(c) A proposed finding that the project will not have a significant effect on the environment;

(d) An attached copy of the initial study documenting reasons to support the finding; and

(e) Mitigation measures, if any, included in the project to avoid potentially significant effects.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(c), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15072. Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration.

(a) A lead agency shall provide a notice of intent to adopt a negative declaration or mitigated negative declaration to the public, responsible agencies, trustee agencies, and the county clerk of each county within which the proposed project is located, sufficiently prior to adoption by the lead agency of the negative declaration or mitigated negative declaration to allow the public and agencies the review period provided under Section 15105.

(b) The lead agency shall mail a notice of intent to adopt a negative declaration or mitigated negative declaration to the last known name and address of all organizations and individuals who have previously requested such notice in writing and shall also give notice of intent to adopt a negative declaration or mitigated negative declaration by at least one of the following procedures to allow the public the review period provided under Section 15105:

(1) Publication at least one time by the lead agency in a newspaper of general circulation in the area affected by the proposed project. If more than one area is affected, the notice shall be published in the newspaper of largest circulation from among the newspapers of general circulation in those areas.

(2) Posting of notice by the lead agency on and off site in the area where the project is to be located.

(3) Direct mailing to the owners and occupants of property contiguous to the project. Owners of such property shall be identified as shown on the latest equalized assessment roll.

(c) The alternatives for providing notice specified in subdivision (b) shall not preclude a lead agency from providing additional notice by other means if the agency so desires, nor shall the requirements of this section preclude a lead agency from providing the public notice at the same time and in the same manner as public notice required by any other laws for the project.

(d) The county clerk of each county within which the proposed project is located shall post such notices in the office of the county clerk within 24 hours of receipt for a period of at least 20 days.

(e) For a project of statewide, regional, or areawide significance, the lead agency shall also provide notice to transportation planning agencies and public agencies which have transportation facilities within their jurisdictions which could be affected by the project as specified in Section 21092.4(a) of the Public Resources Code. "Transportation facilities" includes: major local arterials and public transit within five miles of the project site and freeways, highways and rail transit service within 10 miles of the project site.

(f) If the United States Department of Defense or any branch of the United States Armed Forces has given a lead agency written notification of the specific boundaries of a low-level flight path, military impact zone, or special use airspace and provided the lead agency with written notification of the military contact office and address for the military service pursuant to subdivision (b) of Section 15190.5, then the lead agency shall include the specified military contact office in the list of organizations and individuals receiving a notice of intent to adopt a negative declaration or a mitigated negative declaration pursuant to this section for projects that meet the criteria set forth in subdivision (c) of Section

15190.5. The lead agency shall send the specified military contact office such notice of intent sufficiently prior to adoption by the lead agency of the negative declaration or mitigated negative declaration to allow the military service the review period provided under Section 15105.

(g) A notice of intent to adopt a negative declaration or mitigated negative declaration shall specify the following:

(1) A brief description of the proposed project and its location.

(2) The starting and ending dates for the review period during which the lead agency will receive comments on the proposed negative declaration or mitigated negative declaration. This shall include starting and ending dates for the review period. If the review period has been is shortened pursuant to Section 15105, the notice shall include a statement to that effect.

(3) The date, time, and place of any scheduled public meetings or hearings to be held by the lead agency on the proposed project, when known to the lead agency at the time of notice.

(4) The address or addresses where copies of the proposed negative declaration or mitigated negative declaration including the revisions developed under Section 15070(b) and all documents referenced in the proposed negative declaration or mitigated negative declaration are available for review. This location or locations shall be readily accessible to the public during the lead agency's normal working hours.

(5) The presence of the site on any of the lists enumerated under Section 65962.5 of the Government Code including, but not limited to lists of hazardous waste facilities, land designated as hazardous waste property, and hazardous waste disposal sites, and the information in the Hazardous Waste and Substances Statement required under subdivision (f) of that section.

(6) Other information specifically required by statute or regulation for a particular project or type of project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21091, 21092, 21092.2, 21092.4, 21092.3, 21092.6, 21098 and 21151.8, Public Resources Code.

HISTORY

1. Amendment of subsections (a), (a)(3) and NOTE filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
2. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. Change without regulatory effect amending subsections (c) and (f)(5) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
4. New subsection (f), subsection relettering and amendment of NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15073. Public Review of a Proposed Negative Declaration or Mitigated Negative Declaration.

(a) The lead agency shall provide a public review period pursuant to Section 15105 of not less than 20 days. When a proposed negative declaration or mitigated negative declaration and initial study are submitted to the State Clearinghouse for review by state agencies, the public review period shall not be less than 30 days, unless a shorter period is approved by the State Clearinghouse under Section 15105(d).

(b) When a proposed negative declaration or mitigated negative declaration and initial study have been submitted to the State Clearinghouse for review by state agencies, the public review period shall be at least as long as the review period established by the State Clearinghouse. The public review period and the state agency review period may, but are not required to, begin and end at the same time. Day one of the state review period shall be the date that the State Clearinghouse distributes the document to state agencies.

(c) A copy of the proposed negative declaration or mitigated negative declaration and the initial study shall be attached to the notice of intent to adopt the proposed declaration that is sent to every responsible agency and trustee agency concerned with the project and every other public agency with jurisdiction by law over resources affected by the project.

(d) Where one or more state agencies will be a responsible agency or a trustee agency or will exercise jurisdiction by law over natural resources affected by the project, or where the project is of statewide, regional, or areawide environmental significance, the lead agency shall send copies of the proposed negative declaration or mitigated negative declaration to the State Clearinghouse for distribution to the state agencies.

(e) The lead agency shall notify in writing any public agency which comments on a proposed negative declaration or mitigated negative declaration of any public hearing to be held for the project for which the document was prepared. A notice provided to a public agency pursuant to Section 15072 satisfies this requirement.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000(e), 21003(b), 21080(c), 21081.6, 21091 and 21092.5, Public Resources Code; *Plaggmier* v. *City of San Jose*, (1980) 101 Cal. App. 3d 842.

HISTORY

1. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
3. Amendment of subsection (b) filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15073.5. Recirculation of a Negative Declaration Prior to Adoption.

(a) A lead agency is required to recirculate a negative declaration when the document must be substantially revised after public notice of its availability has previously been given pursuant to Section 15072, but prior to its adoption. Notice of recirculation shall comply with Sections 15072 and 15073.

(b) A "substantial revision" of the negative declaration shall mean:

(1) A new, avoidable significant effect is identified and mitigation measures or project revisions must be added in order to reduce the effect to insignificance, or

(2) The lead agency determines that the proposed mitigation measures or project revisions will not reduce potential effects to less than significance and new measures or revisions must be required.

(c) Recirculation is not required under the following circumstances:

(1) Mitigation measures are replaced with equal or more effective measures pursuant to Section 15074.1.

(2) New project revisions are added in response to written or verbal comments on the project's effects identified in the proposed negative declaration which are not new avoidable significant effects.

(3) Measures or conditions of project approval are added after circulation of the negative declaration which are not required by CEQA , which do not create new significant environmental effects and are not necessary to mitigate an avoidable significant effect.

(4) New information is added to the negative declaration which merely clarifies, amplifies, or makes insignificant modifications to the negative declaration.

(d) If during the negative declaration process there is substantial evidence in light of the whole record, before the lead agency that the project, as revised, may have a significant effect on the environment which cannot be mitigated or avoided, the lead agency shall prepare a draft EIR and certify a final EIR prior to approving the project. It shall circulate the draft EIR for consultation and review pursuant to Sections 15086 and 15087, and advise reviewers in writing that a proposed negative declaration had previously been circulated for the project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080, Public Resources Code; *Gentry v. City of Murrieta* (1995) 36 Cal.App.4th 1359; *Leonoff v. Monterey County Board of Supervisors* (1990) 222 Cal.App.3d 1337; and *Long Beach Savings and Loan Assn. v. Long Beach Redevelopment Agency* (1986) 188 Cal.App.3d 249.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15074. Consideration and Adoption of a Negative Declaration or Mitigated Negative Declaration.

(a) Any advisory body of a public agency making a recommendation to the decisionmaking body shall consider the proposed negative declaration or mitigated negative declaration before making its recommendation.

(b) Prior to approving a project, the decisionmaking body of the lead agency shall consider the proposed negative declaration or mitigated negative declaration together with any comments received during the public review process. The decisionmaking body shall adopt the proposed negative declaration or mitigated negative declaration only if it finds on the basis of the whole record before it (including the initial study and any comments received), that there is no substantial evidence that the project will have a significant effect on the environment and that the negative declaration or mitigated negative declaration reflects the lead agency's independent judgment and analysis.

(c) When adopting a negative declaration or mitigated negative declaration, the lead agency shall specify the location and custodian of the documents or other material which constitute the record of proceedings upon which its decision is based.

(d) When adopting a mitigated negative declaration, the lead agency shall also adopt a program for reporting on or monitoring the changes which it has either required in the project or made a condition of approval to mitigate or avoid significant environmental effects.

(e) A lead agency shall not adopt a negative declaration or mitigated negative declaration for a project within the boundaries of a comprehensive airport land use plan or, if a comprehensive airport land use plan has not been adopted, for a project within two nautical miles of a public airport or public use airport, without first considering whether the project will result in a safety hazard or noise problem for persons using the airport or for persons residing or working in the project area.

(f) When a non–elected official or decisionmaking body of a local lead agency adopts a negative declaration or mitigated negative declaration, that adoption may be appealed to the agency's elected decisionmaking body, if one exists. For example, adoption of a negative declaration for a project by a city's planning commission may be appealed to the city council. A local lead agency may establish procedures governing such appeals.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(c), 21081.6, 21082.1, 21096 and 21151, Public Resources Code; *Friends of B Street* v. *City of Hayward*, (1980) 106 Cal. App. 3d 988.

HISTORY

1. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
3. New subsection (f) and amendment of NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15074.1. Substitution of Mitigation Measures in a Proposed Mitigated Negative Declaration.

(a) As a result of the public review process for a proposed mitigated negative declaration, including any administrative decisions or public hearings conducted on the project prior to its approval, the lead agency may conclude that certain mitigation measures identified in the mitigated negative declaration are infeasible or otherwise undesirable. Prior to approving the project, the lead agency may, in accordance with this section, delete those mitigation measures and substitute for them other measures which the lead agency determines are equivalent or more effective.

(b) Prior to deleting and substituting for a mitigation measure, the lead agency shall do both of the following:

(1) Hold a public hearing on the matter. Where a public hearing is to be held in order to consider the project, the public hearing required by this section may be combined with that hearing. Where no public hearing would otherwise be held to consider the project, then a public hearing shall be required before a mitigation measure may be deleted and a new measure adopted in its place.

(2) Adopt a written finding that the new measure is equivalent or more effective in mitigating or avoiding potential significant effects and that it in itself will not cause any potentially significant effect on the environment.

(c) No recirculation of the proposed mitigated negative declaration pursuant to Section 15072 is required where the new mitigation measures are made conditions of, or are otherwise incorporated into, project approval in accordance with this section.

(d) "Equivalent or more effective" means that the new measure will avoid or reduce the significant effect to at least the same degree as, or to a greater degree than, the original measure and will create no more adverse effect of its own than would have the original measure.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(f), Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15075. Notice of Determination on a Project for Which a Proposed Negative or Mitigated Negative Declaration Has Been Approved.

(a) The lead agency shall file a notice of determination within five working days after deciding to carry out or approve the project. For projects with more than one phase, the lead agency shall file a notice of determination for each phase requiring a discretionary approval.

(b) The notice of determination shall include:

(1) An identification of the project including the project title as identified on the proposed negative declaration, its location, and the State Clearinghouse identification number for the proposed negative declaration if the notice of determination is filed with the State Clearinghouse.

(2) A brief description of the project.

(3) The agency's name and the date on which the agency approved the project.

(4) The determination of the agency that the project will not have a significant effect on the environment.

(5) A statement that a negative declaration or a mitigated negative declaration was adopted pursuant to the provisions of CEQA.

(6) A statement indicating whether mitigation measures were made a condition of the approval of the project, and whether a mitigation monitoring plan/program was adopted.

(7) The address where a copy of the negative declaration or mitigated negative declaration may be examined.

(c) If the lead agency is a state agency, the lead agency shall file the notice of determination with the Office of Planning and Research within five working days after approval of the project by the lead agency.

(d) If the lead agency is a local agency, the local agency shall file the notice of determination with the county clerk of the county or counties in which the project will be located within five working days after approval of the project by the lead agency. If the project requires discretionary approval from any state agency, the local lead agency shall also, within five working days of this approval, file a copy of the notice of determination with the Office of Planning and Research.

(e) A notice of determination filed with the county clerk shall be available for public inspection and shall be posted by the county clerk within 24 hours of receipt for a period of at least 30 days. Thereafter, the clerk shall return the notice to the local lead agency with a notation of the period during which it was posted. The local lead agency shall retain the notice for not less than 12 months.

(f) A notice of determination filed with the Office of Planning and Research shall be available for public inspection and shall be posted for a period of at least 30 days. The Office of Planning and Research shall retain each notice for not less than 12 months.

(g) The filing of the notice of determination pursuant to subdivision (c) above for state agencies and the filing and posting of the notice of de-

termination pursuant to subdivisions (d) and (e) above for local agencies, start a 30–day statute of limitations on court challenges to the approval under CEQA.

(h) A sample notice of determination is provided in Appendix D. Each public agency may devise its own form, but the minimum content requirements of subdivision (b) above shall be met.

Public agencies are encouraged to make copies of all notices filed pursuant to this section available in electronic format on the Internet. Such electronic notices are in addition to the posting requirements of these guidelines and the Public Resources Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(c), 21108(a) and (c), 21152(a) and (c) and 21167(b), Public Resources Code; *Citizens of Lake Murray Area Association* v. *City Council*, (1982) 129 Cal. App. 3d 436.

HISTORY

1. Amendment of subsections (c) and (d) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of section heading and section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. New subsection (f) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Amendment filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
5. Change without regulatory effect amending subsections (c)–(h) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 6.5. Statutory Exemptions

HISTORY

1. Repealer of Article 6.5 (Sections 15070–15079.7) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Register 78, No. 5.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).

Article 7. EIR Process

§ 15080. General.

To the extent possible, the EIR process should be combined with the existing planning, review, and project approval process used by each public agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061, 21100 and 21151, Public Resources Code.

HISTORY

1. Repealer of Article 7 (Sections 15080–15089) and new Article 7 (Sections 15080–15096) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 82, No. 2; 80, No. 19; 78, No. 5; 77, No. 1; 76, No. 41; 75, No. 1; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15081. Decision to Prepare an EIR.

The EIR process starts with the decision to prepare an EIR. This decision will be made either during preliminary review under Section 15060 or at the conclusion of an initial study after applying the standards described in Section 15064.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21100, Public Resources Code; *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68; *Friends of B Street* v. *City of Hayward* (1980) 106 Cal. App. 3d 988.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15081.5. EIRs Required by Statute.

(a) A lead agency shall prepare or have prepared an EIR for the following types of projects. An initial study may be prepared to help identify the significant effects of the project.

(1) The burning of municipal wastes, hazardous wastes, or refuse–derived fuel, including but not limited to tires, if the project is either:

(A) The construction of a new facility; or

(B) The expansion of an existing facility that burns hazardous waste that would increase its permitted capacity by more than 10 percent. This does not apply to any project exclusively burning hazardous waste for which a determination to prepare a negative declaration, or mitigated negative declaration or environmental impact report was made prior to July 14, 1989. The amount of expansion of an existing facility is calculated pursuant to subdivision (b) of Section 21151.1 of the Public Resources Code.

(C) Subdivision (1) of the subdivision does not apply to:

1. Projects for which the State Energy Resources Conservation and Development Commission has assumed jurisdiction pursuant to Chapter 6 (commencing with Section 25500) of Division 15 of the Public Resources Code.

2. Any of the types of burn or thermal processing projects listed in subdivision (d) of Section 21151.1 of the Public Resources Code.

(2) The initial issuance of a hazardous waste facilities permit to a land disposal facility, as defined in subdivision (d) of Section 25199.1 of the Health and Safety Code. Preparation of an EIR is not mandatory if the facility only manages hazardous waste which is identified or listed pursuant to Section 25140 or Section 25141 of the Health and Safety Code on or after January 1, 1992; or only conducts activities which are regulated pursuant to Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code on or after January 1, 1992. "Initial issuance" does not include the issuance of a closure or postclosure permit pursuant to Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code.

(3) The initial issuance of a hazardous waste facility permit pursuant to Section 25200 of the Health and Safety Code to an off–site large treatment facility, as defined pursuant to subdivision (d) of Section 25205.1 of that code. Preparation of an EIR is not mandatory if the facility only manges hazardous waste which is identified or listed pursuant to Section 25140 or Section 25141 of the Health and Safety Code on or after January 1, 1992; or only conducts activities which are regulated pursuant to Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code on or after January 1, 1992. "Initial issuance" does not include the issuance of a closure or postclosure permit pursuant to Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code.

(4) Any open pit mining operation which is subject to the permit requirements of the Surface Mining and Reclamation Act (beginning at Section 2710 of the Public Resources Code) and which utilizes a cyanide heap–leaching process for the purpose of extracting gold or other precious metals.

(5) An initial base reuse plan as defined in Section 15229.

(b) A lead agency shall prepare or have prepared an EIR for the selection of a California Community College, California State University, University of California, or California Maritime Academy campus location and approval of a long range development plan for that campus.

(1) The EIR for a long range development plan for a campus shall include an analysis of, among other significant impacts, those environmental effects relating to changes in enrollment levels.

(2) Subsequent projects within the campus may be addressed in environmental analyses tiered on the EIR prepared for the long range development plan.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.09, 21083.8.1, 21151.1 and 21151.7, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (a)(1)(C) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15082. Notice of Preparation and Determination of Scope of EIR.

(a) Notice of Preparation. Immediately after deciding that an environmental impact report is required for a project, the lead agency shall send

to the Office of Planning and Research and each responsible and trustee agency a notice of preparation stating that an environmental impact report will be prepared. This notice shall also be sent to every federal agency involved in approving or funding the project. If the United States Department of Defense or any branch of the United States Armed Forces has given the lead agency written notification of the specific boundaries of a low-level flight path, military impact zone, or special use airspace and provided the lead agency with written notification of the military contact office and address for the military service pursuant to subdivision (b) of Section 15190.5, then the lead agency shall include the specified military contact office in the list of organizations and individuals receiving a notice of preparation of an EIR pursuant to this section for projects that meet the criteria set forth in subdivision (c) of Section 15190.5.

(1) The notice of preparation shall provide the responsible and trustee agencies and the Office of Planning and Research with sufficient information describing the project and the potential environmental effects to enable the responsible agencies to make a meaningful response. At a minimum, the information shall include:

(A) Description of the project,

(B) Location of the project (either by street address and cross street, for a project in an urbanized area, or by attaching a specific map, preferably a copy of a U.S.G.S. 15′ or 7 1/2′ topographical map identified by quadrangle name), and

(C) Probable environmental effects of the project.

(2) A sample notice of preparation is shown in Appendix I. Public agencies are free to devise their own formats for this notice. A copy of the initial study may be sent with the notice to supply the necessary information.

(3) To send copies of the notice of preparation, the lead agency shall use either certified mail or any other method of transmittal that provides it with a record that the notice was received.

(4) The lead agency may begin work on the draft EIR immediately without awaiting responses to the notice of preparation. The draft EIR in preparation may need to be revised or expanded to conform to responses to the notice of preparation. A lead agency shall not circulate a draft EIR for public review before the time period for responses to the notice of preparation has expired.

(b) Response to Notice of Preparation. Within 30 days after receiving the notice of preparation under subdivision (a), each responsible and trustee agency and the Office of Planning and Research shall provide the lead agency with specific detail about the scope and content of the environmental information related to the responsible or trustee agency's area of statutory responsibility that must be included in the draft EIR.

(1) The response at a minimum shall identify:

(A) The significant environmental issues and reasonable alternatives and mitigation measures that the responsible or trustee agency, or the Office of Planning and Research will need to have explored in the draft EIR; and

(B) Whether the agency will be a responsible agency or trustee agency for the project.

(2) If a responsible or trustee agency, or the Office of Planning and Research fails by the end of the 30-day period to provide the lead agency with either a response to the notice or a well-justified request for additional time, the lead agency may presume that none of those entities have a response to make.

(3) A generalized list of concerns not related to the specific project shall not meet the requirements of this section for a response.

(c) Meetings. In order to expedite the consultation, the lead agency, a responsible agency, a trustee agency, the Office of Planning and Research, or a project applicant may request one or more meetings between representatives of the agencies involved to assist the lead agency in determining the scope and content of the environmental information that the responsible or trustee agency may require. Such meetings shall be convened by the lead agency as soon as possible, but no later than 30 days after the meetings were requested. On request, the Office of Planning and Research will assist in convening meetings that involve state agencies.

(1) For projects of statewide, regional or areawide significance pursuant to Section 15206, the lead agency shall conduct at least one scoping meeting. A scoping meeting held pursuant to the National Environmental Policy Act, 42 USC 4321 et seq. (NEPA) in the city or county within which the project is located satisfies this requirement if the lead agency meets the notice requirements of subsection (c)(2) below.

(2) The lead agency shall provide notice of the scoping meeting to all of the following:

(A) any county or city that borders on a county or city within which the project is located, unless otherwise designated annually by agreement between the lead agency and the county or city;

(B) any responsible agency

(C) any public agency that has jurisdiction by law with respect to the project;

(D) any organization or individual who has filed a written request for the notice.

(3) A lead agency shall call at least one scoping meeting for a proposed project that may affect highways or other facilities under the jurisdiction of the Department of Transportation if the meeting is requested by the department. The lead agency shall call the scoping meeting as soon as possible but not later than 30 days after receiving the request from the Department of Transportation.

(d) The Office of Planning and Research. The Office of Planning and Research will ensure that the state responsible and trustee agencies reply to the lead agency within 30 days of receipt of the notice of preparation by the state responsible and trustee agencies.

(e) Identification Number. When the notice of preparation is submitted to the State Clearinghouse, the state identification number issued by the Clearinghouse shall be the identification number for all subsequent environmental documents on the project. The identification number should be referenced on all subsequent correspondence regarding the project, specifically on the title page of the draft and final EIR and on the notice of determination.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.9, 21080.4 and 21098, Public Resources Code.

HISTORY

1. Amendment of subsection (b) filed 1-30-86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending subsection (a)(2) filed 2-1-2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Amendment of section heading, section and NOTE filed 9-7-2004; operative 9-7-2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending section and NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
5. Amendment of subsections (a) and (c)(1), new subsection (c)(2), subsection renumbering and amendment of NOTE filed 7-27-2007; operative 7-27-2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15083. Early Public Consultation.

Prior to completing the draft EIR, the lead agency may also consult directly with any person or organization it believes will be concerned with the environmental effects of the project. Many public agencies have found that early consultation solves many potential problems that would arise in more serious forms later in the review process. This early consultation may be called scoping. Scoping will be necessary when preparing an EIR/EIS jointly with a federal agency.

(a) Scoping has been helpful to agencies in identifying the range of actions, alternatives, mitigation measures, and significant effects to be analyzed in depth in an EIR and in eliminating from detailed study issues found not to be important.

(b) Scoping has been found to be an effective way to bring together and resolve the concerns of affected federal, state, and local agencies, the proponent of the action, and other interested persons including those who might not be in accord with the action on environmental grounds.

(c) Where scoping is used, it should be combined to the extent possible with consultation under Section 15082.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21082.1, Public Resources Code; Section 4, Chapter 480 of the Statutes of 1981; 40 Code of Federal Regulations, Part 1501.7.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15083.5. City or County Consultation with Water Agencies. [Repealed]

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21151.9, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (a)(2)(B) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
3. Repealer filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15084. Preparing the Draft EIR.

(a) The draft EIR shall be prepared directly by or under contract to the lead agency. The required contents of a draft EIR are discussed in Article 9 beginning with Section 15120.

(b) The lead agency may require the project applicant to supply data and information both to determine whether the project may have a significant effect on the environment and to assist the lead agency in preparing the draft EIR. The requested information should include an identification of other public agencies which will have jurisdiction by law over the project.

(c) Any person, including the applicant, may submit information or comments to the lead agency to assist in the preparation of the draft EIR. The submittal may be presented in any format, including the form of a draft EIR. The lead agency must consider all information and comments received. The information or comments may be included in the draft EIR in whole or in part.

(d) The lead agency may choose one of the following arrangements or a combination of them for preparing a draft EIR.

(1) Preparing the draft EIR directly with its own staff.

(2) Contracting with another entity, public or private, to prepare the draft EIR.

(3) Accepting a draft prepared by the applicant, a consultant retained by the applicant, or any other person.

(4) Executing a third party contract or memorandum of understanding with the applicant to govern the preparation of a draft EIR by an independent contractor.

(5) Using a previously prepared EIR.

(e) Before using a draft prepared by another person, the lead agency shall subject the draft to the agency's own review and analysis. The draft EIR which is sent out for public review must reflect the independent judgment of the lead agency. The lead agency is responsible for the adequacy and objectivity of the draft EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21082.1, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15085. Notice of Completion.

(a) As soon as the draft EIR is completed, a notice of completion must be filed with the Office of Planning and Research in a printed hard copy or in electronic form on a diskette or by electronic mail transmission.

(b) The notice of completion shall include:

(1) A brief description of the project,

(2) The proposed location of the project (either by street address and cross street, for a project in an urbanized area, or by attaching a specific map, preferably a copy of a U.S.G.S. 15′ or 7–1/2′ topographical map identified by quadrangle name).

(3) An address where copies of the draft EIR are available, and

(4) The review period during which comments will be received on the draft EIR.

(c) A sample form for the notice of completion is included in Appendix L.

(d) Where the EIR will be reviewed through the state review process handled by the State Clearinghouse, the notice of completion cover form required by the State Clearinghouse will serve as the notice of completion (see Appendix C).

(e) Public agencies are encouraged to make copies of notices of completion filed pursuant to this section available in electronic format on the Internet.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21161, Public Resources Code.

HISTORY

1. Amendment of subsections (a) and (d) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of subsection (a) and new subsection (e) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Amendment of subsections (b)(2) and (b)(4)–(d) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending subsection (a) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15086. Consultation Concerning Draft EIR.

(a) The lead agency shall consult with and request comments on the draft EIR from:

(1) Responsible agencies,

(2) Trustee agencies with resources affected by the project, and

(3) Any other state, federal, and local agencies which have jurisdiction by law with respect to the project or which exercise authority over resources which may be affected by the project, including water agencies consulted pursuant to section 15083.5.

(4) Any city or county which borders on a city or county within which the project is located.

(5) For a project of statewide, regional, or areawide significance, the transportation planning agencies and public agencies which have transportation facilities within their jurisdictions which could be affected by the project. "Transportation facilities" includes: major local arterials and public transit within five miles of the project site, and freeways, highways and rail transit service within 10 miles of the project site.

(6) For a state lead agency when the EIR is being prepared for a highway or freeway project, the State Air Resources Board as to the air pollution impact of the potential vehicular use of the highway or freeway and if a non–attainment area, the local air quality management district for a determination of conformity with the air quality management plan.

(7) For a subdivision project located within one mile of a facility of the State Water Resources Development System, the California Department of Water Resources.

(b) The lead agency may consult directly with:

(1) Any person who has special expertise with respect to any environmental impact involved,

(2) Any member of the public who has filed a written request for notice with the lead agency or the clerk of the governing body.

(3) Any person identified by the applicant whom the applicant believes will be concerned with the environmental effects of the project.

(c) A responsible agency or other public agency shall only make substantive comments regarding those activities involved in the project that are within an area of expertise of the agency or which are required to be carried out or approved by the responsible agency. Those comments shall be supported by specific documentation.

(d) Prior to the close of the public review period, a responsible agency or trustee agency which has identified what that agency considers to be significant environmental effects shall advise the lead agency of those effects. As to those effects relevant to its decision, if any, on the project, the responsible or trustee agency shall either submit to the lead agency complete and detailed performance objectives for mitigation measures ad-

dressing those effects or refer the lead agency to appropriate, readily available guidelines or reference documents concerning mitigation measures. If the responsible or trustee agency is not aware of mitigation measures that address identified effects, the responsible or trustee agency shall so state.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21081.6, 21092.4, 21092.5, 21104 and 21153, Public Resources Code.

HISTORY

1. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect repealing subsection (a)(6) and renumbering subsections filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15087. Public Review of Draft EIR.

(a) The lead agency shall provide public notice of the availability of a draft EIR at the same time as it sends a notice of completion to the Office of Planning and Research. If the United States Department of Defense or any branch of the United States Armed Forces has given the lead agency written notification of the specific boundaries of a low–level flight path, military impact zone, or special use airspace and provided the lead agency with written notification of the contact office and address for the military service pursuant to subdivision (b) of Section 15190.5, then the lead agency shall include the specified military contact office in the list of organizations and individuals receiving a notice of availability of a draft EIR pursuant to this section for projects that meet the criteria set forth in subdivision (c) of Section 15190.5. The public notice shall be given as provided under Section 15105 (a sample form is provided in Appendix L). Notice shall be mailed to the last known name and address of all organizations and individuals who have previously requested such notice in writing, and shall also be given by at least one of the following procedures:

(1) Publication at least one time by the public agency in a newspaper of general circulation in the area affected by the proposed project. If more than one area is affected, the notice shall be published in the newspaper of largest circulation from among the newspapers of general circulation in those areas.

(2) Posting of notice by the public agency on and off the site in the area where the project is to be located.

(3) Direct mailing to the owners and occupants of property contiguous to the parcel or parcels on which the project is located. Owners of such property shall be identified as shown on the latest equalized assessment roll.

(b) The alternatives for providing notice specified in subdivision (a) shall not preclude a public agency from providing additional notice by other means if such agency so desires, nor shall the requirements of this section preclude a public agency from providing the public notice required by this section at the same time and in the same manner as public notice otherwise required by law for the project.

(c) The notice shall disclose the following:

(1) A brief description of the proposed project and its location.

(2) The starting and ending dates for the review period during which the lead agency will receive comments. If the review period is shortened, the notice shall disclose that fact.

(3) The date, time, and place of any scheduled public meetings or hearings to be held by the lead agency on the proposed project when known to the lead agency at the time of notice.

(4) A list of the significant environmental effects anticipated as a result of the project, to the extent which such effects are known to the lead agency at the time of the notice.

(5) The address where copies of the EIR and all documents referenced in the EIR will be available for public review. This location shall be readily accessible to the public during the lead agency's normal working hours.

(6) The presence of the site on any of the lists of sites enumerated under Section 65962.5 of the Government Code including, but not limited to lists of hazardous waste facilities, land designated as hazardous waste property, hazardous waste disposal sites and others, and the information in the Hazardous Waste and Substances Statement required under subdivision (f) of that Section.

(d) The notice required under this section shall be posted in the office of the county clerk of each county in which the project will be located for a period of at least 30 days. The county clerk shall post such notices within 24 hours of receipt.

(e) In order to provide sufficient time for public review, the review period for a draft EIR shall be as provided in Section 15105. The review period shall be combined with the consultation required under Section 15086. When a draft EIR has been submitted to the State Clearinghouse, the public review period shall be at least as long as the review period established by the State Clearinghouse. The public review period and the state agency review period may, but are not required to, begin and end at the same time. Day one of the state review period shall be the date that the State Clearinghouse distributes the document to state agencies.

(f) Public agencies shall use the State Clearinghouse to distribute draft EIRs to state agencies for review and should use areawide clearinghouses to distribute the documents to regional and local agencies.

(g) To make copies of EIRs available to the public, lead agencies should furnish copies of draft EIRs to public library systems serving the area involved. Copies should also be available in offices of the lead agency.

(h) Public agencies should compile listings of other agencies, particularly local agencies, which have jurisdiction by law and/or special expertise with respect to various projects and project locations. Such listings should be a guide in determining which agencies should be consulted with regard to a particular project.

(i) Public hearings may be conducted on the environmental documents, either in separate proceedings or in conjunction with other proceedings of the public agency. Public hearings are encouraged, but not required as an element of the CEQA process.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21091, 21092, 21092.2, 21092.3, 21092.6, 21098, 21104, 21152, 21153 and 21161, Public Resources Code.

HISTORY

1. Amendment of subsection (a) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of subsection (a)(3) and NOTE filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
3. Amendment of section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
4. Amendment of subsection (a) and NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
5. Change without regulatory effect amending subsections (a), (b) and (c)(6) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
6. Amendment of subsections (a) and (e) and amendment of NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15088. Evaluation of and Response to Comments.

(a) The lead agency shall evaluate comments on environmental issues received from persons who reviewed the draft EIR and shall prepare a written response. The lead agency shall respond to comments received during the noticed comment period and any extensions and may respond to late comments.

(b) The lead agency shall provide a written proposed response to a public agency on comments made by that public agency at least 10 days prior to certifying an environmental impact report.

(c) The written response shall describe the disposition of significant environmental issues raised (e.g., revisions to the proposed project to mitigate anticipated impacts or objections). In particular, the major environmental issues raised when the lead agency's position is at variance with recommendations and objections raised in the comments must be addressed in detail giving reasons why specific comments and sugges-

tions were not accepted. There must be good faith, reasoned analysis in response. Conclusory statements unsupported by factual information will not suffice.

(d) The response to comments may take the form of a revision to the draft EIR or may be a separate section in the final EIR. Where the response to comments makes important changes in the information contained in the text of the draft EIR, the lead agency should either:

(1) Revise the text in the body of the EIR, or

(2) Include marginal notes showing that the information is revised in the response to comments.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21092.5, 21104 and 21153, Public Resources Code; *People* v. *County of Kern*, (1974) 39 Cal. App. 3d 830; *Cleary v. County of Stanislaus*, (1981) 118 Cal. App. 3d 348.

HISTORY

1. New subsection (b), subsection relettering and amendment of NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15088.5. Recirculation of an EIR Prior to Certification.

(a) A lead agency is required to recirculate an EIR when significant new information is added to the EIR after public notice is given of the availability of the draft EIR for public review under Section 15087 but before certification. As used in this section, the term "information" can include changes in the project or environmental setting as well as additional data or other information. New information added to an EIR is not "significant" unless the EIR is changed in a way that deprives the public of a meaningful opportunity to comment upon a substantial adverse environmental effect of the project or a feasible way to mitigate or avoid such an effect (including a feasible project alternative) that the project's proponents have declined to implement. "Significant new information" requiring recirculation include, for example, a disclosure showing that:

(1) A new significant environmental impact would result from the project or from a new mitigation measure proposed to be implemented.

(2) A substantial increase in the severity of an environmental impact would result unless mitigation measures are adopted that reduce the impact to a level of insignificance.

(3) A feasible project alternative or mitigation measure considerably different from others previously analyzed would clearly lessen the significant environmental impacts of the project, but the project's proponents decline to adopt it.

(4) The draft EIR was so fundamentally and basically inadequate and conclusory in nature that meaningful public review and comment were precluded. (*Mountain Lion Coalition v. Fish & Game Com.* (1989) 214 Cal.App.3d 1043).

(b) Recirculation is not required where the new information added to the EIR merely clarifies or amplifies or makes insignificant modifications in an adequate EIR.

(c) If the revision is limited to a few chapters or portions of the EIR, the lead agency need only recirculate the chapters or portions that have been modified.

(d) Recirculation of an EIR requires notice pursuant to Section 15087, and consultation pursuant to Section 15086.

(e) A decision not to recirculate an EIR must be supported by substantial evidence in the administrative record.

(f) The lead agency shall evaluate and respond to comments as provided in Section 15088. Recirculating an EIR can result in the lead agency receiving more than one set of comments from reviewers. The following are two ways in which the lead agency may identify the set of comments to which it will respond. This dual approach avoids confusion over whether the lead agency must respond to comments which are duplicates or which are no longer pertinent due to revisions to the EIR. In no case shall the lead agency fail to respond to pertinent comments on significant environmental issues.

(1) When an EIR is substantially revised and the entire document is recirculated, the lead agency may require reviewers to submit new comments and, in such cases, need not respond to those comments received during the earlier circulation period. The lead agency shall advise reviewers, either in the text of the revised EIR or by an attachment to the revised EIR, that although part of the administrative record, the previous comments do not require a written response in the final EIR, and that new comments must be submitted for the revised EIR. The lead agency need only respond to those comments submitted in response to the recirculated revised EIR.

(2) When the EIR is revised only in part and the lead agency is recirculating only the revised chapters or portions of the EIR, the lead agency may request that reviewers limit their comments to the revised chapters or portions of the recirculated EIR. The lead agency need only respond to (i) comments received during the initial circulation period that relate to chapters or portions of the document that were not revised and recirculated, and (ii) comments received during the recirculation period that relate to the chapters or portions of the earlier EIR that were revised and recirculated. The lead agency's request that reviewers limit the scope of their comments shall be included either within the text of the revised EIR or by an attachment to the revised EIR.

(3) As part of providing notice of recirculation as required by Public Resources Code Section 21092.1, the lead agency shall send a notice of recirculation to every agency, person, or organization that commented on the prior EIR. The notice shall indicate, at a minimum, whether new comments may be submitted only on the recirculated portions of the EIR or on the entire EIR in order to be considered by the agency.

(g) When recirculating a revised EIR, either in whole or in part, the lead agency shall, in the revised EIR or by an attachment to the revised EIR, summarize the revisions made to the previously circulated draft EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21092.1, Public Resources Code; *Laurel Heights Improvement Association v. Regents of the University of California* (1993) 6 Cal. 4th 1112.

HISTORY

1. New section filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
2. New subsections (f)–(g) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Amendment of subsections (f)–(f)(2) and new subsection (f)(3) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15089. Preparation of Final EIR.

(a) The lead agency shall prepare a final EIR before approving the project. The contents of a final EIR are specified in Section 15132 of these guidelines.

(b) Lead agencies may provide an opportunity for review of the final EIR by the public or by commenting agencies before approving the project. The review of a final EIR should focus on the responses to comments on the draft EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100, 21105 and 21151, Public Resources Code; *City of Carmel–by–the–Sea* v. *Board of Supervisors*, (1977) 71 Cal. App. 3d 84; State Administrative Manual, Section 1060.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15090. Certification of the Final EIR.

(a) Prior to approving a project the lead agency shall certify that:

(1) The final EIR has been completed in compliance with CEQA;

(2) The final EIR was presented to the decisionmaking body of the lead agency and that the decisionmaking body reviewed and considered the information contained in the final EIR prior to approving the project; and

(3) The final EIR reflects the lead agency's independent judgment and analysis.

(b) When an EIR is certified by a non–elected decision–making body within a local lead agency, that certification may be appealed to the local lead agency's elected decision–making body, if one exists. For example, certification of an EIR for a tentative subdivision map by a city's plan-

ning commission may be appealed to the city council. Each local lead agency shall provide for such appeals.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082.1, 21100 and 21151, Public Resources Code; *City of Carmel–by–the–Sea* v. *Board of Supervisors* (1977) 71 Cal. App. 3d 84; *Kleist* v. *City of Glendale* (1976) 56 Cal. App. 3d 770.

HISTORY

1. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22)
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15091. Findings.

(a) No public agency shall approve or carry out a project for which an EIR has been certified which identifies one or more significant environmental effects of the project unless the public agency makes one or more written findings for each of those significant effects, accompanied by a brief explanation of the rationale for each finding. The possible findings are:

(1) Changes or alterations have been required in, or incorporated into, the project which avoid or substantially lessen the significant environmental effect as identified in the final EIR.

(2) Such changes or alterations are within the responsibility and jurisdiction of another public agency and not the agency making the finding. Such changes have been adopted by such other agency or can and should be adopted by such other agency.

(3) Specific economic, legal, social, technological, or other considerations, including provision of employment opportunities for highly trained workers, make infeasible the mitigation measures or project alternatives identified in the final EIR.

(b) The findings required by subdivision (a) shall be supported by substantial evidence in the record.

(c) The finding in subdivision (a)(2) shall not be made if the agency making the finding has concurrent jurisdiction with another agency to deal with identified feasible mitigation measures or alternatives. The finding in subdivision (a)(3) shall describe the specific reasons for rejecting identified mitigation measures and project alternatives.

(d) When making the findings required in subdivision (a)(1), the agency shall also adopt a program for reporting on or monitoring the changes which it has either required in the project or made a condition of approval to avoid or substantially lessen significant environmental effects. These measures must be fully enforceable through permit conditions, agreements, or other measures.

(e) The public agency shall specify the location and custodian of the documents or other material which constitute the record of the proceedings upon which its decision is based.

(f) A statement made pursuant to Section 15093 does not substitute for the findings required by this section.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21002.1, 21081 and 21081.6, Public Resources Code; *Laurel Hills Homeowners Association* v. *City Council* (1978) 83 Cal. App. 3d 515; *Cleary* v. *County of Stanislaus* (1981)118 Cal. App. 3d 348; *Sierra Club v. Contra Costa County* (1992) 10 Cal.App.4th 1212; *Citizens for Quality Growth v. City of Mount Shasta* (1988) 198 Cal.App.3d 433.

HISTORY

1. Amendment of subsections (a) and (a)(3), new subsections (d) and (e), and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Amendment of subsection (c), new subsection (f) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsections (b)–(d) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15092. Approval.

(a) After considering the final EIR and in conjunction with making findings under Section 15091, the lead agency may decide whether or how to approve or carry out the project.

(b) A public agency shall not decide to approve or carry out a project for which an EIR was prepared unless either:

(1) The project as approved will not have a significant effect on the environment, or

(2) The agency has:

(A) Eliminated or substantially lessened all significant effects on the environment where feasible as shown in findings under Section 15091, and

(B) Determined that any remaining significant effects on the environment found to be unavoidable under Section 15091 are acceptable due to overriding concerns as described in Section 15093.

(c) With respect to a project which includes housing development, the public agency shall not reduce the proposed number of housing units as a mitigation measure if it determines that there is another feasible specific mitigation measure available that will provide a comparable level of mitigation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21002.1, 21081 and 21159.26, Public Resources Code; *Friends of Mammoth v. Board of Supervisors*, (1972) 8 Cal. App. 3d 247; San *Francisco Ecology Center v. City and County of San Francisco*, (1975) 48 Cal. App. 3d 584; *City of Carmel–by–the–Sea* v. *Board of Supervisors*, (1977) 71 Cal. App. 3d 84; *Laurel Hills Homeowners Association* v. *City Council*, (1978) 83 Cal. App. 3d 515.

HISTORY

1. Change without regulatory effect amending NOTE filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15093. Statement of Overriding Considerations.

(a) CEQA requires the decision–making agency to balance, as applicable, the economic, legal, social, technological, or other benefits of a proposed project against its unavoidable environmental risks when determining whether to approve the project. If the specific economic, legal, social, technological, or other benefits of a proposal project outweigh the unavoidable adverse environmental effects, the adverse environmental effects may be considered "acceptable."

(b) When the lead agency approves a project which will result in the occurrence of significant effects which are identified in the final EIR but are not avoided or substantially lessened, the agency shall state in writing the specific reasons to support its action based on the final EIR and/or other information in the record. The statement of overriding considerations shall be supported by substantial evidence in the record.

(c) If an agency makes a statement of overriding considerations, the statement should be included in the record of the project approval and should be mentioned in the notice of determination. This statement does not substitute for, and shall be in addition to, findings required pursuant to Section 15091.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002 and 21081, Public Resources Code; *San Francisco Ecology Center* v. *City and County of San Francisco* (1975) 48 Cal. App. 3d 584; *City of Carmel–by–the–Sea* v. *Board of Supervisors* (1977) 71 Cal. App. 3d 84; *Sierra Club v. Contra Costa County* (1992) 10 Cal.App.4th 1212; *Citizens for Quality Growth v. City of Mount Shasta* (1988) 198 Cal.App.3d 433.

HISTORY

1. Amendment of subsections (a) and (b) and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Amendment of subsections (b) and (c) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15094. Notice of Determination.

(a) The lead agency shall file a notice of determination within five working days after deciding to carry out or approve the project.

(b) The notice of determination shall include:

(1) An identification of the project including the project title as identified on the draft EIR, and the location of the project (either by street address and cross street for a project in an urbanized area or by attaching a specific map, preferably a copy of a U.S.G.S. 15′ or 7–1/2′ topograph-

ical map identified by quadrangle name). If the notice of determination is filed with the State Clearinghouse, the State Clearinghouse identification number for the draft EIR shall be provided.

(2) A brief description of the project.

(3) The lead agency's name and the date on which the agency approved the project. If a responsible agency files the notice of determination pursuant to Section 15096(i), the responsible agency's name and date of approval shall also be identified.

(4) The determination of the agency whether the project in its approved form will have a significant effect on the environment.

(5) A statement that an EIR was prepared and certified pursuant to the provisions of CEQA.

(6) Whether mitigation measures were made a condition of the approval of the project, and whether a mitigation monitoring plan/program was adopted.

(7) Whether findings were made pursuant to Section 15091.

(8) Whether a statement of overriding considerations was adopted for the project.

(9) The address where a copy of the final EIR and the record of project approval may be examined.

(c) If the lead agency is a state agency, the lead agency shall file the notice of determination with the Office of Planning and Research within five working days after approval of the project by the lead agency.

(d) If the lead agency is a local agency, the local lead agency shall file the notice of determination with the county clerk of the county or counties in which the project will be located, within five working days after approval of the project by the lead agency. If the project requires discretionary approval from any state agency, the local lead agency shall also, within five working days of this approval, file a copy of the notice of determination with the Office of Planning and Research.

(e) A notice of determination filed with the county clerk shall be available for public inspection and shall be posted within 24 hours of receipt for a period of at least 30 days. Thereafter, the clerk shall return the notice to the local lead agency with a notation of the period during which it was posted. The local lead agency shall retain the notice for not less than 12 months.

(f) A notice of determination filed with the Office of Planning and Research shall be available for public inspection and shall be posted for a period of at least 30 days. The Office of Planning and Research shall retain each notice for not less than 12 months.

(g) The filing of the notice of determination pursuant to subdivision (c) above for state agencies and the filing and posting of the notice of determination pursuant to subdivisions (d) and (e) above for local agencies, start a 30–day statute of limitations on court challenges to the approval under CEQA.

(h) A sample notice of determination is provided in Appendix D. Each public agency may devise its own form, but any such form shall include, at a minimum, the information required by subdivision (b). Public agencies are encouraged to make copies of all notices filed pursuant to this section available in electronic format on the Internet. Such electronic notices are in addition to the posting requirements of the Guidelines and the Public Resources Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21108, 21152 and 21167, Public Resources Code; *Citizens of Lake Murray Area Association* v. *City Council,* (1982) 129 Cal. App. 3d 436.

HISTORY

1. Amendment of subsections (b) and (c) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of subsection (a), new subsections (d) and (e), subsection relettering, and amendment of newly designated subsection (f) filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. Amendment filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending subsections (c)–(h) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15095. Disposition of a Final EIR.

The lead agency shall:

(a) File a copy of the final EIR with the appropriate planning agency of any city, county, or city and county where significant effects on the environment may occur.

(b) Include the final EIR as part of the regular project report which is used in the existing project review and budgetary process if such a report is used.

(c) Retain one or more copies of the final EIR as public records for a reasonable period of time.

(d) Require the applicant to provide a copy of the certified, final EIR to each responsible agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21105, 21151 and 21165, Public Resources Code; *County of Inyo v. Yorty,* (1973) 32 Cal. App. 3d 795.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15096. Process for a Responsible Agency.

(a) General. A responsible agency complies with CEQA by considering the EIR or negative declaration prepared by the lead agency and by reaching its own conclusions on whether and how to approve the project involved. This section identifies the special duties a public agency will have when acting as a responsible agency.

(b) Response to Consultation. A responsible agency shall respond to consultation by the lead agency in order to assist the lead agency in preparing adequate environmental documents for the project. By this means, the responsible agency will ensure that the documents it will use will comply with CEQA.

(1) In response to consultation, a responsible agency shall explain its reasons for recommending whether the lead agency should prepare an EIR or negative declaration for a project. Where the responsible agency disagrees with the lead agency's proposal to prepare a negative declaration for a project, the responsible agency should identify the significant environmental effects which it believes could result from the project and recommend either that an EIR be prepared or that the project be modified to eliminate the significant effects.

(2) As soon as possible, but not longer than 30 days after receiving a notice of preparation from the lead agency, the responsible agency shall send a written reply by certified mail or any other method which provides the agency with a record showing that the notice was received. The reply shall specify the scope and content of the environmental information which would be germane to the responsible agency's statutory responsibilities in connection with the proposed project. The lead agency shall include this information in the EIR.

(c) Meetings. The responsible agency shall designate employees or representatives to attend meetings requested by the lead agency to discuss the scope and content of the EIR.

(d) Comments on Draft EIRs and Negative Declarations. A responsible agency should review and comment on draft EIRs and negative declarations for projects which the responsible agency would later be asked to approve. Comments should focus on any shortcomings in the EIR, the appropriateness of using a negative declaration, or on additional alternatives or mitigation measures which the EIR should include. The comments shall be limited to those project activities which are within the agency's area of expertise or which are required to be carried out or approved by the agency or which will be subject to the exercise of powers by the agency. Comments shall be as specific as possible and supported by either oral or written documentation.

(e) Decision on Adequacy of EIR or Negative Declaration. If a responsible agency believes that the final EIR or negative declaration prepared by the lead agency is not adequate for use by the responsible agency, the responsible agency must either:

(1) Take the issue to court within 30 days after the lead agency files a notice of determination;

(2) Be deemed to have waived any objection to the adequacy of the EIR or negative declaration;

(3) Prepare a subsequent EIR if permissible under Section 15162; or

(4) Assume the lead agency role as provided in Section 15052(a)(3).

(f) Consider the EIR or Negative Declaration. Prior to reaching a decision on the project, the responsible agency must consider the environmental effects of the project as shown in the EIR or negative declaration. A subsequent or supplemental EIR can be prepared only as provided in Sections 15162 or 15163.

(g) Adoption of Alternatives or Mitigation Measures.

(1) When considering alternatives and mitigation measures, a responsible agency is more limited than a lead agency. A responsible agency has responsibility for mitigating or avoiding only the direct or indirect environmental effects of those parts of the project which it decides to carry out, finance, or approve.

(2) When an EIR has been prepared for a project, the Responsible Agency shall not approve the project as proposed if the agency finds any feasible alternative or feasible mitigation measures within its powers that would substantially lessen or avoid any significant effect the project would have on the environment. With respect to a project which includes housing development, the responsible agency shall not reduce the proposed number of housing units as a mitigation measure if it determines that there is another feasible specific mitigation measure available that will provide a comparable level of mitigation.

(h) Findings. The responsible agency shall make the findings required by Section 15091 for each significant effect of the project and shall make the findings in Section 15093 if necessary.

(i) Notice of Determination. The responsible agency should file a notice of determination in the same manner as a lead agency under Section 15075 or 15094 except that the responsible agency does not need to state that the EIR or negative declaration complies with CEQA. The responsible agency should state that it considered the EIR or negative declaration as prepared by a lead agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21165, 21080.1, 21080.3, 21080.4, 21082.1 and 21002.1(b) and (d), Public Resources Code.

HISTORY

1. Amendment of subsections (b) and (d) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15097. Mitigation Monitoring or Reporting.

(a) This section applies when a public agency has made the findings required under paragraph (1) of subdivision (a) of Section 15091 relative to an EIR or adopted a mitigated negative declaration in conjunction with approving a project. In order to ensure that the mitigation measures and project revisions identified in the EIR or negative declaration are implemented, the public agency shall adopt a program for monitoring or reporting on the revisions which it has required in the project and the measures it has imposed to mitigate or avoid significant environmental effects. A public agency may delegate reporting or monitoring responsibilities to another public agency or to a private entity which accepts the delegation; however, until mitigation measures have been completed the lead agency remains responsible for ensuring that implementation of the mitigation measures occurs in accordance with the program.

(b) Where the project at issue is the adoption of a general plan, specific plan, community plan or other plan–level document (zoning, ordinance, regulation, policy), the monitoring plan shall apply to policies and any other portion of the plan that is a mitigation measure or adopted alternative. The monitoring plan may consist of policies included in plan–level documents. The annual report on general plan status required pursuant to the Government Code is one example of a reporting program for adoption of a city or county general plan.

(c) The public agency may choose whether its program will monitor mitigation, report on mitigation, or both. "Reporting" generally consists of a written compliance review that is presented to the decision making body or authorized staff person. A report may be required at various stages during project implementation or upon completion of the mitigation measure. "Monitoring" is generally an ongoing or periodic process of project oversight. There is often no clear distinction between monitoring and reporting and the program best suited to ensuring compliance in any given instance will usually involve elements of both. The choice of program may be guided by the following:

(1) Reporting is suited to projects which have readily measurable or quantitative mitigation measures or which already involve regular review. For example, a report may be required upon issuance of final occupancy to a project whose mitigation measures were confirmed by building inspection.

(2) Monitoring is suited to projects with complex mitigation measures, such as wetlands restoration or archeological protection, which may exceed the expertise of the local agency to oversee, are expected to be implemented over a period of time, or require careful implementation to assure compliance.

(3) Reporting and monitoring are suited to all but the most simple projects. Monitoring ensures that project compliance is checked on a regular basis during and, if necessary after, implementation. Reporting ensures that the approving agency is informed of compliance with mitigation requirements.

(d) Lead and responsible agencies should coordinate their mitigation monitoring or reporting programs where possible. Generally, lead and responsible agencies for a given project will adopt separate and different monitoring or reporting programs. This occurs because of any of the following reasons: the agencies have adopted and are responsible for reporting on or monitoring different mitigation measures; the agencies are deciding on the project at different times; each agency has the discretion to choose its own approach to monitoring or reporting; and each agency has its own special expertise.

(e) At its discretion, an agency may adopt standardized policies and requirements to guide individually adopted monitoring or reporting programs. Standardized policies and requirements may describe, but are not limited to:

(1) The relative responsibilities of various departments within the agency for various aspects of monitoring or reporting, including lead responsibility for administering typical programs and support responsibilities.

(2) The responsibilities of the project proponent.

(3) Agency guidelines for preparing monitoring or reporting programs.

(4) General standards for determining project compliance with the mitigation measures or revisions and related conditions of approval.

(5) Enforcement procedures for noncompliance, including provisions for administrative appeal.

(6) Process for informing staff and decision makers of the relative success of mitigation measures and using those results to improve future mitigation measures.

(f) Where a trustee agency, in timely commenting upon a draft EIR or a proposed mitigated negative declaration, proposes mitigation measures or project revisions for incorporation into a project, that agency, at the same time, shall prepare and submit to the lead or responsible agency a draft monitoring or reporting program for those measures or revisions. The lead or responsible agency may use this information in preparing its monitoring or reporting program.

(g) When a project is of statewide, regional, or areawide importance, any transportation information generated by a required monitoring or reporting program shall be submitted to the transportation planning agency in the region where the project is located and to the California Department of Transportation. Each transportation planning agency and the California Department of Transportation shall adopt guidelines for the submittal of such information.

NOTE: Authority: Section 21083, Public Resources Code. References: Sections 21081.6 and 21081.7, Public Resources Code.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Amendment of subsection (g) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 8. Time Limits

§ 15100. General.

(a) Public agencies shall adopt time limits to govern their implementation of CEQA consistent with this article.

(b) Public agencies should carry out their responsibilities for preparing and reviewing EIRs within a reasonable period of time. The requirement for the preparation of an EIR should not cause undue delays in the processing of applications for permits or other entitlements to use.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000–21176, Public Resources Code.

HISTORY

1. Renumbering and amendment of former Article 8 (Sections 15100–15129) to Article 19 (Sections 15300–15329) and new Article 8 (Sections 15100–15112) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Register 82, No. 2.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15101. Review of Application for Completeness.

A lead agency or responsible agency shall determine whether an application for a permit or other entitlement for use is complete within 30 days from the receipt of the application except as provided in Section 15111. If no written determination of the completeness of the application is made within that period, the application will be deemed complete on the 30th day.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083, Public Resources Code; and Section 65943, Government Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15102. Initial Study.

The lead agency shall determine within 30 days after accepting an application as complete whether it intends to prepare an EIR or a negative declaration or use a previously prepared EIR or negative declaration except as provided in Section 15111. The 30 day period may be extended 15 days upon the consent of the lead agency and the project applicant.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.2, Public Resources Code.

HISTORY

1. Amendment filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15103. Response to Notice of Preparation.

Responsible and Trustee Agencies, and the Office of Planning and Research shall provide a response to a Notice of Preparation to the Lead Agency within 30 days after receipt of the notice. If they fail to reply within the 30 days with either a response or a well justified request for additional time, the lead agency may assume that none of those entitles have a response to make and may ignore a late response.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.4, Public Resources Code.

HISTORY

1. Amendment filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending section and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15104. Convening of Meetings.

The lead agency shall convene a meeting with agency representatives to discuss the scope and content of the environmental information a responsible agency will need in the EIR as soon as possible but no later than 30 days after receiving a request for the meeting. The meeting may be requested by the lead agency, a responsible agency, a trustee agency, the Office of Planning and Research, or by the project applicant.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.4, Public Resources Code.

HISTORY

1. Change without regulatory effect amending section and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15105. Public Review Period for a Draft EIR or a Proposed Negative Declaration or Mitigated Negative Declaration.

(a) The public review period for a draft EIR shall not be less than 30 days nor should it be longer than 60 days except in unusual circumstances. When a draft EIR is submitted to the State Clearinghouse for review by state agencies, the public review period shall not be less than 45 days, unless a shorter period, not less than 30 days, is approved by the State Clearinghouse.

(b) The public review period for a proposed negative declaration or mitigated negative declaration shall be not less than 20 days. When a proposed negative declaration or mitigated negative declaration is submitted to the State Clearinghouse for review by state agencies, the public review period shall not be less than 30 days, unless a shorter period, not less than 20 days, is approved by the State Clearinghouse.

(c) If a draft EIR or proposed negative declaration or mitigated negative declaration has been submitted to the State Clearinghouse for review by state agencies, the public review period shall be at least as long as the review period established by the State Clearinghouse. The public review period and the state agency review period may, but are not required to, begin and end at the same time. Day one of the state review period shall be the date that the State Clearinghouse distributes the document to state agencies.

(d) A shortened Clearinghouse review period may be granted in accordance with the provisions of Appendix K and the following principles:

(1) A shortened review shall not be granted for any proposed project of statewide, areawide, or regional environmental significance.

(2) Requests for shortened review periods shall be submitted to the Clearinghouse in writing by the decision–making body of the lead agency, or a representative authorized by ordinance, resolution, or delegation of the decision–making body.

(3) The lead agency has contacted responsible and trustee agencies and they have agreed to the shortened review period.

(e) The State Clearinghouse shall distribute a draft EIR or proposed negative declaration or mitigated negative declaration within three working days after the date of receipt if the submittal is determined by the State Clearinghouse to be complete.

HISTORY

1. Amendment of section heading, section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (d) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
4. Amendment of subsection (c), new subsection (e) and amendment of NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15106. Review by State Agencies.

NOTE: Authority cited: Sections 21083 and 21087, Public Resources Code. Reference: Sections 21104 and 21153, Public Resources Code.

HISTORY

1. Repealer filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).

§ 15107. Completion of Negative Declaration for Certain Private Projects.

With private projects involving the issuance of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies, the negative declaration must be completed and approved within 180 days from the date when the lease agency accepted the application as complete.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100.2 and 21151.5, Public Resources Code.

HISTORY

1. Amendment of section heading and section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15108. Completion and Certification of EIR.

With a private project, the lead agency shall complete and certify the final EIR as provided in Section 15090 within one year after the date when the lead agency accepted the application as complete. Lead agency procedures may provide that the one–year time limit may be extended once for a period of not more than 90 days upon consent of the lead agency and the applicant.

[The next page is 687.]

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100.2 and 21151.5, Public Resources Code; and Government Code Section 65950.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15109. Suspension of Time Periods.

An unreasonable delay by an applicant in meeting requests by the lead agency necessary for the preparation of a negative declaration or an EIR shall suspend the running of the time periods described in Sections 15107 and 15108 for the period of the unreasonable delay. Alternatively, an agency may disapprove a project application where there is unreasonable delay in meeting requests. The agency may allow a renewed application to start at the same point in the process where the application was when it was disapproved.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100.2 and 21151.5, Public Resources Code; *Carmel Valley View, Ltd.* v. *Maggini*, 91 Cal. App. 3d 318.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15110. Projects with Federal Involvement.

(a) At the request of an applicant, the lead agency may waive the one–year time limit for completing and certifying a final EIR or the 105–day period for completing a negative declaration if:

(1) The project will be subject to CEQA and to the National Environmental Policy Act,

(2) Additional time will be required to prepare a combined EIR–EIS or combined negative declaration–finding of no significant impact as provided in Section 15221, and

(3) The time required to prepare the combined document will be shorter than the time required to prepare the documents separately.

(b) The time limits for taking final action on a permit for a development project may also be waived where a combined EIR–EIS will be prepared.

(c) The time limits for processing permits for development projects under Government Code Sections 65950–65960 shall not apply if federal statutes or regulations require time schedules which exceed the state time limits. In this event, any state agencies involved shall make a final decision on the project within the federal time limits.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.6 and 21083.7, Public Resources Code; Sections 65951 and 65954, Government Code; Public Law 91–190 as amended, 42 U.S.C.A. 4321–4347.

HISTORY

1. Amendment of subsection (a)(2) filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15111. Projects with Short Time Periods for Approval.

(a) A few statutes or ordinances require agencies to make decisions on permits within time limits that are so short that review of the project under CEQA would be difficult. To enable the lead agency to comply with both the permit statute and CEQA, the lead agency shall deem an application for a project not received for filing under the permit statute or ordinance until such time as progress toward completing the environmental documentation required by CEQA is sufficient to enable the lead agency to finish the CEQA process within the short permit time limit. This section will apply where all of the following conditions are met:

(1) The enabling legislation for a program, other than Chapter 4.5 (commencing with Section 65920) of Division 1 of Title 7 of the Government Code, requires the lead agency to take action on an application within a specified period of time that is six months or less, and

(2) The enabling legislation provides that the project will become approved by operation of law if the lead agency fails to take any action within such specified time period, and

(3) The project involves the issuance of a lease, permit, license, certificate, or other entitlement for use.

(b) Examples of time periods subject to this section include but are not limited to:

(1) Action on a timber harvesting plan by the Director of Forestry within 15 days pursuant to Section 4582.7 of the Public Resources Code,

(2) Action on a permit by the San Francisco Bay Conservation and Development Commission within 90 days pursuant to Section 66632(f) of the Government Code, and

(3) Action on an oil and gas permit by the Division of Oil and Gas within 10 days pursuant to Sections 3203 or 3724 of the Public Resources Code.

(c) In any case described in this section, the environmental document shall be completed or certified and the decision on the project shall be made within the period established under the Permit Streamlining Act (Government Code Sections 65920, et seq.).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100.2 and 21151.5, Public Resources Code; *N.R.D.C.* v. *Arcata National Corp.* (1976) 59 Cal. App. 3d 959.

HISTORY

1. Repealer of subsection (b)(1), subsection renumbering, amendment of subsection (c) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15112. Statutes of Limitations.

(a) CEQA provides unusually short statutes of limitations on filing court challenges to the approval of projects under the act.

(b) The statute of limitations periods are not public review periods or waiting periods for the person whose project has been approved. The project sponsor may proceed to carry out the project as soon as the necessary permits have been granted. The statute of limitations cuts off the right of another person to file a court action challenging approval of the project after the specified time period has expired.

(c) The statute of limitations periods under CEQA are as follows:

(1) Where the public agency filed a notice of determination in compliance with Sections 15075 or 15094, 30 days after the filing of the notice and the posting on a list of such notices.

(2) Where the public agency filed a notice of exemption in compliance with Section 15062, 35 days after the filing of the notice and the posting on a list of such notices.

(3) Where a certified state regulatory agency files a notice of decision in compliance with Public Resources Code Section 21080.5(d)(2)(E), 30 days after the filing of the notice.

(4) Where the Secretary for Resources certifies a state environmental regulatory agency under Public Resources Code Section 21080.5, the certification may be challenged only during the 30 days following the certification decision.

(5) Where none of the other statute of limitations periods in this section apply, 180 days after either:

(A) The public agency's decision to carry out or approve the project, or

(B) Commencement of the project if the project is undertaken without a formal decision by the public agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21167, 21167.3 and 21080.5, Public Resources Code; *Kriebel* v. *City Council*, 112 Cal. App. 3d 693; *Citizens of Lake Murray Area Association* v. *City Council*, (1982) 129 Cal. App. 3d 436.

HISTORY

1. Change without regulatory effect amending subsection (c)(3) filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).

2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 9. Contents of Environmental Impact Reports

§ 15120. General.

(a) Environmental Impact Reports shall contain the information outlined in this article, but the format of the document may be varied. Each element must be covered, and when these elements are not separated into distinct sections, the document shall state where in the document each element is discussed.

(b) The EIR may be prepared as a separate document, as part of a general plan, or as part of a project report. If prepared as a part of the project report, it must still contain one separate and distinguishable section providing either analysis of all the subjects required in an EIR or as a minimum, a table showing where each of the subjects is discussed. When the lead agency is a state agency, the EIR shall be included as part of the regular project report if such a report is used in the agency's existing review and budgetary process.

(c) Draft EIRs shall contain the information required by Sections 15122 through 15131. Final EIRs shall contain the same information and the subjects described in Section 15132.

(d) No document prepared pursuant to this article that is available for public examination shall include a "trade secret" as defined in Section 6254.7 of the Government Code, information about the location of archaeological sites and sacred lands, or any other information that is subject to the disclosure restrictions of Section 6254 of the Government Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100, 21105 and 21160, Public Resources Code.

HISTORY

1. Repealer of Article 9 (Sections 15140–15151) and new Article 9 (Sections 15120–15132) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 82, No. 2; 80, No. 19; 78, No. 5; 77, No. 1; 76, No. 41; 75, Nos. 1 and 18; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. New subsection (d) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15121. Informational Document.

(a) An EIR is an informational document which will inform public agency decisionmakers and the public generally of the significant environmental effect of a project, identify possible ways to minimize the significant effects, and describe reasonable alternatives to the project. The public agency shall consider the information in the EIR along with other information which may be presented to the agency.

(b) While the information in the EIR does not control the agency's ultimate discretion on the project, the agency must respond to each significant effect identified in the EIR by making findings under Section 15091 and if necessary by making a statement of overriding considerations under Section 15093.

(c) The information in an EIR may constitute substantial evidence in the record to support the agency's action on the project if its decision is later challenged in court.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21061, Public Resources Code; *Carmel Valley View, Ltd.* v. *Board of Supervisors*, (1976) 58 Cal. App. 3d 817.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15122. Table of Contents or Index.

An EIR shall contain at least a table of contents or an index to assist readers in finding the analysis of different subjects and issues.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21061, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15123. Summary.

(a) An EIR shall contain a brief summary of the proposed actions and its consequences. The language of the summary should be as clear and simple as reasonably practical.

(b) The summary shall identify:

(1) Each significant effect with proposed mitigation measures and alternatives that would reduce or avoid that effect;

(2) Areas of controversy known to the lead agency including issues raised by agencies and the public; and

(3) Issues to be resolved including the choice among alternatives and whether or how to mitigate the significant effects.

(c) The summary should normally not exceed 15 pages.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21061, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15124. Project Description.

The description of the project shall contain the following information but should not supply extensive detail beyond that needed for evaluation and review of the environmental impact.

(a) The precise location and boundaries of the proposed project shall be shown on a detailed map, preferably topographic. The location of the project shall also appear on a regional map.

(b) A statement of the objectives sought by the proposed project. A clearly written statement of objectives will help the lead agency develop a reasonable range of alternatives to evaluate in the EIR and will aid the decision makers in preparing findings or a statement of overriding considerations, if necessary. The statement of objectives should include the underlying purpose of the project.

(c) A general description of the project's technical, economic, and environmental characteristics, considering the principal engineering proposals if any and supporting public service facilities.

(d) A statement briefly describing the intended uses of the EIR.

(1) This statement shall include, to the extent that the information is known to the lead agency,

(A) A list of the agencies that are expected to use the EIR in their decision–making, and

(B) A list of permits and other approvals required to implement the project.

(C) A list of related environmental review and consultation requirements required by federal, state, or local laws, regulations, or policies. To the fullest extent possible, the lead agency should integrate CEQA review with these related environmental review and consultation requirements.

(2) If a public agency must make more than one decision on a project, all its decisions subject to CEQA should be listed, preferably in the order in which they will occur. On request, the Office of Planning and Research will provide assistance in identifying state permits for a project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.3, 21080.4, 21165, 21166 and 21167.2, Public Resources Code; *County of Inyo* v. *City of Los Angeles* (1977) 71 Cal. App. 3d 185.

HISTORY

1. Amendment of subsections (b) and (d)(1)(B), new subsection (d)(1)(C) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15125. Environmental Setting.

(a) An EIR must include a description of the physical environmental conditions in the vicinity of the project, as they exist at the time the notice of preparation is published, or if no notice of preparation is published, at the time environmental analysis is commenced, from both a local and re-

gional perspective. This environmental setting will normally constitute the baseline physical conditions by which a lead agency determines whether an impact is significant. The description of the environmental setting shall be no longer than is necessary to an understanding of the significant effects of the proposed project and its alternatives.

(b) When preparing an EIR for a plan for the reuse of a military base, lead agencies should refer to the special application of the principle of baseline conditions for determining significant impacts contained in Section 15229.

(c) Knowledge of the regional setting is critical to the assessment of environmental impacts. Special emphasis should be placed on environmental resources that are rare or unique to that region and would be affected by the project. The EIR must demonstrate that the significant environmental impacts of the proposed project were adequately investigated and discussed and it must permit the significant effects of the project to be considered in the full environmental context.

(d) The EIR shall discuss any inconsistencies between the proposed project and applicable general plans and regional plans. Such regional plans include, but are not limited to, the applicable air quality attainment or maintenance plan or State Implementation Plan, area-wide waste treatment and water quality control plans, regional transportation plans, regional housing allocation plans, habitat conservation plans, natural community conservation plans and regional land use plans for the protection of the coastal zone, Lake Tahoe Basin, San Francisco Bay, and Santa Monica Mountains.

(e) Where a proposed project is compared with an adopted plan, the analysis shall examine the existing physical conditions at the time the notice of preparation is published, or if no notice of preparation is published, at the time environmental analysis is commenced as well as the potential future conditions discussed in the plan.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061 and 21100, Public Resources Code; *E.P.I.C.* v. *County of El Dorado*, (1982) 131 Cal. App. 3d 350; *San Joaquin Raptor/Wildlife Rescue Center v. County of Stanislaus* (1994) 27 Cal.App.4th 713; *Bloom v. McGurk* (1994) 26 Cal.App.4th 1307.

HISTORY

1. Amendment of section and NOTE filed 10-26-98; operative 10-26-98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15126. Consideration and Discussion of Environmental Impacts.

All phases of a project must be considered when evaluating its impact on the environment: planning, acquisition, development, and operation. The subjects listed below shall be discussed as directed in Sections 15126.2, 15126.4 and 15126.6, preferably in separate sections or paragraphs of the EIR. If they are not discussed separately, the EIR shall include a table showing where each of the subjects is discussed.

(a) Significant Environmental Effects of the Proposed Project.

(b) Significant Environmental Effects Which Cannot be Avoided if the Proposed Project is Implemented.

(c) Significant Irreversible Environmental Changes Which Would be Involved in the Proposed Project Should it be Implemented.

(d) Growth-Inducing Impact of the Proposed Project.

(e) The Mitigation Measures Proposed to Minimize the Significant Effects.

(f) Alternatives to the Proposed Project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21003, 21100 and 21081.6, Public Resources Code; *Citizens of Goleta Valley v. Board of Supervisors*, (1990) 52 Cal.3d 553; *Laurel Heights Improvement Association v. Regents of the University of California*, (1988) 47 Cal. 3d 376; *Gentry v. City of Murrieta* (1995) 36 Cal.App.4th 1359; and *Laurel Heights Improvement Association v. Regents of the University of California* (1993) 6 Cal. 4th 1112.

HISTORY

1. Amendment of subsection (d), repealer and new subsections (d)(1)-(4), amendment of subsection (d)(5), new subsections (d)(5)(A)-(B)3, designation of subsection (d)(5)(C) and amendment of NOTE filed 8-19-94; operative 9-19-94 (Register 94, No. 33).
2. Amendment of section heading, repealer of subsection (e), subsection relettering, and amendment of NOTE filed 5-27-97; operative 5-27-97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. Amendment of first paragraph, repealer and new subsections (a)-(f) and amendment of NOTE filed 10-26-98; operative 10-26-98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Change without regulatory effect amending NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15126.2. Consideration and Discussion of Significant Environmental Impacts.

(a) The Significant Environmental Effects of the Proposed Project. An EIR shall identify and focus on the significant environmental effects of the proposed project. In assessing the impact of a proposed project on the environment, the lead agency should normally limit its examination to changes in the existing physical conditions in the affected area as they exist at the time the notice of preparation is published, or where no notice of preparation is published, at the time environmental analysis is commenced. Direct and indirect significant effects of the project on the environment shall be clearly identified and described, giving due consideration to both the short-term and long-term effects. The discussion should include relevant specifics of the area, the resources involved, physical changes, alterations to ecological systems, and changes induced in population distribution, population concentration, the human use of the land (including commercial and residential development), health and safety problems caused by the physical changes, and other aspects of the resource base such as water, historical resources, scenic quality, and public services. The EIR shall also analyze any significant environmental effects the project might cause by bringing development and people into the area affected. For example, an EIR on a subdivision astride an active fault line should identify as a significant effect the seismic hazard to future occupants of the subdivision. The subdivision would have the effect of attracting people to the location and exposing them to the hazards found there.

(b) Significant Environmental Effects Which Cannot be Avoided if the Proposed Project is Implemented. Describe any significant impacts, including those which can be mitigated but not reduced to a level of insignificance. Where there are impacts that cannot be alleviated without imposing an alternative design, their implications and the reasons why the project is being proposed, notwithstanding their effect, should be described.

(c) Significant Irreversible Environmental Changes Which Would be Caused by the Proposed Project Should it be Implemented. Uses of nonrenewable resources during the initial and continued phases of the project may be irreversible since a large commitment of such resources makes removal or nonuse thereafter unlikely. Primary impacts and, particularly, secondary impacts (such as highway improvement which provides access to a previously inaccessible area) generally commit future generations to similar uses. Also irreversible damage can result from environmental accidents associated with the project. Irretrievable commitments of resources should be evaluated to assure that such current consumption is justified.

(d) Growth-Inducing Impact of the Proposed Project. Discuss the ways in which the proposed project could foster economic or population growth, or the construction of additional housing, either directly or indirectly, in the surrounding environment. Included in this are projects which would remove obstacles to population growth (a major expansion of a waste water treatment plant might, for example, allow for more construction in service areas). Increases in the population may tax existing community service facilities, requiring construction of new facilities that could cause significant environmental effects. Also discuss the characteristic of some projects which may encourage and facilitate other activities that could significantly affect the environment, either individually or cumulatively. It must not be assumed that growth in any area is necessarily beneficial, detrimental, or of little significance to the environment.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21003 and 21100, Public Resources Code; *Citizens of Goleta Valley v. Board of Supervisors*, (1990) 52 Cal.3d 553; *Laurel Heights Improvement Association v. Regents of the University of California*, (1988) 47 Cal.3d 376; *Gentry*

v. City of Murrieta (1995) 36 Cal.App.4th 1359; *Laurel Heights Improvement Association v. Regents of the University of California* (1993) 6 Cal.4th 1112; and *Goleta Union School Dist. v. Regents of the Univ. Of Calif* (1995) 37 Cal. App.4th 1025.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15126.4. Consideration and Discussion of Mitigation Measures Proposed to Minimize Significant Effects.

(a) Mitigation Measures in General.

(1) An EIR shall describe feasible measures which could minimize significant adverse impacts, including where relevant, inefficient and unnecessary consumption of energy.

(A) The discussion of mitigation measures shall distinguish between the measures which are proposed by project proponents to be included in the project and other measures proposed by the lead, responsible or trustee agency or other persons which are not included but the lead agency determines could reasonably be expected to reduce adverse impacts if required as conditions of approving the project. This discussion shall identify mitigation measures for each significant environmental effect identified in the EIR.

(B) Where several measures are available to mitigate an impact, each should be discussed and the basis for selecting a particular measure should be identified. Formulation of mitigation measures should not be deferred until some future time. However, measures may specify performance standards which would mitigate the significant effect of the project and which may be accomplished in more than one specified way.

(C) Energy conservation measures, as well as other appropriate mitigation measures, shall be discussed when relevant. Examples of energy conservation measures are provided in Appendix F.

(D) If a mitigation measure would cause one or more significant effects in addition to those that would be caused by the project as proposed, the effects of the mitigation measure shall be discussed but in less detail than the significant effects of the project as proposed. (*Stevens v. City of Glendale* (1981) 125 Cal.App.3d 986.)

(2) Mitigation measures must be fully enforceable through permit conditions, agreements, or other legally–binding instruments. In the case of the adoption of a plan, policy, regulation, or other public project, mitigation measures can be incorporated into the plan, policy, regulation, or project design.

(3) Mitigation measures are not required for effects which are not found to be significant.

(4) Mitigation measures must be consistent with all applicable constitutional requirements, including the following:

(A) There must be an essential nexus (i.e. connection) between the mitigation measure and a legitimate governmental interest. *Nollan v. California Coastal Commission,* 483 U.S. 825 (1987); and

(B) The mitigation measure must be "roughly proportional" to the impacts of the project. *Dolan v. City of Tigard*, 512 U.S. 374 (1994). Where the mitigation measure is an ad hoc exaction, it must be "roughly proportional" to the impacts of the project. *Ehrlich v. City of Culver City* (1996) 12 Cal.4th 854.

(5) If the lead agency determines that a mitigation measure cannot be legally imposed, the measure need not be proposed or analyzed. Instead, the EIR may simply reference that fact and briefly explain the reasons underlying the lead agency's determination.

(b) Mitigation Measures Related to Impacts on Historical Resources.

(1) Where maintenance, repair, stabilization, rehabilitation, restoration, preservation, conservation or reconstruction of the historical resource will be conducted in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings (1995), Weeks and Grimmer, the project's impact on the historical resource shall generally be considered mitigated below a level of significance and thus is not significant.

(2) In some circumstances, documentation of an historical resource, by way of historic narrative, photographs or architectural drawings, as mitigation for the effects of demolition of the resource will not mitigate the effects to a point where clearly no significant effect on the environment would occur.

(3) Public agencies should, whenever feasible, seek to avoid damaging effects on any historical resource of an archaeological nature. The following factors shall be considered and discussed in an EIR for a project involving such an archaeological site:

(A) Preservation in place is the preferred manner of mitigating impacts to archaeological sites. Preservation in place maintains the relationship between artifacts and the archaeological context. Preservation may also avoid conflict with religious or cultural values of groups associated with the site.

(B) Preservation in place may be accomplished by, but is not limited to, the following:

1. Planning construction to avoid archaeological sites;
2. Incorporation of sites within parks, greenspace, or other open space;
3. Covering the archaeological sites with a layer of chemically stable soil before building tennis courts, parking lots, or similar facilities on the site.
4. Deeding the site into a permanent conservation easement.

(C) When data recovery through excavation is the only feasible mitigation, a data recovery plan, which makes provision for adequately recovering the scientifically consequential information from and about the historical resource, shall be prepared and adopted prior to any excavation being undertaken. Such studies shall be deposited with the California Historical Resources Regional Information Center. Archaeological sites known to contain human remains shall be treated in accordance with the provisions of Section 7050.5 Health and Safety Code. If an artifact must be removed during project excavation or testing, curation may be an appropriate mitigation.

(D) Data recovery shall not be required for an historical resource if the lead agency determines that testing or studies already completed have adequately recovered the scientifically consequential information from and about the archaeological or historical resource, provided that the determination is documented in the EIR and that the studies are deposited with the California Historical Resources Regional Information Center.

NOTE: Authority: Section 21083, Public Resources Code. Reference: Sections 5020.5, 21002, 21003, 21100 and 21084.1, Public Resources Code; *Citizens of Goleta Valley v. Board of Supervisors*, (1990) 52 Cal.3d 553; *Laurel Heights Improvement Association v. Regents of the University of California,* (1988) 47 Cal.3d 376; *Gentry v. City of Murrieta* (1995) 36 Cal.App.4th 1359; *Laurel Heights Improvement Association v. Regents of the University of California* (1993) 6 Cal.4th 1112; and *Sacramento Old City Assn. v. City Council of Sacramento* (1991) 229 Cal.App.3d 1011.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Amendment of subsection (b)(3)(C) and amendment of NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15126.6. Consideration and Discussion of Alternatives to the Proposed Project.

(a) Alternatives to the Proposed Project. An EIR shall describe a range of reasonable alternatives to the project, or to the location of the project, which would feasibly attain most of the basic objectives of the project but would avoid or substantially lessen any of the significant effects of the project, and evaluate the comparative merits of the alternatives. An EIR need not consider every conceivable alternative to a project. Rather it must consider a reasonable range of potentially feasible alternatives that will foster informed decisionmaking and public participation. An EIR is not required to consider alternatives which are infeasible. The lead agency is responsible for selecting a range of project alternatives for examination and must publicly disclose its reasoning for selecting those al-

ternatives. There is no ironclad rule governing the nature or scope of the alternatives to be discussed other than the rule of reason. (*Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal.3d 553 and *Laurel Heights Improvement Association v. Regents of the University of California* (1988) 47 Cal.3d 376).

(b) Purpose. Because an EIR must identify ways to mitigate or avoid the significant effects that a project may have on the environment (Public Resources Code Section 21002.1), the discussion of alternatives shall focus on alternatives to the project or its location which are capable of avoiding or substantially lessening any significant effects of the project, even if these alternatives would impede to some degree the attainment of the project objectives, or would be more costly.

(c) Selection of a range of reasonable alternatives. The range of potential alternatives to the proposed project shall include those that could feasibly accomplish most of the basic objectives of the project and could avoid or substantially lessen one or more of the significant effects. The EIR should briefly describe the rationale for selecting the alternatives to be discussed. The EIR should also identify any alternatives that were considered by the lead agency but were rejected as infeasible during the scoping process and briefly explain the reasons underlying the lead agency's determination. Additional information explaining the choice of alternatives may be included in the administrative record. Among the factors that may be used to eliminate alternatives from detailed consideration in an EIR are:(i) failure to meet most of the basic project objectives, (ii) infeasibility, or (iii) inability to avoid significant environmental impacts.

(d) Evaluation of alternatives. The EIR shall include sufficient information about each alternative to allow meaningful evaluation, analysis, and comparison with the proposed project. A matrix displaying the major characteristics and significant environmental effects of each alternative may be used to summarize the comparison. If an alternative would cause one or more significant effects in addition to those that would be caused by the project as proposed, the significant effects of the alternative shall be discussed, but in less detail than the significant effects of the project as proposed. (*County of Inyo v. City of Los Angeles* (1981) 124 Cal.App.3d 1).

(e) "No project" alternative.

(1) The specific alternative of "no project" shall also be evaluated along with its impact. The purpose of describing and analyzing a no project alternative is to allow decisionmakers to compare the impacts of approving the proposed project with the impacts of not approving the proposed project. The no project alternative analysis is not the baseline for determining whether the proposed project's environmental impacts may be significant, unless it is identical to the existing environmental setting analysis which does establish that baseline (see Section 15125).

(2) The "no project" analysis shall discuss the existing conditions at the time the notice of preparation is published, or if no notice of preparation is published, at the time environmental analysis is commenced, as well as what would be reasonably expected to occur in the foreseeable future if the project were not approved, based on current plans and consistent with available infrastructure and community services. If the environmentally superior alternative is the "no project" alternative, the EIR shall also identify an environmentally superior alternative among the other alternatives.

(3) A discussion of the "no project" alternative will usually proceed along one of two lines:

(A) When the project is the revision of an existing land use or regulatory plan, policy or ongoing operation, the "no project" alternative will be the continuation of the existing plan, policy or operation into the future. Typically this is a situation where other projects initiated under the existing plan will continue while the new plan is developed. Thus, the projected impacts of the proposed plan or alternative plans would be compared to the impacts that would occur under the existing plan.

(B) If the project is other than a land use or regulatory plan, for example a development project on identifiable property, the "no project" alternative is the circumstance under which the project does not proceed. Here the discussion would compare the environmental effects of the property remaining in its existing state against environmental effects which would occur if the project is approved. If disapproval of the project under consideration would result in predictable actions by others, such as the proposal of some other project, this "no project" consequence should be discussed. In certain instances, the no project alternative means "no build" wherein the existing environmental setting is maintained. However, where failure to proceed with the project will not result in preservation of existing environmental conditions, the analysis should identify the practical result of the project's non-approval and not create and analyze a set of artificial assumptions that would be required to preserve the existing physical environment.

(C) After defining the no project alternative using one of these approaches, the lead agency should proceed to analyze the impacts of the no project alternative by projecting what would reasonably be expected to occur in the foreseeable future if the project were not approved, based on current plans and consistent with available infrastructure and community services.

(f) Rule of reason. The range of alternatives required in an EIR is governed by a "rule of reason" that requires the EIR to set forth only those alternatives necessary to permit a reasoned choice. The alternatives shall be limited to ones that would avoid or substantially lessen any of the significant effects of the project. Of those alternatives, the EIR need examine in detail only the ones that the lead agency determines could feasibly attain most of the basic objectives of the project. The range of feasible alternatives shall be selected and discussed in a manner to foster meaningful public participation and informed decision making.

(1) Feasibility. Among the factors that may be taken into account when addressing the feasibility of alternatives are site suitability, economic viability, availability of infrastructure, general plan consistency, other plans or regulatory limitations, jurisdictional boundaries (projects with a regionally significant impact should consider the regional context), and whether the proponent can reasonably acquire, control or otherwise have access to the alternative site (or the site is already owned by the proponent). No one of these factors establishes a fixed limit on the scope of reasonable alternatives. (*Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal.3d 553; see *Save Our Residential Environment v. City of West Hollywood* (1992) 9 Cal.App.4th 1745, 1753, fn. 1).

(2) Alternative locations.

(A) Key question. The key question and first step in analysis is whether any of the significant effects of the project would be avoided or substantially lessened by putting the project in another location. Only locations that would avoid or substantially lessen any of the significant effects of the project need be considered for inclusion in the EIR.

(B) None feasible. If the lead agency concludes that no feasible alternative locations exist, it must disclose the reasons for this conclusion, and should include the reasons in the EIR. For example, in some cases there may be no feasible alternative locations for a geothermal plant or mining project which must be in close proximity to natural resources at a given location.

(C) Limited new analysis required. Where a previous document has sufficiently analyzed a range of reasonable alternative locations and environmental impacts for projects with the same basic purpose, the lead agency should review the previous document. The EIR may rely on the previous document to help it assess the feasibility of potential project alternatives to the extent the circumstances remain substantially the same as they relate to the alternative. (*Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal.3d 553, 573).

(3) An EIR need not consider an alternative whose effect cannot be reasonably ascertained and whose implementation is remote and speculative. (*Residents Ad Hoc Stadium Committee v. Board of Trustees* (1979) 89 Cal. App.3d 274).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21002.1, 21003 and 21100, Public Resources Code; *Citizens of Goleta Valley v. Board of Supervisors*, (1990) 52 Cal.3d 553; *Laurel Heights Improvement Association v. Regents of the University of California*, (1988) 47 Cal.3d 376;

Gentry v. City of Murrieta (1995) 36 Cal.App.4th 1359; and *Laurel Heights Improvement Association v. Regents of the University of California* (1993) 6 Cal.4th 1112.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15127. Limitations on Discussion of Environmental Impact.

The information required by Section 15126.2(c) concerning irreversible changes, need be included only in EIRs prepared in connection with any of the following activities:

(a) The adoption, amendment, or enactment of a plan, policy, or ordinance of a public agency;

(b) The adoption by a local agency formation commission of a resolution making determinations; or

(c) A project which will be subject to the requirement for preparing an environmental impact statement pursuant to the requirements of the National Environmental Policy Act of 1969, 42 U.S.C. 4321–4347.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21100.1, Public Resources Code.

HISTORY

1. Amendment of first paragraph, subsection (c) and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending first paragraph filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15128. Effects Not Found to Be Significant.

An EIR shall contain a statement briefly indicating the reasons that various possible significant effects of a project were determined not to be significant and were therefore not discussed in detail in the EIR. Such a statement may be contained in an attached copy of an initial study.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15129. Organizations and Persons Consulted.

The EIR shall identify all federal, state, or local agencies, other organizations, and private individuals consulted in preparing the draft EIR, and the persons, firm, or agency preparing the draft EIR, by contract or other authorization.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21104 and 21153, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15130. Discussion of Cumulative Impacts.

(a) An EIR shall discuss cumulative impacts of a project when the project's incremental effect is cumulatively considerable, as defined in section 15065(c). Where a lead agency is examining a project with an incremental effect that is not "cumulatively considerable," a lead agency need not consider that effect significant, but shall briefly describe its basis for concluding that the incremental effect is not cumulatively considerable.

(1) As defined in Section 15355, a cumulative impact consists of an impact which is created as a result of the combination of the project evaluated in the EIR together with other projects causing related impacts. An EIR should not discuss impacts which do not result in part from the project evaluated in the EIR.

(2) When the combined cumulative impact associated with the project's incremental effect and the effects of other projects is not significant, the EIR shall briefly indicate why the cumulative impact is not significant and is not discussed in further detail in the EIR. A lead agency shall identify facts and analysis supporting the lead agency's conclusion that the cumulative impact is less than significant.

(3) An EIR may determine that a project's contribution to a significant cumulative impact will be rendered less than cumulatively considerable and thus is not significant. A project's contribution is less than cumulatively considerable if the project is required to implement or fund its fair share of a mitigation measure or measures designed to alleviate the cumulative impact. The lead agency shall identify facts and analysis supporting its conclusion that the contribution will be rendered less than cumulatively considerable.

(b) The discussion of cumulative impacts shall reflect the severity of the impacts and their likelihood of occurrence, but the discussion need not provide as great detail as is provided for the effects attributable to the project alone. The discussion should be guided by the standards of practicality and reasonableness, and should focus on the cumulative impact to which the identified other projects contribute rather than the attributes of other projects which do not contribute to the cumulative impact. The following elements are necessary to an adequate discussion of significant cumulative impacts:

(1) Either:

(A) A list of past, present, and probable future projects producing related or cumulative impacts, including, if necessary, those projects outside the control of the agency, or

(B) A summary of projections contained in an adopted general plan or related planning document, or in a prior environmental document which has been adopted or certified, which described or evaluated regional or areawide conditions contributing to the cumulative impact. Any such planning document shall be referenced and made available to the public at a location specified by the lead agency.

(2) When utilizing a list, as suggested in paragraph (1) of subdivision (b), factors to consider when determining whether to include a related project should include the nature of each environmental resource being examined, the location of the project and its type. Location may be important, for example, when water quality impacts are at issue since projects outside the watershed would probably not contribute to a cumulative effect. Project type may be important, for example, when the impact is specialized, such as a particular air pollutant or mode of traffic.

(3) Lead agencies should define the geographic scope of the area affected by the cumulative effect and provide a reasonable explanation for the geographic limitation used.

(4) A summary of the expected environmental effects to be produced by those projects with specific reference to additional information stating where that information is available, and

(5) A reasonable analysis of the cumulative impacts of the relevant projects. An EIR shall examine reasonable, feasible options for mitigating or avoiding the project's contribution to any significant cumulative effects.

(c) With some projects, the only feasible mitigation for cumulative impacts may involve the adoption of ordinances or regulations rather than the imposition of conditions on a project–by–project basis.

(d) Previously approved land use documents such as general plans, specific plans, and local coastal plans may be used in cumulative impact analysis. A pertinent discussion of cumulative impacts contained in one or more previously certified EIRs may be incorporated by reference pursuant to the provisions for tiering and program EIRs. No further cumulative impacts analysis is required when a project is consistent with a general, specific, master or comparable programmatic plan where the lead agency determines that the regional or areawide cumulative impacts of the proposed project have already been adequately addressed, as defined in section 15152(f), in a certified EIR for that plan.

(e) If a cumulative impact was adequately addressed in a prior EIR for a community plan, zoning action, or general plan, and the project is consistent with that plan or action, then an EIR for such a project should not further analyze that cumulative impact, as provided in Section15183(j).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083(b), 21093, 21094 and 21100, Public Resources Code; *Whitman* v.

Board of Supervisors, (1979) 88 Cal. App. 3d 397; *San Franciscans for Reasonable Growth v. City and County of San Francisco* (1984) 151 Cal.App.3d 61; *Kings County Farm Bureau v. City of Hanford* (1990) 221 Cal.App.3d 692; *Laurel Heights Homeowners Association v. Regents of the University of California* (1988) 47 Cal.3d 376; *Sierra Club v. Gilroy* (1990) 220 Cal.App.3d 30; *Citizens to Preserve the Ojai v. County of Ventura* (1985) 176 Cal.App.3d 421; *Concerned Citizens of South Cent. Los Angeles v. Los Angeles Unified Sch. Dist.* (1994) 24 Cal.App.4th 826; *Las Virgenes Homeowners Fed'n v. County of Los Angeles* (1986) 177 Cal.App.3d 300; *San Joaquin Raptor/Wildlife Rescue Ctr v. County of Stanislaus* (1994) 27 Cal.App.4th 713; *Fort Mojave Indian Tribe v. Cal. Dept. Of Health Services* (1995) 38 Cal.App.4th 1574; and *Communities for a Better Environment v. California Resources Agency* (2002) 103 Cal.App.4th 98.

HISTORY

1. Amendment of section heading, new subsection (d) and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsection (d) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
4. Change without regulatory effect repealing subsection (a)(4), amending subsection (b)(1)(B), redesignating former subsection (b)(1)(B)1. as subsection (b)(2), repealing former subsection (b)(1)(B)2., renumbering subsections and amending NOTE filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).
5. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15131. Economic and Social Effects.

Economic or social information may be included in an EIR or may be presented in whatever form the agency desires.

(a) Economic or social effects of a project shall not be treated as significant effects on the environment. An EIR may trace a chain of cause and effect from a proposed decision on a project through anticipated economic or social changes resulting from the project to physical changes caused in turn by the economic or social changes. The intermediate economic or social changes need not be analyzed in any detail greater than necessary to trace the chain of cause and effect. The focus of the analysis shall be on the physical changes.

(b) Economic or social effects of a project may be used to determine the significance of physical changes caused by the project. For example, if the construction of a new freeway or rail line divides an existing community, the construction would be the physical change, but the social effect on the community would be the basis for determining that the effect would be significant. As an additional example, if the construction of a road and the resulting increase in noise in an area disturbed existing religious practices in the area, the disturbance of the religious practices could be used to determine that the construction and use of the road and the resulting noise would be significant effects on the environment. The religious practices would need to be analyzed only to the extent to show that the increase in traffic and noise would conflict with the religious practices. Where an EIR uses economic or social effects to determine that a physical change is significant, the EIR shall explain the reason for determining that the effect is significant.

(c) Economic, social, and particularly housing factors shall be considered by public agencies together with technological and environmental factors in deciding whether changes in a project are feasible to reduce or avoid the significant effects on the environment identified in the EIR. If information on these factors is not contained in the EIR, the information must be added to the record in some other manner to allow the agency to consider the factors in reaching a decision on the project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21001(e) and (g), 21002, 21002.1, 21060.5, 21080.1, 21083(c) and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15132. Contents of Final Environmental Impact Report.

The final EIR shall consist of:

(a) The Draft EIR or a revision of the draft.

(b) Comments and recommendations received on the Draft EIR either verbatim or in summary.

(c) A list of persons, organizations, and public agencies commenting on the Draft EIR.

(d) The responses of the Lead Agency to significant environmental points raised in the review and consultation process.

(e) Any other information added by the lead agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 10. Considerations in Preparing EIRs and Negative Declarations

§ 15140. Writing.

EIRs shall be written in plain language and may use appropriate graphics so that decisionmakers and the public can rapidly understand the documents.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003 and 21100, Public Resources Code.

HISTORY

1. Repealer of Article 10 (Sections 15160–15167) and new Article 10 (Sections 15140–15153) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29). For prior history, see Registers 80, No. 19; 78, No. 5; 76, No. 41; 75, No. 1; and 73, No. 50.
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15141. Page Limits.

The text of draft EIRs should normally be less than 150 pages and for proposals of unusual scope or complexity should normally be less than 300 pages.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15142. Interdisciplinary Approach.

An EIR shall be prepared using an interdisciplinary approach which will ensure the integrated use of the natural and social sciences and the consideration of qualitative as well as quantitative factors. The interdisciplinary analysis shall be conducted by competent individuals, but no single discipline shall be designated or required to undertake this evaluation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000, 21001 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15143. Emphasis.

The EIR shall focus on the significant effects on the environment. The significant effects should be discussed with emphasis in proportion to their severity and probability of occurrence. Effects dismissed in an Initial Study as clearly insignificant and unlikely to occur need not be discussed further in the EIR unless the Lead Agency subsequently receives information inconsistent with the finding in the Initial Study. A copy of the Initial Study may be attached to the EIR to provide the basis for limiting the impacts discussed.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15144. Forecasting.

Drafting an EIR or preparing a negative declaration necessarily involves some degree of forecasting. While foreseeing the unforeseeable

is not possible, an agency must use its best efforts to find out and disclose all that it reasonably can.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15145. Speculation.

If, after thorough investigation, a lead agency finds that a particular impact is too speculative for evaluation, the agency should note its conclusion and terminate discussion of the impact.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code; *Topanga Beach Renters Association* v. *Department of General Services* (1976) 58 Cal. App. 3d 712.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15146. Degree of Specificity.

The degree of specificity required in an EIR will correspond to the degree of specificity involved in the underlying activity which is described in the EIR.

(a) An EIR on a construction project will necessarily be more detailed in the specific effects of the project than will be an EIR on the adoption of a local general plan or comprehensive zoning ordinance because the effects of the construction can be predicted with greater accuracy.

(b) An EIR on a project such as the adoption or amendment of a comprehensive zoning ordinance or a local general plan should focus on the secondary effects that can be expected to follow from the adoption, or amendment, but the EIR need not be as detailed as an EIR on the specific construction projects that might follow.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15147. Technical Detail.

The information contained in an EIR shall include summarized technical data, maps, plot plans, diagrams, and similar relevant information sufficient to permit full assessment of significant environmental impacts by reviewing agencies and members of the public. Placement of highly technical and specialized analysis and data in the body of an EIR should be avoided through inclusion of supporting information and analyses as appendices to the main body of the EIR. Appendices to the EIR may be prepared in volumes separate from the basic EIR document, but shall be readily available for public examination and shall be submitted to all clearinghouses which assist in public review.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15148. Citation.

Preparation of EIRs is dependent upon information from many sources, including engineering project reports and many scientific documents relating to environmental features. These documents should be cited but not included in the EIR. The EIR shall cite all documents used in its preparation including, where possible, the page and section number of any technical reports which were used as the basis for any statements in the EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15149. Use of Registered Professionals in Preparing EIRs.

(a) A number of statutes provide that certain professional services can be provided to the public only by individuals who have been registered by a registration board established under California law. Such statutory restrictions apply to a number of professions including but not limited to engineering, land surveying, forestry, geology, and geophysics.

(b) In its intended usage, an EIR is not a technical document that can be prepared only by a registered professional. The EIR serves as a public disclosure document explaining the effects of the proposed project on the environment, alternatives to the project, and ways to minimize adverse effects and to increase beneficial effects. As a result of information in the EIR, the lead agency should establish requirements or conditions on project design, construction, or operation in order to protect or enhance the environment. State statutes may provide that only registered professionals can prepare technical studies which will be used in or which will control the detailed design, construction, or operation of the proposed project and which will be prepared in support of an EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15150. Incorporation by Reference.

(a) An EIR or negative declaration may incorporate by reference all or portions of another document which is a matter of public record or is generally available to the public. Where all or part of another document is incorporated by reference, the incorporated language shall be considered to be set forth in full as part of the text of the EIR or negative declaration.

(b) Where part of another document is incorporated by reference, such other document shall be made available to the public for inspection at a public place or public building. The EIR or negative declaration shall state where the incorporated documents will be available for inspection. At a minimum, the incorporated document shall be made available to the public in an office of the lead agency in the county where the project would be carried out or in one or more public buildings such as county offices or public libraries if the lead agency does not have an office in the county.

(c) Where an EIR or negative declaration uses incorporation by reference, the incorporated part of the referenced document shall be briefly summarized where possible or briefly described if the data or information cannot be summarized. The relationship between the incorporated part of the referenced document and the EIR shall be described.

(d) Where an agency incorporates information from an EIR that has previously been reviewed through the state review system, the state identification number of the incorporated document should be included in the summary or designation described in subdivision (c).

(e) Examples of materials that may be incorporated by reference include but are not limited to:

(1) A description of the environmental setting from another EIR.

(2) A description of the air pollution problems prepared by an air pollution control agency concerning a process involved in the project.

(3) A description of the city or county general plan that applies to the location of the project.

(f) Incorporation by reference is most appropriate for including long, descriptive, or technical materials that provide general background but do not contribute directly to the analysis of the problem at hand.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending subsection (d) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15151. Standards for Adequacy of an EIR.

An EIR should be prepared with a sufficient degree of analysis to provide decisionmakers with information which enables them to make a de-

cision which intelligently takes account of environmental consequences. An evaluation of the environmental effects of a proposed project need not be exhaustive, but the sufficiency of an EIR is to be reviewed in the light of what is reasonably feasible. Disagreement among experts does not make an EIR inadequate, but the EIR should summarize the main points of disagreement among the experts. The courts have looked not for perfection but for adequacy, completeness, and a good faith effort at full disclosure.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061 and 21100, Public Resources Code; *San Francisco Ecology Center* v. *City and County of San Francisco*, 48 Cal. App. 3d 584 (1975).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15152. Tiering.

(a) "Tiering" refers to using the analysis of general matters contained in a broader EIR (such as one prepared for a general plan or policy statement) with later EIRs and negative declarations on narrower projects; incorporating by reference the general discussions from the broader EIR; and concentrating the later EIR or negative declaration solely on the issues specific to the later project.

(b) Agencies are encouraged to tier the environmental analyses which they prepare for separate but related projects including general plans, zoning changes, and development projects. This approach can eliminate repetitive discussions of the same issues and focus the later EIR or negative declaration on the actual issues ripe for decision at each level of environmental review. Tiering is appropriate when the sequence of analysis is from an EIR prepared for a general plan, policy, or program to an EIR or negative declaration for another plan, policy, or program of lesser scope, or to a site–specific EIR or negative declaration. Tiering does not excuse the lead agency from adequately analyzing reasonably foreseeable significant environmental effects of the project and does not justify deferring such analysis to a later tier EIR or negative declaration. However, the level of detail contained in a first tier EIR need not be greater than that of the program, plan, policy, or ordinance being analyzed.

(c) Where a lead agency is using the tiering process in connection with an EIR for a large–scale planning approval, such as a general plan or component thereof (e.g., an area plan or community plan), the development of detailed, site–specific information may not be feasible but can be deferred, in many instances, until such time as the lead agency prepares a future environmental document in connection with a project of a more limited geographical scale, as long as deferral does not prevent adequate identification of significant effects of the planning approval at hand.

(d) Where an EIR has been prepared and certified for a program, plan, policy, or ordinance consistent with the requirements of this section, any lead agency for a later project pursuant to or consistent with the program, plan, policy, or ordinance should limit the EIR or negative declaration on the later project to effects which:

(1) Were not examined as significant effects on the environment in the prior EIR; or

(2) Are susceptible to substantial reduction or avoidance by the choice of specific revisions in the project, by the imposition of conditions, or other means.

(e) Tiering under this section shall be limited to situations where the project is consistent with the general plan and zoning of the city or county in which the project is located, except that a project requiring a rezone to achieve or maintain conformity with a general plan may be subject to tiering.

(f) A later EIR shall be required when the initial study or other analysis finds that the later project may cause significant effects on the environment that were not adequately addressed in the prior EIR. A negative declaration shall be required when the provisions of Section 15070 are met.

(1) Where a lead agency determines that a cumulative effect has been adequately addressed in the prior EIR, that effect is not treated as significant for purposes of the later EIR or negative declaration, and need not be discussed in detail.

(2) When assessing whether there is a new significant cumulative effect, the lead agency shall consider whether the incremental effects of the project would be considerable when viewed in the context of past, present, and probable future projects. At this point, the question is not whether there is a significant cumulative impact, but whether the effects of the project are cumulatively considerable. For a discussion on how to assess whether project impacts are cumulatively considerable, see Section 15064(i).

(3) Significant environmental effects have been "adequately addressed" if the lead agency determines that:

(A) they have been mitigated or avoided as a result of the prior environmental impact report and findings adopted in connection with that prior environmental report; or

(B) they have been examined at a sufficient level of detail in the prior environmental impact report to enable those effects to be mitigated or avoided by site specific revisions, the imposition of conditions, or by other means in connection with the approval of the later project.

(g) When tiering is used, the later EIRs or negative declarations shall refer to the prior EIR and state where a copy of the prior EIR may be examined. The later EIR or negative declaration should state that the lead agency is using the tiering concept and that it is being tiered with the earlier EIR.

(h) There are various types of EIRs that may be used in a tiering situation. These include, but are not limited to, the following:

(1) General plan EIR (Section 15166).

(2) Staged EIR (Section 15167).

(3) Program EIR (Section 15168).

(4) Master EIR (Section 15175).

(5) Multiple–family residential development/residential and commercial or retail mixed–use development (Section 15179.5).

(6) Redevelopment project (Section 15180).

(7) Projects consistent with community plan, general plan, or zoning (Section 15183).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061, 21093, 21094, 21100 and 21151, Public Resources Code; *Stanislaus Natural Heritage Project, Sierra Club v. County of Stanislaus* (1996) 48 Cal.App.4th 182; *Al Larson Boat Shop, Inc. v. Board of Harbor Commissioners* (1993) 18 Cal.App. 4th 729; and *Sierra Club v. County of Sonoma* (1992) 6 Cal.App. 4th 1307.

HISTORY

1. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending subsections (f)(3)(A)–(B) and repealing subsection (f)(3)(C) filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).
3. Change without regulatory effect repealing subsection (h)(7), renumbering subsections and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15153. Use of an EIR from an Earlier Project.

(a) The lead agency may employ a single EIR to describe more than one project, if such projects are essentially the same in terms of environmental impact. Further, the lead agency may use an earlier EIR prepared in connection with an earlier project to apply to a later project, if the circumstances of the projects are essentially the same.

(b) When a lead agency proposes to use an EIR from an earlier project as the EIR for a separate, later project, the lead agency shall use the following procedures:

(1) The lead agency shall review the proposed project with an initial study, using incorporation by reference if necessary, to determine whether the EIR would adequately describe:

(A) The general environmental setting of the project,

(B) The significant environmental impacts of the project, and

(C) Alternatives and mitigation measures related to each significant effect.

(2) If the lead agency believes that the EIR would meet the requirements of subdivision (1), it shall provide public review as provided in Section 15087 stating that it plans to use the previously prepared EIR as the draft EIR for this project. The notice shall include as a minimum:

(A) An identification of the project with a brief description;

(B) A statement that the agency plans to use a certain EIR prepared for a previous project as the EIR for this project;

(C) A listing of places where copies of the EIR may be examined; and

(D) A statement that the key issues involving the EIR are whether the EIR should be used for this project and whether there are any additional, reasonable alternatives or mitigation measures that should be considered as ways of avoiding or reducing the significant effects of the project.

(3) The lead agency shall prepare responses to comments received during the review period.

(4) Before approving the project, the decisionmaker in the lead agency shall:

(A) Consider the information in the EIR including comments received during the review period and responses to those comments,

(B) Decide either on its own or on a staff recommendation whether the EIR is adequate for the project at hand, and

(C) Make or require certification to be made as described in Section 15090.

(D) Make findings as provided in Sections 15091 and 15093 as necessary.

(5) After making a decision on the project, the lead agency shall file a notice of determination.

(c) An EIR prepared for an earlier project may also be used as part of an initial study to document a finding that a later project will not have a significant effect. In this situation a negative declaration will be prepared.

(d) An EIR prepared for an earlier project shall not be used as the EIR for a later project if any of the conditions described in Section 15162 would require preparation of a subsequent or supplemental EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21100, 21151 and 21166, Public Resources Code.

HISTORY

1. Change without regulatory effect amending subsection (b)(2) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15154. Projects Near Airports.

(a) When a lead agency prepares an EIR for a project within the boundaries of a comprehensive airport land use plan or, if a comprehensive airport land use plan has not been adopted for a project within two nautical miles of a public airport or public use airport, the agency shall utilize the Airport Land Use Planning Handbook published by Caltrans' Division of Aeronautics to assist in the preparation of the EIR relative to potential airport–related safety hazards and noise problems.

(b) A lead agency shall not adopt a negative declaration or mitigated negative declaration for a project described in subdivision (a) unless the lead agency considers whether the project will result in a safety hazard or noise problem for persons using the airport or for persons residing or working in the project area.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21096, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (b) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15155. City or County Consultation with Water Agencies.

(a) The following definitions are applicable to this section.

(1) A "water–demand project" means:

(A) A residential development of more than 500 dwelling units.

(B) A shopping center or business establishment employing more than 1,000 persons or having more than 500,000 square feet of floor space.

(C) A commercial office building employing more than 1,000 persons or having more than 250,000 square feet of floor space.

(D) A hotel or motel, or both, having more than 500 rooms.

(E) An industrial, manufacturing, or processing plant, or industrial park planned to house more than 1,000 persons, occupying more than 40 acres of land, or having more than 650,000 square feet of floor area.

(F) A mixed–use project that includes one or more of the projects specified in subdivisions (a)(1)(A), (a)(1)(B), (a)(1)(C), (a)(1)(D), (a)(1)(E), and (a)(1)(G) of this section.

(G) A project that would demand an amount of water equivalent to, or greater than, the amount of water required by a 500 dwelling unit project.

(H) For public water systems with fewer than 5,000 service connections, a project that meets the following criteria:

1. A proposed residential, business, commercial, hotel or motel, or industrial development that would account for an increase of 10 percent or more in the number of a public water system's existing service connections; or

2. A mixed–use project that would demand an amount of water equivalent to, or greater than, the amount of water required by residential development that would represent an increase of 10 percent or more in the number of the public water system's existing service connections.

(2) "Public water system" means a system for the provision of piped water to the public for human consumption that has 3000 or more service connections. A public water system includes all of the following:

(A) Any collection, treatment, storage, and distribution facility under control of the operator of the system which is used primarily in connection with the system.

(B) Any collection or pretreatment storage facility not under the control of the operator that is used primarily in connection with the system.

(C) Any person who treats water on behalf of one or more public water systems for the purpose of rendering it safe for human consumption.

(3) "Water acquisition plans" means any plans for acquiring additional water supplies prepared by the public water system or a city or county lead agency pursuant to subdivision (a) of section 10911 of the Water Code.

(4) "Water assessment" means the water supply assessment that must be prepared by the governing body of a public water system, or the city or county lead agency, pursuant to and in compliance with sections 10910 to 10915 of the Water Code, and that includes, without limitation, the elements of the assessment required to comply with subdivisions (d), (e), (f), and (g) of section 10910 of the Water Code.

(5) "City or county lead agency" means a city or county, acting as lead agency, for purposes of certifying or approving an environmental impact report, a negative declaration, or a mitigated negative declaration for a water–demand project.

(b) Subject to section 15155, subdivision (d) below, at the time a city or county lead agency determines whether an environmental impact report, a negative declaration, or a mitigated negative declaration, or any supplement thereto, is required for the water–demand project, the city or county lead agency shall take the following steps:

(1) The city or county lead agency shall identify any water system that either: (A) is a public water system that may supply water to the water–demand project, or (B) that may become such a public water system as a result of supplying water to the water–demand project. The city or county lead agency shall request the governing body of each such public water system to determine whether the projected water demand associated with a water–demand project was included in the most recently adopted urban water management plan adopted pursuant to Part 2.6 (commencing with section 10610) of the Water Code, and to prepare a water assessment approved at a regular or special meeting of that governing body.

(2) If the city or county lead agency is not able to identify any public water system that may supply water for the water–demand project, the city or county lead agency shall prepare a water assessment after consulting with any entity serving domestic water supplies whose service area includes the site of the water–demand project, the local agency formation commission, and the governing body of any public water system adjacent to the site of the water–demand project. The governing body of the city

or county lead agency must approve the water assessment prepared pursuant to this section at a regular or special meeting.

(c) The city or county lead agency shall grant any reasonable request for an extension of time that is made by the governing body of a public water system preparing the water assessment, provided that the request for an extension of time is made within 90 days after the date on which the governing body of the public water system received the request to prepare a water assessment. If the governing body of the public water system fails to request and receive an extension of time, or fails to submit the water assessment notwithstanding the 30–day extension, the city or county lead agency may seek a writ of mandamus to compel the governing body of the public water system to comply with the requirements of Part 2.10 of Division 6 (commencing with section 10910) of the Water Code relating to the submission of the water assessment.

(d) If a water–demand project has been the subject of a water assessment, no additional water assessment shall be required for subsequent water–demand projects that were included in such larger water–demand project if all of the following criteria are met:

(1) The entity completing the water assessment had concluded that its water supplies are sufficient to meet the projected water demand associated with the larger water–demand project, in addition to the existing and planned future uses, including, but not limited to, agricultural and industrial uses; and

(2) None of the following changes has occurred since the completion of the water assessment for the larger water–demand project:

(A) Changes in the larger water–demand project that result in a substantial increase in water demand for the water–demand project.

(B) Changes in the circumstances or conditions substantially affecting the ability of the public water system or the water supplying city or county identified in the water assessment to provide a sufficient supply of water for the water demand project.

(C) Significant new information becomes available which was not known and could not have been known at the time when the entity had reached the conclusion in subdivision (d)(1).

(e) The city or county lead agency shall include the water assessment, and any water acquisition plan in the EIR, negative declaration, or mitigated negative declaration, or any supplement thereto, prepared for the water–demand project, and may include an evaluation of the water assessment and water acquisition plan information within such environmental document. The city or county lead agency shall determine, based on the entire record, whether projected water supplies will be sufficient to satisfy the demands of the project, in addition to existing and planned future uses. If a city or county lead agency determines that water supplies will not be sufficient, the city or county lead agency shall include that determination in its findings for the water–demand project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21151.9, Public Resources Code; and Sections 10910–10915, Water Code.

HISTORY

1. New section filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

Article 11. Types of EIRs

§ 15160. General.

This article describes a number of examples of variations in EIRs as the documents are tailored to different situations and intended uses. These variations are not exclusive. Lead agencies may use other variations consistent with the guidelines to meet the needs of other circumstances. All EIRs must meet the content requirements discussed in Article 9 beginning with Section 15120.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061, 21100 and 21151, Public Resources Code.

HISTORY

1. New Article 11 (Section 15180) filed 12–14–73 as an emergency; effective upon filing. Certificate of Compliance included (Register 73, No. 50).
2. Repealer of Article 11 (Section 15180) and new Article 11 (Sections 15160–15170) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
3. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15161. Project EIR.

The most common type of EIR examines the environmental impacts of a specific development project. This type of EIR should focus primarily on the changes in the environment that would result from the development project. The EIR shall examine all phases of the project including planning, construction, and operation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061, 21100 and 21151, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15162. Subsequent EIRs and Negative Declarations.

(a) When an EIR has been certified or a negative declaration adopted for a project, no subsequent EIR shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in the light of the whole record, one or more of the following:

(1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;

(2) Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or

(3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any of the following:

(A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;

(B) Significant effects previously examined will be substantially more severe than shown in the previous EIR;

(C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or

(D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

(b) If changes to a project or its circumstances occur or new information becomes available after adoption of a negative declaration, the lead agency shall prepare a subsequent EIR if required under subdivision (a). Otherwise the lead agency shall determine whether to prepare a subsequent negative declaration, an addendum, or no further documentation.

(c) Once a project has been approved, the lead agency's role in project approval is completed, unless further discretionary approval on that project is required. Information appearing after an approval does not require reopening of that approval. If after the project is approved, any of the conditions described in subdivision (a) occurs, a subsequent EIR or negative declaration shall only be prepared by the public agency which grants the next discretionary approval for the project, if any. In this situation no other responsible agency shall grant an approval for the project until the subsequent EIR has been certified or subsequent negative declaration adopted.

(d) A subsequent EIR or subsequent negative declaration shall be given the same notice and public review as required under Section 15087 or Section 15072. A subsequent EIR or negative declaration shall state where the previous document is available and can be reviewed.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21166, Public Resources Code; *Bowman v. City of Petaluma* (1986) 185 Cal.App.3d 1065; *Benton v. Board of Supervisors* (1991) 226 Cal.App.3d 1467; and *Fort Mojave Indian Tribe v. California Department of Health Services et al.* (1995) 38 Cal.App.4th 1574.

HISTORY

1. Amendment of section heading, text and NOTE filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
2. Amendment of subsection (c) and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsections (b)–(c) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15163. Supplement to an EIR.

(a) The lead or responsible agency may choose to prepare a supplement to an EIR rather than a subsequent EIR if:

(1) Any of the conditions described in Section 15162 would require the preparation of a subsequent EIR, and

(2) Only minor additions or changes would be necessary to make the previous EIR adequately apply to the project in the changed situation.

(b) The supplement to the EIR need contain only the information necessary to make the previous EIR adequate for the project as revised.

(c) A supplement to an EIR shall be given the same kind of notice and public review as is given to a draft EIR under Section 15087.

(d) A supplement to an EIR may be circulated by itself without recirculating the previous draft or final EIR.

(e) When the agency decides whether to approve the project, the decision–making body shall consider the previous EIR as revised by the supplemental EIR. A finding under Section 15091 shall be made for each significant effect shown in the previous EIR as revised.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21166, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15164. Addendum to an EIR or Negative Declaration.

(a) The lead agency or a responsible agency shall prepare an addendum to a previously certified EIR if some changes or additions are necessary but none of the conditions described in Section 15162 calling for preparation of a subsequent EIR have occurred.

(b) An addendum to an adopted negative declaration may be prepared if only minor technical changes or additions are necessary or none of the conditions described in Section 15162 calling for the preparation of a subsequent EIR or negative declaration have occurred.

(c) An addendum need not be circulated for public review but can be included in or attached to the final EIR or adopted negative declaration.

(d) The decision–making body shall consider the addendum with the final EIR or adopted negative declaration prior to making a decision on the project.

(e) A brief explanation of the decision not to prepare a subsequent EIR pursuant to Section 15162 should be included in an addendum to an EIR, the lead agency's required findings on the project, or elsewhere in the record. The explanation must be supported by substantial evidence.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21166, Public Resources Code; *Bowman v. City of Petaluma* (1986) 185 Cal.App.3d 1065; and *Benton v. Board of Supervisors* (1991) 226 Cal.App.3d 1467.

HISTORY

1. Amendment of section heading, text and NOTE filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
2. Amendment of subection (b) and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15165. Multiple and Phased Projects.

Where individual projects are, or a phased project is, to be undertaken and where the total undertaking comprises a project with significant environmental effect, the lead agency shall prepare a single program EIR for the ultimate project as described in Section 15168. Where an individual project is a necessary precedent for action on a larger project, or commits the lead agency to a larger project, with significant environmental effect, an EIR must address itself to the scope of the larger project. Where one project is one of several similar projects of a public agency, but is not deemed a part of a larger undertaking or a larger project, the agency may prepare one EIR for all projects, or one for each project, but shall in either case comment upon the cumulative effect.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061, 21100 and 21151, Public Resources Code; *Whitman* v. *Board of Supervisors*, 88 Cal. App. 3d 397 (1979).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15166. EIR As Part of a General Plan.

(a) The requirements for preparing an EIR on a local general plan, element, or amendment thereof will be satisfied by using the general plan, or element document, as the EIR and no separate EIR will be required, if:

(1) the general plan addresses all the points required to be in an EIR by Article 9 of these guidelines and

(2) the document contains a special section or a cover sheet identifying where the general plan document addresses each of the points required.

(b) Where an EIR rather than a negative declaration has been prepared for a general plan, element, or amendment thereto, the EIR shall be forwarded to the State Clearinghouse for review. The requirement shall apply regardless of whether the EIR is prepared as a separate document or as a part of the general plan or element document.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061, 21083, 21100, 21104, 21151 and 21152, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15167. Staged EIR.

(a)Where a large capital project will require a number of discretionary approvals from government agencies and one of the approvals will occur more than two years before construction will begin, a staged EIR may be prepared covering the entire project in a general form. The staged EIR shall evaluate the proposal in light of current and contemplated plans and produce an informed estimate of the environmental consequences of the entire project. The aspect of the project before the public agency for approval shall be discussed with a greater degree of specificity.

(b) When a staged EIR has been prepared, a supplement to the EIR shall be prepared when a later approval is required for the project, and the information available at the time of the later approval would permit consideration of additional environmental impacts, mitigation measures, or reasonable alternatives to the project.

(c) Where a statute such as the Warren–Alquist Energy Resources Conservation and Development Act provides that a specific agency shall be the lead agency for a project and requires the lead agency to prepare an EIR, a responsible agency which must grant an approval for the project before the lead agency has completed the EIR may prepare and consider a staged EIR.

(d) An agency requested to prepare a staged EIR may decline to act as the lead agency if it determines, among other factors, that:

(1) Another agency would be the appropriate lead agency; and

(2) There is no compelling need to prepare a staged EIR and grant an approval for the project before the appropriate lead agency will take its action on the project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21003, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15168. Program EIR.

(a) General. A program EIR is an EIR which may be prepared on a series of actions that can be characterized as one large project and are related either:

(1) Geographically,

(2) As logical parts in the chain of contemplated actions,

(3) In connection with issuance of rules, regulations, plans, or other general criteria to govern the conduct of a continuing program, or

(4) As individual activities carried out under the same authorizing statutory or regulatory authority and having generally similar environmental effects which can be mitigated in similar ways.

(b) Advantages. Use of a program EIR can provide the following advantages. The program EIR can:

(1) Provide an occasion for a more exhaustive consideration of effects and alternatives than would be practical in an EIR on an individual action,

(2) Ensure consideration of cumulative impacts that might be slighted in a case–by–case analysis,

(3) Avoid duplicative reconsideration of basic policy considerations,

(4) Allow the lead agency to consider broad policy alternatives and program wide mitigation measures at an early time when the agency has greater flexibility to deal with basic problems or cumulative impacts,

(5) Allow reduction in paperwork.

(c) Use With Later Activities. Subsequent activities in the program must be examined in the light of the program EIR to determine whether an additional environmental document must be prepared.

(1) If a later activity would have effects that were not examined in the program EIR, a new initial study would need to be prepared leading to either an EIR or a negative declaration.

(2) If the agency finds that pursuant to Section 15162, no new effects could occur or no new mitigation measures would be required, the agency can approve the activity as being within the scope of the project covered by the program EIR, and no new environmental document would be required.

(3) An agency shall incorporate feasible mitigation measures and alternatives developed in the program EIR into subsequent actions in the program.

(4) Where the subsequent activities involve site specific operations, the agency should use a written checklist or similar device to document the evaluation of the site and the activity to determine whether the environmental effects of the operation were covered in the program EIR.

(5) A program EIR will be most helpful in dealing with subsequent activities if it deals with the effects of the program as specifically and comprehensively as possible. With a good and detailed analysis of the program, many subsequent activities could be found to be within the scope of the project described in the program EIR, and no further environmental documents would be required.

(d) Use With Subsequent EIRS and Negative Declarations. A program EIR can be used to simplify the task of preparing environmental documents on later parts of the program. The program EIR can:

(1) Provide the basis in an initial study for determining whether the later activity may have any significant effects.

(2) Be incorporated by reference to deal with regional influences, secondary effects, cumulative impacts, broad alternatives, and other factors that apply to the program as a whole.

(3) Focus an EIR on a subsequent project to permit discussion solely of new effects which had not been considered before.

(e) Notice With Later Activities. When a law other than CEQA requires public notice when the agency later proposes to carry out or approve an activity within the program and to rely on the program EIR for CEQA compliance, the notice for the activity shall include a statement that:

(1) This activity is within the scope of the program approved earlier, and

(2) The program EIR adequately describes the activity for the purposes of CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21003, Public Resources Code; *County of Inyo* v. *Yorty*, 32 Cal. App. 3d 795 (1973).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15169. Master Environmental Assessment.

(a) General. A public agency may prepare a master environmental assessment, inventory, or data base for all, or a portion of, the territory subject to its control in order to provide information which may be used or referenced in EIRs or negative declarations. Neither the content, the format, nor the procedures to be used to develop a master environmental assessment are prescribed by these guidelines. The descriptions contained in this section are advisory. A master environmental assessment is suggested solely as an approach to identify and organize environmental information for a region or area of the state.

(b) Contents. A master environmental assessment may contain an inventory of the physical and biological characteristics of the area for which it is prepared and may contain such additional data and information as the public agency determines is useful or necessary to describe environmental characteristics of the area. It may include identification of existing levels of quality and supply of air and water, capacities and levels of use of existing services and facilities, and generalized incremental effects of different categories of development projects by type, scale, and location.

(c) Preparation.

(1) A master environmental assessment or inventory may be prepared in many possible ways. For example, a master environmental assessment may be prepared as a special, comprehensive study of the area involved, as part of the EIR on a general plan, or as a data base accumulated by indexing EIRs prepared for individual projects or programs in the area involved.

(2) The information contained in a master environmental assessment should be reviewed periodically and revised as needed so that it is accurate and current.

(3) When advantageous to do so, master environmental assessments may be prepared through a joint exercise of powers agreement with neighboring local agencies or with the assistance of the appropriate Council of Governments.

(d) Uses.

(1) A master environmental assessment can identify the environmental characteristics and constraints of an area. This information can be used to influence the design and location of individual projects.

(2) A master environmental assessment may provide information agencies can use in initial studies to decide whether certain environmental effects are likely to occur and whether certain effects will be significant.

(3) A master environmental assessment can provide a central source of current information for use in preparing individual EIRs and negative declarations.

(4) Relevant portions of a master environmental assessment can be referenced and summarized in EIRs and negative declarations.

(5) A master environmental assessment can assist in identifying long range, areawide, and cumulative impacts of individual projects proposed in the area covered by the assessment.

(6) A master environmental assessment can assist a city or county in formulating a general plan or any element of such a plan by identifying environmental characteristics and constraints that need to be addressed in the general plan.

(7) A master environmental assessment can serve as a reference document to assist public agencies which review other environmental documents dealing with activities in the area covered by the assessment. The public agency preparing the assessment should forward a completed copy to each agency which will review projects in the area.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21003, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15170. Joint EIR–EIS.

A lead agency under CEQA may work with a federal agency to prepare a joint document which will meet the requirements of both CEQA and NEPA. Use of such a joint document is described in Article 14, beginning with Section 15220.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5 and 21083.7, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 11.5. Master Environmental Impact Report

§ 15175. Master EIR.

(a) The Master EIR procedure is an alternative to preparing a project EIR, staged EIR, or program EIR for certain projects which will form the basis for later decision making. It is intended to streamline the later environmental review of projects or approval included within the project, plan or program analyzed in the Master EIR. Accordingly, a Master EIR shall, to the greatest extent feasible, evaluate the cumulative impacts, growth inducing impacts, and irreversible significant effects on the environment of subsequent projects.

(b) A lead agency may prepare a Master EIR for any of the following classes of projects:

(1) A general plan, general plan update, general plan element, general plan amendment, or specific plan.

(2) Public or private projects that will be carried out or approved pursuant to, or in furtherance of, a redevelopment plan.

(3) A project that consists of smaller individual projects which will be carried out in phases.

(4) A rule or regulation which will be implemented by later projects.

(5) Projects that will be carried out or approved pursuant to a development agreement.

(6) A state highway project or mass transit project which will be subject to multiple stages of review or approval.

(7) A plan proposed by a local agency, including a joint powers authority, for the reuse of a federal military base or reservation that has been closed or is proposed for closure by the federal government.

(8) A regional transportation plan or congestion management plan.

(9) Regulations adopted by the California Department of Fish and Game for the regulation of hunting and fishing.

(c) A lead agency may develop and implement a fee program in accordance with applicable provisions of law to generate the revenue necessary to prepare a Master EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21156, 21157 and 21089, Public Resources Code.

HISTORY

1. New article 11.5 (sections 15175–15175.5) and section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15176. Contents of a Master EIR.

A lead agency shall include in a Master EIR all of the following:

(a) A detailed discussion as required by Section 15126.

(b) A description of anticipated subsequent projects that are within the scope of the Master EIR, including information with regard to the kind, size, intensity, and location of the subsequent projects, including, but not limited to all of the following:

(1) The specific type of project anticipated to be undertaken such as a single family development, office–commercial development, sewer line installation or other activities.

(2) The maximum and minimum intensity of any anticipated subsequent project, such as the number of residences in a residential development, and with regard to a public works facility, its anticipated capacity and service area.

(3) The anticipated location for any subsequent development projects, and, consistent with the rule of reason set forth in Section 15126.6(f), alternative locations for any such projects.

(4) A capital outlay or capital improvement program, or other scheduling or implementing device that governs the submission and approval of subsequent projects, or an explanation as to why practical planning considerations render it impractical to identify any such program or scheduling or other device at the time of preparing the Master EIR.

(c) A description of potential impacts of anticipated projects for which there is not sufficient information reasonably available to support a full assessment of potential impacts in the Master EIR. This description shall not be construed as a limitation on the impacts which may be considered in a focused EIR.

(d) Where a Master EIR is prepared in connection with a project identified in subdivision (b)(1) of section 15175, the anticipated subsequent projects included within a Master EIR may consist of later planning approvals, including parcel–specific approvals, consistent with the overall planning decision (e.g., general plan, or specific plan, or redevelopment plan) for which the Master EIR has been prepared. Such subsequent projects shall be adequately described for purposes of subdivision (b) or of this section (15176) if the Master EIR and any other documents embodying or relating to the overall planning decision identify the land use designations and the permissible densities and intensities of use for the affected parcel(s). The proponents of such subsequent projects shall not be precluded from relying on the Master EIR solely because that document did not specifically identify or list, by name, the subsequent project as ultimately proposed for approval.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21157, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (b)(3) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15177. Subsequent Projects Within the Scope of the MEIR.

(a) After a Master EIR has been prepared and certified, subsequent projects which the lead agency determines as being within the scope of the Master EIR will be subject to only limited environmental review.

(b) Except as provided in subdivision (2) of this subdivision, neither a new environmental document nor the preparation of findings pursuant to section 15091 shall be required of a subsequent project when all of the following requirements are met:

(1) The lead agency for the subsequent project is the lead agency or any responsible agency identified in the Master EIR.

(2) The lead agency for the subsequent project prepares an initial study on the proposal. The initial study shall analyze whether the subsequent project was described in the Master EIR and whether the subsequent project may cause any additional significant effect on the environment which was not previously examined in the Master EIR.

(3) The lead agency for the subsequent project determines, on the basis of written findings, that no additional significant environmental effect will result from the proposal, no new additional mitigation measures or alternatives may be required, and that the project is within the scope of the Master EIR. "Additional significant environmental effect" means any project–specific effect which was not addressed as a significant effect in the Master EIR.

(c) Whether a subsequent project is within the scope of the Master EIR is a question of fact to be determined by the lead agency based upon a review of the initial study to determine whether there are additional signifi-

cant effects or new additional mitigation measures or alternatives required for the subsequent project that are not already discussed in the Master EIR.

(d) Prior to approval of the proposed subsequent project, the lead agency shall incorporate all feasible mitigation measures or feasible alternatives appropriate to the project as set forth in the Master EIR and provide notice in the manner required by Section 15087.

(e) When the lead agency approves a project pursuant to this section, the lead agency shall file a notice in the manner required by Section 15075.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21157, 21157.6 and 21158, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (b) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15178. Subsequent Projects Identified in the MEIR.

(a) When a proposed subsequent project is identified in the Master EIR, but the lead agency cannot make a determination pursuant to Section 15177 that the subsequent project is within the scope of the Master EIR, and the lead agency determines that the cumulative impacts, growth inducing impacts and irreversible significant effects analysis in the Master EIR is adequate for the subsequent project, the lead agency shall prepare a mitigated negative declaration or a focused EIR if, after preparing an initial study, the lead agency determines that the project may result in new or additional significant effects. Whether the cumulative impacts, growth inducing impacts and irreversible significant effects analyses are adequate is a question of fact to be determined by the lead agency based upon a review of the proposed subsequent project in light of the Master EIR.

(b) A lead agency shall prepare a mitigated negative declaration for any proposed subsequent project if both of the following occur:

(1) The initial study prepared pursuant to Section 15177 has identified potentially new or additional significant environmental effects that were not analyzed in the Master EIR; and

(2) Feasible mitigation measures or alternatives will be incorporated to revise the subsequent project before the negative declaration is released for public review pursuant to Section 15073 in order to avoid or mitigate the identified effects to a level of insignificance.

(c) A lead agency shall prepare a focused EIR if the subsequent project may have a significant effect on the environment and a mitigated negative declaration pursuant to subdivision (b) of this section cannot be prepared.

(1) The focused EIR shall incorporate by reference the Master EIR and analyze only the subsequent project's additional significant environmental effects and any new or additional mitigation measures or alternatives that were not identified and analyzed by the Master EIR. "Additional significant environmental effects" are those project–specific effects on the environment which were not addressed as significant in the Master EIR.

(2) A focused EIR need not examine those effects which the lead agency, prior to public release of the focused EIR, finds, on the basis of the initial study, related documents, and commitments from the proponent of a subsequent project, have been mitigated in one of the following manners:

(A) Mitigated or avoided as a result of mitigation measures identified in the Master EIR which the lead agency will require as part of the approval of the subsequent project;

(B) Examined at a sufficient level of detail in the Master EIR to enable those significant effects to be mitigated or avoided by specific revisions to the project, the imposition of conditions of approval, or by other means in connection with approval of the subsequent project; or

(C) The mitigation or avoidance of which is the responsibility of and within the jurisdiction of another public agency and is, or can and should be, undertaken by that agency.

(3) The lead agency's findings pursuant to subdivision (2) shall be included in the focused EIR prior to public release pursuant to Section 15087.

(4) A focused EIR prepared pursuant to this section shall analyze any significant environmental effects when:

(A) Substantial new or additional information shows that the adverse environmental effect may be more significant that was described in the Master EIR; or

(B) Substantial new or additional information shows that mitigation measures or alternatives which were previously determined to be infeasible are feasible and will avoid or reduce the significant effects of the subsequent project to a level of insignificance.

(d) A lead agency shall file a notice of determination shall be filed pursuant to Section 15075 if a project has been approved for which a mitigated negative declaration has been prepared pursuant to this section and a notice of determination shall be filed pursuant to Section 15094 if a project has been approved for which a focused EIR has been prepared pursuant to this section.

(e) When a lead agency determines that the cumulative impacts, growth inducing impacts and irreversible significant effects analysis in the Master EIR is inadequate for the subsequent project, the subsequent project is no longer eligible for the limited environmental review available under the Master EIR process and shall be reviewed according to Article 7 (commencing with Section 15080) of these guidelines. The lead agency shall tier the project specific EIR upon the Master EIR to the extent feasible under Section 15152.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21081(a)(2), 21157.5 and 21158, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15179. Limitations on the Use of the Master EIR.

(a) The certified Master EIR shall not be used for a subsequent project described in the Master EIR in accordance with this article if either:

(1) The Master EIR was certified more than five years prior to the filing of an application for a subsequent project except as set forth in subsection (b) below, or

(2) After the certification of the Master EIR, a project not described in the certified Master EIR as an anticipated subsequent project is approved and the approved project may affect the adequacy of the Master EIR for any subsequent project that was described in the Master EIR.

(b) A Master EIR that was certified more than five years prior to the filing of an application for a subsequent project described in the Master EIR may be used in accordance with this article to review such a subsequent project if the lead agency reviews the adequacy of the Master EIR and takes either of the following steps:

(1) Finds that no substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, or that there is no new available information which was not known and could not have been known at the time the Master EIR was certified; or

(2) Prepares an initial study and, pursuant to the findings of the initial study, does either (A) or (B) below:

(A) certifies subsequent or supplemental EIR that updates or revises the Master EIR and which either:

1. is incorporated into the previously certified Master EIR,

2. references any deletions, additions or other modifications to the previously certified Master EIR;

(B) approves a mitigated negative declaration that addresses substantial changes that have occurred with respect to the circumstances under which the Master EIR was certified or the new information that was not known and could not have been known at the time the Master EIR was certified.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21157.6, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
3. Amendment filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15179.5. Focused EIRs and Small Projects.

(a) When a project is a multiple family residential development of 100 units or less or is a residential and commercial or retail mixed–use commercial development of not more then 100,000 square feet, whether or not the project is identified in the Master EIR, a focused EIR shall be prepared pursuant to this section when the following conditions are met:

(1) The project is consistent with a general plan, specific plan, community plan, or zoning ordinance for which an EIR was prepared within five years of certification of the focused EIR; and

(2) The parcel on which the project is to be developed is either:

(A) Surrounded by immediately contiguous urban development;

(B) Previously developed with urban uses; or

(C) Within one–half mile of an existing rail transit station.

(b) A focused environmental impact report prepared pursuant to this section shall be limited to a discussion of potentially significant effects on the environment specific to the project, or which substantial new information shows will be more significant than described in the prior environmental impact report. No discussion shall be required of alternatives to the project, cumulative impacts of the project, or the growth inducing impacts of the project.

(c) This section does not apply where the lead agency can make a finding pursuant to Section 15177 that the subsequent project is within the scope of the Master EIR, where the lead agency can prepare a mitigated negative declaration or focused EIR pursuant to Section 15178, or where, pursuant to Section 15162 or Section 15163, the environmental impact report referenced in subdivision (a)(1) of this section must be updated through the preparation of a subsequent environmental impact report or a supplemental environmental impact report.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21158.5, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 12. Special Situations

§ 15180. Redevelopment Projects.

(a) An EIR for a redevelopment plan may be a Master EIR, a program EIR, or a project EIR. An EIR for a redevelopment plan must specify whether it is a Master EIR, a program EIR, or a project EIR.

(b) If the EIR for a redevelopment plan is a project EIR, all public and private activities or undertakings pursuant to or in furtherance of the redevelopment plan shall constitute a single project, which shall be deemed approved at the time of adoption of the redevelopment plan by the legislative body. The EIR in connection with the redevelopment plan shall be submitted in accordance with Section 33352 of the Health and Safety Code.

If a project EIR has been certified for the redevelopment plan, no subsequent EIRs are required for individual components of the redevelopment plan unless a subsequent EIR or a supplement to an EIR would be required by Section 15162 or 15163.

(c) If the EIR for a redevelopment plan is a Master EIR, subsequent projects which the lead agency determines as being within the scope of the Master EIR will be subject to the review required by Section 15177. If the EIR for a redevelopment plan is a program EIR, subsequent activities in the program will be subject to the review required by Section 15168.

2. Certificate of Compliance filed 4–2–76 (Register 76, No. 14).
3. Repealer of Article 12 (Sections 15190–15193) and new Article 12 (Sections 15180–15185) filed 7–13–83; effective 8–1–83 (Register 83, No. 29). For prior history, see Registers 82, No. 2; 81, Nos. 30 and 45; 80, No. 15; 79, Nos. 18, 23 and 30; and 78, No. 33.
4. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
5. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
6. Amendment of section and NOTE filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15181. Housing and Neighborhood Commercial Facilities in Urbanized Areas.

NOTE: Authority cited: Sections 21083 and 21087, Public Resources Code. Reference: Section 21080.7, Public Resources Code.

HISTORY

1. Change without regulatory effect repealing section filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15182. Residential Projects Pursuant to a Specific Plan.

(a) Exemption. Where a public agency has prepared an EIR on a specific plan after January 1, 1980, no EIR or negative declaration need be prepared for a residential project undertaken pursuant to and in conformity to that specific plan if the project meets the requirements of this section.

(b) Scope. Residential projects covered by this section include but are not limited to land subdivisions, zoning changes, and residential planned unit developments.

(c) Limitation. This section is subject to the limitation that if after the adoption of the specific plan, an event described in Section 15162 should occur, this exemption shall not apply until the city or county which adopted the specific plan completes a subsequent EIR or a supplement to an EIR on the specific plan. The exemption provided by this section shall again be available to residential projects after the lead agency has filed a Notice of Determination on the specific plan as reconsidered by the subsequent EIR or supplement to the EIR.

(d) Fees. The lead agency has authority to charge fees to applicants for projects which benefit from this section. The fees shall be calculated in the aggregate to defray but not to exceed the cost of developing and adopting the specific plan including the cost of preparing the EIR.

(e) Statute of Limitations. A court action challenging the approval of a project under this section for failure to prepare a supplemental EIR shall be commenced within 30 days after the lead agency's decision to carry out or approve the project in accordance with the specific plan.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 65453, Government Code.

HISTORY

1. Change without regulatory effect repealing subsection (d), relettering subsections and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15183. Projects Consistent with a Community Plan, General Plan, or Zoning.

(a) CEQA mandates that projects which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified shall not require additional environmental review, except as might be necessary to examine whether there are project–specific significant effects which are peculiar to the project or its site. This streamlines the review of such projects and reduces the need to prepare repetitive environmental studies.

(b) In approving a project meeting the requirements of this section, a public agency shall limit its examination of environmental effects to those which the agency determines, in an initial study or other analysis:

(1) Are peculiar to the project or the parcel on which the project would be located,

(2) Were not analyzed as significant effects in a prior EIR on the zoning action, general plan or community plan with which the project is consistent,

(3) Are potentially significant off-site impacts and cumulative impacts which were not discussed in the prior EIR prepared for the general plan, community plan or zoning action, or

(4) Are previously identified significant effects which, as a result of substantial new information which was not known at the time the EIR was certified, are determined to have a more severe adverse impact than discussed in the prior EIR.

(c) If an impact is not peculiar to the parcel or to the project, has been addressed as a significant effect in the prior EIR, or can be substantially mitigated by the imposition of uniformly applied development policies or standards, as contemplated by subdivision (e) below, then an additional EIR need not be prepared for the project solely on the basis of that impact.

(d) This section shall apply only to projects which meet the following conditions:

(1) The project is consistent with:

(A) A community plan adopted as part of a general plan,

(B) A zoning action which zoned or designated the parcel on which the project would be located to accommodate a particular density of development, or

(C) A general plan of a local agency, and

(2) An EIR was certified by the lead agency for the zoning action, the community plan, or the general plan.

(e) This section shall limit the analysis of only those significant environmental effects for which:

(1) Each public agency with authority to mitigate any of the significant effects on the environment identified in the EIR on the planning or zoning action undertakes or requires others to undertake mitigation measures specified in the EIR which the lead agency found to be feasible, and

(2) The lead agency makes a finding at a public hearing as to whether the feasible mitigation measures will be undertaken.

(f) An effect of a project on the environment shall not be considered peculiar to the project or the parcel for the purposes of this section if uniformly applied development policies or standards have been previously adopted by the city or county with a finding that the development policies or standards will substantially mitigate that environmental effect when applied to future projects, unless substantial new information shows that the policies or standards will not substantially mitigate the environmental effect. The finding shall be based on substantial evidence which need not include an EIR. Such development policies or standards need not apply throughout the entire city or county, but can apply only within the zoning district in which the project is located, or within the area subject to the community plan on which the lead agency is relying. Moreover, such policies or standards need not be part of the general plan or any community plan, but can be found within another pertinent planning document such as a zoning ordinance. Where a city or county, in previously adopting uniformly applied development policies or standards for imposition on future projects, failed to make a finding as to whether such policies or standards would substantially mitigate the effects of future projects, the decisionmaking body of the city or county, prior to approving such a future project pursuant to this section, may hold a public hearing for the purpose of considering whether, as applied to the project, such standards or policies would substantially mitigate the effects of the project. Such a public hearing need only be held if the city or county decides to apply the standards or policies as permitted in this section.

(g) Examples of uniformly applied development policies or standards include, but are not limited to:

(1) Parking ordinances,

(2) Public access requirements,

(3) Grading ordinances.

(4) Hillside development ordinances.

(5) Flood plain ordinances.

(6) Habitat protection or conservation ordinances.

(7) View protection ordinances.

(h) An environmental effect shall not be considered peculiar to the project or parcel solely because no uniformly applied development policy or standard is applicable to it.

(i) Where the prior EIR relied upon by the lead agency was prepared for a general plan or community plan that meets the requirements of this section, any rezoning action consistent with the general plan or community plan shall be treated as a project subject to this section.

(1) "Community plan" is defined as a part of the general plan of a city or county which applies to a defined geographic portion of the total area included in the general plan, includes or references each of the mandatory elements specified in Section 65302 of the Government Code, and contains specific development policies and implementation measures which will apply those policies to each involved parcel.

(2) For purposes of this section, "consistent" means that the density of the proposed project is the same or less than the standard expressed for the involved parcel in the general plan, community plan or zoning action for which an EIR has been certified, and that the project complies with the density-related standards contained in that plan or zoning. Where the zoning ordinance refers to the general plan or community plan for its density standard, the project shall be consistent with the applicable plan.

(j) This section does not affect any requirement to analyze potentially significant offsite or cumulative impacts if those impacts were not adequately discussed in the prior EIR. If a significant offsite or cumulative impact was adequately discussed in the prior EIR, then this section may be used as a basis for excluding further analysis of that offsite or cumulative impact.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083.3, Public Resources Code.

HISTORY

1. Amendment of section heading and subsections (a)(2) and (b) filed 1-30-86; effective thirtieth day thereafter (Register 86, No. 5).
2. Amendment of section heading and section filed 10-26-98; operative 10-26-98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15184. State Mandated Local Projects.

Whenever a state agency issues an order which requires a local agency to carry out a project subject to CEQA, the following rules apply:

(a) If an EIR is prepared for the project, the local agency shall limit the EIR to considering those factors and alternatives which will not conflict with the order.

(b) If a local agency undertakes a project to implement a rule or regulation imposed by a certified state environmental regulatory program listed in Section 15251, the project shall be exempt from CEQA with regard to the significant effects analyzed in the document prepared by the state agency as a substitute for an EIR. The local agency shall comply with CEQA with regard to any site-specific effect of the project which was not analyzed by the certified state agency as a significant effect on the environment. The local agency need not re-examine the general environmental effects of the state rule or regulation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080, 21080.5 and 21154, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15185. Administrative Appeals.

(a) Where an agency allows administrative appeals upon the adequacy of an environmental document, an appeal shall be handled according to the procedures of that agency. Public notice shall be handled in accordance with individual agency requirements and Section 15202(e).

(b) The decisionmaking body to which an appeal has been made shall consider the environmental document and make findings under Sections 15091 and 15093 if appropriate.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082 and 21083, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15186. School Facilities.

(a) CEQA establishes a special requirement for certain school projects, as well as certain projects near schools, to ensure that potential health impacts resulting from exposure to hazardous materials,wastes, and substances will be carefully examined and disclosed in a negative declaration or EIR, and that the lead agency will consult with other agencies in this regard.

(b) Before certifying an EIR or adopting a negative declaration for a project located within one–fourth mile of a school involves the construction or alteration of a facility that might reasonably be anticipated to emit hazardous air emissions, or that would handle an extremely hazardous substance or a mixture containing extremely hazardous substances in a quantity equal to or greater than the state threshold quantity specified in subdivision (j) of Section 25532 of the Health and Safety Code, that may impose a health or safety hazard to persons who would attend or would be employed at the school, the lead agency must do both of the following:

(1) Consult with the affected school district or districts regarding the potential impact of the project on the school; and

(2) Notify the affected school district or districts of the project, in writing, not less than 30 days prior to approval or certification of the negative declaration or EIR.

(c) When the project involves the purchase of a school site or the construction of a secondary or elementary school by a school district, the negative declaration or EIR prepared for the project shall not be adopted or certified unless:

(1) The negative declaration, mitigated negative declaration, or EIR contains sufficient information to determine whether the property is:

(A) The site of a current or former hazardous waste or solid waste disposal facility and, if so, whether wastes have been removed.

(B) A hazardous substance release site identified by the Department of Toxic Substances Control in a current list adopted pursuant to Section 25356 of the Health and Safety Code for removal or remedial action pursuant to Chapter 6.8 (commencing with Section 25300) of Division 20 of the Health and Safety Code.

(C) The site of one or more buried or above ground pipelines which carry hazardous substances, acutely hazardous materials, or hazardous wastes, as defined in Division 20 of the Health and Safety Code. This does not include a natural gas pipeline used only to supply the school or neighborhood.

(D) Within 500 feet of the edge of the closest traffic lane of a freeway or other busy traffic corridor.

(2) The lead agency has notified in writing and consulted with the county or city administering agency (as designated pursuant to Section 25502 of the Health and Safety Code) and with any air pollution control district or air quality management district having jurisdiction, to identify facilities within one–fourth mile of the proposed school site which might reasonably be anticipated to emit hazardous emissions or handle hazardous or acutely hazardous material, substances, or waste. The notice shall include a list of the school sites for which information is sought. Each agency or district receiving notice shall provide the requested information and provide a written response to the lead agency within 30 days of receiving the notification. If any such agency or district fails to respond within that time, the negative declaration or EIR shall be conclusively presumed to comply with this section as to the area of responsibility of that agency.

(3) The school district makes, on the basis of substantial evidence, one of the following written findings:

(A) Consultation identified none of the facilities specified in paragraph (2).

(B) The facilities specified in paragraph (2) exist, but one of the following conditions applies:

1. The health risks from the facilities do not and will not constitute an actual or potential endangerment of public health to persons who would attend or be employed at the proposed school.

2. Corrective measures required under an existing order by another agency having jurisdiction over the facilities will, before the school is occupied, mitigate all chronic or accidental hazardous air emissions to levels that do not constitute any actual or potential public health danger to persons who would attend or be employed at the proposed school. When the school district board makes such a finding, it shall also make a subsequent finding, prior to occupancy of the school, that the emissions have been so mitigated.

3. For a school site with boundary that is within 500 feet of the edge of the closest traffic lane of a freeway or other busy traffic corridor, the school district determines, through a health risk assessment pursuant to subdivision (b)(2) of Section 44360 of the Health and Safety Code, based on appropriate air dispersion modeling, and after considering any potential mitigation measures, that the air quality at the proposed site is such that neither short–term nor long–term exposure poses significant health risks to pupils.

(C) The facilities or other pollution sources specified in subsection (c)(2) exist, but conditions in subdivisions (c)(3)(B)(1), (2) or (3) cannot be met, and the school district is unable to locate an alternative site that is suitable due to a severe shortage of sites that meet the requirements in subdivision (a) of Section 17213 of the Education Code. If the school district makes this finding, the school board shall prepare an EIR and adopt a statement of overriding considerations.

This finding shall be in addition to any findings which may be required pursuant to Sections 15074, 15091 or 15093.

(d) When the lead agency has carried out the consultation required by paragraph (2) of subdivision (b), the negative declaration or EIR shall be conclusively presumed to comply with this section, notwithstanding any failure of the consultation to identify an existing facility.

(e) The following definitions shall apply for the purposes of this section:

(1) "Acutely hazardous material," is as defined in 22 C.C.R. §66260.10.

(2) "Administering agency," is as defined in Section 25501 of the Health and Safety Code.

(3) "Extremely hazardous substance," is as defined in subdivision (g)(2)(B) of Section 25532 of the Health and Safety Code and listed in Section 2770.5, Table 3, of Title 19 of the California Code of Regulations.

(4) "Facilities" means any source with a potential to use, generate, emit or discharge hazardous air pollutants, including, but not limited to, pollutants that meet the definition of a hazardous substance, and whose process or operation is identified as an emission source pursuant to the most recent list of source categories published by the California Air Resources Board.

(5) "Freeway or other busy traffic corridors" means those roadways that, on an average day, have traffic in excess of 50,000 vehicles in a rural area, as defined in Section 50101 of the Health and Safety Code, and 100,000 vehicles in an urban area, as defined in Section 50104.7 of the Health and Safety Code.

(6) "Handle" means to use, generate, process, produce, package, treat, store, emit, discharge, or dispose of a hazardous material in any fashion.

(7) "Hazardous air emissions," is as defined in subdivisions (a) to (f), inclusive, of Section 44321 of the Health and Safety Code.

(8) "Hazardous substance," is as defined in Section 25316 of the Health and Safety Code.

(9) "Hazardous waste," is as defined in Section 25117 of the Health and Safety Code.

(10) "Hazardous waste disposal site," is as defined in Section 25114 of the Health and Safety Code.

NOTE: Authority cited: Section 21083, Public Resources Code. References: Sections 21151.4 and 21151.8, Public Resources Code.

HISTORY
1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).
3. Amendment filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15187. Environmental Review of New Rules and Regulations.

(a) At the time of the adoption of a rule or regulation requiring the installation of pollution control equipment, establishing a performance standard, or establishing a treatment requirement, the California Air Resources Board, Department of Toxic Substances Control, Integrated Waste Management Board, State Water Resources Control Board, all regional water quality control boards, and all air pollution control districts and air quality management districts, as defined in Section 39025 of the Health and Safety Code, must perform an environmental analysis of the reasonably foreseeable methods by which compliance with that rule or regulation will be achieved.

(b) If an EIR is prepared by the agency at the time of adoption of a rule or regulation, it satisfies the requirements of this section provided that the document contains the information specified in subdivision (c) below. Similarly, for those State agencies whose regulatory programs have been certified by the Resources Agency pursuant to Section 21080.5 of the Public Resources Code, an environmental document prepared pursuant to such programs satisfies the requirements of this section, provided that the document contains the information specified in subdivision (c) below.

(c) The environmental analysis shall include at least the following:

(1) An analysis of reasonably foreseeable environmental impacts of the methods of compliance;

(2) An analysis of reasonably foreseeable feasible mitigation measures relating to those impacts; and

(3) An analysis of reasonably foreseeable alternative means of compliance with the rule or regulation, which would avoid or eliminate the identified impacts.

(d) The environmental analysis shall take into account a reasonable range of environmental, economic, and technical factors, population and geographic areas, and specific sites. The agency may utilize numerical ranges and averages where specific data is not available, but is not required to, nor should it, engage in speculation or conjecture.

(e) Nothing in this section shall require the agency to conduct a project level analysis.

(f) Nothing in this section is intended, or may be used, to delay the adoption of any rule or regulation for which this section requires an environmental analysis.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21159 and 21159.4, Public Resources Code.

HISTORY
1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15188. Focused EIR for Pollution Control Equipment.

This section applies to projects consisting solely of the installation of pollution control equipment and other components necessary to the installation of that equipment which are undertaken for the purpose of complying with a rule or regulation which was the subject of an environmental analysis as described in Section 15187.

(a) The lead agency for the compliance project may prepare a focused EIR to analyze the effects of that project when the following occur:

(1) the agency which promulgated the rule or regulation certified an EIR on that rule or regulation, or reviewed it pursuant to an environmental analysis prepared under a certified regulatory program and, in either case, the review included an assessment of growth inducing impacts and cumulative impacts of, and alternatives to, the project;

(2) the focused EIR for the compliance project is certified within five years of the certified EIR or environmental analysis required by subdivision (a)(1); and

(3) the EIR prepared in connection with the adoption of the rule or regulation need not be updated through the preparation of a subsequent EIR or supplemental EIR pursuant to section 15162 or section 15163.

(b) The discussion of significant environmental effects in the focused EIR shall be limited to project–specific, potentially significant effects which were not discussed in the environmental analysis required under Section 15187. No discussion of growth–inducing or cumulative impacts is required. Discussion of alternatives shall be limited to alternative means of compliance, if any, with the rule or regulation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21159.1, Public Resources Code.

HISTORY
1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15189. Compliance with Performance Standard or Treatment Requirement Rule or Regulation.

This section applies to projects consisting solely of compliance with a performance standard or treatment requirement which was the subject of an environmental analysis as described in Section 15187.

(a) If preparing a negative declaration, mitigated negative declaration or EIR on the compliance project the lead agency for the compliance project shall, to the greatest extent feasible, use the environmental analysis prepared pursuant to Section 15187. The use of numerical averages or ranges in the environmental analysis prepared under Section 15187 does not relieve the lead agency on the compliance project from its obligation to identify and evaluate the environmental effects of the project.

(b) Where the lead agency determines that an EIR is required for the compliance project, the EIR need address only the project–specific issues or other issues that were not discussed in sufficient detail in the environmental analysis prepared under Section 15187. The mitigation measures imposed by the lead agency shall be limited to addressing the significant effects on the environment of the compliance project. The discussion of alternatives shall be limited to a discussion of alternative means of compliance, if any, with the rule or regulation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21159.2, Public Resources Code.

HISTORY
1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15190. Deadlines for Compliance with Sections 15188 and 15189.

(a) The lead agency for a compliance project under either Section 15188 or Section 15189 shall determine whether an EIR or negative declaration should be prepared within 30 days of its determination that the application for the project is complete.

(b) Where the EIR will be prepared under contract to the lead agency for the compliance project, the agency shall issue a request for proposal for preparation of the EIR not later than 30 days after the deadline for response to the notice of preparation has expired. The contract shall be awarded within 30 days of the response date on the request for proposals.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21159.3, Public Resources Code.

HISTORY
1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15190.5. Department of Defense Notification Requirement.

(a) For purposes of this section, the following definitions are applicable.

(1) "Low-level flight path" means any flight path for any aircraft owned, maintained, or that is under the jurisdiction of the United States Department of Defense that flies lower than 1,500 feet above ground level, as indicated in the United States Department of Defense Flight Information Publication, "Area Planning Military Training Routes: North and South America (AP/1B)" published by the United States National Imagery and Mapping Agency, or its successor, as of the date the military service gives written notification to a lead agency pursuant to subdivision (b).

(2) "Military impact zone" means any area, including airspace, that meets both of the following criteria:

(A) Is within two miles of a military installation, including, but not limited to, any base, military airport, camp, post, station, yard, center, homeport facility for a ship, or any other military activity center that is under the jurisdiction of the United States Department of Defense; and

(B) Covers greater than 500 acres of unincorporated land, or greater than 100 acres of city incorporated land.

(3) "Military service" means the United States Department of Defense or any branch of the United States Armed Forces.

(4) "Special use airspace" means the land area underlying the airspace that is designated for training, research, development, or evaluation for a military service, as that land area is established by the United States Department of Defense Flight Information Publication, "Area Planning: Special Use Airspace: North and South America (AP/1A)" published by the United States National Imagery and Mapping Agency, or its successor, as of the date the military service gives written notification to a lead agency pursuant to subdivision (b).

(b) A military service may give written notification to a lead agency of the specific boundaries of a low-level flight path, military impact zone, or special use airspace, and provide the lead agency, in writing, the military contact office and address for the military service. If the notice references the specific boundaries of a low-level flight path, such notification must include a copy of the applicable United States Department of Defense Flight Information Publication, "Area Planning Military Training Routes: North and South America (AP/1B)." If the notice references the specific boundaries of a special use airspace, such notification must include a copy of the applicable United States Department of Defense Flight Information Publication, "Area Planning: Special Use Airspace: North and South America (AP/1A)."

(c) If a military service provides the written notification specified in subdivision (b) of this section, a lead agency must include the specified military contact office in the list of organizations and individuals receiving a notice of intent to adopt a negative declaration or a mitigated negative declaration pursuant to Section 15072, in the list of organizations and individuals receiving a notice of preparation of an EIR pursuant to Section 15082, and in the list of organizations and individuals receiving a notice of availability of a draft EIR pursuant to Section 15087 for any project that meets all of the criteria specified below:

(1) The project to be carried out or approved by the lead agency is within the boundaries specified in subdivision (b).

(2) The project is one of the following:

(A) a project that includes a general plan amendment; or

(B) a project that is of statewide, regional, or areawide significance; or

(C) a project that relates to a public use airport and the area surrounding such airport which is required to be referred to the airport land use commission, or appropriately designated body, pursuant to Sections 21670–21679.5 of the Public Utilities Code.

(3) The project is not one of the actions described below. A lead agency does not need to send to the specified military contact office a notice of intent to adopt a negative declaration or a mitigated negative declaration, a notice of preparation of an EIR, or a notice of availability of a draft EIR for such actions.

(A) a response action taken pursuant to Chapter 6.8 (commencing with Section 25300) of Division 20 of the Health and Safety Code.

(B) a response action taken pursuant to Chapter 6.85 (commencing with Section 25396) of Division 20 of the Health and Safety Code.

(C) a project undertaken at a site in response to a corrective action order issued pursuant to Section 25187 of the Health and Safety Code.

The lead agency shall send the specified military contact office a notice of intent or a notice of availability sufficiently prior to adoption or certification of the environmental documents by the lead agency to allow the military service the review period provided under Section 15105.

(d) The effect or potential effect that a project may have on military activities does not itself constitute an adverse effect on the environment for the purposes of CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21098, Public Resources Code.

HISTORY

1. New section filed 7-27-2007; operative 7-27-2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

Article 12.5. Exemptions for Agricultural Housing, Affordable Housing, and Residential Infill Projects

§ 15191. Definitions.

For purposes of this Article 12.5 only, the following words shall have the following meanings:

(a) "Agricultural employee" means a person engaged in agriculture, including: farming in all its branches, and, among other things, includes: (1) the cultivation and tillage of the soil, (2) dairying, (3) the production, cultivation, growing, and harvesting of any agricultural or horticultural commodities (including commodities defined as agricultural commodities in Section 1141j(g) of Title 12 of the United States Code), (4) the raising of livestock, bees, furbearing animals, or poultry, and (5) any practices (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to or in conjunction with such farming operations, including preparation for market and delivery to storage or to market or to carriers for transportation to market. This definition is subject to the following limitations:

This definition shall not be construed to include any person other than those employees excluded from the coverage of the National Labor Relations Act, as amended, as agricultural employees, pursuant to Section 2(3) of the Labor Management Relations Act (Section 152(3), Title 29, United States Code), and Section 3(f) of the Fair Labor Standards Act (Section 203(f), Title 29, United States Code).

This definition shall not apply, or be construed to apply, to any employee who performs work to be done at the site of the construction, alteration, painting, or repair of a building, structure, or other work (as these terms have been construed under Section 8(e) of the Labor Management Relations Act, 29 U.S.C. Sec. 158(e)) or logging or timber-clearing operations in initial preparation of land for farming, or who does land leveling or only land surveying for any of the above. As used in this definition, "land leveling" shall include only major land moving operations changing the contour of the land, but shall not include annual or seasonal tillage or preparation of land for cultivation.

(b) "Census-defined place" means a specific unincorporated land area within boundaries determined by the United States Census Bureau in the most recent decennial census.

(c) "Community-level environmental review" means either of the following:

(1) An EIR certified on any of the following:

(A) A general plan.

(B) A revision or update to the general plan that includes at least the land use and circulation elements.

(C) An applicable community plan.

(D) An applicable specific plan.

(E) A housing element of the general plan, if the environmental impact report analyzed the environmental effects of the density of the proposed project.

(2) A negative declaration or mitigated negative declaration adopted as a subsequent environmental review document, following and based upon an EIR on a general plan, an applicable community plan, or an applicable specific plan, provided that the subsequent environmental review document is allowed by CEQA following a master EIR or a program EIR, or is required pursuant to Section 21166.

(d) "Developed open space" means land that meets all of the following criteria:

(1) land that is publicly owned, or financed in whole or in part by public funds,

(2) is generally open to, and available for use by, the public, and

(3) is predominantly lacking in structural development other than structures associated with open spaces, including, but not limited to, playgrounds, swimming pools, ball fields, enclosed child play areas, and picnic facilities.

Developed open space may include land that has been designated for acquisition by a public agency for developed open space but does not include lands acquired by public funds dedicated to the acquisition of land for housing purposes.

(e) "Infill site" means a site in an urbanized area that meets one of the following criteria:

(1) The site has been previously developed for qualified urban uses; or

(2) The site has not been developed for qualified urban uses but all immediately adjacent parcels are developed with existing qualified urban uses; or

(3) The site has not been developed for qualified urban uses, no parcel within the site has been created within the past 10 years, and the site is situated so that:

(A) at least 75 percent of the perimeter of the site is adjacent to parcels that are developed with existing qualified urban uses at the time the lead agency receives an application for an approval; and

(B) the remaining 25 percent of the perimeter of the site adjoins parcels that had been previously developed for qualified urban uses.

(f) "Low- and moderate-income households" means "persons and families of low or moderate income" as defined in Section 50093 of the Health and Safety Code to mean persons and families whose income does not exceed 120 percent of area median income, adjusted for family size by the Department of Housing and Community Development, in accordance with adjustment factors adopted and amended from time to time by the United States Department of Housing and Urban Development pursuant to Section 8 of the United States Housing Act of 1937.

(g) "Low-income households" means households of persons and families of very low and low income, which are defined in Sections 50093 and 50105 of the Health and Safety Code as follows:

(1) "Persons and families of low income" or "persons of low income" is defined in Section 50093 of the Health & Safety Code to mean persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of housing financed pursuant to this division.

(2) "Very low income households" is defined in Section 50105 of the Health & Safety Code to mean persons and families whose incomes do not exceed the qualifying limits for very low income families as established and amended from time to time pursuant to Section 8 of the United States Housing Act of 1937. "Very low income households" includes extremely low income households, as defined in Section 50106 of the Health & Safety Code.

(h) "Lower income households" is defined in Section 50079.5 of the Health and Safety Code to mean any of the following:

(1) "Lower income households," which means persons and families whose income does not exceed the qualifying limits for lower income families as established and amended from time to time pursuant to Section 8 of the United States Housing Act of 1937.

(2) "Very low income households," which means persons and families whose incomes do not exceed the qualifying limits for very low income families as established and amended from time to time pursuant to Section 8 of the United States Housing Act of 1937.

(3) "Extremely low income households," which means persons and families whose incomes do not exceed the qualifying limits for extremely low income families as established and amended from time to time by the Secretary of Housing and Urban Development and defined in Section 5.603(b) of Title 24 of the Code of Federal Regulations.

(i) "Major transit stop" means a site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

(j) "Project-specific effect" means all the direct or indirect environmental effects of a project other than cumulative effects and growth-inducing effects.

(k) "Qualified urban use" means any residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses.

(*l*) "Residential" means a use consisting of either of the following:

(1) Residential units only.

(2) Residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 15 percent of the total floor area of the project.

(m) "Urbanized area" means either of the following:

(1) An incorporated city that either by itself or in combination with two contiguous incorporated cities has a population of at least 100,000 persons; or

(2) An unincorporated area that meets the requirements set forth in subdivision (m)(2)(A) and subdivision (m)(2)(B) below.

(A) The unincorporated area must meet one of the following location or density requirements:

1. The unincorporated area must be: (i) completely surrounded by one or more incorporated cities, (ii) have a population of at least 100,000 persons either by itself or in combination with the surrounding incorporated city or cities, and (iii) have a population density that at least equals the population density of the surrounding city or cities; or

2. The unincorporated area must be located within an urban growth boundary and have an existing residential population of at least 5,000 persons per square mile. For purposes of this subparagraph, an "urban growth boundary" means a provision of a locally adopted general plan that allows urban uses on one side of the boundary and prohibits urban uses on the other side.

(B) The board of supervisors with jurisdiction over the unincorporated area must have taken the following steps:

1. The board has prepared a draft document by which the board would find that the general plan, zoning ordinance, and related policies and programs applicable to the unincorporated area are consistent with principles that: (i) encourage compact development in a manner that promotes efficient transportation systems, economic growth, affordable housing, energy efficiency, and an appropriate balance of jobs and housing, and (ii) protects the environment, open space, and agricultural areas.

2. The board has submitted the draft document to OPR and allowed OPR thirty days to submit comments on the draft findings to the board.

3. No earlier than thirty days after submitting the draft document to OPR, the board has adopted a final finding in substantial conformity with the draft finding described in the draft document referenced in subdivision (m)(2)(B)(1) above.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21159.20, 21159.21, 21159.22, 21159.23 and 21159.24, Public Resources Code.

HISTORY

1. New article 12.5 (sections 15191–15196) and section filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15192. Threshold Requirements for Exemptions for Agricultural Housing, Affordable Housing, and Residential Infill Projects.

In order to qualify for an exemption set forth in sections 15193, 15194 or 15195, a housing project must meet all of the threshold criteria set forth below.

(a) The project must be consistent with:

(1) Any applicable general plan, specific plan, or local coastal program, including any mitigation measures required by such plan or program, as that plan or program existed on the date that the application for the project pursuant to Section 65943 of the Government Code was deemed complete; and

(2) Any applicable zoning ordinance, as that zoning ordinance existed on the date that the application for the project pursuant to Section 65943 of the Government Code was deemed complete, unless the zoning of project property is inconsistent with the general plan because the project property has not been rezoned to conform to the general plan.

(b) Community–level environmental review has been adopted or certified.

(c) The project and other projects approved prior to the approval of the project can be adequately served by existing utilities, and the project applicant has paid, or has committed to pay, all applicable in–lieu or development fees.

(d) The site of the project:

(1) Does not contain wetlands, as defined in Section 328.3 of Title 33 of the Code of Federal Regulations.

(2) Does not have any value as an ecological community upon which wild animals, birds, plants, fish, amphibians, and invertebrates depend for their conservation and protection.

(3) Does not harm any species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.) or by the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code.

(4) Does not cause the destruction or removal of any species protected by a local ordinance in effect at the time the application for the project was deemed complete.

(e) The site of the project is not included on any list of facilities and sites compiled pursuant to Section 65962.5 of the Government Code.

(f) The site of the project is subject to a preliminary endangerment assessment prepared by a registered environmental assessor to determine the existence of any release of a hazardous substance on the site and to determine the potential for exposure of future occupants to significant health hazards from any nearby property or activity. In addition, the following steps have been taken in response to the results of this assessment:

(1) If a release of a hazardous substance is found to exist on the site, the release shall be removed, or any significant effects of the release shall be mitigated to a level of insignificance in compliance with state and federal requirements.

(2) If a potential for exposure to significant hazards from surrounding properties or activities is found to exist, the effects of the potential exposure shall be mitigated to a level of insignificance in compliance with state and federal requirements.

(g) The project does not have a significant effect on historical resources pursuant to Section 21084.1 of the Public Resources Code.

(h) The project site is not subject to wildland fire hazard, as determined by the Department of Forestry and Fire Protection, unless the applicable general plan or zoning ordinance contains provisions to mitigate the risk of a wildland fire hazard.

(i) The project site does not have an unusually high risk of fire or explosion from materials stored or used on nearby properties.

(j) The project site does not present a risk of a public health exposure at a level that would exceed the standards established by any state or federal agency.

(k) Either the project site is not within a delineated earthquake fault zone or a seismic hazard zone, as determined pursuant to Section 2622 and 2696 of the Public Resources Code respectively, or the applicable general plan or zoning ordinance contains provisions to mitigate the risk of an earthquake or seismic hazard.

(*l*) Either the project site does not present a landslide hazard, flood plain, flood way, or restriction zone, or the applicable general plan or zoning ordinance contains provisions to mitigate the risk of a landslide or flood.

(m) The project site is not located on developed open space.

(n) The project site is not located within the boundaries of a state conservancy.

(o) The project has not been divided into smaller projects to qualify for one or more of the exemptions set forth in sections 15193 to 15195.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21159.21 and 21159.27, Public Resources Code.

HISTORY

1. New section filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15193. Agricultural Housing Exemption.

CEQA does not apply to any development project that meets the following criteria.

(a) The project meets the threshold criteria set forth in section 15192.

(b) The project site meets the following size criteria:

(1) The project site is located in an area with a population density of at least 1,000 persons per square mile and is two acres or less in area; or

(2) The project site is located in an area with a population density of less than 1,000 persons per square mile and is five acres or less in area.

(c) The project meets the following requirements regarding location and number of units.

(1) If the proposed development project is located on a project site within city limits or in a census–defined place, it must meet the following requirements:

(A) The proposed project location must be within one of the following:

1. Incorporated city limits; or

2. A census defined place with a minimum population density of at least 5,000 persons per square mile; or

3. A census–defined place with a minimum population density of at least 1,000 persons per square mile, unless a public agency that is carrying out or approving the project determines that there is a reasonable possibility that the project, if completed, would have a significant effect on the environment due to unusual circumstances or that the cumulative impacts of successive projects of the same type in the same area, over time, would be significant.

(B) The proposed development project must be located on a project site that is adjacent, on at least two sides, to land that has been developed.

(C) The proposed development project must meet either of the following requirements:

1. Consist of not more than 45 units, or

2. Consist of housing for a total of 45 or fewer agricultural employees if the housing consists of dormitories, barracks, or other group living facilities.

(2) If the proposed development project is located on a project site zoned for general agricultural use, it must meet either of the following requirements:

(A) Consist of not more than 20 units, or

(B) Consist of housing for a total of 20 or fewer agricultural employees if the housing consists of dormitories, barracks, or other group living facilities.

(d) The project meets the following requirements regarding provision of housing for agricultural employees:

(1) The project must consist of the construction, conversion, or use of residential housing for agricultural employees.

(2) If the project lacks public financial assistance, then:

(A) The project must be affordable to lower income households; and

(B) The developer of the development project must provide sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for lower income households for a period of at least 15 years.

(3) If public financial assistance exists for the project, then:

(A) The project must be housing for very low, low–, or moderate–income households; and

(B) The developer of the development project must provide sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for low– and moderate–income households for a period of at least 15 years.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21159.22, Public Resources Code.

HISTORY

1. New section filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15194. Affordable Housing Exemption.

CEQA does not apply to any development project that meets the following criteria:

(a) The project meets the threshold criteria set forth in section 15192.

(b) The project meets the following size criteria: the project site is not more than five acres in area.

(c) The project meets both of the following requirements regarding location:

(1) The project meets one of the following location requirements relating to population density:

(A) The project site is located within an urbanized area or within a census–defined place with a population density of at least 5,000 persons per square mile.

(B) If the project consists of 50 or fewer units, the project site is located within an incorporated city with a population density of at least 2,500 persons per square mile and a total population of at least 25,000 persons.

(C) The project is located within either an incorporated city or a census defined place with a population density of at least 1,000 persons per square mile and there is no reasonable possibility that the project would have a significant effect on the environment or the residents of the project due to unusual circumstances or due to the related or cumulative impacts of reasonably foreseeable projects in the vicinity of the project.

(2) The project meets one of the following site–specific location requirements:

(A) The project site has been previously developed for qualified urban uses; or

(B) The parcels immediately adjacent to the project site are developed with qualified urban uses.

(C) The project site has not been developed for urban uses and all of the following conditions are met:

1. No parcel within the site has been created within 10 years prior to the proposed development of the site.

2. At least 75 percent of the perimeter of the site adjoins parcels that are developed with qualified urban uses.

3. The existing remaining 25 percent of the perimeter of the site adjoins parcels that have previously been developed for qualified urban uses.

(d) The project meets both of the following requirements regarding provision of affordable housing.

(1) The project consists of the construction, conversion, or use of residential housing consisting of 100 or fewer units that are affordable to low–income households.

(2) The developer of the project provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for lower income households for a period of at least 30 years, at monthly housing costs deemed to be "affordable rent" for lower income, very low income, and extremely low income households, as determined pursuant to Section 50053 of the Health and Safety Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21159.23, Public Resources Code.

HISTORY

1. New section filed 7–27–2007; operative 7–27–2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15195. Residential Infill Exemption.

(a) Except as set forth in subdivision (b), CEQA does not apply to any development project that meets the following criteria:

(1) The project meets the threshold criteria set forth in section 15192; provided that with respect to the requirement in section 15192(b) regarding community–level environmental review, such review must be certified or adopted within five years of the date that the lead agency deems the application for the project to be complete pursuant to Section 65943 of the Government Code.

(2) The project meets both of the following size criteria:

(A) The site of the project is not more than four acres in total area.

(B) The project does not include any single level building that exceeds 100,000 square feet.

(3) The project meets both of the following requirements regarding location:

(A) The project is a residential project on an infill site.

(B) The project is within one–half mile of a major transit stop.

(4) The project meets both of the following requirements regarding number of units:

(A) The project does not contain more than 100 residential units.

(B) The project promotes higher density infill housing. The lead agency may establish its own criteria for determining whether the project promotes higher density infill housing except in either of the following two circumstances:

1. A project with a density of at least 20 units per acre is conclusively presumed to promote higher density infill housing.

2. A project with a density of at least 10 units per acre and a density greater than the average density of the residential properties within 1,500 feet shall be presumed to promote higher density infill housing unless the preponderance of the evidence demonstrates otherwise.

(5) The project meets the following requirements regarding availability of affordable housing: The project would result in housing units being made available to moderate, low or very low income families as set forth in either A or B below:

(A) The project meets one of the following criteria, and the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units as set forth below at monthly housing costs determined pursuant to paragraph (3) of subdivision (h) of Section 65589.5 of the Government Code.

1. At least 10 percent of the housing is sold to families of moderate income, or

2. Not less than 10 percent of the housing is rented to families of low income, or

3. Not less than 5 percent of the housing is rented to families of very low income.

(B) If the project does not result in housing units being available as set forth in subdivision (A) above, then the project developer has paid or will pay in–lieu fees pursuant to a local ordinance in an amount sufficient to result in the development of an equivalent number of units that would otherwise be required pursuant to subparagraph (A).

(b) A project that otherwise meets the criteria set forth in subdivision (a) is not exempt from CEQA if any of the following occur:

(1) There is a reasonable possibility that the project will have a project–specific, significant effect on the environment due to unusual circumstances.

(2) Substantial changes with respect to the circumstances under which the project is being undertaken that are related to the project have occurred since community–level environmental review was certified or adopted.

(3) New information becomes available regarding the circumstances under which the project is being undertaken and that is related to the project that was not known, and could not have been known at the time that community-level environmental review was certified or adopted.

If a project is not exempt from CEQA due to subdivision (b), the analysis of the environmental effects of the project covered in the EIR or the negative declaration shall be limited to an analysis of the project-specific effect of the projects and any effects identified pursuant to subdivisions (b)(2) and (3).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21159.24, Public Resources Code.

HISTORY

1. New section filed 7-27-2007; operative 7-27-2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

§ 15196. Notice of Exemption for Agricultural Housing, Affordable Housing, and Residential Infill Projects.

(a) When a local agency determines that a project is not subject to CEQA under Section 15193, 15194, or 15195, and it approves or determines to carry out that project, the local agency or person seeking project approval shall file the notice required by Section 21152.1 of the Public Resources Code, pursuant to Section 15062.

(b) Failure to file the notice required by this section does not affect the validity of a project.

(c) Nothing in this section affects the time limitations contained in Section 21167.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: 21152.1, Public Resources Code.

HISTORY

1. New section filed 7-27-2007; operative 7-27-2007 pursuant to Public Resources Code section 21083(f) (Register 2007, No. 30).

Article 13. Review and Evaluation of EIRs and Negative Declarations

§ 15200. Purposes of Review.

The purposes of review of EIRs and negative declarations include:

(a) Sharing expertise,

(b) Disclosing agency analyses,

(c) Checking for accuracy,

(d) Detecting omissions,

(e) Discovering public concerns, and

(f) Soliciting counter proposals.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21000, 21108 and 21152, Public Resources Code; *Environmental Defense Fund* v. *Coastside County Water District* (1972) 27 Cal. App. 3d 695; *County of Inyo* v. *City of Los Angeles* (1977) 71 Cal. App. 3d 185.

HISTORY

1. New Article 13 (Sections 15201-15203) filed 2-2-78; effective thirtieth day thereafter (Register 78, No. 5).
2. Repealer of Article 13 (Sections 15201-15203) and new Article 13 (Sections 15200-15209) filed 7-13-83; effective thirtieth day thereafter (Register 83, No. 29).
3. Editorial correction of 7-13-83 order redesignating effective date to 8-1-83 filed 7-14-83 (Register 83, No. 29).
4. Change without regulatory effect amending NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15201. Public Participation.

Public participation is an essential part of the CEQA process. Each public agency should include provisions in its CEQA procedures for wide public involvement, formal and informal, consistent with its existing activities and procedures, in order to receive and evaluate public reactions to environmental issues related to the agency's activities. Such procedures should include, whenever possible, making environmental information available in electronic format on the Internet, on a web site maintained or utilized by the public agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000, 21082, 21108 and 21152, Public Resources Code; *Environmental Defense Fund v. Coastside County Water District* (1972) 27 Cal. App. 3d 695; *People* v. *County of Kern* (1974) 39 Cal. App. 3d 830; *County of Inyo* v. *City of Los Angeles* (1977) 71 Cal. App. 3d 185.

HISTORY

1. Amendment filed 10-26-98; operative 10-26-98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10-6-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15202. Public Hearings.

(a) CEQA does not require formal hearings at any stage of the environmental review process. Public comments may be restricted to written communications.

(b) If an agency provides a public hearing on its decision to carry out or approve a project, the agency should include environmental review as one of the subjects for the hearing.

(c) A public hearing on the environmental impact of a project should usually be held when the lead agency determines it would facilitate the purposes and goals of CEQA to do so. The hearing may be held in conjunction with and as a part of normal planning activities.

(d) A draft EIR or negative declaration should be used as a basis for discussion at a public hearing. The hearing may be held at a place where public hearings are regularly conducted by the lead agency or at another location expected to be convenient to the public.

(e) Notice of all public hearings shall be given in a timely manner. This notice may be given in the same form and time as notice for other regularly conducted public hearings of the public agency. To the extent that the public agency maintains an Internet web site, notice of all public hearings should be made available in electronic format on that site.

(f) A public agency may include, in its implementing procedures, procedures for the conducting of public hearings pursuant to this section.

[The next page is 705.]

The procedures may adopt existing notice and hearing requirements of the public agency for regularly conducted legislative, planning, and other activities.

(g) There is no requirement for a public agency to conduct a public hearing in connection with its review of an EIR prepared by another public agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21000, 21082, 21108 and 21152, Public Resources Code; *Concerned Citizens of Palm Desert, Inc.* v. *Board of Supervisors* (1974) 38 Cal. App. 3d 272.

HISTORY

1. Amendment of subsection (e) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15203. Adequate Time for Review and Comment.

The lead agency shall provide adequate time for other public agencies and members of the public to review and comment on a draft EIR or negative declaration that it has prepared.

(a) Public agencies may establish time periods for review in their implementing procedures and shall notify the public and reviewing agencies of the time for receipt of comments on EIRs. These time periods shall be consistent with applicable statutes, the State CEQA Guidelines, and applicable clearinghouse review periods.

(b) A review period for an EIR does not require a halt in other planning or evaluation activities related to a project. Planning should continue in conjunction with environmental evaluation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21082, 21108 and 21152, Public Resources Code. Formerly Sections 15160(a) and (e).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15204. Focus of Review.

(a) In reviewing draft EIRs, persons and public agencies should focus on the sufficiency of the document in identifying and analyzing the possible impacts on the environment and ways in which the significant effects of the project might be avoided or mitigated. Comments are most helpful when they suggest additional specific alternatives or mitigation measures that would provide better ways to avoid or mitigate the significant environmental effects. At the same time, reviewers should be aware that the adequacy of an EIR is determined in terms of what is reasonably feasible, in light of factors such as the magnitude of the project at issue, the severity of its likely environmental impacts, and the geographic scope of the project. CEQA does not require a lead agency to conduct every test or perform all research, study, and experimentation recommended or demanded by commentors. When responding to comments, lead agencies need only respond to significant environmental issues and do not need to provide all information requested by reviewers, as long as a good faith effort at full disclosure is made in the EIR.

(b) In reviewing negative declarations, persons and public agencies should focus on the proposed finding that the project will not have a significant effect on the environment. If persons and public agencies believe that the project may have a significant effect, they should:

(1) Identify the specfic effect,

(2) Explain why they believe the effect would occur, and

(3) Explain why they believe the effect would be significant.

(c) Reviewers should explain the basis for their comments, and should submit data or references offering facts, reasonable assumptions based on facts, or expert opinion supported by facts in support of the comments. Pursuant to Section 15064, an effect shall not be considered significant in the absence of substantial evidence.

(d) Reviewing agencies or organizations should include with their comments the name of a contact person who would be available for later consultation if necessary. Each responsible agency and trustee agency shall focus its comments on environmental information germane to that agency's statutory responsibility.

(e) This section shall not be used to restrict the ability of reviewers to comment on the general adequacy of a document or of the lead agency to reject comments not focused as recommended by this section.

(f) Prior to the close of the public review period for an EIR or mitigated negative declaration, a responsible or trustee agency which has identified significant effects on the environment may submit to the lead agency proposed mitigation measures which would address those significant effects. Any such measures shall be limited to impacts affecting those resources which are subject to the statutory authority of that agency. If mitigation measures are submitted, the responsible or trustee agency shall either submit to the lead agency complete and detailed performance objectives for the mitigation measures, or shall refer the lead agency to appropriate, readily available guidelines or reference documents which meet the same purpose.

County of Stanislaus* (1996) 42 Cal.App.4th 608; and *Leonoff v. Monterey County Board of Supervisors* (1990) 222 Cal.App.3d 1337.

HISTORY

1. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15205. Review by State Agencies.

(a) Draft EIRs and negative declarations to be reviewed by state agencies shall be submitted to the State Clearinghouse, 1400 Tenth Street, Sacramento, California 95814. For U.S. Mail, submit to P.O. Box 3044, Sacramento, California 95812–3044. When submitting such documents to the State Clearinghouse, the public agency shall include, in addition to the printed copy, a copy of the document in electronic form on a diskette or by electronic mail transmission, if available.

(b) The following environmental documents shall be submitted to the State Clearinghouse for review by state agencies:

(1) Draft EIRs and negative declarations prepared by a state agency where such agency is a lead agency.

(2) Draft EIRs and negative declarations prepared by a public agency where a state agency is a responsible agency, trustee agency, or otherwise has jurisdiction by law with respect to the project.

(3) Draft EIRs and negative declarations on projects identified in Section 15206 as being of statewide, regional, or areawide significance.

(4) Draft EIRs, environmental assessments, and findings of no significant impact prepared pursuant to NEPA, the Federal Guidelines (Title 40 CFR, Part 1500, commencing with Section 1500.1).

(c) Public agencies may send environmental documents to the State Clearinghouse for review where a state agency has special expertise with regard to the environmental impacts involved. The areas of statutory authorities of state agencies are identified in Appendix B. Any such environmental documents submitted to the State Clearinghouse shall include, in addition to the printed copy, a copy of the document in electronic format, on a diskette or by electronic mail transmission, if available.

(d) When an EIR or negative declaration is submitted to the State Clearinghouse for review, the review period set by the lead agency shall be at least as long as the period provided in the state review system operated by the State Clearinghouse. In the state review system, the normal review period is 45 days for EIRs and 30 days for negative declarations. In exceptional circumstances, the State Clearinghouse may set shorter review periods when requested by the lead agency.

(e) A sufficient number of copies of an EIR, negative declaration, or mitigated negative declaration, shall be submitted to the State Clearinghouse for review and comment by state agencies. The notice of completion form required by the State Clearinghouse must be submitted together with the copies of the EIR and may be submitted together with the copies of the negative declaration or mitigated negative declaration. The notice of completion form required by the State Clearinghouse is included in Appendix C. If the lead agency uses the on–line process for submittal of the notice of completion form to the State Clearinghouse, the form gener-

ated from the Internet shall satisfy this requirement (refer to www.ceqanet.ca.gov).

(f) While the lead agency is encouraged to contact the regional and district offices of state responsible agencies, the lead agency must, in all cases, submit documents to the State Clearinghouse for distribution in order to comply with the review requirements of this section.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083, 21091, 21104 and 21153, Public Resources Code.

HISTORY

1. Amendment of subsections (a) and (c) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending subsection (a) and NOTE filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Amendment of subsection (e) and amendment of NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15206. Projects of Statewide, Regional, or Areawide Significance.

(a) Projects meeting the criteria in this section shall be deemed to be of statewide, regional, or areawide significance.

(1) A draft EIR or negative declaration prepared by any public agency on a project described in this section shall be submitted to the State Clearinghouse and should be submitted also to the appropriate metropolitan area council of governments for review and comment. The notice of completion form required by the State Clearinghouse must be submitted together with the copies of the EIR and may be submitted together with the copies of the negative declaration. The notice of completion form required by the State Clearinghouse is included in Appendix C. If the lead agency uses the on–line process for submittal of the notice of completion form to the State Clearinghouse, the form generated from the Internet shall satisfy this requirement (refer to www.ceqanet.ca.gov).

(2) When such documents are submitted to the State Clearinghouse, the public agency shall include, in addition to the printed copy, a copy of the document in electronic format on a diskette or by electronic mail transmission, if available.

(b) The lead agency shall determine that a proposed project is of statewide, regional, or areawide significance if the project meets any of the following criteria:

(1) A proposed local general plan, element, or amendment thereof for which an EIR was prepared. If a negative declaration was prepared for the plan, element, or amendment, the document need not be submitted for review.

(2) A project has the potential for causing significant effects on the environment extending beyond the city or county in which the project would be located. Examples of the effects include generating significant amounts of traffic or interfering with the attainment or maintenance of state or national air quality standards. Projects subject to this subdivision include:

(A) A proposed residential development of more than 500 dwelling units.

(B) A proposed shopping center or business establishment employing more than 1,000 persons or encompassing more than 500,000 square feet of floor space.

(C) A proposed commercial office building employing more than 1,000 persons or encompassing more than 250,000 square feet of floor space.

(D) A proposed hotel/motel development of more than 500 rooms.

(E) A proposed industrial, manufacturing, or processing plant, or industrial park planned to house more than 1,000 persons, occupying more than 40 acres of land, or encompassing more than 650,000 square feet of floor area.

(3) A project which would result in the cancellation of an open space contract made pursuant to the California Land Conservation Act of 1965 (Williamson Act) for any parcel of 100 or more acres.

(4) A project for which an EIR and not a negative declaration was prepared which would be located in and would substantially impact the following areas of critical environmental sensitivity:

(A) The Lake Tahoe Basin.

(B) The Santa Monica Mountains Zone as defined by Section 33105 of the Public Resources Code.

(C) The California Coastal Zone as defined in, and mapped pursuant to, Section 30103 of the Public Resources Code.

(D) An area within 1/4 mile of a wild and scenic river as defined by Section 5093.5 of the Public Resources Code.

(E) The Sacramento–San Joaquin Delta, as defined in Water Code Section 12220.

(F) The Suisun Marsh as defined in Public Resources Code Section 29101.

(G) The jurisdiction of the San Francisco Bay Conservation and Development Commission as defined in Government Code Section 66610.

(5) A project which would substantially affect sensitive wildlife habitats including but not limited to riparian lands, wetlands, bays, estuaries, marshes, and habitats for endangered, rare and threatened species as defined by Section 15380 of this Chapter.

(6) A project which would interfere with attainment of regional water quality standards as stated in the approved areawide waste treatment management plan.

(7) A project which would provide housing, jobs, or occupancy for 500 or more people within 10 miles of a nuclear power plant.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference. Section 21083, Public Resources Code.

HISTORY

1. Amendment of subsection (b)(5) filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. New subsection (a)(1) designator and new subsection (a)(2) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsection (b)(4)(B) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
4. Amendment of subsection (a)(1) and amendment of NOTE filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
5. Change without regulatory effect amending subsection (b)(2) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15207. Failure to Comment.

If any public agency or person who is consulted with regard to an EIR or negative declaration fails to comment within a reasonable time as specified by the lead agency, it shall be assumed, absent a request for a specific extension of time, that such agency or person has no comment to make. Although the lead agency need not respond to late comments, the lead agency may choose to respond to them.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21104 and 21153, Public Resources Code; *Cleary* v. *County of Stanislaus* (1981) 118 Cal. App. 3d 348. Formerly Section 15162.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15208. Retention and Availability of Comments.

Comments received through the consultation process shall be retained for a reasonable period and available for public inspection at an address given in the final EIR. Comments which may be received on a draft EIR or negative declaration under preparation shall also be considered and kept on file.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21104, 21082.1 and 21153, Public Resources Code; Section 4, Chapter 480, Statutes of 1981; *People* v. *County of Kern* (1974) 39 Cal. App. 3d 830.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15209. Comments on Initiative of Public Agencies.

Every public agency may comment on environmental documents dealing with projects which affect resources with which the agency has

special expertise regardless of whether its comments were solicited or whether the effects fall within the legal jurisdiction of the agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21104 and 21153, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 14. Projects Also Subject to the National Environmental Policy Act (NEPA)

§ 15220. General.

This article applies to projects that are subject to both CEQA and NEPA. NEPA applies to projects which are carried out, financed, or approved in whole or in part by federal agencies. Accordingly, this article applies to projects which involve one or more state or local agencies and one or more federal agencies.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5, 21083.6 and 21083.7, Public Resources Code; National Environmental Policy Act of 1969, Public Law 91–190 as amended, 42 U.S.C.A. 4321–4347; NEPA Regulations, 40 Code of Federal Regulations (C.F.R.) Parts 1500–1508.

HISTORY

1. New Article 14 (Sections 15220–15228) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15221. NEPA Document Ready Before CEQA Document.

(a) When a project will require compliance with both CEQA and NEPA, state or local agencies should use the EIS or finding of no significant impact rather than preparing an EIR or negative declaration if the following two conditions occur:

(1) An EIS or finding of no significant impact will be prepared before an EIR or negative declaration would otherwise be completed for the project; and

(2) The EIS or finding of no significant impact complies with the provisions of these guidelines.

(b) Because NEPA does not require separate discussion of mitigation measures or growth inducing impacts, these points of analysis will need to be added, supplemented, or identified before the EIS can be used as an EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5 and 21083.7, Public Resources Code; Section 102(2)(C) of NEPA, 43 U.S.C.A. 4322(2)(C).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15222. Preparation of Joint Documents.

If a lead agency finds that an EIS or finding of no significant impact for a project would not be prepared by the federal agency by the time when the lead agency will need to consider an EIR or negative declaration, the lead agency should try to prepare a combined EIR–EIS or negative declaration–finding of no significant impact. To avoid the need for the federal agency to prepare a separate document for the same project, the lead agency must involve the federal agency in the preparation of the joint document. This involvement is necessary because federal law generally prohibits a federal agency from using an EIR prepared by a state agency unless the federal agency was involved in the preparation of the document.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5 and 21083.7, Public Resources Code; Section 102(2)(D) of NEPA, 43 U.S.C.A. 4322 (2)(D); 40 C.F.R. Part 1506.2.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15223. Consultation with Federal Agencies.

When it plans to use an EIS or finding of no significant impact or to prepare such a document jointly with a federal agency, the lead agency shall consult as soon as possible with the federal agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5 and 21083.7, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15224. Time Limits.

Where a project will be subject to both CEQA and the National Environmental Policy Act, the one year time limit and the 105 day time limit may be waived pursuant to Section 15110.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083.6, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15225. Circulation of Documents.

(a) Where the federal agency circulated the EIS or finding of no significant impact for public review as broadly as state or local law may require and gave notice meeting the standards in Section 15072(a) or 15087(a), the lead agency under CEQA may use the federal document in the place of an EIR or negative declaration without recirculating the federal document for public review. One review and comment period is enough. Prior to using the federal document in this situation, the lead agency shall give notice that it will use the federal document in the place of an EIR or negative declaration and that it believes that the federal document meets the requirements of CEQA. The notice shall be given in the same manner as a notice of the public availability of a draft EIR under Section 15087.

(b) If an EIS has been prepared and filed pursuant to NEPA on the closure and reuse of a military base and the Lead Agency decides that the EIS does not fully meet the requirements of CEQA or has not been circulated for public review as state and local law may require, the Lead Agency responsible for preparation of an EIR for a reuse plan for the same base may proceed in the following manner:

(1) Prepare and circulate a notice of preparation pursuant to Section 15082. The notice shall include a description of the reuse plan, a copy of the EIS, an address to which to send comments, and the deadline for submitting comments. The notice shall state that the lead agency intends to utilize the EIS as a draft EIR and requests comments on whether the EIS provides adequate information to serve as a draft EIR and what specific additional information, if any, is necessary.

(2) Upon the close of the comment period, the lead agency may proceed with preparation and circulation for comment of the draft EIR for the reuse plan. To the greatest extent feasible, the lead agency shall avoid duplication and utilize the EIS or information in the EIS as all or part of the draft EIR. The EIR shall be completed in compliance with the provisions of CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5 and 21092, Public Resources Code.

HISTORY

1. New subsection (a) designator, new subsections (b)–(b)(2), and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15226. Joint Activities.

State and local agencies should cooperate with federal agencies to the fullest extent possible to reduce duplication between the California Environmental Quality Act and the National Environmental Policy Act. Such cooperation should, to the fullest extent possible, include:

(a) Joint planning processes,

(b) Joint environmental research and studies,

(c) Joint public hearings,

(d) Joint environmental documents.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5 and 21083.7, Public Resources Code; 40 C.F.R. Part 1506.2.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15227. State Comments on a Federal Project.

When a state agency officially comments on a proposed federal project which may have a significant effect on the environment, the comments shall include or reference a discussion of the material specified in Section 15126. An EIS on the federal project may be referenced to meet the requirements of this section.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21101, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15228. Where Federal Agency Will Not Cooperate.

Where a federal agency will not cooperate in the preparation of joint document and will require separate NEPA compliance for the project at a later time, the state or local agency should persist in efforts to cooperate with the federal agency. Because NEPA expressly allows federal agencies to use environmental documents prepared by an agency of statewide jurisdiction, a local agency should try to involve a state agency in helping prepare an EIR or negative declaration for the project. In this way there will be a greater chance that the federal agency may later use the CEQA document and not require the applicant to pay for preparation of a second document to meet NEPA requirements at a later time.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083.5, Public Resources Code; Section 102(2)(D) of NEPA, 42 U.S.C.A. 4322(2)(D).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15229. Baseline Analysis for Military Base Reuse Plan EIRs.

When preparing and certifying an EIR for a plan for the reuse of a military base, including when utilizing an Environmental Impact Statement pursuant to Section 21083.5 of the Public Resources Code, the determination of whether the reuse plan may have a significant effect on the environment may, at the discretion of the lead agency, be based upon the physical conditions which were present at the time that the federal decision for the closure or realignment of the base or reservation became final. These conditions shall be referred to as the "baseline physical conditions." Impacts which do not exceed the baseline physical conditions shall not be considered significant.

(a) Prior to circulating a draft EIR pursuant to the provisions of this Section, the lead agency shall do all of the following, in order:

(1) Prepare proposed baseline physical conditions, identify pertinent responsible and trustee agencies and consult with those agencies prior to the public hearing required by subdivision (a)(2) as to the application of their regulatory authority and permitting standards to the proposed baseline physical conditions, the proposed reuse plan, and specific, planned future nonmilitary land uses of the base or reservation. The affected agencies shall have not less than 30 days prior to the public hearing to review the proposed baseline physical conditions and the proposed reuse plan and to submit their comments to the lead agency.

(2) Hold a public hearing at which is discussed the federal EIS prepared for, or being prepared for, the closure or realignment of the military base or reservation. The discussion shall include the significant effects on the environment, if any, examined in the EIS, potential methods of mitigating those effects, including feasible alternatives, and the mitigative effects of federal, state, and local laws applicable to future nonmilitary activities. Prior to the close of the hearing, the lead agency shall specify whether it will adopt any of the baseline physical conditions for the reuse plan EIR and identify those conditions. The lead agency shall specify particular baseline physical conditions, if any, which it will examine in greater detail than they were examined in the EIS. Notice of the hearing shall be given pursuant to Section 15087. The hearing may be continued from time to time.

(3) Prior to the close of the hearing, the lead agency shall do all of the following:

(A) Specify the baseline physical conditions which it intends to adopt for the reuse plan EIR, and specify particular physical conditions, if any, which it will examine in greater detail than were examined in the EIS.

(B) State specifically how it intends to integrate its discussion of the baseline physical conditions in the EIR with the reuse planning process, taking into account the adopted environmental standards of the community, including but not limited to, the adopted general plan, specific plan or redevelopment plan, and including other applicable provisions of adopted congestion management plans, habitat conservation or natural communities conservation plans, air quality management plans, integrated waste management plans, and county hazardous waste management plans.

(C) State the specific economic or social reasons, including but not limited to, new job creation, opportunities for employment of skilled workers, availability of low and moderate–income housing, and economic continuity which support selection of the baseline physical conditions.

(b) An EIR prepared under this section should identify any adopted baseline physical conditions in the environmental setting section. The baseline physical conditions should be cited in discussions of effects. The no–project alternative analyzed in an EIR prepared under this section shall discuss the conditions on the base as they exist at the time of preparation, as well as what could be reasonably expected to occur in the foreseeable future if the reuse plan were not approved, based on current plans and consistent with available infrastructure and services.

(c) All public and private activities taken pursuant to or in furtherance of a reuse plan for which an EIR was prepared and certified pursuant to this section shall be deemed to be a single project. A subsequent or supplemental EIR shall be required only if the lead agency determines that any of the circumstances described in Section 15162 or 15163 exist.

(d) Limitations:

(1) Nothing in this section shall in any way limit the scope of review or determination of significance of the presence of hazardous or toxic wastes, substances, and materials, including but not limited to, contaminated soils and groundwater. The regulation of hazardous or toxic wastes, substances, and materials shall not be constrained by this section.

(2) This section does not apply to hazardous waste regulation and remediation projects undertaken pursuant to Chapter 6.5 (commencing with Section 25100) or Chapter 6.8 (commencing with Section 25300) of Division 20 of the Health and Safety Code or pursuant to the Porter–Cologne Water Quality Control Act (Water Code Section 13000, et seq.)

(3) All subsequent development at the military base or reservation shall be subject to all applicable federal, state, or local laws, including but not limited to, those relating to air quality, water quality, traffic, threatened and endangered species, noise, and hazardous or toxic wastes, substances, or materials.

(e) "Reuse plan" means the initial plan for the reuse of military base adopted by a local government, including a redevelopment agency or joint powers authority, in the form of a general plan, general plan amendment, specific plan, redevelopment plan, or other planning document. For purposes of this section, a reuse plan also shall include a statement of development policies, a diagram or diagrams illustrating its provisions, including a designation of the proposed general distribution, location, and development intensity for housing, business, industry, open space, recreation, natural resources, public buildings and grounds, roads, and other transportation facilities, infrastructure, and other categories of proposed uses, whether public or private.

(f) This section may be applied to any reuse plan EIR for which a notice of preparation is issued within one year from the date that the federal record of decision was rendered for the military base or reservation closure or realignment and reuse, or prior to January 1, 1997, whichever is later, but only if the EIR is completed and certified within five years from the date that the federal record of decision was rendered.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083.8.1, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending first paragraph and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 15. Litigation

§ 15230. Time Limits and Criteria.

Litigation under CEQA must be handled under the time limits and criteria described in Sections 21167 et seq. of the Public Resources Code and Section 15112 of these guidelines in addition to provisions in this article.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21167 et seq., Public Resources Code.

HISTORY

1. New Article 15 (Sections 15230–15233) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15231. Adequacy of EIR or Negative Declaration for Use by Lead and Responsible Agencies.

A final EIR prepared by a lead agency or a negative declaration adopted by a lead agency shall be conclusively presumed to comply with CEQA for purposes of use by responsible agencies which were consulted pursuant to Sections 15072 or 15082 unless one of the following conditions occurs:

(a) The EIR or negative declaration is finally adjudged in a legal proceeding not to comply with the requirements of CEQA, or

(b) A subsequent EIR is made necessary by Section 15162 of these guidelines.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.1, 21166, 21167.2 and 21167.3, Public Resources Code.

HISTORY

1. Amendment of section heading filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15232. Request for Hearing.

In a writ of mandate proceeding challenging approval of a project under CEQA, the petitioner shall, within 90 days of filing the petition, request a hearing or otherwise be subject to dismissal on the court's own motion or on the motion of any party to the suit.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21167.4, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15233. Conditional Permits.

If a lawsuit is filed challenging an EIR or negative declaration for noncompliance with CEQA, responsible agencies shall act as if the EIR or negative declaration complies with CEQA and continue to process the application for the project according to the time limits for responsible agency action contained in Government Code Section 65952.

(a) If an injunction or a stay has been granted in the lawsuit prohibiting the project from being carried out, the responsible agency shall have authority only to disapprove the project or to grant a conditional approval of the project. A conditional approval shall constitute permission to proceed with a project only when the court action results in a final determination that the EIR or negative declaration does comply with the provisions of CEQA (Public Resources Code Section 21167.3a).

(b) If no injunction or stay is granted in the lawsuit, the responsible agency shall assume that the EIR or negative declaration fully meets the requirements of CEQA. The responsible agency shall approve or disapprove the project within the time limits described in Article 8, commencing with Section 15100, of these guidelines and described in Government Code Section 65952. An approval granted by a responsible agency in this situation provides only permission to proceed with the project at the applicant's risk prior to a final decision in the lawsuit (Public Resources Code Section 21167.3b).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21167.3, Public Resources Code; *Kriebel* v. *City Council* (1980) 112 Cal. App. 3d 693.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 16. EIR Monitor

§ 15240. EIR Monitor.

The Secretary for Resources may provide for publication of a bulletin entitled "California EIR Monitor" on a subscription basis to provide public notice of amendments to the guidelines, the completion of draft EIRs, and other matters as deemed appropriate. Inquiries and subscription requests should be sent to the following address:

SECRETARY FOR RESOURCES
ATTENTION: CALIFORNIA EIR MONITOR
1416 NINTH STREET, ROOM 1311
SACRAMENTO, CALIFORNIA 95814

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21088, Public Resources Code.

HISTORY

1. New Article 16 (Section 15240) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 17. Exemption for Certified State Regulatory Programs

§ 15250. General.

Section 21080.5 of the Public Resources Code provides that a regulatory program of a state agency shall be certified by the Secretary for Resources as being exempt from the requirements for preparing EIRs, negative declarations, and initial studies if the Secretary finds that the program meets the criteria contained in that code section. A certified program remains subject to other provisions in CEQA such as the policy of avoiding significant adverse effects on the environment where feasible. This article provides information concerning certified programs.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.5, Public Resources Code.

HISTORY

1. New Article 17 (Sections 15250–15253) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15251. List of Certified Programs.

The following programs of state regulatory agencies have been certified by the Secretary for Resources as meeting the requirements of Section 21080.5:

(a) The regulation of timber harvesting operations by the California Department of Forestry and the State Board of Forestry pursuant to Chapter 8, commencing with Section 4511 of Part 2 of Division 4 of the Public Resources Code.

(b) The regulatory program of the Fish and Game Commission pursuant to the Fish and Game Code.

(c) The regulatory program of the California Coastal Commission and the regional coastal commissions dealing with the consideration and granting of coastal development permits under the California Coastal Act of 1976, Division 20 (commencing with Section 30000) of the Public Resources Code.

(d) That portion of the regulatory program of the Air Resources Board which involves the adoption, approval, amendment, or repeal of standards, rules, regulations, or plans to be used in the regulatory program for the protection and enhancement of ambient air quality in California.

(e) The regulatory program of the State Board of Forestry in adopting, amending, or repealing standards, rules, regulations, or plans under the Z'berg–Nejedly Forest Practice Act, Chapter 8 (commencing with Section 4511) of Part 2 of Division 4 of the Public Resources Code.

(f) The program of the California Coastal Commission involving the preparation, approval, and certification of local coastal programs as provided in Sections 30500 through 30522 of the Public Resources Code.

(g) The Water Quality Control (Basin)/208 Planning Program of the State Water Resources Control Board and the Regional Water Quality Control Boards.

(h) The permit and planning programs of the San Francisco Bay Conservation and Development Commission under the McAteer–Petris Act, Title 7.2 (commencing with Section 66600) of the Government Code; and the planning program of the San Francisco Bay Conservation and Development Commission under the Suisun Marsh Preservation Act, Division 19 (commencing with Section 29000) of the Public Resources Code.

(i) The pesticide regulatory program administered by the Department of Pesticide Regulation and the county agricultural commissioners insofar as the program consists of:

(1) The registration, evaluation, and classification of pesticides.

(2) The adoption, amendment, or repeal of regulations and standards for the licensing and regulation of pesticide dealers and pest control operators and advisors.

(3) The adoption, amendment, or repeal of regulations for standards dealing with the monitoring of pesticides and of the human health and environmental effects of pesticides.

(4) The regulation of the use of pesticides in agricultural and urban areas of the state through the permit system administered by the county agricultural commissioners.

(j) The power plant site certification program of the State Energy Resources Conservation and Development Commission under Chapter 6 of the Warren–Alquist Act, commencing with Public Resources Code Section 25500.

(k) The regulatory program of the State Water Resources Control Board to establish instream beneficial use protection programs.

(*l*) That portion of the regulatory program of the South Coast Air Quality Management District which involves the adoption, amendment, and repeal of regulations pursuant to the provisions of the Health and Safety Code.

(m) The program of the Delta Protection Commission involving the preparation and adoption of a Resource Management Plan for the Sacramento–San Joaquin Delta (Pub. Resources Code § 29760 ff.), and the Commission's review and action on general plan amendments proposed by local governments to make their plans consistent with the provisions of the Commission's Resource Management Plan (Pub. Resources Code § 29763.5).

(n) The program of the Department of Fish and Game for the adoption of regulations under the Fish and Game Code.

(o) The program of the Department of Fish and Game implementing the incidental take permit application process under the California Endangered Species Act ("CESA"), Fish and Game Code sections 2080 and 2081, and specifically the regulation governing the Department of Fish and Game's role as a "lead agency" when issuing incidental take permits, found at California Code of Regulations, Title 14, section 783.5(d).

(p) The regulatory program of the Department of Fish and Game for review and approval of voluntary local programs for routine and ongoing agricultural activities, as authorized by the California Endangered Species Act, Fish and Game Code section 2086.

NOTE: Authority cited: Sections 21083 and 21080.5, Public Resources Code. Reference: Section 21080.5, Public Resources Code.

HISTORY

1. New subsection (m) filed 3–1–89; operative 3–31–89 (Register 89, No. 10).
2. New subsection (n) filed 11–9–94; operative 12–9–94 (Register 94, No. 45).
3. New subsection (o) filed 8–27–98; operative 8–27–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 35).
4. New subsection (p) and amendment of NOTE filed 3–29–99; operative 3–29–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 14).
5. Change without regulatory effect amending subsection (i) and NOTE filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
6. New subsection (q) filed 3–4–2003; operative 3–4–2003 pursuant to Public Resources Code section 21083 (Register 2003, No. 10).
7. Amendment of subsection (h), repealer of subsection (j) and subsection relettering filed 7–11–2006; operative 7–11–2006 pursuant to Public Resources Code section 21083 (Register 2006, No. 28).

§ 15252. Substitute Document.

(a) The document used as a substitute for an EIR or negative declaration in a certified program shall include at least the following items:

(1) A description of the proposed activity, and

(2) Either:

(A) Alternatives to the activity and mitigation measures to avoid or reduce any significant or potentially significant effects that the project might have on the environment, or

(B) A statement that the agency's review of the project showed that the project would not have any significant or potentially significant effects on the environment and therefore no alternatives or mitigation measures are proposed to avoid or reduce any significant effects on the environment. This statement shall be supported by a checklist or other documentation to show the possible effects that the agency examined in reaching this conclusion.

(b) The notice of the decision on the proposed activity shall be filed with the Secretary for Resources.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.5, Public Resources Code.

HISTORY

1. Redesignation of first paragraph and subsections (a)–(b)(2) as subsections (a)–(a)(2)(B) and new subsection (b) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15253. Use of an EIR Substitute by a Responsible Agency.

(a) An environmental analysis document prepared for a project under a certified program listed in Section 15251 shall be used by another agency granting an approval for the same project where the conditions in subdivision (b) have been met. In this situation, the certified agency shall act as lead agency, and the other permitting agencies shall act as responsible agencies using the certified agency's document.

(b) The conditions under which a public agency shall act as a responsible agency when approving a project using an environmental analysis document prepared under a certified program in the place of an EIR or negative declaration are as follows:

(1) The certified agency is the first agency to grant a discretionary approval for the project.

(2) The certified agency consults with the responsible agencies, but the consultation need not include the exchange of written notices.

(3) The environmental analysis document identifies:

(A) The significant environmental effects within the jurisdiction or special expertise of the responsible agency.

(B) Alternatives or mitigation measures that could avoid or reduce the severity of the significant environmental effects.

(4) Where written notices were not exchanged in the consultation process, the responsible agency was afforded the opportunity to participate in the review of the property by the certified agency in a regular manner designed to inform the certified agency of the concerns of the responsible agency before release of the EIR substitute for public review.

(5) The certified agency established a consultation period between the certified agency and the responsible agency that was at least as long as the period allowed for public review of the EIR substitute document.

(6) The certified agency exercised the powers of a lead agency by considering all the significant environmental effects of the project and making a finding under Section 15091 for each significant effect.

(c) Certified agencies are not required to adjust their activities to meet the criteria in subdivision (b). Where a certified agency does not meet the criteria in subdivision (b):

(1) The substitute document prepared by the agency shall not be used by other permitting agencies in the place of an EIR or negative declaration, and

(2) Any other agencies granting approvals for the project shall comply with CEQA in the normal manner. A permitting agency shall act as a lead agency and prepare an EIR or a negative declaration. Other permitting agencies, if any, shall act as responsible agencies and use the EIR or negative declaration prepared by the lead agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002.1(d), 21080.5 and 21165, Public Resources Code.

HISTORY

1. Change without regulatory effect amending subsections (a) and (c) and amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 18. Statutory Exemptions

§ 15260. General.

This article describes the exemptions from CEQA granted by the Legislature. The exemptions take several forms. Some exemptions are complete exemptions from CEQA. Other exemptions apply to only part of the requirements of CEQA, and still other exemptions apply only to the timing of CEQA compliance.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b), Public Resources Code.

HISTORY

1. New Article 18 (Sections 15260–15277) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15261. Ongoing Project.

(a) If a project being carried out by a public agency was approved prior to November 23, 1970, the project shall be exempt from CEQA unless either of the following conditions exists:

(1) A substantial portion of public funds allocated for the project have not been spent, and it is still feasible to modify the project to mitigate potentially adverse environmental effects, or to choose feasible alternatives to the project, including the alternative of "no project" or halting the project; provided that a project subject to the National Environmental Policy Act (NEPA) shall be exempt from CEQA as an on–going project if, under regulations promulgated under NEPA, the project would be too far advanced as of January 1, 1970, to require preparation of an EIS.

(2) A public agency proposes to modify the project in such a way that the project might have a new significant effect on the environment.

(b) A private project shall be exempt from CEQA if the project received approval of a lease, license, certificate, permit, or other entitlement for use from a public agency prior to April 5, 1973, subject to the following provisions:

(1) CEQA does not prohibit a public agency from considering environmental factors in connection with the approval or disapproval of a project, or from imposing reasonable fees on the appropriate private person or entity for preparing an environmental report under authority other than CEQA. Local agencies may require environmental reports for projects covered by this paragraph pursuant to local ordinances during this interim period.

(2) Where a project was approved prior to December 5, 1972, and prior to that date the project was legally challenged for noncompliance with CEQA, the project shall be bound by special rules set forth in Section 21170 of CEQA.

(3) Where a private project has been granted a discretionary governmental approval for part of the project before April 5, 1973, and another or additional discretionary governmental approvals after April 5, 1973, the project shall be subject to CEQA only if the approval or approvals after April 5, 1973, involve a greater degree of responsibility or control over the project as a whole than did the approval or approvals prior to that date.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21169, 21170 and 21171, Public Resources Code; *County of Inyo* v. *Yorty*, 32 Cal. App. 3d 795.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15262. Feasibility and Planning Studies.

A project involving only feasibility or planning studies for possible future actions which the agency, board, or commission has not approved, adopted, or funded does not require the preparation of an EIR or negative declaration but does require consideration of environmental factors. This section does not apply to the adoption of a plan that will have a legally binding effect on later activities.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21102 and 21150, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15263. Discharge Requirements.

The State Water Resources Control Board and the regional boards are exempt from the requirement to prepare an EIR or a negative declaration prior to the adoption of waste discharge requirements, except requirements for new sources as defined in the Federal Water Pollution Control Act or in other acts which amend or supplement the Federal Water Pollution Control Act. The term "waste discharge requirements" as used in this section is the equivalent of the term "permits" as used in the Federal Water Pollution Control Act.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 13389, Water Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15264. Timberland Preserves.

Local agencies are exempt from the requirement to prepare an EIR or negative declaration on the adoption of timberland preserve zones under Government Code Sections 51100 et seq. (Gov. Code, Sec. 51119).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 51119, Government Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15265. Adoption of Coastal Plans and Programs.

(a) CEQA does not apply to activities and approvals pursuant to the California Coastal Act (commencing with Section 30000 of the Public Resources Code) by:

(1) Any local government, as defined in Section 30109 of the Public Resources Code, necessary for the preparation and adoption of a local coastal program, or

(2) Any state university or college, as defined in Section 30119, as necessary for the preparation and adoption of a long–range land use development plan.

(b) CEQA shall apply to the certification of a local coastal program or long–range land use development plan by the California Coastal Commission.

(c) This section shifts the burden of CEQA compliance from the local agency or the state university or college to the California Coastal Commission. The Coastal Commission's program of certifying local coastal programs and long–range land use development plans has been certified under Section 21080.5, Public Resources Code. See Section 15192.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.9, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15266. General Plan Time Extension.

CEQA shall not apply to the granting of an extension of time by the Office of Planning and Research to a city or county for the preparation and adoption of one or more elements of a city or county general plan.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.10(a), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15267. Financial Assistance to Low or Moderate Income Housing.

CEQA does not apply to actions taken by the Department of Housing and Community Development to provide financial assistance for the development and construction of residential housing for persons and families of low or moderate income, as defined in Section 50093 of the Health and Safety Code. The residential project which is the subject of the application for financial assistance will be subject to CEQA when approvals are granted by another agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.10(b), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15268. Ministerial Projects.

(a) Ministerial projects are exempt from the requirements of CEQA. The determination of what is "ministerial" can most appropriately be made by the particular public agency involved based upon its analysis of its own laws, and each public agency should make such determination either as a part of its implementing regulations or on a case–by–case basis.

(b) In the absence of any discretionary provision contained in the local ordinance or other law establishing the requirements for the permit, license, or other entitlement for use, the following actions shall be presumed to be ministerial:

(1) Issuance of building permits.

(2) Issuance of business licenses.

(3) Approval of final subdivision maps.

(4) Approval of individual utility service connections and disconnections.

(c) Each public agency should, in its implementing regulations or ordinances, provide an identification or itemization of its projects and actions which are deemed ministerial under the applicable laws and ordinances.

(d) Where a project involves an approval that contains elements of both a ministerial action and a discretionary action, the project will be deemed to be discretionary and will be subject to the requirements of CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(1), Public Resources Code; *Day* v. *City of Glendale*, 51 Cal. App. 3d 817.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15269. Emergency Projects.

The following emergency projects are exempt from the requirements of CEQA.

(a) Projects to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster stricken area in which a state of emergency has been proclaimed by the Governor pursuant to the California Emergency Services Act, commencing with Section 8550 of the Government Code. This includes projects that will remove, destroy, or significantly alter an historical resource when that resource represents an imminent threat to the public of bodily harm or of damage to adjacent property or when the project has received a determination by the State Office of Historic Preservation pursuant to Section 5028(b) of Public Resources Code.

(b) Emergency repairs to publicly or privately owned service facilities necessary to maintain service essential to the public health, safety or welfare.

(c) Specific actions necessary to prevent or mitigate an emergency. This does not include long–term projects undertaken for the purpose of preventing or mitigating a situation that has a low probability of occurrence in the short–term.

(d) Projects undertaken, carried out, or approved by a public agency to maintain, repair, or restore an existing highway damaged by fire, flood, storm, earthquake, land subsidence, gradual earth movement, or landslide, provided that the project is within the existing right of way of that highway and is initiated within one year of the damage occurring. This exemption does not apply to highways designated as official state scenic highways, nor any project undertaken, carried out, or approved by a public agency to expand or widen a highway damaged by fire, flood, storm, earthquake, land subsidence, gradual earth movement, or landslide.

(e) Seismic work on highways and bridges pursuant to Section180.2 of the Streets and Highways Code, Section 180 et seq.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(b)(2), (3), and (4), 21080.33 and 21172, Public Resources Code; *Castaic Lake Water Agency v. City of Santa Clarita* (1995) 41 Cal.App.4th 1257; and *Western Municipal Water District of Riverside County v. Superior Court of San Bernardino County* (1987) 187 Cal.App.3d 1104.

HISTORY

1. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15270. Projects Which Are Disapproved.

(a) CEQA does not apply to projects which a public agency rejects or disapproves.

(b) This section is intended to allow an initial screening of projects on the merits for quick disapprovals prior to the initiation f the CEQA process where the agency can determine that the project cannot be approved.

(c) This section shall not relieve an applicant from paying the costs for an EIR or negative declaration prepared for his project prior to the lead agency's disapproval of the project after normal evaluation and processing.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(5), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15271. Early Activities Related to Thermal Power Plants.

(a) CEQA does not apply to actions undertaken by a public agency relating to any thermal power plant site or facility, including the expenditure, obligation, or encumbrance of funds by a public agency for planning, engineering, or design purposes, or for the conditional sale or purchase of equipment, fuel, water (except groundwater), steam, or power for such a thermal power plant, if the thermal power plant site and related facility will be the subject of an EIR or negative declaration or other document or documents prepared pursuant to a regulatory program certified pursuant to Public Resources Code Section 21080.5, which will be prepared by:

(1) The State Energy Resources Conservation and Development Commission,

(2) The Public Utilities Commission, or

(3) The city or county in which the power plant and related facility would be located.

(b) The EIR, negative declaration, or other document prepared for the thermal power plant site or facility, shall include the environmental impact, if any, of the early activities described in this section.

(c) This section acts to delay the timing of CEQA compliance from the early activities of a utility to the time when a regulatory agency is re-

quested to approve the thermal power plant and shifts the responsibility for preparing the document to the regulatory agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 15080(b)(6), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15272. Olympic Games.

CEQA does not apply to activities or approvals necessary to the bidding for, hosting or staging of, and funding or carrying out of, Olympic Games under the authority of the International Olympic Committee, except for the construction of facilities necessary for such Olympic Games. If the facilities are required by the International Olympic Committee as a condition of being awarded the Olympic Games, the lead agency need not discuss the "no project" alternative in an EIR with respect to those facilities.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(7), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15273. Rates, Tolls, Fares, and Charges.

(a) CEQA does not apply to the establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, and other charges by public agencies which the public agency finds are for the purpose of:

(1) Meeting operating expenses, including employee wage rates and fringe benefits,

(2) Purchasing or leasing supplies, equipment, or materials,

(3)Meeting financial reserve needs and requirements,

(4) Obtaining funds for capital projects, necessary to maintain service within existing service areas, or

(5) Obtaining funds necessary to maintain such intra–city transfers as are authorized by city charter.

(b) Rate increases to fund capital projects for the expansion of a system remain subject to CEQA. The agency granting the rate increase shall act either as the lead agency if no other agency has prepared environmental documents for the capital project or as a responsible agency if another agency has already complied with CEQA as the lead agency.

(c) The public agency shall incorporate written findings in the record of any proceeding in which an exemption under this section is claimed setting forth with specificity the basis for the claim of exemption.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(8), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15274. Family Day Care Homes.

(a) CEQA does not apply to establishment or operation of a large family day care home, which provides in–home care for up to fourteen children, as defined in Section 1596.78 of the Health and Safety Code.

(b) Under the Health and Safety Code, local agencies cannot require use permits for the establishment or operation of a small family day care home, which provides in–home care for up to eight children, and the establishment or operation of a small family day care home is a ministerial action which is not subject to CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083, Public Resources Code.

HISTORY

1. Amendment of section heading, repealer and new section, and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending section filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15275. Specified Mass Transit Projects.

CEQA does not apply to the following mass transit projects:

(a) The institution or increase of passenger or commuter service on rail lines or high–occupancy vehicle lanes already in use, including the modernization of existing stations and parking facilities;

(b) Facility extensions not to exceed four miles in length which are required for transfer of passengers from or to exclusive public mass transit guideway or busway public transit services.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(11), (12), and (13), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15276. Transportation Improvement and Congestion Management Programs.

(a) CEQA does not apply to the development or adoption of a regional transportation improvement program or the state transportation improvement program. Individual projects developed pursuant to these programs shall remain subject to CEQA.

(b) CEQA does not apply to preparation and adoption of a congestion management program by a county congestion management agency pursuant to Government Code Section 65089, et seq.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(13), Public Resources Code.

HISTORY

1. Amendment of section heading, section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15277. Projects Located Outside California.

CEQA does not apply to any project or portion thereof located outside of California which will be subject to environmental impact review pursuant to the National Environmental Policy Act of 1969 or pursuant to a law of that state requiring preparation of a document containing essentially the same points of analysis as in an environmental impact statement prepared under the National Environmental Policy Act of 1969. Any emissions or discharges that would have a significant effect on the environment in the State of California are subject to CEQA where a California public agency has authority over the emissions or discharges.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(15), Public Resources Code; 58 Opinions of the California Attorney General 614 (S.O. 75/50).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15278. Application of Coatings.

(a) CEQA does not apply to a discretionary decision by an air quality management district for a project consisting of the application of coatings within an existing facility at an automotive manufacturing plant if the district finds all of the following:

(1) The project will not cause a net increase in any emissions of any pollutant for which a national or state ambient air quality standard has been established after the internal emission accounting for previous emission reductions achieved at the facility and recognized by the district.

(2) The project will not cause a net increase in adverse impacts of toxic air contaminants as determined by a health risk assessment. The term "net increase in adverse impacts of toxic air contaminants as determined by a health risk assessment" shall be determined in accordance with the rules and regulations of the district.

(3) The project will not cause any other adverse effect on the environment.

(b) The district shall provide a 10–day notice, at the time of the issuance of the permit, of any such exemption. Notice shall be published in two newspapers of general circulation in the area of the project and shall be mailed to any person who makes a written request for such a notice. The notice shall state that the complete file on the project and the basis for the district's findings of exemption are available for inspection and copying at the office of the district.

(c) Any person may appeal the issuance of a permit based on an exemption under subdivision (a) to the hearing board as provided in Section 42302.1 of the Health and Safety Code. The permit shall be revoked by the hearing board if there is substantial evidence in light of the whole record before the board that the project may not satisfy one or more of the criteria established pursuant to subdivision (a). If there is no such substantial evidence, the exemption shall be upheld. Any appeal under this subdivision shall be scheduled for hearing on the calendar of the hearing board within 10 working days of the appeal being filed. The hearing board shall give the appeal priority on its calendar and shall render a decision on the appeal within 21 working days of the appeal being filed. The hearing board may delegate the authority to hear and decide such an appeal to a subcommittee of its body.

2. Change without regulatory effect amending subsection (a) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Change without regulatory effect repealing section filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15281. Air Quality Permits.

CEQA does not apply to the issuance, modification, amendment, or renewal of any permit by an air pollution control district or air quality management district pursuant to Title V, as defined in Section 39053.3 of the Health and Safety Code, or pursuant to an air district Title V program established under Sections 42301.10, 42301.11, and 42301.12 of the Health and Safety Code, unless the issuance, modification, amendment, or renewal authorizes a physical or operational change to a source or facility.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15282. Other Statutory Exemptions

The following is a list of existing statutory exemptions. Each subdivision summarizes statutory exemptions found in the California Code. Lead agencies are not to rely on the language contained in the summaries below but must rely on the actual statutory language that creates the exemption. This list is intended to assist lead agencies in finding them, but not as a substitute for them. This section is merely a reference tool.

(a) The notification of discovery of Native American burial sites as set forth in Section 5097.98(c) of the Public Resources Code.

(b) Specified prison facilities as set forth in Sections 21080.01, 21080.02, 21080.03 and 21080.07 of the Public Resources Code.

(c) The lease or purchase of the rail right–of–way used for the San Francisco Peninsula commute service between San Francisco and San Jose as set forth in Section 21080.05 of the Public Resources Code.

(d) Any activity or approval necessary for or incidental to project funding or authorization for the expenditure of funds for the project, by the Rural Economic Development Infrastructure Panel as set forth in Section 21080.08 of the Public Resources Code.

(e) The conversion of an existing rental mobilehome park to a resident initiated subdivision, cooperative, or condominium for mobilehomes as set forth in Section 21080.8 of the Public Resources Code.

(f) Settlements of title and boundary problems by the State Lands Commission and to exchanges or leases in connection with those settlements as set forth in Section 21080.11 of the Public Resources Code.

(g) Any railroad grade separation project which eliminates an existing grade crossing or which reconstructs an existing grade separation as set forth in Section 21080.13 of the Public Resources Code.

(h) The adoption of an ordinance regarding second units in a single–family or multifamily residential zone by a city or county to implement the provisions of Sections 65852.1 and 65852.2 of the Government Code as set forth in Section 21080.17 of the Public Resources Code.

(i) The closing of any public school or the transfer of students from that public school to another school in which kindergarten or any grades 1 through 12 is maintained as set forth in 21080.18 of the Public Resources Code.

(j) A project for restriping streets or highways to relieve traffic congestion as set forth in Section 21080.19 of the Public Resources Code.

(k) The installation of new pipeline or maintenance, repair, restoration, removal, or demolition of an existing pipeline as set forth in Section 21080.21 of the Public Resources Code, as long as the project does not exceed one mile in length.

(*l*) The activities and approvals by a local government necessary for the preparation of general plan amendments pursuant to Public Resources Code § 29763 as set forth in Section 21080.22 of the Public Resources Code. Section 29763 of the Public Resources Code refers to local government amendments made for consistency with the Delta Protection Commission's regional plan.

(m) Minor alterations to utilities made for the purposes of complying with Sections 116410 and 116415 of the Health and Safety Code as set forth in Section 21080.26 of the Public Resources Code.

(n) The adoption of an ordinance exempting a city or county from the provisions of the Solar Shade Control Act as set forth in Section 25985 of the Public Resources Code.

(o) The acquisition of land by the Department of Transportation if received or acquired within a statewide or regional priority corridor designated pursuant to Section 65081.3 of the Government Code as set forth in Section 33911 of the Public Resources Code.

(p) The adoption or amendment of a nondisposal facility element as set forth in Section 41735 of the Public Resources Code.

(q) Cooperative agreements for the development of Solid Waste Management Facilities on Indian country as set forth in Section 44203(g) of the Public Resources Code.

(r) Determinations made regarding a city or county's regional housing needs as set forth in Section 65584 of the Government Code.

(s) Any action necessary to bring a general plan or relevant mandatory element of the general plan into compliance pursuant to a court order as set forth in Section 65759 of the Government Code.

(t) Industrial Development Authority activities as set forth in Section 91543 of the Government Code.

(u) Temporary changes in the point of diversion, place of use, of purpose of use due to a transfer or exchange of water or water rights as set forth in Section 1729 of the Water Code.

(v) The preparation and adoption of Urban Water Management Plans pursuant to the provisions of Section 10652 of the Water Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 5097.98(c), 21080.01, 21080.02, 21080.03, 21080.05, 21080.07, 21080.08,

21080.8, 21080.11, 21080.13, 21080.17, 21080.18, 21080.19, 21080.21, 21080.22, 21080.26, 25985, 33911, 41735 and 44203(g), Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending first paragraph, repealing subsection (e), relettering subsections and amending newly designated subsection (m) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15283. Housing Needs Allocation.

CEQA does not apply to regional housing needs determinations made by the Department of Housing and Community Development, a council of governments, or a city or county pursuant to Section 65584 of the Government Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 65584, Government Code.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15284. Pipelines.

(a) CEQA does not apply to any project consisting of the inspection, maintenance, repair, restoration, reconditioning, relocation, replacement, or removal of an existing hazardous or volatile liquid pipeline or any valve, flange, meter, or other piece of equipment that is directly attached to the pipeline.

(b) To qualify for this exemption, the diameter of the affected pipeline must not be increased and the project must be located outside the boundaries of an oil refinery. The project must also meet all of the following criteria:

(1) The affected section of pipeline is less than eight miles in length and actual construction and excavation activities are not undertaken over a length of more than one–half mile at a time.

(2) The affected section of pipeline is not less than eight miles distance from any section of pipeline that had been subject to this exemption in the previous 12 months.

(3) The project is not solely for the purpose of excavating soil that is contaminated by hazardous materials.

(4) To the extent not otherwise required by law, the person undertaking the project has, in advance of undertaking the project, prepared a plan that will result in notification of the appropriate agencies so that they may take action, if necessary, to provide for the emergency evacuation of members of the public who may be located in close proximity to the project, and those agencies, including but not limited to the local fire department, police, sheriff, and California Highway Patrol as appropriate, have reviewed and agreed to that plan.

(5) Project activities take place within an existing right–of–way and that right–of–way will be restored to its pre–project condition upon completion of the project.

(6) The project applicant will comply with all conditions otherwise authorized by law, imposed by the city or county as part of any local agency permit process, and to comply with the Keene–Nejedly California Wetlands Preservation Act (Public Resources Code Section 5810, et seq.), the California Endangered Species Act (Fish and Game Code Section 2050, et seq.), other applicable state laws, and all applicable federal laws.

(c) When the lead agency determines that a project meets all of the criteria of subdivisions (a) and (b), the party undertaking the project shall do all of the following:

(1) Notify in writing all responsible and trustee agencies, as well as any public agency with environmental, public health protection, or emergency response authority, of the lead agency's invocation of this exemption.

(2) Mail notice of the project to the last known name and address of all organizations and individuals who have previously requested such notice and notify the public in the affected area by at least one of the following procedures:

(A) Publication at least one time in a newspaper of general circulation in the area affected by the proposed project. If more than one area is affected, the notice shall be published in the newspaper of largest circulation from among the newspapers of general circulation in those areas.

(B) Posting of notice on and off site in the area where the project is to be located.

(C) Direct mailing to the owners and occupants of contiguous property shown on the latest equalized assessment roll.

The notice shall include a brief description of the proposed project and its location, and the date, time, and place of any public meetings or hearings on the proposed project. This notice may be combined with the public notice required under other law, as applicable, but shall meet the preceding minimum requirements.

(3) In the case of private rights–of–way over private property, receive from the underlying property owner permission for access to the property.

(4) Immediately inform the lead agency if any soil contaminated with hazardous materials is discovered.

(5) Comply with all conditions otherwise authorized by law, imposed by the city or county as part of any local agency permit process, and to comply with the Keene–Nejedly California Wetlands Preservation Act (Public Resources Code Section 5810, et seq.), the California Endangered Species Act (Fish and Game Code Section 2050, et seq.), other applicable state laws, and all applicable federal laws.

(d) For purposes of this section, "pipeline" is used as defined in subdivision (a) of Government Code Section 51010.5. This definition includes every intrastate pipeline used for the transportation of hazardous liquid substances or highly volatile liquid substances, including a common carrier pipeline, and all piping containing those substances located within a refined products bulk loading facility which is owned by a common carrier and is served by a pipeline of that common carrier, and the common carrier owns and serves by pipeline at least five such facilities in California.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15285. Transit Agency Responses to Revenue Shortfalls.

(a) CEQA does not apply to actions taken on or after July 1,1995 to implement budget reductions made by a publicly owned transit agency as a result of a fiscal emergency caused by the failure of agency revenues to adequately fund agency programs and facilities. Actions shall be limited to those directly undertaken by or financially supported in whole or in part by the transit agency pursuant to Section 15378(a)(1) or (2), including actions which reduce or eliminate the availability of an existing publicly owned transit service, facility, program, or activity.

(b) When invoking this exemption, the transit agency shall make a specific finding that there is a fiscal emergency. Before taking its proposed budgetary actions and making the finding of fiscal emergency, the transit agency shall hold a public hearing. After this public hearing, the transit agency shall respond within 30 days at a regular public meeting to suggestions made by the public at that initial hearing. The transit agency may make the finding of fiscal emergency only after it has responded to public suggestions.

(c) For purposes of this subdivision, "fiscal emergency" means that the transit agency is projected to have negative working capital within one year from the date that the agency finds that a fiscal emergency exists. "Working capital" is defined as the sum of all unrestricted cash, unrestricted short–term investments, and unrestricted short–term accounts receivable, minus unrestricted accounts payable. Employee retirements funds, including deferred compensation plans and Section 401(k) plans, health insurance reserves, bond payment reserves, worker's compensa-

tion reserves, and insurance reserves shall not be included as working capital.

(d) This exemption does not apply to the action of any publicly owned transit agency to reduce or eliminate a transit service, facility, program, or activity that was approved or adopted as a mitigation measure in any environmental document certified or adopted by any public agency under either CEQA or NEPA. Further, it does not apply to actions of the Los Angeles County Metropolitan Transportation Authority.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 19. Categorical Exemptions

§ 15300. Categorical Exemptions.

Section 21084 of the Public Resources Code requires these guidelines to include a list of classes of projects which have been determined not to have a significant effect on the environment and which shall, therefore, be exempt from the provisions of CEQA.

In response to that mandate, the Secretary for Resources has found that the following classes of projects listed in this article do not have a significant effect on the environment, and they are declared to be categorically exempt from the requirement for the preparation of environmental documents.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Renumbering and amendment of former Article 8 (Sections 15100–15129) to Article 19 (Sections 15300–15329) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15300.1. Relation to Ministerial Projects.

Section 21080 of the Public Resources Code exempts from the application of CEQA those projects over which public agencies exercise only ministerial authority. Since ministerial projects are already exempt, Categorical Exemptions should be applied only where a project is not ministerial under a public agency's statutes and ordinances. The inclusion of activities which may be ministerial within the classes and examples contained in this article shall not be construed as a finding by the Secretary for resources that such an activity is discretionary.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15300.2. Exceptions.

(a) Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located—a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply in all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

(b) Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.

(c) Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

(d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.

(e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.

(f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.

Chickering* (1977) 18 Cal.3d190; *League for Protection of Oakland's Architectural and Historic Resources v. City of Oakland* (1997) 52 Cal.App.4th 896; *Citizens for Responsible Development in West Hollywood v. City of West Hollywood* (1995) 39 Cal.App.4th 925; *City of Pasadena v. State of California* (1993) 14 Cal.App.4th 810; *Association for the Protection etc. Values v. City of Ukiah* (1991) 2 Cal.App.4th 720; and *Baird v. County of Contra Costa* (1995) 32 Cal.App.4th 1464.

HISTORY

1. Amendment of subsection (b), new subsections (d)–(f) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15300.3. Revisions to List of Categorical Exemptions.

Any public agency may, at any time, request that a new class of Categorical Exemptions be added, or an existing one amended or deleted. This request must be made in writing to the Office of Planning and Research and shall contain detailed information to support the request. The granting of such request shall be by amendment to these guidelines.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15300.4. Application by Public Agencies.

Each public agency shall, in the course of establishing its own procedures, list those specific activities which fall within each of the exempt classes, subject to the qualification that these lists must be consistent with both the letter and the intent expressed in the classes. Public agencies may omit from their implementing procedures classes and examples that do not apply to their activities, but they may not require EIRs for projects described in the classes and examples in this article except under the provisions of Section 15300.2.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15301. Existing Facilities.

Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. The types of "existing facilities" itemized below are not intended to be all–inclusive of the types of projects which might fall within Class 1. The key consideration is whether the project involves negligible or no expansion of an existing use.

Examples include but are not limited to:

(a) Interior or exterior alterations involving such things as interior partitions, plumbing, and electrical conveyances;

(b) Existing facilities of both investor and publicly–owned utilities used to provide electric power, natural gas, sewerage, or other public utility services;

(c) Existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities (this includes road grading for the purpose of public safety).

(d) Restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety, unless it is determined that the damage was substantial and resulted from an environmental hazard such as earthquake, landslide, or flood;

(e) Additions to existing structures provided that the addition will not result in an increase of more than:

(1) 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less; or

(2) 10,000 square feet if:

(A) The project is in an area where all public services and facilities are available to allow for maximum development permissible in the General Plan and

(B) The area in which the project is located is not environmentally sensitive.

(f) Addition of safety or health protection devices for use during construction of or in conjunction with existing structures, facilities, or mechanical equipment, or topographical features including navigational devices;

(g) New copy on existing on and off-premise signs;

(h) Maintenance of existing landscaping, native growth, and water supply reservoirs (excluding the use of pesticides, as defined in Section 12753, Division 7, Chapter 2, Food and Agricultural Code);

(i) Maintenance of fish screens, fish ladders, wildlife habitat areas, artificial wildlife waterway devices, streamflows, springs and waterholes, and stream channels (clearing of debris) to protect fish and wildlife resources;

(j) Fish stocking by the California Department of Fish and Game;

(k) Division of existing multiple family or single-family residences into common-interest ownership and subdivision of existing commercial or industrial buildings, where no physical changes occur which are not otherwise exempt;

(*l*) Demolition and removal of individual small structures listed in this subdivision;

(2) A duplex or similar multifamily residential structure. In urbanized areas, this exemption applies to duplexes and similar structures where not more than six dwelling units will be demolished.

(3) A store, motel, office, restaurant, and similar small commercial structure if designed for an occupant load of 30 persons or less. In urbanized areas, the exemption also applies to the demolition of up to three such commercial buildings on sites zoned for such use.

(4) Accessory (appurtenant) structures including garages, carports, patios, swimming pools, and fences.

(m) Minor repairs and alterations to existing dams and appurtenant structures under the supervision of the Department of Water Resources.

(n) Conversion of a single family residence to office use.

(o) Installation, in an existing facility occupied by a medical waste generator, of a steam sterilization unit for the treatment of medical waste generated by that facility provided that the unit is installed and operated in accordance with the Medical Waste Management Act (Section 117600, et seq., of the Health and Safety Code) and accepts no offsite waste.

(p) Use of a single-family residence as a small family day care home, as defined in Section 1596.78 of the Health and Safety Code.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code; *Bloom v. McGurk* (1994) 26 Cal.App.4th 1307.

HISTORY

1. Amendment of subsections (c), (k), (*l*)(1)–(3) and (o), and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending subsection (h) filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
4. Change without regulatory effect amending subsection (k)(1) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15302. Replacement or Reconstruction.

Class 2 consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including but not limited to:

(a) Replacement or reconstruction of existing schools and hospitals to provide earthquake resistant structures which do not increase capacity more than 50 percent;

(b) Replacement of a commercial structure with a new structure of substantially the same size, purpose, and capacity.

(c) Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.

(d) Conversion of overhead electric utility distribution system facilities to underground including connection to existing overhead electric utility distribution lines where the surface is restored to the condition existing prior to the undergrounding.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15303. New Construction or Conversion of Small Structures.

Class 3 consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. The numbers of structures described in this section are the maximum allowable on any legal parcel. Examples of this exemption include but are not limited to:

(a) One single-family residence, or a second dwelling unit in a residential zone. In urbanized areas, up to three single-family residences may be constructed or converted under this exemption.

(b) A duplex or similar multi-family residential structure totaling no more than four dwelling units. In urbanized areas, this exemption applies to apartments, duplexes, and similar structures designed for not more than six dwelling units.

(c) A store, motel, office, restaurant or similar structure not involving the use of significant amounts of hazardous substances, and not exceeding 2500 square feet in floor area. In urbanized areas, the exemption also applies to up to four such commercial buildings not exceeding 10,000 square feet in floor area on sites zoned for such use if not involving the use of significant amounts of hazardous substances where all necessary public services and facilities are available and the surrounding area is not environmentally sensitive.

(d) Water main, sewage, electrical, gas, and other utility extensions, including street improvements, of reasonable length to serve such construction.

(e) Accessory (appurtenant) structures including garages, carports, patios, swimming pools, and fences.

(f) An accessory steam sterilization unit for the treatment of medical waste at a facility occupied by a medical waste generator, provided that the unit is installed and operated in accordance with the Medical Waste Management Act (Section 117600, et seq., of the Health and Safety Code) and accepts no offsite waste.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. New subsection (f) and amendment of NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).

2. Amendment filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15304. Minor Alterations to Land.

Class 4 consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry and agricultural purposes. Examples include but are not limited to:

(a) Grading on land with a slope of less than 10 percent, except that grading shall not be exempt in a waterway, in any wetland, in an officially designated (by federal, state, or local government action) scenic area, or in officially mapped areas of severe geologic hazard such as an Alquist–Priolo Earthquake Fault Zone or within an official Seismic Hazard Zone, as delineated by the State Geologist.

(b) New gardening or landscaping, including the replacement of existing conventional landscaping with water efficient or fire resistant landscaping.

(c) Filling of earth into previously excavated land with material compatible with the natural features of the site.

(d) Minor alterations in land, water, and vegetation on existing officially designated wildlife management areas or fish production facilities which result in improvement of habitat for fish and wildlife resources or greater fish production.

(e) Minor temporary use of land having negligible or no permanent effects on the environment, including carnivals, sales of Christmas trees, etc.

(f) Minor trenching and backfilling where the surface is restored.

(g) Maintenance dredging where the spoil is deposited in a spoil area authorized by all applicable state and federal regulatory agencies.

(h) The creation of bicycle lanes on existing rights–of–way.

(i) Fuel management activities within 30 feet of structures to reduce the volume of flammable vegetation, provided that the activities will not result in the taking of endangered, rare, or threatened plant or animal species or significant erosion and sedimentation of surface waters.This exemption shall apply to fuel management activities within 100 feet of a structure if the public agency having fire protection responsibility for the area has determined that 100 feet of fuel clearance is required due to extra hazardous fire conditions.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Amendment of subsections (a) and (b) and new subsection (i) filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15305. Minor Alterations in Land Use Limitations.

Class 5 consists of minor alterations in land use limitations in areas with an average slope of less than 20%, which do not result in any changes in land use or density, including but not limited to:

(a) Minor lot line adjustments, side yard, and set back variances not resulting in the creation of any new parcel;

(b) Issuance of minor encroachment permits;

(c) Reversion to acreage in accordance with the Subdivision Map Act.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15306. Information Collection.

Class 6 consists of basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. These may be strictly for information gathering purposes, or as part of a study leading to an action which a public agency has not yet approved, adopted, or funded.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15307. Actions by Regulatory Agencies for Protection of Natural Resources.

Class 7 consists of actions taken by regulatory agencies as authorized by state law or local ordinance to assure the maintenance, restoration, or enhancement of a natural resource where the regulatory process involves procedures for protection of the environment. Examples include but are not limited to wildlife preservation activities of the State Department of Fish and Game. Construction activities are not included in this exemption.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15308. Actions by Regulatory Agencies for Protection of the Environment.

Class 8 consists of actions taken by regulatory agencies, as authorized by state or local ordinance, to assure the maintenance, restoration, enhancement, or protection of the environment where the regulatory process involves procedures for protection of the environment. Construction activities and relaxation of standards allowing environmental degradation are not included in this exemption.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code; *International Longshoremen's and Warehousemen's Union* v. *Board of Supervisors*, (1981) 116 Cal. App. 3d 265.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15309. Inspections.

Class 9 consists of activities limited entirely to inspections, to check for performance of an operation, or quality, health, or safety of a project, including related activities such as inspection for possible mislabeling, misrepresentation, or adulteration of products.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15310. Loans.

Class 10 consists of loans made by the Department of Veterans Affairs under the Veterans Farm and Home Purchase Act of 1943, mortgages for the purchase of existing structures where the loan will not be used for new construction and the purchase of such mortgages by financial institutions. Class 10 includes but is not limited to the following examples:

(a) Loans made by the Department of Veterans Affairs under the Veterans Farm and Home Purchase Act of 1943.

(b) Purchases of mortgages from banks and mortgage companies by the Public Employees Retirement System and by the State Teachers Retirement System.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15311. Accessory Structures.

Class 11 consists of construction, or placement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities, including but not limited to:

(a) On–premise signs;

(b) Small parking lots;

(c) Placement of seasonal or temporary use items such as lifeguard towers, mobile food units, portable restrooms, or similar items in gener-

ally the same locations from time to time in publicly owned parks, stadiums, or other facilities designed for public use.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15312. Surplus Government Property Sales.

Class 12 consists of sales of surplus government property except for parcels of land located in an area of statewide, regional, or areawide concern identified in Section 15206(b)(4). However, even if the surplus property to be sold is located in any of those areas, its sale is exempt if:

(a) The property does not have significant values for wildlife habitat or other environmental purposes, and

(b) Any of the following conditions exist:

(1) The property is of such size, shape, or inaccessibility that it is incapable of independent development or use; or

(2) The property to be sold would qualify for an exemption under any other class of categorical exemption in these guidelines; or

(3) The use of the property and adjacent property has not changed since the time of purchase by the public agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Amendment filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15313. Acquisition of Lands for Wildlife Conservation Purposes.

Class 13 consists of the acquisition of lands for fish and wildlife conservation purposes including (a) preservation of fish and wildlife habitat, (b) establishing ecological reserves under Fish and Game Code Section 1580, and (c) preserving access to public lands and waters where the purpose of the acquisition is to preserve the land in its natural condition.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Amendment filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15314. Minor Additions to Schools.

Class 14 consists of minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more than 25% or ten classrooms, whichever is less. The addition of portable classrooms is included in this exemption.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15315. Minor Land Divisions.

Class 15 consists of the division of property in urbanized areas zoned for residential, commercial, or industrial use into four or fewer parcels when the division is in conformance with the General Plan and zoning, no variances or exceptions are required, all services and access to the proposed parcels to local standards are available, the parcel was not involved in a division of a larger parcel within the previous 2 years, and the parcel does not have an average slope greater than 20 percent.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15316. Transfer of Ownership of Land in Order to Create Parks.

Class 16 consists of the acquisition, sale, or other transfer of land in order to establish a park where the land is in a natural condition or contains historical or archaeological resources and either:

(a) The management plan for the park has not been prepared, or

(b) The management plan proposes to keep the area in a natural condition or preserve the historic or archaeological resources. CEQA will apply when a management plan is proposed that will change the area from its natural condition or cause substantial adverse change in the significance of the historic or archaeological resource.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21084, 21083.2, and 21084.1, Public Resources Code.

HISTORY

1. Amendment of section and NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15317. Open Space Contracts or Easements.

Class 17 consists of the establishment of agricultural preserves, the making and renewing of open space contracts under the Williamson Act, or the acceptance of easements or fee interests in order to maintain the open space character of the area. The cancellation of such preserves, contracts, interests, or easements is not included and will normally be an action subject to the CEQA process.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15318. Designation of Wilderness Areas.

Class 18 consists of the designation wilderness areas under the California Wilderness System.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15319. Annexations of Existing Facilities and Lots for Exempt Facilities.

Class 19 consists of only the following annexations:

(a) Annexations to a city or special district of areas containing existing public or private structures developed to the density allowed by the current zoning or pre–zoning of either the gaining or losing governmental agency whichever is more restrictive, provided, however, that the extension of utility services to the existing facilities would have a capacity to serve only the existing facilities.

(b) Annexations of individual small parcels of the minimum size for facilities exempted by Section 15303, New Construction or Conversion of Small Structures.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15320. Changes in Organization of Local Agencies.

Class 20 consists of changes in the organization or reorganization of local governmental agencies where the changes do not change the geographical area in which previously existing powers are exercised. Examples include but are not limited to:

(a) Establishment of a subsidiary district.

(b) Consolidation of two or more districts having identical powers.

(c) Merger with a city of a district lying entirely within the boundaries of the city.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15321. Enforcement Actions by Regulatory Agencies.

Class 21 consists of::

(a) Actions by regulatory agencies to enforce or revoke a lease, permit, license, certificate, or other entitlement for use issued, adopted, or prescribed by the regulatory agency or enforcement of a law, general rule, standard, or objective, administered or adopted by the regulatory agency. Such actions include, but are not limited to, the following:

(1) The direct referral of a violation of lease, permit, license, certificate, or entitlement for use or of a general rule, standard, or objective to the Attorney General, District Attorney, or City Attorney as appropriate, for judicial enforcement.

(2) The adoption of an administrative decision or order enforcing or revoking the lease, permit, license, certificate, or entitlement for use or enforcing the general rule, standard, or objective.

(b) Law enforcement activities by peace officers acting under any law that provides a criminal sanction.

(c) Construction activities undertaken by the public agency taking the enforcement or revocation action are not included in this exemption.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15322. Educational or Training Programs Involving No Physical Changes.

Class 22 consists of the adoption, alteration, or termination of educational or training programs which involve no physical alteration in the area affected or which involve physical changes only in the interior of existing school or training structures. Examples include but are not limited to:

(a) Development of or changes in curriculum or training methods.

(b) Changes in the grade structure in a school which do not result in changes in student transportation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15323. Normal Operations of Facilities for Public Gatherings.

Class 23 consists of the normal operations of existing facilities for public gatherings for which the facilities were designed, where there is a past history of the facility being used for the same or similar kind of purpose. For the purposes of this section, "past history" shall mean that the same or similar kind of activity has been occurring for at least three years and that there is a reasonable expectation that the future occurrence of the activity would not represent a change in the operation of the facility. Facilities included within this exemption include, but are not limited to, racetracks, stadiums, convention centers, auditoriums, amphitheaters, planetariums, swimming pools, and amusement parks.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15324. Regulations of Working Conditions.

Class 24 consists of actions taken by regulatory agencies, including the Industrial Welfare Commission as authorized by statute, to regulate any of the following:

(a) Employee wages,

(b) Hours of work, or

(c) Working conditions where there will be no demonstrable physical changes outside the place of work.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15325. Transfers of Ownership in Land to Preserve Existing Natural Conditions and Historical Resources.

Class 25 consists of the transfers of ownership of interests in land in order to preserve open space, habitat, or historical resources. Examples include but are not limited to:

(a) Acquisition, sale, or other transfer of areas to preserve the existing natural conditions, including plant or animal habitats.

(b) Acquisition, sale, or other transfer of areas to allow continued agricultural use of the areas.

(c) Acquisition, sale, or other transfer to allow restoration of natural conditions, including plant or animal habitats.

(d) Acquisition, sale, or other transfer to prevent encroachment of development into flood plains.

(e) Acquisition, sale, or other transfer to preserve historical resources.

(f) Acquisition, sale, or other transfer to preserve open space or lands for park purposes.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Amendment of section heading and section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. New subsection (f) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15326. Acquisition of Housing for Housing Assistance Programs.

Class 26 consists of actions by a redevelopment agency, housing authority, or other public agency to implement an adopted Housing Assistance Plan by acquiring an interest in housing units. The housing units may be either in existence or possessing all required permits for construction when the agency makes its final decision to acquire the units.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15327. Leasing New Facilities.

(a) Class 27 consists of the leasing of a newly constructed or previously unoccupied privately owned facility by a local or state agency where the local governing authority determined that the building was exempt from CEQA. To be exempt under this section, the proposed use of the facility:

(1) Shall be in conformance with existing state plans and policies and with general, community, and specific plans for which an EIR or negative declaration has been prepared,

(2) Shall be substantially the same as that originally proposed at the time the building permit was issued,

(3) Shall not result in a traffic increase of greater than 10% of front access road capacity, and

(4) Shall include the provision of adequate employee and visitor parking facilities.

(b) Examples of Class 27 include, but are not limited to:

(1) Leasing of administrative offices in newly constructed office space.

(2) Leasing of client service offices in newly constructed retail space.

(3) Leasing of administrative and/or client service offices in newly constructed industrial parks.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15328. Small Hydroelectric Projects at Existing Facilities.

Class 28 consists of the installation of hydroelectric generating facilities in connection with existing dams, canals, and pipelines where:

(a) The capacity of the generating facilities is 5 megawatts or less,

(b) Operation of the generating facilities will not change the flow regime in the affected stream, canal, or pipeline including but not limited to:

(1) Rate and volume of flow,

(2) Temperature,

(3) Amounts of dissolved oxygen to a degree that could adversely affect aquatic life, and

(4) Timing of release.

(c) New power lines to connect the generating facilities to existing power lines will not exceed one mile in length if located on a new right of way and will not be located adjacent to a wild or scenic river.

(d) Repair or reconstruction of the diversion structure will not raise the normal maximum surface elevation of the impoundment.

(e) There will be no significant upstream or downstream passage of fish affected by the project.

(f) The discharge from the power house will not be located more than 300 feet from the toe of the diversion structure.

(g) The project will not cause violations of applicable state or federal water quality standards.

(h) The project will not entail any construction on or alteration of a site included in or eligible for inclusion in the National Register of Historic Places, and

(i) Construction will not occur in the vicinity of any endangered, rare, or threatened species.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Amendment of subsection (i) and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15329. Cogeneration Projects at Existing Facilities.

Class 29 consists of the installation of cogeneration equipment with a capacity of 50 megawatts or less at existing facilities meeting the conditions described in this section.

(a) At existing industrial facilities, the installation of cogeneration facilities will be exempt where it will:

(1) Result in no net increases in air emissions from the industrial facility, or will produce emissions lower than the amount that would require review under the new source review rules applicable in the county, and

(2) Comply with all applicable state, federal, and local air quality laws.

(b) At commercial and industrial facilities, the installation of cogeneration facilities will be exempt if the installation will:

(1) Meet all the criteria described in subdivision (a),

(2) Result in no noticeable increase in noise to nearby residential structures,

(3) Be contiguous to other commercial or institutional structures.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending subsection (b)(1) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15330. Minor Actions to Prevent, Minimize, Stabilize, Mitigate or Eliminate the Release or Threat of Release of Hazardous Waste or Hazardous Substances.

Class 30 consists of any minor cleanup actions taken to prevent, minimize, stabilize, mitigate, or eliminate the release or threat of release of a hazardous waste or substance which are small or medium removal actions costing $1 million or less.

(a) No cleanup action shall be subject to this Class 30 exemption if the action requires the onsite use of a hazardous waste incinerator or thermal treatment unit or the relocation of residences or businesses,or the action involves the potential release into the air of volatile organic compounds as defined in Health and Safety Code Section 25123.6, except for small scale in situ soil vapor extraction and treatment systems which have been permitted by the local Air Pollution Control District or Air Quality Management District. All actions must be consistent with applicable state and local environmental permitting requirements including, but not limited to, off–site disposal, air quality rules such as those governing volatile organic compounds and water quality standards, and approved by the regulatory body with jurisdiction over the site.

(b) Examples of such minor cleanup actions include but are not limited to:

(1) Removal of sealed, non–leaking drums or barrels of hazardous waste or substances that have been stabilized, containerized and are designated for a lawfully permitted destination;

(2) Maintenance or stabilization of berms, dikes, or surface impoundments;

(3) Construction or maintenance of interim or temporary surface caps;

(4) Onsite treatment of contaminated soils or sludges provided treatment system meets Title 22 requirements and local air district requirements;

(5) Excavation and/or offsite disposal of contaminated soils or sludges in regulated units;

(6) Application of dust suppressants or dust binders to surface soils;

(7) Controls for surface water run–on and run–off that meets seismic safety standards;

(8) Pumping of leaking ponds into an enclosed container;

(9) Construction of interim or emergency ground water treatment systems;

(10) Posting of warning signs and fencing for a hazardous waste or substance site that meets legal requirements for protection of wildlife.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending first paragraph filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).
3. Redesignation of portions of first paragraph as subsections (a)–(b), amendment of newly designated subsection (a) and redesignation of former subsections (a)–(j) as subsections (b)(1)–(10) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
4. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15331. Historical Resource Restoration/Rehabilitation.

Class 31 consists of projects limited to maintenance, repair, stabilization, rehabilitation, restoration, preservation, conservation or reconstruction of historical resources in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings (1995), Weeks and Grimmer.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. New section filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15332. In-Fill Development Projects.

Class 32 consists of projects characterized as in–fill development meeting the conditions described in this section.

(a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations.

(b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses.

(c) The project site has no value, as habitat for endangered, rare or threatened species.

(d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

(e) The site can be adequately served by all required utilities and public services.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. New section filed 12–23–98; operative 12–23–98 pursuant to Public Resources Code section 21087 (Register 98, No. 52).

§ 15333. Small Habitat Restoration Projects.

Class 33 consists of projects not to exceed five acres in size to assure the maintenance, restoration, enhancement, or protection of habitat for fish, plants, or wildlife provided that:

(a) There would be no significant adverse impact on endangered, rare or threatened species or their habitat pursuant to section 15065,

(b) There are no hazardous materials at or around the project site that may be disturbed or removed, and

(c) The project will not result in impacts that are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.

(d) Examples of small restoration projects may include, but are not limited to:

(1) revegetation of disturbed areas with native plant species;

(2) wetland restoration, the primary purpose of which is to improve conditions for waterfowl or other species that rely on wetland habitat;

(3) stream or river bank revegetation, the primary purpose of which is to improve habitat for amphibians or native fish;

(4) projects to restore or enhance habitat that are carried out principally with hand labor and not mechanized equipment.

(5) stream or river bank stabilization with native vegetation or other bioengineering techniques, the primary purpose of which is to reduce or eliminate erosion and sedimentation; and

(6) culvert replacement conducted in accordance with published guidelines of the Department of Fish and Game or NOAA Fisheries, the primary purpose of which is to improve habitat or reduce sedimentation.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21084, Public Resources Code.

HISTORY

1. New section filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

Article 20. Definitions

§ 15350. General.

The definitions contained in this article apply to terms used throughout the guidelines unless a term is otherwise defined in a particular section.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083, Public Resources Code.

HISTORY

1. New Article 20 (Sections 15350–15387) filed 7–13–83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7–13–83 order redesignating effective date to 8–1–83 filed 7–14–83 (Register 83, No. 29).
3. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15351. Applicant.

"Applicant" means a person who proposes to carry out a project which needs a lease, permit, license, certificate, or other entitlement for use or financial assistance from one or more public agencies when that person applies for the governmental approval or assistance.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21065, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15352. Approval.

(a) "Approval" means the decision by a public agency which commits the agency to a definite course of action in regard to a project intended to be carried out by any person. The exact date of approval of any project is a matter determined by each public agency according to its rules, regulations, and ordinances. Legislative action in regard to a project often constitutes approval.

(b) With private projects, approval occurs upon the earliest commitment to issue or the issuance by the public agency of a discretionary contract, grant, subsidy, loan, or other form of financial assistance, lease, permit, license, certificate, or other entitlement for use of the project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061 and 21065, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15353. CEQA.

"CEQA" means the California Environmental Quality Act, California Public Resources Code Sections 21000 et seq.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21050, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15354. Categorical Exemption.

"Categorical exemption" means an exemption from CEQA for a class of projects based on a finding by the Secretary for Resources that the class of projects does not have a significant effect on the environment.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080(b)(10) and 21084, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15355. Cumulative Impacts.

"Cumulative impacts" refer to two or more individual effects which, when considered together, are considerable or which compound or increase other environmental impacts.

(a) The individual effects may be changes resulting from a single project or a number of separate projects.

(b) The cumulative impact from several projects is the change in the environment which results from the incremental impact of the project when added to other closely related past, present, and reasonably foreseeable probable future projects. Cumulative impacts can result from individually minor but collectively significant projects taking place over a period of time.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21083(b), Public Resources Code; *Whitman* v. *Board of Supervisors*, 88 Cal. App. 3d 397.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15356. Decision–Making Body.

"Decision–making body" means any person or group of people within a public agency permitted by law to approve or disapprove the project at issue.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21003(b), Public Resources Code; *Kleist* v. *City of Glendale* (1976) 56 Cal. App. 3d 770.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15357. Discretionary Project

"Discretionary project" means a project which requires the exercise of judgment or deliberation when the public agency or body decides to ap-

prove or disapprove a particular activity, as distinguished from situations where the public agency or body merely has to determine whether there has been conformity with applicable statutes, ordinances, or regulations. A timber harvesting plan submitted to the State Forester for approval under the requirements of the Z'berg–Nejedly Forest Practice Act of 1973 (Pub. Res. Code Sections 4511 et seq.) constitutes a discretionary project within the meaning of the California Environmental Quality Act. Section 21065(c).

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(a), Public Resources Code; *Johnson* v. *State of California* (1968) 69 Cal. 2d 782; *People* v. *Department of Housing and Community Development* (1975) 45 Cal. App. 3d 185; *Day* v. *City of Glendale* (1975) 51 Cal. App. 3d 817; *N.R.D.C.* v. *Arcata National Corp.* (1976) 59 Cal. App. 3d 959.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15358. Effects.

"Effects" and "impacts" as used in these guidelines are synonymous.

(a) Effects include:

(1) Direct or primary effects which are caused by the project and occur at the same time and place.

(2) Indirect or secondary effects which are caused by the project and are later in time or farther removed in distance, but are still reasonably foreseeable. Indirect or secondary effects may include growth–inducing effects and other effects related to induced changes in the pattern of land use, population density, or growth rate, and related effects on air and water and other natural systems, including ecosystems.

(b) Effects analyzed under CEQA must be related to a physical change.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21068 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15359. Emergency.

"Emergency" means a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to life, health, property, or essential public services. Emergency includes such occurrences as fire, flood, earthquake, or other soil or geologic movements, as well as such occurrences as riot, accident, or sabotage.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(2), (3) and (4), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15360. Environment.

"Environment" means the physical conditions which exist within the area which will be affected by a proposed project including land, air, water, minerals, flora, fauna, ambient noise, and objects of historic or aesthetic significance. The area involved shall be the area in which significant effects would occur either directly or indirectly as a result of the project. The "environment" includes both natural and man–made conditions.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21060.5, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15361. Environmental Documents.

"Environmental documents" means initial studies, negative declarations, draft and final EIRs, documents prepared as substitutes for EIRs and negative declarations under a program certified pursuant to Public Resources Code Section 21080.5, and documents prepared under NEPA and used by a state or local agency in the place of an initial study, negative declaration, or an EIR.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061, 21080(b), 21080.5, 21108 and 21152, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15362. EIR—Environmental Impact Report.

"EIR" or "environmental impact report" means a detailed statement prepared under CEQA describing and analyzing the significant environmental effects of a project and discussing ways to mitigate or avoid the effects. The contents of an EIR are discussed in Article 9, commencing with Section 15120 of these guidelines. The term "EIR" may mean either a draft or a final EIR depending on the context.

(a) Draft EIR means an EIR containing the information specified in Sections 15122 through 15131.

(b) Final EIR means an EIR containing the information contained in the draft EIR, comments either verbatim or in summary received in the review process, a list of persons commenting, and the response of the lead agency to the comments received. The final EIR is discussed in detail in Section 15132.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21061, 21100 and 21151, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15363. EIS—Environmental Impact Statement.

"EIS" or "Environmental Impact Statement" means an environmental impact document prepared pursuant to the National Environmental Policy Act (NEPA). NEPA uses the term EIS in the place of the term EIR which is used in CEQA.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21083.5, 21083.6 and 21083.7, Public Resources Code; 43 U.S.C.A. 4322(2)(c).

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15364. Feasible.

"Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, legal, social, and technological factors.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21002.1, 21004, 21061.1, 21080.5 and 21081, Public Resources Code; Section 4, Chapter 1438 of the Statutes of 1982.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15365. Initial Study.

"Initial study" means a preliminary analysis prepared by the lead agency to determine whether an EIR or a negative declaration must be prepared or to identify the significant environmental effects to be analyzed in an EIR. Use of the initial study is discussed in Article 5, commencing with Section 15060.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.1, 21080.2, 21080.3 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15366. Jurisdiction by Law.

(a) "Jurisdiction by law" means the authority of any public agency:

(1) To grant a permit or other entitlement for use,

(2) To provide funding for the project in question, or

(3) To exercise authority over resources which may be affected by the project.

(b) A city or county will have jurisdiction by law with respect to a project when the city or county having primary jurisdiction over the area involved is:

(1) The site of the project;

(2) The area in which the major environmental effects will occur; and/or

(3) The area in which reside those citizens most directly concerned by any such environmental effects.

(c) Where an agency having jurisdiction by law must exercise discretionary authority over a project in order for the project to proceed, it is also a responsible agency, see Section 15381, or the lead agency, see Section 15367.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.3, 21080.4, 21104 and 21153, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15367. Lead Agency.

"Lead agency" means the public agency which has the principal responsibility for carrying out or approving a project. The lead agency will decide whether an EIR or negative declaration will be required for the project and will cause the document to be prepared. Criteria for determining which agency will be the lead agency for a project are contained in Section 15051.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15368. Local Agency.

"Local agency" means any public agency other than a state agency, board, or commission. Local agency includes but is not limited to cities, counties, charter cities and counties, districts, school districts, special districts, redevelopment agencies, local agency formation commissions, and any board, commission, or organizational subdivision of a local agency when so designated by order or resolution of the governing legislative body of the local agency.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21062 and 21151, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15369. Ministerial.

"Ministerial" describes a governmental decision involving little or no personal judgment by the public official as to the wisdom or manner of carrying out the project. The public official merely applies the law to the facts as presented but uses no special discretion or judgment in reaching a decision. A ministerial decision involves only the use of fixed standards or objective measurements, and the public official cannot use personal, subjective judgment in deciding whether or how the project should be carried out. Common examples of ministerial permits include automobile registrations, dog licenses, and marriage licenses. A building permit is ministerial if the ordinance requiring the permit limits the public official to determining whether the zoning allows the structure to be built in the requested location, the structure would meet the strength requirements in the Uniform Building Code, and the applicant has paid his fee.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(b)(1), Public Resources Code; *Johnson v. State of California*, 69 Cal. 2d 782; *Day* v. *City of Glendale*, 51 Cal. App. 3d 817.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15369.5. Mitigated Negative Declaration.

"Mitigated negative declaration" means a negative declaration prepared for a project when the initial study has identified potentially significant effects on the environment, but (1) revisions in the project plans or proposals made by, or agreed to by, the applicant before the proposed negative declaration and initial study are released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment would occur, and (2) there is no substantial evidence in light of the whole record before the public agency that the project, as revised, may have a significant effect on the environment.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21064.5, Public Resources Code.

HISTORY

1. New section filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15370. Mitigation.

"Mitigation" includes:

(a) Avoiding the impact altogether by not taking a certain action or parts of an action.

(b) Minimizing impacts by limiting the degree or magnitude of the action and its implementation.

(c) Rectifying the impact by repairing, rehabilitating, or restoring the impacted environment.

(d) Reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action.

(e) Compensating for the impact by replacing or providing substitute resources or environments.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002, 21002.1, 21081 and 21100(c), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15371. Negative Declaration.

"Negative declaration" means a written statement by the lead agency briefly describing the reasons that a proposed project, not exempt from CEQA, will not have a significant effect on the environment and therefore does not require the preparation of an EIR. The contents of a negative declaration are described in Section 15071.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080(c), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15372. Notice of Completion.

"Notice of completion" means a brief notice filed with the Office of Planning and Research by a lead agency as soon as it has completed a draft EIR and is prepared to send out copies for review. The contents of this notice are explained in Section 15085.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21161, Public Resources Code.

HISTORY

1. Amendment filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
2. Change without regulatory effect amending section and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15373. Notice of Determination.

"Notice of determination" means a brief notice to be filed by a public agency after it approves or determines to carry out a project which is subject to the requirements of CEQA. The contents of this notice are explained in Sections 15075 and 15094.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21108(a) and 21152, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15374. Notice of Exemption.

"Notice of exemption" means a brief notice which may be filed by a public agency after it has decided to carry out or approve a project and has determined that the project is exempt from CEQA as being ministerial, categorically exempt, an emergency, or subject to another exemption from CEQA. Such a notice may also be filed by an applicant where such a determination has been made by a public agency which must approve the project. The contents of this notice are explained in Section 15062.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21108(b) and 21152(b), Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15375. Notice of Preparation.

"Notice of preparation" means a brief notice sent by a lead agency to notify the responsible agencies, trustee agencies, the Office of Planning and Research, and involved federal agencies that the lead agency plans to prepare an EIR for the project. The purpose of the notice is to solicit guidance from those agencies as to the scope and content of the environmental information to be included in the EIR. Public agencies are free to develop their own formats for this notice. The contents of this notice are described in Section 15082.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21080.4, Public Resources Code.

HISTORY

1. Change without regulatory effect amending section and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15376. Person.

"Person" includes any person, firm, association, organization, partnership, business, trust, corporation, limited liability company, company, district, city, county, city and county, town, the state, and any of the agencies and political subdivisions of such entities, and, to the extent permitted by federal law, the United States, or any of its agencies or political subdivisions.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21066, Public Resources Code.

HISTORY

1. Amendment of section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending section and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15377. Private Project.

A "private project" means a project which will be carried out by a person other than a governmental agency, but the project will need a discretionary approval from one or more governmental agencies for:

(a) A contract or financial assistance, or

(b) A lease, permit, license, certificate, or other entitlement for use.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21065, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15378. Project.

(a) "Project" means the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment, and that is any of the following:

(1) An activity directly undertaken by any public agency including but not limited to public works construction and related activities clearing or grading of land, improvements to existing public structures, enactment and amendment of zoning ordinances, and the adoption and amendment of local General Plans or elements thereof pursuant to Government Code Sections 65100–65700.

(2) An activity undertaken by a person which is supported in whole or in part through public agency contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies.

(3) An activity involving the issuance to a person of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies.

(b) Project does not include:

(1) Proposals for legislation to be enacted by the State Legislature;

(2) Continuing administrative or maintenance activities, such as purchases for supplies, personnel-related actions, general policy and procedure making (except as they are applied to specific instances covered above);

(3) The submittal of proposals to a vote of the people of the state or of a particular community that does not involve a public agency sponsored initiative. (*Stein* v. *City of Santa Monica*, (1980) 110 Cal. App. 3d 458; *Friends of Sierra Madre v. City of Sierra Madre* (2001) 25 Cal.4th 165);

(4) The creation of government funding mechanisms or other government fiscal activities, which do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment.

(5) Organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment.

(c) The term "project" refers to the activity which is being approved and which may be subject to several discretionary approvals by governmental agencies. The term "project" does not mean each separate governmental approval.

(d) Where the lead agency could describe the project as either the adoption of a particular regulation under subdivision (a)(1) or as a development proposal which will be subject to several governmental approvals under subdivisions (a)(2) or (a)(3), the lead agency shall describe the project as the development proposal for the purpose of environmental analysis. This approach will implement the lead agency principle as described in Article 4.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21065, Public Resources Code; *Kaufman and Broad–South Bay, Inc. v. Morgan Hill Unified School District*, (1992) 9 Cal.App.4th 464; and *Fullerton Joint Union High School District v. State Board of Education*, (1982) 32 Cal.3d 779; *Simi Valley Recreation and Park District v. Local Agency Formation Commission of Ventura County* (1975) 51 Cal.App.3d 648; and *Communities for a Better Environment v. California Resources Agency* (2002) 103 Cal.App.4th 98.

HISTORY

1. Amendment of subsection (b)(3), repealer and new subsection (b)(5) and amendment of NOTE filed 8–19–94; operative 9–19–94 (Register 94, No. 33).
2. Amendment of subsection (a) and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. Amendment of subsections (b)(1)–(5) and amendment of NOTE filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
4. Change without regulatory effect repealing subsection (b)(5) and amending NOTE filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).
5. Amendment of subsection (b)(3) and new subsection (b)(5) filed 9–7–2004; operative 9–7–2004 pursuant to Public Resources Code section 21083(e) (Register 2004, No. 37).
6. Change without regulatory effect amending subsection (d) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15379. Public Agency.

"Public agency" includes any state agency, board, or commission and any local or regional agency, as defined in these guidelines. It does not include the courts of the state. This term does not include agencies of the federal government.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21063, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15380. Endangered, Rare or Threatened Species.

(a) "Species" as used in this section means a species or subspecies of animal or plant or a variety of plant.

(b) A species of animal or plant is:

(1) "Endangered" when its survival and reproduction in the wild are in immediate jeopardy from one or more causes, including loss of habitat, change in habitat, overexploitation, predation, competition, disease, or other factors; or

(2) "Rare" when either:

(A) Although not presently threatened with extinction, the species is existing in such small numbers throughout all or a significant portion of its range that it may become endangered if its environment worsens; or

(B) The species is likely to become endangered within the foreseeable future throughout all or a significant portion of its range and may be considered "threatened" as that term is used in the Federal Endangered Species Act.

(c) A species of animal or plant shall be presumed to be endangered, rare or threatened, as it is listed in:

(1) Sections 670.2 or 670.5, Title 14, California Code of Regulations; or

(2) Title 50, Code of Federal Regulations Sections 17.11 or 17.12 pursuant to the Federal Endangered Species Act as rare, threatened, or endangered.

(d) A species not included in any listing identified in subdivision (c) shall nevertheless be considered to be endangered, rare or threatened, if the species can be shown to meet the criteria in subdivision (b).

(e) This definition shall not include any species of the Class Insecta which is a pest whose protection under the provisions of CEQA would present an overwhelming and overriding risk to man as determined by:

(1) The Director of Food and Agriculture with regard to economic pests; or

(2) The Director of Health Services with regard to health risks.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21001(c), Public Resources Code.

HISTORY

1. Amendment of section heading, subsections (c), (c)(1) and (d), and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending subsection (d) and NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15381. Responsible Agency.

"Responsible agency" means a public agency which proposes to carry out or approve a project, for which a lead agency is preparing or has prepared an EIR or negative declaration. For the purposes of CEQA, the term "responsible agency" includes all public agencies other than the lead agency which have discretionary approval power over the project.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21002.1, 21069, 21080.1, 21080.3, 21080.4, 21167.2 and 21167.3, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15382. Significant Effect on the Environment.

"Significant effect on the environment" means a substantial, or potentially substantial, adverse change in any of the physical conditions within the area affected by the project including land, air, water, minerals, flora, fauna, ambient noise, and objects of historic or aesthetic significance. An economic or social change by itself shall not be considered a significant effect on the environment. A social or economic change related to a physical change may be considered in determining whether the physical change is significant.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21068, 21083, 21100 and 21151, Public Resources Code; *Hecton* v. *People of the State of California*, 58 Cal. App. 3d 653.

HISTORY

1. On November 23, 1986 the regulation (Title 14, § 895.1) became effective which clarifies the Board's regulatory interpretation of "effect" and "impact" as specified in CEQA (Public Resources Code § 21068 and § 21080.5(d)(2) and (3)) (Register 86, No. 4).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15383. State Agency.

"State agency" means a governmental agency in the executive branch of the State Government or an entity which operates under the direction and control of an agency in the executive branch of State Government and is funded primarily by the State Treasury.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Section 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15384. Substantial Evidence.

(a) "Substantial evidence" as used in these guidelines means enough relevant information and reasonable inferences from this information that a fair argument can be made to support a conclusion, even though other conclusions might also be reached. Whether a fair argument can be made that the project may have a significant effect on the environment is to be determined by examining the whole record before the lead agency. Argument, speculation, unsubstantiated opinion or narrative, evidence which is clearly erroneous or inaccurate, or evidence of social or economic impacts which do not contribute to or are not caused by physical impacts on the environment does not constitute substantial evidence.

(b) Substantial evidence shall include facts, reasonable assumptions predicated upon facts, and expert opinion supported by facts.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080, 21082.2, 21168 and 21168.5, Public Resources Code; *No Oil, Inc.* v. *City of Los Angeles* (1974) 13 Cal. 3d 68; *Running Fence Corp.* v. *Superior Court* (1975) 51 Cal. App. 3d 400; *Friends of B Street* v. *City of Hayward* (1980) 106 Cal. App. 3d 988.

HISTORY

1. Amendment of section and NOTE filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
2. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15385. Tiering.

"Tiering" refers to the coverage of general matters in broader EIRs (such as on general plans or policy statements) with subsequent narrower EIRs or ultimately site–specific EIRs incorporating by reference the general discussions and concentrating solely on the issues specific to the EIR subsequently prepared. Tiering is appropriate when the sequence of EIRs is:

(a) From a general plan, policy, or program EIR to a program, plan, or policy EIR of lesser scope or to a site–specific EIR.

(b) From an EIR on a specific action at an early stage to a subsequent EIR or a supplement to an EIR at a later stage. Tiering in such cases is appropriate when it helps the lead agency to focus on the issues which are ripe for decision and exclude from consideration issues already decided or not yet ripe.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21003, 21061 and 21100, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15386. Trustee Agency.

"Trustee agency" means a state agency having jurisdiction by law over natural resources affected by a project which are held in trust for the people of the State of California. Trustee agencies include: (a) The California Department of Fish and Game with regard to the fish and wildlife of the state, to designated rare or endangered native plants, and to game refuges, ecological reserves, and other areas administered by the department.

(b) The State Lands Commission with regard to state owned "sovereign" lands such as the beds of navigable waters and state school lands.

(c) The State Department of Parks and Recreation with regard to units of the State Park System.

(d) The University of California with regard to sites within the Natural Land and Water Reserves System.

NOTE: Authority cited: Section 21083, Public Resources Code. Reference: Sections 21080.3 and 21080.4, Public Resources Code.

HISTORY

1. Change without regulatory effect amending NOTE filed 10–6–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 40).

§ 15387. Urbanized Area.

"Urbanized area" means a central city or a group of contiguous cities with a population of 50,000 or more, together with adjacent densely populated areas having a population density of at least 1,000 persons per square mile. A lead agency shall determine whether a particular area meets the criteria in this section either by examining the area or by referring to a map prepared by the U.S. Bureau of the Census which designates the area as urbanized. Maps of the designated urbanized areas can be found in the California EIR Monitor of February 7, 1979. The maps are also for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The maps are sold in sets only as Stock Number 0301–3466. Use of the term "urbanized area" in Section 15182 is limited to areas mapped and designated as urbanized by the U.S. Bureau of the Census.

NOTE: Authority cited: Sections 21083 and 21087, Public Resources Code. Reference: Sections 21080.7, 21083 and 21084, Public Resources Code.

Appendix B

Footnotes

No.

1. *Food and Agriculture*—Effects on plants and animals.
2. *Food and Agriculture*—Protection of food and fiber.
3. *Food and Agriculture*—Agricultural, dairy and feed lot systems.
4. *Food and Agriculture*—As pertains to transportation, handling, storage and decontamination of pesticides.
5. *Food and Agriculture*—Pesticide effects, predatory animal control, bird control.
6. *California Highway Patrol*—Enforcement of motor vehicle regulations.
7. *Health Services*—Beach sanitation, water pollution, solid waste and mosquito control.
8. *Health Services*—Pertains to health component.
9. *Health Services*—Most of these are strongly related to health.
10. *Health Services*—Pertains to noise.
11. *Health Services*—Pertains to personal and environmental health components.
12. *Health Services*—As it may pertain to human health hazards.
13. *Health Services*—Pertains to comprehensive health planning.
14. *Colorado River Board*—As pertains to the Colorado, New and Alamo Rivers.
15. *Fish and Game*—As field development and distribution systems may affect fish and wildlife.
16. *Fish and Game*—As may affect migrating and resident wildlife.
17. *Fish and Game*—As excessive noise may affect wildlife.
18. *Fish and Game*—As water quality may affect fish and wildlife.
19. *Parks and Recreation*—In impacted areas only.
20. *Reclamation Board*—In areas of Board's jurisdiction only—the Sacramento–San Joaquin Valley.
21. *State Water Resources Control Board*—As may pertain to water quality.
22. *Forestry*—With respect to forest land.
23. *Forestry*—(6) and (32)—As related to fire protection or State (fire protection) responsibility land.
24. *Air Resources Board*—(4), (22), (32), (33), and (36)—As may pertain to residential, commercial, industrial or transportation growth.
25. *San Francisco Bay Conservation and Development Commission*—(3), (17), (19), and (30)—With respect to San Francisco Bay, Suisun Bay and adjacent shore areas.
26. *California Coastal Commission*—(3), (4), (6), (8), (11), (12), (14), (15), (17), (19), (22), (23), (26), (29), (30), (31), (34), (35), and (36)—With respect to effects within the California Coastal Zone.
27. *California Tahoe Regional Planning Agency*—With respect to effects in the Tahoe Basin.
28. *Native American Heritage Commission*—With respect to places of special religious or social significance to Native Americans including archaeological sites, cemeteries, and places of worship.

HISTORY

1. New Appendix = filed 3–26–74 as an emergency; effective upon filing (Register 74, No. 13).
2. Certificate of Compliance filed 6–26–74 (Register 74, No. 26).
3. Amendment filed 1–3–75; designated effective 4–1–75 (Register 75, No. 1).
4. Amendment of Appendix = filed 1–30–86; effective thirtieth day thereafter (Register 86, No. 5).
5. Change without regulatory effect amending NOTE filed 7–22–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 30).

Appendix F

Energy Conservation

I. Introduction

The goal of conserving energy implies the wise and efficient use of energy. The means of achieving this goal include:

(1) decreasing overall per capita energy consumption,

(2) decreasing reliance on natural gas and oil, and

(3) increasing reliance on renewable energy sources.

In order to assure that energy implications are considered in project decisions, the California Environmental Quality Act requires that EIRs include a discussion of the potential energy impacts of proposed projects, with particular emphasis on avoiding or reducing inefficient, wasteful and unnecessary consumption of energy.

Energy conservation implies that a project's cost effectiveness be reviewed not only in dollars, but also in terms of energy requirements. For many projects, lifetime costs may be determined more by energy efficiency than by initial dollar costs.

II. EIR Contents

Potentially significant energy implications of a project should be considered in an EIR. The following list of energy impact possibilities and potential conservation measures is designed to assist in the preparation of an EIR. In many instances specific items may not apply or additional items may be needed.

A. Project Description may include the following items:

1. Energy consuming equipment and processes which will be used during construction, operation and/or removal of the project. If appropriate, this discussion should consider the energy intensiveness of materials and equipment required for the project.

2. Total energy requirements of the project by fuel type and end use.

3. Energy conservation equipment and design features.

4. Initial and life–cycle energy costs or supplies.

5. Total estimated daily trips to be generated by the project and the additional energy consumed per trip by mode.

B. Environmental Setting may include existing energy supplies and energy use patterns in the region and locality.

C. Environmental Impacts may include:

1. The project's energy requirements and its energy use efficiencies by amount and fuel type for each stage of the project's life cycle including construction, operation, maintenance and/or removal. If appropriate, the energy intensiveness of materials maybe discussed.

2. The effects of the project on local and regional energy supplies and on requirements for additional capacity.

3. The effects of the project on peak and base period demands for electricity and other forms of energy.

4. The degree to which the project complies with existing energy standards.

5. The effects of the project on energy resources.

6. The project's projected transportation energy use requirements and its overall use of efficient transportation alternatives.

D. Mitigation Measures may include:

1. Potential measures to reduce wasteful, inefficient and unnecessary consumption of energy during construction, operation, maintenance and/or removal. The discussion should explain why certain measures were incorporated in the project and why other measures were dismissed.

2. The potential of siting, orientation, and design to minimize energy consumption, including transportation energy.

3. The potential for reducing peak energy demand.

4. Alternate fuels (particularly renewable ones) or energy systems.

5. Energy conservation which could result from recycling efforts.

E. Alternatives should be compared in terms of overall energy consumption and in terms of reducing wasteful, inefficient and unnecessary consumption of energy.

F. Unavoidable Adverse Effects may include wasteful, inefficient and unnecessary consumption of energy during the project construction, operation, maintenance and/or removal that cannot be feasibly mitigated.

G. Irreversible Commitment of Resources may include a discussion of how the project preempts future energy development or future energy conservation.

H. Short–Term Gains versus Long–Term Impacts can be compared by calculating the energy costs over the lifetime of the project.

I. Growth Inducing Effects may include the estimated energy consumption of growth induced by the project.

NOTE: Authority cited: Sections 21083 and 21087, Public Resources Code. Reference: Sections 21000–21176. Public Resources Code.

HISTORY

1. New Appendix F filed 12–31–74 as an emergency; designated effective 1–7–75 (Register 75, No. 1).
2. Certificate of Compliance filed 4–29–75 (Register 75, No. 18).
3. Repealer and new Appendix F filed 10–8–76; effective thirtieth day thereafter (Register 76, No. 41). NOTE: Order designates that compliance with this appendix is authorized but not mandatory before 1–1–77.
4. Amendment of Section II filed 5–8–80; effective thirtieth day thereafter (Register 80, No. 19).
5. Change without regulatory effect amending section II.D.2. filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).

Appendix G

Environmental Checklist Form

1. Project title: _____

2. Lead agency name and address:

_____

_____

_____

3. Contact person and phone number: _____

4. Project location: _____

5. Project sponsor's name and address:

_____

_____

_____

6. General plan designation: _____ 7. Zoning: _____

8. Description of project: (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation. Attach additional sheets if necessary.)

_____

_____

_____

_____

9. Surrounding land uses and setting: Briefly describe the project's surroundings:

_____

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

☐ Aesthetics	☐ Agriculture Resources	☐ Air Quality
☐ Biological Resources	☐ Cultural Resources	☐ Geology/Soils
☐ Hazards & Hazardous Materials	☐ Hydrology/Water Quality	☐ Land Use/Planning
☐ Mineral Resources	☐ Noise	☐ Population/Housing
☐ Public Services	☐ Recreation	☐ Transportation/Traffic
☐ Utilities/Service Systems	☐ Mandatory Findings of Significance	

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

☐ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

☐ I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

☐ I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Signature _____ Date _____

Printed Name _____ For _____

EVALUATION OF ENVIRONMENTAL IMPACTS:

1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project–specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project–specific screening analysis).

2) All answers must take account of the whole action involved, including off–site as well as on–site, cumulative as well as project–level, indirect as well as direct, and construction as well as operational impacts.

3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.

4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from "Earlier Analyses," as described in (5) below, may be cross–referenced).

5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:

a) Earlier Analysis Used. Identify and state where they are available for review.

b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation based on the earlier analysis.

c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.

8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.

9) The explanation of each issue should identify:
a) the significance criteria or threshold, if any, used to evaluate each question; and
b) the mitigation measure identified, if any, to reduce the impact to less than significance.

SAMPLE QUESTION:
Issues:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
I. AESTHETICS—Would the project:				
a) Have a substantial adverse effect on a scenic vista?	☐	☐	☐	☐
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	☐	☐	☐	☐
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	☐	☐	☐	☐
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	☐	☐	☐	☐
II. AGRICULTURE RESOURCES: In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:				
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	☐	☐	☐	☐
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	☐	☐	☐	☐
c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?	☐	☐	☐	☐
III. AIR QUALITY—Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
a) Conflict with or obstruct implementation of the applicable air quality plan?	☐	☐	☐	☐
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	☐	☐	☐	☐
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	☐	☐	☐	☐
d) Expose sensitive receptors to substantial pollutant concentrations?	☐	☐	☐	☐
e) Create objectionable odors affecting a substantial number of people?	☐	☐	☐	☐

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IV. BIOLOGICAL RESOURCES—Would the project:				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	☐	☐	☐	☐
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?	☐	☐	☐	☐
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	☐	☐	☐	☐
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	☐	☐	☐	☐
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	☐	☐	☐	☐
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	☐	☐	☐	☐
V. CULTURAL RESOURCES—Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in § 15064.5?	☐	☐	☐	☐
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?	☐	☐	☐	☐
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	☐	☐	☐	☐
d) Disturb any human remains, including those interred outside of formal cemeteries?	☐	☐	☐	☐
VI. GEOLOGY AND SOILS—Would the project:				
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:	☐	☐	☐	☐
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist–Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	☐	☐	☐	☐

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
ii) Strong seismic ground shaking?	☐	☐	☐	☐
iii) Seismic–related ground failure, including liquefaction?	☐	☐	☐	☐
iv) Landslides?	☐	☐	☐	☐
b) Result in substantial soil erosion or the loss of topsoil?	☐	☐	☐	☐
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on– or off–site landslide, lateral spreading, subsidence, liquefaction or collapse?	☐	☐	☐	☐
d) Be located on expansive soil, as defined in Table 18–1–B of the Uniform Building Code (1994), creating substantial risks to life or property?	☐	☐	☐	☐
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste disposal systems where sewers are not available for the disposal of waste water?	☐	☐	☐	☐
VII. HAZARDS AND HAZARDOUS MATERIALS— Would the project:				
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	☐	☐	☐	☐
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	☐	☐	☐	☐
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one–quarter mile of an existing or proposed school?	☐	☐	☐	☐
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	☐	☐	☐	☐
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	☐	☐	☐	☐
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?	☐	☐	☐	☐
g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	☐	☐	☐	☐
h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	☐	☐	☐	☐

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VIII. HYDROLOGY AND WATER QUALITY—Would the project:				
a) Violate any water quality standards or waste discharge requirements?	☐	☐	☐	☐
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre–existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	☐	☐	☐	☐
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on– or off–site?	☐	☐	☐	☐
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on– or off–site?	☐	☐	☐	☐
e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	☐	☐	☐	☐
f) Otherwise substantially degrade water quality?	☐	☐	☐	☐
g) Place housing within a 100–year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	☐	☐	☐	☐
h) Place within a 100–year flood hazard area structures which would impede or redirect flood flows?	☐	☐	☐	☐
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	☐	☐	☐	☐
j) Inundation by seiche, tsunami, or mudflow?	☐	☐	☐	☐
IX. LAND USE AND PLANNING—Would the project:				
a) Physically divide an established community?	☐	☐	☐	☐
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	☐	☐	☐	☐
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	☐	☐	☐	☐

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
X. MINERAL RESOURCES—Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	☐	☐	☐	☐
b) Result in the loss of availability of a locally–important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	☐	☐	☐	☐
XI. NOISE—				
Would the project result in:	☐	☐	☐	☐
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	☐	☐	☐	☐
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?	☐	☐	☐	☐
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	☐	☐	☐	☐
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	☐	☐	☐	☐
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	☐	☐	☐	☐
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?	☐	☐	☐	☐
XII. POPULATION AND HOUSING—Would the project:				
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or directly (for example, through extension of roads or other infrastructure)?	☐	☐	☐	☐
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	☐	☐	☐	☐
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	☐	☐	☐	☐

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XIII. PUBLIC SERVICES a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:	☐	☐	☐	☐
Fire protection?	☐	☐	☐	☐
Police protection?	☐	☐	☐	☐
Schools?	☐	☐	☐	☐
Parks?	☐	☐	☐	☐
Other public facilities?	☐	☐	☐	☐
XIV. RECREATION—				
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	☐	☐	☐	☐
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?	☐	☐	☐	☐
XV. TRANSPORTATION/TRAFFIC—Would the project:				
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?	☐	☐	☐	☐
b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☐
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	☐	☐	☐	☐
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	☐	☐	☐	☐
e) Result in inadequate emergency access?	☐	☐	☐	☐
f) Result in inadequate parking capacity?	☐	☐	☐	☐
g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	☐	☐	☐	☐

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XVI. UTILITIES AND SERVICE SYSTEMS—				
Would the project:				
a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	☐	☐	☐	☐
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	☐	☐	☐	☐
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	☐	☐	☐	☐
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	☐	☐	☐	☐
e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	☐	☐	☐	☐
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	☐	☐	☐	☐
g) Comply with federal, state, and local statutes and regulations related to solid waste?	☐	☐	☐	☐
XVII. MANDATORY FINDINGS OF SIGNIFICANCE—				
a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	☐	☐	☐	☐
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?	☐	☐	☐	☐
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	☐	☐	☐	☐

HISTORY

1. New Appendix G filed 10–8–76; effective thirtieth day thereafter (Register 76, No 41). NOTE: Order designated that compliance with this appendix is authorized but not mandatory before 1–1–77.

2. Amendment of subsections (n) and (o) filed 2–2–78; effective thirtieth day thereafter (Register 78, No. 5).
3. Amendment of subsections (j) and (v) and new subsections (y) and (z) filed 5–8–80; effective thirtieth day thereafter (Register 80, No. 19).
4. Amendment of first paragraph and subsection (c) filed 5–27–97; operative 5–27–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
5. Repealer of former Appendix G and relettering and amendment of former Appendix I to new Appendix G filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).
6. Change without regulatory effect amending Appendix G filed 2–1–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 5).

Appendix H

Environmental Information Form

(To be completed by applicant)

Date Filed _____

GENERAL INFORMATION

1. Name and address of developer or project sponsor: _____

2. Address of project: _____

Assessor's Block and Lot Number _____

3. Name, address, and telephone number of person to be contacted concerning this project: _____

4. Indicate number of the permit application for the project to which this form pertains: _____

5. List and describe any other related permits and other public approvals required for this project, including those required by city, regional, state and federal agencies: _____

6. Existing zoning district: _____

7. Proposed use of site (Project for which this form is filed): _____

PROJECT DESCRIPTION

8. Site size.
9. Square footage.
10. Number of floors of construction.
11. Amount of off–street parking provided.
12. Attach plans.
13. Propose scheduling.
14. Associated projects.
15. Anticipated incremental development.
16. If residential, include the number of units, schedule of unit sizes, range of sale prices or rents, and type of household size expected.
17. If commercial, indicate the type, whether neighborhood, city or regionally oriented, square footage of sales area, and loading facilities.
18. If industrial, indicate type, estimated employment per shift, and loading facilities.
19. If institutional, indicate the major function, estimated employment per shift, estimated occupancy, loading facilities, and community benefits to be derived from the project.
20. If the project involves a variance, conditional use or rezoning application, state this and indicate clearly why the application is required.

Are the following items applicable to the project or its effects? Discuss below all items checked yes (attach additional sheets as necessary).

YES NO

___ ___ 21. Change in existing features of any bays, tidelands, beaches, lakes or hills, or substantial alteration of ground contours.
___ ___ 22. Change in scenic views or vistas from existing residential areas or public lands or roads.
___ ___ 23. Change in pattern, scale or character of general area of project.
___ ___ 24. Significant amounts of solid waste or litter.
___ ___ 25. Change in dust, ash, smoke, fumes or odors in vicinity.
___ ___ 26. Change in ocean, bay, lake, stream or ground water quality or quantity, or alteration of existing drainage patterns.
___ ___ 27. Substantial change in existing noise or vibration levels in the vicinity.
___ ___ 28. Site on filled land or on slope of 10 percent or more.
___ ___ 29. Use of disposal of potentially hazardous materials, such as toxic substances, flammables or explosives.
___ ___ 30. Substantial change in demand for municipal services (police, fire, water, sewage, etc.).
___ ___ 31. Substantially increase fossil fuel consumption (electricity, oil, natural gas, etc.).
___ ___ 32. Relationship to a larger project or series of projects.

ENVIRONMENTAL SETTING

33. Describe the project site as it exists before the project, including information on topography, soil stability, plants and animals, and any cultural, historical or scenic aspects. Describe any existing structures on the site, and the use of the structures. Attach photographs of the site. Snapshots or polaroid photos will be accepted.
34. Describe the surrounding properties, including information on plants and animals and any cultural, historical or scenic aspects. Indicate the type of land use (residential, commercial, etc.), intensity of land use (one–family, apartment houses, shops, department stores, etc.), and scale of development (height, frontage, set–back, rear yard, etc.). Attach photographs of the vicinity. Snapshots or polaroid photos will be accepted.

CERTIFICATION: I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge and belief.

_____ _____

(Address) (Address)

_____ _____

SUBJECT: Notice of Preparation of a Draft Environmental Impact Report

_____ will be the Lead Agency and will prepare an environmental impact report for the project identified below. We need to know the views of your agency as to the scope and content of the environmental information which is germane to your agency's statutory responsibilities in connection with the proposed project. Your agency will need to use the EIR prepared by our agency when considering your permit or other approval for the project.

The project description, location, and the probable environmental effects are contained in the attached materials. A copy of the Initial Study ☐ is, ☐ is not, attached.

Due to the time limits mandated by State law, your response must be sent at the earliest possible date but not later than 30 days after receipt of this notice.

Please send your response to _____ at the address shown above. We will need the name for a contact person in your agency.

HISTORY

1. Repealer and new Appendix I filed 8–19–94; operative 9–19–94 (Register 94, No. 33). For prior history, see Register 80, No. 19.
2. Relettering of former Appendix I to Appendix G and relettering of former Appendix J to new Appendix I filed 10–26–98; operative 10–26–98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).

Appendix J

Examples of Tiering EIR's

FIRST TIER EIR (15152)	• project encompasses separate but related projects such as general plan, zoning, development • later tiers move from general to specific analysis of projects
Later Project EIR	• later project is consistent with general plan or zoning • initial study must examine significant effects not covered in prior EIR • later EIR must state lead agency is using tiering concept and must comply with section 15152
STAGED EIR (15167)	• one large project will require a number of discretionary approvals from govt. agencies and one of those approvals will occur more than two years before construction commences
Supplement to the Staged EIR	• supplements to the staged EIR are prepared for later government agency approvals on the same overall project if information available at the time of that later approval would permit consideration of additional environmental impacts, mitigation measures or reasonable alternatives
PROGRAM EIR (15168)	• series of actions or activities that can be characterized as one large project and are related either: • geographically • as logical parts of a change of activities • in connection with rules, regulations, plans or other general criteria governing a continuing program • as individual activities carried out under common authority (statutory or regulatory) and having similar environmental effects which can be mitigated in similar ways
Subsequent Project EIR	• only if subsequent activity has effects not examined in the previously certified program EIR will additional environmental documentation be required (if subsequent activity has no new effects, that activity is covered by the program EIR)
MASTER EIR (15175)	• alternative to project, staged, or program EIR • can be used for: – general plan (or gen. plan element, amendment, or update) – redevelopment plan projects (public or private) – project consisting of phases or smaller individual projects – other activities described in 15175 • after five years from initial certification, adopting authority must review the Master EIR and prepare subsequent or supplemental EIR if substantial changes have occurred with resepct to circumstances under which the original Master EIR was adopted • no new EIR is required for subsequent projects within the scope of the Master EIR which cause no additional significant effect
Focused EIR (15177)	• a subsequent, Focused EIR is required only where: – substantial new/additional information shows adverse environmental effects not examined in Master EIR or more significant than described in EIR, or – substantial new/additional information shows mitigation measures previously determined to be infeasible are now feasible and will avoid/reduce the significant effects to a level of insignificance

SPECIAL SITUATIONS/EIRs

Multiple-family residential development/residential and commercial or retail mixed-use development (PRC 21158.5 and Guideline § 15179.5)

- project is multiple-family residential development up to 100 units or is a residential and commercial or retail mixed-use development of not more than 100,000 square feet
- if project complies with procedures in section 21158.5, only a focused EIR need be prepared, notwithstanding the fact that the project wasn't identified in the Master EIR

Redevelopment Project (15180)

- all public and private activities or undertakings in furtherance of a redevelopment plan (public or private) constitute a single project
- the redevelopment plan EIR is treated as a program EIR
- no subsequent EIR is required for individual components of the redevelopment plan unless substantial changes or substantial new information triggers a subsequent EIR or supplement to an EIR pursuant to (sections 15162 or 15163)

Housing/neighborhood commercial facilities (15181)

- a project involving construction of housing or neighborhood commercial facilities in an urbanized area
- a prior EIR for a specific plan, local coastal program, or port master plan may be used as the EIR for such a project (no new EIR need be prepared) provided section 15181 procedures are complied with

Projects Consistent with Community Plan, General Plan, or Zoning (15183)

- a project which is consistent with a community plan adopted as part of a general plan or zoning ordinance or a general plan of a local agency and where there was an EIR certified for the zoning action or master plan
- the EIR for the residential project need only examine certain significant environmental effects, as outlined in section 15183

Regulations on Pollution Control Equipment (PRC section 21159)

- section 21159 requires environmental analysis of reasonably foreseeable methods of compliance at the time of adoption of rule or regulation requiring the installation of pollution control equipment
- an EIR prepared at the time of adoption of the rule or regulation is deemed to satisfy the requirement of section 21159

Installation of Pollution Control Equipment (PRC section 21159.1)

- a focused EIR is permitted where project 1) consists solely of installation of pollution control equipment; 2) is required by rule or regulation adopted by the State Air Resources Board, an air pollution control district or air quality management district, the State Water Resources Control Board, a California regional water quality control board, the Dept. of Toxic Substances Control, or the California Integrated Waste Management Board; and 3) meets the procedural requirements outlined in section 21159.1

History

1. New Appendix J filed 2-2-78; effective thirtieth day thereafter (Register 78, No. 5).
2. Relettering of former Appendix J to Appendix I and new Appendix J filed 10-26-98; operative 10-26-98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).

Appendix K

Criteria for Shortened Clearinghouse Review

Under exceptional circumstances, and when requested in writing by the lead agency, the State Clearinghouse in the Office of Planning and Research (OPR) may shorten the usual review periods for proposed negative declarations, mitigated negative declarations and draft EIRs submitted to the Clearinghouse. A request must be made by the decision-making body of the lead agency, or by a properly authorized representative of the decision-making body.

A shortened review period may be granted when any of the following circumstances exist:

(1) The lead agency is operating under an extension of the one-year period for completion of an EIR and would not otherwise be able to complete the EIR within the extended period.

(2) The public project applicant is under severe time constraints with regard to obtaining financing or exercising options which cannot be met without shortening the review period.

(3) The document is a supplement to a draft EIR or proposed negative declaration or mitigated negative declaration previously submitted to the State Clearinghouse.

(4) The health and safety of the community would be at risk unless the project is approved expeditiously.

(5) The document is a revised draft EIR, or proposed negative declaration or mitigated negative declaration, where changes in the document are primarily the result of comments from agencies and the public.

Shortened review cannot be provided to a draft EIR or proposed negative declaration or mitigated negative declaration which has already begun the usual review process. Prior to requesting shortened review, the lead agency should have already issued a notice of preparation and received comments from applicable State agencies, in the case of an EIR, or consulted with applicable State agencies, in the case of a proposed negative declaration or mitigated negative declaration.

No shortened review period shall be granted unless the lead agency has contacted and obtained prior approval for a shortened review from the applicable state responsible and trustee agencies. No shortened review shall be granted for any project which is of statewide, regional, or areawide significance, as defined in Section 15206 of the guidelines.

History

1. New Appendix K filed 7-13-83; effective thirtieth day thereafter (Register 83, No. 29).
2. Editorial correction of 7-13-83 order redesignating effective date to 8-1-83 filed 7-14-83 (Register 83, No. 29).
3. Repealer of Appendix K and relettering of former Appendix L to new Appendix K filed 10-26-98; operative 10-26-98 pursuant to Public Resources Code section 21087 (Register 98, No. 44).

Division 6.3. Office of Planning and Research

Chapter 1. Regulations for Designation of Lead Agency for the Preparation of Environmental Documents

Article 1. General

§ 16000. Authority.

The regulations contained herein are prescribed by the Director of the Office of Planning and Research pursuant to authority granted in Div. 13, Pub. Resources Code and Title 7, Division 1, Chapter 1.5, Gov. Code, and to implement, interpret or make specific Section 21165 of the Pub. Resources Code consistent with the Guidelines for Implementation of the California Environmental Quality Act of 1970 (Div. 6, Title 14, Cal. Adm. Code) and to establish criteria and procedures for designation of the lead agency for the preparation of environmental documents in the event of a dispute between two or more public agencies.

NOTE: Authority cited: Section 21082, Public Resources Code and Title 7, Division 1, Chapter 1.5, Gov. Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. New Division 6.3 (§§ 16000 through 16041) filed 4–12–74; effective thirtieth day thereafter (Register 74, No. 5).
2. Amendment filed 11–22–78; effective thirtieth day thereafter (Register 78, No. 47).

Article 2. Purpose

§ 16001. Purpose.

The purpose of these regulations is to specify the criteria and procedures to be followed by the Office of Planning and Research in resolving lead agency disputes.

Article 3. Policy

§ 16002. Policy.

It is the policy of the Office of Planning and Research that these regulations implement the principles, objectives and criteria for the designation of a lead agency specified in the State Guidelines.

Article 4. Submission of Dispute to OPR

§ 16010. Definitions.

Words used in these regulations, unless otherwise defined, shall have the meaning ascribed to them in the State Guidelines. In addition, the following definitions not contained in the State Guidelines are used:

(a) State Guidelines means the Guidelines for Implementation of the California Environmental Quality Act of 1970 adopted by the Secretary for Resources (Div. 6, Title 14, Cal. Adm. Code Sections 15000–15180).

(b) OPR means the Office of Planning and Research.

(c) Director means the Director of the Office of Planning and Research or the Director's designee.

(d) Interested Person means public agencies having jurisdiction over the project, public agencies which approve or comment on the project, consultants hired with respect to the project, and individuals or groups known to be interested in the project.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Repealer of Article 4 (Sections 16010–16017) and new Article 4 (Sections 16010–16016, not consecutive) filed 11–22–78;effective thirtieth day thereafter (Register 78, No. 47).

§ 16011. General.

In the event a dispute arises between two or more public agencies as to which agency shall be a "lead agency" pursuant to the State Guidelines, the following procedures and criteria shall apply.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5. Government Code Reference Section 21165, Public Resources Code.

§ 16012. Dispute, What Constitutes.

As used in these regulations, "dispute" means a contested, active difference of opinion between two or more public agencies as to which shall prepare environmental documents. A dispute exists where each such public agency claims that it either has or does not have the obligation to prepare such environmental documents. OPR will not designate the lead agency in the absence of such a dispute.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

§ 16013. Public Agency Consultation.

Prior to submission of a request for designation to OPR, the disputing agencies, or the disputing agencies and the project applicant for a project described in subdivision (c) of Section 21065 if such applicant requests the designation, shall consult with each other in an effort to resolve the dispute pursuant to the State Guidelines. Such consultation should include efforts to designate a lead agency by agreement. Such agencies or applicant may request OPR to assist in arranging for this consultation.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

§ 16014. Request for Designation.

A request for designation of the lead agency pursuant to this Article shall be made in writing to the Director. It shall be signed by an executive of the public agency making the request, or by the project applicant for a project described in subdivision (c) of Section 21065 if such applicant requests the designation. A complete request shall set forth:

(a) The general nature of the dispute,

(b) The other disputing agencies,

(c) Written information showing that the requesting agency or project applicant and the other disputing agencies have consulted pursuant to Section 16013 in an effort to resolve the dispute,

(d) A statement of contentions pursuant to Section 16015 from the agency or project applicant requesting the designation, and

(e) Written information showing that the agency or applicant requesting the designation has given notice in writing to, and such notice has been received by, all disputing agencies and the project applicant, stating that; i) the dispute is being submitted to OPR for resolution; and that, ii) each disputing agency is required to prepare and send a statement of contentions to OPR within 10 days after receipt of such notice.

OPR may require as a part of the application that notice of the request be published in newspapers of general circulation where the lead agency dispute exists. Such notice may allow for submission of written comments on or before a specified date, and it may also state whether or not a hearing will be held, and may specify the time and place of the hearing.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

§ 16015. Statement of Contentions: List of Interested Persons.

(a) In the event that the lead agency dispute is not resolved by consultation pursuant to Section 16013, and upon a request for designation made pursuant to Section 16014, the Director shall require a statement of contentions from each disputing agency and from the project applicant if requesting the designation, and may require a statement of contentions from the project applicant if not requesting the designation.

(b) Each disputing agency shall prepare a written statement of contentions in support of its claim as to which agency should or should not be the lead agency. The statement shall contain the following information:

(1) A description of the project.

(2) A description of the agency's responsibility for constructing, approving, supervising, and financing the project as a whole.

(3) Citation of the agency's general governmental powers relating to the project.

(4) Data outlining all aspects of the agency's relationship to the project.

(5) The date the agency first undertook formal action, if any, on the project and a chronology of actions taken and to be taken concerning the project.

(6) A list of all interested persons who might comment on the project.

(7) Such other information as the Director may require.

(c) The project applicant requesting the designation, or a project applicant required by the Director pursuant to subdivision (a), shall prepare a written statement of contentions which shall contain the following information:

(1) A description of the project.

(2) A list of all interested persons who might comment on the project.

(3) A brief statement as to which disputing agency, if any, the applicant believes is appropriate to adequately fulfill the requirements of CEQA and complies with the lead agency criteria set forth in State Guidelines Section 15065, and the applicant's reasons in support thereof.

(4) Such other information as the Director determines would assist in designating the appropriate lead agency.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

§ 16016. Distribution of Statement.

Each disputing agency shall mail a copy of the statement of contentions to all other disputing agencies, to the applicant, and to OPR within 10 calendar days after the agency receives the notice specified in Section 16014. If an agency requested the designation, the agency shall mail such statement to all other disputing agencies and to the applicant when the agency submits a completed request to OPR. Each disputing agency shall make such statement or an informative summary thereof available to all interested persons upon request. If an informative summary is used, interested persons shall be given the full statement of contentions upon request.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

Article 5. Designation on the Statements

§ 16020. Designation on the Statements.

The Director may designate a lead agency on the basis of the completed requests and written statements, or may require a hearing. The Director may request additional written information from any disputing agency, applicant, or interested person without extending the time period for designation provided in Section 16021. Written notice of such request shall be given to all disputing agencies and the project applicant if the applicant has been required to submit a statement of contentions.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Amendment filed 11–22–78; effective thirtieth day thereafter (Register 78, No. 47).

§ 16021. Designation: Findings.

In making a designation of lead agency, the Director shall find which of the disputing agencies is most appropriate to carry out the obligations of a lead agency. In making this finding, the Director shall consider the capacity of each such agency adequately to fulfill the requirements of CEQA. In addition, the Director shall consider the lead agency criteria set forth in the State Guidelines Section 15065. Generally, such criteria will control unless the Director finds that another agency has greater capacity to carry out the requirements of CEQA. The designation shall be made within 21 calendar days of receipt by OPR of the completed request for designation.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Amendment filed 11–22–78; effective thirtieth day thereafter (Register 78, No. 47).

§ 16022. Designation: Form.

The designation shall be in writing and it shall be published in the *California EIR Monitor* and made available to all public agencies involved in the dispute and to all interested persons. The designation shall name the lead agency and it shall include findings upon which the designation is made. It shall be signed by the director.

Article 6. Hearing

§ 16030. Hearing: When Called.

If the Director finds on the basis of consultation pursuant to Section 16013 or the completed request for designation that the dispute involves issues of general application to other projects, or is of regional or statewide impact, or that the project involves substantial public interest or concern, the Director may require a hearing prior to making a designation. Notice of the time and place of the hearing shall be published in newspapers of general circulation where the dispute exists and be sent to all interested parties, disputing agencies, and the applicant not later than 7 calendar days after receiving the completed request for designation.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Amendment filed 11–22–78; effective thirtieth day thereafter (Register 78, No. 47).

§ 16031. Presiding Officer.

The presiding officer at the hearing shall be the Director or any other person designated by the Director.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Amendment filed 11–22–78; effective thirtieth day thereafter (Register 78, No. 47).

§ 16032. Order of Proceedings.

(a) The hearing will ordinarily proceed in the following order:

(1) Identification of the dispute and a brief, fair summary of correspondence received by the presiding officer.

(2) Presentation by or on behalf of the disputing agency which initially submitted a request for certification pursuant to Section 16014, if such agency wishes to expand upon the material contained in its statement of contentions.

(3) Other disputing agencies wishing to expand upon the material contained in their statement of contentions.

(4) Other speakers concerning the dispute. Any person wishing to speak shall be heard.

(b) Questions by the presiding officer may be asked at any time during any presentations.

(c) A record of the testimony may be made.

§ 16033. Presentations.

Presentations shall be to the point, shall be as brief as possible and shall assume that OPR is familiar with the dispute from reading the statement of contentions.

§ 16034. Summary of Hearing.

The presiding officer may prepare a summary of the testimony at the hearing and shall prepare a recommended decision. The director shall consider the summary and recommended decision together with the statement of contentions and any other material presented at the hearing in making his decision.

§ 16035. Designation: Findings.

The provisions of Section 16021 shall apply to a designation made pursuant to this Article.

Article 7. Administrative Record

§ 16040. Administrative Record.

For the purposes of any court proceeding, the administrative record of OPR shall be deemed to be the request or requests for designation, the statement of contentions, the correspondence received with regard to the dispute, evidence introduced at the hearing, if any, the record of the hearing, if one is made, the hearing summary and recommended decision, and any other evidence considered by the Director.

NOTE: Authority cited: Division 13, Public Resources Code; Title 7, Division 1, Chapter 1.5, Government Code. Reference: Section 21165, Public Resources Code.

HISTORY

1. Amendment filed 11-22-78; effective thirtieth day thereafter (Register 78, No. 47).

§ 16041. Final Decision.

The decision of the director, whether made under Article 5. or 6. of this Division, shall be final and binding on the parties to the dispute.

Article 1. General 763
§ 17897. Purpose, Scope and Applicability.
§ 17897.10. Definitions.
§ 17897.15. Schedules of Compliance.

Article 2. Standards 764
§ 17897.16. General Standards.
§ 17897.18. Design and Operating Requirements.
§ 17897.19. Additional Requirements.
§ 17897.20. Inspection Requirements.

Article 3. Excavation Requirements 765
§ 17897.21. Excavation Requirements.

Article 4. Closure and Post Closure 766
§ 17897.24. General.

Article 5. LEA Standards and Authorization 766
§ 17897.25. Authorized ACW Program.

Chapter 4. Resource Conservation Programs 766

Article 1. Recycling Market Development Zone Designation Process 766
§ 17900. Introduction.
§ 17901. Definitions.
§ 17902. How does a Recycling Market Development Zone designation cycle start?
§ 17903. What is the deadline for getting my application to the Board?
§ 17904. What if the Board receives my application after the deadline?
§ 17905. What do I need to include in my Zone application?
§ 17906. What will the Board consider when reviewing my application?
§ 17907. What information must be included in my recycling market development plan?
§ 17908. What happens if my recycling market development plan is accepted?
§ 17909. What are statewide recycling market development objectives?
§ 17910. What happens if the Board designates my area as a Zone?
§ 17911. I have completed all conditions listed in my Notification. When can I get final designation?
§ 17912. When does my final designation become effective?
§ 17913. Do I have to submit regular reports?
§ 17913.5. Can a Zone Terminate Its Zone Designation?
§ 17914. Can a Zone be redesignated?
§ 17914.5. What is the Board's process for reviewing Zone redesignation applications and redesignating Zones?

§ 17915. Do composting industries qualify for the incentives offered in a Recycling Market Development Zone?
§ 17916. Resource Recovery Facility (Site).
§ 17917. Solid Wastes or Wastes.
§ 17918. Solid Waste Management.
§ 17919. Transfer Station.
§ 17920. Waste Processing Facility (Site).
§ 17921. Environmental Impact Report Notice of Completion.
§ 17925. Purpose.
§ 17926. Filing of Notice of Intent.
§ 17927. Facility Location and Information.
§ 17928. Land Use Approval.
§ 17929. Justification of Need.

Article 1.1. Recycling Market Development Revolving Loan Program 767
§ 17930. Purpose of the Recycling Market Development Revolving Loan Program.
§ 17931. Definitions.
§ 17932. Eligible Applicants.
§ 17932.1. Tire Recycling Projects.
§ 17933. Priority Projects.
§ 17934. Loan Amounts.
§ 17934.1. Uses of Funds.
§ 17934.3. Fees.
§ 17934.5. Interest Rate.
§ 17935. Application Process.
§ 17935.1. Application Content.
§ 17935.2. Loan Agreement.
§ 17935.3. Process for Preliminary Review.
§ 17935.4. Process for Board Staff Review.
§ 17935.5. Establishment of the Loan Committee.
§ 17935.55. Process for Loan Committee Review.
§ 17935.6. Board Approval.
§ 17936. Auditing of Expenditures of Loan Proceeds.
§ 17937. Coordination with the County.
§ 17938. Determination of Findings by the Board.
§ 17939. Determination of Non–Conformance.

Article 1.2. Leveraging the Recycling Market Development Zone Revolving Loan Fund 770
§ 17939.1. Purpose of Leveraging the Revolving Loan Fund.
§ 17939.2. Definition.
§ 17939.3. Types of Leveraging Entities and Programs.
§ 17939.4. Leveraging Activities.
§ 17939.5. Loan Sale.

Article 2. Recycling Investment Tax Credit Program 770.1
§ 17940. Regulatory Effect of Questions.
§ 17941. Recycling Investment Tax Credit Program.

Article 3. Rigid Plastic Packaging Container Program 770.1
§ 17942. Regulatory Effect of Questions and Answers; Effective Dates.
§ 17943. Purpose and Definitions.
§ 17944. Container Requirements.
§ 17944.2. How Will Waivers Be Granted?
§ 17944.5. Exempt Rigid Plastic Packaging Containers.
§ 17945. Who Must Comply With These Regulations?

§ 18443. Inspection.
Article 7. Records 806.40
§ 18445. Record Keeping.
§ 18447. Retention of Records.
§ 18448. Certification of Records.
Article 8.5. Waste Tire Hauler Registration and Manifesting Requirements for Used and Waste Tire Haulers, Retreaders, Used and Waste Tire Generators, and Used and Waste Tire End–Use Facilities 806.41
§ 18449. Scope.
§ 18450. Definitions.
§ 18451. Applicability of These Regulations.
§ 18452. Exemptions from Registration As a Waste Tire Hauler.
§ 18453. Exemption Certification for Agricultural Purposes or Common Carrier Hauling Used or Waste Tires on a Return Trip.
§ 18453.1. Cost to Receive an Exemption from Waste Tire Hauler Registration.
§ 18453.2. Valid Exemption Period and Renewal.
§ 18453.3. When Should an Exemption Be Renewed?
§ 18454. Waste Tire Hauler Initial Registration.
§ 18454.1. Who Must Obtain an Initial Waste Tire Hauler Registration?
§ 18454.2. When Should I Obtain an Initial Waste Tire Hauler Registration?
§ 18454.3. How Long Is the Initial Waste Tire Hauler Registration Valid?
§ 18454.4. How Do I Obtain an Initial Waste Tire Hauler Registration?
§ 18454.5. Are There any Costs for the Initial Waste Tire Hauler Registration?
§ 18455. Waste Tire Hauler Renewal Registration.
§ 18455.1. How do I Renew the Waste Tire Hauler Registration?
§ 18455.2. When Should I Renew a Waste Tire Hauler Registration?
§ 18455.3. Are There any Costs for Renewal of the Waste Tire Hauler Registration?
§ 18456. Waste Tire Hauler Registration Application and Retreader Self–Certification Form.
§ 18456.1. Waste Tire Hauler Surety Bond Application Process.
§ 18456.2. Waste Tire Hauler Registration Process.
§ 18456.2.1. Retreader Self–Certification Process.
§ 18456.3. Changes in Information Provided or Lost Registration Documents.
§ 18456.4. Temporary Registration of Alternate Vehicles.
§ 18456.6. What will the Board do with the Initial Waste Tire Hauler Registration Application Once it is Submitted for Review?
§ 18456.7. What will the board do with the Waste Tire Hauler Registration Renewal Application Once it is Submitted for Review?

Page

§ 18456.8. When the Waste Tire Hauler Registration Application is Approved, What Documents Will be Provided to Me?
§ 18456.9. If an Applicant Wishes to Obtain Registration for an Additional Vehicle, Does a New Application Need to be Submitted?
§ 18456.10. If a Registered Vehicle has been Sold or is no Longer Used for Waste Tire Hauling, Must I Inform the Board?
§ 18456.11. How Do I Notify the Board of a Change in Business Ownership?
§ 18456.12. Do I Need to Notify the Board if I Change my Address?
§ 18456.13. What If I Lose the Decal(s) or Registration(s)?
§ 18457. Waste Tire Hauler Registration Denial, Suspension, and Revocation.
§ 18457.1. Waste Tire Hauler Registration Suspension.
§ 18458. Request for Hearing of Denial, Suspension, or Revocation of Waste Tire Hauler Registration.
§ 18458.1. What Steps Can I Take for Board Reconsideration of my Waste Tire Hauler Application?
§ 18459. Waste Tire Manifest System Requirements.
§ 18459.1. Tire Program Identification Number.
§ 18459.1.2. Electronic Data Transfer and Web–Based Data Entry Requirements.
§ 18459.2. Waste Tire Hauler Manifest Form Signature Requirements.
§ 18459.2.1. Submittal of the Comprehensive Trip Log, Manifest Form, Tire Trip Log, Retreader Trip Log, and Electronic Reporting to the Board.
§ 18459.3. Maintenance of Comprehensive Trip Logs, Retreader Trip Logs, Manifest Forms and Tire Trip Logs.
§ 18459.4. Who Signs the Manifest?
§ 18459.5. Who Receives Copies of the Manifest and When?
§ 18459.6. Who Keeps Copies of the Manifest and for How Long?
§ 18459.7. Where Do I Get Waste Tire Hauler Manifest Forms CIWMB–62?
§ 18460. Waste Tire Hauler Manifest System Requirements.
§ 18460.1. Waste Tire Manifest System Requirements for Agricultural Uses Exemption.
§ 18460.1.1. Waste Tire Manifest System Requirements for Common Carrier Exemption.
§ 18460.2. Waste Tire Manifest System Requirements for Waste Tire Haulers.
§ 18460.2.1. Waste Tire Manifest System Requirements for Retreaders.
§ 18460.3. What if the Tire Dealer/Waste Tire Generator Does Not Properly Complete the Manifest Form?
§ 18460.4. What are Legally Authorized Waste Tire Sites?
§ 18461. Manifest System Requirements for Waste Tire End–Use Facilities.

Page

§ 18461.1. My Site Accepts Waste Tires. What Shall I do as the Operator of a Destination Facility if a Waste Tire Hauler Who is Not Registered With the Board and/or Has No Manifest Delivers Waste Tires to My Site?
§ 18461.2. How Can I Demonstrate That My Facility is Authorized to Accept Waste Tires?
§ 18462. Manifest System Requirements for Waste Tire Generators.
§ 18462.1. Can I Give Tires to a Person Wanting to Haul my Waste Tires but Who Doesn't Have a Registration or is Not Exempt From the Registration?
§ 18462.2. Do I need to Know the Destination Site or Collection Facility for the Waste Tires?
§ 18463. Civil Penalties.
§ 18464. Amount of Civil Penalties and Administrative Penalty Schedule.
§ 18465. Criteria to Impose a Civil Penalty.
§ 18466. Procedure for Imposing Civil Penalties.

Article 9. Financial Assurance Requirements for Closure of a Major Waste Tire Facility 806.53
§ 18470. Scope and Applicability.
§ 18471. Definitions.
§ 18472. Closure Cost Estimate Adjustments.
§ 18473. Acceptable Mechanisms and Combination of Mechanisms.
§ 18474. Trust Fund.
§ 18475. Surety Bond.
§ 18476. Letter of Credit.
§ 18477. Government Securities.
§ 18478. Enterprise Fund.
§ 18478.5. State Approved Mechanism.
§ 18479. Substitution of Mechanisms by Operator.
§ 18480. Bankruptcy or Other Incapacity of an Operator or Provider of Financial Assurance.
§ 18481. Recordkeeping and Reporting Requirements.
§ 18482. Release from Financial Assurance Requirements for Closure Costs.

Article 10. Financial Responsibility for Operating Liability Claims of Major Waste Tire Facilities 806.58
§ 18485. Scope and Applicability.
§ 18486. Definitions.
§ 18487. Amount of Required Coverage.
§ 18488. Acceptable Mechanisms and Combinations of Mechanisms.
§ 18489. Trust Fund.
§ 18490. Government Securities.

§ 18577. Grant Amount.
§ 18578. Eligible Costs.
§ 18579. Ineligible Costs.
§ 18580. Payments.

Chapter 8. Used Oil Recycling Program .... 806.70(a)

Article 1. General Provisions and Definitions ..... 806.70(a)
§ 18600. Introduction.
§ 18601. Definitions.

Article 2. General Recordkeeping Requirements ..... 806.70(b)
§ 18610. Scope and Applicability.
§ 18611. Will the Board Examine My Books and Records to Determine Whether I Comply with These Regulations?
§ 18612. Are the Reports and Information that I Submit to the Board Public Documents?
§ 18613. Articles 3, 4, and 5 of this Chapter Describe Specific Records that I Must Maintain. How Must I Maintain These Records?
§ 18614. Articles 3, 4, and 5 of this Chapter Contain Specific Reporting Requirements. How Do I Submit Reports, Notices, and Applicable Supporting Documents to the Board?
§ 18614.1. What If My Report Does Not Contain All of the Information Required by Section 18614 of this Article?
§ 18615. When are Reports Due to the Board?
§ 18616. On What Date is a Report, Complaint, Payment, Notice or Other Information Considered to be Submitted to the Board?

Article 2.1. Recordkeeping, Auditing, and Administrative Actions for Entities Claiming Recycling Incentives 806.72
§ 18619.1. Scope and Applicability.
§ 18619.2. Will The Board Examine My Books, Records, and Operations to Determine Whether I Am in Compliance With The Program Requirements?
§ 18619.3. How Must Records Be Maintained to Satisfy The Requirements of This Chapter?
§ 18619.4. Are the Reports and Information That I Submit to the Board Public Documents?
§ 18619.5. What Happens If My Certified or Registered Used Oil Collection Program Is Not In Compliance With the Requirements of the Act or of This Chapter?

Article 3. Oil Manufacturers 806.73
§ 18620. Applicability.
§ 18621. As an Oil Manufacturer, What Records Am I Required to Maintain?
§ 18622. As an Oil Manufacturer, What Reports Must I Submit to the Board?
§ 18623. What Date is Considered the Date of Sale?
§ 18624. How Should Payments be Made to the Board and When Are They Due?
§ 18625. How Do I Notify Those Who Purchase Lubricating Oil From Me That the Fee Has Been Paid?

Article 3.1. Exemptions 806.74
§ 18626. Exemption Certificates.
§ 18626.99. Certificate of Registration.
§ 18627. Refund of Lubricating Oil Payment.

Article 4. Used Oil Haulers 806.74
§ 18630. Scope and Applicability.
§ 18631. As a Used Oil Hauler, What Records Am I Required to Maintain?
§ 18632. What Specific Information Am I Required to Include on Each Modified Manifest Receipt?
§ 18633. Am I Required to Provide Any Specific Information to the Recipients of the Used Oil I Deliver?
§ 18634. As a Used Oil Hauler, What Reports Must I Submit to the Board?

Article 5. Used Oil Recycling Facilities 806.75
§ 18640. Scope and Applicability.
§ 18641. As the Operator of a Used Oil Recycling Facility, What Records Am I Required to Maintain?
§ 18642. As an Operator of a Used Oil Recycling Facility, What Reports Must I Submit to the Board?
§ 18643. Records of Transaction.
§ 18643.0. Who May Become a Certified Used Oil Recycling Facility?
§ 18643.1. Why Should I Become a Certified Used Oil Recycling Facility?
§ 18643.2. As An Operator of a Used Oil Recycling Facility, Must I Apply For Certification/Recertification of the Facility?
§ 18643.3. How Does The Board Certify or Recertify a Used Oil Recycling Facility?
§ 18643.4. As an Operator of a Used Oil Recycling Facility, What Should I Do With the Certificate That the Board Issues to Me?
§ 18643.5. How Long Is a Certificate Valid?
§ 18643.6. Is the Certificate Transferrable?
§ 18643.7. Is There a List of Certified Used Oil Recycling Facilities Available?
§ 18644. Annual Report.

Article 6.0. Used Oil Collection Center Certification and Operation Standards 806.77
§ 18650.0. Scope and Applicability.
§ 18650.1. Who May Apply for Certification?
§ 18650.2. How Do I Apply for Certification?
§ 18650.3. What Information Am I Required to Provide in the Application for Certification?
§ 18650.4. How Does the Board Process an Application for Certification of a Used Oil Collection Center?
§ 18650.5. May a Person Withdraw an Application for Certification?

Page

§ 18650.6. As the Operator of a Certified Used Oil Collection Center, Might There Ever be an Occasion When I Will Need to Submit a New Application?
§ 18650.61. As the Operator of a Certified Used Oil Collection Center, What Should I Do if I Decide to Cease Collection Center Operations?
§ 18650.7. What Should I Do with the Certificate Once I Have Received It?
§ 18650.8. When Does My Certificate Expire?
§ 18650.9. Is a Certificate Transferrable or Assignable?
§ 18651.0. What Must I Do with a Certificate Sign Once I Have Received It?
§ 18651.1. What If Local Zoning Ordinances Prevent Posting of the Sign Provided by the Board?
§ 18651.2. What Are the Required Operational Procedures for Certified Used Oil Collection Centers?
§ 18651.3. How Do I Calculate the Amount of Recycling Incentive I Owe to a Person Delivering Used Oil?
§ 18651.4. As the Operator of a Certified Used Oil Collection Center, How Do I Comply with the Act's Requirement for Periodic Advertising in Local Media?
§ 18651.5. As a Certified Used Oil Collection Center, How Can I Determine If Used Oil is Contaminated in Excess of That Which Would Occur Through Normal Use?
§ 18651.6. Under What Conditions Will a Contaminated Used Oil Shipment Be Eligible for Reimbursement of Disposal Costs, Pursuant to Section 48660.5 of the Public Resources Code?
§ 18651.7. What Constitutes One Shipment in Regards to Reimbursement of Disposal Costs, Pursuant to Section 48660.5 of the Public Resources Code?
§ 18651.8. How Do I Apply for Reimbursement of Additional Disposal Costs Pursuant to Public Resources Code Section 48660.5?
§ 18651.9. Must Certified Used Oil Collection Centers Maintain Written Procedures to Prevent the Acceptance of Contaminated Used Lubricating Oil?

Article 6.1. Registration Requirements for Industrial Generators, Operators of Curbside Collection Programs, and Electric Utilities 806.82
§ 18653.0. Scope and Applicability.
§ 18653.1. Purpose.
§ 18653.2. As an Industrial Generator, Operator of Curbside Collection Program, or Electric Utility, How Do I Register to Receive Payment of Recycling Incentives?
§ 18653.3. What Information Am I Required to Provide in the Application for Registration?
§ 18653.4. What Will the Board Do with the Application for Registration Once It is Submitted for Review?
§ 18653.5. As an Industrial Generator, Operator of a Curbside Collection Program, or an Electric Utility, May I Withdraw an Application for Registration?
§ 18653.6. As an Industrial Generator, an Operator of a Curbside Collection Program, or an Electric Utility Which Has Already Registered, Might There Ever Be an Occasion When I Will Need to Submit a New Application?
§ 18654. How Does the Board Calculate Used Oil Recycling Rates?

Article 7. Recycling Incentive Payments 806.84
§ 18655.1. Who Can Receive Recycling Incentive Payments?
§ 18655.2. On What Used Oil Can a Recycling Incentive Be Paid?
§ 18655.3. When Can an Incentive Claim Be Submitted?
§ 18655.4. How Long After Used Oil Is Hauled Away, or Used to Generate Electricity By an Electric Utility Must an Incentive Claim Be Submitted?
§ 18655.5. How Do Incentive Claims Relate to Quarterly Reports, as Described in Public Resource Code Section 48670?
§ 18655.51. If I Operate More Than One Certified Used Oil Collection Center, May I Submit a Single Recycling Incentive Claim?
§ 18655.6. What Must Be Submitted With an Incentive Claim?
§ 18655.7. Where Are Incentive Claims Submitted?
§ 18655.8. What Records Must I Keep to Support an Incentive Claim?
§ 18655.9. What Happens If My Incentive Claim is Rejected?
§ 18656.0. How Long Will It Take for the Board to Process My Claim?

Article 8. General Provisions for Used Oil Recycling Grants 806.86
§ 18658.0. Scope and Applicability.
§ 18658.1. Programs Eligible for Funding.
§ 18658.2. Grant Application Process.
§ 18658.3. Grant Application Period.

Article 8.1. Local Government Block Grants 806.87
§ 18659.0. Grant Amount.
§ 18659.1. Contents of the Grant Application.
§ 18659.2. Review of Grant Application.
§ 18659.3. Terms and Conditions of a Grant Agreement.
§ 18659.4. Payment of Grant Funds.
§ 18659.5. Auditing.

Chapter 8.2. Electronic Waste Recovery and Recycling 806.88

Article 1. General 806.88
§ 18660.5. Definitions.

Article 2.0. Electronic Waste Payment System — Applicability and Limitations, Document Submittals, Records, Audits and Net Cost Report ..... 806.88(b)

Chapter 1. General Provisions

Article 1. Emergency Waiver of Standards

§ 17000. Waiver of Standards.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 1 heading and section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Editorial correction of HISTORY 3 (Register 95, No. 36).
5. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 36).

§ 17001. Purpose and Limitations of Waiver.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 6).
5. Editorial correction of HISTORY 3, adding HISTORY 4, and deleting text (Register 95, No. 36).

§ 17002. Reporting Requirement.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 6).
5. Editorial correction of HISTORY 3, adding HISTORY 4, and deleting text (Register 95, No. 36).

§ 17003. Effect on Other Standards.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 6).
5. Editorial correction of HISTORY 3, adding HISTORY 4, and deleting text (Register 95, No. 36).

§ 17004. Diversion Requirements.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 6).
5. Editorial correction of HISTORY 3, adding HISTORY 4, and deleting text (Register 95, No. 36).

§ 17005. LEA Report to the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 6).
5. Editorial correction of HISTORY 3, adding HISTORY 4, and deleting text (Register 95, No. 36).

§ 17006. Executive Director's Duties and Powers Relative to the Waiver.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 2–11–93 as an emergency; operative 2–11–93 (Register 93, No. 7). A Certificate of Compliance must be transmitted to OAL 6–11–93 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 4.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 46).
3. New section filed 11–12–93 as an emergency; operative 11–12–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL 3–12–94 or emergency language will be repealed by operation of law on the following day.
4. Repealed by operation of Government Code section 11346.1(g) (Register 95, No. 6).
5. Editorial correction of HISTORY 3, adding HISTORY 4, and deleting text (Register 95, No. 36).

§ 17008. Waiver of Standards.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 1–21–94 as an emergency; operative 1–21–94 (Register 94, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–23–94 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–19–94 as an emergency; operative 5–19–94 (Register 94, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–16–94 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–19–94 as an emergency; operative 9–19–94 (Register 94, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–17–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–19–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–18–95

or emergency language will be repealed by operation of law on the following day.

5. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
6. New section refiled 9–15–95 as an emergency; operative 9–15–95 (Register 95, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–15–96 or emergency language will be repealed by operation of law on the following day.
7. Repealed by operation of Government Code section 11346.1(g) (Register 96, No. 22).

§ 17009. Purpose and Limitations of Waiver.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 1–21–94 as an emergency; operative 1–21–94 (Register 94, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–23–94 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–19–94 as an emergency; operative 5–19–94 (Register 94, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–16–94 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–19–94 as an emergency; operative 9–19–94 (Register 94, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–17–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–19–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–18–95 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
6. New section refiled 9–15–95 as an emergency; operative 9–15–95 (Register 95, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–15–96 or emergency language will be repealed by operation of law on the following day.
7. Repealed by operation of Government Code section 11346.1(g) (Register 96, No. 22).

§ 17010. Reporting Requirement.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 1–21–94 as an emergency; operative 1–21–94 (Register 94, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–23–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 14.
2. New section refiled 5–19–94 as an emergency; operative 5–19–94 (Register 94, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–16–94 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–19–94 as an emergency; operative 9–19–94 (Register 94, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–17–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–19–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–18–95 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
6. New section refiled 9–15–95 as an emergency; operative 9–15–95 (Register 95, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–15–96 or emergency language will be repealed by operation of law on the following day.
7. Repealed by operation of Government Code section 11346.1(g) (Register 96, No. 22).

§ 17011. Effect on Other Standards, Ordinances, Regulations and Laws.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 1–21–94 as an emergency; operative 1–21–94 (Register 94, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–23–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 14.
2. New section refiled 5–19–94 as an emergency; operative 5–19–94 (Register 94, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–16–94 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–19–94 as an emergency; operative 9–19–94 (Register 94, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–17–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–19–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–18–95 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
6. New section refiled 9–15–95 as an emergency; operative 9–15–95 (Register 95, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–15–96 or emergency language will be repealed by operation of law on the following day.
7. Repealed by operation of Government Code section 11346.1(g) (Register 96, No. 22).

§ 17012. Diversion Requirements.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 1–21–94 as an emergency; operative 1–21–94 (Register 94, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–23–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 93, No. 14.
2. New section refiled 5–19–94 as an emergency; operative 5–19–94 (Register 94, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–16–94 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–19–94 as an emergency; operative 9–19–94 (Register 94, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–17–95 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–19–95 as an emergency; operative 1–18–95 (Register 95, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–18–95 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 5–18–95 as an emergency; operative 5–18–95 (Register 95, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–15–95 or emergency language will be repealed by operation of law on the following day.
6. New section refiled 9–15–95 as an emergency; operative 9–15–95 (Register 95, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–15–96 or emergency language will be repealed by operation of law on the following day.
7. Repealed by operation of Government Code section 11346.1(g) (Register 96, No. 22).

§ 17013. LEA Report to the Board.

1. New section filed 10–5–92 as an emergency; operative 10–5–92 (Register 92, No. 41). A Certificate of Compliance must be transmitted to OAL 2–2–93 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 14).

§ 17016. Executive Director's Duties and Powers Relative to the Waiver.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40002, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–5–92 as an emergency; operative 10–5–92 (Register 92, No. 41). A Certificate of Compliance must be transmitted to OAL 2–2–93 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 93, No. 14).

Article 2. Contracting with Architectural, Engineering, Environmental, Land Surveying and Construction Project Management Firms

§ 17020. Definitions.

As used in these regulations:

(a) "Architectural, engineering, environmental, land surveying services," and "construction project management" have the respective meanings set forth in Section 4525 of the Government Code.

(b) "Board" means the California Integrated Waste Management Board or the Board's designee authorized to contract for architectural, engineering, environmental, land surveying and construction project management services on behalf of the board.

(c) "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice the profession of architecture, engineering, environmental services, land surveying, or construction project management.

(d) "M/WBE" means Minority Business Enterprise and/or Women Business Enterprise.

(e) "DVBE" means Disabled Veteran Business Enterprise.

(f) "Small Business Firm" has the meaning set forth in Section 14837(c) of the Government Code.

NOTE: Authority cited: Section 40502, Public Resources Code; Section 4526, Government Code. Reference: Sections 4525 and 4526, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17021. Publication of Request for Qualifications.

(a) The board shall publish a Request for Qualifications (RFQ) for expected architectural, engineering, environmental, land surveying and construction project management services in the State Contracts Register and in statewide publications of appropriate professional societies.

(b) The announcement shall include the following information: a contract identification number, a brief description of services required; location, budget, and duration; eligibility and preferences; submittal requirements and deadlines; and name and telephone number of board contact for questions on the publication.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Sections 4526, 4527 and 4529.5, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17022. Selection Criteria.

The board shall select firms based on their ability to perform the specific functions outlined in the RFQ. The criteria for selection will include:

(a) Overall professional experience, reliability, and continuity of the firm as related to the tasks described in the RFQ.

(b) Professional experience of the firm in executing contracts of a similar nature.

(c) Adequacy of personnel numbers within specific disciplines required to complete the work required by the RFQ.

(d) Experience and training of key personnel as related to the work described in the RFQ.

(e) Adequacy of number of principal(s) which are intended to be assigned to the contract.

(f) Knowledge of applicable regulations and technology associated with the contract.

(g) Quality and timeliness of recently completed or nearly completed projects which were similar to the work described in the RFQ.

(h) Specialized qualifications for the services to be performed.

(i) Compliance with M/WBE and DVBE goals or good faith effort pursuant to Public Contract Code section 10115 et seq.

These factors shall be weighted by the board according to the nature of the project, the needs of the State and complexity and special requirements of the specific project.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Sections 4526, 4527 and 4529.5, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17023. Selection of Firms.

After expiration of the deadline date in the publications, the board shall review and rank eligible firms on file at the board using the selection criteria contained in Section 17022. The board shall conduct interviews with no less than the top three ranked firms to discuss qualifications and methods for furnishing the required services. From the firms with which discussions are held, the board shall select no less than three, in order of preference, based upon the established criteria, who are deemed to be the most highly qualified to provide the services required.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Sections 4526, 4527 and 4529.5, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17024. Negotiation of Contract.

(a) The board shall request a detailed Fee Proposal from the best qualified firm and shall require a State's Estimate of Fees to be prepared by board staff prior to negotiations. The State's estimate shall remain confidential until award of contract or abandonment of any further procedure for the services to which it relates. If the board determines the State's estimate to be unrealistic for any reason, the board shall require the estimate to be reevaluated and modified if necessary.

(b) The board shall attempt to negotiate a contract with the best qualified firm. Should the board be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at fair and reasonable compensation, negotiations with that firm shall be terminated. The board shall then undertake negotiations with the second most qualified firm. Failing accord, negotiations shall be terminated. The board shall then undertake negotiations with the third most qualified firm. Failing accord, negotiations shall be terminated. Should the board be unable to negotiate a satisfactory contract with any of the selected firms, the board may select additional firms in the manner prescribed above and continue the negotiation procedure until an agreement is reached.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Section 4528, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17025. Contract Agreement.

(a) After successful negotiations, the board and the firm shall complete and sign the contract agreement.

(b) In instances where the State effects a necessary change in the contract during the course of performance of the services, the firm's compensation may be adjusted by mutual written agreement.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Section 4528, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17026. Contracting in Phases.

Should the board determine that it is necessary or desirable to have a given project performed in phases, it will not be necessary to negotiate the total contract price in the initial instance, provided that the board shall have determined that the firm is best qualified to perform the whole project at reasonable cost, and the contract contains provisions that the state, at its option, may utilize the firm for other phases and the firm will accept a fair and reasonable price for subsequent phases to be later negotiated, mutually–agreed upon and reflected in a subsequent written instrument. The procedure with regard to estimates and negotiation shall otherwise be applicable.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Section 4526, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17027. Emergency Contracting.

Where the board makes a finding of emergency, the board may negotiate a contract for such services without following procedures in Sections 17020 – 17029. The finding of emergency must include a finding that conditions at a solid waste facility pose an imminent threat to life or health and insufficient time exists to implement the foregoing procedures to secure services. The selection criteria will be the same as those listed in Section 17022 and fees will still be negotiated as described in Section 17024. The announcement, formal ranking, and interviewing procedures, as specified in Sections 17021 and 17023 may be by–passed.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Sections 45001, 45002, 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–91 order including amendment adopting this section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17028. Small Business Participation.

The board shall endeavor to provide copies of announcements for services to Small Business Firms that have indicated an interest in receiving such announcements. Failure of the board to send a copy of an announcement to any firm shall not invalidate any selection or contract.

NOTE: Authority cited: Section 4526, Government Code; Section 40502, Public Resources Code. Reference: Sections 4526 and 4527, Government Code; Sections 45402 and 45403, Public Resources Code.

HISTORY

1. New section filed 8–1–91 as an emergency; operative 8–1–91 (Register 92, No. 3). A Certificate of Compliance must be transmitted to OAL 11–29–91 or emergency language will be repealed by operation of law on the following day.

2. Certificate of Compliance as to 8–1–91 order including amendment of section transmitted to OAL 11–26–91 and filed 12–26–91 (Register 92, No. 13).
3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

§ 17029. Unlawful Activities and Conflict of Interest.

Practices which might result in unlawful activity, including, but not limited to, rebates, kickbacks, or other unlawful consideration are prohibited. Additionally, a board employee shall not participate in the selection process if the employee has a relationship of a type specified in section 87100 of the Government Code, with a person or business entity seeking a contract subject to this chapter.

3. Editorial correction restoring HISTORY 1. (Register 92, No. 18).

Article 3. Implementation of Federal Laws

§ 17031. Regional Boundaries.

Pursuant to § 4006(a) of the Resource Conservation and Recovery Act of 1976, P.L. 94–580, 42 USC § 6946, the following boundaries are identified for solid waste management in California:

(a) The boundaries of each of the 58 counties in California for addressing local issues;

(b) The boundaries of the jurisdiction of each of the ten Metropolitan Councils of Governments and of the California Tahoe Regional Planning Agency for addressing regional issues. These boundaries are as follows:

(1) The boundaries of the area lying within the jurisdiction of the Association of Bay Area Governments which include the Counties of Alameda, Contra Costa, Marin, San Francisco, Napa, San Mateo, Santa Clara, Solano and Sonoma;

(2) The boundaries of the area lying within the jurisdiction of the Association of Monterey Bay Area Governments which include the Counties of Monterey and Santa Cruz;

(3) The boundaries of the area lying within the jurisdiction of the Comprehensive Planning Organization of the San Diego Region which include the County of San Diego;

(4) The boundaries of the area lying within the jurisdiction of the Sacramento Regional Area Planning Commission which include the Counties of Sacramento, Sutter, Yolo and Yuba and the City of Roseville;

(5) The boundaries of the area lying within the jurisdiction of the Southern California Association of Governments which include the Counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura;

(6) The boundaries of the area lying within the jurisdiction of the Council of Fresno County Governments which include the County of Fresno;

(7) The boundaries of the area lying within the jurisdiction of the Kern County Council of Governments which include the County of Kern;

(8) The boundaries of the area lying within the jurisdiction of the San Joaquin County Council of Governments which include the County of San Joaquin;

(9) The boundaries of the area lying within the jurisdiction of the Santa Barbara County—Cities Area Planning Council which include the County of Santa Barbara;

(10) The boundaries of the area lying within the jurisdiction of the Stanislaus Area Association of Governments which include the County of Stanislaus; and

(11) The boundaries of the area lying within the jurisdiction of the California Tahoe Regional Planning Agency which include that part of Lake Tahoe within the jurisdiction of the State of California, the adjacent parts of the Counties of El Dorado and Placer lying within the Tahoe Basin in the State of California, and that additional and adjacent part of the County of Placer outside of the Tahoe Basin in the State of California which lies southward and eastward of a line starting at the intersection of the basin crestline and the north boundary of Section 1, thence west to the northwest corner of Section 3, thence south to the intersection of the basin crestline and the west boundary of Section 10; all sections referring to Township 15 North, Range 16 East, MDB&M;

(c) The boundaries of the State of California for addressing statewide issues.

Comment: This regulation may be modified from time to time identifying additional or different regional boundaries pursuant to Section 4006(a) of the Act. The method for identifying unspecified State, regional and local issues will be set forth in the regulation concerning identification of agencies and their responsibilities. Regional issues will be determined by the State Solid Waste Management Board with the advice of the affected counties and regional agencies.

HISTORY

1. New Article 3 (Section 17031) filed 12–13–77; effective thirtieth day thereafter (Register 77, No. 51).

§ 17032. Agencies.

Pursuant to Section 4006(b) of the Resource Conservation and Recovery Act of 1976, P.L. 94–580, 42 USC Section 6946 and Section 66793 of the Government Code, the following responsible agencies are identified for solid waste management in California:

(a) Within each of the counties in California, the Boards of Supervisors are responsible, with the approval of a majority of the cities within the county which contain a majority of the population of the incorporated area of the county, for local planning and implementation of solid waste management in accordance with Section 66780 of the Government Code with the following exceptions:

(1) Within the County of *Alameda*, the Alameda County Solid Waste Management Authority is responsible for solid waste planning and implementation;

(2) Within the County of *Merced*, the Merced County Solid Waste Advisory Board is responsible for solid waste planning and implementation;

(3) Within the County of *Santa Clara*, the Solid Waste Planning Committee is responsible for solid waste planning and implementation;

(4) Within the County of *Ventura*, the Ventura Regional County Sanitation District is responsible for solid waste planning and implementation with the approval of a majority of the cities within the county which contain a majority of the population of the incorporated area of the county;

(5) Within the County of *Los Angeles*, the Los Angeles County Solid Waste Management Committee is the responsible countywide agency for solid waste planning. Implementation shall be accomplished by those responsible agencies identified in the Los Angeles County Solid Waste Management Plan.

(b) Regional issues will be determined by the State Solid Waste Management Board with the advice of the affected counties and regional agencies.

(c) For regional planning, the following agencies are identified:

(1) The Association of Bay Area Governments is responsible for regional issues for solid waste management planning within the boundaries of the area including the Counties of Alameda, Contra Costa, Marin, San Francisco, Napa, San Mateo, Santa Clara, Solano and Sonoma;

(2) The Sacramento Regional Area Planning Commission is responsible for regional issues for solid waste management planning within the boundaries of the area including the Counties of Sacramento, Sutter, Yolo, Yuba, and the City of Roseville;

(3) The Southern California Association of Governments is responsible for regional issues for solid waste management planning within the boundaries of the area including the Counties of Imperial, Los Angeles, Orange, Riverside, and San Bernardino.

(4) The California Tahoe Regional Planning Agency is responsible for regional issues for solid waste management planning within the boundaries of the area including that part of Lake Tahoe within the jurisdiction

of the State of California, the adjacent parts of the Counties of El Dorado and Placer lying within the Tahoe Basin in the State of California, and that additional and adjacent part of the County of Placer outside of the Tahoe Basin in the State of California which lies southward and eastward of a line starting at the intersection of the basin crestline and the north boundary of Section 1, thence west to the northwest corner of Section 3, thence south to the intersection of the basin crestline and the west boundary of Section 10; all sections referring to Township 15, North, Range 16 East, M.D.B.&M.

(d) For statewide solid waste management planning and implementation the following are identified:

(1) The State Solid Waste Management Board is responsible for solid waste management planning and implementation within the boundaries of the State of California;

(2) The State Department of Health is responsible for hazardous waste management planning and implementation within the boundaries of the State of California.

Comment: The State Solid Waste Management Board widely distributed to the interested public a request for nominations of agencies. Based on the nominations received, a proposed regulation was drafted and circulated for comment prior to two public hearings; one on April 4, 1978 in the State Building, 455 Golden Gate Avenue, Room 1200, San Francisco, California, and the other on April 5, 1978 in the Inglewood City Hall, One Manchester Boulevard, Community Room, Inglewood, California. This regulation was finally considered at a regularly scheduled public State Solid Waste Management Board Meeting on April 21, 1978, and was adopted at that time as amended.

NOTE: Authority cited: Section 66790, Government Code, Section 6946, 42 United States Code and Section 4006, 90 Stat. 2816, P.L. 94–580, Federal Resource Conservation and Recovery Act of 1976. Reference: Section 66793, Government Code.

HISTORY

1. New section filed 4–27–78; effective thirtieth day thereafter (Register 78, No. 17).

Article 4. Public Records

§ 17041. Scope and Applicability.

This article shall apply to all requests to the Board pursuant to the California Public Records Act (Government Code sections 6250 *et seq.*) for the disclosure of public records or for maintaining the confidentiality of data received by the Board.

NOTE: Authority cited: Section 6253, Government Code; Sections 40502, 42297 and 42325, Public Resources Code. Reference: Section 6250 *et seq.*, Government Code; Sections 40062, 42323 and 42783, Public Resources Code; and Sections 17052.14, 19542, 23612.5 and 45982, Revenue and Taxation Code.

HISTORY

1. New section filed 6–16–94 as an emergency; operative 6–16–94 (Register 94, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–14–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 89, No. 1.
2. Certificate of Compliance as to 6–16–94 order transmitted with amendment of section and NOTE to OAL 10–13–94 and filed 11–28–94 (Register 94, No. 48).

§ 17042. Disclosure Policy.

It is the policy of the Board that all records not exempted from disclosure by state or federal law shall be available for public inspection as provided in the California Public Records Act, Government Code section 6250 *et seq.* Requests for records that are not exempt from disclosure by state or federal law, and which are determined as provided in this article to be confidential or proprietary shall be evaluated to determine whether, on the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

NOTE: Authority cited: Section 6253, Government Code; Sections 40502, 42297 and 42325, Public Resources Code. Reference: Section 6250 *et seq.*, Government Code; Sections 40062, 42323 and 42783, Public Resources Code; and Sections 17052.14, 19542, 23612.5 and 45982, Revenue and Taxation Code.

HISTORY

1. New section filed 6–16–94 as an emergency; operative 6–16–94 (Register 94, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–14–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 89, No. 1.
2. Certificate of Compliance as to 6–16–94 order transmitted with amendment of section and NOTE to OAL 10–13–94 and filed 11–28–94 (Register 94, No. 48).

§ 17043. Requests for Public Records.

All requests for public records, as defined in Government Code section 6252, shall be made in writing to the Board's custodian of records, and shall be addressed as follows:

Custodian of Records
California Integrated Waste Management Board
8800 Cal Center Drive
Sacramento, CA 95826

NOTE: Authority cited: Section 6253, Government Code; Sections 40502, 42297 and 42325, Public Resources Code. Reference: Section 6250 *et seq.*, Government Code; Sections 40062, 42323 and 42783, Public Resources Code; and Sections 17052.14, 19542, 23612.5 and 45982, Revenue and Taxation Code.

HISTORY

1. New section filed 6–16–94 as an emergency; operative 6–16–94 (Register 94, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–14–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 89, No. 1.
2. Certificate of Compliance as to 6–16–94 order transmitted with amendment of NOTE to OAL 10–13–94 and filed 11–28–94 (Register 94, No. 48).

§ 17044. Submittal of Trade Secrets.

Any person submitting to the Board any records containing data claimed to be a "trade secret," as defined in Public Resources Code section 40062, shall at the time of submission, identify all information which the person believes is a trade secret, and shall provide the name, address and telephone number of the individual to be contacted if the Board receives a request for disclosure of or seeks to disclose the data claimed to be trade secret. Any information not identified by the person as a trade secret shall be made available to the public, unless exempted from disclosure by another provision of law.

NOTE: Authority cited: Section 6253, Government Code; Sections 40502, 42297 and 42325, Public Resources Code. Reference: Section 6250 *et seq.*, Government Code; Sections 40062, 42323 and 42783, Public Resources Code; and Sections 17052.14, 19542, 23612.5 and 45982, Revenue and Taxation Code.

HISTORY

1. New section filed 6–16–94 as an emergency; operative 6–16–94 (Register 94, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–14–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 89, No. 1.
2. Certificate of Compliance as to 6–16–94 order transmitted with amendment of section and NOTE to OAL 10–13–94 and filed 11–28–94 (Register 94, No. 48).

§ 17045. Submittal of Confidential or Proprietary Data.

Any person submitting to the Board any records containing data claimed to be confidential or proprietary, or to be otherwise exempt from disclosure under Government Code section 6250 et seq., or under other applicable provisions of law shall, at the time of submission, identify in writing the portions of the records containing such data as "confidential" or "proprietary," and shall provide the name, address and telephone number of the individual to be contacted if the Board receives a request for disclosure of or seeks to disclose the data claimed to be confidential.

NOTE: Authority cited: Section 6253, Government Code; Sections 40502, 42297 and 42325, Public Resources Code. Reference: Section 6250 *et seq.*, Government Code; Sections 40062, 42323 and 42783, Public Resources Code; and Sections 17052.14, 19542, 23612.5 and 45982, Revenue and Taxation Code.

HISTORY

1. New section filed 6–16–94 as an emergency; operative 6–16–94 (Register 94, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–14–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 89, No. 1.
2. Certificate of Compliance as to 6–16–94 order transmitted with amendment of section and NOTE to OAL 10–13–94 and filed 11–28–94 (Register 94, No. 48).

§ 17046. Disclosure of Trade Secrets and Confidential or Proprietary Data.

(a) This section shall apply to all data in the custody of the Board:

(1) which is designated "trade secret," as defined in Public Resources Code section 40062,

(2) which is considered by the Board or identified by the person who submitted the data to be confidential or proprietary data,

(3) which is received from a federal, state or local agency with a confidential or proprietary data designation, or

(4) which is exempt from disclosure under Government Code section 6250 et seq., or under other applicable provisions of law.

(b) Confidential or proprietary information shall include, but is not limited to:

(1) personal or business–related financial data, customer client lists, supplier lists and other information of a proprietary or confidential business nature provided by persons in applications, reports, returns, certifications or other documents submitted to the Board which if released would result in harmful effects on the person's competitive position;

(2) tax information prohibited from disclosure, pursuant to the Revenue and Taxation Code.

(c) Upon receipt of a request from a member of the public that the Board disclose data claimed to be trade secret, confidential or proprietary information, or if the Board, upon its own initiative, seeks to disclose such data, the Board shall inform the individual designated pursuant to section 17045 in writing that disclosure of the data is sought, and that a determination is being made as to whether any or all of the information has been properly identified as trade secret, confidential or proprietary information.

(1) If the Board determines that the information is not trade secret, confidential or proprietary information, the Board shall notify the person who furnished the information by certified mail. The person who furnished the information shall have 30 days after receipt of this notice to provide the Board with a complete justification and statement of the grounds on which the trade secret, confidential or proprietary information claim is being made. The justification and statement shall be submitted to the Board by certified mail. The deadline for filing the justification may be extended by the Board upon a showing of good cause made prior to the deadline specified for its receipt.

(A) The justification and statement submitted in support of a claim of trade secret, confidential or proprietary information shall include, but is not limited to, the following:

(1) a specific description of the data claimed to be entitled to treatment as trade secret, confidential or proprietary information;

(2) a statement as to whether it is asserted that the data is a trade secret, is confidential or proprietary information, that disclosure of the data would result in harmful effects on the person's competitive position, and if so, the nature and extent of such anticipated harmful effects;

(3) any statutory or regulatory provisions under which the claim of trade secret, confidentiality or proprietary is asserted;

(4) the period of time for which trade secret, confidential or proprietary treatment is requested;

(5) the extent to which the data has been disclosed to others and whether its trade secret, confidential or proprietary status has been maintained or its release restricted;

(6) trade secret, confidentiality or proprietary determinations, if any, made by other public agencies as to all or part of the data and a copy of any such determination, if available.

(B) Documentation, as specified in (A), in support of a claim of trade secret, confidentiality or proprietary may be submitted to the Board prior to the time disclosure is sought.

(2) The Board shall determine whether the information is protected as trade secret, confidential or proprietary information within 15 days after receipt of the justification and statement or, if no justification and statement is filed, within 45 days of the notice required by paragraph (1). The Board shall notify the person who furnished the information and any party who has requested the information pursuant to a public records request of the determination, by certified mail.

(3) If the Board determines that the information is not protected as trade secret, confidential or proprietary information, the notice required by paragraph (2) shall also specify a date, not sooner than 15 days after the date of mailing of the notice, when the information shall be made available to the public.

(d) Except as provided in subdivision (c), the Board may release information submitted and designated as trade secret, confidential or proprietary information to the following under the following conditions:

(1) Other governmental agencies, and the Legislature, may receive information that has been compiled or aggregated from confidential information, but does not reveal the specific sources of the information, when the information has been requested in connection with a local enforcement agency's or the Board's responsibilities under this division or for use in making reports.

(2) to the state or any state agency in judicial review for enforcement proceedings involving the person furnishing the information.

(e) Should judicial review be sought of a determination issued in accordance with section (c), the person requesting the data and/or the person making the claim of trade secret, confidential or proprietary information status in relation to the data, may be made a party or parties to the litigation to justify the determination.

NOTE: Authority cited: Section 6253, Government Code; Sections 40502, 42297 and 42325, Public Resources Code. Reference: Section 6250 *et seq.*, Government Code; Sections 40062, 42323 and 42783, Public Resources Code; and Sections 17052.14, 19542, 23612.5 and 45982, Revenue and Taxation Code.

HISTORY

1. New section filed 6–16–94 as an emergency; operative 6–16–94 (Register 94, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–14–94 or emergency language will be repealed by operation of law on the following day. For prior history, see Register 89, No. 1.
2. Certificate of Compliance as to 6–16–94 order transmitted with amendment of section and NOTE to OAL 10–13–94 and filed 11–28–94 (Register 94, No. 48).

§ 17047. Scope.

HISTORY

1. Repealer filed 12–21–88; operative 1–20–89 (Register 89, No. 1).

Article 5. Unreliable Contractors, Subcontractors, Borrowers and Grantees

§ 17050. Grounds for Placement on Unreliable List.

The following are grounds for a finding that a contractor, any subcontractor that provides services for a board agreement, grantee or borrower is unreliable and should be placed on the board's Unreliable Contractor, Subcontractor, Grantee or Borrower List ("Unreliable List"). The presence of one of these grounds shall not automatically result in placement on the Unreliable List. A finding must be made by the Executive Director in accordance with section 17054, and there must be a final decision on any appeal that may be filed in accordance with section 17055 et seq.

(a) Disallowance of any and/or all claim(s) to the board due to fraudulent claims or reporting; or

(b) The filing of a civil action by the Attorney General for a violation of the False Claims Act, Government Code section 12650 et. seq; or

(c) Default on a board loan, as evidenced by written notice from board staff provided to the borrower of the default; or

(d) Foreclosure upon real property loan collateral or repossession of personal property loan collateral by the board; or

(e) Filing voluntary or involuntary bankruptcy, where there is a finding based on substantial evidence, that the bankruptcy interfered with the board contract, subcontract, grant or loan; or

(f) Breach of the terms and conditions of a previous board contract, any subcontract for a board agreement, grant, or loan, resulting in termination of the board contract, subcontract, grant or loan by the board or prime contractor; or

(g) Placement on the board's chronic violator inventory established pursuant to Public Resources Code section 44104 for any owner or operator of a solid waste facility; or

(h) The person, or any partner, member, officer, director, responsible managing officer, or responsible managing employee of an entity has been convicted by a court of competent jurisdiction of any charge of fraud, bribery, collusion, conspiracy, or any act in violation of any state

or federal antitrust law in connection with the bidding upon, award of, or performance under any board contract, subcontract, grant or loan; or

(i) The person or entity is on the list of unreliable persons or entities, or similar list, of any other federal or California state agency; or

(j) The person or entity has violated an Order issued in accordance with section 18304; or,

(k) The person or entity has directed or transported to, has or accepted waste tires at, a site where the operator is required to have but does not have a waste tire facility permit; or

(*l*) The person or entity has transported waste tires without a waste tire hauler registration; or,

(m) The person or entity has had a solid waste facility or waste tire permit or a waste tire hauler registration denied, suspended or revoked; or,

(n) The person or entity has abandoned a site or taken a similar action which resulted in corrective action or the expenditure of funds by the Board to remediate, clean, or abate a nuisance at the site; or

(o) The following are additional grounds for a finding that, a person or entity described below should be placed on the Unreliable List:

(1) The person or entity owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List;

(2) The person held the position of officer director, manager, partner, trustee, or any other management position with significant control (Principal Manager) in an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List;

(3) The entity includes a Principal Manager who:

1. Was a Principal Manager in an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List; or,

2. Owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List;

(4) The entity has a person who owns 20% or more of the entity, if that person:

1. Was a Principal Manager in an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List; or,

2. Owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List.

(5) The entity has another entity which owns 20% or more of the entity, if that other entity:

1. Is on the Unreliable List; or,

2. Owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List.

(6) Subsection (o) is not intended to apply to a person or entity that purchases or otherwise obtains an entity on the Unreliable List subsequent to its placement on the Unreliable List.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY

1. New article 5 (sections 17050–17062) and section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17051. Board Agreement for Contract, Grant or Loan.

(a) The Board shall not award a contract or grant, or approve a loan to any person or entity on the Unreliable List, for up to three years from the date of placement on the Unreliable List.

(b) This prohibition does not apply to Block Grants awarded pursuant to Public Resources Code section 48690.

(c) This prohibition does not apply when the contract, grant or loan is for the purpose of resolving the chronic violations which led to the person or entity's placement on the Unreliable List in accordance with section 17050(g).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY

1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17052. Board Agreement for Contract, Grant or Loan with Proposed Subcontractor.

The board shall not award a contract or grant or approve a loan with any person or entity who has proposed to enter into a subcontract with any person or entity who would provide services for the main agreement, if that person or entity is on the Unreliable List, for up to three years from the date of placement on the Unreliable List.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY

1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17053. Board Subcontractors.

The board shall not give approval for a contractor, grantee or borrower to enter into a subcontract with any person or entity who provides services for the main agreement, if that person or entity is on the Unreliable List, for up to three years from the date of placement on the Unreliable List.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY

1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17054. Executive Director Finding.

(a) The Executive Director may make a proposed finding of unreliability based on the occurrence of any event in Section 17050. The proposed finding may be made at any time within 3 years after Board staff discover that one or more of the events in Section 17050 may have occurred.

(b) In making such a finding, the Executive Director shall take into consideration mitigating factors which indicate that the person or entity is in fact reliable. These factors shall include, but are not limited to the following:

(1) Whether the violation, breach, or unlawful act was serious or material;

(2) The presence or absence of any intention to conceal, deceive, or mislead;

(3) Whether the violation, breach, or unlawful act was deliberate, negligent, or inadvertent;

(4) Whether the violation, breach, or unlawful act was an isolated occurrence, had happened previously, or is part of a pattern and practice;

(5) Whether the person or entity cooperated with local, state or federal authorities or took remedial action to correct, address, or prevent a future violation, breach, or unlawful act.

(6) The degree to which restitution, or other compensation, has been paid.

(c) After the Executive Director has made a proposed finding of unreliability, the Executive Director shall notify the person or entity of the proposed finding by certified or registered mail.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY

1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17055. Appeal to Board.

A person or entity who wishes to appeal the Executive Director's proposed finding of unreliability may, within 30 calendar days from the date notification was sent, submit to the Executive Director a written request for an appeal hearing before the board. The request shall state the grounds on which appeal is requested, including the factual and legal argument and supporting authorities.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY
1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17056. Final Finding.

(a) If the Executive Director does not receive a request for appeal within 30 calendar days from the date notice of the proposed finding was sent, the finding shall become final, and the person or entity shall be added to the Unreliable List.

(b) If a person or entity appeals the proposed finding, but withdraws the appeal or fails to attend the scheduled hearing, the proposed finding shall become final upon withdrawal of the appeal or failure to attend the hearing, and the person or entity shall be added to the Unreliable List.

(c) If a person or entity appeals the proposed finding of unreliability and the board upholds the Executive Director's finding, the proposed finding shall become final and the person or entity shall be added to the Unreliable List.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY
1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17057. Hearing.

The appeal to the board will be heard at a board meeting according to the following guidelines. The board has the right to augment these guidelines with specific time frames and procedures to fit within the board's agenda deadlines and meeting format. The appellant may request that the hearing be conducted in closed session to the extent authorized by law and shall indicate the basis for such a request.

(a) The board shall schedule a hearing within 60 days from the appellant's request for hearing.

(b) Prior to the hearing, board staff will inform appellant of the date for the hearing and provide a copy of the agenda item. The appellant's request for appeal will be included in the agenda item. Appellant may submit additional information for consideration at the board meeting.

(c) The hearing need not be conducted according to the technical rules relating to civil procedure, evidence and witnesses which would apply in a court of law.

(d) The hearing shall not be governed by the Administrative Procedure Act, Government Code sections 11340 et. seq.

(e) The Chairman of the Board may limit evidence and presentations to the issues relevant to the appeal.

(f) There may be a presentation by board staff and/or attorneys and a presentation by appellant and/or its attorneys.

(g) Oral testimony offered by any witness shall be under oath.

(h) The attorneys for the board and appellant shall not cross examine each other's witnesses.

(i) Rebuttal testimony may be offered.

(j) After considering all presentations and evidence, the board shall vote to uphold or overturn the proposed finding of unreliability made by the Executive Director. A vote to uphold the finding means that the appellant will be added to the Unreliable List for up to three years from the date of the board meeting. A vote to overturn the Executive Director's finding means that the appellant will not be added to the Unreliable List. In the case of a tie vote, the appellant shall not be added to the Unreliable List.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY
1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17058. Reconsideration of Placement on Unreliable List.

At any time after eighteen months and prior to three years since placement on the Unreliable List, a person or entity may submit a written request to the Executive Director requesting that the final finding of unreliability be vacated. This request may be submitted once only during the three year term of the Unreliable List. The Executive Director will reconsider the finding of unreliability based on the evidence submitted in the request. If the Executive Director finds that there is sufficient evidence to deem the person or entity reliable, they will be removed from the list. If there is not sufficient evidence to deem the person or entity reliable, then placement on the Unreliable List remains to the end of the three–year term.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY
1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17059. Pending Award.

When an appeal hearing has been requested, if there is a pending award or approval of a contract, subcontract, grant or loan, and if appellant can show that it is otherwise entitled to the award or approval, the agreement shall not be awarded or approved until such time as the appeal has been heard and the proposed finding of unreliability has become final or vacated. This section is not intended to affect existing contracts, grants, or loans.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY
1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17060. Declaration.

All applicants for board contracts, subcontracts, grants and loans shall submit to the board and all subcontractors shall submit to the prime contractor who will submit to the Board, a declaration under penalty of perjury stating that none of the events in Section 17050 have occurred with respect to the applicant, or subcontractor, within the preceding three years.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

HISTORY
1. New section filed 1–7–2000; operative 2–6–2000 (Register 2000, No. 1).

§ 17062. Existing Law.

Placement of a person or entity on the Unreliable List is not intended to limit the Board's ability to seek additional redress or take corrective action as may be allowed by law due to the occurrence of an event listed in section 17050.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40505, 41956, 42010(c), 42846(a) and (b), 42872, 42882, 43230, 45000(c), 47200(a), 48021(b), 48100, 48101, 48631, 48632, 48643, 48655 and 48690, Public Resources Code; and Section 12166, Public Contracts Code.

Chapter 3. Minimum Standards for Solid Waste Handling and Disposal

Article 1. General

§ 17200. Authority.

The regulations contained herein are promulgated pursuant to Public Resources Code (PRC) sections 43020 and 43021 and Health and Safety Code section 4520. No provision in chapter 3 shall be construed as a limitation or restriction upon the board's right to exercise discretion which is vested in it by law. Nor shall any provision be construed to limit or re-

strict counties and cities from promulgating enactments which are as strict as or stricter than the regulations contained in this chapter. However, no city or county may promulgate enactments which are inconsistent with the provisions of this chapter. Any reference in this chapter to an enforcement agency shall be deemed to mean the enforcement agency created pursuant to Public Resources Code sections 43200 – 43219.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 11125, Government Code; Sections 43020–43021, Public Resources Code.

HISTORY

1. New chapter 3 (articles 1–7, sections 17200–17751, not consecutive) filed 5–1–75; effective thirtieth day thereafter (Register 75, No. 18).
2. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).
3. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 17201. Compliance with Laws and Regulations.

Nothing in these standards shall be construed as relieving an owner, operator, or designer from the obligation of obtaining all required permits, licenses, or other clearances, and complying with all orders, laws, regulations, or other requirements of other approval, regulatory or enforcement agencies, such as, but not limited to, the Department, local health entities, water and air quality control boards, local land use authorities, fire authorities, etc.

Article 2. Purpose and Intent

§ 17202. Purpose.

The purpose of these regulations is to promote the health, safety and welfare of the people of the State of California, and to protect the environment by establishing minimum standards for the handling of solid wastes.

HISTORY

1. Amendment filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17203. Intent.

By adopting these standards, the board hereby sets forth performance standards for solid waste handling activities which are of state concern, as required by Public Resources Code section 43021, and sets forth minimum substantive requirements for operators' submission of information concerning individual solid waste facilities.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40000, 40001 and 40002, Public Resources Code.

HISTORY

1. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Amendment filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17204. Intent of Standards.

These standards are intended to describe required levels of performance rather than detailed requirements. Wherever possible, operators and designers will be permitted flexibility in meeting the objectives set by the standards. Where the term "adequate" or the phrase "as approved by the enforcement agency" is used, the operator will usually propose a method, physical improvement, or other appropriate means to comply with a standard. The enforcement agency may thereupon accept, modify, reject, or replace the operator's proposal, and shall incorporate the means of compliance into the operator's permit, if applicable and appropriate.

HISTORY

1. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17205. Health Related Standards.

These regulations contain both Health related standards and standards related to Solid Waste Management. The Health Standards are designated by the letter "H." When a Solid Waste Management Standard also is included in a section, it is identified by the letters "SWM." In all other cases the standards are Solid Waste Management Standards.

§ 17206. Waivers.

HISTORY

1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

Article 3. Emergency Waiver of Standards

§ 17210. Scope and Applicability.

(a) This Article informs an operator who holds a valid solid waste facilities permit of the process for applying for an emergency waiver of standards (waiver) in the event of a state of emergency or local emergency. The waiver grants an operator temporary relief from specific standards imposed by this Division or specific terms or conditions of a solid waste facilities permit issued pursuant to this Division. This Article implements and makes specific those provisions of Section 43035 of the Public Resources Code relating to the integrated waste management disaster plan.

(b) This Article is not intended to limit the authority of the state or a local agency during a disaster or emergency.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40001, 40002, 40051, 40052, 40053, 40054, 40055, 40056, 40057, 43020 and 43021 of the Public Resources Code.

HISTORY

1. New article 3 (sections 17210–17210.9) and section filed 8–21–96; operative 9–20–96 (Register 96, No. 34). For prior history see Register 78, No. 8.

§ 17210.1. Definitions.

(a) "Agency" means the local agency responsible for compiling the disposal information from haulers and operators. The county is the agency, unless a region is given the responsibility as part of a regional agreement.

(b) "Board" means the California Integrated Waste Management Board.

(c) "Disaster" means a natural catastrophe such an an earthquake, fire, flood, landslide, or volcanic eruption, or, regardless of cause, any explosion, fire, or flood.

(d) "Disaster Debris" means nonhazardous solid waste caused by or directly related to a disaster.

(e) "Diversion" means the directing of solid waste from disposal or transformation by means of recycling, reuse, or composting.

(f) "Emergency Waiver of Standards" means the document signifying approval by an enforcement agency which allows an operator, who holds a valid solid waste facilities permit, the ability to deviate from specified state minimum solid waste standards or terms or conditions of a solid waste facilities permit issued pursuant to this Division. The waiver applies to the origin of waste; the rate of inflow for storage, transfer, or disposal of waste; the type and moisture content of solid waste; the hours of facility operation; and the storage time before the transfer or disposal of wastes, at a solid waste facility. This includes the establishment of a locally–approved temporary transfer or processing site, if authorized by the enforcement agency.

(g) "Enforcement Agency" means the agency designated pursuant to the requirements set forth in Public Resources Code, sections 43200 through 43221, or the Executive Director of the Board in the event that the enforcement agency (EA) is incapable of responding due to the nature of the emergency.

(h) "Extent Feasible" is evidenced by the use of maximum efforts to recycle, reuse, or otherwise divert from disposal as much of the debris and other nonhazardous waste received by the solid waste facility as possible, as determined by the operator.

(i) "Jurisdiction of Origin" means the incorporated city or the unincorporated area of the country where the waste originated.

(j) "Local Emergency" means the duly proclaimed existence of conditions of disaster or of extreme peril to the safety of persons and property within the territorial limits of a county, city and county, or city, as described in Government Code section 8558(c), which conditions are likely

to be beyond the control of the services, personnel, equipment, and facilities of that political subdivision and require the combined forces of other political subdivisions to combat, as stated in the proclamation by the governing body of a county, city and county, or city, or by an official so designated by ordinance adopted by such governing body to issue such proclamation.

(k) "State of Emergency" means the duly proclaimed existence of conditions of disaster or of extreme peril to the safety of persons and property within the state, as described in Government Code section 8558(b), which conditions, by reason of their magnitude, are or are likely to be beyond the control of the services, personnel, equipment, and facilities of any single county, city and county, or city, and require the combined forces of a mutual aid region or regions to combat, as stated in a proclamation by the Governor.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

§ 17210.2. Purpose and Limitations of an Emergency Waiver.

(a) An emergency waiver may only be issued when there has been a proclamation of a state of emergency or local emergency, as those terms are defined in this Article.

(b) An EA may approve and issue a waiver for the express purpose of enabling an operator of an existing permitted solid waste facility, a locally–approved temporary transfer or processing site, or a locally–approved temporary compostable material handling activity, to accept disaster debris and other nonhazardous wastes, in a manner not consistent with the terms and conditions of the relevant solid waste facilities permit or applicable state minimum standards, during the recovery phase of a state of emergency or local emergency.

(c) The waiver may apply to specified state minimum solid waste standards or a specific term or condition of a solid waste facilities permit at an existing solid waste facility, a locally–approved temporary transfer or processing site, or a locally–approved temporary compostable material handling activity, which are related to the following: the origin of waste; the rate of inflow for storage, transfer, processing, or disposal of waste; the type and moisture content of solid waste; the hours of facility operation; and the storage time before transfer, processing, or disposal of nonhazardous waste.

(d) The effective period of an initial waiver, once granted by the EA, shall not exceed 120 days. Upon receipt of the reports required in section 17210.5, the EA may extend the effective period of a waiver, as necessary, to assist in the recovery from an emergency.

(e) All other state minimum standards and permit conditions which are not the subject of the waiver shall remain in effect.

(f) A waiver may be modified, canceled, or revoked by the EA without advance notice should the EA determine that any of the following occurs:

(1) The use of such a waiver will cause or contribute to a public health and safety or environmental problem;

(2) The terms of the waiver are not being used expressly to handle the state of emergency or local emergency and are not in the best interest of the public health and safety;

(3) The waiver is no longer necessary;

(4) The solid waste facility operator is not utilizing disaster debris diversion programs to the extent feasible.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 43002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).
2. Amendment of subsections (a)–(c) filed 6–18–2007 as an emergency; operative 6–18–2007 (Register 2007, No. 25). A Certificate of Compliance must be transmitted to OAL by 12–17–2007 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsections (a)–(c) refiled 12–17–2007 as an emergency; operative 12–17–2007 (Register 2007, No. 51). A Certificate of Compliance must be transmitted to OAL by 3–17–2008 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 12–17–2007 order transmitted to OAL 3–13–2008 and filed 4–25–2008 (Register 2008, No. 17).

§ 17210.3. Request for an Emergency Waiver.

(a) An operator may apply to an EA for a waiver after a disaster or emergency situation as defined in this Article, has been declared. The waiver shall only be granted with the express approval of the EA following a proclamation of emergency or declaration of disaster at the local or state levels.

(b) To obtain a waiver, a solid waste facility operator shall submit a written request to the EA. The request for a waiver shall include, but not be limited to, the following information:

(1) A listing of the existing solid waste facilities permit terms and conditions to be waived in order to facilitate recovery and disposal of disaster debris in the event of a declared disaster or emergency;

(2) A statement of the remaining disposal capacity of the solid waste disposal facility at the time of the request;

(3) A description of all facility–related diversion programs and on–site recycling facilities; and

(4) A listing of locally–approved temporary transfer or processing sites to be used to store disaster debris for future reuse or recycling.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40001, 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

§ 17210.4. Granting an Emergency Waiver.

(a) The EA may grant a waiver during the proclamation of emergency upon making the following findings:

(1) If the waiver is for an existing permitted solid waste facility the operator applying for the waiver holds a valid solid waste facilities permit;

(2) The waiver will not pose a threat to public health and safety or the environment;

(3) The operator identifies and implements, the the extent feasible, diversion programs to maximize diversion through reuse, recycling, or composting of disaster–related waste.

(b) Within 7 days of receipt of the solid waste facility operator's request for a waiver, the EA shall notify the solid waste facility operator in writing whether or not the request for waiver has been granted. If the proposed waiver is not granted, the EA's notification shall contain reasons for the denial. The solid waste facility operator may reapply for the waiver at a later date or submit necessary documentation to receive the waiver immediately.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).
2. Amendment of subsection (a)(1) filed 6–18–2007 as an emergency; operative 6–18–2007 (Register 2007, No. 25). A Certificate of Compliance must be transmitted to OAL by 12–17–2007 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (a)(1) refiled 12–17–2007 as an emergency; operative 12–17–2007 (Register 2007, No. 51). A Certificate of Compliance must be transmitted to OAL by 3–17–2008 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 12–17–2007 order transmitted to OAL 3–13–2008 and filed 4–25–2008 (Register 2008, No. 17).

§ 17210.5. Reporting Requirements for a Solid Waste Facility Operator.

(a) The solid waste facility operator shall submit a written report to the EA and the local county agency (agency) within 90 days of activation of the waiver and every 90 days thereafter for the effective period of the activated waiver.

(b) The written report shall include the following information:

(1) The daily amount of disaster debris received, diverted, and disposed at the facility;

(2) The jurisdiction of origin for the disaster debris received at the facility;

(3) The increase in tonnage or volume of waste received per day during the effective period of the activated waiver; and

(4) The facilities used to process the disaster debris.

(c) If pursuant to section 17210.2(d) of this Article, the waiver is extended beyond 120 days, the operator shall submit a report, as described in subparagraph (b), to the EA and agency. The report shall be submitted once every 90 days until the end of the effective period of the waiver.

(d) After the activated waiver expires, the solid waste facility operator shall continue to submit the information requested in item (b) above to any EA and agency, every 90 days, until there is no longer any discernable disaster related waste being processed or stored at the facility.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

§ 17210.6. Reporting Requirements for an Enforcement Agency.

(a) The EA shall transmit a copy of the approved waiver to the Board within 15 days of its issuance.

(b) The EA shall submit a copy of the operator's written reports to the board within 30 days of the receipt of the reports.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

§ 17210.7. Selection of a Solid Waste Facility for Emergency Disposal and Diversion.

(a) In the event of a state emergency or local emergency, the EA shall do the following:

(1) Assist a local government within its jurisdiction by providing a list of solid waste disposal facilities which have been granted a waiver. The list shall include site capacity for acceptance of waste, hours of operation, daily tonnage limits during the emergency, and on–site recycling and diversion for disaster–related debris.

(2) Survey the solid waste facilities within its jurisdiction and determine the diversion programs available at the facilities. Diversion information will be made available by the EA to an affected local jurisdiction and to the public during a declared emergency.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

§ 17210.8. Authority of an Enforcement Agency.

(a) An EA may approve waivers of minimum standards and specific terms or conditions of a solid waste facilities permit, as needed, to respond to a disaster or emergency situation, as defined in section 17210.1.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40001, 40002, 40051, 40052, 40053, 40054, 40055, 40056, 40057, 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

§ 17210.9. Executive Director's Powers and Duties Relative to the Emergency Waiver.

(a) Once the waiver is issued, the Executive Director of the Board shall review all EA waiver approvals. The Executive Director may condition, limit, suspend, or terminate an operator's use of a waiver, if it is determined that use of the waiver would cause harm to public health and safety, or the environment.

(b) The Executive Director may condition, limit, suspend, or terminate an operator's use of a waiver if it is found that the operator has not utilized reasonably available waste diversion programs as identified in its waiver documentation.

(c) The Executive Director shall report to the Board at a regularly scheduled meeting any granting of a waiver, and all determinations made concerning the waiver.

NOTE: Authority cited: Sections 40502 and 43035, Public Resources Code. Reference: Sections 40002, 43020, 43021 and 43035, Public Resources Code.

HISTORY

1. New section filed 8–21–96; operative 9–20–96 (Register 96, No. 34).

Article 3.5. Temporary Waiver of Terms

§ 17211. Scope and Applicability.

(a) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (the Act), commencing at Section 40000 of the Public Resources Code, as amended. These Regulations should be read together with the Act.

(b) The purpose of this Article is to provide a means for an enforcement agency (EA) to authorize a temporary waiver from specific terms and conditions of a solid waste facilities permit for a limited period during a temporary emergency as defined in Section 17211.1(b). This Article does not authorize relief from requirements of State Minimum Standards, set out in Title 14, California Code of Regulations, Chapter 3, or other standard or requirement adopted by the Board.

(c) Pursuant to this Article, an Enforcement Agency (EA) may issue a stipulated agreement defined in Section 17211.1(a) that provides a temporary waiver of specific terms and conditions of a solid waste facilities permit during a temporary emergency.

(d) This article informs an operator, who holds a valid solid waste facilities permit, of the process for requesting a stipulated agreement in the event of an temporary emergency.

(e) This Article is not intended to limit the authority of the state or a local agency, including the EA or the Board to enforce the terms and conditions of a solid waste facilities permit that are not subject to the stipulated agreement, State Minimum Standards, and provisions of the Act.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New article 3.5 (sections 17211–17211.9) and section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New article 3.5 (sections 17211–17211.9) and section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New article 3.5 (sections 17211–17211.9) and section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New article 3.5 (sections 17211–17211.9) and section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).

§ 17211.1. Definitions.

In addition to the definitions set forth in Section 17210.1 of Article 3, of this Chapter, the following definitions apply to this Article 3.5:

(a) "Stipulated agreement" means an enforceable document written by the EA, pursuant to Division 30, Public Resources Code, Section 45011(a), that provides a temporary waiver of specified terms and conditions of a solid waste facilities permit issued to an operator pursuant to this Division. The stipulated agreement is subject to appeal through the appeal process set out in Division 30, Public Resources Code, Parts 5 and 6.

(b) "Temporary emergency" means a temporary, unforeseeable circumstance, which results in a situation where it is necessary, in order to protect the public health and safety or the environment as determined by the EA, to waive specified terms and conditions of a solid waste facilities permit. "Temporary emergency" does not include competitive market changes or a failure on the part of the operator, the EA or a local government agency to plan for reasonably foreseeable future events. Further,

because they are not unforeseeable, circumstances resulting from a labor controversy arising from issues at one or more solid waste facilities are not a "temporary emergency" with respect to the facility or facilities at which the labor controversy occurs.

HISTORY

1. New section filed 11-1-2001 as an emergency; operative 11-1-2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3-1-2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3-4-2002 as an emergency; operative 3-2-2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6-20-2002 as an emergency; operative 7-3-2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-31-2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10-24-2002 as an emergency; operative 11-1-2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3-3-2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10-24-2002 order transmitted to OAL 2-21-2003 and filed 4-4-2003 (Register 2003, No. 14).
7. Amendment filed 2-28-2008; operative 3-29-2008 (Register 2008, No. 9).

§ 17211.2. Purpose and Limitation of a Stipulated Agreement.

(a) A stipulated agreement may only be used in the event of a temporary emergency.

(b) A stipulated agreement may only be used when the EA and operator agree that the circumstance contributing to the temporary emergency was unforeseeable.

(c) An EA may use a stipulated agreement for the express purpose of enabling an operator of an existing permitted solid waste facility to operate in a manner not consistent with the terms and conditions of the solid waste facilities permit.

(d) The operator must comply with the terms and conditions of the solid waste facilities permit until such time as a stipulated agreement is provided by the EA.

(e) The term of the stipulated agreement once granted by the EA, shall not exceed 90 days. The EA may grant one or more extensions of 90 days or less as allowed in Section 17211.6.

(f) All permit terms and conditions, which are not the subject of the stipulated agreement, shall remain in effect.

(g) A stipulated agreement may be modified; cancelled, or revoked by the EA without advance notice should the EA determine that any of the following occurs:

(1) The use of the stipulated agreement causes or contributes to, or threatens to cause or contribute to, harm to the public health and safety or the environment;

(2) The terms of the stipulated agreement are not being used expressly to handle a temporary emergency and are not in the best interest of the public health and safety or the environment;

(3) The solid waste facilities permit has been revised to include terms and conditions that address the temporary emergency.

(4) The temporary emergency no longer exists (so the stipulated agreement is no longer necessary).

(h) A stipulated agreement shall be cancelled or revoked by the EA without advance notice should the EA determine that the operator is not in compliance with the time frames and requirements included in the stipulated agreement under Section 17211.5(c) and (d).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11-1-2001 as an emergency; operative 11-1-2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3-1-2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3-4-2002 as an emergency; operative 3-2-2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6-20-2002 as an emergency; operative 7-3-2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-31-2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10-24-2002 as an emergency; operative 11-1-2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3-3-2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10-24-2002 order transmitted to OAL 2-21-2003 and filed 4-4-2003 (Register 2003, No. 14).

§ 17211.3. Request for a Temporary Stipulated Agreement.

(a) An operator may make a request to an EA for a stipulated agreement.

(b) To obtain a stipulated agreement, the operator shall submit a written request to the EA. The request for the stipulated agreement shall include the following information:

(1) A description of the temporary emergency, including a description of how the circumstance was unforeseeable, which justifies a waiver.

(2) The specific changes in operation or design at the facility required to address the temporary emergency.

(3) The specific terms and conditions of the facility's existing solid waste facilities permit from which the operator is requesting a waiver.

(4) A requested date to begin implementation of the stipulated agreement.

(5) Actions the operator will take so the stipulated agreement is no longer needed including milestones and associated timelines with specific dates.

(6) Evidence acceptable to the EA that the operation of the facility under a stipulated agreement is compliant with all applicable land use entitlements, all other permits affecting the facility, all applicable federal, state, and local laws and regulations, and the California Environmental Quality Act.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11-1-2001 as an emergency; operative 11-1-2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3-1-2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3-4-2002 as an emergency; operative 3-2-2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7-1-2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6-20-2002 as an emergency; operative 7-3-2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-31-2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10-24-2002 as an emergency; operative 11-1-2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3-3-2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10-24-2002 order transmitted to OAL 2-21-2003 and filed 4-4-2003 (Register 2003, No. 14).

§ 17211.4. Issuing a Stipulated Agreement.

(a) The EA may issue a stipulated agreement upon making the following determinations:

(1) A temporary emergency exists.

(2) The operator requesting a stipulated agreement holds a valid solid waste facilities permit for the facility.

(3) The operator is in compliance and has demonstrated good faith in maintaining compliance with state minimum standards and the terms and conditions of the existing solid waste facilities permit.

(4) It is necessary to waive specified terms and conditions of a solid waste facilities permit in order to protect the public health and safety or the environment.

(5) Operation under the stipulated agreement will not pose a threat to public health and safety or the environment.

(6) Any restrictions, conditions, or terms contained in the stipulated agreement have been agreed upon by the EA and the operator.

(7) A stipulated agreement may not be used for a recurring temporary emergency addressed by a previous stipulated agreement.

(b) Within 5 working days of receipt of the operator's request for a stipulated agreement, the EA shall notify the operator in writing whether or not the request for a stipulated agreement has been granted. If the proposed stipulated agreement is not granted, the EA's notification shall contain reasons for the denial. The solid waste facility operator may again request the stipulated agreement at a later date or submit necessary documentation to receive the stipulated agreement.

(c) If a stipulated agreement is not requested or a request is denied, the EA may address the changes required to address the temporary emergency through the processes and mechanisms included in Chapter 5, Article 4.

(d) In the event the Executive Director conditions, limits, suspends, or terminates an operator's use of a stipulated agreement pursuant to Section 17211.9(a), the EA shall not find that an operator has violated any of the specific terms and conditions waived by the stipulated agreement for a violation occurring during the period between the EA's written approval of the stipulated agreement and the effective date of the Executive Director's action under Section 17211.9(a) when the Executive Director's action has the effect of setting aside or limiting the waiver of any such specific terms and conditions.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).
7. New subsections (a)(1) and (a)(4), subsection renumbering and new subsection (d) filed 2–28–2008; operative 3–29–2008 (Register 2008, No. 9).

§ 17211.5. Contents of a Stipulated Agreement.

Contents of a stipulated agreement are as follows, but not limited to:

(a) Specific terms and conditions of the solid waste facilities permit that are subject to the stipulated agreement.

(b) Justification for providing the stipulated agreement, including evidence supporting the finding made by the EA.

(c) The specific changes in operation or design at the facility required to address the temporary emergency.

(d) Term of the stipulated agreement, including commencement date, termination date and whether request for one or more extensions will be entertained under appropriate and specified circumstances.

(e) Actions the operator will take including milestones and associated timelines with specific dates to revise its solid waste facilities permit or to modify its operations so that the facility will no longer need the stipulated agreement.

(f) Actions the EA will take if applicable to assist the operator to revise its solid waste facilities permit or to modify its operations or design so that the facility will no longer require the stipulated agreement.

(g) Evidence, demonstrated through the signatures of both the operator and the EA, that the operator and EA have agreed to the requirements set out in the stipulated agreement.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).

§ 17211.6. Reporting Requirements for a Solid Waste Facility Operator

(a) The solid waste facility operator shall submit a written report to the EA within10 days prior to the termination date of the stipulated agreement.

(b) The written report shall include:

(1) Information regarding changes in operation or design that took place as a result of the stipulated agreement.

(2) Description of steps taken to find a longer term and/or permanent solution to address the unforeseeable circumstance.

(3) Either a request to discontinue the stipulated agreement on a date certain, or a request to continue the stipulated agreement for another 90 days.

(c) If the stipulated agreement is extended beyond the initial 90 days, the operator shall submit a subsequent report, as described in subparagraph (b), to the EA. The report shall be submitted once every 10 days prior to the termination date of each extension of the stipulated agreement.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).

§ 17211.7. Reporting Requirements for an Enforcement Agency.

(a) The EA shall transmit a copy of the stipulated agreement request and stipulated agreement to the Board within 5 working days of it being granted.

(1) The transmitted stipulated agreement will be accompanied by supporting written documentation of the information by which the LEA made the determinations required in Section 17211.4(a).

(b) The EA shall transmit a copy of the stipulated agreement request and verification of denial to the Board within 5 working days of the stipulated agreement denial.

(1) The transmitted stipulated agreement will be accompanied by supporting written documentation of the information by which the LEA made the determinations required in Section 17211.4(b).

(c) The EA shall transmit a copy of verification of an extension of a stipulated agreement to the Board with in 5 working days of it being granted.

(d) The EA shall submit a copy of the operator's written reports to the Board within 5 working days of the receipt of the reports.

(e) The EA shall provide an oral report to the Board during the next regularly scheduled meeting after an extension of a stipulated agreement.

(f) Within 24 hours following the EA's issuance of a stipulated agreement, the EA shall submit a notice for publication in a daily newspaper of general circulation in the community in which the solid waste facility is located and shall submit a notice to the Board to be posted on the Board's web page.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).
7. New subsections (a)(1) and (b)(1) filed 2–28–2008; operative 3–29–2008 (Register 2008, No. 9).

§ 17211.8. Authority of an Enforcement Agency.

(a) An EA may approve a waiver through a stipulated agreement addressing specific terms or conditions of a solid waste facilities permit, as needed, to respond to a temporary emergency, as defined in Section 17211.1.

(b) For reasons noted in Section 17211.2(g) the EA may cancel or revoke a stipulated agreement and choose to address the situation through mechanisms found in Chapter 5, Article 4.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).

§ 17211.9. Board Review of Stipulated Agreements.

(a) Once a stipulated agreement is issued and the EA has provided a copy to the Board pursuant to Section 17211.7(a), the Executive Director of the Board shall review all EA approvals. The Executive Director may, after consulting with the EA, condition, limit, suspend, or terminate an operator's use of a stipulated agreement if he or she finds that implementation of the agreement as issued is not consistent with Section 17211.4 or may adversely affect public health and safety, or the environment.

(b) The Executive Director shall report to the Board at the next regularly scheduled meeting any issuance of a stipulated agreement, denial of a stipulated agreement, extension of a stipulated agreement, or any other action taken by an EA pursuant to this Article and shall report any action taken by the Executive Director to condition, limit, suspend or terminate a stipulated agreement, including the basis on which the Executive Director took such action.

(c) The Executive Director may delegate his or her duties under this section to any employee of the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 45011(a), Public Resources Code.

HISTORY

1. New section filed 11–1–2001 as an emergency; operative 11–1–2001 (Register 2001, No. 44). A Certificate of Compliance must be transmitted to OAL by 3–1–2002 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 10).
3. New section filed 3–4–2002 as an emergency; operative 3–2–2002 (Register 2002, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–1–2002 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 6–20–2002 as an emergency; operative 7–3–2002 (Register 2002, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–31–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 10–24–2002 as an emergency; operative 11–1–2002 (Register 2002, No. 43). A Certificate of Compliance must be transmitted to OAL by 3–3–2003 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 10–24–2002 order transmitted to OAL 2–21–2003 and filed 4–4–2003 (Register 2003, No. 14).
7. Amendment filed 2–28–2008; operative 3–29–2008 (Register 2008, No. 9).

Article 4. Definitions

§ 17225. General.

(a) Unless the context requires another construction, the definitions set forth in this article and in Division 30 of the Public Resources Code shall govern the construction of this chapter. No definitions which are present in Division 30 of the Public Resources Code are repeated herein. Consequently, those definitions should be read in conjunction with the ones set forth herein.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40000, 40001 and 40002, Public Resources Code; Title 40, Code of Federal Regulations, Section 258.2.

HISTORY

1. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

3. Amendment of section and NOTE filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
4. Amendment of section and NOTE refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
6. Repealer of subsection (b) filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.1. Abandoned Vehicles.

"Abandoned Vehicles" includes vehicles, with or without motor power, including cars, trucks, trailers, mobilehomes, buses, etc., left on public or private property for an extended period of time and usually in an inoperable or hazardous condition.

§ 17225.2. Active Face.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.3. Agricultural Solid Wastes.

"Agricultural Solid Wastes" include wastes resulting from the production and processing of farm or agricultural products, including manures, prunings and crop residues wherever produced.

§ 17225.4. Approval Agency.

"Approval Agency" includes any agency with regulatory powers regarding solid waste generation, collection, transportation, processing or disposal and includes, but is not limited to the Board, the Department, California Regional Water Quality Control Boards, local air pollution control districts, local enforcement agencies, local health entities and local land use authorities.

§ 17225.5. Ashes.

"Ashes" includes the residue from the combustion of any solid or liquid materials.

§ 17225.6. Baling.

"Baling" includes the process of compressing and binding solid wastes.

§ 17225.7. Board.

HISTORY

1. Change without regulatory effect repealing Section 17225.7 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35).

§ 17225.8. Bulky Waste.

"Bulky Waste" includes large items of solid waste such as appliances, furniture, large auto parts, trees, branches, stumps and other oversize wastes whose large size precludes or complicates their handling by normal collection, processing or disposal methods.

§ 17225.9. Cell.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.10. Collection.

"Collection" means the act of collecting solid waste at the place of waste generation by an approved collection agent (public or private) and is distinguished from "removal."

§ 17225.11. Combustible Refuse.

"Combustible Refuse" means any burnable refuse.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

§ 17225.12. Commercial Solid Wastes.

"Commercial Solid Wastes" include all types of solid wastes generated by stores, offices and other commercial sources, excluding residences, and excluding industrial wastes.

§ 17225.13. Collection Vehicle or Equipment.

"Collection Vehicle or Equipment" includes any vehicle or equipment used in the collection of residential refuse or commercial solid wastes.

§ 17225.14. Composting.

"Composting" includes a controlled microbial degradation of organic wastes yielding a safe and nuisance free product.

§ 17225.15. Construction and Demolition Wastes.

"Construction and Demolition Wastes" include the waste building materials, packaging and rubble resulting from construction, remodeling, repair and demolition operations on pavements, houses, commercial buildings and other structures.

§ 17225.16. Cover Material.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.17. Daily Cover.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.18. Dead Animals.

"Dead Animals" include those animals whose carcasses require disposal.

§ 17225.19. Decomposition Gases.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.20. Department.

HISTORY

1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.21. Disposal Area.

"Disposal Area" means that portion of a disposal site which has received or is receiving solid wastes.

§ 17225.22. Disposal Site or Site.

HISTORY

1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.23. Disposal Site Owner.

HISTORY

1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.24. Dump.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.25. "EA." (CIWMB)

"EA" means enforcement agency as defined in PRC Section 40130.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40000, 40001, 40002, Public Resources Code; Title 40, Code of Federal Regulations, Section 258.2.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17225.26. Fill.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.27. Final Cover.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.28. Final Site Face.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.29. Flue.

"Flue" includes any duct or passage for air, gases, or the like, such as a stack or chimney.

§ 17225.30. Garbage.

"Garbage" includes all kitchen and table food waste, and animal or vegetable waste that attends or results from the storage, preparation, cooking or handling of food stuffs.

§ 17225.31. Groups of Wastes.

HISTORY

1. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).
2. Change without regulatory effect repealing Section 17225.31 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35).

§ 17225.32. Hazardous Wastes.

"Hazardous Wastes" include any waste material or mixture of wastes which is toxic, corrosive, flammable, an irritant, a strong sensitizer, which generates pressure through decomposition, heat or other means, if such a waste or mixture of wastes may cause substantial personal injury, serious illness or harm to humans, domestic animals, or wildlife, during, or as an approximate result of any disposal of such wastes or mixture of wastes as defined in Article 2, Chapter 6.5, Section 25117 of the Health and Safety Code. The terms "toxic," "corrosive," "flammable," "irritant," and "strong sensitizer" shall be given the same meaning as in the California Hazardous Substances Act (Chapter 13 commencing with Section 28740 of Division 21 of the Health and Safety Code).

§ 17225.33. Incinerator.

"Incinerator" includes any equipment used for the volume reduction or destruction of combustible wastes by burning, from which the exhaust gases pass through a flue.

§ 17225.34. Incinerator Residue.

"Incinerator Residue" includes the solid materials remaining after reduction in an incinerator.

§ 17225.35. Industrial Wastes.

"Industrial Wastes" include all types of solid wastes and semi–solid wastes which result from industrial processes and manufacturing operations.

§ 17225.36. Infectious Wastes.

"Infectious Wastes" include:

(a) Equipment, instruments, utensils and other fomites of a disposable nature from the rooms of patients who are suspected to have or have been diagnosed as having a communicable disease and must, therefore, be isolated as required by public health agencies;

(b) laboratory wastes, including pathological specimens (i.e., all tissues, specimens of blood elements, excreta and secretions obtained from patients or laboratory animals) and disposable fomites (any substance that may harbor or transmit pathogenic organisms) attendant thereto;

(c) surgical operating room pathologic specimens—including recognizable anatomical parts, human tissue, anatomical human remains and disposable materials from hospitals, clinics, outpatient areas and emergency rooms, as is also defined in Section 314(d) of the California Administrative Code, Title 17.

§ 17225.37. Institutional Solid Wastes.

"Institutional Solid Wastes" include solid wastes originating from educational, health care, correctional, research facilities or other similar facilities.

§ 17225.38. Intermediate Cover.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.39. Landfill.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.40. Leachate.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

[The next page is 731.]

§ 17225.41. Liquid Wastes.
"Liquid Wastes" means waste materials which are not spadeable.

§ 17225.42. Litter.
"Litter" means all improperly discarded waste material, including, but not limited to, convenience food, beverage, and other product packages or containers constructed of steel, aluminum, glass, paper, plastic, and other natural and synthetic materials, thrown or deposited on the lands and waters of the state, but not including the properly discarded waste of the primary processing of agriculture, mining, logging, sawmilling, or manufacturing.

HISTORY
1. Amendment filed 8–18–78; effective thirtieth day thereafter (Register 78, No. 33).

§ 17225.43. Local Government.
"Local Government" is a local public entity which is a county, city, district, or any other special political subdivision, but is not the State.

HISTORY
1. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.44. Non–Combustible Refuse.
"Non–Combustible Refuse" includes miscellaneous refuse materials that are unburnable at ordinary incinerator temperatures (1300 to 2000 degrees F).

§ 17225.45. Nuisance.
"Nuisance" includes anything which is injurious to human health or is indecent or offensive to the senses and interferes with the comfortable enjoyment of life or property, and affects at the same time an entire community or neighborhood or any considerable number of persons although the extent of annoyance or damage inflicted upon the individual may be unequal and which occurs as a result of the storage, removal, transport, processing or disposal of solid waste.

§ 17225.46. Open Burning.
HISTORY
1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.47. Operating Area.
HISTORY
1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.48. Operator.
HISTORY
1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.49. Person.
HISTORY
1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.50. Premises.
"Premises" includes a tract or parcel of land with or without habitable buildings or appurtenant structures.

§ 17225.51. Processing.
HISTORY
1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.52. Putrescible Wastes.
"Putrescible Wastes" include wastes that are capable of being decomposed by micro–organisms with sufficient rapidity as to cause nuisances because of odors, gases or other offensive conditions, and include materials such as food wastes, offal and dead animals.

§ 17225.53. Refuse.
"Refuse" includes garbage and rubbish.

§ 17225.54. Recycling.
HISTORY
1. Repealer filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17225.55. Removal.
"Removal" means the act of taking solid wastes from the place of waste generation either by an approved collection agent or by a person in control of the premises.

§ 17225.56. Removal Frequency.
"Removal Frequency" means frequency of removal of solid wastes from the place of waste generation either by an approved collection agency or by the owner of the waste.

§ 17225.57. Residential Refuse.
"Residential Refuse" includes all types of domestic garbage and rubbish which originate in residential dwellings.

§ 17225.58. Resource Recovery.
"Resource Recovery" means the reclamation or salvage of wastes for reuse, conversion to energy or recycling.

§ 17225.59. Rubbish.
"Rubbish" includes non–putrescible solid wastes such as ashes, paper, cardboard, tin cans, yard clippings, wood, glass, bedding, crockery, plastics, rubber by–products or litter.

§ 17225.60. Runoff.
HISTORY
1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.61. Salvaging.
"Salvaging" means the controlled removal of waste material for utilization.

§ 17225.62. Sanitary Landfill.
HISTORY
1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17225.63. Scavenging.
"Scavenging" means the uncontrolled and/or unauthorized removal of solid waste materials.

§ 17225.64. Septic Tank Pumpings.
"Septic Tank Pumpings" include sludge and wastewater removed from septic tanks.

§ 17225.65. Sewage Sludge.
"Sewage Sludge" includes any residue, excluding grit or screenings, removed from a waste water, whether in a dry, semidry or liquid form.

§ 17225.66. Shredding.
"Shredding" includes a process of reducing the particle size of solid wastes through use of grinding, shredding, milling or rasping machines.

§ 17225.67. Sludge.
"Sludge" includes the accumulated solids and/or semisolids deposited from wastewaters or other fluids.

§ 17225.68. Small Volume Transfer Station.
HISTORY
1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17225.69. Solid Wastes or Wastes.
HISTORY
1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.70. Solid Waste Management.
"Solid Waste Management" includes a planned program for effectively controlling the generation, storage, collection, transportation, processing and reuse, conversion or disposal of solid wastes in a safe, sanitary, aesthetically acceptable, environmentally sound and economical manner. It includes all administrative, financial, environmental, legal and planning functions as well as the operational aspects of solid waste handling, disposal and resource recovery systems necessary to achieve established objectives.

§ 17225.71. Street Refuse.

"Street Refuse" includes materials picked up by manual or mechanical sweeping of alleys, streets or sidewalks, litter from public litter receptacles and material removed from catch basins.

§ 17225.72. Transfer/Processing Station or Station.

HISTORY

1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17225.73. Vector.

"Vector" includes any insect or other arthropod, rodent, or other animal capable of transmitting the causative agents of human disease, or disrupting the normal enjoyment of life by adversely affecting the public health and well being.

§ 17225.74. Written Approval.

HISTORY

1. Repealer filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).

Article 4.1. Waste Tire Program Definitions

*The following definitions are to be used only for the purposes of Article 5.5 of this Chapter and Chapter 6 of this Division.

§ 17225.701. Altered Waste Tire.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including adoption of article heading and repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.705. Store.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.710. Applicant.

"Applicant" means any person seeking a permit to operate a waste tire facility.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42820, 42822, 42833, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.715. Baled Tires.

"Baled Tires" means either whole or altered waste tires that have been compressed and then secured with a binding material for the purpose of reducing their volume. Baled tires are waste tires as defined in PRC Section 42801.6, until fully enclosed or encapsulated in an engineered construction project for which all required local, state, and/or federal government approvals have been obtained. "Baling" in reference to waste tires means action which produces baled tires.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42801.6, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including amendment transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer and new section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.717. Collection.

Waste tires are considered in the "collection" process when they are temporarily placed in fully enclosed, licensed road transportable containers that are not stored at a permitted waste tire facility or a facility identified in Section 18420(a). The requirements of Article 5.5 of this Chapter and Chapter 6, with the exception of Article 8.5, Chapter 6, shall not apply to "collection" as long as the following conditions are met:

(1) Containers shall be kept closed except while loading and unloading.

(2) Containers shall be kept locked when not being loaded or unloaded unless unauthorized access is controlled pursuant to section 17352 of this Article.

(3) All waste tire deliveries shall be manifested in accordance with Article 8.5 of this Chapter.

(4) For the purpose of this section "temporarily" shall mean less than 90 days.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.720. Crumb Rubber.

Crumb rubber means rubber granules derived from waste tires that are less than or equal to one-quarter (1/4) inch (6mm) in size. "Crumbing" in reference to waste tires means action which produces crumb rubber.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42801.7, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.725. Design.

"Design" means the layout of a waste tire facility (including the numbers and types of fixed structures), total volumetric capacity of a waste tire facility or total throughput rate, vehicular traffic flow and patterns surrounding and within the facility, proposed contouring, and other factors that may be considered a part of the facility's physical configuration.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42812, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.735. Waste Tire.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42807, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.750. Operation.

"Operation" means the procedures, personnel, and equipment used to receive, store, process or dispose of waste tires.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42812, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.755. Operator.

"Operator" means the person legally responsible for the operation of a waste tire facility or the owner if there is no operator.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42804, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.760. Owner.

"Owner" means a person who owns, in whole or in part, a waste tire facility, the waste tires located at a facility, or the land on which a waste tire facility is located.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42805, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.770. Passenger Tire Equivalents (PTE).

"Passenger Tire Equivalents" means the total weight of altered waste tires, in pounds, divided by 20 pounds. This definition replaces the previous definition of "Tire Equivalents."

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42808, 42821(c), 42831, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.795. Store.

"Store" means to reserve tires for future use, processing, recycling, or offsite disposal.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42822, 42808, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.800. Substantial Change.

For the purpose of PRC section 42812, "Substantial Change" means any change that may cause a significant effect on the environment. Significant effect on the environment shall have the same meaning as provided in the State California Environmental Quality Act (CEQA) Guidelines. The determination of significant effect shall be made in accordance with section 15064 of the State CEQA Guidelines (Title 14 of the California Code of Regulations).

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42812, 42820, 42830 and 43020, Public Resources Code; and Sections 15002, 15064 and 15382, State CEQA Guidelines, Title 14, CCR.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17225.820. Used Tire Dealer.

"Used Tire Dealer" means a business, operating under the terms and conditions of a local use permit, business license or other required local approval, which is storing used tires in accordance with PRC section 42806.5, and for which its primary purpose is to sell used tires for profit.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42800, 42806.5, 42820, 42830 and 43020, Public Resources Code.

HISTORY

1. New section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 4.5. Implementation of Federal Municipal Solid Waste Landfill Minimum Standards

§ 17258.1. Purpose, Scope, and Applicability.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43030, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Section 258.1.

HISTORY

1. New article 4.5 (sections 17258.1–17258.74, not inclusive) filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New article 4.5 refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 with amendments and filed 4–19–94 (Register 94, No. 16).
4. Repealer of article 4.5 (sections 17258.1–17258.74) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to implementation of federal municipal solid waste landfill minimum standards have been relocated to title 27, division 2.

§ 17258.2. Definitions.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43030, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Sections 257 and 258.2.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 with amendments of subsections (b) and (h) and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.10. Airport Safety.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Section 258.10.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.16. Closure of Existing Landfills.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 40508, Public Resources Code and Title 40, Code of Federal Regulations, Section 258.16.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.20. Procedures for Excluding the Receipt of Hazardous Waste.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 40508, Public Resources Code; Sections 25249.5 through 25249.13, Health and Safety Code; and Title 40, Code of Federal Regulations, Section 258.20.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.21. Cover Material Requirements.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43030, Public Resources Code. Reference: Section 40508, 43020, Public Resources Code; and Title 40, Code of Federal Regulations, Sections 258.21.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.23. Explosive Gases Control.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43030, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Sections 258.23.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.24. Air Criteria.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43030, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Sections 258.24.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.29. Recordkeeping Requirements.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Section 258.29.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.60. Closure Criteria.

NOTE: Authority cited: Sections 40502, 43020, 43021, 43030, 43501 and 43509, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Sections 258.60.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17258.61. Postclosure Care Requirements.

NOTE: Authority cited: Sections 40502, 43020, 43021, 43030, 43501 and 43509, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Sections 258.61.

HISTORY

1. New section filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.

3. Certificate of Compliance as to 11-9-93 order transmitted to OAL 3-8-94 and filed 4-19-94 (Register 94, No. 16).
4. Repealer filed 6-18-97; operative 7-18-97 (Register 97, No. 25).

§ 17258.73. Financial Assurance for Corrective Action.

NOTE: Authority cited: Sections 40502 and 40508, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Section 258.73.

HISTORY

1. New section filed 7-12-93 as an emergency; operative 7-12-93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11-9-93 as an emergency; operative 11-9-93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4-26-93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11-9-93 order transmitted to OAL 3-8-94 and filed 4-19-94 (Register 94, No. 16).
4. Repealer filed 6-18-97; operative 7-18-97 (Register 97, No. 25).

§ 17258.74. Allowable Mechanisms for Corrective Action.

NOTE: Authority cited: Sections 40502 and 40508, Public Resources Code. Reference: Section 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Section 258.74.

HISTORY

1. New section filed 7-12-93 as an emergency; operative 7-12-93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 11-9-93 as an emergency; operative 11-9-93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4-26-93 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 11-9-93 order transmitted to OAL 3-8-94 with amendment of subsections (a)(5), (b)(1), (c)(1), (d)(1), (i) and (k) and filed 4-19-94 (Register 94, No. 16).
4. Repealer filed 6-18-97; operative 7-18-97 (Register 97, No. 25).

Article 5. Solid Waste Storage and Removal Standards

GENERAL

§ 17301. Applicability of Standards.

The standards in this Article shall apply to all facilities, equipment, or vehicles used for storage, removal, transport, and other handling of solid wastes.

HISTORY

1. Amendment filed 2-21-78; effective thirtieth day thereafter (Register 78, No. 8).

§ 17302. Conformance with Plan.

After the effective date of the county solid waste management plan required by Section 66780 of the Government Code, solid waste storage and removal shall be in conformance with said plan.

STORAGE OF SOLID WASTES

§ 17311. General.

The owner, operator and/or occupant of any premise, business establishment, industry, or other property, vacant or occupied, shall be responsible for the safe and sanitary storage of all solid waste accumulated on the property.

§ 17312. Storage.

(H) In all cases in which garbage and rubbish are combined, the standards for garbage shall prevail. The property owner or occupant shall store solid waste on his premises or property or shall require it to be stored or handled in such a manner so as not to promote the propagation, harborage, or attraction of vectors, or the creation of nuisances.

§ 17313. Design Requirements.

The design of any new, substantially remodeled or expanded building or other facility shall provide for proper storage or handling which will accommodate the solid waste loading anticipated and which will allow for efficient and safe waste removal or collection. The design shall demonstrate to local land use and building permit issuing authorities that it includes the required provisions.

§ 17314. Operator Responsibility.

Where the collection operator furnishes storage containers, he is responsible for maintaining the containers in good condition (ordinary wear and tear excepted) unless they are furnished under other terms, conditions, or agreements. He shall plan with the property owner and/or occupant as to placement of storage containers to minimize traffic, aesthetic and other problems both on the property and for the general public.

§ 17315. Garbage Containers.

(H) Property owners and tenants shall deposit all garbage and putrescible matter or mixed garbage and rubbish in containers which are either non-absorbent, water-tight, vector-resistant, durable, easily cleanable, and designed for safe handling, or in paper or plastic bags having sufficient strength and water tightness and which are designed for the containment of refuse. Containers for garbage and rubbish should be of an adequate size and in sufficient numbers to contain without overflowing, all the refuse that a household or other establishment generates within the designated removal period. Containers when filled shall not exceed reasonable lifting weights for an average physically fit individual except where mechanical loading systems are used. Containers shall be maintained in a clean, sound condition free from putrescible residue.

§ 17316. Identification of Containers.

Containers of one cubic yard or more owned by the collection service operator shall be identified with the name and telephone number of the agent servicing the container.

§ 17317. Use of Container.

No person shall tamper with, modify, remove from, or deposit solid wastes in any container which has not been provided for his use, without the permission of the container owner.

SOLID WASTE REMOVAL AND COLLECTION

§ 17331. Frequency of Refuse Removal.

(H) The owner or tenant of any premises, business establishment or industry shall be responsible for the satisfactory removal of all refuse accumulated by him on his property or his premises. To prevent propagation, harborage, or attraction of flies, rodents or other vectors and the creation of nuisances, refuse, except for inert materials, shall not be allowed to remain on the premises for more than seven days, except when:

(a) disruptions due to strikes occur, or

(b) severe weather conditions or "Acts of God" make collection impossible using normal collection equipment, or

(c) official holidays interrupt the normal seven day collection cycle in which case collection may be postponed until the next working day. Where it is deemed necessary by the local health officer because of the propagation of vectors and for the protection of public health, more frequent removal of refuse shall be required.

HISTORY

1. Amendment filed 7-25-78; effective thirtieth day thereafter (Register 78, No. 30).

§ 17332. Regulation of Operators.

Each person providing residential, commercial, or industrial solid waste collection services shall comply with all local government licenses, permits or written approval requirements applicable to the city or county in which such services are provided. Such written approval shall be contingent upon the operator's demonstrated capability to comply with these standards and use of equipment which is safe and sanitary. Each enforcement agency of solid waste collection shall maintain a complete listing of all persons holding written approvals to provide solid waste collection services within its jurisdiction. The listings shall contain the name, office, address, telephone number and emergency telephone number if different of each such person, the number and types of vehicles employed by such person in providing such solid waste collection services, and the types of materials authorized for handling.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

§ 17333. Operator Qualifications.

When a city, county or special district authorizes or designates a person or firm to provide solid waste collection services within the territory under its jurisdiction through contract, franchise, permit, or license the local government shall obtain proof that such person or firm has adequate financial resources and experience to properly conduct the operation authorized. The facts needed to establish proof shall include but not be limited to the following:

(a) The filing of a performance bond or equivalent security with the local government in a reasonable amount, together with

(b) Evidence submitted to the local government and to the enforcement agency that the person or firm has experience sufficient to meet the needs of the situation within the jurisdiction.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

§ 17334. Ownership of Waste Materials.

Solid wastes subject to collection by a collection service operator shall become the property of the collection service operator subject to local ordinances or contract conditions after such time as the authorized collector takes possession of the wastes.

COLLECTION AND TRANSPORTATION EQUIPMENT

§ 17341. Equipment Construction.

(H). All equipment used for the collection and/or transportation of solid waste shall be durable, easily cleanable and designed for safe handling, and constructed to prevent loss of wastes from the equipment during collection or transportation. If such equipment is used to collect or transport garbage, other wet or liquid producing wastes, or wastes composed of fine particles, such equipment shall in all cases be non–absorbent and leak resistant. All equipment shall be maintained in good condition and cleaned in a frequency and in a manner so as to prevent the propagation or attraction of flies, rodents, or other vectors and the creation of nuisances.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

§ 17342. Equipment Safety.

(H) Vehicles and equipment used in the transport of garbage and rubbish shall be constructed and maintained in such a manner as to minimize the health and safety hazards to collection personnel and the public.

§ 17343. Equipment Parking.

A refuse collection service operator must designate an off–street location where all refuse collection vehicles will be parked when not in service, except in an emergency.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

§ 17344. Identification of Operator.

Each vehicle used for the collection and transport of refuse shall be clearly marked with the name of the agency or firm operating the vehicle.

§ 17345. Inspection of Equipment.

(H) Equipment used for solid waste collection shall be made available for inspection as requested by the appropriate Enforcement Agency.

Article 5.4. Waste Tire Monofill Regulatory Requirements

§ 17346. Authority and Scope.

(a) This Article sets forth permitting requirements and minimum operating standards for facilities that operate a waste tire monofill as defined in Section 17346.1 of this Article.

(b) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (the Act) commencing with Section 40000 of the Public Resources Code, as amended. These regulations should be read together with the Act.

(c) Nothing in this Article limits or restricts the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer, nor to limit or restrict cities or counties from promulgating laws which are at least as strict as the regulations contained in this Article. However, no city or county may promulgate laws which are inconsistent with the provisions of this Article.

(d) Nothing in this Article shall be construed as relieving any owner or operator from obtaining all required permits, licenses, or other clearances complying with all orders, laws, regulations, or other requirements of other regulatory or enforcement agencies, including, but not limited to, local health agencies, the Regional Water Quality Control Board, the Department of Toxic Substances Control, air quality management district or air pollution control district, local land use authorities, and fire authorities.

(e) These regulations are intended to provide a sufficient level of information and oversight to ensure that the disposal of waste tires will be conducted in a manner which meets the purposes of the Act, as specified in Public Resources Code Section 40052, while protecting the public health, safety and the environment.

(f) For the purposes of this Article and Article 5.5 of this Chapter, disposal and storage of waste tires does not include the beneficial reuse of waste tires as the Board may determine on a case–by–case basis.

(1) Beneficial *re*use of altered waste tires is permitted provided the beneficial use does not pose a threat to public health, safety and the environment.

(2) In order to qualify as a beneficial use, the proposed use must employ one or more of the engineering properties of waste tires and provide equal or superior performance or lower cost relative to conventional technologies and the proposed use must be approved in writing by a registered civil engineer.

(3) An application to determine if a project is considered a beneficial reuse must be made in writing to the EA and the Board. The EA and the Board will evaluate the proposed project under the criteria set forth in subsections 17346(f)(1) and (2) and will independently determine and notify the applicant whether the proposed project constitutes a beneficial reuse of altered waste tires within ninety (90) days from their receipt of the application.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020, 43021 and 42808, Public Resources Code.

HISTORY

1. New article 5.4 (sections 17346–17349) and section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

§ 17346.1. Definitions.

For the purposes of this Article:

Unless the context requires another construction, the definitions set forth in this Article and in Division 30 of the Public Resources Code shall govern the construction of this Article. Certain of the definitions in Division 30 are interpreted herein for the purposes of this Article. The definitions set forth in Title 14, California Code of Regulations, Division 7, Chapter 3, Article 4.1 do not apply to this Article 5.4.

(a) "Air District" means Air Pollution Control District or Air Quality Management District.

(b) "Altered Waste Tire" means a waste tire that has been baled, shredded, chopped or split apart. "Altered waste tire" does not mean crumb rubber.

(c) "Cell" means that portion of compacted waste tires in a waste tire monofill that is enclosed by cover material during a designated period.

(d) "Local Fire Control Authority" means the public agency responsible for fire prevention and fire suppression for the area where a waste tire monofill facility is located or is proposed to be located.

(e) "Operator" means the person responsible for the overall operation of a waste tire monofill facility or the owner if there is no operator.

(f) "Owner" means a person who owns, in whole or in part, a waste tire monofill facility, the waste tires located at a waste tire monofill facility, or the land on which a waste tire monofill facility is located.

(g) "Rubber fines" are small particles of ground rubber that result as a by–product of producing shredded rubber.

(h) "RWQCB" means the Regional Water Quality Control Board.

(i) "Uncontaminated Waste Tires" mean waste tires that are not hazardous waste, as defined in Title 22, California Code of Regulations Sections 66260.10 and 66261.3.

(j) "Waste Tire Monofill" means a discrete unit, as defined in Title 27, California Code of Regulations, Section 20164, for disposal of only uncontaminated waste tires together with cover.

(k) "Waste tire monofill facility" means a solid waste facility that has or will have one or more waste tire monofills and that may handle waste tires for the purposes of disposal to a waste tire monofill or mining for recovery of waste tires from a waste tire monofill.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 40160, 42801.5, 42804, 42805, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

§ 17346.2. Regulatory Tier for Waste Tire Monofill Facilities.

(a) All Waste Tire Monofill Facilities shall obtain a Full Solid Waste Facilities Permit as set forth in Title 27, California Code of Regulations Sections 21563–21686, but excluding 21565.

(b) Except as expressly provided otherwise in this Article 5.4, all waste tire monofills shall comply with those provisions of the California Integrated Waste Management Act of 1989 (the Act), commencing with Public Resources Code Section 40000, and regulations promulgated pursuant to the Act which apply to solid waste landfills.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020, 43021 and 44002, Public Resources Code.

HISTORY

1. New section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

§ 17346.3. Applicability of State Minimum Standards.

(a) Operating Criteria. All waste tire monofills shall comply with the operating criteria set forth in Title 27, California Code of Regulations, Division 2, Chapter 3, Subchapter 4, commencing with Section 20510, except for the following:

(1) Section 20680. Daily Cover

(2) Section 20690. Alternative Daily Cover

(3) Section 20695. Cover Performance Standards

(4) Section 20700. Intermediate Cover

(b) Additional Operating Requirements for Waste Tire Monofills. In addition to the requirements set forth in (a) above, all waste tire monofills shall adhere to the following waste tire monofill standards:

(1) Waste tire monofill facilities shall comply with Title 14, California Code of Regulations, Division 7, Chapter 3, Article 5.5 and with Title 14, California Code of Regulations, Division 7, Chapter 6, Article 8.5.

(2) Waste tires disposed in a waste tire monofill shall be altered waste tires or shall be otherwise permanently reduced in volume prior to disposal in a manner approved by the EA and the Board on a case–by–case basis. Waste tires disposed in a tire monofill shall also comply with the following specifications, unless alternative specifications are approved pursuant to subsection (b)(10):

(A) Tire pieces passing a 3 inch (76 mm) square mesh sieve shall be limited to a maximum of 50% by weight and tire pieces passing a 1.5 inch (38 mm) square mesh sieve shall be limited to a maximum of 25% by weight in the waste tire monofill to limit the potential for internal heating.

(B) The waste tire monofill shall contain less than 1% by weight of tire particles small enough to pass through a no. 4 (4.75 mm) sieve.

(C) The waste tire monofill shall contain no more than 5% altered tires having metal fragments that protrude more than 2 inches (51 mm) from the cut edges.

(D) Disposal of any material other than waste tires and cover is prohibited.

(E) Disposal of the remains of tires that have been subjected to fire shall be prohibited.

(F) Disposal of factory–reject tire carcasses that have been only partially vulcanized shall be prohibited.

(G) Disposal of rubber fines shall be restricted to a separate area of the monofill as a discrete cell that is isolated from altered waste tire fill cells and mixed completely with an equal volume of cover during the filling operations.

(H) In the top 12–inch layer of altered waste tires, a minimum of 90 percent (by weight) of the altered waste tires shall have a maximum dimension, measured in any direction, of 12 inches (305 mm) and 100 percent of the altered waste tires shall have a maximum dimension, measured in any direction, of 18 inches (457 mm).

(3) Representative samples of altered waste tires to be disposed in a waste tire monofill shall be collected and analyzed for gradation and protruding wire on a monthly basis, or less frequently if approved by the EA and the Board, to ensure compliance with subsections 17346.3(b)(2)(A), (B), and (C). Representative samples of cover to be disposed or utilized at a waste tire monofill shall be tested to ascertain compliance with the limitation on organic matter set forth in subsection 17346.3(b)(5) of this Article 5.4. Records of the results of these samples shall be maintained in the records required by Section 17346.4 of this Article 5.4.

(4) The last lift of altered waste tires disposed in a waste tire monofill shall be compacted to provide a flat and stable surface.

(5) Waste tire monofill cells shall not exceed a maximum depth of 20 feet (6 m), and a maximum cell area of 12,500 square feet (1161 square meters). A minimum distance of 2 feet shall be maintained between tire shreds in adjacent cells. Intermediate cover shall be placed to wholly encapsulate each monofill cell. Intermediate cover shall consist of soil with less than 5% organic matter as determined by a loss on ignition test (ASTM D 2974–00) and compacted to the maximum density obtainable at optimum moisture content, plus or minus 3 percent, to obtain a stable surface, using methods that are in accordance with accepted engineering practice.

(6) The active face of not more than two (2) cells shall be uncovered at any given time within a waste tire monofill facility.

(7) A minimum of 6 inches (152 mm) of cover shall be placed over the entire working face at the end of each operating day if: (A) the working face is to remain open and inactive for longer than 24 hours; or (B) when there is precipitation. The cover shall consist of the same material used as intermediate cover.

(8) If more than one waste tire monofill cell is stacked vertically, temperature sensors shall be installed within the underlying cells to monitor cell temperatures. The operator shall submit a plan that sets forth the location and frequency of sensor placement for approval by the EA and the CIWMB. In addition, a fire prevention plan shall be in place to address any zones, which experience sustained elevated temperatures to reduce temperatures to safe levels. Both plans shall be made part of the Fire Prevention, Control and Mitigation Plan, which is defined in Section 17346.5(b)(1). Records of these results of elevated temperature shall be maintained in the records required by Section 17346.4 of this Article 5.4.

(9) An adequate stockpile of cover and equipment, as required and approved by the EA and the Board, shall be available in the event of fire to

insure a cover of a minimum depth of 3 feet on all waste tires, crumb rubber and rubber fines at the waste tire monofill facility exposed to the atmosphere.

(10) The operator may propose to the EA and the Board alternative operating criteria to those specified in subsections 17346.3(b)(2) through (b)(9) together with information supporting the proposal. The EA and the Board may approve such alternative criteria only if the EA and the Board determine that the alternative criteria protect the public health and safety and the environment at least as effectively as the criteria specified in subsections 17346.3(b)(2) through (b)(9).

(11) Any mining or excavation of waste tires from a waste tire monofill shall be in accordance with a site-specific excavation and materials management plan approved by the EA and the Board.

(12) For the purposes of this Article, in addition to the requirements of Title 27, California Code of Regulations, Section 20610 (Training), site personnel shall be trained in fire safety, prevention and suppression.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10-14-2003; operative 11-13-2003 (Register 2003, No. 42).

§ 17346.4. Waste Tire Monofill Facility Records.

(a) In addition the requirements set forth in Title 27, California Code of Regulations, Section 20510, waste tire monofills shall record the following information and maintain it with other facility records:

(1) Results from temperature sensor monitoring required by this Article 5.4, subsection 17346.3(b)(8).

(2) Results from the sampling of altered waste tires as required by this Article 5.4, subsection 17346.3(b)(3)

(3) Results from load checking program as required by Title 27, California Code of Regulations, Section 20870.

(4) Waste Tire Hauler Manifests as required by Title 14, California Code of Regulations, Section 18459.3.

(5) Results from the loss of ignition test (ASTM D 2974-00) for cover as required by this Article 5.4, subsection 17346.3(b)(3).

(6) Any additional records required as part of the terms and conditions of the Full Solid Waste Facilities Permit.

(b) Notwithstanding subsection 17346.4 (a), for purposes of this Article, the requirements of Title 27, California Code of Regulations, subsection 20515(a)(6)-(MSWLF Unit Records) shall not apply to waste tire monofills.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10-14-2003; operative 11-13-2003 (Register 2003, No. 42).

§ 17346.5. Report of Facility Information for Waste Tire Monofill Facilities.

(a) Each operator of a waste tire monofill facility must file with the EA a Report of Disposal Site Information (RDSI) as required in Title 27, California Code of Regulations, Sections 21590 & 21600.

(b) In addition to the RDSI requirements set forth in Title 27, California Code of Regulations, Sections 21590 and 21600, the RDSI shall include the following:

(1) A Fire Prevention, Control and Mitigation Plan which describes the measures the operator will take to: prevent tires from igniting, control and suppress the tire fire if it occurs, and mitigate the environmental impacts created by the tire fire at the waste tire monofill and by extinguishing the fire. The operator of a waste tire monofill facility shall specify the time frames under which any contaminated liquids generated as a result of any tire fire will be contained and removed and remedial actions will be implemented. Prior to Board concurrence in a permit, the time frames must be approved by the Board.

(2) Written evidence that the operator has submitted the Fire Prevention, Control and Mitigation Plan to the Local Fire Control Authority.

(3) Written evidence that the applicable Local Fire Control Authority has determined that the waste tire monofill facility, as described in the RDSI, complies with all fire prevention, fire suppression, and other requirements applicable to such facilities within the jurisdiction of the Local Fire Control Authority.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10-14-2003; operative 11-13-2003 (Register 2003, No. 42).

§ 17346.6. Design and Construction Standards.

(a) The waste tire monofill shall be constructed in accordance with design plans and specifications prepared, signed, and stamped by a civil engineer registered by the State of California, pursuant to Section 6762 of the Business and Professions Code.

(b) As specified in Section 17346.5 of this Article, operators of waste tire monofills shall prepare a Fire Prevention, Control and Mitigation Plan. As part of this plan, an emergency containment system that limits the flow of any contaminated liquids resulting from a fire in the tire monofill must be provided. The emergency containment system must contain any contaminated liquids resulting from a fire in the waste tire monofill and fire suppression for a period consistent with the implementation of the Fire Prevention, Control and Mitigation Plan. The emergency containment system may be the existing natural geologic condition or may be constructed (utilizing clay or composite material together with a protective operations layer). The emergency containment system shall also include a collection system to remove any contaminated liquid that accumulates within the monofill in the event of a fire within or proximate to the tire monofill. The emergency containment system must be able to withstand breaching or rupture due to temperatures and other conditions that may result from a fire within the tire monofill and from activities undertaken to extinguish a fire within the tire monofill or to remediate any hazard or risk of hazard to the public health and safety or the environment due to a fire within the tire monofill.

(c) Waste tire monofills shall be designed and constructed to minimize water from entering or accumulating in fill areas, or ponding on cells. Storm water may be temporarily collected in lined dewatering sumps that are located on the cells. The design and construction of the tire monofill must allow for the removal of storm water and water that accumulates in the monofill as quickly as necessary to minimize the risk of fire within the monofill, as determined by the EA and the Board.

(d) The operator of a waste tire monofill shall implement a construction quality assurance (CQA) program to ensure compliance with the above requirements.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10-14-2003; operative 11-13-2003 (Register 2003, No. 42).

§ 17346.7. Siting Criteria.

(a) Waste tire monofill facilities shall not be sited in an area subject to inundation or washout due to floods with a 100-year return period.

(b) Waste tire monofills shall meet seismic design criteria for Class III units as set forth in Title 27, California Code of Regulations, Section 20370.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10-14-2003; operative 11-13-2003 (Register 2003, No. 42).

§ 17347. Closure and Postclosure Maintenance Criteria.

(a) All waste tire monofills shall comply with the requirements set forth in Title 27, California Code of Regulations, Division 2, Chapter 3, Subchapter 5, Article 2, commencing at Section 21090.

(b) Notwithstanding subsection 17347(a) above, the operator may propose to the EA and the Board alternative closure and postclosure maintenance criteria to those specified in subsection (a), together with information supporting the proposal. The EA and the Board may approve such alternative criteria only if the EA and the Board determine that the alternative criteria protect the public health and safety and the environment at least as effectively as the criteria specified in subsection 17347(a).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020, 43021, 43103 and 43501, Public Resources Code.

HISTORY

1. New section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

§ 17347.1. Closure and Postclosure Maintenance Plans.

All waste tire monofills shall comply with the requirements set forth in Title 27, California Code of Regulations, Chapter 4, Subchapter 4, commencing at Section 21769.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40052, 43020, 43021, 43103 and 43501, Public Resources Code.

HISTORY

1. New section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

§ 17348. Corrective Action Criteria.

As part of the facility closure plan, the operator of a waste tire monofill shall establish corrective action procedures that include detecting, characterizing and responding to unpermitted discharges of solid waste to land, the detection of elevated subsurface temperatures and the mitigation of any fire at the facility. The corrective action procedures shall also include an estimated cost to initiate and complete the corrective action for all known and reasonably foreseeable releases from the waste tire monofill.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 40508, Public Resources Code. Reference: Sections 40508 and 43103, Public Resources Code; and Section 258.73, Title 40, Code of Federal Regulations.

HISTORY

1. New section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

§ 17349. Financial Assurances for Closure, Postclosure Maintenance, Corrective Action and Operating Liability.

All waste tire monofills shall comply with the requirements set forth in Title 27, California Code of Regulations, Division 2, Chapter 6 commencing at Section 22200.

NOTE: Authority cited: Sections 40502, 40508 and 43509, Public Resources Code. Reference: Sections 40508, 43040, 43103, 43500, 43600, 43601, 43601.5, 43602 and 43604, Public Resources Code; and Section 258.73, Title 40, Code of Federal Regulations.

HISTORY

1. New section filed 10–14–2003; operative 11–13–2003 (Register 2003, No. 42).

Article 5.5. Waste Tire Storage and Disposal Standards

§ 17350. Applicability.

(a) Any facility storing 500 or more waste tires outdoors must comply with the technical and operational standards in sections 17351 through 17355 of this Article.

(b) Any facility storing waste tires indoors must comply with the technical and operational standards in section 17356 of this Article.

(c) Waste tires that are disposed of by burying at a solid waste disposal facility are addressed in section 17355 of this Article.

(d) For purposes of determining the applicability of this Chapter, altered waste tires shall be counted as passenger tire equivalents (PTE).

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 5–25–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer of subsection (b) filed 6–16–98 as an emergency; operative 6–16–98 (Register 98, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–14–98 or emergency language will be repealed by operation of law on the following day.
10. Reinstatement of section as it existed prior to 6–16–98 emergency amendment by operation of Government Code section 11346.1(g) (Register 98, No. 46).
11. Repealer of subsection (b) filed 11–9–98 as an emergency; operative 11–9–98 (Register 98, No. 46). A Certificate of Compliance must be transmitted to OAL by 3–9–99 or emergency language will be repealed by operation of law on the following day.
12. Repealer of subsection (b) refiled 3–5–99 as an emergency; operative 3–5–99 (Register 99, No. 10). A Certificate of Compliance must be transmitted to OAL by 7–6–99 or emergency language will be repealed by operation of law on the following day.
13. Repealer of subsection (b) refiled 7–2–99 as an emergency; operative 7–6–99 (Register 99, No. 27). A Certificate of Compliance must be transmitted to OAL by 11–3–99 or emergency language will be repealed by operation of law on the following day.
14. Repealer of subsection (b) refiled 10–29–99 as an emergency; operative 10–29–99 (Register 99, No. 44). A Certificate of Compliance must be transmitted to OAL by 2–28–2000 or emergency language will be repealed by operation of law on the following day.
15. Certificate of Compliance as to 10–29–99 order transmitted to OAL 2–22–2000 and filed 3–31–2000 (Register 2000, No. 13).
16. Repealer and new section heading and amendment of section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17351. Fire Prevention Measures.

(a) Communication equipment shall be maintained at all facilities, if they are staffed by an attendant, to ensure that the site operator can contact local fire protection authorities in the event of fire.

(b) Adequate equipment to aid in the control of fires must be provided and maintained at the facility at all times. At a minimum the following items shall be maintained on site and in working order at all times:

(1) One (1) dry chemical fire extinguisher;

(2) One (1) two and one–half gallon water extinguisher;

(3) One (1) pike pole or comparable pole at least 10 feet in length to separate burning from non–burning tires; and

(4) One (1) round point and one (1) square point shovel.

(5) One (1) dry chemical fire extinguisher with a minimum rating of 4A:40BC shall be carried on each piece of fuel–powered equipment used to handle waste tires;

(c) An adequate water supply shall be available for use by the local fire authority. The water supply shall be capable of delivering at least 1,000 gallons per minute for a duration of at least three hours and at least 2,000 gallons per minute for a duration of at least three hours if the sum of altered plus whole waste tires exceeds 10,000.

(d) All of the requirements of subsections (b) and (c) shall apply unless the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for fire control and the protection of life and property. This may include the availability of earth moving equipment or other approved means to control the tire fire. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date. Any requirements approved by the local fire authority shall be subject to Board concurrence at the time of issuance or renewal of the permit.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 5–25–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsection (b)(3) and new subsection (b)(5) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17352. Facility Access and Security.

(a) Signs – for facilities open to the public a sign shall be posted at the facility entrance stating the name of the operator, operating hours, and site rules.

(b) Attendant – An attendant shall be present when the facility is open for business if the facility receives tires from persons other than the operator of the facility.

(c) Access – An access road to the facility must be maintained passable for emergency equipment and vector control vehicles at all times. Unauthorized access must be strictly controlled.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsections (a) and (c) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsections (a) and (c) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17353. Vector Control Measures.

(a) All waste tires shall be stored in a manner which prevents the breeding and harborage of mosquitoes, rodents, and other vectors by any of the following means:

(1) Cover with impermeable barriers other than soil to prevent entry or accumulation of precipitation; or

(2) Use of treatments or methods to prevent or eliminate vector breeding as necessary, provided the control program is approved as appropriate and effective by the local vector control authority, if such authority exists. If no local vector control authority exists, the local Environmental Health Department or other local agency with authority over vector control shall approve the vector control plan. Any control program approved by the local vector control authority shall be subject to Board concurrence at the time of issuance or renewal of the waste tire facility permit.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of subsection (a)(2) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17354. Storage of Waste Tires Outdoors.

(a) Except as provided in subsection (c) waste tires shall be restricted to individual piles, which include stacks and racks of tires that do not exceed 5,000 square feet of contiguous area. Any pile shall not exceed 50,000 cubic feet in volume nor 10 feet in height. Piles shall not exceed 6 feet in height when within 20 feet of any property line or perimeter fencing. Waste tires shall not be located within 10 feet of any property line or perimeter fencing. The minimum distance between waste tire piles and between waste tire piles and structures that are located either on–site or off–site shall be as specified in Table I.

(b) Except as provided in subsection (c) waste tires shall be separated from vegetation and other potentially flammable materials by no less than 40 feet. Accessible fire lanes with a minimum width as specified in Table I shall be provided between tire storage units. Fire lanes shall be kept free of flammable or combustible material and vegetation. Access to fire lane(s) for emergency vehicles must be unobstructed at all times. Open flames, blow torches, or highly flammable materials, including but not limited to, tire inner tubes, are prohibited within 40 feet of a waste tire pile.

Table I
Minimum Separation Distances (Ft.)

Length of Exposed Face (Ft.)	Tire Storage Pile Height (Ft.)		
	6	8	10
25	50	56	62
50	66	75	84
100	84	100	116
150	99	117	135
200	111	130	149
250	118	140	162

(c) All of the requirements in subsections (a) and (b) shall apply to the storage of waste tires unless, for any particular requirement, the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for the prevention of fire and the protection of life and property. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date. Any requirements ap-

proved by the local fire authority shall be subject to Board concurrence at the time of issuance or renewal of the permit.

(d) Surface water drainage shall be directed around and away from the waste tire storage area.

(e) Waste tires at existing waste tire facilities shall not be stored on surfaces with grades that will interfere with fire fighting equipment or personnel unless mitigation measures have been approved in writing by the local fire authority, or a fire safety engineer registered by the State of California. Measures established by a fire safety engineer shall be subject to approval by the local fire authority.

(f) New waste tire facilities shall not:

(1) Be sited in any area where they may be subjected to immersion in water during a 100–year storm unless the operator demonstrates to the Board that the facility will be designed and operated so as to prevent waste tires from migrating off–site; or

(2) Be located on sites with grades or other physical features that will interfere with fire fighting equipment or personnel.

(g) Tires must be removed from rims immediately upon arrival at the facility.

(h) The site shall be designed and constructed to provide protection to bodies of water from runoff of pyrolytic oil resulting from a potential tire fire.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of subsections (a), (b), and (d)–(h) and amendment of subsection (c) transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of section heading, subsection (a) and Table 1 filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17355. Disposal of Waste Tires at Solid Waste Facilities.

(a) Waste tires may not be landfilled in a solid waste disposal facility which is permitted pursuant to Chapter 3 of Part 4 of the Public Resources Code, commencing with section 44001, unless they are permanently reduced in volume prior to disposal by shredding, or other methods subject to the EA approval and Board approval.

(b) The requirement of subsection (a) shall not apply to waste tires received which are commingled with municipal solid waste that arrive in loads, where the waste tires comprise less than one–half of one (0.5) percent by weight of the total load, or where the waste tires inadvertently arrive in homeowner delivered household loads of mixed waste and are not readily removable from the waste stream; or

(c) All waste tires stored at a solid waste facility shall meet the requirements of this Article.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Amendment of section heading and section filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

§ 17356. Indoor Storage.

Waste tires stored indoors must be stored under conditions that meet or exceed those in "The Standard for Storage of Rubber Tires", National Fire Protection Association, NFPA 231D–1989 edition, published by the National Fire Protection Association, which is incorporated by reference. This requirement shall apply unless the local fire authority having jurisdiction over a particular facility determines that a different requirement is necessary or adequate to meet the intent of these regulations for fire control and the protection of life and property. Any change in, or any new, local fire authority requirements that affect the requirements in this Article shall be reported to the Board by the operator within 30 days after their effective date.

NOTE: Authority cited: Sections 40502, 42820, 42830 and 43020, Public Resources Code. Reference: Sections 42820, 42821, 42830, 42832 and 43020, Public Resources Code.

HISTORY

1. New section filed 2–10–92 as an emergency; operative 2–10–92 (Register 92, No. 21). A Certificate of Compliance must be transmitted to OAL 6–9–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 5–29–92 as an emergency; operative 6–8–92 (Register 92, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–6–92 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 9–28–92 as an emergency; operative 10–6–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL by 2–3–92 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–25–93 as an emergency; operative 2–2–93 (Register 93, No. 5). A Certificate of Compliance must be transmitted to OAL 6–2–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–25–93 order transmitted to OAL 5–26–93; disapproved by OAL on 6–22–93 (Register 93, No. 26).
6. New section filed 6–22–93 as an emergency; operative 6–22–93 (Register 93, No. 26). A Certificate of Compliance must be transmitted to OAL 10–20–93 or emergency language will be repealed by operation of law on the following day.
7. Editorial correction of HISTORY 4 (Register 93, No. 26).
8. Certificate of Compliance as to 6–22–93 emergency order including repealer and adoption of section transmitted to OAL 9–23–93 and filed 11–3–93 (Register 93, No. 45).
9. Repealer of subsection (a) designator and subsections (b)–(b)(2) filed 4–1–2003; operative 5–1–2003 (Register 2003, No. 14).

Article 5.6. Nonhazardous Petroleum Contaminated Soil Operations and Facilities Regulatory Requirements

§ 17360. Authority and Scope.

(a) This Article sets forth permitting requirements and minimum operating standards for operations that handle only nonhazardous petroleum

contaminated soil, as specified. This Article is not applicable to Class II or III landfills that handle other waste types in addition to contaminated soil.

(b) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with section 40000 of the Public Resources Code, as amended. These regulations should be read together with the Act.

(c) This Article implements those provisions of the Act relating to the handling of nonhazardous petroleum contaminated soil. Nothing in this Article is intended to limit the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer.

(d) Nothing in this Article shall be construed as relieving any owner, operator, or designee from the obligation of obtaining all required permits, licenses, or other clearances and complying with all orders, laws regulations, or reports, or other requirements of other regulatory or enforcement agencies, including but not limited to, local health entities, regional water quality control boards and air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

(e) Nothing in this Article is intended to require the owner or operator of a contaminated soil transfer/processing operation or disposal facility to comply with the Enforcement Agency Notification requirements or to obtain a tiered solid waste facilities permit pursuant to this Article if that owner or operator already has a valid full solid waste facilities permit pursuant to section 44001 of the Public Resources Code.

(f) Operations and facilities subject to this Article shall be in compliance with the provisions of this Article within 90 days after effective date.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 5.6 (sections 17360–17366) and section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17361. Definitions.

For the purposes of this Article:

(a) "Air District" means Air Pollution Control District or Air Quality Management District.

(b) "Contaminated Soil" means soil that:

(1) contains designated or nonhazardous concentrations, as set forth in Title 23, Chapter 15, Article 1, section 2510 et seq. of the California Code of Regulations, of petroleum hydrocarbons, such as gasoline and its components (benzene, toluene, xylene, and ethylbenzene), diesel and its components (benzene), virgin oil, motor oil, or aviation fuel, and lead as an associated metal; and

(2) has been determined pursuant to section 13263(a) of the Water Code to be a waste that requires regulation by the RWQCB or Local Oversight Agency.

(c) "Contaminated Soil Transfer/Processing Operation" means an operation that handles only contaminated soil for purposes of treatment, storage, or transfer. It does not include manufacturing operations.

(d) "Contaminated Soil Disposal Facility" means a facility that handles only contaminated soil for purposes of disposal. It does not include manufacturing operations.

(e) "Disposal" means

(1) final deposition of contaminated soil onto land, or,

(2) when located at a transfer/processing operation(s), deposition of contaminated soil onto land for a combined period of time greater than one year for transfer, storage, and/or treatment.

(3) Notwithstanding subdivision (e)(2) of this section, deposition of contaminated soil onto land shall not constitute disposal if the RWQCB or the enforcement agency authorizes contaminated soil to remain within the operations area for a period of time greater than one year for the purpose of treatment.

(4) Once the enforcement agency has reason to believe that contaminated soil has been disposed, the burden of proof shall be on the owner or operator to demonstrate that disposal has not occurred.

(5) Disposal does not include the use of contaminated soil for cover material at a solid waste landfill. Notwithstanding this section, contaminated soil shall still require approval for use as cover by the CIWMB and possibly other governmental agencies, including the RWQCB and Air Districts.

(f) "Local Oversight Agency" means the department, office, or other agency of a county or city authorized pursuant to law other than the Act, commencing with section 40000 of the Public Resources Code, to oversee the cleanup of contaminated soil at a specific location, including but not limited to those agencies designated pursuant to Health and Safety Code section 25283 (Underground Storage Tanks).

(g) "Manufacturing" means using contaminated soil as a raw material in making a finished product that is distinct from soil. Such finished products include but are not limited to asphalt and asphaltic concrete.

(h) "Noncontaminated Soil" means soil that is not required to be regulated as a waste by the RWQCB or Local Oversight Agency.

(i) "Operations Area" means the following areas within the boundary of a contaminated soil transfer/processing operation or disposal facility which is regulated by the CIWMB, the boundary may or may not be the same as the property boundary and could reflect a smaller area:

(1) equipment management area, including cleaning, maintenance, and storage areas;

(2) stocking areas for contaminated soil; and,

(3) treatment and/or transfer and/or storage and/or disposal areas.

(j) "Operator" means the owner; or other person who through a lease, franchise agreement or other arrangement with the owner, is legally responsible for all of the following:

(1) complying with regulatory requirements set forth in this Article;

(2) complying with all applicable federal, state and local requirements;

(3) the design, construction, and physical operation of the operations area; and

(4) site restoration.

(k) "Owner" means the person or persons who own, in whole or in part, a contaminated soil transfer/processing operation or disposal facility, or the land on which it is located.

(*l*) "RWQCB" means the Regional Water Quality Control Board.

(m) "Site" means the operations area.

(n) "Transfer" means a handling method where contaminated soil is received temporarily for purposes of transferring from one vehicle to another.

(o) "Treatment" means a reduction in petroleum hydrocarbons present in contaminated soil to a concentration specified by the RWQCB or Local Oversight Agency. Treatment methods may include, aeration, bioremediation, thermal, solidification and chemical fixation, and soil washing.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17362.0. Regulatory Tiers for Contaminated Soil Operations and Facilities.

Sections 17362.1 through 17362.3 set forth the regulatory tier requirements (commencing at section 18100) that apply to specified types of contaminated soil operations and facilities.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17362.1. Excluded Operations.

The solid waste handling operations and facilities listed in this section do not constitute contaminated soil transfer/processing operations or disposal facilities for the purposes of this Article and are not required to meet the requirements set forth herein. Nothing in this section precludes the

enforcement agency or the board from inspecting an excluded operation or facility to verify that the operation or facility is being conducted in a manner that qualifies as an excluded operation or facility or from taking any appropriate enforcement action.

(a) Transfer/processing of contaminated soil:

(1) from a single generator source owned or leased by the generator, its parent, or subsidiary to property owned or leased by the same generator, its parent, or subsidiary; or,

(2) from a single generator source owned or leased by the generator, its parent, or subsidiary to a specific location for a one time treatment that is within the jurisdiction of the RWQCB and/or the Local Oversight Agency, and/or air district.

(b) Disposal of contaminated soil from a single Petroleum Exploration and Production Company, its parent, or subsidiary to property owned or leased by the same Petroleum Exploration and Production Company, its parent, or subsidiary.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17362.2. Contaminated Soil Transfer/Processing Operations.

All contaminated soil transfer/processing operations, except as otherwise provided in this Article, shall comply with the Enforcement Agency Notification requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing at section 18103). These operations shall be inspected by the enforcement agency at least once quarterly.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17362.3. Contaminated Soil Disposal Facilities.

All contaminated soil disposal facilities, except as otherwise provided in section 17362.1, shall obtain a Standardized Contaminated Soil Solid Waste Facilities Permit, as set forth in form CIWMB 90 "Contaminated Soil Standardized Solid Waste Facilities Permit" (new 8/95), which is incorporated herein by reference (See Appendix A.), pursuant to the requirements of Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing with section 18105).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).
2. Change without regulatory effect amending section filed 11–4–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 45).

§ 17363. Standardized Contaminated Soil Solid Waste Facilities Permit Terms and Conditions.

The enforcement agency shall include in a Standardized Contaminated Soil Solid Waste Facilities Permit only those terms and conditions, and no others, contained in form CIWMB 90 "Contaminated Soil Standardized Solid Waste Facilities Permit" (rev. 12/96), which is incorporated herein by reference. (See Appendix A.)

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).
2. Change without regulatory effect amending section and moving for CIWMB–90 to Appendix A (following section 18831) filed 11–4–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 45).
3. Change without regulatory effect amending section filed 2–6–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 6).

§ 17364.0. Contaminated Soil Operation and Facility Standards.

Sections 17364.1 through 17364.3 set forth the minimum standards that apply to all types of contaminated soil operations and facilities.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17364.1. Siting on Landfills.

(a) Contaminated soil operations and facilities located on top of closed solid waste landfills shall meet postclosure land use requirements pursuant to Title 14, Division 7, Chapter 3, Article 7.8, section 17796 of the California Code of Regulations.

(b) Contaminated soil operations and facilities that would be located on top of intermediate cover on a solid waste landfill shall locate operations on areas on foundation substrate that is stabilized by compaction to minimize differential settlement, ponding, soil liquefaction, or failure of pads or structural foundations.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17364.2. General Design Requirements.

Contaminated soil operations and facilities shall be designed and constructed in such a manner as to ensure that the operations and facilities comply with the operational requirements set forth in this Article. A copy of the design of the contaminated soil disposal facility is required as part of the Report of Contaminated Soil Disposal Site Information, as set forth in section 18224.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

[The next page is 737.]

§ 17364.3. General Operating Standards.

(a) All activities shall be conducted in a manner that minimizes litter, nuisances, dust, noise impacts, or other public health and safety and environmental hazards.

(b) Unauthorized human or animal access to the operation or facility shall be prevented.

(c) Traffic flow into, on, and out of the operation and facility shall be controlled in a safe manner.

(d) All operations and facilities open for public business shall post legible signs at all public entrances that include the following:

(1) name of the operation,

(2) name of the operator,

(3) hours of operation,

(4) specify that only nonhazardous petroleum contaminated soil will be accepted, and

(5) phone number where operator or designee can be reached in case of an emergency.

(e) The operator shall provide telephone or radio communication capability for emergency purposes.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17365. General Record Keeping Requirements.

All contaminated soil/transfer operations and disposal facilities shall meet the following requirements:

(a) All records required by this Article shall be kept by the operator in one location and accessible for five (5) years and shall be available for inspection by authorized representatives of the board, enforcement agency, local health entity, and other duly authorized regulatory and enforcement agencies during normal working hours.

(b) The operator shall maintain a log of special occurrences encountered during operation and methods used to resolve problems arising from these events, including details of all incidents that required implementing emergency procedures. Special occurrences may include: fires, injury and property damage accidents, explosions, discharge of hazardous or other wastes not permitted, flooding and other unusual occurrences.

(c) The operator shall record any written public complaints received by the operator, including:

(1) the nature of the complaint,

(2) the date the complaint was received,

(3) if available, the name, address, and telephone number of the person or persons making the complaint, and

(4) any actions taken to respond to the complaint.

(d) The operator shall record, as specified by the RWQCB, the types and concentrations of constituents, the date, and quantity of contaminated soil accepted at the operation or facility; and for treatment, transfer, or storage operations, the types and concentrations of constituents, the date, and quantity of contaminated and noncontaminated soil leaving the operations. Where no requirements have been specified by the appropriate RWQCB, the operator shall record the same information as provided by generator source. The operator shall also record the name of all transfer, storage, and/or treatment operations where the contaminated soil was located prior to the receipt by the operator and the dates the contaminated soil was received at each of these operations and removed.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 17366. Contaminated Soil Operation and Facility *Restoration.*

All contaminated soil operations and facilities shall meet the following requirements:

(a) The operator shall provide the enforcement agency written notice of intent to perform site restoration, at least 30 days prior to beginning site restoration.

(b) The operator(s) and owner(s) shall provide site restoration necessary to protect public health, safety, and the environment.

(c) The operator(s) and owner(s) shall provide site restoration necessary to protect public health, safety, and the environment.

(c) The operator shall ensure that the following site restoration procedures are performed upon completion of operation and termination of service:

(1) the operation grounds, excluding the disposal area, shall be cleaned of all contaminated soil, construction scraps, and other materials related to the operation, and these materials legally recycled, reused, or disposed of,

(2) all machinery shall be cleaned of contaminated soil, and

(3) al remaining structures shall be cleaned of contaminated soil.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

Article 5.7. Hazardous Waste Disposal Facilities Disposing Nonhazardous, Nonputrescible, Industrial Solid Waste Regulatory Requirements

§ 17367. Authority and Scope.

(a) This Article sets forth permitting requirements and minimum operating standards for those hazardous waste disposal facilities which hold a valid Hazardous Waste Facility Permit from the Department of Toxic Substances Control and codispose nonhazardous, nonputrescible, industrial solid waste with hazardous waste in one or more waste management units within the disposal facility.

(b) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with Section 40000 of the Public Resources Code, as amended. These regulations should be read together with the Act.

(c) Nothing in this Article limits or restricts the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer, nor to limit or restrict cities or counties from promulgating laws which are at least as strict as the regulations contained in this Article. However, no city or county may promulgate laws which are inconsistent with the provisions of this Article or Title 22 California Code of Regulations, Division 4.5.

(d) Nothing in this Article shall be construed as relieving any owner or operator, from obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, or other requirements of other regulatory or enforcement agencies, including, but not limited to, local health agencies, the Regional Water Quality Control Board, the Department of Toxic Substances Control, air quality management district or air pollution control district, local land use authorities, and fire authorities.

(e) These regulations are intended to provide a sufficient level of information and oversight to ensure that the codisposal of nonhazardous, nonputrescible, industrial solid waste at a hazardous waste disposal facility will be conducted in a manner which meets the purposes of the Act, as specified in Public Resources Code Section 40052, while protecting the public health, safety and the environment.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 44103, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 5.7 (sections 17367–17370.2) and section filed 7–31–2000 as an emergency; operative 10–1–2000 (Register 2000, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–29–2001 or emergency language will be repealed by operation of law on the following day.

2. New article 5.7 (sections 17367–17370.2) and section refiled 1–29–2001 as an emergency; operative 1–29–2001 (Register 2001, No. 5). A Certificate of Compliance must be transmitted to OAL by 5–29–2001 or emergency language will be repealed by operation of law on the following day.
3. New article 5.7 (sections 17367–17370.2) and section refiled 5–17–2001 as an emergency; operative 5–30–2001 (Register 2001, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–27–2001 or emergency language will be repealed by operation of law on the following day.
4. New article 5.7 (sections 17367–17370.2) and section refiled 9–24–2001 as an emergency; operative 9–28–2001 (Register 2001, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–28–2002 or emergency language will be repealed by operation of law on the following day.
5. New article 5.7 (sections 17367–17370.2) and section refiled 12–11–2001 as an emergency; operative 1–23–2002 (Register 2001, No. 50). A Certificate of Compliance must be transmitted to OAL by 5–23–2002 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–11–2001 order, including amendment of subsection (c), transmitted to OAL 4–10–2002 and filed 5–21–2002 (Register 2002, No. 21).

§ 17368. Definitions.

For the purposes of this Article:

(a) "Air District" means Air Pollution Control District or Air Quality Management District.

(b) "Board" means the California Integrated Waste Management Board.

(c) "Codisposal" means the final deposition of nonhazardous, nonputrescible, industrial solid waste disposed with hazardous waste in a waste management unit.

(d) "Cover" mean soils or alternative materials used in covering the nonhazardous, nonputrescible, industrial solid waste in a hazardous waste disposal facility waste management unit.

(e) "DTSC" means Department of Toxic Substances Control.

(f) "EA" means enforcement agency as defined in Public Resources Code section 40130.

(g) "Hazardous waste disposal facility," or "facility" means a disposal facility that holds and maintains a valid Hazardous Waste Facility Permit issued by the Department of Toxic Substances Control pursuant to section 25200 of the California Health and Safety Code.

(h) "Nonhazardous, Nonputrescible, Industrial Solid Waste" means solid waste (as defined in Public Resources Code Section 40191) which also meets all of the following criteria:

(1) Nonputrescible: Solid wastes which are not capable of being decomposed by micro–organisms with sufficient rapidity as to cause odors, gases, attraction of vectors or other offensive conditions. For example, wastes that are putrescible, and do not qualify as nonputrescible, include without limitation food wastes, offal and dead animals.

(2) Liquid Content: Solid wastes that contain no free liquid, whether such wastes are in bulk or in containers. The absence of free liquid shall be determined by the method specified in Title 22 California Code of Regulations section 66264.314(b).

(3) Nonhazardous, Nonputrescible, Industrial Solid Waste expressly excludes:

(A) Household waste as defined in Title 27 California Code of Regulations section 20164;

(B) Wastes which are prohibited at any hazardous waste disposal facility by applicable statutes or regulations of any governmental body having jurisdiction; and

(C) With respect to a specific hazardous waste disposal facility, wastes which are prohibited at that particular hazardous waste disposal facility by the terms and conditions of any permit or entitlement to use issued by a governmental body.

(i) "Operating Record" means a facility's records of compliance with the requirements set forth in this Article.

(j) "RWQCB" means the Regional Water Quality Control Board.

(k) "Waste management unit" or "unit" means an area within a hazardous waste disposal facility where hazardous wastes may be disposed pursuant to a hazardous waste facility permit issued by the Department of Toxic Substances Control, expressly excluding surface impoundments.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–31–2000 as an emergency; operative 10–1–2000 (Register 2000, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–29–2001 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–29–2001 as an emergency; operative 1–29–2001 (Register 2001, No. 5). A Certificate of Compliance must be transmitted to OAL by 5–29–2001 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 5–17–2001 as an emergency; operative 5–30–2001 (Register 2001, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–27–2001 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 9–24–2001 as an emergency; operative 9–28–2001 (Register 2001, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–28–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 12–11–2001 as an emergency; operative 1–23–2002 (Register 2001, No. 50). A Certificate of Compliance must be transmitted to OAL by 5–23–2002 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–11–2001 order, including repealer of subsections (h)(3)–(h)(4)(C) and subsection renumbering, transmitted to OAL 4–10–2002 and filed 5–21–2002 (Register 2002, No. 21).

§ 17369. Regulatory Tier for Hazardous Waste Disposal Facilities Codisposing Nonhazardous, Nonputrescible, Industrial Solid Waste.

(a) All hazardous waste disposal facilities codisposing nonhazardous, nonputrescible, industrial solid waste shall comply with the Registration Permit requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing with section 18104). These facilities shall be inspected monthly by the EA, or more frequently if necessary to verify compliance with the standards set forth in this Article. "Hazardous waste" (as defined in Title 22 California Code of Regulations sections 66260.10 and 66261.3) shall not be accepted under the provisions of the Registration Permit issued pursuant to this section.

(b) In addition to the Registration Permit Application required by subdivision (a) of this section, each operator of a hazardous waste disposal facility shall file with the EA a "Nonhazardous, Nonputrescible, Industrial Solid Waste Codisposal Plan" (Plan) (as specified in section 18225). The information contained in the Plan shall be reviewed by the EA, in the same manner as required for the application, to determine whether it is complete and correct as defined in Title 14, Division 7, Chapter 5.0, Article 3.0, section 18101. The EA shall obtain written verification from Board staff that section 18225(g) and (h) of Article 3.2 are correct prior to their determination of a complete and correct application.

(c) A hazardous waste disposal facility that accepts other types of solid wastes, which do not meet the definition of "nonhazardous, nonputrescible, industrial solid waste", shall obtain a Full Solid Waste Facilities Permit pursuant to the requirements of Title 27 California Code of Regulations, Division 2, Subdivision 1, Chapter 4 (§21450 et seq.) prior to commencing operations. "Hazardous waste" (as defined in Title 22 California Code of Regulations sections 66260.10 and 66261.3) shall not be accepted under the provisions of the Full Solid Waste Facilities Permit issued pursuant to Title 27 California Code of Regulations.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–31–2000 as an emergency; operative 10–1–2000 (Register 2000, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–29–2001 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–29–2001 as an emergency; operative 1–29–2001 (Register 2001, No. 5). A Certificate of Compliance must be transmitted to OAL by 5–29–2001 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 5–17–2001 as an emergency; operative 5–30–2001 (Register 2001, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–27–2001 or emergency language will be repealed by operation of law on the following day.

4. New section refiled 9–24–2001 as an emergency; operative 9–28–2001 (Register 2001, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–28–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 12–11–2001 as an emergency; operative 1–23–2002 (Register 2001, No. 50). A Certificate of Compliance must be transmitted to OAL by 5–23–2002 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–11–2001 order, including amendment of subsections (a) and (b) and new subsection (c), transmitted to OAL 4–10–2002 and filed 5–21–2002 (Register 2002, No. 21).

§ 17370.1. General Operating Standard.

The daily cover shall be applied as approved by Department of Toxic Substances Control pursuant to Title 22 California Code of Regulations sections 66264.301(i) or 66265.301(i), as applicable, or the Air District, whichever requirement is more stringent.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–31–2000 as an emergency; operative 10–1–2000 (Register 2000, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–29–2001 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–29–2001 as an emergency; operative 1–29–2001 (Register 2001, No. 5). A Certificate of Compliance must be transmitted to OAL by 5–29–2001 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 5–17–2001 as an emergency; operative 5–30–2001 (Register 2001, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–27–2001 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 9–24–2001 as an emergency; operative 9–28–2001 (Register 2001, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–28–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 12–11–2001 as an emergency; operative 1–23–2002 (Register 2001, No. 50). A Certificate of Compliance must be transmitted to OAL by 5–23–2002 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–11–2001 order, including amendment of section, transmitted to OAL 4–10–2002 and filed 5–21–2002 (Register 2002, No. 21).

§ 17370.2. Record Keeping Requirements.

Each operator of a hazardous waste disposal facility shall meet the following requirements with respect to nonhazardous, nonputrescible, industrial solid waste disposed at the facility:

(a) All records required by this Article shall be kept in one location and accessible for three years and shall be available for inspection by authorized representatives of the EA, the Board, and other duly authorized regulatory and enforcement agencies during normal working hours. If necessary, copies of these records may be maintained at an alternative site, as long as that site is easily accessible to the EA.

(b) The operator shall notify the EA by telephone within 24 hours of all incidents requiring the implementation of emergency procedures, unless the EA determines that a less immediate form of notification will be sufficient to protect public health and safety and the environment, as it relates to the acceptance and disposal of nonhazardous, nonputrescible, industrial solid wastes (as defined in section 17368 of this Article).

(c) The operator shall maintain records of the tonnage of nonhazardous, nonputrescible, industrial solid waste that is codisposed in each waste management unit at the facility on a daily basis. The operator shall also maintain records of the tonnage of hazardous waste codisposed in each waste management unit at the facility on a monthly basis. These records shall be provided to the EA or the Board upon request.

(d) By March 1 of each year, the operator shall annually report to the EA and the Board the total amount of nonhazardous, nonputrescible, industrial solid waste and hazardous waste codisposed the previous year.

(e) The operator shall maintain a copy of the demonstration required pursuant to Title 14 California Code of Regulations section 18225(f) in the operating record.

(f) The operator shall provide the EA with written notice of intent (Notice) to close a waste management unit at least 60 days prior to beginning unit closure, and maintain a copy of the Notice in the operating record.

(g) All such facilities shall maintain records as required by Title 14 California Code of Regulations section 18810 et seq.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 43501, Public Resources Code.

HISTORY

1. New section filed 7–31–2000 as an emergency; operative 10–1–2000 (Register 2000, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–29–2001 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–29–2001 as an emergency; operative 1–29–2001 (Register 2001, No. 5). A Certificate of Compliance must be transmitted to OAL by 5–29–2001 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 5–17–2001 as an emergency; operative 5–30–2001 (Register 2001, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–27–2001 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 9–24–2001 as an emergency; operative 9–28–2001 (Register 2001, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–28–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 12–11–2001 as an emergency; operative 1–23–2002 (Register 2001, No. 50). A Certificate of Compliance must be transmitted to OAL by 5–23–2002 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–11–2001 order, including amendment of subsections (a), (e) and (f) and new subsection (g), transmitted to OAL 4–10–2002 and filed 5–21–2002 (Register 2002, No. 21).

Article 5.8. Nonhazardous Ash Regulatory Tier Requirements

§ 17375. Authority and Scope.

(a) This Article sets forth permitting requirements and minimum operating standards for operations and facilities that handle and/or dispose of nonhazardous ash, as specified. This Article is not applicable to Class II or III landfills that handle and/or dispose of other waste types in addition to nonhazardous ash.

(b) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with section 40000 of the Public Resources Code, as amended. These regulations should be read together with the Act.

(c) This Article implements those provisions of the Act relating to the handling and/or disposal of nonhazardous ash. Nothing in this Article is intended to limit the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer.

(d) Nothing in this Article shall be construed as relieving any owner, operator, or designee from the obligation of obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, reports, or other requirements of other regulatory or enforcement agencies, including but not limited to, local health entities, regional water quality control boards, air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

(e) These regulations are intended to provide a sufficient level of information and oversight to ensure that the transfer and processing, or monofilling of nonhazardous ash will be conducted in a manner which meets the purposes of the Act while protecting public health, safety and the environment. Materials that may otherwise be disposed to landfills may be, among other things, processed to reduce, reuse, and recycle the material to the maximum extent feasible in an efficient and cost–effective manner to conserve water, energy and other natural resources.

(f) Operations and facilities subject to this Article shall be in compliance with the provisions of this Article within 90 days after the effective date of this Article.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 5.8 (sections 17375–17379.1) and section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17376. Definitions.

For the purposes of this Article:

(a) "Air District" means Air Pollution Control District or Air Quality Management District.

(b) "Disposal" means:

(1) final deposition of nonhazardous ash onto land.

(2) stockpiling of nonhazardous ash onto land for a combined period of time greater than six months when located for use at the site of a transfer/processing operation(s) unless the RWQCB in consultation with the enforcement agency authorizes nonhazardous ash to remain within the operations area for a period of time greater than six months.

(3) disposal does not include the use of nonhazardous ash for cover material at a solid waste landfill. Notwithstanding this section, use of nonhazardous ash as a cover material shall still require approval for use pursuant to Title 27 California Code of Regulations section 20680 and may require additional approvals from other governmental agencies, including, but not limited to RWQCB and Air Districts.

(4) disposal does not include the use of nonhazardous ash for a reclamation project as defined in section 17376(m).

(5) disposal does not include the use of nonhazardous ash for snow and ice control, roadbase/subbase, walk areas, parking areas, airport runways, trails, dairy or feedlot soil stabilization, structural fill, sludge/manure/waste stabilizing material, compost mineral filler, smelter flux, blending in a soil product, and similar uses in accordance with Public Resources Code section 40180. Nonhazardous ash used for these purposes is not subject to the requirements of this Article. Nothing in this section precludes the enforcement agency or the CIWMB from inspecting any of the activities listed in this subdivision to verify that the activity qualifies for this exception from the definition of disposal.

(6) disposal does not include land application of nonhazardous ash as defined in section 17376(e).

(7) Should the enforcement agency have information that a nonhazardous ash handler is engaging in other activities that are subject to this Article, the burden of proof shall be on the land owner or operator to demonstrate otherwise.

(c) "Fully Enclosed Structure" means either a building with a roof and walls that prevent rain and wind from affecting the material, or covered container.

(d) "Generator" means the nonhazardous ash producer.

(e) "Land Application" means the application of nonhazardous ash to forest, agricultural, and range land in accordance with California Department of Food and Agriculture requirements for a beneficial use as authorized by Food and Agricultural Code section 14501 et seq. Land application does not constitute disposal and is not subject to the requirements of this Article.

(f) "Manufacturing" means using nonhazardous ash as a raw material in making a finished product that is distinct from nonhazardous ash. Such finished products include but are not limited to cement and concrete products, asphalt, blasting grit, roofing granules and tiles, wallboard, bricks, vitrified clay pipe, stucco and decorative rock. Nonhazardous ash used in manufacturing is not subject to the requirements of this Article. Should the enforcement agency have information that a nonhazardous ash manufacturer is engaging in other activities that are subject to this Article, the burden of proof shall be on the land owner or operator to demonstrate otherwise.

(g) "Nonhazardous Ash" means the nonhazardous residue from the combustion of material or the hazardous residue which may be managed as a nonhazardous waste in accordance with Title 22 California Code of Regulations section 66260.200(f) or 66260.210. The classification of a waste as hazardous or nonhazardous is made pursuant to Title 22 California Code of Regulations section 66260.200.

(h) "Nonhazardous Ash Disposal/Monofill Facility" or "Facility" means a facility that handles only nonhazardous ash for purposes of disposal and is not a landfill pursuant to Public Resources Code section 40195.1.

(i) "Nonhazardous Ash Transfer/Processing Operation" or "Operation" means an operation that handles only nonhazardous ash for purposes of transfer, treatment, or storage. This definition does not include transformation, biomass conversion, or other incineration facilities.

(j) "Operations Area" means the following areas within the boundary of an operation or facility that are subject to this Article, although the boundary may or may not be the same as the property boundary:

(1) equipment management area, including cleaning, maintenance, and storage areas;

(2) stockpiling areas for nonhazardous ash;

(3) transfer and/or processing and/or disposal areas.

(k) "Operator" means the land owner or other person who, through a lease, franchise agreement or other contract with the land owner is legally responsible for all of the following:

(1) transfer/processing operations or disposal;

(2) complying with all applicable federal, state and local requirements relating to the operation;

(3) the design, construction, and physical operation of a transfer/processing operation or disposal/monofill facility;

(4) operations site restoration of a transfer/processing operation or disposal/monofill facility.

(*l*) "Owner" means the person or persons who own, in whole or in part, a nonhazardous ash transfer/processing operation, disposal/monofill facility, or the land on which it is located.

(m) "Reclamation Project" means the use of nonhazardous ash in accordance with the requirements of the Office of Mine Reclamation of the Department of Conservation as authorized by Public Resources Code section 2770 et seq. Reclamation projects do not constitute disposal and is not subject to the requirements of this Article.

(n) "RWQCB" means the Regional Water Quality Control Board.

(o) "Site" means the operations area.

(p) "Treatment" means any method, technique, or process which changes or is designed to change the physical, chemical, or biological character or composition of nonhazardous ash. Treatment may also include the removal or reduction of harmful properties or characteristics for any purpose including, but not limited to, material recovery or reduction in volume.

PLACEMENT INTO THE REGULATORY TIERS

Not Subject to Article 5.8	*Excluded Tier*	*Enforcement Agency Notification Tier*	*Standardized Tier*
Stockpiling as Specified in Section 17376(b)(2)	Transfer/Processing as Specified in Section 17377.1	Transfer/Processing Operations as Specified in Section 17377.2	Disposal/Monofill as Specified in Section 17377.3
Daily Cover as Specified in Section 17376(b)(3)	Weathertight Storage as Specified in Section 17377.1		
Uses Specified in Section 17376(b)(5)			
Land Application as Defined in Section 17376(e)			
Manufacturing as Defined in Section 17376(f)			
Reclamation Projects as Defined in Section 17376(m)			

There are no operations or facilities placed within the Registration and Full Permit tiers within this Article.

§ 17377.1. Excluded Operations.

The solid waste handling operations and facilities listed in this section do not constitute nonhazardous ash transfer/processing operations, or disposal/monofill facilities for the purposes of this Article, and are not required to meet the requirements set forth herein.

(a) Transfer/processing operations of nonhazardous ash are excluded from the requirements of this Article when the only activity is:

(1) the transfer/processing from land owned by a single nonhazardous ash generator source or leased by the generator, its parent, or subsidiary, to property owned or leased by the same generator, its parent, or subsidiary; or,

(2) storage within a fully enclosed weathertight structure.

(b) Nothing in this section precludes the enforcement agency or the CIWMB from inspecting an excluded operation or facility to verify that the operation or facility is being conducted in a manner that qualifies as an excluded operation or facility, or from taking any appropriate enforcement action.

(c) Should the enforcement agency have information that a nonhazardous ash operation is not excluded in accordance with this section, the burden of proof shall be on the land owner or operator to demonstrate otherwise.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17377.2. Nonhazardous Ash Transfer/Processing Operations.

(a) All operators of nonhazardous ash transfer/processing operations, except as otherwise provided in this Article, shall comply with the Enforcement Agency Notification requirements set forth in the California Code of Regulations, Title 14, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18103).

(b) In addition to the requirements of subdivision (a), the following statement shall be included in the enforcement agency notification and signed by the operator: "The undersigned certify under penalty of perjury that the information in this document and all attachments are true and correct to the best of my knowledge, and is being executed in accordance with the requirements of the California Code of Regulations, Title 14, Division 7, Chapter 3, Article 5.8 (commencing with section 17375). I certify that the ash as represented in this document is nonhazardous and from a nonhazardous feedstock as defined in section 17376(g) and is to be managed in accordance with this notification. I am aware that there are significant penalties for submitting false or misleading information in this certification, including the possibility of fine or imprisonment, or both."

(c) A new Enforcement Agency Notification is required any time there are changes to information required by this section.

(d) These operations may be inspected by the enforcement agency as necessary for the protection of public health, safety and the environment.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17377.3. Nonhazardous Ash Disposal/Monofill Facilities.

(a) All nonhazardous ash disposal/monofill facilities, shall obtain a Standardized Nonhazardous Ash Solid Waste Facility Permit pursuant to the requirements of the California Code of Regulations, Title 14, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18105).

(b) The enforcement agency shall include only those terms and conditions, and no others, contained in CIWMB Form 98 (new 7/96) Standardized Nonhazardous Ash Solid Waste Facility Permit, set forth in Appendix A in this Division.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17378.0. Applicability of State Minimum Standards for Nonhazardous Ash Operations and Facilities.

Sections 17378.1 through 17378.3 set forth the minimum standards that apply to all types of nonhazardous ash operations and facilities. Approvals, determinations and other requirements which the enforcement agency is authorized to make under Article 5.8 shall be provided in writing to the operator. The operator shall maintain a copy of these approvals in addition to those records identified in section 17379.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17378.1. Siting on Landfills.

(a) Nonhazardous ash operations and facilities or portions thereof, located atop closed solid waste landfills shall meet postclosure land use requirements pursuant to Title 27 California Code of Regulations section 21190.

(b) Operations and facilities or portions thereof, located on intermediate cover on a solid waste landfill shall locate operations areas on foundation substrate that is stabilized, either by natural or mechanical compaction, to minimize differential settlement, ponding, soil liquefaction, or failure of pads or structural foundations.

(c) Operations and facilities or portions thereof, located on intermediate cover on a solid waste landfill shall be operated in a manner that will not interfere with the operations of the landfill or with the closure or postclosure maintenance of the landfill.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17378.2. General Design Requirements.

(a) The design of a new nonhazardous ash transfer/processing operation or disposal/monofill facility shall utilize expert advice, as appropriate, from persons competent in engineering, architecture, landscape design, traffic engineering, air quality control, and design of structures.

(b) Each nonhazardous ash transfer/processing operation or nonhazardous ash disposal/monofill facility design shall be based on appropriate data regarding the expected service area, anticipated nature and quantity of nonhazardous ash to be received, climatological factors, physical settings, adjacent land use (existing and planned), types and number of vehicles anticipated to enter the operation or facility, adequate off-street parking facilities for transfer vehicles, drainage control, the hours of operation and other pertinent information. If the operation or facility is to be used by the general public, the design shall take account of safety features that may be needed to accommodate such public use.

(c) The operation or facility shall be designed in such a manner as to restrict the unloading area to as small an area as practicable, provide adequate control of windblown material, and minimize the creation of nuisances at the operation or facility. Other factors that shall be taken into consideration are: dust control, noise control, public safety, and other pertinent matters related to the protection of public health.

(d) Nonhazardous ash storage containers that are considered weathertight shall be durable, easily cleanable, designed for safe handling, and constructed to prevent loss of wastes from the equipment during storage. Such equipment shall be nonabsorbent and leak-resistant. Unloading areas shall be easily cleanable, designed for safe handling and constructed to prevent loss of nonhazardous ash.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17378.3. Operating Standards.

Each operator of a nonhazardous ash transfer/processing operation or disposal/monofill facility shall meet the following requirements:

(a) All activities at the operation or facility shall be conducted in a manner that minimizes nuisances, noise impacts, or other public health, safety and environmental hazards.

(b) Unauthorized human or animal access to the operation or facility shall be prevented.

(c) Traffic flow into, on, and out of the operation or facility shall be controlled in a safe manner.

(d) The operator shall take adequate measures to minimize and prevent safety hazards due to obscured visibility at the operation or facility.

(e) Drainage shall be controlled at operations and facilities to protect the public health and safety and to prevent interference with the operation.

(f) All operations and facilities open for public business shall post legible signs at all public entrances that include the following:

(1) name of operation or facility,

(2) name of the operator,

(3) hours of operation,

(4) a statement that only nonhazardous ash will be accepted, and

(5) phone number where operator or designee can be reached in case of an emergency.

(g) The operator shall provide telephone or radio communication capability for emergency purposes.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17379.0. General Record Keeping Requirements.

Each operator of a nonhazardous ash transfer/processing operation or disposal/monofill facility shall meet the following requirements:

(a) All records required by this Article shall be kept by the operator in one location and be accessible for five (5) years and shall be made available for inspection by authorized representatives of the CIWMB, enforcement agency, and other duly authorized regulatory and enforcement agencies during normal working hours. The operator shall submit copies of records to the enforcement agency upon request. An alternative schedule of record submittal may be approved by the enforcement agency.

(b) The operator shall maintain a daily log or file of special occurrences encountered during operations and methods used to resolve problems arising from these events, including details of all incidents that required implementing emergency procedures. Special occurrences may include: fires, injury and property damage, accidents, explosions, discharge of hazardous or other waste not permitted, flooding and other unusual occurrences.

(c) The operator shall record any written public complaints received by the operator, including:

(1) the nature of the complaint,

(2) the date the complaint was received,

(3) if available, the name, address, and telephone number of the person or persons making the complaint,

(4) any actions taken to respond to the complaint.

(d) The operator shall record the date, generator source, and quantity of nonhazardous ash accepted.

(e) The operator shall maintain records of weights or volumes handled in a manner and form approved by the enforcement agency so as to be sufficiently accurate for overall planning and control purposes.

(f) Transfer/processing facility operators shall record the quantity of nonhazardous ash leaving the operations.

(g) The disposal/monofill facility operator shall also record the name of all transfer/processing operations where the nonhazardous ash was located prior to receipt by the operator and the dates the nonhazardous ash was received at each of these operations and removed.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 17379.1. Nonhazardous Ash Operation and Facility Restoration.

All nonhazardous ash transfer/processing operations and disposal/monofill facilities shall meet the following requirements:

(a) The operator shall provide the enforcement agency written notice of intent to perform site restoration, at least 30 days prior to beginning site restoration.

(b) The operator(s) and owner(s) shall provide site restoration necessary to protect public health, safety, and the environment.

(c) The operator shall ensure that the following site restoration procedures are performed upon completion of operation and termination of service:

(1) the operation or disposal/monofill facility grounds, excluding the disposal area, shall be cleaned of all nonhazardous ash, construction scraps, and other materials related to the operation or disposal/monofill facility, and these materials legally recycled, reused, or disposed of;

(2) all machinery shall be cleaned of nonhazardous ash prior to removal from the facility;

(3) all remaining structures shall be cleaned of nonhazardous ash.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

Article 5.9. Construction and Demolition and Inert Debris Transfer/Processing Regulatory Requirements

§ 17380. Authority and Scope.

(a) Article 5.9 sets forth permitting requirements, tier requirements, and minimum operating standards for operations and facilities that receive, store, handle, transfer, or process construction and demolition (C&D) debris and inert debris, as defined herein. C&D debris and inert debris are specific types of solid waste that present a different potential threat to public health and safety and the environment than typical municipal solid waste, thus, can be handled with different regulatory oversight. This Article places operations and facilities that handle C&D debris and inert debris into the board's tiers to provide appropriate regulatory oversight to protect public health and safety and the environment.

(b) This Article is not applicable to operations and facilities that are wholly governed by regulations elsewhere in this Chapter. Operations and facilities that receive, store, handle, transfer, or process construction and demolition debris or inert debris that is commingled with solid waste that does not meet the definition of C&D debris or inert debris shall be regulated as transfer/processing operations or facilities pursuant to Articles 6.0 through 6.35, inclusive, of this Chapter.

(c) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with section 40000 of the Public Resources Code (PRC), as amended. These regulations should be read together with the Act.

(d) Nothing in this Article limits or restricts the power of any Federal, State, or local agency to enforce any provision of law that it is authorized or required to enforce or administer, nor to limit or restrict local governments from promulgating laws which are as strict as or stricter than the regulations contained in this Article. However, no local government may promulgate laws which are inconsistent with the provisions of this Article.

(e) No provision in this Article shall be construed as relieving any owner, or operator from obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, reports, or other requirements of other regulatory or enforcement agencies, including, but not limited to, local health agencies, Regional Water Quality Control Boards, Department of Toxic Substances Control, air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

(f) No provision of this Article is intended to affect the rights or duties of any party to, or in any way influence the interpretation of, any franchise agreement between a local government and its franchisee, any other agreement among any parties, or any local ordinance with respect to any aspect of solid waste handling, including without limitation solid waste collection, transportation, processing, and storage, and solid waste disposal.

(g) This Article does not apply to persons who generate C&D debris or inert debris in the course of carrying out construction, remodeling, repair, demolition or deconstruction of buildings, roads and other structures (collectively, "construction work") at the site of the construction work or to persons who own the land, buildings and other structures that are the object of the construction work, provided that such persons do not accept at the site any C&D debris or inert debris that is generated at any other location, unless it will be used in the construction work, and provided further that such persons do not allow C&D debris or inert debris, other than C&D debris or inert debris that is used in the construction work, to remain on the site of the construction work after the construction work is completed. For example, public works agencies constructing roads and bridges, road repair, airport runway construction, bridge and roadway work, levee work, flood control work, or landslide debris clean-up, and public or private contractors demolishing or constructing buildings are not subject to these regulations during the course of the construction work.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 5.9 (sections 17380–17386) and section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17380.1. Purpose.

(a) It is the board's intent in adopting this Article to encourage the recycling and reuse of C&D debris and inert debris that may otherwise be disposed in a solid waste disposal facility.

(b) These regulations are intended to provide a sufficient level of information and oversight to ensure that the receipt, storage, handling, transfer, and processing of C&D debris and inert debris will be conducted in a manner which meets the purposes of the Act while protecting public health, safety and the environment.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020, and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17381. Definitions.

For the purposes of this Article, the following definitions shall apply. Additional definitions and related provisions that apply to this Article are found at California Code of Regulations (CCR), Title 14, Division 7, Chapter 3.0, Article 6.0, sections 17402 and 17402.5, and Article 4, section 17225 et seq.

(a) "Active Compost" as set forth in CCR, Title 14, Division 7, Chapter 3.1, Article 1, section 17852.

(b) "C&D" means Construction and Demolition debris.

(c) "CDI" means any combination of Construction and Demolition debris and Inert debris.

(d) "Compostable Material" means any organic material that when accumulated may become active compost.

(e) "Construction and Demolition Debris", or "C&D Debris" " is solid waste that is a portion of the waste stream defined as "construction and demolition wastes," as defined in Section 17225.15 of Article 4 of this Chapter, and means source separated or separated for reuse solid waste and recyclable materials, including commingled and separated materials, that result from construction work, that are not hazardous, as defined in CCR, Title 22, section 66261.3 et seq., and that contain no more than 1%

putrescible wastes by volume calculated on a monthly basis and the putrescible wastes do not constitute a nuisance, as determined by the EA.

(1) C&D debris includes only the following items which meet the above criteria:

(A) components of the building or structure that is the subject of the construction work including, but not limited to, lumber and wood, gypsum wallboard, glass, metal, roofing material, tile, carpeting and floor coverings, window coverings, plastic pipe, concrete, fully cured asphalt, heating, ventilating, and air conditioning systems and their components, lighting fixtures, appliances, equipment, furnishings, and fixtures;

(B) tools and building materials consumed or partially consumed in the course of the construction work including material generated at construction trailers, such as blueprints, plans, and other similar wastes;

(C) cardboard and other packaging materials derived from materials installed in or applied to the building or structure or from tools and equipment used in the course of the construction work; and

(D) plant materials resulting from construction work when commingled with dirt, rock, inert debris or C&D debris.

(2) C&D debris expressly excludes, commingled office recyclables and, except as provided in subdivision 17381 (e) above, commingled commercial solid waste and commingled industrial solid waste as they are defined in Title 27, CCR section 20164.

(3) Notwithstanding anything to the contrary in this Article, C&D debris includes material, whether or not from construction work, that is generally similar to C&D debris and that is separated for reuse, that is not hazardous, that contains no putrescible wastes and that can be processed without generating any residual, provided that the material is generated by an activity that is similar to, or is directly or indirectly related to, construction work, including without limitation: manufacturing materials for use in construction work, such as wood products, clay or ceramic products, plumbing systems, electrical equipment, metal work and HVAC systems.

(f) "Construction and Demolition Wood Mulch" or "C&D Mulch" means source separated wood waste that is not compostable material (C&D mulch feedstock), including that portion of C&D debris that is lumber or wood, which has been mechanically reduced in size. C&D mulch feedstock does not include food material, animal material, biosolids, mixed solid waste, chromated copper arsenate (CCA) pressure treated wood, wood containing lead–based paint, or mixed C&D debris.

(g) "Construction Work" means construction, remodeling, repair, demolition or deconstruction of buildings, other structures, roads, parking lots, and similar paved or covered surfaces.

(h) "Emergency Construction and Demolition/Inert Debris Processing Operation" means a site that is established due to a proclamation of a state of emergency or local emergency as provided in CCR, Title 14, Division 7, Chapter 3.0, Article 3, sections 17210.1(j) and (k),

(i) "Fully Cured Asphalt" means that the material must be at ambient temperature, be substantially hardened and be inelastic.

(j) "Handling" means the receipt, collection, transportation, storage, transfer, or processing of solid waste and recyclable materials.

(k) "Inert Debris" means solid waste and recyclable materials that are source separated or separated for reuse, do not contain hazardous waste (as defined in CCR, Title 22, section 66261.3 et. seq.) or soluble pollutants at concentrations in excess of applicable water quality objectives and do not contain significant quantities of decomposable waste. Inert debris may not contain more than 1% putrescible wastes by volume calculated on a monthly basis and the putrescible wastes shall not constitute a nuisance, as determined by the EA. Gravel, rock, soil, sand and similar materials, whether processed or not, that have never been used in connection with any structure, development, or other human purpose are not inert debris and may be commingled with inert debris.

(1) "Type A inert debris" includes but is not limited to concrete (including fiberglass or steel reinforcing bar embedded in the concrete), fully cured asphalt, glass, fiberglass, asphalt or fiberglass roofing shingles, brick, slag, ceramics, plaster, clay and clay products. Type A inert debris is waste that does not contain soluble pollutants at concentrations in excess of water quality objectives and has not been treated in order to reduce such pollutants. The board, upon consultation with the State Water Resources Control Board, will determine on a case by case basis whether materials not listed in this subdivision qualify as Type A inert debris.

(2) "Type B inert debris" is solid waste that is specifically determined to be inert by the applicable RWQCB, such as treated industrial wastes and de–watered bentonite–based drilling mud, but excluding Type A inert debris.

(*l*) "Inert Debris Engineered Fill Operation" means a disposal activity exceeding one year in duration in which fully cured asphalt, uncontaminated concrete (including steel reinforcing rods embedded in the concrete), brick, ceramics, clay and clay products, which may be mixed with rock and soil, are spread on land in lifts and compacted under controlled conditions to achieve a uniform and dense mass which is capable of supporting structural loading as necessary, and having other characteristics appropriate for an end use approved by all governmental agencies having jurisdiction (e.g., roads, building sites, or other improvements) where an engineered fill is required to facilitate productive use of the land. The engineered fill shall be constructed and compacted in accordance with all applicable laws and ordinances and shall be certified by a Civil Engineer, Certified Engineering Geologist, or similar professional licensed by the State of California.

(m) "Inert Debris Processing Facility" means a site that receives 1500 tons or more per operating day of any combination of Type A and Type B inert debris, or any amount of Type B inert debris, for storage, handling, transfer, or processing.

(n) "Inert Debris Type A Disposal Facility" means a site where only Type A inert debris is disposed to land. Inert debris Type A disposal facilities do not include inert debris engineered fill operations.

(o) "Inert Debris Type A Processing Operation " means a site that receives less than 1500 tons per operating day of only Type A inert debris for storage, handling, transfer, or processing.

(p) "Large Volume C&D Wood Debris Chipping and Grinding Facility" means a site that receives 500 tons per operating day or more of C&D mulch feedstock for purposes of processing it into C&D mulch.

(q) "Large Volume Construction and Demolition/Inert (CDI) Debris Processing Facility" means a site that receives 175 tons or more of any combination of C&D debris and Type A inert debris per operating day for the purposes of storage, handling, transfer, or processing.

(r) "Material Production Facility" means a facility that primarily handles raw materials to produce a new product that is a rock product operation (i.e., an "aggregate" operation), a hot mix asphalt plant, or a concrete, concrete product or a Portland cement product manufacturing facility.

(s) "Medium Volume C&D Wood Debris Chipping and Grinding Facility" means a site that receives at least 200 tons per operating day and less than 500 tons per operating day of C&D mulch feedstock for purposes of processing it into C&D mulch.

(t) "Medium Volume Construction and Demolition/Inert (CDI) Debris Processing Facility" means a site that receives at least 25 tons per operating day and less than 175 tons per operating day of any combination of C&D debris and Type A inert debris for the purposes of storage, handling, transfer, or processing.

(u) "Physical Contaminants" means human–made inert products contained within feedstocks, including, but not limited to, glass, metal, and plastic.

(v) "Processing" means controlled separation, recovery, volume reduction, or recycling of solid waste including, but not limited to, organized, manual, automated, or mechanical sorting; chipping, grinding, shredding or baling; the use of vehicles for spreading of waste for the purpose of recovery; and the use of conveyor belts, sorting lines or volume reduction equipment.

(w) "Putrescible Wastes" means solid wastes that are capable of being decomposed by micro–organisms with sufficient rapidity as to cause nuisances because of odors, vectors, gases or other offensive conditions, and include materials such as, but not limited to food wastes, offal and dead

animals. The EA shall determine on a case–by–case basis whether or not a site is handling putrescible wastes.

(x) "Residual" means the solid waste destined for disposal, further transfer/processing as defined in section 17402(a)(30) or (31) of Article 6.0, or transformation which remains after processing has taken place and is calculated in percent as the weight of residual divided by the total incoming weight of materials. Notwithstanding, for purposes of this Article, "residual" excludes any inert debris that is destined for or disposed in an inert debris engineered fill operation. Further notwithstanding, for purposes of this Article, "further transfer/processing" does not include processing that occurs at a CDI recycling center or an inert debris recycling center, as described in Section 17381.1(a) of this Article, or at a recycling center as defined at Section 17402.5(d) of Article 6.0 of this Chapter.

(y) "Separated for Reuse" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace, and includes materials that have been "source separated".

(z) "Site" means the area where the handling of solid waste and/or recyclable materials occurs at a recycling center, CDI debris processing operation or facility, inert debris processing operation or facility, or C&D wood debris chipping and grinding operation or facility.

(aa) "Site Restoration" means removing unprocessed or processed solid waste and recyclable material from the site to allow reuse of the property.

(bb) "Small Volume C&D Wood Debris Chipping and Grinding Operation" means a site that receives less than 200 tons per operating day of C&D mulch feedstock for purposes of processing it into C&D mulch.

(cc) "Small Volume Construction and Demolition/Inert (CDI) Debris Processing Operation" means a site that receives less than 25 tons of any combination of C&D debris and Type A inert debris per operating day for the purposes of storage, handling, transfer, or processing.

(dd) "Source Separated" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

(ee) "Storage" means the holding or stockpiling of processed or unprocessed C&D debris, C&D mulch, inert debris or recyclable materials for a temporary period, at the end of which the material either is recycled or is transferred elsewhere. Storage of C&D debris, C&D mulch, inert debris or recyclable materials for periods exceeding the limits set in this Article is deemed to be disposal and shall be regulated as set forth in the Consolidated Regulations for Treatment, Storage, Processing or Disposal of Solid Waste (commencing at CCR, Title 27, Division 1, Subdivision 1, Chapter 1, Article 1, section 20005).

(ff) "Vector" includes any insect or other arthropod, rodent, or other animal capable of transmitting the causative agents of human disease.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17381.1. Activities That Are Not Subject to the Construction and Demolition/Inert Debris Regulatory Requirements.

(a) A site that receives only construction and demolition debris and inert debris (CDI) and which meets the requirements of this section shall be classified as a CDI recycling center. A site that receives only inert debris and which meets the requirements of this section shall be classified as an inert debris recycling center. CDI recycling centers and inert debris recycling centers shall not be subject to any other requirements of this Article except as specified in this section.

(1) The CDI debris that a CDI recycling center receives shall have been separated at the point of generation.

(A) For the purposes of this section, "separated at the point of generation" means that the material has been separated from the solid waste stream by the generator of that material or by a processor prior to receipt at a CDI recycling center and has not been commingled with other solid waste or recyclable materials. For example, each material type must be transferred in separate containers to the recycling center. Notwithstanding, cardboard, lumber and metal may be commingled in a single container.

(2) An inert debris recycling center shall receive only Type A inert debris that is source separated or separated for reuse. The inert debris may be commingled in a single container.

(b) CDI recycling centers and inert debris recycling centers shall meet the following requirements:

(1) The residual shall be less than 10% by weight of the amount of debris received at the site, calculated on a monthly basis. Recycling center operators may report their residual percentage to the EA and the board on Form CIWMB 607 (see Appendix A).

(2) The amount of putrescible wastes in the CDI debris received at the site shall be less than 1% by volume of the amount of debris received at the site, calculated on a monthly basis, and the putrescible wastes shall not constitute a nuisance, as determined by the EA.

(c) Chipping and grinding of any material, or the receipt of chipped and ground material, is prohibited at CDI recycling centers.

(d) The following storage time limits apply to CDI recycling centers:

(1) CDI debris stored for more than 30 days that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed and therefore subject to enforcement action, including the use of a Notice and Order as provided in section 18304.

(2) CDI debris that has been processed and sorted for resale or reuse, but remains stored on site for more than one year, shall be deemed to have been unlawfully disposed and therefore subject to enforcement action, including the use of a Notice and Order as provided in section 18304.

(3) Storage time limits do not apply to CDI recycling centers where a financial assurance mechanism pursuant to section 17384(c) has been approved by the board.

(4) At the EA's discretion, storage time limits for sorted and processed materials may be extended to the time specified in a land use entitlement for the site that has an express time limit for the storage of materials.

(5) CDI recycling center storage time limits may be extended for a specified period, if the operator submits to the EA a storage plan as described in section 17384(b) and if the EA finds, on the basis of substantial evidence, that the additional time does not increase the potential harm to public health, safety and the environment. The EA may consult with other public agencies in making this determination. The extended storage term, any applicable conditions the EA imposes and the EA's findings shall be in writing.

(e) The following storage limits apply to inert debris recycling centers:

(1) Inert debris stored for more than 6 months that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed and therefore subject to enforcement action, including the use of a Notice and Order as provided in section 18304.

(2) Inert debris that has been processed and sorted for resale, or reuse, but remains stored on site for more than 18 months, shall be deemed to have been unlawfully disposed and therefore subject to enforcement action, including the use of a Notice and Order as provided in section 18304.

(3) Storage time limits do not apply to Type A inert debris recycling centers which are located at an inert debris engineered fill operation, an inert debris Type A disposal facility, or at a material production facility.

(4) Storage time limits do not apply to Type A inert debris recycling centers where a financial assurance mechanism pursuant to section 17384(c) has been approved by the board.

(5) At the EA's discretion, storage limits for sorted and processed materials may be extended to the time specified in a land use entitlement for the site that has an express time limit for the storage of materials.

(6) Inert debris recycling center storage limits may be extended for a specified period, if the operator submits to the EA a storage plan as described in section 17384(b) and if the EA finds, on the basis of substantial evidence, that the additional time does not increase the potential harm to public health, safety and the environment. The EA may consult with other public agencies in making this determination. The extended storage term, any applicable conditions the EA imposes and the EA's findings shall be in writing.

(f) Nothing in this section precludes the EA or the board from inspecting a site to verify that it is and has been operating in a manner that meets the requirements of this section, or from taking any appropriate enforcement action, including the use of a Notice and Order as provided in section 18304.

(g) In evaluating whether or not a particular site is in compliance with this section, the EA shall, among other things, do the following:

(1) If the EA has reason to believe that each load of debris received at a recycling center is not separated at the point of generation, is not source separated or is not separated for reuse, as applicable, or that the residual exceeds 10% of the total debris received per month, or that the amount of putrescible wastes exceeds 1% by volume of the total debris received per month, or material is being stored in excess of the applicable storage limits, or that the site is not in compliance with any other requirement in this section, the EA may require the owner or operator to provide evidence that the recycling center is in compliance. The burden of proof shall be on the owner and operator of the recycling center to demonstrate it is in compliance.

(2) At the time that the EA requires a recycling center to provide evidence that it is in compliance with this section, the EA shall provide the owner and operator of the recycling center a written description of the information that has caused the EA to believe that the recycling center is not in compliance. Notwithstanding, the EA shall not be required to identify the name or other identifying information regarding any person(s) who has complained about the recycling center.

(h) Sites which do not meet the applicable requirements of this section do not qualify as recycling centers and shall comply with this Article and all laws and regulations applicable to them. The burden of proof shall be on the owner and operator of a site to demonstrate that the activities at the site are not subject to the requirements of this Article.

§ 17381.2. Regulatory Tiers Placement for CDI Debris and Inert Debris Processing Operations and Facilities.

Construction & Demolition and Inert Debris Tier Placement

Not Subject To Article 5.9	*Excluded Operations Tier Section 17382*	*EA Notification Tier*	*Registration Tier*	*Full Solid Waste Facility Permit*	
• CDI Recycling Centers Section 17381.1 • Alternative Daily Cover at solid waste disposal facilities per 27 CCR 20680 • Wood waste facilities pursuant to PRC 40195.1(b) • Inert Debris Recycling Centers Section 17381.1 • See Section 17402.5 for other Activities Not Subject to the Regulations • Road building and specified public works activities Section 17380(g)	• Containers used to store C&D debris at the place of generation • 15 cubic yards or less of separated for reuse debris • Specified chipping and grinding activities • Specified Grading Activities	• Small Volume CDI debris processing operations (less than 25 tons per day — Section 17383.4 • Small Volume C&D Wood Debris Chipping and Grinding Operations (less than 200 tons per day) — Section 17383.3 • Emergency CDI processing operations — Section 17383.8 • Inert debris Type A only processing operations (less than 1500 tons per day) Section 17383.6	• Medium Volume CDI debris processing facilities (25 tons per day to up to less than 175 tons per day) Section 17383.3 • Medium Volume C&D Wood Debris Chipping and Grinding Facilities (200 to <500 tons per day) — Section 17383.3	• Large Volume CDI debris processing facilities (175 tons per day or more) — Section 17383.5 • Inert Debris Processing Facility (1500 tons per day or more) of any combination of Type A and Type B inert debris or any amount of Type B inert debris Section 17383.7 Large Volume C&D Wood Debris Chipping and Grinding Facilities (500 tons per day or more) — Section 17383.3	PROCESSING ACTIVITIES

NOTE: THERE ARE NO FACILITIES PLACED WITHIN THE STANDARDIZED TIER

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17382. Excluded Activities.

(a) The following activities do not constitute CDI debris processing, inert debris processing, or chipping and grinding operations or facilities for the purposes of this Article and are not required to meet the requirements set forth herein:

(1) Containers used to store C&D debris or inert debris at the place of generation.

(2) Locations where 15 cubic yards or less per day of separated for reuse material is handled.

(3) Grading or clearing of land that is consistent with local ordinances.

(4) Chipping and grinding of lumber or other wood material which meet any of the following criteria;

(A) The chipping and grinding activity handles materials derived from and applied to lands owned or leased by the same person, including a parent or subsidiary of a corporate owner; or

(B) Handling any combination of green material, additives, amendments, compost, or chipped and ground material that does not exceed 500cubic yards on–site at any one time; or

(C) The activity is located at the site of biomass conversion as defined in PRC section 40106 and is for use in biomass conversion at that site; or

(D) The activity is part of a silvicultural operation or a wood, paper, or wood product manufacturing operation; or

(E) The storage of bagged chipped and ground material.

(b) Nothing in this section precludes the EA or the board from inspecting an excluded activity to verify that the activity is being conducted in a manner that qualifies as an excluded activity, or from taking any appropriate enforcement action, including the use of a Notice and Order. The burden of proof shall be on the owner and operator to demonstrate that the activities are excluded pursuant to this section.

NOTE: Authority cited: 40502, 43020 and 43021, Public Resources Code. Reference: 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383. State Minimum Standards.

(a) This section sets forth minimum standards that apply to CDI debris processing, inert debris processing and C&D wood debris chipping and grinding operations and facilities.

(b) All small, medium and large CDI debris processing operations and facilities, inert debris processing operations and facilities and small, medium and large C&D wood debris chipping and grinding operations and facilities shall meet the State Minimum Standards requirements of CCR, Title 14, Division 7, Chapter 3.0, Article 6.2 and sections 17406.1, 17406.2 of Article 6.1 and 17414 of Article 6.3.

(c) In addition, medium and large CDI debris processing facilities, inert debris processing facilities and medium and large volume C&D wood debris chipping and grinding facilities shall meet the State Minimum Standards requirements of CCR, Title 14, Division 7, Chapter 3.0, Article 6.35.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020, 43021, 43200 and 43209, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383.1. Multiple Wood Debris Chipping and Grinding Activities.

All operations and facilities that receive lumber or wood material and mechanically reduce the material in size are subject to regulation under either Chapter 3 (Minimum Standards for Solid Waste Handling and Disposal) or Chapter 3.1 (Composting Operations Regulatory Requirements) and shall be further regulated as follows: If multiple waste streams, such as C&D wood debris and compostable green material, are handled at one location or site as determined by the EA, the site shall be deemed a single site and shall comply with the permitting requirements of Chapter 3, Article 5.9, Article 6.0 or Chapter 3.1 as determined by the EA. All material handled at the site shall count toward determining the appropriate regulatory tier for the operation or facility. Notwithstanding the above, each separate activity will be required to meet the State Minimum Standards applicable to the specific waste stream being handled.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383.2. Activities at Solid Waste Facilities.

(a) C&D wood debris chipping and grinding operations and facilities and CDI debris and inert debris processing operations and facilities are not required to obtain a separate permit or meet the notification requirements of this Article if the activity is occurring at a facility that has a full solid waste facilities permit and the permit authorizes the activity either through a specific condition in the permit or as a described and approved activity in a Report of Facility Information.

(b) Notwithstanding, C&D wood debris chipping and grinding activities when located at a solid waste facility which has a full solid waste facilities permit shall satisfy the requirements of sections 17383 and 17383.3 (b) through (k) except if material is used on site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383.3. C&D Wood Debris Chipping and Grinding Operations and Facilities.

(a) C&D wood debris chipping and grinding operations and facilities conduct chipping and grinding activities to produce C&D mulch. Authorized chipping and grinding activities do not produce active compost, but mechanically reduce the size of lumber and other wood material to produce C&D mulch. The C&D wood debris chipping and grinding operation or facility shall satisfy the appropriate tier requirements. A small volume C&D wood debris chipping and grinding operation shall comply with the EA Notification requirements set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100 et seq. A medium volume C&D wood debris chipping and grinding operation shall comply with the Registration Permit tier requirements set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100 et seq. A large volume C&D wood debris chipping and grinding facility shall comply with the Full Permit tier requirements set forth in CCR, Title 27, Division 2, Subdivision 1, Chapter 4, commencing with section 21563. To the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals. Except as otherwise specified in this section, small volume C&D wood debris chipping and grinding activities shall comply with all requirements applicable to small volume CDI debris processing operations, medium volume C&D wood debris chipping and grinding facilities shall comply with all requirements applicable to medium volume CDI processing facilities, and large volume C&D wood debris chipping and grinding facilities shall comply with all requirements applicable to large volume CDI debris processing facilities.

(b) All of the following requirements for the storage and stockpiling of C&D mulch feedstock, material being processed and finished C&D mulch apply:

(1) Unprocessed feedstock may be stored on site prior to processing up to 30 days. Unprocessed feedstock stored for more than 30 days shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(2) C&D mulch shall be removed from the site within 90 days from processing. C&D mulch stored for more than 90 days shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(3) If the temperature of the unprocessed feedstock or C&D mulch reaches 50 degrees Celsius (122 degrees Fahrenheit), then the site shall be regulated as a compostable material handling operation or facility, as set forth in Chapter 3.1 commencing with Article 1, section 17850.

(4) The maximum amount of material that may be stored on the site, including unprocessed material, material that is being processed, and material that has been processed, is that amount which is the product of 30 days multiplied by the maximum amount of incoming material permitted per day.

(5) Storage time limits may be extended in accordance with sections 17384 (a) (Land Use Entitlement), 17384 (b) (Storage Plan), and 17384(c) Financial Assurances of this Article.

(c) All the following requirements for the inspection of C&D mulch feedstock apply:

(1) The feedstock shall undergo load checking to ensure that physical contaminants in the feedstock are reduced to no greater than 1% of total feedstock, by weight. Load checking shall include both visual observation of incoming loads of feedstock and load sorting to quantify the percentage of contaminating materials.

(2) A minimum of 1% of daily incoming feedstock volume or at least one truckload per day, whichever is greater, shall be inspected visually. If a visual load check indicates a contamination level is potentially greater than 1%, a representative sample shall be taken, physical contaminants shall be collected and weighed, and the percentage of physical contami-

nants determined. The load shall be rejected if physical contaminants are greater than 1% of total weight.

(3) Upon request of the EA, the operator shall take a representative sample of feedstock, shall collect and weigh physical contaminants, and shall calculate the percentage of physical contaminants in the sample.

(4) The operator shall take adequate measures through signage, training, load checking, detection systems, and/or chemical analysis to avoid incorporating any chromated copper arsenate (CCA) pressure treated wood and lead based painted materials into C&D mulch. Such contaminated feedstock shall be stored in a designated area for proper handling and disposition.

(5) The operator's employees shall be adequately trained to perform the activities specified in this section.

(d) Operations and facilities producing C&D mulch shall maintain all records demonstrating compliance with this section.

(e) All C&D wood debris chipping and grinding activities shall minimize odor impacts.

(f) The operator shall provide fire prevention, protection and control measures, including, but not limited to, temperature monitoring of windrows and piles, adequate water supply for fire suppression, and the isolation of potential ignition sources from combustible materials. Fire lanes shall be provided to allow fire control equipment access to all operation areas. These requirements are in addition to the requirement for a Fire Prevention, Control and Mitigation Plan described in sections 17386(a)(19), 18223(a)(19) and 18223.5(a)(20),

(g) If C&D debris other than C&D wood debris is accepted at the site, the site shall be regulated as a CDI processing operation or facility under this Article or under in the Transfer/Processing Regulatory requirements (commencing at section 17400), as appropriate.

(h) Should the EA have reason to believe that a C&D wood debris chipping and grinding material handler is engaging in other activities that constitute or are deemed to be disposal, the burden of proof shall be on the owner and operator of the site to demonstrate otherwise.

(i) Each operator of a small volume C&D wood debris chipping and grinding operation shall file with the EA, together with its application for an EA Notification, an Operation Plan (as more fully described in section 17386 of this Article). Each operator of a medium volume C&D wood debris chipping and grinding facility shall file with the EA, together with its application for a Registration Permit, a Facility Plan (as more fully described in Article 3.2, section 18223 of this Chapter). Each operator of a large volume C&D wood debris chipping and grinding facility shall file with the EA, together with its application for a Full Permit, a Facility Report (as more fully described in Article 3.2, section 18223.5 of this Chapter). The information contained in the Plan or Report shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Chapter 5, Article 3.0, section 18101.

(j) Where the public may have access to them, the debris piles and other piles of materials on site must be stable and otherwise configured so as to protect the public health and safety.

(k) Each operator shall determine the weight of all material received at the operation or facility for handling and shall maintain records of the weight of materials in accord with State Minimum Standards. Weight shall be determined by the use of scales which may be located at the operation or facility or off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).
2. Change without regulatory effect amending subsection (a) filed 6–29–2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 27).

§ 17383.4. Small Volume Construction and Demolition/Inert Debris Processing Operations.

All small volume CDI debris processing operations shall comply with the EA Notification requirements set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100. These operations shall be inspected quarterly by the EA to verify compliance with minimum standards. To the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals. The operator shall specify the operation's boundary area in the operating record.

(a) CDI debris stored for more than 15 days that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed and therefore subject to enforcement action, including the use of a Notice and Order as provided in section 18304.

(b) CDI debris that has been processed and sorted for resale or reuse, but remains stored on site for more than one year, shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(c) The maximum amount of material that may be stored on the site, including unprocessed material, material that is being processed, and material that has been processed, is that amount which is the product of 30 days multiplied by the maximum amount of incoming material permitted per day.

(d) Storage time limits may be extended in accordance with sections 17384 (a) (Land Use Entitlement), 17384 (b) (Storage Plan), and 17384(c) Financial Assurances of this Article.

(e) Residual material shall be removed from the site within 48 hours or at an alternate frequency approved by the EA.

(f) Each operator of a Small Volume CDI Processing Operation shall file with the EA, together with its application for an EA Notification, a Small Volume CDI Processing Operation Plan (as more fully described in Article 3.2, section 17386 of this Article). The information contained in the Plan shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Chapter 5, Article 3.0, section 18101.

(g) Where the public may have access to them, the debris piles and other piles of materials on site must be stable and otherwise configured so as to protect the public health and safety.

(h) C&D Mulch that is not compostable material produced at a small volume CDI processing operation must meet all requirements of a small volume C&D wood debris chipping and grinding operation, including the storage limits.

(i) Each operator shall determine the weight of all material received at the operation for handling and shall maintain records of the weight of materials in accord with State Minimum Standards. Weight shall be determined by the use of scales which may be located at the operation or off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383.5. Medium Volume Construction and Demolition/Inert Debris Processing Facilities.

All medium volume CDI debris processing facilities subject to this Article shall comply with the Registration Permit tier requirements set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100 et seq..

(a) The amount of residual in the C&D debris and type A inert debris shall be less than 40 % of the amount of such material received by weight. The residual amount is calculated on a monthly basis. Facilities which do not meet the 40 % residual requirement of this subsection shall obtain a Full Permit and shall comply with the requirements applicable to a Large Volume CDI Debris Processing Facility. If the EA determines that a Medium Volume CDI Debris Processing Facility has exhibited a pattern and practice of failing to comply with the provisions of this subsection, the EA shall take appropriate enforcement action.

(b) CDI debris stored for more than 15 days that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(c) CDI debris that has been processed and sorted for resale or reuse, but remains stored on site for more than one year, shall be deemed to have

been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(d) The maximum amount of material that may be stored on the site, including unprocessed material, material that is being processed, and material that has been processed, is that amount which is the product of 30 days multiplied by the maximum amount of incoming material permitted per day.

(e) Storage time limits may be extended in accordance with sections 17384 (a) (Land Use Entitlement), 17384 (b) (Storage Plan), and 17384(c) Financial Assurances of this Article.

(f) Residual material shall be removed from the site within 48 hours or at an alternate frequency approved by the EA.

(g) Each operator of a medium volume CDI processing facility shall file with the EA, together with its application for a Registration Permit, a CDI Processing Facility Plan (as more fully described in Article 3.2, section 18223 of this Chapter). The information contained in the Plan shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Chapter 5, Article 3.0, section 18101.

(h) Medium volume CDI debris processing facilities shall be inspected monthly by the EA in accordance with PRC section 43218. To the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals.

(i) Where the public may have access to them, the debris piles and other piles of materials on site must be stable and otherwise configured so as to protect the public health and safety.

(j) C&D Mulch that is not compostable material produced at a medium volume CDI processing operation must meet all requirements of a medium volume chipping and grinding operation, including the storage limits.

(k) If a medium volume CDI processing facility exceeds any combination of the following limitations, which are more fully described in this Section 17383.5, three (3) or more times within any two (2) year period which the EA determines constitutes a violation of this Article, the facility no longer qualifies for a Registration Permit under this section. Upon the third such violation, the EA shall notify the operator in writing that the facility no longer qualifies for a Registration Permit, and the operator must within 30 days apply for a Full Permit as if it were a large volume CDI processing facility pursuant to Section 17383.6. In addition, the EA shall issue a cease and desist order pursuant to Section 18304 directing, among other things, that the operator immediately cease accepting material at the site until the operator has demonstrated to the EA that it has corrected the violation and eliminated the cause of the violation. The limitations to which this subdivision applies are:

1. Maximum amount of residual specified in Subsection 17383.5(a).
2. Maximum tonnage received per day as specified in Subsection 17381(t)
3. Maximum amount of material on site as specified 17383.5(d).

(*l*) Each operator shall determine the weight of all material received at the facility for handling and shall maintain records of the weight of materials in accord with State Minimum Standards. Weight shall be determined by the use of scales which may be located at the facility or off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383.6. Large Volume Construction and Demolition/Inert Debris Processing Facilities.

All large volume CDI debris processing facilities subject to this Article shall comply with the Full Permit tier requirements set forth in Title 27, CCR, Division 2, Subdivision 1, Chapter 4, commencing with section 21450.

(a) CDI debris stored for more than 15 days that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(b) CDI debris that has been processed and sorted for resale, or reuse, but remains stored on site for more than one year, shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(c) The maximum amount of material that may be stored on the site, including unprocessed material, material that is being processed, and material that has been processed, is that amount which is the product of 30 days multiplied by the maximum amount of incoming material permitted per day.

(d) Storage time limits may be extended in accordance with sections 17384 (a) (Land Use Entitlement), 17384 (b) (Storage Plan), and 17384(c) Financial Assurances of this Article.

(e) Residual material shall be removed from the site within 48 hours or at an alternate frequency approved by the EA.

(f) Each operator of a large volume CDI processing facility shall file with the EA, together with its application for a Full Permit, a Large Volume CDI Processing Facility Report (as more fully described in Article 3.2, section 18223.5 of this Chapter). The information contained in the Report shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Chapter 5, Article 3.0, section 18101.

(g) Large volume CDI debris processing facilities shall be inspected monthly by the EA in accordance with PRC section 43218. To the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals.

(h) Where the public may have access to them, the debris piles and other piles of materials on site must be stable and otherwise configured so as to protect the public health and safety.

(i) C&D Mulch that is not compostable material produced at a large volume CDI processing operation must meet all requirements of a large volume C&D wood debris chipping and grinding operation, including the storage limits.

(j) Each operator shall determine the weight of all material received at the facility for handling and shall maintain records of the weight of materials in accord with State Minimum Standards. Weight shall be determined by the use of scales which may be located at the facility or off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).
2. Editorial correction inserting inadvertently omitted HISTORY 1 (Register 2003, No. 29).

§ 17383.7. Inert Debris Type A Processing Operations.

All inert debris Type A processing operations subject to this Article shall comply with the EA Notification requirements set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0 and commencing with section 18100.

(a) Inert debris stored for more than 6 months that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(b) Inert debris that has been processed and sorted for resale or reuse, but remains stored on site for more than 18 months, shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(c) The maximum amount of material that may be stored on the site, including unprocessed material, material that is being processed, and material that has been processed, is that amount which is the product of 30 days multiplied by the maximum amount of incoming material permitted per day.

(d) Storage time limits may be extended in accordance with sections 17384 (a) (Land Use Entitlement), 17384 (b) (Storage Plan), and 17384(c) Financial Assurances of this Article.

(e) Residual material shall be removed from the site within 48 hours or at an alternate frequency approved by the EA.

(f) These operations shall be inspected by the EA to verify compliance with minimum standards. Inspections shall be conducted quarterly. To

the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals.

(g) The operator shall specify the operation's boundary area in the operating record.

(h) Each operator of an inert debris Type A processing operation shall file with the EA, together with its application for an EA Notification, an Inert Debris Type A Processing Operation Plan (as more fully described in Article 3.2, section 17386 of this Article). The information contained in the Plan shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Chapter 5, Article 3.0, section 18101.

(i) Where the public may have access to them, the debris piles and other piles of materials on site must be stable and otherwise configured so as to protect the public health and safety.

(j) Each operator shall determine the weight of all material received at the operation for handling and shall maintain records of the weight of materials in accord with State Minimum Standards. Weight shall be determined by the use of scales which may be located at the operation or off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17383.8. Inert Debris Type A and Type B Processing Facilities.

All inert debris Type A and Type B processing facilities subject to this Article shall comply with the Full Permit tier requirements set forth in Title 27, CCR, Division 2, Subdivision 1, Chapter 4, commencing with section 21450.

(a) Inert debris stored for more than 6 months that has not been processed and sorted for resale or reuse shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(b) Inert debris that has been processed and sorted for resale or reuse, but remains stored on site for more than 18 months, shall be deemed to have been unlawfully disposed, and therefore subject to enforcement action including the use of a Notice and Order as provided in section 18304.

(c) The maximum amount of material that may be stored on the site, including unprocessed material, material that is being processed, and material that has been processed, is that amount which is the product of 30 days multiplied by the maximum amount of incoming material permitted per day.

(d) Storage time limits may be extended in accordance with sections 17384 (a) (Land Use Entitlement), 17384 (b) (Storage Plan), and 17384(c) Financial Assurances of this Article.

(e) Residual material shall be removed from the site within 48 hours or at an alternate frequency approved by the EA.

(f) Each operator of an Inert Debris Type A and Type B Processing Facility shall file with the EA, together with its application for a Full Permit, an Inert Debris Type A and Type B Processing Facility Report (as more fully described in Article 3.2, Section 18223.5 of this Chapter). The information contained in the Report shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Chapter 5, Article 3.0, section 18101.

(g) Inert debris processing facilities shall be inspected monthly by the EA in accordance with PRC section 43218. To the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals.

(h) Where the public may have access to them, the debris piles and other piles of materials on site must be stable and otherwise configured so as to protect the public health and safety.

(i) Each operator shall determine the weight of all material received at the facility for handling and shall maintain records of the weight of materials in accord with State Minimum Standards. Weight shall be determined by the use of scales which may be located at the facility or off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

2. Change without regulatory effect amending subsection (f) filed 6–29–2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 27).

§ 17383.9. Emergency Construction and Demolition/Inert Debris Processing Operations.

(a) All emergency CDI debris processing operations shall comply with the EA Notification requirements set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, section 18100 et. seq. Such operations may occur at locations which are not permitted solid waste facilities. These operations shall be inspected by the EA as necessary to verify compliance with minimum standards, but in no case less than monthly. To the greatest extent possible, all inspections shall be unannounced and shall be conducted at irregular intervals. The operator shall specify the operation's boundary area in the operating record.

(b) In addition, the emergency CDI debris processing operations shall meet the following requirements:

(1) The land owner has certified his/her knowledge of the proposed activity and agrees to insure proper termination.

(2) The operation shall not exist for a period of time greater than 120 days from the date that the EA Notification is received by the EA. Upon receipt of the reports required by CCR, Title 14, Division 7, Chapter 3, Article 3, section 17210.5, the operation may continue for an additional period as specified by the EA to assist in the recovery and clean–up.

(3) The operation shall receive only C&D debris and Type A inert debris in any amounts that are generated by the event that caused the state of emergency,

(4) If the operation accepts, processes, or stores hazardous or household hazardous waste, the activities must be in compliance with requirements of the Department of Toxic Substances Control and other appropriate authorities or agencies.

(c) The emergency CDI debris processing operation shall cease operation should the EA determine that any of the following occurs:

(1) The emergency CDI debris processing operation is not being used exclusively to handle the CDI debris resulting from the state of emergency;

(2) The emergency CDI debris processing operation is no longer necessary in accordance with CCR, Title 14, Division 7, Chapter 3, Article 3, section 17210.2;

(3) The emergency CDI debris processing operation will cause or contribute to a public health, safety or environmental problem;

(4) The operator is not utilizing disaster debris diversion programs to the extent feasible.

§ 17383.10. Public Hearing.

NOTE: Authority Cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).
2. Repealer filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 17384. Approval of Storage Time Limit Alternatives.

(a) At the EA's discretion, storage times for sorted and processed materials may be extended to the time specified in a land use entitlement for the site that has an express time limit for the storage of materials.

(b) Storage times at operations and facilities may be extended for a specified period, if the operator submits to the EA a storage plan as described herein and if the EA finds, on the basis of substantial evidence, that the additional time does not increase the potential harm to public health, safety and the environment. The EA may consult with other public agencies in making this determination. The extended storage term, any applicable conditions the EA imposes and the EA's findings shall be in writing. The operator must file amendments as necessary to maintain the accuracy of the storage plan. Failure to submit timely amendments may be cause for revocation of the storage limit extension. The storage plan must contain the following:

(1) Names of the operator and owner, and the key employee responsible for operation of the site;

(2) Describe the reason(s) for the storage limit extension;

(3) Describe the manner in which the material will be stored;

(4) Describe the manner in which activities are to be conducted at the facility during the period of the storage extension;

(5) Specify maximum site design capacity including the assumptions, methods, and calculations performed to determine the total site capacity;

(6) Provide information showing the types and the quantities of material to be stored. If tonnage was figured from records of cubic yards, include the conversion factor used;

(7) Identify transfer, recovery and processing equipment to be used on site, including classification, capacity and the number of units;

(8) Identify the planned method for final disposition of material stored at the site, including but not limited to materials being transferred to other facilities or operations for further processing, recycled materials, and solid waste.

(c) Storage times at operations, facilities and recycling centers may be extended if an operator provides proof of financial assurance pursuant to Title 27, Chapter 6, Subchapter 1, section 22240 et seq. satisfactory to the board for cleanup of any operation, facility or recycling center. The amount of financial assurance shall be based on the cost estimate, in current dollars, for removal and disposal of the debris by a third party as directed by the EA. A Clean Up Plan including a cost estimate shall be prepared by the operator using form CIWMB 643 and approved by the EA. Notwithstanding, an operator is not required to provide proof of financial assurance if the third party cost to clean up the site, as identified by the operator and approved by the EA, is less than $5,000.

NOTE: Authority Cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17384.1. Final Site Cleanup.

All operations, facilities and recycling centers shall meet the following requirements:

(a) The operator shall provide the EA with 30 days written notice of its intent to terminate operations and perform site restoration.

(b) The operator shall provide site restoration necessary to protect public health, safety, and the environment.

(c) The operator shall ensure that the following site restoration procedures are performed upon completion of operations and termination of service:

(1) The site shall be cleaned of all solid waste and recycled materials including, but not limited to, construction and demolition and inert debris and other materials related to the operations.

(2) All machinery shall be cleaned and removed or stored securely.

(3) All remaining structures shall be cleaned of solid waste and recycled materials related to the operation.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17385. Pre–Existing Permits.

(a) If an activity subject to this Article is existing under a Registration Permit or Full Permit on the effective date of this Article, that activity may continue to operate until the operator applies for and obtains the appropriate permit or satisfies the requirements for notification, as applicable, as set forth in this Article. As set forth in section 17385(d), the EA shall notify the owner or operator what permit is required under this Article. The operator shall obtain the required permit or satisfy the requirements for notification in the same manner and within the same time frames as set forth in subsection 17385(b). For the purposes of this section, "existing" includes activities that are operating and activities that have not commenced operation but have received all local government land use approvals required under applicable law and have commenced physical development of the site or improvements on the site for purposes of the activity.

(b) If an activity subject to this Article is existing and does not have a Registration Permit or Full Permit on the effective date of this Article, that activity may continue to operate in substantially the same manner until the EA determines what permit or other documentation is required for the activity under this Article and notifies the owner or operator in writing of its determination. The EA shall make that determination for all facilities and operations within its jurisdiction no sooner than 30 days and no later than 90 days from the effective date of this Article. If the EA determines that a Full Permit is required, the operator shall apply for and obtain that permit within 180 days from the date the owner or operator receives the EA's written determination, whichever first occurs. If the EA determines that a Registration Permit is required, the operator shall apply for and obtain that permit within 60 days from the date the owner or operator receives the EA's written determination, whichever first occurs. If the EA determines that EA notification under CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100, is required, the operator shall comply with the EA notification requirements within 30 days from the date the owner or operator receives the EA's written determination, whichever first occurs. If an activity subject to this Article fails to obtain the required permit or submit documentation for EA notification within the specified time, the EA shall take appropriate enforcement action.

(c) Notwithstanding anything to the contrary in this Article, until that date which is two (2) years from the effective date of this Article (the "Temporary Permit Expiration Date") or any extension of such Temporary Permit Expiration Date, large volume CDI debris processing facilities which are existing on the effective date of this Article may elect to obtain and operate under a temporary Registration Permit pursuant to subsection (b) above, rather than a Full Permit. Operators of facilities so electing shall obtain temporary Registration Permits in the manner as set forth in subsection (b) above. Operators of large volume CDI debris processing facilities that receive temporary Registration Permits under this subsection (c) shall apply for a Full Permit no later than one (1) year from the date the owner or operator of the facility receives notification from the EA that a Full Permit is required under this Article, whichever first occurs, as provided in subsection (b) above, and shall obtain a Full Permit no later than the Temporary Permit Expiration Date. Notwithstanding, the Temporary Permit Expiration Date may be extended by one or more periods not exceeding a total of three (3) years by the EA (the last such extension is the "Extended Temporary Permit Expiration Date") in the event that the EA finds that an operator, for reasons beyond its control, has been unable to obtain a Full Permit despite having exercised good faith and due diligence in attempting to obtain such a permit. Registration Permits obtained under this subsection (c) are temporary and shall expire no later than the Temporary Permit Expiration Date or the Extended Temporary Permit Expiration Date, whichever is applicable. The Full Permit that the operator obtains shall supercede, and cause the expiration

of, the facility's temporary Registration Permit obtained under this subsection (c). If any large volume CDI debris processing facility fails to obtain the required Full Permit within the specified time, the EA shall take appropriate enforcement action.

(d) Waste handling activities which are existing on the effective date of this Article and which handle exclusively construction and demolition wastes, as defined in Section 17225.15 of Article 4 of this Chapter, that do not qualify as C&D debris under this Article shall obtain the appropriate permit as a transfer/processing operation or facility as provided in Articles 6.0 through 6.4, inclusive, of this Chapter. Notwithstanding, such activities shall obtain the necessary permits in the same manner and within the same time frames as if they were operations or facilities subject to this Article, as specified in this Section 17385, such that limited volume transfer operations (defined at section 17403.3) shall comply with EA notification requirements within 30 days from the date the owner or operator receives the written determination from the EA, whichever first occurs, medium volume transfer/processing facilities (defined at section 17403.6) shall obtain a Registration Permit within 60 days from the date the owner or operator receives the written determination from the EA, whichever first occurs, and large volume transfer/processing facilities (defined at 17403.7) shall obtain a Full Permit within 180 days from the date the owner or operator receives the written determination from the EA, whichever first occurs. Large volume transfer/processing facilities which handle exclusively construction and demolition wastes may elect to obtain and operate under a temporary Registration Permit in the same manner, under the same procedures and subject to the same limitations as a large volume CDI debris processing facility under subsection 17385(c). If an activity subject to this subsection fails to obtain the required permit or submit documentation within the specified time, the EA shall take appropriate enforcement action.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 17386. Operation Plans.

(a) Each operator of a small volume CDI debris processing operation, inert debris processing operation Type A, or small volume C&D wood debris chipping and grinding operation that is required to obtain an EA Notification, as set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100 shall file with the EA, together with its EA Notification, an Operation Plan. The Plan shall contain the following:

(1) Names of the operator and owner, and the key employee responsible for operation of the site;

(2) Schematic drawing all buildings and other structures showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, loading, and parking areas;

(3) Descriptive statement of the manner in which activities are to be conducted at the operation;

(4) Days and hours that the business is to operate. If the hours of debris receipt differ from the hours of material processing, each set of hours shall be stated. For businesses with continuous operations, indicate the start of the operating day for purpose of calculating amount of debris received per operating day. The operator may also indicate whether or not, and when, other activities, such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(5) Total acreage contained within the operating area;

(6) Operation design capacity including the assumptions, methods, and calculations performed to determine the total capacity;

(7) Information showing the types and the daily quantities of debris to be received

(8) In any calculations necessary as part of the plan, amounts shall be figured in tons. If tonnage is figured from cubic yards, include the conversion factors used as approved by the EA.

(9) Description of the methods used by the operation to comply with each State Minimum Standard required by CCR, Title 14, Division 7, Chapter 3.0, Article 5.9;

(10) Anticipated volume of quench or process water and the planned method of treatment, and disposal of any wastewater;

(11) Description of provisions to handle unusual peak loading;

(12) Description of transfer, recovery and processing equipment, including classification, capacity and the number of units;

(13) Planned method for final disposition of debris received at the operation, including but not limited to materials being transferred to other facilities or operations for further processing, recycled materials, and solid waste;

(14) Planned method for the storage and removal of salvaged material;

(15) Resume of management organization which will operate the operation;

(16) The operator shall record and retain records of any serious injury to the public occurring on–site and any complaint of adverse health effects to the public attributed to operations. Serious injury means any injury that requires inpatient hospitalization for a period in excess of 24 hours or in which a member of the public suffers a loss of any member of the body or suffers any degree of permanent disfigurement; and

(17) The operator shall retain a record of training and instruction completed in accordance with, Article 6.2, section 17410.3.

(18) A copy of the operator's Injury and Illness Prevention Plan (as applicable under current law).

(19) Fire Prevention, Control and Mitigation Plan ("Plan") which contains the following:

(A) Description of the measures the operator will take to prevent fires and to control and extinguish fires at the site;

(B) Identification and description of the equipment the operator will have available (on site and readily available off–site) to control and extinguish fires;

(C) Description of the measures the operator will take to mitigate the impacts of any fire at the site to the public health and safety and the environment;

(D) Description of the arrangements the operator has made with the local fire control authority having jurisdiction to provide fire prevention, control and suppression;

(E) Discussion of the ability of the local fire control authority to suppress fires at the site in light of the authority's personnel, expertise and equipment, the availability of water, access to the site and to flammable materials on the site, the nature of flammable materials on site, the quantity and dimensions of materials on the site, and the potential for subsurface fires in accumulations of flammable materials on the site.

(F) Evidence that the operator has submitted the Plan to the local fire control authority for review and that the authority has found it to be in compliance with the authority's applicable requirements.

(b) The operator must file amendments as necessary to maintain the accuracy of the Plan. Failure to submit timely amendments may be cause for suspension or revocation of the EA Notification.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

Article 5.95. Construction and Demolition Waste and Inert Debris Disposal Regulatory Requirements

§ 17387. Authority and Scope.

(a) Article 5.95 sets forth permitting requirements, tier requirements, and minimum operating standards for operations and facilities that dispose construction and demolition (C&D) waste and inert debris. This Article is not applicable to operations and facilities that are wholly governed in regulations elsewhere in this Chapter or Title 27.

(b) This Article is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with Section 40000 of the Public Resources Code (PRC), as amended. These regulations should be read together with the Act.

(c) Nothing in this Article limits or restricts the power of any Federal, State, or local agency to enforce any provision of law that it is authorized or required to enforce or administer, nor to limit or restrict local governments from promulgating laws which are as strict or stricter than the regulations contained in this Article. However, no local government may promulgate laws which are inconsistent with the provisions of this Article.

(d) No provision in this Article shall be construed as relieving any owner or operator from obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, reports, or other requirements of other regulatory or enforcement agencies, including, but not limited to, local health agencies, Regional Water Quality Control Boards, Department of Toxic Substances Control, air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New article 5.95 (sections 17387–17390) and section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

§ 17387.5. Purpose.

(a) The purpose of this Article is to promote the health, safety and welfare of the people of the State of California, and to protect the environment by establishing minimum standards for the handling and disposal of C&D waste and inert debris at disposal sites.

(b) By adopting these standards, the board hereby sets forth performance standards for disposal sites which dispose C&D waste and inert debris and which are of State concern, as required by PRC sections 43020 and 43021, and sets forth minimum substantive requirements for operator's submission of information concerning individual disposal sites.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

§ 17388. Definitions.

For the purposes of this Article, the following definitions shall apply. Additional definitions that apply to this Article are found at California Code of Regulations (CCR), Title 14, Division 7, Chapter 3, Article 6, sections 17402 and 17402.5, and Article 4, section 17225 and Title 27, Division 2, Chapter 2, Articles 1, and 2.

(a) "C&D" means construction and demolition, as in the term "C&D waste".

(b) "CDI" means any combination of construction and demolition waste and inert debris.

(c) "Construction and Demolition Waste" or "C&D Waste" means the nonhazardous waste building materials, packaging and rubble resulting from construction, remodeling, repair and demolition operations on pavements, houses, commercial buildings and other structures.

(d) "CDI Waste Disposal Facility" means a facility at which C&D waste, C&D waste together with inert debris (Type A or B) or inert debris (Type B) only is disposed.

(e) "Disposal" means the final deposition of C&D waste or inert debris onto land.

(f) "EA" means enforcement agency as defined in PRC section 40130.

(g) "Engineered Fill Activity" means fill that has been designed by an engineer to act as a structural element of a constructed work and has been placed under engineering inspection, usually with density testing. An engineered fill activity shall meet specifications prepared and certified for a specific project by a Civil Engineer, Certified Engineering Geologist, or similar professional licensed by the State of California, and includes requirements for placement, geometry, material, compaction and quality control.

(h) "Fill" means gravel, rock, soil, sand, uncontaminated concrete, or fully cured asphalt in conjunction with a construction project or grading.

(i) "Fully Cured Asphalt" means that the material must be at ambient temperature, be substantially hardened and be inelastic.

(j) "Grading" means any land excavation, filling, earth moving or combination thereof.

(k) "Inert Debris" means solid waste and recyclable materials that are source separated or separated for reuse and do not contain hazardous waste (as defined in CCR, Title 22, section 66261.3 et. seq.) or soluble pollutants at concentrations in excess of applicable water quality. Inert debris may not contain any putrescible wastes. Gravel, rock, soil, sand and similar materials whether processed or not, that have never been used in connection with any structure, development, grading or other similar human purpose, or that are uncontaminated, are not inert debris. Such materials may be commingled with inert debris.

(1) "Type A inert debris" includes but is not limited to concrete (including fiberglass or steel reinforcing bar embedded in the concrete), fully cured asphalt, crushed glass, fiberglass, asphalt or fiberglass roofing shingles, brick, slag, ceramics, plaster, clay and clay products. Type A inert debris is waste that does not contain soluble pollutants at concentrations in excess of water quality objectives and has not been treated in order to reduce such pollutants. The board, upon consultation with the State Water Resources Control Board, will determine on a case by case basis whether materials not listed in this subdivision qualify as Type A inert debris. The board and the State Water Resources Control Board may consider statewide and site–specific factors in making this determination.

(2) "Type B inert debris" is solid waste that is specifically determined to be inert by the applicable RWQCB, such as treated industrial wastes and de–watered bentonite–based drilling mud, but excluding Type A inert debris.

(*l*) "Inert Debris Engineered Fill Operation" means an activity exceeding one year in duration in which only the following inert debris may be used: fully cured asphalt, uncontaminated concrete (including steel reinforcing rods embedded in the concrete), crushed glass, brick, ceramics, clay and clay products, which may be mixed with rock and soil. Those materials are spread on land in lifts and compacted under controlled conditions to achieve a uniform and dense mass which is capable of supporting structural loading, as necessary, or supporting other uses such as recreation, agriculture and open space in order to provide land that is appropriate for an end use consistent with approved local general and specific plans (e.g., roads, building sites, or other improvements) where an engineered fill is required to facilitate productive use(s) of the land. Filling above the surrounding grade shall only be allowed upon the approval of all governmental agencies having jurisdiction. The engineered fill shall be constructed and compacted in accordance with all applicable laws and ordinances and in accordance with specifications prepared and certified at least annually by a Civil Engineer, Certified Engineering Geologist, or similar professional licensed by the State of California and maintained in the operating record of the operation. The operator shall also certify under penalty of perjury, at least annually, that only approved inert debris has been placed as engineered fill, and specifying the amount of inert debris placed as fill. These determinations may be made by reviewing the records of an operation or by on–site inspection. Certification documents shall be maintained in the operating records of the operation and shall be made available to the EA during normal business hours. Acceptance of other Type A inert debris or shredded tires pursuant to Waste Discharge Requirements prior to the effective date of this Article does not preclude an activity from being deemed an inert debris engineered fill operation, provided that the operation meets all the requirements of this Article once it takes effect. Where such materials have been deposited, the operator must specify in the operation plan the type of waste previously accepted, a diagram of the fill area, and estimations of the depth of the fill material previously accepted. Inert debris placed in an Inert Debris Engineered Fill Operation is not counted as diversion or disposal for a given jurisdiction.

(m) "Inert Debris Type A Disposal Facility" means a site where only Type A inert debris is disposed to land. Inert debris Type A disposal facilities do not include inert debris engineered fill operations.

(n) "Landslide Debris", for the purposes of this Article, means the soil or rock or other natural material deposited on roadways, bridge decks,

flood control facilities, or other structures resulting from a naturally–occurring mass movement of earth or rocks from a mountain, hill, cliff, or road cut.

(o) "Operating Record" means a readily accessible collection of records of an operation's or facility's activities in compliance with required State Minimum Standards under Title 14 and Title 27. The operating record shall include the operation plan for inert debris engineered fill operations, or the disposal facility plan or disposal facility report for facilities, and shall contain, but is not limited to: agency approvals, tonnage and load checking records, hours of operation, owner/operator contacts, and personnel training history. The record may be reviewed by State and local authorities and shall be made available during normal business hours. The records may be maintained at any location that is easily accessible to the EA.

(p) "Putrescible Wastes" means solid wastes that are capable of being decomposed by micro–organisms with sufficient rapidity as to cause nuisances because of odors, vectors, gases or other offensive conditions, and include materials such as, but not limited to food wastes, offal and dead animals. The EA shall determine on a case–by–case basis whether or not a site is handling putrescible wastes.

(q) "RDSI" means Report of Disposal Site Information as described in CCR, Title 27, section 21600.

(r) "RWQCB" means Regional Water Quality Control Board.

(s) "Separated for Reuse" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream for the purpose of additional sorting or processing of those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace, and includes materials that have been "source separated".

(t) "Site" means the area where the handling of solid waste, and/or recyclable materials occurs at an operation or facility subject to this Article.

(u) "Solid waste" means the same as in PRC section 40191.

(v) "Source Separated" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

(w) "Vector" means any insect or other arthropod, rodent, or other animal capable of transmitting the causative agents of human disease.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

§ 17388.2. Excluded Activities.

(a) The following disposal activities do not constitute C&D waste or inert debris operations or facilities for the purposes of this Article and are not required to meet the requirements set forth herein:

(1) Any use (e.g., grading) of gravel, rock, soil, sand and similar, whether processed or not, that has never been used in connection with any structure, road, parking lot, or similar use.

(2) Engineered fill activities which have local permits as required, and are carried out in conjunction with a construction project (e.g., building and other construction, bridge and roadway work, development of pathways or riding trails, etc), and which use uncontaminated concrete and/or fully cured asphalt which has been reduced in particle size to 2″ or less as part of a recycling activity and concludes within two years from commencement.

(3) Inert debris engineered fill activities which conclude within one year of commencement and that meet all requirements of section 17388.3 of this Article, except subsections (b) inspections, (c) Plan, (d) State Minimum Standards, (g) final cover, (h) scales and submittal of EA Notification.

(4) Removal and disposal of landslide debris containing no C&D waste by Federal, State and local government public works agencies and their contractors, provided that the material removed from such sites is disposed in accordance with applicable law.

(5) Removal and disposal of sediment which has accumulated within irrigation or flood control facilities and which contains no solid waste, by Federal, State and local government public works agencies and their contractors, provided that the material removed from such sites is disposed or otherwise handled in accordance with applicable law.

(6) The use of fully cured asphalt, uncontaminated concrete (including steel reinforcing rods embedded in the concrete), crushed glass, brick, ceramics, clay and clay products, which may be mixed with rock and soil, in connection with road building, road repair, airport runway construction, bridge and roadway work, levee work, flood control work, and all associated activities by Federal, State and local government public works agencies and their contractors.

(7) Existing C&D waste or inert debris disposal sites from which all waste and debris have been removed (clean closure) within one year after February 24, 2004, provided that the material removed from such sites is disposed in accordance with applicable law. The board may extend the time for clean closure by up to one year upon the applicant's showing of good cause for such extension.

(b) Nothing in this section precludes the EA or the board from inspecting an excluded activity to verify that the activity is being conducted in a manner that qualifies as an excluded activity, or from taking any appropriate enforcement action, including the use of a Notice and Order.

The burden of proof shall be on the owner or operator to demonstrate that the activity is excluded pursuant to this section.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

§ 17388.3. Inert Debris Engineered Fill Operations.

Inert debris engineered fill operations shall submit EA Notifications, as set forth in CCR, Title 14, Section 18100 et seq. and shall comply with all applicable RWQCB waste discharge requirements.

(a) Each operator of an inert debris engineered fill operation shall submit a copy of its waste discharge requirements or a letter of exemption from the applicable RWQCB to the EA together with its notification of intent to operate.

(b) Inert debris engineered fill operations shall be inspected as necessary by the EA to verify compliance with State Minimum Standards. Inspections shall be conducted quarterly, unless the EA determines a lesser frequency is sufficient, but in no case shall the inspection frequency be less than annual.

(c) Each operator of an inert debris engineered fill operation shall file an "Operation Plan" (as specified in this Article, Section 17390) with the EA together with its notification of intent to operate. The information contained in the Plan shall be reviewed by the EA to determine whether it is complete and correct as defined in CCR, Title 14, Section 18101.

(d) All inert debris engineered fill operations shall comply with the State Minimum Standards set forth in Title 27 CCR, Division 2, Chapter 3.0, Subchapter 4, Article 1 (Operating Criteria), and Article 3 (Handling, Equipment and Maintenance), and Article 4 (Controls) (except sections 20515, 20640, 20880, and 20890).

(e) By March 1 of each year, the operator shall report to the EA and the board the total amount of inert debris deposited during the previous year. However, the operator is not subject to the disposal reporting record requirements of Title 14 CCR, Division 7, Chapter 9, Article 9.2 or the disposal fee specified in Public Resources Code Section 48000 and Revenue and Taxation Code Section 45151.

(f) All inert debris engineered fill operations, upon completion or cessation of fill activities for more than one year and upon any transfer of any part of the land subject to the operation prior to completion of fill activities, shall comply with the requirements in Title 27, subsections 21170(a)(1,2 and, if applicable, 3).

(g) Upon the final placement of waste at the site, the operator shall cover the site of fill with three feet of compacted soil above the fill area or with other final cover as determined by the EA. The EA may determine, on the basis of substantial evidence, that a lesser amount of final cover or no final cover is needed, based on potential impacts to the public health, safety and the environment.

(h) If an inert debris engineered fill operation exceeds any combination of the following requirements three (3) or more times within any two (2) year period which the EA determines constitutes a violation of this Article, the facility no longer qualifies for an EA Notification under this section. Upon the third such violation, the EA shall notify the operator in writing that the facility no longer qualifies for an EA Notification, and the operator must within 30 days apply for a Full Permit as if it were a CDI Waste Disposal Facility pursuant to Section 17388.5. In addition, the EA shall issue a cease and desist order pursuant to Section 18304 directing, among other things, that the operator immediately cease accepting material at the site until the operator has demonstrated to the EA that it has corrected the violation and eliminated the cause of the violation. Notwithstanding, the EA may at any time take any additional enforcement action the EA deems appropriate.

The requirements to which this subdivision applies are:

1. Disposal of any wastes not authorized by subsection 17388(*l*);

2. Failure to comply with the requirements for certification by an engineer specified in subsection 17388(l);

3. Failure to comply with requirements for operator certification of materials disposed in the fill as required in subsection 17388(*l*).

(i) Inert debris engineered fill operations are not required to meet the notification requirements of this Article if the operation is occurring at a disposal facility that has a full solid waste facilities permit and the permit authorizes the activity either through a specific condition in the permit or as described and approved in the Report of Disposal Site Information.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).
3. Amendment of first paragraph and subsections (b), (c), (e) and (f) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 17388.4. Inert Debris Type A Disposal Facilities.

Inert debris Type A disposal facilities shall obtain Registration Permits and shall comply with the Registration Permit requirements as set forth in CCR, Title 14, Division 7, Chapter 5.0, Article 3.0 (commencing at Section 18100), with the following requirements set out in CCR, Title 27, Division 2, Chapter 4, Subchapter 3, Article 2 (commencing at Section 21570) in the same manner as if they were municipal solid waste landfills, CCR, Title 14, Division 7, Chapter 9, and with all RWQCB waste discharge requirements.

(a) Each operator of an inert debris Type A disposal facility shall submit a copy of its waste discharge requirements or a letter of exemption from the applicable RWQCB to the EA together with its application for a Registration Permit.

(b) Inert debris Type A disposal facilities shall be inspected monthly by the EA in accordance with Public Resources Code Section 43218.

(c) Each operator shall file with the EA, together with its application for a solid waste facilities permit, a Disposal Facility Plan (as more fully described in CCR, Title 14, Division 7, Chapter 5, Article 3.2, Section 18223.6).

(d) Each operator must comply with the closure and postclosure maintenance requirements of Title 27, CCR, Division 2, Subchapter 5, Article 2 (commencing with Section 21099).

(e) Each operator must comply with the financial assurance requirements for closure and postclosure maintenance, operating liability and corrective action set forth in Title 27 CCR, Division 2, Chapter 6 (commencing at Section 22200).

(f) The EA shall comply with the Enforcement Agency Requirements of Title 27 CCR, Division 2, Chapter 4, Subchapter 3, Article 3, commencing with Section 21650.

(g) Inert debris Type A disposal facilities shall maintain disposal reporting records and comply with the requirements set forth in Title 14 CCR, Division 7, Chapter 9, Article 9.2 (Disposal Reporting System), commencing at Section 18800.

(h) Inert debris Type A disposal facilities shall comply with the State Minimum Standards set forth in Title 27 CCR, Division 2, Chapter 3.0, Subchapter 4, Articles 1 (Operating Criteria), Article 3 (Handling, Equipment and Maintenance), and Article 4 (Controls) (except Sections 20880 and 20890).

(i) Each operator shall determine the weight of all material received at the facility for disposal and shall maintain records of the weight of materials as required herein. Until February 24, 2005, weight of material shall be determined by a conversion factor authorized by the EA for each waste type received. After that date, weight shall be determined by the use of scales, which may be located at the operation or off–site. Notwithstanding, operations in a rural city or a rural county, as defined in Public Resources Code Sections 40183 and 40184, and operations that will cease activities within three years from February 24, 2004, as reflected in their Operation Plan may determine the weight of materials received by use of conversion factors authorized by the EA for each waste type or combination thereof received. Evidence of the accuracy of the conversion factors shall be provided to the EA annually.

(j) If an inert debris Type A disposal facility accepts for disposal any waste not authorized by, or pursuant to, Subsection 17388(k)(1) three (3) or more times within any two (2) year period which the EA determines constitutes a violation of this Article, the facility no longer qualifies for a Registration Permit under this Section. Upon the third such violation, the EA shall notify the operator in writing that the facility no longer qualifies for a Registration Permit, and the operator must within 30 days apply for a Full Solid Waste Facilities Permit as if it were a CDI Waste Disposal Facility pursuant to Section 17388.5. In addition, the EA shall issue a cease and desist order pursuant to Section 18304 directing, among other things, that the operator immediately cease accepting material at the site until the operator has demonstrated to the EA that it has corrected the violation and eliminated the cause of the violation. Notwithstanding, the EA may at any time take any additional enforcement action the EA deems appropriate.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).
3. Amendment filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 17388.5. CDI Waste Disposal Facilities.

CDI waste disposal facilities shall obtain full solid waste facilities permits and shall comply with all requirements promulgated by the board as set forth in CCR, Title 27, Division 2 in the same manner as if they were municipal solid waste landfill units.

(a) CDI waste disposal facilities shall maintain disposal reporting records and shall comply with the requirements set forth in Title 14 CCR, Division 7, Chapter 9, Article 9.2 (Disposal Reporting System), commencing at Section 18800.

(b) Each operator shall determine the weight of all material received at the facility for disposal and shall maintain records of the weight of materials as required herein. Until February 24, 2005, weight of material shall be determined by a conversion factor authorized by the EA for each waste type received. After that date, weight shall be determined by the use of scales, which may be located at the operation or off–site. Notwithstanding, operations in a rural city or a rural county, as defined in Public Resources Code Sections 40183 and 40184, and operations that will cease activities within three years from February 24, 2004, as reflected in their Operation Plan may determine the weight of materials received by use of conversion factors authorized by the EA for each waste type or combination thereof received. Evidence of the accuracy of the conversion factors shall be provided to the EA annually.

2. Editorial correction of HISTORY 1 (Register 2004, No. 2).
3. Amendment of subsections (a) and (b) and repealer of subsection (c) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 17388.6. Public Hearing.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).
3. Repealer filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 17389. Record Keeping Requirements for Operations.

All operations shall meet the following requirements:

(a) All records required by this Article shall be maintained in a single accessible location for at least three (3) years and shall be available for inspection by authorized representatives of the board, EA, local health agency, and other duly authorized regulatory and enforcement agencies during normal working hours.

(b) The operator shall maintain a daily log book or file describing special occurrences and methods used to resolve problems arising from these events, including details of all incidents requiring the implementation of emergency procedures. Special occurrences shall include, but are not limited to: receipt or rejection of prohibited wastes, fires, accidents, injury and property damage, flooding, earthquake damage and other unusual occurrences. The operator shall notify the EA by telephone within 24 hours of all incidents requiring the implementation of emergency procedures, unless the EA determines that a less immediate form of notification will be sufficient to protect public health and safety and the environment.

(c) The operator shall document any written and oral complaints received from the public, including the nature of the complaint, the date the complaint was received, the name, address, and telephone number of the person or persons making the complaint (if available), and any actions taken to respond to the complaint.

(d) The operator shall maintain an operating record which shall include, among other things, records of incoming weights or volumes and outgoing salvage or residual weights or volumes shall be kept in a form or manner approved by the EA. Such records shall be adequate for overall planning and control purposes, and be as current and accurate as practicable. These records shall be provided to the EA or the board upon request.

(e) The operator shall record the number of load checks performed and loads rejected.

(f) The operator shall maintain a copy of the written notice to the EA and local health agency specifying the names, addresses, and telephone numbers of the operator or other persons responsible for the operation.

(g) The operator shall maintain records of employee training.

(h) If gas monitoring is conducted at the operation, the operator shall maintain records of all gas monitoring as available and as required.

(i) If water monitoring is conducted at the operation, the operator shall maintain records of all water monitoring as available and appropriate as required.

[Note: Record–keeping requirements for facilities subject to this Article are found at and Title 27, Division 2, Chapter 3, Article 1, section 20510.]

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

§ 17390. Operation Plan.

Each operator of an Inert Debris Engineered Fill Operation, together with its notification of intent to operate filed pursuant to section 17388.3 of this Article, shall file with the EA an Operation Plan. The operator must file amendments as necessary to maintain the accuracy of the Plan. A Plan shall contain the following:

(a) Name(s) of the operator, owner, and the company they represent, if applicable;

(b) Scaled schematic drawing of the buildings and other structures showing layout and general dimensions of the operations area, including but not limited to, unloading, storage, loading, and parking areas;

(c) Descriptive statement of the manner in which activities are to be conducted at the operation;

(d) Days and hours of operation. If the hours of waste receipt differ from the hours of material processing, each schedule may be stated. For facilities with continuous operations, indicate the start of the operating day for the purpose of calculating the amount of waste received per operating day. The operator may also indicate whether or not, and when, other activities such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(e) Total acreage contained within the operating or fill areas;

(f) Design capacity, including the assumptions, methods, and calculations performed to determine the total capacity;

(g) Information indicating the types and daily quantities of waste or debris to be received. If tonnage is determined from records of cubic yardage, include the conversion factor used in the calculation;

(h) Description of methods used by the operation to comply with each State Minimum Standard;

(i) Anticipated volume of quench or process water and the planned method of treatment and disposal of any wastewater;

(j) Description of provisions to handle unusual peak loading;

(k) Description of transfer, recovery and processing equipment, including classification, capacity and the number of units.

(l) Planned method for final placement of the solid waste;

(m) Planned method for the storage and removal of salvaged material.

(n) Resume of management organization that will operate the site.

(o) A description of road building and seasonal tipping pad design.

(p) A description of a program to prevent the acceptance of unapproved materials and hazardous wastes.

(q) A description of the planned method for storage and removal of prohibited wastes.

(r) A general description of the proposed final productive use(s), if any, of the fill area. The description shall specify generally what area(s) within the boundaries of the operation will be capable of supporting a structure upon closure.

(s) The compaction standards for density and design, if any.

(t) A copy of the operator's Injury and Illness Prevention Plan (as applicable under current law).

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

Article 6.0. Transfer/Processing Operations and Facilities Regulatory Requirements

§ 17400. Authority and Scope.

(a) Articles 6.0, 6.1, 6.2, 6.3, and 6.35 set forth permitting requirements and minimum operating standards for operations and facilities that receive, store, handle, recover, transfer, or process solid waste which are subject to the requirements of these Articles. The regulatory tier requirements of sections 17403 through 17403.9 are not applicable to operations and facilities that are subject to regulations elsewhere in this Chapter, including but not limited to, Article 5.6 (commencing at section 17360); and in Chapter 3.1 (commencing with section 17850). Activities placed within the excluded tier in other parts of this Division, may still be subject to these regulatory requirements.

(b) These Articles are adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with section 40000 of the Public Resources Code, as amended. These regulations should be read together with the Act.

(c) These Articles implement those provisions of the Act relating to receipt, storage, handling, recovery, transfer, or processing of solid waste. Nothing in these Articles limits or restricts the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer, nor to limit or restrict cities and counties from promulgating laws which are as strict or stricter than the regulations contained in these Articles. However, no city or county may promulgate laws which are inconsistent with the provisions of these Articles.

(d) No provision in these Articles shall be construed as relieving any owner, operator, or designee from obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, or reports, or other requirements of other regulatory or enforcement agencies, including but not limited to, local heath agencies, regional water quality control boards, Department of Toxic Substances Control, California Department of Industrial Relations, Division of Occupational Safety and Health, air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

(e) No provision in these Articles is intended to require the owner or operator of an operation to comply with the Enforcement Agency Notification requirements, or the owner or operator of a facility to obtain a tiered permit in accordance with Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2.0, 3.0 and 3.1 of the California Code of Regulations (commencing with section 21570) et seq. and Title 14, Division 7, Chapter 5.0, Article 3.0, (commencing with section 18100); if that owner or operator already has a valid full solid waste facility permit and, that permit authorizes the transfer/processing operation or facility.

(f) Notwithstanding subsection (a) of this section, if a Chipping and Grinding Operation or Facility, as defined in section 17852(k) of this Division, handles material that fails to meet the definition of green material due to contamination as set forth in section 17852(u) of this Division, the operation or facility:

(1) shall be subject to these regulatory requirements,

(2) shall not be considered to be a recycling center as set forth in subsections (c) or (d) of section 17402.5, and

(3) shall not qualify as an excluded operation as set forth in section 17403.1.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. Renumbering of old article 6 heading to new article 6.4, new article 6.0 (sections 17400–17405.0) and section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of article heading, section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).
3. Amendment of subsection (a) filed 8–13–2001 as an emergency; operative 2–11–2002 (Register 2001, No. 33). A Certificate of Compliance must be transmitted to OAL by 7–11–2002 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (a) refiled 6–13–2002 as an emergency; operative 6–13–2002 (Register 2002, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2002 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 6–13–2002 order, including further amendment of subsection (a) and new subsections (f)–(f)(3), transmitted to OAL 8–22–2002 and filed 9–30–2002 (Register 2002, No. 40).

§ 17401. Applicability of Standards.

HISTORY

1. Repealer filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).

§ 17402. Definitions.

(a) For the purposes of these Articles:

(1) "Contact Water" means water that has come in contact with waste and may include leachate.

(2) "Covered Container" means a container that is covered to prevent the migration of litter from the container, excessive infiltration of precipitation, odor and leachate production, and to prevent access by animals and people; thereby controlling litter, scavenging, and illegal dumping of prohibited wastes. Covers may include, but are not limited to, tarpaulins or similar materials.

(3) "Direct Transfer Facility" means a transfer facility that receives equal to or more than 60 cubic yards or 15 tons (whichever is greater) of solid waste per operating day but less than 150 tons of solid waste and meets all of the following requirements:

(A) is located on the premises of a duly licensed solid waste hauling operator;

(B) only handles solid waste that has been placed within covered containers or vehicles prior to entering the facility and that is transported in vehicles owned or leased by that same operator;

(C) the facility does not handle, separate, or otherwise process the solid waste;

(D) no waste is stored at the facility for more than any 8–hour period;

(E) solid waste is transferred only once and directly from one covered container or vehicle to another covered container or vehicle so that the waste is never put on the ground or outside the confines of a container or vehicle, before, during, or after transfer. Direct transfer would not include top loading trailers where the solid waste actually leaves the con-

fines of the collection vehicle and is suspended in air before falling into a transfer vehicle;

(F) all of the contents of the original transferring container or vehicle must be emptied during a single transfer; and

(G) any waste that may unintentionally fall outside of the containers or vehicles, is promptly cleaned up and replaced within the container or vehicle to which it was being transferred.

(4) "DTSC" means Department of Toxic Substances Control.

(5) "EA" means enforcement agency as defined in PRC section 40130.

(6) "Emergency Transfer/Processing Operation" means an operation that is established because there has been a proclamation of a state of emergency or local emergency, as provided in Title 14, Division 7, Chapter 3, Article 3, sections 17210.1 (j) and (k) and which meets all of the following requirements:

(A) the operation handles only disaster debris and other wastes, in accordance with section 17210.1(d), during the disaster debris recovery phase; and

(B) the location does not currently have a solid waste facility permit;

(C) if the operation accepts, processes, or stores hazardous or household hazardous waste, then these activities must be in compliance with DTSC standards or standards of other appropriate authorities or agencies.

(7) "Hazardous Wastes" means any waste which meets the definitions set forth in Title 22, section 66261.3, et seq. and is required to be managed.

(8) "Large Volume Transfer/Processing Facility" means a facility that receives 100 tons or more of solid waste per operating day for the purpose of storing, handling or processing the waste prior to transferring the waste to another solid waste operation or facility.

(A) In determining the tonnage of solid waste received by the facility, the following materials shall not be included: materials received by a recycling center located within the facility, and by beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a defined physical barrier or where the activities are otherwise separated in a manner approved by the EA.

(B) If the facility does not weigh the solid waste received, then the tonnage shall be determined by using a volumetric conversion factor where one cubic yard is equal to 500 pounds. The EA shall approve an alternate conversion factor if the operator demonstrates that it is more accurate than the required conversion factor.

(9) "Limited Volume Transfer Operation" means an operation that receives less than 60 cubic yards, or 15 tons of solid waste per operating day for the purpose of storing the waste prior to transferring the waste to another solid waste operation or facility and which does not conduct processing activities, but may conduct limited salvaging activities and volume reduction by the operator.

(A) In determining the tonnage of solid waste received by the operation, the following materials shall not be included: materials received by a recycling center located within the operation, and by beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a defined physical barrier or where the activities are otherwise separated in a manner approved by the EA.

(B) If the operation does not weigh the solid waste received, then the tonnage shall be determined by using a volumetric conversion factor where one cubic yard is equal to 500 pounds. The EA shall approve an alternate conversion factor if the operator demonstrates that it is more accurate than the required conversion factor.

(10) "Litter" means all solid waste which has been improperly discarded or which has migrated by wind or equipment away from the operations area. Litter includes, but is not limited to, convenience food, beverage, and other product packages or containers constructed of steel, aluminum, glass, paper, plastic, and other natural and synthetic materials, thrown or deposited on the lands and waters of the state.

(11) "Medium Volume Transfer/Processing Facility" means a facility that receives equal to or more than 60 cubic yards or 15 tons (whichever is greater) of solid waste per operating day but less than 100 tons of solid waste, for the purpose of storing or handling the waste prior to transferring the waste to another solid waste operation or facility; or a facility that receives any amount of solid waste, up to 100 tons per operating day, for the purpose of processing solid waste prior to transferring the waste to another solid waste operation or facility.

(A) In determining the tonnage of solid waste received by the facility, the following materials shall not be included: materials received by a recycling center located within the facility, and by beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a defined physical barrier or where the activities are otherwise separated in a manner approved by the EA.

(B) If the facility does not weigh the solid waste received, then the tonnage shall be determined by using a volumetric conversion factor where one cubic yard is equal to 500 pounds. The EA shall approve an alternate conversion factor if the operator demonstrates that it is more accurate than the required conversion factor.

(12) "Nuisance" includes anything which:

(A) is injurious to human health or is indecent or offensive to the senses and interferes with the comfortable enjoyment of life or property, and

(B) affects at the same time an entire community, neighborhood or any considerable number of persons. The extent of annoyance or damage inflicted upon an individual may be unequal.

(13) "On–site" means located within the boundary of the operation or facility.

(14) "Open burning" means the combustion of solid waste without:

(A) control of combustion air to maintain adequate temperature for efficient combustion,

(B) containment of the combustion reaction in an enclosed device to provide sufficient residence time and mixing for complete combustion, and

(C) control of the emission of the combustion products.

(15) "Operating day" means the hours of operation as set forth in the application, Enforcement Agency Notification and/or permit not exceeding 24 hours.

(16) "Operating Record" means an easily accessible collection of records of an operation's or facility's activities and compliance with required state minimum standards under Title 14. The Record may include the Facility Plan or Transfer/Processing Report for facilities, and shall contain but is not limited to containing: agency approvals, tonnage and loadchecking records, facility contacts and training history. The record may be reviewed by state and local authorities and shall be available during normal business hours. If records are too voluminous to place in the main operating record or if the integrity of the records could be compromised by on–site storage, such as exposure to weather, they may be maintained at an alternative site, as long as that site is easily accessible to the EA.

(17) "Operations Area" means:

(A) the following areas within the boundary of an operation or facility as described in the permit application or Enforcement Agency Notification:

(i) equipment management area, including cleaning, maintenance, and storage areas; and

(ii) material and/or solid waste management area, including unloading, handling, transfer, processing, and storage areas.

(B) the boundary of the operations area is the same as the permitted boundary but may or may not be the same as the property boundary.

(18) "Operator" means the owner, or other person who through a lease, franchise agreement or other arrangement with the owner, that is listed in the permit application or Enforcement Agency Notification, is legally responsible for all of the following:

(A) complying with regulatory requirements set forth in these Articles;

(B) complying with all applicable federal, state and local requirements;

[The next page is 739.]

(C) the design, construction, and physical operation of the operations area;

(D) controlling the activities at an operation or facility as listed on the permit application or Enforcement Agency Notification.

(19) "Owner" means the person or persons who own, in whole or in part, an operation or facility, and/or the land on which it is located.

(20) "Processing" means the controlled separation, recovery, volume reduction, conversion, or recycling of solid waste including, but not limited to, organized, manual, automated, or mechanical sorting, the use of vehicles for spreading of waste for the purpose of recovery, and/or includes the use of conveyor belts, sorting lines or volume reduction equipment. Recycling Center is more specifically defined in section 17402.5 (d) of this Article.

(21) "Putrescible Wastes" include wastes that are capable of being decomposed by micro–organisms with sufficient rapidity as to cause nuisances because of odors, vectors, gases or other offensive conditions, and include materials such as, but not limited to food wastes, offal and dead animals. The EA shall determine on a case–by–case basis whether or not a site is handling putrescible wastes.

(22) "Regulated Hazardous Waste" means a hazardous waste, as defined in section 66260.10 of Division 4.5 of Title 22.

(23) "RWQCB" means the Regional Water Quality Control Board.

(24) "Salvaging" means the controlled separation of solid waste material which do not require further processing, for reuse or recycling prior to transfer activities.

(25) "Scavenging" means the uncontrolled and/or unauthorized removal of solid waste materials.

(26) "Sealed Container Transfer Operation" means a transfer operation that meets the following requirements:

(A) handles only solid waste that has previously been placed within containers that have either a latched, hard top or other impermeable cover which is closed tightly enough to:

(1) prevent liquid from infiltrating into or leaking out of the container; and

(2) prevent the propagation and migration of vectors; and,

(i) the solid waste remains within the unopened containers at all times while on–site; and,

(ii) the containers are not stored on–site for more than 96 hours. Sealed container transfer operations do not include operations excluded by Public Resources Code section 40200(b)(3).

(27) "Special Waste" includes but is not limited to:

(A) waste requiring special collection, treatment, handling, storage, or transfer techniques as defined in Title 22, section 66260.10.

(B) waste tires and appliances requiring CFC removal.

(28) "Spotter" means an employee who conducts activities that include, but are not limited to, traffic control, hazardous waste recognition and removal for proper handling, storage and transport or disposal, and protection of the public from health and/or safety hazards.

(29) "Store" means to stockpile or accumulate for later use.

(30) "Transfer/Processing Facility" or "Facility" includes:

(A) those activities governed by the Registration Permit tier or Full Solid Waste Facility Permit requirements (as specified in sections 17403.6 and 17403.7); and,

(B) which:

1. receive, handle, separate, convert or otherwise process materials in solid waste; and/or

2. transfer solid waste directly from one container to another or from one vehicle to another for transport; and/or

3. store solid waste;

(C) The receipt of separated for reuse material pursuant to Public Resources Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, located within a solid waste facility does not constitute solid waste handling, or processing, if there is a defined physical barrier to separate recycling activities defined in Public Resources Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, from the solid waste activities, or where the recycling and solid waste activities are considered by the EA as separate operations.

(D) "Transfer/Processing Facilities" do not include activities specifically defined in section 17402.5(c) of this Article, and operations and facilities that are subject to regulations in Chapter 3.1 (commencing with section 17850).

(31) "Transfer/Processing Operation" or "Operation" includes:

(A) those activities governed by the EA Notification tier requirements; and,

(B) which:

1. receive, handle, separate, convert or otherwise process materials in solid waste; and/or

2. transfer solid waste directly from one container to another or from one vehicle to another for transport; and/or

3. store solid waste;

(C) The receipt of separated for reuse material pursuant to Public Resources Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, located within a solid waste operation does not constitute solid waste handling, or processing, if there is a defined physical barrier to separate recycling activities defined in Public Resources Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, from the solid waste activities, or where the recycling and solid waste activities are considered by the EA as separate operations.

(D) "Transfer/Processing Operations" do not include activities specifically defined in section 17402.5(c) of this Article, and operations and facilities that are subject to regulations in Chapter 3.1 (commencing with section 17850).

(32) "Volume Reduction" means techniques such as: compaction, shredding, and baling.

(33) "Waste Hauling Yard Operation" is an operation that meets the following requirements:

(A) is located on the premises of a duly licensed solid waste hauling operator, who receives, stores, or transfers waste as an activity incidental to the conduct of a refuse collection and disposal business, and;

(B) handles only solid waste that has been placed within a covered container before the container arrives at the waste hauling yard, and;

(C) no more than 90 cubic yards of waste is stored on–site in covered containers at any time, and;

(D) the solid waste remains within the original covered containers while on–site at any times, and;

(E) the covered containers are not stored on–site for more than any 72 hour period;

(F) if the EA has information that the operation does not meet these requirements, the burden of proof shall be on the owner or operator to demonstrate that the requirements are being met.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).
3. Amendment of subsections (a)(30)(D) and (a)(31)(D) filed 8–13–2001 as an emergency; operative 2–11–2002 (Register 2001, No. 33). A Certificate of Compliance must be transmitted to OAL by 7–11–2002 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsections (a)(30)(D) and (a)(31)(D) refiled 6–13–2002 as an emergency; operative 6–13–2002 (Register 2002, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2002 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 6–13–2002 order, including amendment of subsection (a)(21), transmitted to OAL 8–22–2002 and filed 9–30–2002 (Register 2002, No. 40).

§ 17402.5. Definitions and Related Provisions Regarding Activities That Are Not Subject to the Transfer/Processing Regulatory Requirements.

(a) This section sets forth definitions and related provisions regarding activities that are not subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(1) Activities that are not in compliance with the applicable definitions and related provisions of this section shall be subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(2) The definitions and related provisions of this section are for use only to determine the applicability of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(b) The following general definitions may apply to one or more of the activities that are more specifically defined in subdivisions (c) and (d) of this section.

(1) "Residual" means the solid waste destined for disposal, further transfer/processing as defined in section 17402(a)(30) or (31) of this Article, or transformation which remains after processing has taken place and is calculated in percent as the weight of residual divided by the total incoming weight of materials.

(2) "Reuse" means the use, in the same, or similar, form as it was produced, of a material which might otherwise be discarded.

(3) "Separated for Reuse" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace, and includes materials that have been "source separated".

(4) "Source Separated" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

(c) Activities included in one of the following definitions are not subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter, provided that these activities do not include the acceptance of solid waste which has not been separated for reuse. If an activity defined in this section is accepting solid waste which has not been separated for reuse, it must meet the requirements of subdivision (d) of this section or else it shall be subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(1) "Auto Dismantler" means a person or business entity engaged in the business of buying, selling, or dealing in vehicles including nonrepairable vehicles, for the purpose of dismantling the vehicles, buying or selling the integral parts and component materials thereof, in whole or in part, or dealing in used motor vehicle parts pursuant to California Vehicle Code, section 220.

(2) "Auto Shredder" or "Metal Shredder" means a person or business entity that accepts scrap metal, typically automobiles and white goods, and mechanically rends that scrap metal into fist sized bits and pieces and separates the ferrous metals, nonferrous metals and other materials for the purpose of recycling.

(3) "Buy Back Center" means a person or business entity engaging in those activities defined in Public Resources Code Sections 14518, or 14520.

(4) "Drop–off Center" means a person or business entity engaging in those activities defined in Public Resources Code Section 14511.7.

(5) "Manufacturer" means a person or business entity that uses new or separated for reuse materials as a raw material in making a finished product that is distinct from those raw materials.

(6) "Regional Produce Distribution Center" means a distribution center that receives unsold produce (sometimes referred to as "pre–consumer") back from stores to which it originally sent the produce, for the purpose of transferring this produce to a compost operation or facility, or to a beneficial use. A regional produce distribution center would not include a site where produce is processed.

(7) "Rendering Plant" means a person or business entity where dead animals or any part or portion thereof, vegetable oils, or packing house refuse, are processed for the purpose of obtaining the hide, skin, grease residue, or any other byproduct whatsoever.

(8) "Reuse Salvage Operation" means a person or business entity which sterilizes, dismantles, rebuilds, or renovates, nonputrescible separated–for–reuse materials, and that recovers for recycling or reuse distinct material types that have not been commingled with other materials before they enter the waste stream. Examples of this activity include, but are not limited to, wire choppers, and dismantlers of furniture and mattresses, and "brown goods" such as computer equipment, VCRs, and televisions.

(9) "Scrap Metal Recyclers and Dealers" means a person or business entity including all employees of the person or business entity, (except automotive recyclers and auto shredders as defined in this section), whose primary business is the purchasing; processing by shredding, shearing, baling, and torching; trading, bartering or otherwise receiving secondhand or castoff metal material which includes ferrous metals, nonferrous metals, aluminum scrap, auto bodies, major appliances and other metals, including containers that are regulated pursuant to Public Resources Code Sections 14511.7, 14518 or 14520.

(10) "Wire Chopper" means a person or business entity which uses source separated metal components or wire for the purpose of recycling or reuse.

(11) "Wood, Paper or Wood Product Manufacturer" means a person or business entity that uses separated for reuse paper or woody materials in order to produce a finished product able to be used as is, or to manufacture another product such as, boxes or boards, without further processing.

(d) A "Recycling Center" means a person or business entity that meets the requirements of this subdivision. A recycling center shall not be subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(1) A recycling center shall only receive material that has been separated for reuse prior to receipt.

(2) The residual amount of solid waste in the separated for reuse material shall be less than 10% of the amount of separated for reuse material received by weight.

(A) The residual amount is calculated by measuring the outgoing tonnage after separated for reuse materials have been removed.

(B) The residual amount is calculated on a monthly basis based on the number of operating days.

(3) The amount of putrescible wastes in the separated for reuse material shall be less than 1% of the amount of separated for reuse material received by weight, and the putrescible wastes in the separated for reuse material shall not cause a nuisance, as determined by the EA.

(A) The amount of putrescible wastes is calculated in percent as the weight of putrescible wastes divided by the total incoming weight of separated for reuse material.

(B) The amount of putrescible wastes is calculated on a monthly basis based on the number of operating days.

(4) The only separation that may occur at the recycling center is the sorting of materials that have been separated for reuse prior to receipt.

(5) The recycling center may include an adjustment in the calculation to include the weight of water in the residual, when the use of water is essential to the sorting or processing of the material, provided that such an adjustment is also made in the weight of materials received for processing.

(6) The following materials shall not be included in calculating residual as set forth in subdivision (d)(2) of this section, if the recycling activities are separated from the material handling activities noted below by a defined physical barrier or where the activities are otherwise separated in a manner that the EA determines will keep the materials from being commingled:

(A) materials received at an on–site Buy Back Center;
(B) materials received at an on–site Drop–off Center;
(C) cannery waste;
(D) construction and demolition materials;
(E) nonhazardous contaminated soil;
(F) grease–trap pumpings;
(G) nonhazardous asbestos;
(H) nonhazardous ash;
(I) compost and compost feedstock;
(J) sewage sludge;
(K) tires.

(7) If the EA has information that material that is being received is not separated for reuse or source separated, that the residual is 10% or more

of the total per month, or that the amount of putrescible wastes is 1% or more of the total per month, the burden of proof shall be on the owner or operator to demonstrate otherwise.

(A) A business that accepts loads of material that are not separated for reuse or source separated does not qualify as a recycling center.

(B) If the EA has reason to believe that a business is accepting material that is not separated for reuse or source separated due to the averaging or combining of those loads with other loads of separated for reuse material, the burden of proof will be on the business to demonstrate that it is not accepting loads of mixed solid waste.

(C) If the EA has reason to believe that a business is accepting material that is not separated for reuse or source separated due to the separation of portions of the material at consecutive sites, each of which removes less than 10% residual, the burden of proof will be on the business to demonstrate that it is not accepting loads of mixed solid waste.

(D) If the EA determines that a business has exhibited a pattern and practice of failing to comply with the provisions of this subsection, the EA may issue a Notice and Order requiring the business to obtain a Registration Permit or Full Permit or comply with the Enforcement Agency Notification requirements as made applicable in sections 17403 through 17403.7 of this Article.

(E) At the time that the EA requires a recycling center to provide evidence that it is in compliance with this subdivision, the EA shall provide the recycling center with a written description of the information that has caused the EA to believe that the recycling center is not in compliance. Nothing in this requirement is intended to require the EA to identify the name or other identifying information regarding any individual(s) who have complained about the recycling center.

(F) Nothing in this section precludes the enforcement agency or the board from the following: inspecting a business to verify that it is conducted in a manner that meets the provisions of this subsection; or, from taking any appropriate enforcement action, including the use of a Notice and Order as provided in Section 18304.

(8) Operations which do not meet the 10% residual percentage in subdivision (d)(2) of this section but which qualify as a Limited Volume Transfer Operation, shall comply with the requirements of section 17403.3 within one month of March 5, 1999.

(9) recycling center operators may voluntarily report their residual percentage to the EA and the CIWMB using form CIWMB 607 (located in Appendix A).

(10) If the EA determines that a person or business entity purporting to operate a recycling center is not in compliance with this subsection and issues an enforcement order, that person or business entity may appeal that order in accordance with Public Resources Code section 44307.

(e) If a Chipping and Grinding Operation or Facility, as defined in section 17852(a)(10) of this Division, handles material that fails to meet the definition of green material due to contamination as set forth in section 17852(a)(21) of this Division, the operation or facility shall not be considered to be a recycling center as set forth in subsections (c) or (d) of section 17402.5.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).
2. Amendment filed 8–13–2001 as an emergency; operative 2–11–2002 (Register 2001, No. 33). A Certificate of Compliance must be transmitted to OAL by 7–11–2002 or emergency language will be repealed by operation of law on the following day.
3. Amendment refiled 6–13–2002 as an emergency; operative 6–13–2002 (Register 2002, No. 24). A Certificate of Compliance must be transmitted to OAL by 10–11–2002 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 6–13–2002 order, including further amendment of section, transmitted to OAL 8–22–2002 and filed 9–30–2002 (Register 2002, No. 40).
5. Change without regulatory effect amending subsection (e) filed 6–29–2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 27).

§ 17403.0. Regulatory Tiers Requirements for Transfer/Processing Operations and Facilities.

Sections 17403.1 through 17403.7 set forth the regulatory tier requirements (Title 14, Division 7, Chapter 5.0, Article 3.0, commencing with section 18100 or Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2, 3 and 3.1 of the California Code of Regulations (commencing with section 21570) that apply to specified types of transfer/processing operations and facilities. These requirements are summarized in Table 1.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section heading, section and NOTE, and new Table 1 filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

Table 1
Transfer/Processing Operations and Facilities
Placement into the Regulatory Tiers

Not Subject to Articles 6.0, 6.1, 6.2, 6.3 and 6.35	*Excluded Tier*	*Enforcement Agency Notification Tier*	*Registration Permit Tier*	*Full Solid Waste Facility Permit*
•Auto Dismantler Section 17402.5(c)(1)	•Locations where <15 cubic yards of combined container volume is provided to serve as multi–residence receptacles for residential refuse at the place of generation. Section 17403.1(a)(1)	•Emergency Transfer/Processing Operations Section 17403.5	•Medium Volume Transfer/Processing Facility Section 17403.6	•Large Volume Transfer/Processing Facility Section 17403.7
•Auto Shredder Operations Section 17402.5(c)(2)		•Sealed Container Transfer Operations Section 17403.2	•Direct Transfer Facility Section 17403.4	
•Buy Back Centers Section 17402.5(c)(3)		•Limited Volume Transfer Operations Section 17403.3		
•Drop–off Centers Section 17402.5(c)(4)	•Locations where <15 cubic yards of combined container volume is handled for recycling. Section 17403.1(a)(2)			
•Manufacturers Section 17402.5(c)(5)				
•Recycling Centers Section 17402.5(d)	•Storage receptacle at the place of generation for waste from multi–residential buildings or for commercial solid wastes Section 17403.1(a)(3)			
•Rendering Plants Section 17402.5(c)(6)				
•Reuse Salvage Operations (includes furniture and mattress dismantlers and demanufacturers) Section 17402.5(c)(7)	•Containers used to store construction or demolition wastes at the place of generation. Section 17403(a)(4)			
•Scrap Metal Recyclers and Dealers Section 17402.5(c)(8)	•Containers used to store salvaged materials. Section 17403.1(a)(5)			
•Wire Choppers Section 17402.5(c)(9)				
•Wood, Paper, or Wood Product Manufacturer Section 17402.5(c)(10)	•Waste Hauling Yard Operations. Section 17403.1(a)(6)			
	•Storage of Other Wastes. Section 17403(1)(a)(7)			

Note: There are no operations or facilities placed within the Standardized tier.

§ 17403.1. Excluded Operations.

(a) The following operations do not constitute transfer operations or facilities for the purposes of these Articles and are not required to meet the requirements set forth herein:

(1) Locations where 15 cubic yards or less of combined container volume is provided to serve as multi–residence receptacles for residential refuse and are located at the place of generation; or

(2) Locations where 15 cubic yards or less of combined container volume of separated for reuse material is handled for recycling; or

(3) Storage receptacles at the place of generation for waste from multi–residential buildings or for commercial solid wastes at the place of generation; or

(4) Containers used to store construction or demolition wastes at the place of generation; or

(5) Containers used to store salvaged materials; or

(6) Waste Hauling Yard Operations; or

(7) Storage and handling of any of the following wastes:

(A) Municipal solid waste removed from seagoing vessels that is quarantined in accordance with 7 Code of Federal Regulations section 330.400 and 9 Code of Federal Regulations section 94.5;

(B) Controlled substances confiscated by law enforcement agencies, including, but not limited to seized narcotics and other contraband;

(C) Agricultural wastes with possible pest contamination;

(D) Dead animals with possible infectious diseases;

(E) U.S. Currency which must be destroyed; or

(F) Confidential records destruction, including microfiche, and microfilm;

(G) As determined by the EA, other discrete waste streams that are already subject to stricter handling requirements under Federal or State law.

(b) Nothing in this section precludes the EA from inspecting an excluded operation to verify that the operation is being conducted in a manner that qualifies it as an excluded operation or from taking any appropriate enforcement action. The burden of proof shall be on the owner or operator to demonstrate that the operations are excluded pursuant to this section.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.2. Sealed Containers Transfer Operations.

All sealed container transfer operations subject to this Article shall comply with the Enforcement Agency Notification requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of California Code of Regulations (commencing with section 18100). These operations shall be inspected by the EA, as necessary to verify compliance with minimum standards. Inspections shall be conducted quarterly, unless the EA deter-

mines a lesser frequency is necessary, but in no case shall the frequency be less than annual. The operator shall specify the operation's boundary area in the operating record.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.3. Limited Volume Transfer Operations.

All limited volume transfer operations subject to this Article shall comply with the Enforcement Agency Notification requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing with section 18100). These operations shall be inspected by EA as necessary to verify compliance with minimum standards. Inspections shall be conducted quarterly, unless the EA determines a lesser frequency is necessary, but in no case shall the frequency be less than annual. The operator shall specify the operation's boundary area in the operating record.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.4. Direct Transfer Facility.

All direct transfer facilities subject to this Article shall comply with the Registration Permit requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing with section 18104). These facilities shall be inspected monthly by the EA in accordance with PRC section 43218.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.5. Emergency Transfer/Processing Operations.

(a) All emergency transfer/processing operations shall comply with the Enforcement Agency Notification requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing with section 18100). These operations shall be inspected by the EA as necessary to verify compliance with minimum standards, but in no case shall the frequency be less than monthly. The operator shall specify the operation's boundary area in the operating record.

(b) In addition, the emergency transfer/processing operations shall meet the following requirements:

(1) the land owner has certified his/her knowledge of the proposed activity and agrees to ensure proper termination, and;

(2) The operation shall not exist for a period of time greater than 120 days from the date that the Enforcement Agency Notification is received by the EA. Upon receipt of the reports required by section 17210.5, the operation may continue for an additional period as specified by the EA to assist in the recovery and clean–up as necessary from a state or local emergency.

(c) The emergency transfer/processing operation shall cease operation should the EA determine that any of the following occurs:

(1) the emergency transfer/processing operation is not being used exclusively to handle the state or local emergency;

(2) the emergency transfer/processing operation is no longer necessary in accordance with section 17210.2 of this Division;

(3) the use of the emergency transfer/processing operation will cause or contribute to a public health and safety or environmental problem;

(4) the operator is not utilizing disaster debris diversion programs to the extent feasible.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.6. Medium Volume Transfer/Processing Facilities.

All medium volume transfer/processing facilities subject to this Article shall comply with the Registration Permit requirements set forth in Title 14, Division 7, Chapter 5.0, Article 3.0 of the California Code of Regulations (commencing with section 18104). These facilities shall be inspected monthly by the EA in accordance with PRC section 43218.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.7. Large Volume Transfer/Processing Facilities.

All large volume transfer/processing facilities subject to Articles 6.0 through 6.35 shall obtain a Full Solid Waste Facilities Permit, in accordance with the procedures set forth in Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2, 3, and 3.1 of the California Code of Regulations (commencing with section 21570). The Transfer/Processing Report required by section 18221.6 shall constitute the Report of Facility Information required by section 21570(f)(2) of Title 27. These facilities shall be inspected monthly by the EA in accordance with PRC section 43218.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.8. Facility Plan.

Each operator of a Medium Volume Transfer/Processing Facility, as defined in section 17402(a)(11), or a Direct Transfer Facility, as defined in section 17402(a)(3), shall file with the EA a "Facility Plan" or "Plan" (as specified in section 18221.5). The information contained in the Plan shall be reviewed by the EA to determine whether it is complete and correct as defined in Title 14, Division 7, Chapter 5.0, Article 3.0, section 18101.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17403.9. Transfer/Processing Report.

(a) Each operator of a Large Volume Transfer/Processing facility, as defined in section 17402(a)(8), shall file with the EA a "Transfer/Processing Report" or "Report" (as specified in section 18221.6). The Transfer/Processing Report will be used in place of the Report of Station Information (RSI) after March 5, 1999. Any operator of an existing facility who submits an application package to the EA, pursuant to Title 27, section 21570, which proposes to change the facility's operations, or to change the solid waste facility permit shall do one of the following:

(1) submit the updated information as an amendment to the existing RSI or in the form of the Transfer/Processing Report; or

(2) submit a complete Transfer/Processing Report as described in section 18221.6.

(b) After March 5, 1999, any operator of a new facility that submits an application package to the EA pursuant to Title 27, section 21570, shall submit a complete Transfer/Processing Report pursuant to section 18221.6.

(c) These requirements do not apply to those facilities which have filed an RSI and an application for a solid waste facility permit prior to March 5, 1999. In the event the EA determines the application package for the RSI first submitted prior to March 5, 1999, to be incomplete, additional information requested shall be submitted as part of the RSI and/or application for a solid waste facility permit, as appropriate.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17405.0. Applicability of State Minimum Standards.

(a) Articles 6.0, 6.1, 6.2, and 6.3 of this Chapter set forth the minimum standards that apply to all transfer/processing operations and facilities, direct transfer facilities, sealed container operations, limited volume transfer operations, and emergency transfer/operations, except as noted in Section 17400(a).

(b) Article 6.35 of this Chapter sets forth additional minimum standards that will apply only to transfer/processing facilities.

(c) Approvals, determinations and other requirements that the EA is authorized to make in Articles 6.0, 6.2, 6.3, and 6.35 shall be provided in writing by the EA to the operator. The operator shall place a copy of these approvals in addition to those records identified in sections 17414 and 17414.1 in the operating record.

(d) Some of the standards contained in Articles 6.0, 6.1, 6.2, 6.3, and 6.35 of this Chapter allow the EA to approve an alternative method of compliance with the standard. These provisions are not intended to allow the EA to change the particular standard, but are intended to allow the EA flexibility to approve, in advance, an alternative method of meeting the existing standard. For facilities that require a full solid waste facility permit, the EA may choose to include the approved method as a term and condition of the solid waste facility permit, rather than in the manner authorized by subdivision (c) of this section. If the method is included in the solid waste facility permit, a change to the method may require a revision to the solid waste facility permit in accordance with the procedures set forth in Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2, 3, and 3.1 (commencing with section 21570).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

Article 6.1. Siting and Design

§ 17406.1. Siting on Landfills.

(a) Operations and facilities or portions thereof, located atop fully or partially closed solid waste landfills shall meet postclosure land use requirements pursuant to Title 27, California Code of Regulations, section 21190.

(b) Operations and facilities or portions thereof, located on intermediate cover on a solid waste landfill shall locate operations areas on foundation substrate that is stabilized, either by natural or mechanical compaction, to minimize differential settlement, ponding, soil liquefaction, or failure of pads or structural foundations.

(c) Operations and facilities or portions thereof, located on intermediate cover on a solid waste landfill shall be operated in a manner not to interfere with the operations of the landfill or with the closure or postclosure maintenance of the landfill.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 6.1 (sections 17406.1–17406.2) and section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17406.2. General Design Requirements.

(a) The design of a new operation or facility shall utilize expert advice, as appropriate, from persons competent in engineering, architecture, landscape design, traffic engineering, air quality control, and design of structures.

(b) The design shall be based on appropriate data regarding the expected service area, anticipated nature and quantity of wastes to be received, climatological factors, physical settings, adjacent land use (existing and planned), types and number of vehicles anticipated to enter the operation or facility, adequate off–street parking facilities for transfer vehicles, drainage control, the hours of operation and other pertinent information. If the operation or facility is to be used by the general public, the design shall take account of safety features that may be needed to accommodate such public use.

(c) The operation or facility shall be designed in such a manner as to restrict the unloading area to as small an area as practicable, provide adequate control of windblown material, minimize the propagation or attraction of flies, rodents or other vectors and the creation of nuisances by reason of solid wastes being handled at the operation. Other factors which shall be taken into consideration are: dust control, noise control, public safety, and other pertinent matters related to the protection of public health at the operation or facility.

(d) In reviewing the design of a proposed operation or facility, the EA may require the applicant to describe how he or she has complied with applicable local and state requirements regarding odor control measures, personnel health and safety, and sanitary facilities.

(e) Solid waste storage containers shall be durable, easily cleanable, designed for safe handling, and constructed to prevent loss of wastes from the container during storage. If such a container is used to store garbage, other wet or liquid producing wastes, or wastes composed of fine particles, such container shall in all cases be nonabsorbent and leak–resistant. Unloading areas shall be easily cleanable, designed for safe handling and constructed to prevent loss of wastes.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

Article 6.2. Operating Standards

§ 17407.1. Burning Wastes and Open Burning.

(a) If burning wastes are received at an operation or facility, they shall be separated from other wastes and deposited in a safe area, spread, and extinguished. A safe area is defined as being away from unloading, transfer, or processing areas, structures on adjacent properties and other fire hazard areas.

(b) Open burning of solid waste, except for the infrequent burning of agricultural wastes, silvicultural wastes, landclearing debris, diseased trees, or debris from emergency clean–up operations, or any other wastes as approved by local regulatory agencies, approved by the EA, local air district, and local fire department, is prohibited at all operations and facilities.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 6.2 (sections 17407.1–17410.4) and section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section heading, section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17407.2. Cleaning.

(a) Operations, facilities, and their equipment, boxes, bins, pits and other types of containers shall be cleaned using the following schedule, or at a lesser frequency, approved by the EA, in order to prevent the propagation or attraction of flies, rodents, or other vectors:

(1) all operations and facilities shall be cleaned each operating day of all loose materials and litter;

(2) all operations or facilities that operate 24 hours per day must clean the operations or facilities at least once every 24 hours.

(b) The entrance and exit shall be cleaned at a frequency which prevents the tracking or off–site migration of waste materials.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17407.3. Drainage Control.

(a) Drainage at all operations and facilities shall be controlled to:

(1) minimize the creation of contact water;

(2) prevent to the greatest extent possible given existing weather conditions, the uncontrolled off–site migration of contact water;

(3) protect the integrity of roads and structures;

(4) protect the public health; and

(5) prevent safety hazards and interference with operations.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17407.4. Dust Control.

(a) The operator shall take adequate measures to minimize the creation, emission, or accumulation of excessive dust and particulates, and prevent other safety hazards to the public caused by obscured visibility. The operator shall minimize the unnecessary handling of wastes during processing to prevent the creation of excessive dust. Measures to control dust include, but are not limited to: reduced processing, periodic sweeping and cleaning, misting systems or ventilation control. One or more of the following may be an indication that dust is excessive:

(1) safety hazards due to obscured visibility; or

(2) irritation of the eyes; or

(3) hampered breathing;

(4) migration of dust off–site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17407.5. Hazardous, Liquid, and Special Wastes.

(a) An operation or facility shall not intentionally accept or store hazardous wastes, including batteries, oil, paint, and special wastes, unless it has been approved to handle the particular waste by the appropriate regulatory agencies. Such approvals shall be placed in the operating record.

(b) At operations and facilities where unauthorized hazardous wastes are discovered, control measures as are necessary to protect public health, safety and the environment, such as elimination or control of dusts, fumes, mists, vapors or gases shall be taken prior to isolation or removal from the operation or facility,

(c) Liquid wastes and sludges shall not be accepted or stored at an operation or facility unless the operator has written approval to accept such wastes from the appropriate agencies and the EA. The EA shall authorize acceptance of these wastes only if the operation, facility, and the transfer vehicles are properly equipped to handle such wastes in a manner to protect public health, safety, and the environment.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

2. Amendment of section heading, repealer and new section and amendment of NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17407.6. Liquid Wastes.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17408.1. Litter Control.

Litter at operations and facilities shall be controlled, and routinely collected to prevent safety hazards, nuisances or similar problems and off–site migration to the greatest extent possible given existing weather conditions.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17408.2. Medical Wastes.

Medical waste, unless treated and deemed to be solid waste, which is regulated pursuant to the Medical Waste Management Act (commencing with Section 117600 of the Health and Safety Code), shall not be accepted at an operation or facility, unless approved by the appropriate regulatory agency.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17408.3. Noise Control.

Noise shall be controlled to prevent health hazards and to prevent nuisance to nearby residents. Measures to control noise include but are not limited to: posting of warning signs that recommend or require hearing protection; separation by barriers that limit access to authorized personnel only; or, enclosures to reduce noise transmission. Compliance with specific provisions regarding noise control in a local land use approval, such as a conditional use permit or CEQA mitigation measures, shall be considered compliance with this standard.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17408.5. Nuisance Control.

Each operation and facility shall be conducted and maintained to prevent the creation of a nuisance. Compliance with specific provisions regarding nuisance control in a local land use approval, such as a conditional use permit or CEQA mitigation measures, shall be considered compliance with this standard.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

2. Repealer and new section and amendment of NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17408.8. Protection of Users.

An operation or facility shall be designed, constructed, operated, and maintained so that contact between the public and solid wastes is minimized. This may be accomplished through the use of railings, curbs, grates, fences, and/or spotters.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17409.1. Roads.

All on–site roads and driveways shall be designed and maintained to minimize the generation of dust and tracking of soil onto adjacent public roads. Such roads shall be kept in safe condition and maintained to allow vehicles utilizing the operation or facility to have reasonable all–weather access to the site.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17409.2. Sanitary Facilities.

The operator shall maintain all sanitary and hand–washing facilities which may be required, by applicable state or local requirements, in a reasonably clean and adequately supplied condition.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Repealer and new section and amendment of NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17409.3. Scavenging and Salvaging.

Each operation or facility shall meet the following requirements:

(a) scavenging shall be prohibited;

(b) salvaging of materials, such as metal, paper, glass and cardboard is permitted as an integral part of the operation, subject to conditions established by the EA, the local land use authority, or other approving agencies.

(c) salvaging activities shall be conducted in a planned and controlled manner and not interfere with other aspects of site operation. Activities shall be conducted so as not to interfere with expeditious entry and exit of vehicles delivering waste to the transfer or processing operation or facility. Salvaging activities conducted at a transfer/processing operation or facility shall be confined to specified, clearly identified areas of the operation or facility, and controlled to prevent health, safety or nuisance problems;

(d) storage of materials salvaged from solid wastes shall be ancillary to the activities of the operation or facility unless such storage is planned as an integral part of the operation. Materials salvaged on–site shall be stored away from other activity areas in specified, clearly identifiable areas as noted in the Facility Plan or Transfer/Processing Report. They shall be arranged to minimize risk of fire, health and safety hazard, vector harborage, or other hazard or nuisance, and limited to a specified volume and/or duration as described in the Enforcement Agency Notification, Facility Plan, or Transfer/Processing Report.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17409.4. Signs.

(a) For operations or facilities not open to the public, each point of access from a public road shall be posted with an easily visible sign indicating the operation or facility name and location of nearest public operation or facility.

(b) If the operation or facility is open to the public, there shall be an easily visible sign at all public entrances indicating the name of the operator, the operator's telephone number, schedule of charges, hours of operation, and a listing of the general types of materials which either (1) WILL be accepted, or (2) WILL NOT be accepted.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17409.5. Loadchecking.

(a) The operator of an attended operation or facility shall implement a loadchecking program to prevent the acceptance of waste which is prohibited by this Article. This program must include at a minimum:

(1) the number of random loadchecks to be performed;

(2) a location for the storage of prohibited wastes removed during the loadchecking process that is separately secured or isolated;

(3) records of loadchecks and the training of personnel in the recognition, proper handling, and disposition of prohibited waste. A copy of the loadchecking program and copies of the loadchecking records for the last year shall be maintained in the operating record and be available for review by the appropriate regulatory agencies.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17409.6. Parking.

Adequate off–street parking area(s) shall be provided, if necessary, for transfer vehicles. Compliance with specific provisions regarding ade-

quacy of off-street parking in a local land use approval, such as a conditional use permit or CEQA mitigation measures, shall be considered compliance with this standard.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17410.1. Solid Waste Removal.

(a) All solid wastes shall be removed at the following frequencies or at an alternate frequency approved by the EA, in order to prevent the propagation or attraction of flies, rodents or other vectors:

(1) operations shall remove solid wastes accepted at the site within 7 days from the date of receipt;

(2) facilities shall remove solid waste accepted at the site within 48 hours from the time of receipt.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17410.2. Supervision and Personnel.

The operator shall provide adequate supervision and a sufficient number of qualified personnel to ensure proper operation of the site in compliance with all applicable laws, regulations, permit conditions and other requirements. The operator shall notify the EA in writing of the name, address and telephone number of the operator or other person responsible for the operation. A copy of the written notification shall be placed in the operating record.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section heading, section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17410.3. Training.

Personnel assigned to the operation or facility shall be adequately trained in subjects pertinent to site solid waste operations and maintenance, hazardous materials recognition and screening, use of mechanized equipment, environmental controls, emergency procedures and the requirements of this Article. A record of such training history shall be maintained and made available for inspection.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17410.4. Vector, Bird and Animal Control.

The operator shall take adequate steps to control or prevent the propagation, harborage and attraction of flies, rodents, or other vectors, and animals, and to minimize bird attraction.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

Article 6.3. Record Keeping Requirements

§ 17414. Record Keeping Requirements.

Each operator shall meet the following requirements:

(a) each operator shall maintain records of incoming weights or volumes and outgoing salvage or residual weights or volumes in a form and manner approved by the EA. Such records shall be: submitted to the EA or CIWMB upon request; be adequate for overall planning and control purposes; and, be as current and accurate as practicable;

(b) all records required by this Article shall be kept by the operator in one location and accessible for three (3) years and shall be available for inspection by the EA and other duly authorized regulatory agencies during normal working hours.

(c) the operator shall submit copies of specified records to the EA upon request or at a frequency approved by the EA;

(d) the operator shall maintain a daily log book or file of special occurrences encountered during operations and methods used to resolve problems arising from these events, including details of all incidents that required implementing emergency procedures. Special occurrences shall include but are not limited to: fires, injury and property damage, accidents, explosions, receipt or rejection of prohibited wastes, lack of sufficient number of personnel pursuant to section 17410.2, flooding, earthquake damage and other unusual occurrences. In addition, the operator shall notify the EA by telephone within 24 hours of all incidents requiring the implementation of emergency procedures, unless the EA determines that a less immediate form of notification will be sufficient to protect public health and safety and the environment;

(e) the operator shall record any written public complaints received by the operator, including:

(1) the nature of the complaint,

(2) the date the complaint was received,

(3) if available, the name, address, and telephone number of the person or persons making the complaint, and

(4) any actions taken to respond to the complaint;

(f) the operator shall maintain a copy of the written notification to the EA and local health agency of the name, address and telephone number of the operator or other person(s) responsible for the operations as required by section 17410.2;

(g) The operator shall maintain records of employee training as required by section 17410.3;

(h) all transfer/processing operations and facilities shall maintain records as required by section 18809 et seq.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 6.3 (section 17414) and section filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
2. Amendment of section heading, section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17414.1. Documentation of Enforcement Agency Approvals, Determinations, and Requirements.

Approvals, determinations, and other requirements the EA is authorized to make under this Subchapter shall be provided in writing to the operator and placed in the operating record by the operator.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

Article 6.35. Additional Operating Requirements for Facilities Only.

§ 17415.1. Communications Equipment.

Each facility shall have adequate communication equipment available to site personnel to allow quick response to emergencies.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New article 6.35 (sections 17415.1–17419.2) and section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17415.2. Fire Fighting Equipment.

Each Facility shall have fire suppression equipment continuously available, properly maintained and located as required by the local fire authority.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17416.1. Housekeeping.

The operator shall provide adequate housekeeping for the maintenance of facility equipment and shall minimize accumulations of fuel drums, inoperable equipment, parts, tires, scrap, and similar items.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17416.2. Lighting.

The facility and/or equipment shall be equipped with adequate lighting, either through natural or artificial means, to ensure the ability to monitor incoming loads, effectiveness of operations, and public health, safety and the environment.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17416.3. Equipment.

Equipment shall be adequate in type, capacity and number, and sufficiently maintained to allow the facility to meet all requirements of Articles 6.3 and 6.35 of these standards.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17418.1. Site Security.

The facility shall be designed to discourage unauthorized access by persons and vehicles through the use of either a perimeter barrier or topographic constraints.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17418.2. Site Attendant.

A facility open to the public shall have an attendant present during public operating hours or the facility shall be inspected by the operator on a regularly scheduled basis as approved by the EA to ensure that it meets all of the requirements of Articles 6.2, 6.3 and 6.35.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17418.3. Traffic Control.

(a) Traffic flow through the facility shall be controlled to prevent the following:

(1) interference with or creation of a safety hazard on adjacent public streets or roads,

(2) on–site safety hazards, and

(3) interference with operations.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17419.1. Visual Screening.

The facility shall have appropriate treatment of areas open to public view to create and maintain an aesthetically acceptable appearance as approved by the local land use authority, or if none exist, in consultation with the EA. Compliance with specific provisions regarding visual screening in a local land use approval, such as a conditional use permit, or CEQA mitigation measures shall be considered compliance with this standard.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17492. Water Supply.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17493. Communications Facilities.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17494. Lighting.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17495. Fire Fighting Equipment.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17496. Protection of Users.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17497. Personnel Health and Safety.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17511. Confined Unloading.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17512. Cleaning.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17513. Solid Waste Removal.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17514. Parking.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17515. Scavenging.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17516. Salvaging Permitted at Transfer Stations.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17517. Volume Reduction.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17518. Processing Area.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17519. Processing Operations.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17520. Storage of Salvage.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17521. Removal.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17522. Non–Salvageable Items.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17531. Nuisance Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17532. Dust Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17533. Vector and Bird Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17534. Drainage Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17535. Litter Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17536. Noise Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17537. Odor Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17538. Traffic Control.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17546. General.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17547. Standby Equipment.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17548. Transfer Vehicles.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17549. Inspection of Equipment.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17550. Housekeeping.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17556. General.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17557. Station Maintenance Program.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17561. Burning Wastes.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17562. Hazardous Wastes.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17563. Infectious Wastes.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 17564. Liquid Wastes.

HISTORY

1. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

Article 7.1. Disposal Site Standards—General

§ 17601. Applicability of Standards.

NOTE: Authority cited: Section 40502, 43020, 43021 and 43030, Public Resources Code. Reference: Sections 40000–40002, 40508, Public Resources Code; and Title 40, Code of Federal Regulations, Section 258.1.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Amendment of section and NOTE filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
4. Amendment of section and NOTE refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).
6. Repealer of article 7.1 (sections 17601–17617) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to general disposal site standards have been relocated to title 27, division 2.

§ 17602. Site Owner and Site Operator.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17603. Change of Ownership.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 44005, Public Resources Code.

HISTORY

1. Change without regulatory effect filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17606. Recording.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 44100, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering and amending former section 17735 to section 17606 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17607. Periodic Site Review.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17751 to section 17607 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

[The next page is 745.]

§ 17608. Conformance with Plan.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17616. Report of Disposal Site Information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Amendment filed 2–21–78; effective thirtieth day thereafter (Register 78, No. 8).
2. Change without regulatory effect filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35).
3. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
4. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17617. Site Modifications.

HISTORY

1. Repealer filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

Article 7.2. Disposal Site Siting and Design

§ 17626. Design Responsibility.

HISTORY

1. Repealer of article 7.2 (sections 17626–17629) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to disposal site siting and design have been relocated to title 27, division 2.

§ 17627. Ultimate Use of Site.

HISTORY

1. Change without regulatory effect renumbering Section 17627 to Section 17796 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.

§ 17628. General Design Parameters.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17629. Public Health Design Parameters.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

Article 7.3. Disposal Site Records

§ 17636. Weight/Volume Records.

HISTORY

1. Repealer of article 7.3 (sections 17636–17649) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to disposal site records have been relocated to title 27, division 2.

§ 17637. Subsurface Records.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17638. Special Occurrences.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17639. Inspection of Records.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17646. Availability.

HISTORY

1. Change without regulatory effect renumbering Section 17646 to Section 17671 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.

§ 17647. Training.

HISTORY

1. Change without regulatory effect renumbering Section 17647 to Section 17672 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.

§ 17648. Supervision.

HISTORY

1. Change without regulatory effect renumbering Section 17648 to Section 17673 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.

§ 17649. Site Attendant.

HISTORY

1. Change without regulatory effect renumbering Section 17649 to Section 17674 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.

Article 7.4. Disposal Site Improvements

§ 17656. Identification Signs.

HISTORY

1. Repealer of article 7.4 (sections 17656–17660) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to disposal site improvements have been relocated to title 27, division 2.

§ 17657. Entry Signs.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17658. Site Security.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17659. Access Roads.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17660. Internal Roads.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

Article 7.5. Disposal Site Operations

§ 17666. Sanitary Facilities.

HISTORY

1. Repealer of article 7.5 (sections 17666–17696) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to disposal site operations have been relocated to title 27, division 2.

§ 17667. Water Supply.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17668. Communications Facilities.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17669. Lighting.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17670. Personnel Health and Safety.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17671. Availability.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17646 to section 17671 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17672. Training.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17647 to section 17672 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17673. Supervision.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17648 to section 17673 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17674. Site Attendant.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 7649 to section 17674 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17676. Confined Unloading.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17677. Spreading and Compacting.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17678. Slopes and Cuts.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17679. Final Site Face.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Change without regulatory effect renumbering Section 17679 to Section 17777 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17680. Stockpiling.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17681. Availability of Cover Material.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17682. Cover.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17683. Performance Standards.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 12–2–80; effective thirtieth day thereafter (Register 80, No. 49). For history of former section, see Register 78, No. 30.
2. Change without regulatory effect amending subsection (e) filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35).
3. Editorial correction of subsection (e)(2) printing error in formula (Register 90, No. 41).
4. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17684. Intermediate Cover.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17685. Final Cover.

HISTORY

1. Change without regulatory effect renumbering Section 17685 to Section 17773 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 80, No. 49.
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17686. Scavenging.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17687. Salvaging Permitted.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17688. Volume Reduction and Energy Recovery.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17689. Processing Area.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17690. Storage of Salvage.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17691. Removal.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17692. Non–Salvageable Items.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17693. General.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17726 to section 17693 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17694. Standby Equipment.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17727 to section 17694 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17695. General.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17731 to section 17695 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17696. Operating Site Maintenance.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect renumbering former section 17732 to section 17696 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

Article 7.6. Disposal Site Controls

§ 17701. Nuisance Control.

HISTORY

1. Repealer of article 7.6 (sections 17701–17751) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to disposal site controls have been relocated to title 27, division 2.

§ 17702. Animal Feeding.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17703. Fire Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17704. Leachate Control.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17705. Gas Control.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17706. Dust Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17707. Vector and Bird Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17708. Drainage and Erosion Control.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17709. Contact with Water.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17710. Grading of Fill Surfaces.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17711. Litter Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17712. Noise Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17713. Odor Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17714. Traffic Control.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17715. Ponded Liquid.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17726. General.

HISTORY

1. Change without regulatory effect renumbering Section 17726 to Section 17693 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17727. Standby Equipment.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Change without regulatory effect renumbering Section 17727 to Section 17694 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17731. General.

HISTORY

1. Change without regulatory effect renumbering Section 17731 to Section 17695 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17732. Operating Site Maintenance.

HISTORY

1. Change without regulatory effect renumbering Section 17732 to Section 17696 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17733. Inspection upon Completion.

HISTORY

1. Change without regulatory effect renumbering Section 17733 to Section 17768 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17734. Completed Site Maintenance.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Change without regulatory effect renumbering Section 17734 to Section 17788 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17735. Recording.

1. Change without regulatory effect renumbering Section 17735 to Section 17606 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17741. Burning Wastes.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17742. Hazardous Wastes.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17743. Liquid Wastes.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).

2. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17744. Dead Animals.

HISTORY

1. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17751. Periodic Site Review.

HISTORY

1. Amendment filed 7–25–78; effective thirtieth day thereafter (Register 78, No. 30).
2. Change without regulatory effect renumbering Section 17751 to Section 17607 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

Article 7.8. Disposal Site Standards Closure and Postclosure

§ 17760. Scope and Applicability.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code, and Section 66796.22(d), Government Code.

HISTORY

1. Certificate of Compliance as to 3–22–90 order renumbering and amending section 17760 to section 17761 and adding new section 17760 transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34). For prior history, see Register 90, No. 17.
2. Repealer of article 7.8 (sections 17760–17796) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to disposal site standards closure and postclosure have been relocated to title 27, division 2.

§ 17761. Definitions.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order including amendment of subsections (a)(1), (a)(7), (a)(22), (a)(25), (a)(26), (a)(29), (a)(31), (a)(42), (a)(43), and (a)(44) and new subsection (a)(3) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17763. Time Frames for Closure.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Sections 66796.22(d) and 66796.22(g), Government Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL, within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order including amendment of subsection (a) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17764. Partial Closure.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Sections 66796.22(d) and 66796.22(g), Government Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17765. Closure of Treatment Units.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Sections 66796.22(d) and 66796.22(g) Government Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operative of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order including new subsection (b) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17766. Emergency Response Plan.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 66796.22(d), Government Code; and Section 44100, Public Resources Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17767. Security at Closed Sites.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 66796.22(d), Government Code; and Section 44100, Public Resources Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order including amendment of subsections (a) and (b) transmitted to OAL and filed 6–18–90 (Register 90, No. 34).

5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17768. Inspection Upon Completion.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. Change without regulatory effect renumbering former section 17733 to section 17768 filed 8–17–89 pursuant to section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Amendment filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
3. Amendment refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
4. Amendment refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17771. Structure Removal.

NOTE: Authority cited: Sections 40504 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources; and Section 66796.22(d), Government Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17772. Decommissioning of Environmental Control Systems.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17773. Final Cover.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 43021, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. Change without regulatory effect renumbering former section 17685 to section 17773 filed 8–17–89 pursuant to section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. New subsections (a) and (c)–(e), and amendment of subsection (b) filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
3. New subsections (a) and (c)–(e), and amendment of subsection (b) refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
4. New subsections (a) and (c)–(e), and amendment of subsection (b) refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order including amendment of subsection (b) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).

§ 17774. Construction Quality Assurance.

5. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17788. Postclosure Maintenance.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796(d), Government Code. Reference: Section 43021, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. Change without regulatory effect renumbering former section 17734 to section 17788 filed 8–17–89 pursuant to section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. New subsections (a) and (b) filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
3. New subsections (a) and (b) refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be trans-

mitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.

4. New subsections (a) and (b) refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17789. Review of Postclosure Maintenance Activities.

NOTE: Authority cited: Sections 66796.22(d), Government Code. Reference: Sections 43021 and 44100, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. New sections filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17792. Change of Ownership During Closure or Postclosure Maintenance.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Sections 43021 and 44005, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. Change without regulatory effect adding section 17792 filed 8–17–89 pursuant to section 100, Title 1, California Code of Regulations (Register 89, No. 35).
2. Amendment filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repeated by operation of law on 12–18–89.
3. Amendment refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
4. Amendment refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order including amendment of subsections (a) and (b) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17793. Notification During Postclosure Maintenance.

NOTE: Authority cited: Sections 66790(f) and 66796.22(d), Government Code. Reference: Section 66771, Government Code.

HISTORY

1. New section filed 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
2. Repealed by operation of Government Code section 11346.1 (g) (Register 90, No. 34).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 17796. Postclosure Land Use.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Sections 43021 and 44105, Public Resources Code; and Section 66796.22(d), Government Code.

HISTORY

1. Change without regulatory effect renumbering former section 17627 to section 17796 filed 8–17–89 pursuant to section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 78, No. 30.
2. Amendment of subsection (b) and new subsections (c)–(f) filed 8–18–89 as all emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency. language will be repealed by operation of law on 12–18–89.
3. Amendment of subsection (b) and new subsections (c)–(f) refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
4. Amendment of subsection (b) and new subsections (c)–(f) refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order including amendment of subsections (a), (b), (c), (d) and (f) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Repealer of section and Appendix I filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

Article 8. Agricultural Solid Waste Management Standards

GENERAL

§ 17801. Intent of Standards.

These standards are generally intended to describe levels of performance expected rather than stating detailed requirements; wherever possible, persons responsible for management of manures and agricultural wastes shall be permitted flexibility of approach in meeting the objectives set by the standards. Where the phrase "as approved by the Enforcement Agency" is used, it is contemplated that, in most instances, the operator will propose a method, physical improvement, management modification or other appropriate means to comply with a standard to enable approval by the Enforcement Agency (as opposed to the Enforcement Agency specifying the exact means of compliance). These standards are intended only to eliminate excessive vectors or other adverse public health/well–being effects associated with any agricultural operation.

It is the intent of these standards to promote conditions under which agricultural operations and residential or public use of properties can coexist.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; Section 4520, Health and Safety Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 8 (sections 17801–17824, not consecutive) filed 7–2–75; effective thirtieth day thereafter (Register 75, No. 27).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).

§ 17802. Applicability of Standards.

HISTORY

1. Change without regulatory effect repealing section filed 11–15–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 46).

§ 17803. Compliance with Laws and Regulations.

Nothing in these standards shall be construed as relieving an owner, operator, or designer from the obligation of obtaining all required permits, licenses, or other clearances, and complying with all orders, laws, regulations or other requirements of other approval, regulatory or enforcement agencies, such as, but not limited to, local health entities, water and air quality boards, local land use authorities, fire authorities, etc.

§ 17804. Conformance with Plan.

HISTORY

1. Change without regulatory effect repealing section filed 11–15–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 46).

§ 17805. Appeals.

The Board and the Department will provide for review and appeals regarding these standards. Thus any enforcement action by the local Enforcement Agency, including the determination that agricultural operations are resulting in excessive vectors, odor, dust, or feathers, may be investigated and confirmed or denied by the Department.

HISTORY

1. Amendment filed 11–15–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 46).

DEFINITIONS (H) THESE DEFINITIONS SUPPLEMENT THE DEFINITIONS IN ARTICLE 4

§ 17810.1. Manure.

(H) Manure shall mean the accumulated moist animal excrement that does not undergo decomposition or drying as would occur on open grazing land or natural habitat. This definition shall include feces and urine which may be mixed with bedding material, spilled feed or soil.

§ 17810.2. Confined Animals.

(H) Confined animals shall include, but not be limited to, all cattle, horses, sheep, swine, rabbits, poultry, dogs, cats, fur–bearing animals, and other animals that are held, confined or fed supplementally in enclosures where the excrement accumulates as manure. The numbers of animals per unit of enclosed area shall be a part of this definition when excessive vectors, odor, dust or feathers are produced as determined by the Enforcement Agency or the Department taking into consideration varying regional environmental conditions.

§ 17810.3. Enforcement Agency Inspection.

(H) An Enforcement Agency inspection shall mean a site inspection by an agent of the Enforcement Agency or the Department trained in the knowledge of the biology of and prevention of vectors, odor, dust or feathers associated with agricultural solid wastes, so as to protect the public health and well–being.

§ 17810.4. Excessive Vectors.

(H) Excessive vectors shall refer to the presence of domestic flies, mosquitoes, cockroaches, rodents, and/or any other vectors associated with agricultural wastes which:

(a) Occur as immature stages and adults in numbers considerably in excess of those found in the surrounding environment; and

(b) are associated with design, layout and management of agricultural operations; and

(c) disseminate widely from the property; and

(d) cause detrimental effects on the public health or well–being of the majority of the surrounding population as determined by the Enforcement Agency or the Department.

§ 17810.5. Excessive Odor, Dust and Feathers.

(H) Excessive odor, dust and feathers shall refer to the presence of these materials which:

(a) Are associated with design, layout and management of agricultural operations; and

(b) disseminate widely from the property; and

(c) cause detrimental effects on the public health or well–being of the majority of the surrounding population as determined by the Enforcement Agency or the Department.

STORAGE HANDLING AND DISPOSAL

§ 17820. Agricultural Solid Wastes As a Public Health/Well–Being Hazard.

(H) Any person who sustains, stores, manages or receives agricultural by–products or other waste materials generated as a result of the operation of any agricultural property or produce processing plant shall do so in such a manner as to prevent the spread of disease, the occurrence of excessive vectors, odor, dust, or feathers or other such adverse conditions related to the public health and well–being. In addition:

(a) The presence of excessive vectors on the property shall be prima facie evidence that an adverse public health/well–being hazard exists.

(b) The determination of the presence of excessive vectors shall be made by an Enforcement Agency or the Department.

(c) The determination of the presence of excessive vectors shall take into account the proximity of the agricultural operation to neighboring human habitation and use areas, the population density of the entire area and the severity of the public health/well–being hazard posed by said vectors.

§ 17821. Inspection of Agricultural Operations

(H) The Enforcement Agency shall have inspection capability to enforce these standards and to conduct appropriate numbers of site inspections of agricultural operations located within its jurisdiction. Need, if any, and frequency and timing of inspection should be based on public demand, the nature and size of the operation, the season, the vector potential of the operation and its proximity to residential properties. During inspection of agricultural operations the inspector shall observe all reasonable precautionary security, sanitation or other measures specified by the agricultural operator.

§ 17822. Correction of Adverse Public Health/Well–Being Conditions.

(H) When the Enforcement Agency or the Department determines that design and layout of agricultural operations or management of agricultural wastes result in the occurrence of excessive vectors or any other adverse public health/well–being related conditions, the owner or operator of the property shall be informed in writing of a violation of these standards and shall be required to institute appropriate measures promptly to correct the condition in a manner approved by the Enforcement Agency or the Department.

§ 17823. Agricultural Wastes Management Practices.

(H) Agricultural operations shall be managed in a manner which will not cause excessive vectors or other adverse public health/well–being conditions.

The Enforcement Agency shall provide state–developed guidelines which will assist agricultural operators or others concerned in design, layout, and management plans that minimize excessive vectors or other adverse public health/well–being conditions.

Organic wastes are potential resources, and agricultural operations should adopt comprehensive waste handling practices which will lead to resource recovery.

§ 17823.1. Animal Manure.

(H) The manure management practices being performed by the agricultural operation shall be conducted so as to prevent the creation of excessive vectors or other adverse public health/well–being conditions, otherwise manure shall be removed at intervals frequent enough to prevent the occurrence of such conditions. Manure removed from confined animal areas shall be managed so as to prevent the creation of adverse public health/well–being conditions.

§ 17823.2. Vegetable or Fruit Crop Field Residues.

(H) Vegetable or fruit crop field residues which can be a source of excessive vectors or other conditions that adversely affect the public health/well–being shall be incorporated into the soil when conditions of soil moisture permit, completely consumed by livestock, removed from the field prior to the development of such conditions or managed by other appropriate measures to suppress the adverse effect.

After removal from the field, crop residue wastes shall be stored, processed or disposed of so as to prevent the creation of conditions adverse to the public health/well–being.

§ 17823.3. Vegetable or Fruit Crop Processing Wastes.

(H) Where decomposable wastes from vegetable or fruit crop processing operations can become a source of excessive vectors or other conditions that adversely affect the public health/well–being, approved management practices to prevent such conditions shall be initiated.

§ 17823.4. Dust, Hair and Feathers.

(H) Dust, hair and feathers associated with confined agricultural operations shall be managed so as to avoid conditions that adversely affect the public health/well–being as determined by the Enforcement Agency. Accumulations of hair and feathers shall be periodically disposed of in a manner approved by the Enforcement Agency or the Department.

§ 17823.5. Dead Animals.

(H) The carcasses of animals with any contagious disease shall be disposed of by means prescribed by the California Department of Food and Agriculture, Division of Animal Industry.

Animal carcasses from confined animal operations shall be collected, stored, and removed from the property to an approved processing facility or disposal site prior to the creation of adverse public health/well–being

conditions, or processed or disposed of on the property in a manner approved by the Enforcement Agency.

Animal carcasses from animals on pasture or rangeland shall be managed so as to prevent the creation of excessive vectors or other adverse public health/well-being conditions.

§ 17824. Management of Agriculture Waste Ponds, Lagoons, Ditches and Pipelines.

(H) Ponds, lagoons, ditches and pipelines used for the transfer, holding, treatment and stabilization of manure or vegetable or fruit crop wastes shall be managed so as to prevent the creation or harborage of excessive vectors or other conditions that adversely affect the public health/well-being. Accumulations of floating solids, scum and thick aquatic vegetation, and the growth of weeds and emergent aquatic vegetation at the water's edge shall be continuously maintained at a minimal level to assist in the prevention of such adverse conditions.

Disposal or utilization of the contents of such facilities shall not create excessive vectors or other adverse public health/well-being conditions.

Article 9. Litter Receptacle Standards

§ 17830. Purpose.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 24389, Health and Safety Code. Reference: Chapter 1, Title 7.8, Government Code, Sections 43020 and 43021, Public Resources Code and Chapter 3.5, Division 29, Health and Safety Code.

HISTORY

1. New article 9 (sections 17830–17840) filed 8–18–78; effective thirtieth day thereafter (Register 78, No. 33).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer of article 9 and section filed 9–10–96; operative 10–10–96 (Register 96, No. 37).

§ 17831. Limitations.

HISTORY

1. Repealer filed 9–10–96; operative 10–10–96 (Register 96, No. 37).

§ 17832. Responsibility.

HISTORY

1. Repealer filed 9–10–96; operative 10–10–96 (Register 96, No. 37).

§ 17833. Placement of Receptacles.

HISTORY

HISTORY

1. Repealer filed 9–10–96; operative 10–10–96 (Register 96, No. 37).

§ 17840. Compliance.

HISTORY

1. Repealer filed 9–10–96; operative 10–10–96 (Register 96, No. 37).

Chapter 3.1. Compostable Materials Handling Operations and Facilities Regulatory Requirements

Article 1. General

§ 17850. Authority and Scope.

(a) This Chapter is adopted pursuant to and for the purpose of implementing the California Integrated Waste Management Act of 1989 (Act) commencing with section 40000 of the Public Resources Code, as amended. These regulations should be read together with the Act.

(b) This Chapter implements those provisions of the Act relating to composting. Nothing in this Chapter is intended to limit the power of any federal, state, or local agency to enforce any provision of law that it is authorized or required to enforce or administer.

(c) Biological decomposition of organic material can be both a naturally occurring or artificially controlled process. This Chapter establishes standards and regulatory requirements for intentional and inadvertent composting resulting from the handling of compostable materials, including but not limited to feedstock, compost, or chipped and ground materials as defined in section 17852.

(d) Nothing in these standards shall be construed as relieving any owner, operator, or designee from the obligation of obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, or reports, or other requirements of other regulatory or EA, including but not limited to, local health entities, regional water quality control boards, air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

(e) Nothing in these standards precludes the EA or the board from inspecting an activity, operation or facility to determine if it is subject to these standards.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Amendment of chapter 3.1 and article 1 headings and new section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of subsection (c) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (c) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4–7–97 order, including further amendment of subsection (c), transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
5. Amendment of chapter heading, amendment of subsections (c) and (d) and new subsection (e) filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
6. Change without regulatory effect amending subsection (a) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17851. Scope.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40051, 40052, 40053, 40054, 40055, 40056, 40057, 40116, 43020 and 43021, Public Resources Code.

HISTORY

1. New chapter 3.1, article 1 and section filed 7–15–93; operative 7–15–93 (Register 93, No. 29).
2. Repealer filed 6–30–95; operative 7–30–95 (Register 95, No. 26).

§ 17852. Definitions.

(a) For the purposes of this Chapter:

(1) "Active Compost" means compost feedstock that is in the process of being rapidly decomposed and is unstable. Active compost is generat-

ing temperatures of at least 50 degrees Celsius (122 degrees Fahrenheit) during decomposition; or is releasing carbon dioxide at a rate of at least 15 milligrams per gram of compost per day, or the equivalent of oxygen uptake.

(2) "Additives" means material mixed with feedstock or active compost in order to adjust the moisture level, carbon to nitrogen ratio, or porosity to create a favorable condition. Additives include, but are not limited to, fertilizers and urea. Additives do not include septage, biosolids, or compost feedstock.

(3) "Aerated Static Pile" means a composting process that uses an air distribution system to either blow or draw air through the pile. Little or no pile agitation or turning is performed.

(4) "Aerobic Decomposition" means the biological decomposition of organic substances in the presence of oxygen.

(5) "Agricultural Material" means material of plant or animal origin, which result from the production and processing of farm, ranch, agricultural, horticultural, aquacultural, silvicultural, floricultural, vermicultural, or viticultural products, including manures, orchard and vineyard prunings, and crop residues.

(6) "Agricultural Material Composting Operation" means an operation that produces compost from green or agricultural material additives, and/or amendments.

(7) "Amendments" means materials added to stabilized or cured compost to provide attributes for certain compost products, such as product bulk, product nutrient value, product pH, and soils blend. Amendments do not include septage, biosolids, or compost feedstock.

(8) "Anaerobic Decomposition" means the biological decomposition of organic substances in the absence of oxygen.

(9) "Biosolids" means solid, semi-solid, or liquid residue generated during the treatment of domestic sewage in a treatment works. Biosolids includes, but is not limited to, treated domestic septage and scum or solids removed in primary, secondary, or advanced wastewater treatment processes. Biosolids does not include ash generated during the firing of sewage sludge in a sewage sludge incinerator or grit and screenings generated during the preliminary treatment of domestic sewage in a treatment works.

(10) "Chipping and Grinding Operations and Facilities" means an operation or facility, that does not produce compost, that mechanically reduces the size or otherwise engages in the handling, of compostable material and:

(A) The site does the following:

1. The site handles only material, excluding manure, allowed at a green material composting operation or facility as set forth in section 17852(a)(22); and,

2. Each load of green material is removed from the site within 48 hours of receipt. The EA may allow a site to keep green material on-site for up to 7 days if the EA determines that the additional time does not increase the potential for violations of this Chapter.

(B) If the site fails to meet the definition of green material because it exceeds the contamination limits in section 17852(a)(21), the site shall be regulated as set forth in the Transfer/Processing Regulatory requirements (commencing at section 17400).

(C) If the site fails to meet the definition of this section because the green material remains on-site for a longer period of time than is allowed, then the site shall be regulated as a compostable material handling operation or facility, as set forth in this Chapter.

(11) "Compostable Material" means any organic material that when accumulated will become active compost as defined in section 17852(a)(1).

(12) "Compostable Materials Handling Operation" or "Facility" means an operation or facility that processes, transfers, or stores compostable material. Handling of compostable materials results in controlled biological decomposition. Handling includes composting, screening, chipping and grinding, and storage activities related to the production of compost, compost feedstocks, and chipped and ground materials. "Compostable Materials Handling Operation or Facility" does not include activities excluded from regulation in section 17855. "Compostable Materials Handling Operation or Facility" also includes:

(A) agricultural material composting operations;

(B) green material composting operations and facilities;

(C) research composting operations; and,

(D) chipping and grinding operations and facilities.

(13) "Curing" means the final stage of the composting process that occurs after compost has undergone pathogen reduction, as described in section 17868.3, and after most of the readily metabolized material has been decomposed and stabilized.

(14) "Domestic Sewage" means waste and wastewater from humans or household operations that is discharged to or otherwise enters a treatment works.

(15) "Disposal" means:

(A) stockpiling of compostable material onto land for a combined period of time greater than six months, or agricultural and green material for twelve months on prime agricultural land as defined in Government Code section 51201, unless the RWQCB in consultation with the EA makes a written finding that the material may remain within the operations area for a period of time greater than specified.

(B) disposal does not include the use of compostable material for alternative daily cover material at a solid waste landfill. Notwithstanding this section, use of compostable organic material as a alternative daily cover material shall still require approval for use pursuant to Title 27, California Code of Regulations, section 20680 and may require additional approvals from other governmental agencies, including, but not limited to RWQCB and Air Districts.

(C) disposal does not include land application of compostable organic material. "Land Application" means the application of compostable material, excluding food material or mixed solid waste for the following applications: to forest, agricultural, and range land at agronomic rates; in accordance with California Department of Food and Agriculture (CDFA) requirements for beneficial use as authorized by Food and Agricultural Code section 14501 et seq.; or for beneficial uses that may be otherwise exempt or excluded from regulation by CDFA.

(D) Should the EA have information that a compostable material handler is engaging in other activities that meet the definition of disposal, the burden of proof shall be on the land owner or operator to demonstrate otherwise.

(E) If the activities at a site meet the definition of disposal, the site shall be regulated as set forth in the Consolidated Regulations for Treatment, Storage, Processing or Disposal of Solid Waste (commencing at Title 27, California Code of Regulations, section 20005).

(16) "Dry Weight Basis" means weight calculated on the basis of having been dried until reaching a constant mass, that results in essentially 100 percent solids content.

(17) "Enclosed Composting Process" means a composting process where the area that is used for the processing, composting, stabilizing, and curing of organic materials, is covered on all exposed sides and rests on a stable surface with environmental controls for moisture and airborne emissions present.

(18) "EA" means enforcement agency.

(19) "Feedstock" means any compostable organic material used in the production of compost or chipped and ground material including, but not limited to, agricultural material, green material, food material, biosolids, and mixed solid waste. Feedstocks shall not be considered as either additives or amendments.

(20) "Food Material" means any material that was acquired for animal or human consumption, is separated from the municipal solid waste stream, and that does not meet the definition of "agricultural material." Food material may include material from food facilities as defined in Health and Safety Code section 113785, grocery stores, institutional cafeterias (such as, prisons, schools and hospitals) or residential food scrap collection.

(21) "Green Material" means any plant material that is separated at the point of generation contains no greater than 1.0 percent of physical con-

taminants by weight, and meets the requirements of section 17868.5. Green material includes, but is not limited to, yard trimmings, untreated wood wastes, natural fiber products, and construction and demolition wood waste. Green material does not include food material, biosolids, mixed solid waste, material processed from commingled collection, wood containing lead–based paint or wood preservative, mixed construction or mixed demolition debris.

(22) "Green Material Composting Operation" or "Facility" is an operation or facility that composts green material, additives, and/or amendments. A green material composting operation or facility may also handle manure and paper products. An operation or facility that handles a feedstock that is not green material, manure, or paper products, shall not be considered a green material composting operation or facility. "Green Material Composting Operation" or "Facility" does not include activities excluded from regulation in section 17855.

(23) "Handling" means the processing, transfer, and storage of compostable materials. Handling of compostable materials results in controlled biological decomposition. Handling includes composting, screening, chipping and grinding, and storage activities related to the production of compost, compost feedstocks, and chipped and ground materials.

(24) "Insulating Material" means material used for the purpose of minimizing the loss of heat from a compost pile undergoing the "Process to Further Reduce Pathogens" (PFRP), as described in section 17868.3. Insulating material includes, but is not limited to, soil and stabilized compost.

(25) "Manure" is an agricultural material and means accumulated herbivore or avian excrement. This definition shall include feces and urine, and any bedding material, spilled feed, or soil that is mixed with feces or urine.

(26) "Mixed Solid Waste" means any material that is part of the municipal solid waste stream, and is mixed with or contains non–organics, processed industrial materials, or plastics. A feedstock that is not source separated or contains 1.0% or more of physical contaminants by weight is mixed solid waste. Compostable material that contains mixed demolition or mixed construction debris shall be considered mixed solid waste.

(27) "Mushroom Farm" means an activity that produces mushrooms. The handling of compostable material at a mushroom farm prior to and after use as a growth medium is subject to regulation pursuant to this chapter and is not considered mushroom farming.

(28) "Operations Area" means the following areas within the boundary of a compostable material handling operation or facility:

(A) equipment cleaning, maintenance, and storage areas;

(B) feedstock, active, curing and stabilized compost processing or stockpiling areas; and

(C) process water and stormwater drainage control systems.

(29) "Operator" means the owner, or other person who through a lease, franchise agreement or other arrangement with the owner, becomes legally responsible for the following:

(A) complying with regulatory requirements set forth in this Chapter;

(B) complying with all applicable federal, state and local requirements;

(C) the design, construction, and physical operation of the site; and

(D) site restoration.

(30) "Owner" means the person or persons who own, in whole or in part, a compostable material handling operation or facility, or the land on which these operations or facilities are located.

(31) "Pathogenic Organism" means disease–causing organisms.

(32) "Physical Contamination" or "Contaminants" means human–made inert products contained within feedstocks, including, but not limited to, glass, metal, and plastic.

(33) "Process Water" means liquid that is generated during or used in the production of compost or chipped and ground materials.

(34) "Research Composting Operation" means a composting operation, that is operated for the purpose of gathering research information on composting.

(35) "Separated At The Point of Generation" includes material separated from the solid waste stream by the generator of that material. It may also include material from a centralized facility as long as that material was kept separate from the waste stream prior to receipt by that facility and the material was not commingled with other materials during handling.

(36) "Stabilized Compost" means any organic material that has undergone the Process to Further Reduce Pathogens (PFRP), as described in section 17868.3, and has reached a stage of reduced biological activity as indicated by reduced temperature and rate of respiration below that of active compost.

(37) "Static Pile" means a composting process that is similar to the aerated static pile except that the air source may or may not be controlled.

(38) "Vector" includes any insect or other arthropod, rodent, or other animal capable of transmitting the causative agents of human disease.

(39) "Vermicomposting" means an activity that produces worm castings through worm activity. The EA may determine whether an activity is or is not vermicomposting. The handling of compostable material prior to and after use as a growth medium is subject to regulation pursuant to this chapter and is not considered vermicomposting.

(40) "Windrow Composting Process" means the process in which compostable material is placed in elongated piles. The piles or "windrows" are aerated and/or mechanically turned on a periodic basis.

(41) "Within–vessel Composting Process" means a process in which compostable material is enclosed in a drum, silo, bin, tunnel, reactor, or other container for the purpose of producing compost, maintained under uniform conditions of temperature and moisture where air–borne emissions are controlled.

(42) "Wood Waste" means solid waste consisting of wood pieces or particles which are generated from the manufacturing or production of wood products, harvesting, processing or storage of raw wood materials, or construction and demolition activities.

(43) "Yard Trimmings" means any wastes generated from the maintenance or alteration of public, commercial or residential landscapes including, but not limited to, yard clippings, leaves, tree trimmings, prunings, brush, and weeds.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of subsections (k), (*l*) and (t), new subsection (x2), and amendment of subsections (aa)(2) and (*ll*) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsections (k), (*l*) and (t), new subsection (x2), and amendment of subsections (aa)(2) and (*ll*) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4–7–97 order, including repealer of subsection (x2) and further amendment of subsection (aa)(2), transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
5. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
6. Change without regulatory effect amending subsections (a)(5), (a)(11)–(13), (a)(15)–(16), (a)(21)–(22), (a)(24), (a)(36) and (a)(41) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17853. Definitions.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40051, 40052, 40116, 43020 and 43200, et seq., Public Resources Code.

HISTORY

1. Repealer filed 7–15–93; operative 7–15–93 (Register 93, No. 29).
2. Repealer filed 6–30–95; operative 7–30–95 (Register 95, No. 26).

§ 17853.0. Approval of Alternatives.

(a) Approvals, determinations and other requirements that the EA is authorized to make in this Chapter shall be provided in writing by the EA to the operator. The operator shall place a copy of these approvals, in

addition to those records identified in sections 17869, in the operating record.

(b) Some of the provisions of this Chapter allow the EA to approve a reduced inspection frequency. The EA shall only approve a reduced inspection frequency if the EA finds that it is as protective of the public health and safety and the environment as the standard inspection frequency.

(c) Some of the standards contained in this Chapter allow the EA to approve an alternative method of compliance with the standard. These provisions are not intended to allow the EA to change the particular standard, but are intended to allow the EA flexibility to approve, in advance, an alternative method of meeting the existing standard. For facilities that require a full solid waste facilities permit, the EA may choose to include the approved method as a term and condition of the solid waste facilities permit, rather than in the manner authorized by subdivision (a) of this section. If the method is included in the Compostable Materials Handling Facility Permit, a change to the method may require a revision to the solid waste facilities permit in accordance with the procedures set forth in Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2, 3, and 3.1 (commencing with section 21570).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

Article 2. Regulatory Tiers for Composting Operations and Facilities

§ 17854. Compostable Materials Handling Facility Permit Requirements.

Except as specified in this Article, all compostable materials handling activities shall obtain a Compostable Materials Handling Facility Permit pursuant to the requirements of Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1,2,3, and 3.1 (commencing with section 21450) prior to commencing operations.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17855. Excluded Activities.

(a) The activities listed in this section do not constitute compostable material handling operations or facilities for the purposes of this Chapter and are not required to meet the requirements set forth herein. Nothing in this section precludes the EA or the board from inspecting an excluded activity to verify that the activity is being conducted in a manner that qualifies as an excluded activity or from taking any appropriate enforcement action.

(1) An activity is excluded if it handles agricultural material, derived from an agricultural site, and returns a similar amount of the material produced to that same agricultural site, or an agricultural site owned or leased by the owner, parent, or subsidiary of the composting activity. No more than an incidental amount of up to 1,000 cubic yards of compost product may be given away or sold annually.

(2) Vermicomposting is an excluded activity. The handling of compostable material prior to and after use as a growth medium is not an excluded activity and is subject to the requirements of this chapter. Handling of agricultural material on the site of a vermicomposting activity, for use as a growth medium on that same site, is an excluded activity if it complies with section 17855(a)(1).

(3) Mushroom farming is an excluded activity. The handling of compostable material prior to and after use as a growth medium is not an excluded activity and is subject to the requirements of this chapter. Handling of agricultural material on the site of a mushroom farm, for use as mushroom bedding on that same site, is an excluded activity if it complies with section 17855(a)(1).

(4) Handling of green material, feedstock, additives, amendments, compost, or chipped and ground material is an excluded activity if 500 cubic yards or less is on–site at any one time, the compostable materials are generated on–site and if no more than 1,000 cubic yards of materials are either sold or given away annually. The compostable material may also include up to 10% food material by volume.

(5) The handling of compostable materials is an excluded activity if:

(A) the activity is located at a facility (i.e., landfill or transfer/processing facility) that has a tiered or full permit as defined in section 18101,

1. has a Report of Facility Information which is completed and submitted to the EA that identifies and describes the activity and meets the requirements of Titles 14 or 27; and,

2. will only use the material on the facility site, or

(B) the activity is solely for the temporary storage of biosolids sludge at a Publicly Operated Treatment Works (POTW), or

(C) the activity is located at the site of biomass conversion and is for use in biomass conversion as defined in Public Resources Code section 40106; or

(D) the activity is part of a silvicultural operation or a wood, paper, or wood product manufacturing operation; or

(E) the activity is part of an agricultural operation and is used to temporarily store or process agricultural material not used in the production of compost or mulch; or

(F) the activity is part of an operation used to chip and grind materials derived from and applied to lands owned or leased by the owner, parent, or subsidiary of the operation; or

(G) the activity is part of an agricultural operation used to chip and grind agricultural material produced on lands owned or leased by the owner, parent, or subsidiary of the agricultural operation, for use in biomass conversion; or

(H) the activity is part of an animal food manufacturing or rendering operation.

(I) the activity is the storage of yard trimmings at a publicly designated site for the collection of lot clearing necessary for fire protection provided that the public agency designating the site has notified the fire protection agency; or

(J) the materials are handled in such a way to preclude their reaching temperatures at or above 122 degrees Fahrenheit as determined by the EA.

(6) Non–commercial composting with less than one cubic yard of food material is excluded provided that all compostable material is generated and used on–site.

(7) Storage of bagged products from compostable material is an excluded activity provided that such bags are no greater than 5 cubic yards.

(8) Within–vessel composting process activities with less than 50 cubic yard capacity are excluded.

(9) Beneficial use of compostable materials is an excluded activity. Beneficial use includes, but is not limited to, slope stabilization, weed suppression, alternative daily cover, and similar uses, as determined by the EA; land application in accordance with California Department of Food and Agriculture requirements for a beneficial use as authorized by Food and Agricultural Code section 14501 et seq.; and reclamation projects in accordance with the requirements of the Office of Mine Reclamation of the Department of Conservation as authorized by Public Resources Code section 2770 et seq.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–15–93; operative 7–15–93 (Register 93, No. 29).

2. Repealer, relocation and new section and amendment of article 2 heading filed 6–30–95; operative 7–30–95 (Register 95, No. 26).

3. Amendment of subsections (a)(3) and (a)(5) and new subsections (a)(6) and (a)(7) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.

4. Amendment of subsections (a)(3) and (a)(5) and new subsections (a)(6) and (a)(7) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4–7–97 order, including further amendment of subsections (a)(3) and (a)(5)–(7), transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
6. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
7. Change without regulatory effect amending subsections (a), (a)(5)(A), (a)(5)(A)2., (a)(5)(B) and (a)(7) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17855.2. Prohibitions.

(a) The composting of unprocessed mammalian tissue, including but not limited to, flesh, organs, hide, blood, bone and marrow is prohibited, except when from the food service industry, grocery stores, or residential food scrap collection, or as part of a research composting operation for the purpose of obtaining data on pathogen reduction or other public health, animal health, safety, or environmental concern, in accordance with section 17862.

(b) The composting of medical waste is prohibited.

(c) The composting of hazardous waste is prohibited.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Amendment of subsection (a) filed 6–18–2007 as an emergency; operative 6–18–2007 (Register 2007, No. 25). A Certificate of Compliance must be transmitted to OAL by 12–17–2007 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (a) refiled 12–17–2007 as an emergency; operative 12–17–2007 (Register 2007, No. 51). A Certificate of Compliance must be transmitted to OAL by 3–17–2008 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 12–17–2007 order, including further amendment of subsection (a), transmitted to OAL 3–13–2008 and filed 4–25–2008 (Register 2008, No. 17).

§ 17855.3. Permit Name.

Any permit issued pursuant to this Article, except for one issued pursuant to section 17862.1(b), shall be entitled: "Compostable Materials Handling Facility Permit."

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17855.4. Pre–Existing Permits and Notifications.

(a) If a facility had previously obtained a Registration or Standardized Permit in accordance with the regulations in effect prior to April 4, 2003, that facility may continue to operate in accordance with its permit until the EA conducts a permit review pursuant to Title 14, California Code of Regulations, sections 18104.7 and 18105.9 and determines that a Compostable Materials Handling Facility Permit is required. If the EA makes such a determination, the operator shall comply with the Compostable Materials Handling Facility Permit requirements set forth in Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1, 2, 3, and 3.1 (commencing with section 21450) within two years of that determination.

(b) If an operation had previously been operating pursuant to an EA Notification in accordance with the regulations in effect prior to April 4, 2003, that operation may continue to operate in accordance with its EA Notification or regulatory authorization until the EA determines that a Compostable Materials Handling Facility Permit is required. The EA shall make this determination no sooner than 120 days and no later than two years from April 4, 2003. If the EA determines that a Compostable Materials Handling Facility Permit is required, the operator shall comply with the Compostable Materials Handling Facility Permit requirements set forth in Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1, 2, 3, and 3.1 (commencing with section 21450) within two years of that determination.

(c) If an activity had previously been excluded from the regulations in effect prior to April 4, 2003, that activity may continue to operate in accordance with its regulatory exclusion until the EA determines that a Compostable Materials Handling Facility Permit is required. The EA shall make this determination no sooner than 120 days and no later than two years from April 4, 2003. If EA determines that a Compostable Materials Handling Facility Permit is required, the operator shall comply with the Compostable Materials Handling Facility Permit requirements set forth in Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1, 2, 3, and 3.1 (commencing with section 21450) within two years of that determination.

(d) Notwithstanding other provisions of this section, a Chipping and Grinding activity that is currently operating in accordance with the regulations in effect prior to April 4, 2003, may continue to operate in accordance with its regulatory authorization until the EA determines that a different authorization is required. The EA shall make this determination within 120 days from April 4, 2003.

(1) If the EA determines that the activity is required to comply with the EA Notification requirements, the operator shall comply with the EA Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100), within 120 days from that determination.

(2) If the EA determines that the activity is required to comply with the Registration requirements, the operator shall comply with the Registration requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100) within 120 days from that determination.

(3) If the EA determines that the activity is required to comply with the Compostable Materials Handling Facility Permit requirements, the operator shall comply with the Compostable Materials Handling Facility Permit requirements set forth in Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1, 2, 3, and 3.1 (commencing with section 21450) within two years from that determination.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Change without regulatory effect amending subsections (a), (c) and (d)–(d)(3) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17856. Agricultural Material Composting Operations.

(a) All agricultural material composting operations and chipping and grinding operations shall comply with the Enforcement Agency Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100), except as otherwise provided by this Chapter. Agricultural Compostable Materials Handling Operations shall only be subject to the requirements of section 17863.4 if the EA makes a written determination that the operation has violated the requirements for odor impacts of section 17867.

(b) Compost produced by an agricultural material composting operation or a chipping and grinding operation which uses only agricultural material may be sold or given away in unrestricted quantities. These operations shall be inspected by the EA at least once annually.

(c) Compost produced by an agricultural material composting operation which uses agricultural material and/or green material, as specified in section 17852(a)(21), may be sold or given–away in accordance with the following restrictions.

(1) Those sites that do not sell or give–away more than 1,000 cubic yards of material per year shall be inspected by the EA at least once annually when actively composting. If more than 12,500 cubic yards of green material, including feedstock, compost, or chipped and ground material, is to be handled on–site of productive farmland as defined in Government

Code section 51201, the operator shall give advance notice to the EA. The EA shall only prohibit the on-site storage of additional materials, or impose a greater inspection frequency, if the EA makes a written finding that it will pose an additional risk to public health and safety and the environment. The EA shall forward a copy of the request and approval to the Board.

(2) Those operations that sell or give-away more than 1,000 cubic yards of material per year, shall have no more than 12,500 cubic yards of green material, including feedstock, compost, or chipped and ground material, on-site at any one time and shall be inspected by the EA once every three (3) months.

(3) These sites shall record the quantity received of green material.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 2 and section filed 7-15-93; operative 7-15-93 (Register 93, No. 29).
2. Repealer and new section filed 6-30-95; operative 7-30-95 (Register 95, No. 26).
3. Amendment of subsection (c) filed 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-5-97 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (c) refiled 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12-1-97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4-7-97 order transmitted to OAL 11-25-97 and filed 1-9-98 (Register 98, No. 2).
6. Amendment filed 4-4-2003; operative 4-4-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
7. Change without regulatory effect amending subsections (a), (c) and (c)(1) filed 8-23-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17857. Green Material Composting Operations and Facilities.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7-15-93; operative 7-15-93 (Register 93, No. 29).
2. Repealer and new section filed 6-30-95; operative 7-30-95 (Register 95, No. 26).
3. Amendment of subsection (c) filed 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-5-97 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (c) refiled 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12-1-97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4-7-97 order transmitted to OAL 11-25-97 and filed 1-9-98 (Register 98, No. 2).
6. Repealer filed 4-4-2003; operative 4-4-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17857.1. Green Material Composting Operations and Facilities.

(a) A green material composting operation that has up to 12,500 cubic yards of feedstock, compost, or chipped and ground material on-site at any one time shall comply with the EA Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100).

(b) A green material composting operation that has up to 12,500 cubic yards of feedstock, compost, or chipped and ground material on-site at any one time shall be inspected by the EA at least once every three (3) *months, unless an operator request for a reduced inspection frequency of* no less than annually is approved by the EA. The EA shall only approve a lesser inspection frequency, if the EA finds that it will not pose an additional risk to public health and safety and the environment. The EA shall forward a copy of the request and approval to the Board.

(c) A green material composting facility that has more than 12,500 cubic yards of feedstock, compost, or chipped and ground material on-site at any one time shall obtain a Compostable Materials Handling Facility Permit pursuant to the requirements of Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1,2,3, and 3.1 (commencing with section 21450) prior to commencing operations.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4-4-2003; operative 4-4-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Change without regulatory effect amending subsection (a) filed 8-23-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17858. Animal Material Composting Facilities.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6-30-95; operative 7-30-95 (Register 95, No. 26).
2. Amendment of subsection (b) filed 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-5-97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (b) refiled 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12-1-97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4-7-97 order transmitted to OAL 11-25-97 and filed 1-9-98 (Register 98, No. 2).
5. Repealer filed 4-4-2003; operative 4-4-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17859. Sewage Sludge Composting Facilities.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code. Title 40, Chapter I, Subchapter O, Part 503, of the Code of Federal Regulations.

HISTORY

1. New section filed 7-15-93; operative 7-15-93 (Register 93, No. 29).
2. Repealer and new section filed 6-30-95; operative 7-30-95 (Register 95, No. 26).
3. Amendment of subsection (b) filed 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8-5-97 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (b) refiled 4-7-97 as an emergency; operative 4-7-97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12-1-97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4-7-97 order transmitted to OAL 11-25-97 and filed 1-9-98 (Register 98, No. 2).
6. Repealer filed 4-4-2003; operative 4-4-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17859.1. Biosolids Composting at POTWs.

(a) Except as provided in section 17855(a)(5)(B), the composting of biosolids on-site at a Publicly Operated Treatment Works (POTW) shall comply with the EA Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100).

(b) All other composting of biosolids shall comply with section 17854.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code; and Title 40, Chapter I, Subchapter O, Part 503, Code of Federal Regulations.

HISTORY

1. New section filed 4-4-2003; operative 4-4-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Change without regulatory effect amending subsection (a) filed 8-23-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17860. Mixed Solid Waste Composting Facilities.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6-30-95; operative 7-30-95 (Register 95, No. 26).
2. Change without regulatory effect amending section filed 3-8-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

3. Repealer filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17861. Application Process for Green Compost Permit.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40051, 40052, 40057, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–15–93; operative 7–15–93 (Register 93, No. 29).
2. Repealer filed 6–30–95; operative 7–30–95 (Register 95, No. 26).

§ 17862. Research Composting Operations.

(a) An operator conducting research composting operations shall not have more than 5,000 cubic yards of feedstock, additives, amendments, chipped and ground material, and compost on–site at any one time, and shall comply with the EA Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100), except as otherwise provided by this Chapter.

(b) An operator conducting research composting operations utilizing within–vessel processing, may exceed 5,000 cubic–yards of feedstock, additives, amendments, chipped and ground material and compost, if the EA determines that such increased volume will not pose additional risk to the public health, safety and the environment.

(c) In addition to the EA Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0, section 18103.1(a)(3), the operator shall provide a description of the research to be performed, research objectives, methodology/protocol to be employed, data to be gathered, analysis to be performed, how the requirements of this subchapter will be met, and the projected timeframe for completion of the research operation.

(d) The EA Notification for a research composting operation shall be reviewed after each each two year period of operation. Review criteria shall include the results and conclusions drawn from the research.

(e) Research composting operations that will be using unprocessed mammalian tissue as a feedstock for the purpose of obtaining data on pathogen reduction or other public health, animal health, safety, or environmental protection concern, shall satisfy the following additional requirements:

(1) Unprocessed mammalian tissue used as feedstock shall be generated from on–site agricultural operations, and all products derived from unprocessed mammalian tissue shall be beneficially used on–site.

(2) The operator shall prepare, implement and maintain a site–specific, research composting operation site security plan. The research composting site security plan shall include a description of the methods and facilities to be employed for the purpose of limiting site access and preventing the movement of unauthorized material on to or off of the site.

(3) The EA Notification for the research composting operation using unprocessed mammalian tissue as feedstock and documentation of additional requirements of this section shall be reviewed after each six month period of operation.

(f) The operator shall submit all additional documentation required by subsections (c) and (e)(2) to the EA with the Notification and prior to the composting of any feedstock. The EA shall determine that the EA Notification for research composting operations is complete and correct only if the additional documentation requirements of this section have been met.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
3. Change without regulatory effect amending subsections (a) and (c) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).
4. New subsections (e)–(f) filed 6–18–2007 as an emergency; operative 6–18–2007 (Register 2007, No. 25). A Certificate of Compliance must be transmitted to OAL by 12–17–2007 or emergency language will be repealed by operation of law on the following day.
5. New subsections (e)–(f) refiled 12–17–2007 as an emergency; operative 12–17–2007 (Register 2007, No. 51). A Certificate of Compliance must be transmitted to OAL by 3–17–2008 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–17–2007 order, including further amendment of subsection (e), transmitted to OAL 3–13–2008 and filed 4–25–2008 (Register 2008, No. 17).

§ 17862.1. Chipping and Grinding Operations and Facilities.

(a) A chipping and grinding operation that receives up to 200 tons per day of material that may be handled by a green material composting operation shall comply with the EA Notification requirements set forth in Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0 (commencing with section 18100), except as otherwise provided by this Chapter.

(b) A chipping and grinding facility that receives more than 200 tons per day, and up to 500 tons per day of material that may be handled by a green material composting operation shall obtain a Registration Permit pursuant to the requirements of Title 14, California Code of Regulations, Division 7, Chapter 5.0, Article 3.0, prior to commencing operations.

(c) A chipping and grinding facility that receives more than 500 tons per day of material that may be handled by a green material composting operation shall obtain a Compostable Materials Handling Facility Permit pursuant to the requirements of Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1,2,3, and 3.1 (commencing with section 21450) prior to commencing operations.

(d) A chipping and grinding operation or facility shall not be subject to the provisions of sections 17868.1 through 17868.3 of this Chapter.

(e) If a chipping and grinding operation or facility exceeds the contamination limits in section 17852 (a)(21), it shall be regulated as set forth in the Transfer/Processing Regulatory requirements (commencing at section 17400).

(f) If a chipping and grinding operation or facility stores material for a longer period of time than is allowed by section 17852 (a)(10)(A)(2), then the site shall be regulated as a green material handling operation or facility, as set forth in this Chapter.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 4–7–97 order, including amendment of subsections (b)(2)–(4) and new subsections (b)(5)–(c), transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
4. Amendment of section heading and section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
5. Change without regulatory effect amending subsections (a) and (b) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17862.2. Storage.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 4–7–97 order, including amendment of subsections (a) and (b)(2)–(4), new subsection (b)(6), amendment of subsection (c) and new subsection (d), transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).

4. Repealer filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

Article 3. Report of Facility Information

§ 17863. Report of Composting Site Information.

Each operator of a compostable material handling facility that is required to obtain a Compostable Materials Handling Facility Permit, as specified in Article 2 of this Chapter, shall, at the time of application, file a Report of Composting Site Information with the EA. If the operator intends to alter the permitted feedstock, these changes must be reported to the EA for maintenance of permit status. Such changes may become the basis for revisions to the permit or for revocation of the permit.

(m) A description of the proposed site restoration activities, in accordance with Section 17870.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 3 and section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of subsection (f) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (f) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4–7–97 order transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
5. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17863.4. Odor Impact Minimization Plan.

(a) All compostable material handling operations and facilities shall prepare, implement and maintain a site–specific odor impact minimization plan. A complete plan shall be submitted to the EA with the EA Notification or permit application.

(b) Odor impact minimization plans shall provide guidance to on–site operation personnel by describing, at a minimum, the following items. If the operator will not be implementing any of these procedures, the plan shall explain why it is not necessary.

(1) an odor monitoring protocol which describes the proximity of possible odor receptors and a method for assessing odor impacts at the locations of the possible odor receptors; and,

(2) a description of meteorological conditions effecting migration of odors and/or transport of odor–causing material off–site. Seasonal variations that effect wind velocity and direction shall also be described; and,

(3) a complaint response protocol; and,

(4) a description of design considerations and/or projected ranges of optimal operation to be employed in minimizing odor, including method and degree of aeration, moisture content of materials, feedstock characteristics, airborne emission production, process water distribution, pad and site drainage and permeability, equipment reliability, personnel training, weather event impacts, utility service interruptions, and site specific concerns; and,

(5) a description of operating procedures for minimizing odor, including aeration, moisture management, feedstock quality, drainage controls, pad maintenance, wastewater pond controls, storage practices (e.g., storage time and pile geometry), contingency plans (i.e., equipment, water, power, and personnel), biofiltration, and tarping.

(c) The odor impact minimization plan shall be revised to reflect any changes, and a copy shall be provided to the EA, within 30 days of those changes.

(d) The odor impact minimization plans shall be reviewed annually by the operator to determine if any revisions are necessary.

(e) The odor impact minimization plan shall be used by the EA to determine whether or not the operation or facility is following the procedures established by the operator. If the EA determines that the odor impact minimization plan is not being followed, the EA may issue a Notice and Order (pursuant to section 18304) to require the operator to either comply with the odor impact minimization plan or to revise it.

(f) If the odor impact minimization plan is being followed, but odor impacts are still occurring, the EA may issue a Notice and Order (pursuant to section 18304) requiring the operator to take additional reasonable and feasible measures to minimize odors.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43209.1, Public Resources Code. Reference: Sections 43020, 43021 and 43209.1,

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Change without regulatory effect amending subsection (e) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

Article 4. Standardized Composting Permit Terms and Conditions

§ 17864. General Terms and Conditions.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 4, section and Appendix I filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Change without regulatory effect amending section and moving form to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
3. Change without regulatory effect amending section filed 2–6–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 6).
4. Repealer of article 4 (section 17864) and repealer of section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

Article 5. Composting Operation and Facility Siting and Design Standards

§ 17865. Siting on Landfills.

(a) Compostable materials handling operations and facilities located atop closed solid waste landfills shall meet postclosure land use requirements pursuant to Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 3, Subchapter 5, Article 2, section 21190.

(b) Compostable materials handling operations and facilities sited on intermediate cover on a solid waste landfill shall locate operations areas on foundation substrate that is stabilized, either by natural or mechanical compaction, to minimize differential settlement, ponding, soil liquefaction, or failure of pads or structural foundations.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 5 and section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
3. Change without regulatory effect amending subsection (a) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17866. General Design Requirements.

(a) Compostable materials handling operations and facilities shall be designed and constructed in such a manner as to enable the operations and facilities to comply with the operational requirements set forth in Article 6 of this Chapter.

(b) The design of a compostable materials handling facility shall utilize advice, as appropriate, from persons competent in engineering architecture, landscape design, traffic engineering, air quality control, and design of structures.

(1) The engineering design of a compostable materials handling facility shall be in accordance with the principles and disciplines in the State of California generally accepted for design of this type of facility. The

design of a composting facility requiring a Compostable Materials Handling Facility Permit shall accompany the Report of Composting Site Information, pursuant to section 17863 of this Chapter.

(2) The engineering design shall be based on appropriate data regarding the service area, anticipated nature and quantity of material to be received, climatological factors, physical settings, adjacent land use (existing and planned), types and numbers of vehicles anticipated to enter the station, drainage control, the hours of operation and other pertinent information. If the station is to be used by the general public, the design of the facility shall take account of features that may be needed to accommodate such public use.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
3. Change without regulatory effect amending subsection (b)(1) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

Article 6. Composting Operating Standards

§ 17867. General Operating Standards.

(a) All compostable materials handling operations and facilities shall meet the following requirements:

(1) All handling activities are prohibited from composting any material specified in section 17855.2 of this Chapter.

(2) All handling activities shall be conducted in a manner that minimizes vectors, odor impacts, litter, hazards, nuisances, and noise impacts; and minimizes human contact with, inhalation, ingestion, and transportation of dust, particulates, and pathogenic organisms.

(3) Random load checks of feedstocks, additives, and amendments for contaminants shall be conducted.

(4) Contamination of compostable material that has undergone pathogen reduction, pursuant to section 17868.3 of this Chapter, with feedstocks, compost, or wastes that have not undergone pathogen reduction, pursuant to section 17868.3 of this Chapter, or additives shall be prevented.

(5) Unauthorized human or animal access to the facility shall be prevented.

(6) Traffic flow into, on, and out of the composting operation or facility shall be controlled in a safe manner.

(7) All compostable materials handling operations and facilities, that are open for public business, shall post legible signs at all public entrances. These signs shall include the following information:

(A) name of the operation or facility,

(B) name of the operator,

(C) facility hours of operation,

(D) materials that will and will not be accepted, if applicable,

(E) schedule of charges, if applicable, and

(F) phone number where operator or designee can be reached in case of an emergency.

(8) The operator shall provide fire prevention, protection and control measures, including, but not limited to, temperature monitoring of windrows and piles, adequate water supply for fire suppression, and the isolation of potential ignition sources from combustible materials. Firelanes shall be provided to allow fire control equipment access to all operation areas.

(9) The operator shall provide telephone or radio communication capability for emergency purposes.

(10) Physical Contaminants and refuse removed from feedstock, compost, or chipped and ground material shall be removed from the site within 7 days and transported to an appropriate facility.

(11) Enclosed operations and facilities shall provide ventilation to prevent adverse public health effects from decomposition gases.

(12) The operator shall ensure that leachate is controlled to prevent contact with the public.

(13) The operator shall prevent or remove physical contaminants in compost and chipped and ground materials that may cause injury to humans.

(14) An attendant shall be on duty during business hours if the operation or facility is open to the public.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–15–93; operative 7–15–93 (Register 93, No. 29).
2. New article 6 and repealer and new section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
3. Amendment of subsection (a)(4) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (a)(4) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4–7–97 order transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
6. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
7. Change without regulatory effect amending subsection (a)(4) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).
8. Repealer and new subsection (a)(1) filed 6–18–2007 as an emergency; operative 6–18–2007 (Register 2007, No. 25). A Certificate of Compliance must be transmitted to OAL by 12–17–2007 or emergency language will be repealed by operation of law on the following day.
9. Repealer and new subsection (a)(1) refiled 12–17–2007 as an emergency; operative 12–17–2007 (Register 2007, No. 51). A Certificate of Compliance must be transmitted to OAL by 3–17–2008 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 12–17–2007 order transmitted to OAL 3–13–2008 and filed 4–25–2008 (Register 2008, No. 17).

§ 17867.5. Training.

(a) Compostable materials handling operations and facilities shall meet the following requirements:

(1) Operators shall ensure that all personnel assigned to the operation shall be trained in subjects pertinent to operations and maintenance, including the requirements of this article, physical contaminants and hazardous materials recognition and screening, with emphasis on odor impact management and emergency procedures. A record of such training shall be maintained on the site.

NOTE: Authority cited: Sections 40502, 43020, and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

Article 7. Environmental Health Standards

§ 17868.1. Sampling Requirements.

All composting operations that sell or give away greater than 1,000 cubic yards of compost annually, and all facilities shall meet the following requirements:

(a) Operators shall verify that compost meets the maximum acceptable metal concentration limits specified in section 17868.2, and pathogen reduction requirements specified in section 17868.3. Verification of pathogen reduction requirements shall occur at the point where compost is sold and removed from the site, bagged for sale, given away for beneficial use and removed from the site or otherwise beneficially used. This verification shall be performed by taking and analyzing at least one composite sample of compost, following the requirements of this section as follows:

(1) An operator who composts green material, food material, or mixed solid waste shall take and analyze one composite sample for every 5,000 cubic–yards of compost produced.

(2) An operator who composts biosolids shall meet the sampling schedule described in Table 1 below.

Table 1 - Frequencies of Compost Sampling for Biosolids Composting Facilities

Amount of Biosolids Compost Feedstock (metric tons per 365 day period)	*Frequency*
Greater than zero but fewer than 290	annually
Equal to or greater than 290 but fewer than 1,500	quarterly
Equal to or greater than 1,500 but fewer than 15,000	bimonthly
Amount of Biosolids Compost Feedstock (metric tons per 365 day period)	*Frequency*
Equal to or greater than 15,000	monthly

(A) The amount of biosolids compost feedstock shall be calculated in dry weight metric tons.

(3) Composite sample analysis for maximum acceptable metal concentrations, specified in section 17868.2, shall be conducted at a laboratory certified by the California Department of Health Services, pursuant to the Health and Safety Code.

(b) A composite sample shall be representative and random, and may be obtained by taking twelve (12) mixed samples as described below.

(1) The twelve samples shall be of equal volume.

(2) The twelve samples shall be extracted from within the compost pile as follows:

(A) Four samples from one–half the width of the pile, each at a different cross–section;

(B) Four samples from one–fourth the width of the pile, each at a different cross–section; and,

(C) Four samples from one–eighth the width of the pile, each at a different cross–section.

(c) The EA may approve alternative methods of sampling for a green material composting operation or facility that ensures the maximum metal concentration requirements of section 17868.2 and the pathogen reduction requirements of section 17868.3 are met.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 7 and section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of subsection (a) and Table 1 filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsection (a) and Table 1 refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4–7–97 order, including further amendment of subsection (a), transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
5. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
6. Change without regulatory effect amending subsections (a) and (a)(3) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17868.2. Maximum Metal Concentrations.

(a) Compost products derived from compostable materials that contain any metal in amounts that exceed the maximum acceptable metal concentrations shown in Table 2 shall be designated for disposal, additional processing, or other use as approved by state or federal agencies having appropriate jurisdiction.

Table 2—Maximum Acceptable Metal Concentrations

Constituent	*Concentration (mg/kg) on dry weight basis*
Arsenic (As)	41
Cadmium (Cd)	39
Chromium (Cr)	1200
Copper (Cu)	1500
Lead (Pb)	300
Mercury (Hg)	17
Nickel (Ni)	420
Selenium (Se)	36
Zinc (Zn)	2800

(b) Alternative methods of compliance to meet the requirements of Subdivision (a) of this section, including but not limited to sampling frequencies, may be approved by the EA for green and food materials composting operations and facilities if the EA determines that the alternative method will ensure that the maximum acceptable metal concentrations shown in Table 2 are not exceeded.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of first paragraph filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of first paragraph refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4–7–97 order transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
5. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
6. Change without regulatory effect amending subsection (b) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17868.3. Pathogen Reduction.

(a) Compost products derived from compostable materials, that contains pathogens in amounts that exceed the maximum acceptable pathogen concentrations described in Subdivision (b) of this section shall be designated for disposal, additional processing, or other use as approved by state or federal agencies having appropriate jurisdiction.

(b) Operators that produce compost shall ensure that:

(1) The density of fecal coliform in compost, that is or has at one time been active compost, shall be less than 1,000 Most Probable Number per gram of total solids (dry weight basis), and the density of *Salmonella* sp. bacteria in compost shall be less than three (3) Most Probable Number per four (4) grams of total solids (dry weight basis).

(2) At enclosed or within–vessel composting process operations and facilities, active compost shall be maintained at a temperature of 55 degrees Celsius (131 degrees Fahrenheit) or higher for a pathogen reduction period of 3 days.

(A) Due to variations among enclosed and within–vessel composting system designs, including tunnels, the operator shall submit a system–specific temperature monitoring plan with the permit application to meet the requirements of Subdivision (b)(2) of this section.

(3) If the operation or facility uses a windrow composting process, active compost shall be maintained under aerobic conditions at a temperature of 55 degrees Celsius (131 degrees Fahrenheit) or higher for a pathogen reduction period of 15 days or longer. During the period when the compost is maintained at 55 degrees Celsius or higher, there shall be a minimum of five (5) turnings of the windrow.

(4) If the operation or facility uses an aerated static pile composting process, all active compost shall be covered with 6 to 12 inches of insulating material, and the active compost shall be maintained at a temperature of 55 degrees Celsius (131 degrees Fahrenheit) or higher for a pathogen reduction period of 3 days.

(c) Alternative methods of compliance to meet the requirements of Subdivision (b) of this section may be approved by the EA if the EA determines that the alternative method will provide equivalent pathogen reduction.

(d) Compost operations and facilities shall be monitored as follows to ensure that the standards in Subdivision (b) of this section are met:

(1) Each day during the pathogen reduction period, at least one temperature reading shall be taken per every 150 feet of windrow, or fraction thereof, or for every 200 cubic–yards of active compost, or fraction thereof.

(2) Temperature measurements for pathogen reduction shall be measured as follows:

(A) Windrow composting processes and agitated bays shall be monitored twelve (12) to twenty–four (24) inches below the pile surface;

(B) Aerated static pile composting processes shall be monitored twelve (12) to eighteen (18) inches from the point where the insulation cover meets the active compost.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of subsections (a) and (b)(1) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
3. Amendment of subsections (a) and (b)(1) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 4–7–97 order transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
5. Amendment of subsections (a), (b)(1)–(2) and (c) filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
6. Change without regulatory effect amending subsections (a), (b)(2)(A), (c) and (d) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 17868.4. Clean Green Material Processing Requirements.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
2. Amendment of first paragraph filed 1–9–98; operative 1–9–98 (Register 98, No. 2).
3. Repealer filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

§ 17868.5. Green Material Processing Requirements.

In order for a feedstock to be considered green material, as defined in section 17852(a)(21), the following requirements shall be met:

(a) The feedstock shall undergo load checking to ensure that physical contaminants are no greater than 1.0 percent of total weight. Load checking shall include both visual observation of incoming waste loads and load sorting to quantify percentage of contaminating materials.

(1) A minimum of one percent of daily incoming feedstock volume or at least one truck per day, whichever is greater, shall be inspected visually. If a visual load check indicates a contamination level greater than 1.0 percent, a representative sample shall be taken, physical contaminants shall be collected and weighed, and the percentage of physical contaminants determined. The load shall be rejected if physical contaminants are greater than 1.0 percent of total weight.

(b) Upon request of the EA, the operator shall take a representative sample of feedstock, physical contaminants shall be collected and weighed, and the percentage of physical contaminants determined.

(c) Any agricultural material handling operation using this material shall ensure the feedstock meets the metal concentration limits specified in Table 2 of section 17868.2.

(d) Facility personnel shall be adequately trained to perform the activities specified in this section.

(e) Any operation or facility using this feedstock shall maintain records demonstrating compliance with this section.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Change without regulatory effect amending first paragraph and subsection (c) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

Article 8. Composting Operation and Facility Records

§ 17869. General Record Keeping Requirements.

Except as provided in subsection (d), all compostable materials handling operations and facilities shall meet the following requirements:

(a) All records required by this Chapter shall be kept in one location and accessible for five (5) years and shall be available for inspection by authorized representatives of the board, EA local health entity, and other duly authorized regulatory and EAs during normal working hours.

(b) The operator shall record any special occurrences encountered during operation and methods used to resolve problems arising from these events, including details of all incidents that required implementing emergency procedures.

(c) The operator shall record any public complaints received by the operator, including:

(1) the nature of the complaint,

(2) the date the complaint was received,

(3) if available, the name, address, and telephone number of the person or persons making the complaint, and

(4) any actions taken to respond to the complaint.

(d) The operator shall record the quantity and type of feedstock received and quantity of compost and chipped and ground material produced. Agricultural compostable materials handling operations shall maintain records only for compostable material accepted from off–site.

(e) The operator shall record the number of load checks performed and loads rejected.

(f) The operator shall record all test results generated by compliance with Article 7 of this Chapter, including but not limited to, metal concentrations, fecal coliform and *Salmonella* sp. densities, temperature measurements, and dates of windrow turnings.

(1) The operator shall retain records detailing pathogen reduction methods.

(g) The operator shall record and retain records of any serious injury to the public occurring on–site and any complaint of adverse health effects to the public attributed to operations. Serious injury means any injury that requires inpatient hospitalization for a period in excess of 24 hours or in which a member of the public suffers a loss of any member of the body or suffers any degree of permanent disfigurement.

(h) The operator shall retain a record of training and instruction completed in accordance with section 17867.5.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New article 3 and section filed 7–15–93; operative 7–15–93 (Register 93, No. 29).
2. Repealer of article 3, new article 8 and repealer and new section filed 6–30–95; operative 7–30–95 (Register 95, No. 26).
3. Amendment of subsection (d) filed 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–5–97 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (d) refiled 4–7–97 as an emergency; operative 4–7–97 (Register 97, No. 31). A Certificate of Compliance must be transmitted to OAL by 12–1–97 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4–7–97 order transmitted to OAL 11–25–97 and filed 1–9–98 (Register 98, No. 2).
6. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).

Article 9. Composting Facility Site Restoration

§ 17870. Site Restoration.

All compostable materials handling operations and facilities shall meet the following requirements:

(a) The operator shall provide the EA written notice of intent to perform site restoration, at least 30 days prior to beginning site restoration.

(b) The operator(s) and owner(s) shall provide site restoration necessary to protect public health, safety, and the environment.

(c) The operator shall ensure that the following site restoration procedures are performed upon completion of operations and termination of service:

(1) The operation and facility grounds, ponds, and drainage areas shall be cleaned of all residues including, but not limited to, compost materials, construction scraps, and other materials related to the operations, and these residues legally recycled, reused, or disposed of.

(2) All machinery shall be cleaned and removed or stored securely.

(3) All remaining structures shall be cleaned of compost materials, dust, particulates, or other residues related to the composting and site restoration operations.

Chapter 3.5. Standards for Handling and Disposal of Asbestos Containing Waste

Article 1. General

§ 17897. Purpose, Scope and Applicability.

(a) The purpose of this chapter is to establish minimum standards that define the acceptable management of asbestos containing waste. The standards of this chapter apply only to the owner or operator of a solid waste facility who disposes of asbestos containing waste, pursuant to Health and Safety Code section 25143.7.

(b) Nothing in these Articles shall be construed as relieving any owner, operator, or designee from the obligation of obtaining all required permits, licenses, or other clearances and complying with all orders, laws, regulations, or reports, or other requirements of other regulatory or enforcement agencies, including but not limited to, local health agencies, regional water quality control boards, air quality management districts or air pollution control districts, local land use authorities, and fire authorities.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New chapter 3.5 (articles 1–5, sections 17897–17897.25), article 1 (sections 17897–17897.15) and section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order, including new subsection (a) designator and new subsection (b), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 17897.10. Definitions.

The following definitions are to used only for the purposes of this Chapter.

"Adequately wet" means waste that is sufficiently mixed or penetrated with liquid to prevent the release of finely divided particles. Spraying water over the surface of asbestos containing waste does not satisfy "adequately wet" requirement.

"Asbestos Containing Waste" or "ACW" means asbestos containing waste managed at a landfill as authorized by section 25143.7, chapter 6.5 of the California Health and Safety Code which contains greater than one percent (1%) friable asbestos by weight. Asbestos containing waste does not include waste contaminated with another hazardous waste as identified in chapter 11. division 4.5, title 22, California Code of Regulations.

"Designated Asbestos Containing Waste Disposal Area" means an area specifically designated for the disposal of asbestos containing waste at a solid waste facility. A specifically designated area is a dedicated disposal area. The area shall be identified on a survey plat containing the location and dimensions of the area with respect to permanently surveyed vertical and horizontal control monuments. This survey plat shall be prepared and certified by a professional land surveyor licensed in California or a civil engineer authorized to practice land surveying in California. The designated area shall be delineated with physical barriers, such as a fence, and signs.

"Disposal" means the final deposition of asbestos containing waste onto the land, into the atmosphere or into the waters of the state.

"Enforcement Agency" means the California Integrated Waste Management Board or its designee.

"Excavation" means any activity that exposes buried asbestos containing waste to the atmosphere.

"Handling" means the collection, processing, treatment, or packaging of asbestos containing waste for disposal.

"Leak tight" means that solids or liquids cannot escape or spill out. It also means dust tight.

"Natural barrier" means a natural object that effectively precludes or deters access. Natural barriers include physical obstacles such as cliffs, lakes, or other large bodies of water, deep and wide ravines, and mountains. Remoteness by itself is not a natural barrier.

"Solid waste facility" means any class II or class III landfill as defined in sections 2532 and 2533, chapter 15, title 23, California Code of Regulations (CCR); and any unclassified waste management unit which accepts inert waste as defined in section 2524, chapter 15, title 23, CCR.

"Visible emissions" means any emissions that are visually detectable without the aid of instrument, coming from asbestos containing waste or from handling and disposal of asbestos containing waste. This does not include condensed uncombined water vapor.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code; and 40 CFR Part 61 Section 140, Subpart M.

HISTORY

1. New section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of first paragraph and definition of "Natural barrier" (Register 97, No. 3).
3. Certificate of Compliance as to 8–1–96 order, including amendment to definition of "Asbestos Containing Waste" and amendment of NOTE, transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 17897.15. Schedules of Compliance.

(a) The owner or operator of a solid waste facility that disposes of asbestos containing waste (ACW) in accordance with section 25143.7 of the Health and Safety Code on or after August 1, 1996 and does not possess a solid waste facilities permit shall:

(1) Comply with the security, inspection, manifest system, recordkeeping and reporting requirements specified in this chapter on or before October 30, 1996.

(2) Implement the approved change(s) according to a schedule of compliance established by the Enforcement Agency.

(3) Obtain a solid waste facilities permit on or before November 29, 1997.

(b) The owner or operator of a solid waste facility that disposes of ACW in accordance with section 25143.7 of the Health and Safety Code

on or after August 1, 1996 and has a solid waste facilities permit which regulates the disposal of asbestos containing waste shall:

(1) Comply with the security, inspection, manifest system, record-keeping and reporting requirements specified in this chapter on or before October 30, 1996.

(2) Implement the approved change(s) according to a schedule of compliance established by the Enforcement Agency.

(3) Obtain approval for RDSI amendments on or before November 29, 1997.

(c) The owner or operator of a solid waste facility that disposes of ACW in accordance with section 25143.7 of the Health and Safety Code on or after August 1, 1996 and has a solid waste facilities permit which does not regulate the disposal of asbestos containing waste shall:

(1) Comply with the security, inspection, manifest system, record-keeping and reporting requirements specified in this chapter on or before October 30, 1996.

(2) Implement the approved change(s) according to a schedule of compliance established by the Enforcement Agency.

(3) Obtain a revised solid waste facilities permit on or before November 29, 1997.

(d) The owner or operator of a solid waste facility that has not disposed of ACW in accordance with section 25143.7 of the Health and Safety Code on or before August 1, 1996 and intends to dispose of ACW shall file an application for a permit revision request pursuant to article 3.1, chapter 5 of this division to the Enforcement Agency and comply with the provisions specified in this chapter.

(e) The owner or operator of a new solid waste facility who intends to dispose of ACW in accordance with section 25143.7 of the Health and Safety Code after August 1, 1996 shall file an application for a new permit pursuant to article 3.1, chapter 5 of this division to the Enforcement Agency and comply with the provisions specified in this chapter.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order, including amendment of subsections (a) and (e), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Article 2. Standards

§ 17897.16. General Standards.

The owner or operator of any solid waste facility that disposes of asbestos containing waste shall ensure that the designated asbestos containing waste disposal area complies with requirements specified in this division. The designated asbestos containing waste disposal area shall be located, designed, constructed, operated and maintained so that it will protect public health, worker safety, and the environment.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New article 2 (sections 17897.16–17897.20) and section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 17897.18. Design and Operating Requirements.

The owner or operator of a solid waste facility that disposes of asbestos containing waste shall:

(a) establish a designated asbestos containing waste disposal area for the disposal of asbestos containing waste as defined in section 17897.10;

(b) establish a site control program with work zones and control points at the designated asbestos containing waste disposal area. At a minimum, work zones should be established for the active face, designated disposal area, handling and support areas;

(c) segregate asbestos containing waste from refuse. At no time shall asbestos containing waste be disposed with refuse;

(d) establish a means to prevent any visible emissions outside the designated asbestos containing waste disposal area during handling and disposal operations;

(e) maintain the integrity of leak–tight containers and/or packaging at all times during the handling and disposal operations;

(f) minimize the release and exposure of asbestos containing waste after placement in the disposal area by not compacting the waste prior to application of cover, at no time shall compaction equipment come into contact with asbestos containing waste containers or packaging;

(g) after deposit, the owner or operator shall cover the asbestos containing waste with sufficient cover material to ensure complete coverage of the disposed asbestos containing waste and prevent re–exposure during continuing disposal operations.

(h) cover shall be applied to the asbestos containing waste at a frequency that minimizes releases to the environment and threats to human health, but at a minimum of once every operational hour. An alternative frequency may be prescribed if the Enforcement Agency deems it appropriate.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order, including amendment of subsection (h), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 17897.19. Additional Requirements.

(a) The owner or operator shall not accept asbestos containing waste without having received an Identification Number as described in section 66260.10, title 22, California Code of Regulations (CCR), following the procedure specified by the Department of Toxic Substances Control.

(b) In addition to any requirements already imposed on landfills by Title 14, Division 7, Chapter 3 (commencing with section 17200) and Chapter 5 (commencing with section 18010), and in lieu of any requirements imposed by Title 8 and Title 22, the owner or operator shall comply with the following requirements:

(1) Provide additional site security to that required in article 7.4 of chapter 3 of this division (commencing with section 17656) to prevent unauthorized entry of persons into the designated asbestos containing waste disposal area. These requirements include:

(A) A surveillance system which continuously monitors and controls entry by the public into the designated asbestos containing waste disposal area or means to control entry into the designated asbestos containing waste disposal area at all times, unless the entire facility meets the above requirements or the facility does not allow public access.

(B) Post warning signs as specified in this section around the designated asbestos containing waste disposal area. These signs must be posted in a manner so that a person can read them. These signs shall be at least 51 cm X 36 cm (20 inch x 14 inch) and state the following information:

DANGER
Asbestos Waste Disposal Site
Do Not Create Dust
Breathing Asbestos Is Hazardous To Your Health

The top line shall be in at least one and three fourths inch (4.4 cm) type. The second line shall be in at least one inch (2.5 cm) type. The third line shall be in at least three fourths inch (1.9 cm) type. The last line shall be in at least 48 point type. All four lines shall be in Sans Serif, Gothic or Block type. The line spacing shall be equal or greater to the height of the upper line. The legend shall be written in English, Spanish and in any other language predominant in the area surrounding the solid waste facility.

(2) In addition to disposal site records specified in article 7.3 of chapter 3 of this division (commencing with section 17636), maintain the additional information required by article 5, chapter 15, division 4.5, title 22, CCR as it relates to hazardous waste manifests and recordkeeping.

(A) The solid waste facility shall comply with the requirements of chapter 18, division 4.5, title 22, CCR as they apply to the notification/certification/treatment of asbestos containing waste prior to land disposal. At a minimum, the solid waste facility should ensure that the asbestos containing waste is adequately wet or treated so that it meets this standard prior to disposal.

(B) The solid waste facility shall maintain an operating record as part of the disposal site record. This operating record shall include the following information: the quantity and date of each shipment of asbestos containing waste received, the disposal location(s) of each shipment of asbestos containing waste, a summary report of all incidents which require implementation of the contingency plan, results of inspection required by section 17897.20, and training records as specified in subsection (c)(2)(B) of this section. The operating record shall be maintained until closure of the facility.

(3) Meet the requirements for financial responsibility for liability claims and closure and post closure as specified in articles 3.3 and 3.5 of chapter 5 of this division.

(c) The owner or operator shall at a minimum comply with the following additional requirements:

(1) The solid waste facility shall prepare a contingency plan. The contingency plan shall be designed to minimize the hazard to human health or the environment from unplanned sudden or non–sudden release of asbestos containing waste to the air, soil or water. The provisions of this plan shall be carried out immediately when a release could threaten human health or the environment.

(A) The contingency plan shall describe the actions facility personnel shall take in response to a release of asbestos containing waste. The plan shall describe arrangements agreed to by local emergency response agencies. The plan shall list names, addresses and telephone numbers of all persons qualified to act as emergency coordinators. This list shall be kept up to date. The plan shall list all emergency equipment located at the facility. This list shall be kept up to date. The plan shall include a description of each item on the list and a brief description of its capabilities. The plan shall describe a signal to begin evacuation, identify routes for evacuation, and identify alternate routes.

(B) The contingency plan shall be amended whenever: the regulations change, the plan fails, the facility changes in operation, the list of emergency coordinators changes, or the list of emergency equipment changes.

(C) The owner or operator shall note in the operating record the time, date, and details of any incident that requires implementing the contingency plan. Within 15 days after the incident, the owner or operator shall submit a written report on the incident to the Enforcement Agency.

(2) Solid waste facility personnel shall complete a program of classroom instruction or on–the–job training that teaches them to perform their duties in a way which ensures the facility's compliance with these requirements.

(A) The training program shall be directed by a person trained in asbestos waste management procedures. At a minimum, the training program shall be designed to ensure that facility personnel are capable of responding effectively to an emergency by familiarizing them with the contingency plan. Personnel shall successfully complete the training described within six months of their assignment to duties which manage asbestos containing waste. Personnel shall also take part in an annual review of the initial training. No personnel shall work unsupervised until they have completed the training described in this section.

(B) The owner or operator shall maintain the following documents and records at the facility: a job title for each job related to asbestos containing waste management and the name of each person filling that job; a written description of that job title; a written description of the type and amount of training required for that job title; and records documenting that the training had been given.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order, including amendment of subsections (b)(1) and (b)(2), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

§ 17897.20. Inspection Requirements.

The owner or operator of a solid waste facility that disposes of asbestos containing waste shall inspect the facility. This inspection shall include but not be limited to the designated asbestos waste containing area for deterioration, operator errors, problems with cover, leakage and discharges that may be causing or may lead to: (1) releases to the environment; or (2) a threat to human health. The owner or operator shall maintain an inspection schedule that identifies the items to be inspected, the frequency of the inspection and identify the types of problems that are to be looked for during the inspection. The owner or operator shall conduct these inspections often enough to identify problems in time to correct them before they harm human health or the environment but at a minimum of once each operating day. The owner or operator must remedy any deterioration or malfunction of equipment or structures which the inspection reveals on a schedule which ensures that the problem does not lead to an environmental or human health hazard. Remedial action must be taken immediately where a hazard is imminent or has already occurred. The owner or operator shall maintain a record of these inspections. Notwithstanding section 17897.19(b)(2)(B), the reports resulting from these inspections need only be kept for three years from the date of the inspection.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Article 3. Excavation Requirements

§ 17897.21. Excavation Requirements.

(a) The owner or operator of any solid waste facility that disposes of asbestos containing waste shall ensure that the excavation or disturbance of buried asbestos containing waste will not pose a danger to the public, employees, and environment.

(b) Except as specified in subsection (g) of this section, an excavation management plan shall be prepared and submitted to the Enforcement Agency for review and approval at least 45 days prior to excavating or otherwise disturbing any asbestos containing waste that has been buried at the disposal area. The excavation management plan shall include the following information:

(1) Schedule starting and completion dates.

(2) Map showing the location of the area where buried asbestos containing waste is to be excavated or disturbed, locations of on–site structures, and environmental monitoring collection and control systems.

(3) Response for disturbing the waste.

(4) A health and safety plan identifying the health and safety issues regarding the proposed excavation and measures to be taken to protect public health, worker safety, and the environment. The plan shall be developed and prepared by an industrial hygienist certified by the American Board of Industrial Hygiene. This health and safety plan shall include work practices and engineering controls to be used to protect worker health and safety during excavation.

(5) Procedures to be used to control emissions during the excavation, storage, transport, and ultimate disposal of the excavated waste. The Enforcement Agency shall consult with the appropriate air quality control district or state Air Resources Control Board when evaluating the proposed emissions control procedures.

(6) Location of any temporary storage site and the final disposal site.

(c) The excavation management plan shall be prepared by a professional engineer or engineering geologist registered in California.

(d) If the excavation will begin on a date other than the date specified in the plan, the owner or operator shall notify the Enforcement Agency at least 5 calendar days prior to the rescheduled start date by certified mail. If the completion date is delayed, the owner or operator shall notify the Enforcement Agency of the new completion date at least 2 calendar days before the original scheduled completion date by certified mail.

(e) In evaluating the proposed excavation management plan, the Enforcement Agency will consider:

(1) whether the excavation is necessary to the proposed use of the site, and will not increase the potential hazard to human health or the environment;

(2) whether the excavation is necessary to reduce a threat to human health, employees, and the environment; and

(3) recommendations of the appropriate air quality control district and the regional water quality control board.

(f) No later than 30 calendar days from receipt of the plan, the Enforcement Agency shall respond to the applicant regarding completeness of the plan. If the plan is incomplete, the applicant will be notified which parts of the plan are incomplete and the manner with which the plan can be made complete. If additional review time is needed, the applicant will be notified within 30 days of submittal of the plan.

(g) The 45 day notice is not required if an emergency excavation is performed to prevent or diminish an imminent and substantial endangerment to human health or the environment. If an emergency excavation is required, the owner or operator shall give verbal notice to the Enforcement Agency prior to beginning the excavation activity and submit a written report to the Enforcement Agency within 15 days after the emergency excavation has been completed.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New article 3 (section 17897.21) and section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of subsections (b)(4) and (d) (Register 97, No. 3).
3. Certificate of Compliance as to 8–1–96 order, including amendment of subsection (b)(5), transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Article 4. Closure and Post Closure

§ 17897.24. General.

The owner or operator shall comply with all applicable closure and post closure requirements as specified in article 7.8, chapter 3 and article 3.4, chapter 5 of this division.

NOTE: Authority cited: Section 44820, Public Resources Code. Reference: Section 25143.7, Health and Safety Code.

HISTORY

1. New article 4 (section 17897.24) and section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Article 5. LEA Standards and Authorization

§ 17897.25. Authorized ACW Program.

Local Enforcement Agencies (LEA) shall meet the following requirements before being authorized to enforce this chapter.

(a) At a minimum, the LEA shall:

(1) meet the certification requirements as described in Article 2.1 of chapter 5 of this division.

(2) have provided field staff with training in compliance with Title 8 CCR, including but not limited to recognition of asbestos, respiratory protection, and selection and use of personal protective equipment. The LEA shall amend their Injury, Illness and Prevention Plan to comply with this requirement.

(3) submit an Enforcement Program Plan (EPP) amendment which addresses those elements modified by this authorization.

(4) have field staff trained in environmental sampling methodology and practice. The training shall include knowledge of sampling technique, field quality assurance/control, sample custody, sample collection and documentation.

(5) provide field staff with equipment necessary to comply with these requirement including but not limited to personal protective equipment and sample collection equipment.

(b) The LEA shall make an application for authorization to the Deputy Director of the Permitting and Enforcement Division of the California Integrated Waste Management Board by cover letter with documentation establishing that the requirements of subsection (a) have been met.

(c) The Board may make a provisional authorization to an LEA that meets the requirements of subsection (a)(1) and (2) of this section. A provisional authorization may authorize the LEA to implement specific provisions of this chapter. The Board may grant full authorization upon complete compliance with the provisions of this section.

(d) In jurisdictions where the Board does not authorize a local program, the Board will be the enforcement agency for ACW.

NOTE: Authority cited: Sections 43200 and 44820, Public Resources Code. Reference: Title 14, CCR, Division 7, Article 2.1, Chapter 5; and Title 8, CCR section 5192.

HISTORY

1. New article 5 (section 17897.25) and section filed 8–1–96 as an emergency; operative 8–1–96 (Register 96, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–29–96 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 8–1–96 order transmitted to OAL 11–27–96 and filed 1–13–97 (Register 97, No. 3).

Chapter 4. Resource Conservation Programs

Article 1. Recycling Market Development Zone Designation Process

§ 17900. Introduction.

For the purposes of this Article, both the question and answer in each section have regulatory effect for implementation and enforcement. In addition to the regulations in this Article, statutory provisions contained in Sections 42010 through 42023 of the Public Resources Code govern Recycling Market Development Zones. Sections 17914 and 17914.5 of this Article relate to Recycling Market Development Zone redesignation requests received at any time following conditional or final designation.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42013 and 42014, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).

2. Change without regulatory effect amending section and NOTE filed 7-8-94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of section and NOTE filed 7-10-95; operative 8-9-95 (Register 95, No. 28).

§ 17901. Definitions.

In addition to the definitions contained in Public Resources Code Sections 40100–40201 and 42002, the following definitions apply to the regulations contained in this Article.

(a) "Board" means the California Integrated Waste Management Board.

(b) "Compost" means the product resulting from the controlled biological decomposition of organic wastes that are source separated from the municipal solid waste stream or which are separated at a centralized facility. "Compost" includes vegetable, yard, and wood wastes which are not hazardous wastes.

(c) "Designation cycle" means the time it takes to complete all the steps that the Board and applicants take to establish Recycling Market Development Zones. The steps include requesting applications, preparing and submitting applications, evaluation applications, selecting zones, and making final designations as Recycling Market Development Zones.

(d) "Final designation" means an applicant has received written notification from the Board stating it has satisfactorily completed all the requirements for designation as a Recycling Market Development Zone.

(e) "May" means a provision is permissive.

(f) "Must" means a provision is mandatory.

(g) "Proposed Zone" means the geographic area identified in a Recycling Market Development Zone application for designation as a Recycling Market Development Zone.

(h) "Recycling Market Development Zone application" means the written application submitted to the Board, the contents of which are specified in section 17905 of this chapter.

(i) "Recycling Market Development Zone" or "Zone" is a geographic area as defined by Public Resources Code Section 42002(c).

(j) "Redesignation" means Board approval of an application as defined in section 17914, which describes proposed changes to a currently designated Recycling Market Development Zone. The proposed changes may include, but are not limited to, expansion of an existing Zone's boundaries, reduction of a Zone's boundaries, renewal of Zone designation, and change in boundaries of a Zone.

(k) "Zone administrator" means the person selected by the applicant to administer the activities of the Zone and report upon its activities to the Board.

(*l*) "Expansion" means the addition of a jurisdiction or jurisdictions to an existing Zone's boundaries.

(m) "Reduction" means the deletion of jurisdiction or jurisdictions from an existing Zone's boundaries.

(n) "Change in boundaries of a Zone" means the addition or reduction of land that does not involve the addition or deletion of a jurisdiction or jurisdictions.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 40050, 42002, 42010, 42014, 42019, 42020 and 42022, Public Resources Code.

HISTORY

1. New section filed 9-9-91; operative 10-9-91 (Register 92, No. 13).
2. New subsection (j) and subsection redesignation filed 3-7-94; operative 3-7-94 (Register 94, No. 10).
3. Change without regulatory effect amending opening paragraph, subsection (i) and NOTE filed 7-8-94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
4. Amendment of subsection (j) and new subsections (*l*)-(n) filed 9-7-2004; operative 10-7-2004 (Register 2004, No. 37).

§ 17902. How does a Recycling Market Development Zone designation cycle start?

(a) By March 31 of each year, if and when the Board determines a need for additional zones, it will evaluate the maximum number of new Recycling Market Development Zones to be designated and initiate a new cycle. The Board will identify the statewide recycling market development objectives for the designation cycle. These are described in Section 17909.

(b) Within 120 calendar days of the action taken in (a) above, the Board will mail a notice to all who have made a written request to receive notification, announcing the date when a Recycling Market Development Zone designation cycle will begin. The notice will state the number of the Zones the Board will designate during the designation cycle and will list the statewide recycling market development objectives and their priority of importance.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42013–42014, Public Resources Code.

HISTORY

1. New section filed 9-9-91; operative 10-9-91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7-8-94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 9-7-2004; operative 10-7-2004 (Register 2004, No. 37).

§ 17903. What is the deadline for getting my application to the Board?

You must submit an original and four copies of your application to the Board by 4:00 p.m. on the one hundred twentieth (120) day after the commencement date of a designation cycle.

HISTORY

1. New section filed 9-9-91; operative 10-9-91 (Register 92, No. 13).

§ 17904. What if the Board receives my application after the deadline?

Your application will not be reviewed. The Board will notify you in writing within a minimum of seven days and a maximum of 30 days of the date it received your application to tell you that your application will not be reviewed because it was late. The median timeframe for notification is 21 days.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Section 42013, Public Resources Code.

HISTORY

1. New section filed 9-9-91; operative 10-9-91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7-8-94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

§ 17905. What do I need to include in my Zone application?

Your Zone application must include all the items listed in (a) through (g), below. When the Board reviews your application, it will consider only the information in your application.

(a) The name(s) and address(es) of the applicant or applicants, and

(b) The name, address, and phone number of the Proposed Zone's administrator, and

(c) The location of the Proposed Zone, as follows:

(1) A narrative description of the Proposed Zone's boundaries and location within the State of California, and

(2) On a street map, clearly identify the streets that mark the boundaries of the Proposed Zone, and

(3) A copy of the existing general zoning and land use maps for the Proposed Zone's area and the area immediately surrounding it. Clearly identify the boundaries of the Zone on this map, and

(d) Letters of support and commitment from all cities, counties, agencies, organizations, financial institutions, and businesses, including all suppliers of recovered materials, which you have identified in the application as having a role in the Proposed Zone, and

(e) A copy of the resolution or ordinance, from each governing body having jurisdiction over any portion of a Proposed Zone, that makes the findings required by Section 42010(b) of the Public Resources Code, and

(f) A detailed recycling market development plan, as described in Section 17907, and

(g) A statement describing how you intend to satisfy the California Environmental Quality Act or demonstration of California Environmental Quality Act compliance.

(h) A statement demonstrating the Zone's commitment to environmental justice and to protecting the environment and public health and safety in a manner that does not unfairly affect any low–income and minority populations.

NOTE: Authority cited: Sections 40502, 42013 and 71110, Public Resources Code. Reference: Sections 42010(b), 42015 and 71110(a), Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending subsection (e) and NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of subsection (g), new subsection (h) and amendment of NOTE filed 9–7–2004; operative 10–7–2004 (Register 2004, No. 37).

§ 17906. What will the Board consider when reviewing my application?

When the Board reviews you application, it will consider only the information in your application.

(a) First, the Board will review applications to determine that they are complete and meet the eligibility requirements that are described in section 42002(c) of the Public Resources Code. Within 21 calendar days of receiving an application, the Board will send an Initial Review Letter to the applicant, stating that the Board has received their application. The Board's minimum timeframe for completing an Initial Review is seven days. The median timeframe is 14 days. The maximum time frame is 21 days. The Initial Review Letter will specify any deficiencies regarding completeness or eligibility and grant the applicant 14 calendar days from the date on the letter to correct the deficiencies and submit the changes to the Board. The Board must receive the changes by 4:00 p.m. on the 14th day.

(1) Within the 21 day initial review period an applicant can make administrative changes such as changing the name of the contact person, submitting missing pages or correcting calculation or typographical errors. An applicant cannot make changes to the recycling market development plan or change the size of the proposed zone during this time.

(2) If more than one application includes the same area, or portion of an area, the Board will notify the applicants, in writing, within the 21 day Initial Review period. The applicants must resubmit their applications without overlapping areas within 30 calendar days of the date on the notification letter. The Board must receive your modified application by 4:00 p.m. on the 30th day.

(b) The Board will evaluate your application's recycling market development plan and, if it is accepted, will review it against the statewide recycling objectives.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Section 42020, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending subsection (a) and NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

§ 17907. What information must be included in my recycling market development plan?

The plan shall include, but is not limited to, the following information:

(a) An analysis of how the Zone will be supplied with the necessary feedstock to support the number and types of businesses planned for development within the Zone.

(b) A marketing plan that describes how the Zone will attract new, and expand existing, businesses.

(c) A description of the funding and organizational structure of the Zone.

(d) A description of the incentives the local governments plan to offer to businesses in the Zone.

(e) A description of the financial support that will be available to businesses in the Zone.

(f) An analysis as to whether the available or planned public works system will be able to support the Zone.

(g) A description of the real property and buildings available in the Zone for market development purposes.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42012, 42014 and 42015, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

§ 17908. What happens if my recycling market development plan is accepted?

The Board will review your plan to see if it demonstrates that it is well–developed enough to succeed. If the Board accepts your plan, it qualifies for evaluation in relation to the statewide recycling market development objectives listed in section 17909 of this Article. The Board will select those plans which best support these objectives.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42015 and 42020, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

§ 17909. What are statewide recycling market development objectives?

Statewide recycling market development objectives focus on State of California recycled materials market development policy and needs and are defined by the Board prior to the commencement of each designation cycle. The relative importance of these objectives may change from one designation cycle to another to reflect the current recycled materials market. The relative importance of each objective will be stated at the beginning of a designation cycle in the Board's notice of commencement of each designation cycle. Statewide objectives include, but are not limited to:

(a) To extend the landfill capacity available to the applicant's jurisdiction and region.

(b) To encourage advance in recycling technology.

(c) To distribute zones to encourage statewide recycling.

(d) To stimulate the development of markets for recycled materials.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42015 and 42019, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

§ 17910. What happens if the Board designates my area as a Zone?

(a) The Board will send you a letter, hereafter referred to as "Notification," within a minimum of 90 and a maximum of 120 calendar days of the application deadline and tell you whether or not you were selected as a Recycling Market Development Zone. The medial timeframe for sending you notification is 110 calendar days. If the Board designates your area as a Zone, the Notification may state that the designation is conditional and specify certain conditions that you must satisfy in order to receive final designation from the Board.

(b) Actions you must complete within 90 calendar days prior to receiving final designation may include, but are not limited to, the following:

(1) You must submit copies of all finalized multi–jurisdictional agreements.

(2) You must demonstrate compliance with the California Environmental Quality Act.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42014 and 42015, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

3. Amendment filed 9–7–2004; operative 10–7–2004 (Register 2004, No. 37).

§ 17911. I have completed all conditions listed in my Notification. When can I get final designation?

(a) After you satisfy all the conditions in your Notification, you must apply in writing for final designation. The Board must receive your request for final designation within 120 calendar days from the date of the Notification. Your request for final designation must document that you meet the conditions that were specified in your Notification. The Board will make its determination within a minimum of 45 calendar days and a maximum of 90 calendar days of receipt of your request for final designation. The median timeframe is 75 calendar days.

(b) If you do not satisfy all the conditions of your Notification within the 120 calendar day time period, you will forfeit your designation status.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Sections 42014 and 42015, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 9–7–2004; operative 10–7–2004 (Register 2004, No. 37).

§ 17912. When does my final designation become effective?

Your final designation becomes effective on the date the Board awards final designation. At that time, you become eligible to receive low–interest loans pursuant to section 42145, Public Resources Code.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Section 42014, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

§ 17913. Do I have to submit regular reports?

Yes. By March 31 of each year, you must submit a report to the Board. At a minimum, the report must include the following:

(a) The names and addresses of the recycling businesses in the Zone, and

(b) The types and amounts of postconsumer or secondary waste materials used as feedstock by recycling businesses in the Zone.

(c) Any marketing efforts undertaken and the outcomes of these efforts.

NOTE: Authority cited: Sections 40502 and 42013, Public Resources Code. Reference: Section 40507, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 13).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 9–7–2004; operative 10–7–2004 (Register 2004, No. 37).

§ 17913.5. Can a Zone Terminate Its Zone Designation?

Yes, a Zone can terminate its Zone designation. A zone that wishes to terminate its Zone designation, must submit the following:

(a) A letter from the Zone Administrator requesting termination of Zone designation.

(b) Copies of resolutions or ordinances from each affected jurisdiction within the zone boundaries requesting termination of Zone designation.

Within 14 calendar days of receiving the above documents, Board staff will review the documents to make sure that the requirements in sections (a) and (b) above have been met. Upon determination that the requirements have been met, a letter will be sent to the Zone Administrator informing that Zone related services by the Board will cease and the Zone designation has been terminated.

NOTE: Authority cited: Sections 40502 and 42023, Public Resources Code. Reference: Sections 42013 and 42014, Public Resources Code.

HISTORY

1. New section filed 9–7–2004; operative 10–7–2004 (Register 2004, No. 37).

§ 17914. Can a Zone be redesignated?

Yes, the Board may redesignate a Zone. The Zone Administrator must submit an application to the Board describing proposed changes to the existing Zone plan. Changes to an existing Zone plan may include, but are not limited to: a request for renewal of a current Zone designation; any request for approval of an expansion or reduction or change in boundaries of a Zone. For redesignation applications that seek renewal of a current Zone designation, a completed application must be submitted to the Board at least 60 calendar days prior to the Zone's expiration date. Each application for redesignation must include, but is not limited to, the following:

(a) The name(s) and address(es) of the redesignation applicant or applicants and the Zone Administrator.

(b) A statement of the purpose for submitting the redesignation application, selected from the following categories:

(1) renewal of designation, or

(2) zone expansion, or

(3) reduction or

(4) change in boundaries.

(c) Documents depicting the location of the proposed redesignation area, as follows:

(1) A description of the redesignation area's boundaries and location within the State of California,

(2) A street map identifying the streets that mark the boundaries of the redesignation area on a street map, and

(3) For redesignation categories (1), (2), (3) and (4) listed in section (b) above, copies of the existing general zoning and land use maps for the proposed redesignation area and the area immediately surrounding it. Clear identification of the boundaries of the proposed changes to the Zone should be on the maps;

(d) For redesignation categories (1), and (2), listed in section (b) above, a copy of the Notice of Determination which has been filed with the State Clearinghouse in the Office of Planning and Research as evidence of compliance with the California Environmental Quality Act (Public Resources Code sections 21000 et seq.) as it applies to the proposed changes in the Zone.

(1) Copies of any multi–jurisdictional agreements that pertain to the administration of an existing Zone.

(2) A statement demonstrating the Zone's commitment to environmental justice and to protecting the environment and public health and safety in a manner that does not unfairly affect any low–income and minority populations.

(e) For a redesignation application submitted to obtain renewal of a designation.

(1) A discussion of why redesignation is sought

(2) A copy of the resolution or ordinance from each governing body having jurisdiction over areas included in the Zone boundaries that makes the findings required by Section 42010(b) of the Public Resources Code;

(3) Copies of any multi–jurisdictional agreements that pertain to the administration of the existing Zone.

(4) An updated Market Development Plan that meets the requirements in CCR Section 17907(a)–(g).

(f) For a redesignation application that will result in expansion of a Zone:

(1) A statement of justification concerning why the expansion is necessary, how it will complement the existing Zone, and how this proposed expansion will create additional markets for recyclable materials;

(2) Copies of resolutions from each governing body having jurisdiction over any portion of the current Zone for which redesignation is being requested that supports the proposed expansion;

(3) Copies of resolutions or ordinances from each governing body having jurisdiction over areas not currently included in the Zone boundary that makes the findings required by Section 42010(b) of the Public Resources Code; and

(4) A Supplemental Recycling Market Development Plan which shall include, but is not limited to, the following:

(A) An analysis of how the new area of the Zone will be supplied with the necessary feedstock to support the number and types of businesses planned for development within the Zone.

(B) A marketing plan that describes how the new area of the Zone will attract new businesses, and expand existing businesses.

(C) A description of how the new area of the Zone will be funded and fit into the organizational structure of the current Zone, and an organizational chart of the proposed Zone.

(D) A description of the incentives the local governments plan to offer to businesses in the new area of the Zone.

(E) A description of the financial support that will be available to businesses in the new area of the Zone.

(F) An analysis of the available or planned public works systems that will be available to support the new area of the Zone.

(G) A description of the real property and buildings available in the new area of the Zone for market development purposes.

(5) Letters of commitment and support for the new Zone area, from jurisdiction entities having a role to play in implementing the expanded Zone's Market Development Plan.

(g) For redesignation applications submitted that will result in reduction in the area of a Zone, a description of the proposed change in the Zone boundaries and a copy of the resolution or ordinance from each governing body having jurisdiction over the area of the reduction.

(h) For redesignation applications submitted that will result in change in boundaries of a zone,

(1) A description of the proposed change in the Zone boundaries

(2) Copy of the resolution or ordinance from the jurisdiction having governing authority on the proposed change in boundaries.

(3) A statement describing how you intend to satisfy the California Environmental Quality Act or demonstration of California Environmental Quality Act compliance.

(4) A statement demonstrating the Zone's commitment to environmental justice and to protecting the environment and public health and safety in a manner that does not unfairly affect any low–income and minority populations.

NOTE: Authority cited: Sections 40502, 42013, 42014 and 71110, Public Resources Code. Reference: Sections 42010, 42012, 42014, 42015, 42016 and 71110(a), Public Resources Code.

HISTORY

1. New section filed 3–7–94; operative 3–7–94 (Register 94, No. 10).
2. Amendment of first paragraph and subsection (a), repealer and new subsections (b)–(f), new subsections (g)–(h), and amendment of NOTE filed 7–10–95; operative 8–9–95 (Register 95, No. 28).
3. Amendment of section and NOTE filed 9–7–2004; operative 10–7–2004 (Register 2004, No. 37).

§ 17914.5. What is the Board's process for reviewing Zone redesignation applications and redesignating Zones?

(a) Upon receipt of your application for redesignation, the Board will review the application to determine that it is complete. Within 21 calendar days of receiving an application for redesignation, the Board will send an Initial Review Letter to the applicant, stating that the Board has received the application.

The minimum time frame for completing the Initial Review is seven calendar days. The median time frame is 14 calendar days. The maximum time frame is 21 calendar days.

The Initial Review Letter will notify each applicant of the date that the application was received, and whether the application is complete or incomplete. If the application is incomplete, the Initial Review Letter will specify any deficiencies regarding completeness or eligibility and grant the applicant 14 calendar days from the date of the letter to correct the deficiencies and submit the changes to the Board.

The Board must receive the noted changes by 4:00 p.m. on the 14th day from the date the letter is sent. Within ten calendar days of receiving the additional information requested by staff in the Initial Review Letter, the Board will notify each applicant whether the application is complete or incomplete.

(1) At any time within the 21 day Initial Review period, and prior to receiving the Board's Initial Review Letter, an applicant can make minor administrative changes such as changing the name of a contact person, submitting missing pages or correcting minor errors.

(b) The Board will conduct a Technical Review of the application, to evaluate the Market Development Plan for its technical adequacy and its ability to succeed. The Technical Review will begin no later than 14 calendar days after the Board's receipt of a complete application for Redesignation. The minimum time frame for completing the Technical Review is seven calendar days. The median time frame is 14 calendar days. The maximum time frame is 21 calendar days.

Following the Technical Review, a letter will be sent to the applicant specifying any technical deficiencies in the application. The applicant shall have 14 calendar days to correct the noted deficiencies and submit changes to the Board. The Board must receive changes by 4:00 p.m. on the 14th day from the date the letter is sent.

(1) Within the 21 day Technical Review period, and prior to receiving the Board's Technical Review Letter, an applicant may correct technical deficiencies as identified in the technical review of the application such as additional analysis regarding targeted feedstock for market development purposes, development of matching local incentives and sources of funding, property and infrastructure availability, inclusion of clearly stated goals and objectives, specific strategy for business attraction and retention efforts, specific strategy for advertising and promotion of the Zone, and administration and funding sources.

(c) Upon receipt of corrections of technical deficiencies identified in the technical review by staff, the Board will either grant or deny the request for redesignation. The redesignation will take effect upon the Board's formal approval.

The Board will send a "Notification" letter to the applicant informing it of its decision, within 14 calendar days of its decision. If an applicant is denied redesignation it may reapply.

(1) If the Board grants conditional redesignation of a Zone, the Notification letter will specify conditions of approval that must be satisfied prior to final redesignation. The applicant will have 120 calendar days from the date of the Notification letter to satisfy the conditions of redesignation.

The Board must receive a written request from the Zone applicant for final redesignation. If conditions of redesignation are not satisfied within the 120 calendar day period, redesignation status will not be approved. The applicant may reapply for redesignation

Article 1.1. Recycling Market Development Revolving Loan Program

§ 17930. Purpose of the Recycling Market Development Revolving Loan Program.

The Recycling Market Development Revolving Loan Program (Program) provides an alternative source of financing for recycling–based businesses, non–profit organizations, and public entities to increase the diversion of non–hazardous solid waste from California landfills and to promote market demand for secondary and postconsumer materials. It assists the Board and local agencies comply with Public Resources Code Sections 40051 and 41780, respectively, and helps local Recycling Market Development Zones (RMDZs) meet the market development goals identified in their recycling market development plans, required by Section 17907 of this Chapter, by fostering recycling–based business development within the RMDZs.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42010 and 42023.1, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48). For prior history, see Register 91, No. 14.
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of article heading, section heading and section filed 9–15–97; operative 9–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 38).
4. Amendment of section and NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17931. Definitions.

(a) "Applicant" means an entity that is applying for a Loan.

(b) "Application" means the information an Applicant must provide to the Board when seeking a loan.

(c) "Board Loan Committee" or "Loan Committee" means the committee referred to and established in Section 17935.5 of this Chapter.

(d) "Borrower" means an Applicant whose application has been approved and who has executed a Loan Agreement.

(e) "Board" means California Integrated Waste Management Board.

(f) "CEQA" is the California Environmental Quality Act found in Public Resources Code Sections 21000, et seq.

(g) "Capital Improvements" means physical improvements to publicly owned land, including buildings, structures and fixtures or attachments of a permanent or semi–permanent nature, including large equipment, erected on and affixed to the land.

(h) "Designation" means a Zone Applicant has received written notification from the Board stating it has satisfactorily completed all the requirements for designation as a Recycling Market Development Zone.

(i) "Infrastructure" means the basic facilities, such as sewer, water, transportation, and utility systems.

(j) "Loan" means a loan from the Recycling Market Development Revolving Loan Subaccount or the California Tire Recycling Management Fund.

(k) "Loan Agreement" means a written agreement between a Borrower and the Board for a Loan made in accordance with this Article.

(*l*) "May" means a provision is permissive.

(m) "Must" means a provision is mandatory.

(n) "Onerous Debt" means debt with high interest rates and/or short terms that causes a negative impact on the Borrower's cash flow and jeopardizes the Borrower's ability to convert to or expand its diversion of recycled or secondary material.

(o) "Phase I Assessment" means an assessment to be completed by a specialized engineering or consulting firm that provides a professional opinion, based on obvious evidence, as to the past and potential usage, storage, handling, or disposal of materials within the property that have been or may be toxic or hazardous, or may cause violations of state and/or federal laws, rules, or regulations pertaining to soil and water quality; and to identify past and potential off–site contaminant sources that did have, or may have an adverse environmental impact on the property. The assessment may be performed at the time of loan application or at any time during the life of the loan, as determined necessary by the Board. Hazardous materials and wastes that are to be identified include those meeting the definitions of Public Resources Code Section 40141 and Health and Safety Code Sections 25117 and 25501(k).

(p) "Postconsumer waste material" is defined in Public Resources Code Section 42002(b).

(q) "Project" means the activity for which a loan is requested.

(r) "Recycling Market Development Zone" or "Zone" is a geographic area as defined by Public Resources Code Section 42002(d).

(s) "Reuse" means to take a product, rather than a material, which has served its useful life or is factory defective, and provide some new value to the product, by reconditioning, reprocessing, or some other process which makes the product usable again for its original intended purpose.

(t) "Secondary waste material" is defined in Public Resources Code Section 42002(f).

(u) "Source reduction" is defined in Public Resources Code Section 40196.

(v) "Value added product" means an item which has increased in value or changed its character or composition through a manufacturing or reuse process. Collecting, sorting and/or baling of recycled or recovered materials for convenience or ease of transportation does not constitute adding value.

(w) "Zone administrator" is defined in Section 17901(j) of this Chapter.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48). For prior history, see Register 91, No. 14.
2. Change without regulatory effect amending subsections (r)–(t) and NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of subsections (c), (s) and (t) and amendment of NOTE filed 9–15–97; operative 9–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 38).
4. Amendment filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
5. Amendment of subsection (a), repealer of subsection (h), subsection relettering and amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17932. Eligible Applicants.

An eligible applicant is one whose project is located within the boundaries of the Recycling Market Development Zone. In the case of mobile operations, the primary business location for the project must be located within the boundaries of the Recycling Market Development Zone. Eligible applicants include:

(a) Businesses and not–for–profit organizations who:

(1) Practice, or propose to practice, appropriate source reduction; or

(2) Use or propose to use postconsumer or secondary waste materials to produce a value added product.

(b) Local governments or agencies who seek to provide infrastructure and/or capital improvements in support of organizations referred to Subsection (a) of this section.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.1, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48). For prior history, see Register 91, No. 14.
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).

3. Amendment of section and NOTE filed 9–15–97; operative 9–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 38).
4. Amendment filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
5. Amendment of first paragraph and NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17932.1. Tire Recycling Projects.

Loans made with funds from the California Tire Recycling Management Fund may be carried out in accordance with the process and/or eligibility criteria set forth in this Article and Public Resources Code Sections 42872–42875.

NOTE: Authority cited: Sections 40502 and 42881, Public Resources Code. Reference: Sections 42872, 42873 and 42874, Public Resources Code.

HISTORY

1. New section filed 6–14–93; operative 6–14–93 (Register 93, No. 25).
2. Repealer and new section filed 4–8–98; operative 5–8–98 (Register 98, No. 15).

§ 17933. Priority Projects.

Priority consideration shall be given to those projects that meet the following criteria:

(a) Demonstrate an ability to repay the loan;

(b) Increase market demand for the secondary or postconsumer waste material used in the project;

(c) Satisfy additional statewide recycling market development objectives as described in Section 17909 of this Chapter; and

(d) Satisfy additional priorities that are determined by the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.1, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending subsection (1) and NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Amendment of section and NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17934. Loan Amounts.

The maximum loan amount is three–fourths (3/4) of the cost of each project, not to exceed two million dollars ($2,000,000).

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4(a)(4), Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Change without regulatory effect amending section filed 4–7–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 14).
5. Repealer and new section and amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17934.1. Uses of Funds.

(a) For eligible businesses and not–for–profit organization applicants, loan funds may be used for:

(1) equipment purchases,

(2) real property purchases,

(3) working capital, or

(4) refinancing of onerous debt.

(b) For eligible local governments or agencies, loan funds shall be used only for publicly owned infrastructure and capital improvements located within the Zone which directly support recycling based business activities that would be eligible for a Loan.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.1, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of subsections (a) and (b) filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17934.3. Fees.

A non–refundable application fee of $300.00 shall accompany each loan application. A loan fee of 3 percent shall be charged upon loan closing. The Board reserves the right to periodically adjust the application and loan origination fees. The application fee and loan fee are considered part of the project cost and may be financed.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.1, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Amendment filed 6–14–93; operative 6–14–93 (Register 93, No. 25).
3. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
4. Amendment of section and NOTE filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
5. Amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17934.5. Interest Rate.

(a) The interest rate for loans is determined by the Board and is based on, but may vary from, the Surplus Money Investment Fund (SMIF) rate. The Board, as it deems appropriate, may adjust the interest rate semiannually, after the SMIF rate is announced by the Controller's Office in January and July of each year. The Board shall keep the interest rate as low as possible, consistent with current market conditions and the long–term sustainability of the Recycling Market Development Revolving Loan Program.

(b) The interest rate for loans funded through leveraging programs pursuant to Article 1.2 will be negotiated between the Board, the leveraging entity, and if applicable the lender.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
2. Amendment of section and NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935. Application Process.

(a) Applicants may submit their pre–applications and applications to the Board at any time throughout the year.

(b) Applicants shall not submit applications for approval by the Board unless a Zone has received designation or redesignation status, as defined in Section 17901(d) of this Chapter.

(c) The applicant may submit a pre–application, as determined by the Board, to obtain a rapid evaluation of applicant's or a project's eligibility, prior to submitting a full application.

(d) The Applicant must submit an application with original signatures to the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48). For prior history, see Register 91, No. 14.
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 9–15–97; operative 9–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 38).
4. Amendment of section and NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.1. Application Content.

(a) All Applicants must apply in writing for a loan. The Board may make a loan application form available to assist applicants in applying for a loan. A complete application may consist of a written request containing the following items:

(1) Characteristics of the business shall include the applicant legal name, physical address, mailing address, contact person's name and phone number, copy of business organizational documents, copies of business licenses and permits, business plan, key ownership and management resumes, list of all owners with percentage owned and titles, authorizations to obtain credit reports, a Recycling Market Development Zone Administrator's acknowledgement of the project; payment of a loan application fee, and certification of compliance with applicable laws and regulations to properly conduct and operate the business in California.

(2) Demonstration of ability to repay shall include the business historical and projected financial statements and income tax returns; key management and ownership personal financial statements and income tax returns; schedules of debts; facility lease agreement or copy of deed of trust on the project site; sources and uses of all project costs. The financial projections shall include a list of assumptions under which they were prepared that are reasonable and can be substantiated. The applicant may need to provide a feasibility study and cost break even analysis accounting for the fixed and variable costs to produce a product including the sales price of the product and the quantity of units that must be produced and sold to achieve a break even and profitable cash flow.

(3) Demonstration of the ability to collateralize the loan shall include a detailed list of assets that will secure the loan with documentation supporting the asset value such as appraisals, purchase orders, invoices, cancelled checks, or similar documents; and ownership verification such as deeds of trust, Uniform Commercial Code financing statements, Ownership Certificates. The Board reserves the right to discount the asset value based on age and remaining expected useful life.

(4) The applicant shall provide documentation to substantiate a matching funds requirement of twenty–five percent or more investment into the project. This shall be achieved by providing purchase orders, invoices, cancelled checks, supplemental financing commitment letters or promissory notes, executed investor agreements with evidence of transfer of funds, or other similar documents.

(5) Description of the project to be financed including the feedstock source, type, quantity and availability, the manufacturing process, end product specifications and marketability, current and projected tonnage of materials to be diverted from California landfills, public environmental reports and indemnification to discern the possible risks which may arise from hazardous waste or materials related to the project or previous operations at the site.

Additional information required from businesses and not–for–profit organizations is described in subsection (b) below. Local government or agency applicants must also provide the information requested in subsections (b) and (c) below.

(b) Applicant shall provide any further information or documentation deemed necessary by the Board to determine the creditworthiness of the Applicant, or the Applicant's ability to secure and repay the loan.

(c) Applications from local governments or agencies must contain the following additional information:

(1) A description of the local government's or agency's activities and responsibilities;

(2) The local government's or agency's annual financial operating statements for the previous three years;

(3) A governing board resolution granting authority to make application to the Board for a loan commitment.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of section and NOTE filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Amendment of subsection (a), new subsections (a)(1)–(a)(5) and amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.2. Loan Agreement.

Each Loan Agreement shall include, but not be limited to, the following terms and conditions:

(a) The interest rate of the loan as specified in Section 17934.5 of this Article.

(b) The term of the loan shall not exceed 10 years when collateralized by assets other than real estate, or not more than 15 years when partially or wholly collateralized by real estate.

(c) A description of the security and conditions.

(d) Timeframes for complying with the conditions of loan closing and any special conditions that must be satisfied prior to, or covenants which must be complied with after, the disbursement of funds.

(e) Identification of what is considered an event of default, including a provision that, upon failure to comply with the loan agreement, or if any information provided by the Applicant is found to be untrue, any remaining unpaid amount of the loan, with accrued interest, will be immediately due and payable, upon determination by the Board.

(f) A provision that the Borrower agrees to waive any claims against and to indemnify and hold harmless the State of California, including the California Integrated Waste Management Board, from and against any and all claims, costs, and expenses stemming from operation, maintenance, or environmental degradation at the site.

(g) Proof of adequate insurance for the business, naming the Board as loss payee, and when appropriate, naming the Board as additional insured, up to the amount of the loan.

(h) Submission of borrower's and guarantor's financial statements and tax returns, diversion reports, business insurance, and worker's compensation insurance, upon request by the Board.

(i) Any other provision needed to properly analyze and document a loan deemed necessary by the Board.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of subsections (a)–(e) and (g) filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Change without regulatory effect amending subsection (b) filed 4–7–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 14).
5. New subsection (h), subsection relettering, amendment of newly designated subsection (i) and amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.3. Process for Preliminary Review.

Upon receipt, Board staff shall review each application to determine whether the Applicant and/or Applicant's project is eligible for a loan, pursuant to Section 17932 of this Article, and whether the application is complete, pursuant to Section 17935.1 of this Article. Within 10 working days of receiving the application, the Board staff shall do one of the following:

(a) Send a letter to the Applicant indicating that the application is incomplete, or that the Applicant and/or Applicant's project is ineligible for a loan, and specifying the steps, if any, which the Applicant may take to correct identified deficiencies; or

(b) Notify the Applicant by letter that the Applicant and/or Applicant's project is eligible for a loan, and that the application is complete and shall be evaluated by the Board staff.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. New subsection (b) and amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.4. Process for Board Staff Review.

(a) The Board staff shall prepare an analysis of each application. Applications which meet the following criteria shall be recommended for approval to the Loan Committee, on a first come, first served basis:

(1) The Applicant is found creditworthy, and

(2) The collateral and the source of repayment are appropriate for the requested loan amount; and

(3) The Applicant has adequately demonstrated the appropriateness of the loan for use in the project as specified in Section 17935.1 of this Article.

(b) Where additional assistance may be needed from the Loan Committee for a determination, staff may forward those applications and analysis to the Loan Committee without a recommendation.

(c) Where the Applicant does not meet the criteria set forth in subsection (a), the Applicant will be notified in writing of its failure to meet the criteria and the process for appeal of the decision.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. New subsection (c) (reserved) and subsection (d) filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Amendment filed 7–30–98; operative 8–29–98 (Register 98, No. 31).
5. Amendment of subsection (a), repealer of subsection (b), subsection relettering and amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.5. Establishment of the Loan Committee.

(a) A Loan Committee is hereby established to assist the Board in meeting the goals of the Program.

(b) The Loan Committee shall be composed of not more than nine individuals appointed by the Board.

(c) The Loan Committee shall be comprised of a balanced cross–section of individuals from the commercial lending community, both public and private sectors, from throughout the state who demonstrate expertise in financial analysis and credit evaluation.

(d) Members of the Loan Committee shall each be appointed to a three–year term, except that the newly added members terms may be adjusted so that a staggered schedule of terms is established where not more than four members terms shall expire during any single calendar year.

(e) Vacancies shall be filled using the same procedures as used for the initial appointments, and shall be filled for the remaining portion of the respective terms.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Repealer and new section heading and section filed 9–15–97; operative 9–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 38).
4. Amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.55. Process for Loan Committee Review.

(a) The Loan Committee shall meet monthly or as needed.

(b) The Loan Committee shall evaluate the staff analysis of loan requests presented by Board staff pursuant to the Review Process of section 17935.4 of this Article.

(c) The Loan Committee shall recommend applications for approval based only on their financial soundness and their ability to meet the underwriting criteria as described in Section 17935.4(a) of this Article.

(d) The Loan Committee may advise the Board as requested on other aspects of the loan program.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
2. Amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17935.6. Board Approval.

(a) If the Board approves a loan, the Applicant and the Board shall enter into a Loan Agreement pursuant to the terms specified in Section 17935.2 of this Article. Funds shall be disbursed according to the terms of the Loan Agreement.

(b) The Board's loan committee shall be in effect for a period of 90 days following Board approval. The loan commitment may be extended, for cause, for an additional 90 days. Extension of the loan commitment beyond the second 90 day period shall occur only if agreed to by both the Board and the Applicant.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42023.4, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Repealer of subsection (a), subsection relettering, repealer of subsection (c), and new subsection (b) filed 4–8–98; operative 5–8–98 (Register 98, No. 15).
4. Amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17936. Auditing of Expenditures of Loan Proceeds.

The Board, or the Department of Finance, may audit the expenditure of the proceeds of any loan made pursuant to this Article.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42024, Public Resources Code.

HISTORY

1. New section filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48). For prior history, see Register 91, No. 14.
2. Change without regulatory effect amending NOTE filed 7–8–94 pursuant to section 100, title 1, California Code of Regulations (Register 94, No. 27).
3. Amendment of NOTE filed 9–15–97; operative 9–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 38).
4. Amendment of NOTE filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17937. Coordination with the County.

HISTORY

1. Change without regulatory effect repealing section filed 3–4–91 pursuant to section 100, title 1, California Code of Regulations; operative 3–4–91 (Register 91, No. 14).

§ 17938. Determination of Findings by the Board.

HISTORY

1. Change without regulatory effect repealing section filed 3–4–91 pursuant to section 100, title 1, California Code of Regulations; operative 3–4–91 (Register 91, No. 14).

§ 17939. Determination of Non–Conformance.

HISTORY

1. Change without regulatory effect repealing section filed 3–4–91 pursuant to section 100, title 1, California Code of Regulations; operative 3–4–91 (Register 91, No. 14).

Article 1.2. Leveraging the Recycling Market Development Zone Revolving Loan Fund

§ 17939.1. Purpose of Leveraging the Revolving Loan Fund.

The purpose of leveraging Board funds in the Recycling Market Development Revolving Loan Subaccount (Subaccount) is to increase the funding for loans to recycling–based businesses and to promote the long–term sustainability of the Recycling Market Development Revolving

Loan Program. Subaccount funds will be used to stimulate more lending by private banks, public institutions and non–profit organizations than the Board could make on its own to recycling–based businesses.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42023.1, 42023.6 and 42024, Public Resources Code.

HISTORY

1. New article 1.2 (sections 17939.1–17939.5) and section filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17939.2. Definition.

"Leverage" and "leveraging" means the expenditure, lending, investment or other uses of funds from the Recycling Market Development Revolving Loan Program Subaccount (Public Resources Code Section 42023.1) in a manner that generates or facilitates the generation of financial capital that is made available as loans to borrowers eligible for loans under the Board's Recycling Market Development Revolving Loan Program as described in Article 1.1 of this Chapter. Leveraging programs increase the number and value of loans for specified purposes beyond that which the Board, acting alone, could make. Typical examples of leveraging include, without limitation, pooling funds by multiple entities under specified arrangements to create a greater supply of loan capital for eligible borrowers, loan guarantee programs where an entity guarantees all or a portion of an eligible loan, and insurance where an entity assures that a loan will be repaid in a timely manner.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 40506.1, 42023.1, 42023.6 and 42024, Public Resources Code.

HISTORY

1. New section filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17939.3. Types of Leveraging Entities and Programs.

The types of leveraging programs in which the Board may participate, and financing entities with which the Board may contract, include but are not limited to:

(a) The Capital Access Program, that provides loan default insurance as a credit enhancement, pursuant to Public Resources Code 42023.6.

(b) The State Small Business Loan Guarantee program, that provides a state guarantee to entice bank and non–bank entities to lend to California small businesses, pursuant to California Corporations Code section 14000 et seq.

(c) Financial Development Corporations (FDC) that issue state loan guarantees, pursuant to California Corporations Code section 14000 et seq.

(d) Community Development Entities (CDE) for access to the New Markets Tax Credit (NMTC) program, pursuant to Title 1, Subtitle C, Section 121 of the Community Renewal Tax Relief Act of 2000.

(e) Community Development Financial Institutions (CDFI) for access to the Equity Equivalent Investment (EEI) and Program–Related Investment (PRI) programs, pursuant to Title 12, Chapter 47, Subchapter 1, Section 4701 et seq. of the United States Code.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42023.1, 42023.6 and 42024, Public Resources Code.

HISTORY

1. New section filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17939.4. Leveraging Activities.

The Board may initiate, coordinate or participate in activities, either directly or indirectly, in partnership with public, non–profit or private entities, or by itself, that leverage Recycling Market Development Revolving Loan Program Subaccount (Subaccount) funds. The leveraging of Subaccount funds may include, but is not limited to, the transfer and/or encumbrance of Subaccount funds for leveraging; the establishment of trust accounts for the receipt, retention and expenditure of funds designated for leveraging; the pooling of Subaccount funds with other individual or multiple entities under specified arrangements; the use of Subaccount funds in support of loan guarantee programs, where an entity guarantees all or a portion of an eligible loan, or as insurance where an entity assures that a loan will be repaid in a timely manner; the use of Subaccount funds for grants or loans to public, private or non–profit organizations to implement leveraging programs; and the acceptance of funds from investors and institutions.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42023.1, 42023.6 and 42024, Public Resources Code.

HISTORY

1. New section filed 10–18–2005; operative 11–17–2005 (Register 2005, No. 42).

§ 17939.5. Loan Sale.

(a) The Board may sell loans, either in bulk quantity or individually; in whole or in part; on a recourse or non–recourse basis; on an advance commitment, forward, or participation basis; and may retain or relinquish the servicing rights; (b) the Board shall not sell its loans if the loan sale results in more than a twenty–five percent (25%) discount of the principal amount, excluding any expenses or reserves required as a condition of the loan sale; and (c) all proceeds received from the sale of loans shall be deposited into the Recycling Market Development Revolving Loan Program Subaccount.

Article 2. Recycling Investment Tax Credit Program

§ 17940. Regulatory Effect of Questions.

NOTE: Authority cited: Section 40502, Public Resources Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 2).
2. Change without regulatory effect repealing section filed 3–15–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 12).

§ 17941. Recycling Investment Tax Credit Program.

NOTE: Authority cited: Section 40502, Public Resources Code; and Sections 17052.14 and 23612.5, Revenue and Taxation Code. Reference: Sections 17052.14 and 23612.5, Revenue and Taxation Code.

HISTORY

1. New section filed 9–9–91; operative 10–9–91 (Register 92, No. 2).
2. New subsections (f)(1)–(7) and (f)(13)–(14) and subsection renumbering, new subsections (h)(2)(A)–(C) and subsection redesignation filed 10–28–92; operative 11–27–92 (Register 92, No. 44).
3. Change without regulatory effect repealing section filed 3–15–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 12).

Article 3. Rigid Plastic Packaging Container Program

§ 17942. Regulatory Effect of Questions and Answers; Effective Dates.

(a) Both the question and answer in each section have regulatory effect for purposes of implementation and enforcement. In addition to the regulations in this article, statutory provisions contained in §§ 42300 through 42345 of the Public Resources Code govern the Rigid Plastic Packaging Container Program.

(b) The requirements of these regulations go into effect for all rigid plastic packaging containers except those identified in Section 17944.2 on January 1, 1995, and for all calendar years thereafter, if at least 60 percent of the single family homes in the state are served by curbside collection programs that include beverage container recycling by January 1, 1994.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Section 42300 et seq., Public Resources Code.

HISTORY

1. New article 3 (sections 17942–17949) and section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).

§ 17943. Purpose and Definitions.

(a) What is the purpose of these regulations?

These regulations provide guidance to those who must comply with the Rigid Plastic Packaging Container Program requirements, and in-

clude a description of the procedures that product manufacturers, container manufacturers, resin manufacturers, distributors, and importers must follow to meet reporting, certification, and documentation requirements. These regulations pertain only to rigid plastic packaging containers sold or offered for sale in California, regardless of where the containers or the products they hold are produced.

(b) Definitions.

The following definitions, as well as definitions found in Public Resources Code §§ 42300–42345, apply to the regulations in this Article.

(1) The "Board" means the California Integrated Waste Management Board.

(2) "Capable of Multiple Re–closure" means a rigid plastic packaging container that can be closed and re–closed with its attached or unattached relatively inflexible lid.

(3) "Cosmetic" means those articles pursuant to the federal Food, Drug and Cosmetic Act (21 U.S.C. 321 (i)), and pertinent regulations in effect as of January 1, 1994, which are 1) intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body or any part thereof for cleansing, beautifying, promoting attractiveness, or altering the appearance, and 2) articles intended for use as a component of any such articles; except that such term shall not include soap as defined in 21 C.F.R. 701.20(a)(1) and (2). Products intended for cleansing the human body and which are not "soap" as defined in 21 C.F.R. 701.20(a)(1) are classified as "cosmetics."

(4) "Container Manufacturer" means the manufacturer of any rigid plastic packaging container as defined in Section 17943(b)(30) of this Article.

(5) "Curbside Collection Program" means a recycling program that collects materials set out by homeowners for collection at the curb at intervals not less than every two weeks. "Curbside collection program" does not include redemption centers, buyback locations, drop–off programs, material recovery facilities, or plastic recovery facilities.

(6) "Drugs" mean those articles as defined in the federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(g)(1)) and pertinent regulations, which are as follows:

> articles recognized in the official United States Pharmacopoeia, official Homeopathic Pharmacopeoeia of the United States, or official National Formulary, or any supplement to any of them; and articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or ani-

[The next page is 771.]

mals; and articles (other than food) intended to affect the structure or any function of the body of man or other animals; and articles intended for use as a component of any article specified in the clauses.

Drugs include prescription, nonprescription, and over–the–counter drugs regulated pursuant to the federal Food, Drug and Cosmetic Act (21 U.S.C. 321).

(7) "Final End User" means the person who purchases a rigid plastic packaging container in order to use the product held by the container. The final end user is that person who removes the product from the container and discards the container. "Person," includes an individual, firm, organization, copartnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever.

(8) "Food" means those articles as defined in the federal Food, Drug and Cosmetic Act (21 U.S.C. 321(f)) and pertinent regulations, which are used for food or drink for man or other animals, chewing gum, and articles used for components of any such article.

(9) "Infant Formula" as defined in the federal Food, Drug and Cosmetic Act (21 U.S.C. 321(f)) and pertinent regulations, means food which a manufacturer claims is to be used solely as food for infants, because it simulates human milk or is suitable as a substitute for human milk.

(10) "Introduced" means any rigid plastic packaging container or product packaged in rigid plastic packaging containers that are first offered for sale and sold in California after January 1, 1995. Products for which such claims as "new" or "improved" are made and products for which the packaging has been changed by such criteria as size, color, or labeling, are not "introduced" packages or products.

(11) "Label" as used in the definition of product manufacturer, means a display of written, printed or graphic material upon the immediate container of any product.

(12) "Manufacturer" or "Product Manufacturer" means the producer or generator of a product which is sold or offered for sale in the state and which is stored inside of a rigid plastic packaging container. For the purposes of section 17948(a) and 17949(c) and (d) of this Article, "manufacturer" includes all subsidiaries and affiliates.

(A) Identification of the Product Manufacturer, for the purposes of this program, shall be determined by the following hierarchy:

1. When the name of the entity that manufactured the product held by the container is stated on the container label, then that entity shall be considered the product manufacturer.

2. When the container label does not state the entity that manufactured the product held by the container, but the container label does state the distributor of the container, then the distributor shall be considered the product manufacturer.

3. When the container label does not state either the entity that manufactured the product held by the container or the distributor of the container, but the container label states the importer of the container, then the importer shall be considered the product manufacturer.

(B) "Stored" means that the container normally holds the product for more than seven days. For purposes of these regulations, point–of–sale products are not "stored" in a container for more than seven days.

(C) Any entity whose name may not appear on a label but which has a corporate relationship (*i.e.*, parent/subsidiary or affiliate relationship) with an identified product manufacturer shall be allowed to assume the responsibilities of the product manufacturer as they relate to the requirements of Section 17944. The product manufacturer may be located inside or outside California, and/or inside or outside the United States.

(13) "May" means a provision is permissive.

(14) "Material Type" means broad feedstock categories such as paper, glass, plastic or aluminum. "Material type" does not mean individual plastic resins.

(15) "Measurement Period" means the time period for which compliance is being determined as part of the certification or auditing process described in §§ 17946, 17946.5, and 17947 of this Article.

(A) Unless the reuse or refill compliance options, pursuant to Section 17944, are used, "measurement period" shall be the preceding calendar year. If the reuse or refill compliance option is being used, the product manufacturer may establish another measurement period that is appropriate to the product life cycle. If the product manufacturer establishes a measurement period other than the calendar year, the Board may request documentation to substantiate the basis for the alternative measurement period.

(B) For products introduced for sale in California on any day other than January 1 of any year, the first measurement period for the first year in which the product's containers are required to comply with the program requirements shall be the remaining partial calendar year in which the product was introduced for sale in addition to the following calendar year. For all subsequent years, the measurement period shall be the calendar year, unless either the reuse or refill compliance option is used, in which case the manufacturer may establish a measurement period unique to its product, as described above.

(16) "Medical Device" means the same as it is defined in the federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) and pertinent regulations, and includes the following:

(A) any instrument, apparatus, implement, machine, contrivance or implant which is recognized in the National Formulary or United States Pharmacopoeia or any additional supplement thereof,

(B) intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease, in man or animal, or

(C) intended to affect the structure or any function of the body of man or animal.

A medical device does not achieve any of its principle intended purposes through chemical action, nor is it dependent upon being metabolized to achieve its intended purpose.

(17) "Medical Food" means the same as it is defined in the federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) and pertinent regulations, which includes the following:

(A) foods formulated to be consumed or administered under the supervision of a physician, and

(B) foods intended for specific dietary management of disease or condition for which distinctive nutritional requirements, based on recognized scientific principles, are established by medical evaluation.

For the purposes of these regulations, medical food is food that is consumed or directly placed in the stomach or intestines through a tube, or other food which is used to manage a disease or a medical condition, or food labelled "may be used as the sole source of nutrition" or "may be used as the sole item of the diet". For the purposes of these regulations, medical food is not food for which popular dietary claims are made such as "low–fat" or "low–sodium."

(18) "Must" means a provision is mandatory.

(19) "Non–Source Reduced Container" means a container that is not considered source–reduced under the criteria established for this program as found in Sections 17943 (31) and 17946.5(a)(2) and (b)(4) of this Article.

(20) "Original Container" means a rigid plastic packaging container that is holding a product when initially sold to the final end user and which may later be reused or refilled, as used in § 17946.5(b)(2) and (b)(3) of this Article.

(21) "Particular Type Rigid Plastic Packaging Container" is a rigid plastic packaging container which holds a single type of generic product, such as milk or detergent.

(22) "Point–of–Sale Containers" are containers in which products are placed for sale directly to and intended for immediate consumption by the final end–user.

(23) "Postconsumer Material" means a material that would otherwise be destined for solid waste disposal, having completed its intended end–use and product life cycle. Postconsumer material does not include mate-

rials and by-products generated from, and commonly reused within, an original manufacturing and fabrication process.

Rigid plastic packaging containers holding obsolete or unsold products and post-industrial scrap that is commonly disposed, and not commonly reused within an original manufacturing process, shall be considered postconsumer material when used as feedstock for new products.

Internally generated scrap that has been commonly disposed may be considered postconsumer material if it is later used in a process other than the original manufacturing and fabrication process.

(24) "Product Associated Rigid Plastic Packaging Container" means a brand-specific rigid plastic packaging line which may have one or more sizes, shapes or designs and which is used in conjunction with a particular generic product line. A product associated container holds a brand-specific product such as Brand "X" salad dressing or Brand "Y" automotive oil.

(25) "Recycled" means a product or material which has been diverted from disposal in a landfill and has been reused in the production of another product.

(26) "Recycling Rate" means one of the following:

(A) The proportion, as measured by weight, volume, or number, that a particular type of rigid plastic packaging container sold or offered for sale in the state, such as a milk jug, soft drink container, or detergent bottle, is being recycled in a given calendar year.

This recycling rate calculation includes all rigid plastic packaging containers sold or offered for sale in California that are used to package the generic product for which the particular type recycling rate is calculated.

(B) The proportion, as measured by weight, volume, or number, that a product-associated rigid plastic packaging container sold or offered for sale in the state, is being recycled in a given calendar year.

(27) "Refillable package" means a rigid plastic packaging container which the Board determines is routinely returned to and refilled by the product manufacturer at least five times with the original product held by the package. For the purpose of this program, the product manufacturer or the product manufacturer's agent may refill a package.

(28) "Replacement product" means a product that is sold with the intent that it be removed from its package in order to replenish the contents of the original container that a consumer purchased that previously held the identical product.

(29) "Reusable package" means a rigid plastic packaging container which the Board determines is routinely reused by consumers at least five times to store the original product contained by the package.

(30) "Rigid Plastic Packaging Container" means any plastic package having a relatively inflexible finite shape or form, with a minimum capacity of eight fluid ounces or its equivalent volume and a maximum capacity of five fluid gallons or its equivalent volume, that is capable of maintaining its shape while holding other products, including, but not limited to, bottles, cartons, and other receptacles, for sale or distribution in the state.

(A) Rigid plastic packaging containers are capable of multiple re-closure, are sold holding a product, and are composed entirely of plastic with the exception of caps, lids, labels and other additives such as pigments, colorants, fillers, and stabilizers that are an integral part of the plastic polymer compound. Plastic caps and lids may be considered to be part of a rigid plastic packaging container at the product manufacturer's discretion.

(B) The total volume of the closed container will establish if the container is within the eight ounce to five gallon size requirements. For those containers measured in liquid or fluid volume, such as fluid ounce, gallon, milliliter, or liter, the product manufacturer may use either the labeled volume or the volumetric volume. The metric equivalent for the following U.S. liquid measures is as follows: eight (8) fluid ounces is equivalent to 236.59006 milliliters, and five (5) gallons is equivalent to 18.9272 liters. Containers for products which are labeled and sold by weight or an item count must be measured for their volumetric equivalency.

(C) "Flexible container" is a container that can be flexed, folded, and twisted, without the aid of tools, without damaging the container.

(D) "Rigid container" is a container which is not a flexible container and has essentially the same shape empty as full.

(E) If it is unclear whether a container is a rigid plastic packaging container, the Board will make that determination on a case by case basis. The Board will make that determination by considering, at a minimum, how the container compares to others that are clearly regulated or excluded by the program.

(31) "Source reduced container" means either of the following:

(A) A rigid plastic packaging container for which the manufacturer seeks compliance as of January 1, 1995, whose package weight per unit or use of product has been reduced by 10 percent when compared with the packaging used for that product by the manufacturer from January 1, 1990, to December 31, 1994.

1. If the product held by the container was sold prior to January 1, 1990, the non-source reduced container weight is the average weight of the container during the first 60 days commencing with the first day of sale in multiple jurisdictions in 1990.

2. If the product held by the container was initially sold on or after January 1, 1990, the non-source reduced weight is the average weight of the container during the first 60 days it was introduced for sale in multiple jurisdictions.

(B) A rigid plastic packaging container for which the manufacturer seeks compliance after January 1, 1995, whose package weight per unit or use of product has been reduced by 10 percent when compared with one of the following:

1. The packaging used for the product by the manufacturer on January 1, 1995.

2. The packaging used for that product by the manufacturer over the course of the first full year of commerce in this state.

3. The packaging used in commerce that same year for similar products whose containers have not been considered source reduced. "Similar products" are the same products held by "particular type rigid plastic packaging containers", as defined in (21) of this section. The product manufacturer may demonstrate a comparison to "similar products" made by the same product manufacturer or made by another manufacturer.

(C) A rigid plastic packaging container is not a source reduced container for the purposes of this chapter if the packaging reduction was achieved by any of the following:

1. Substituting a different material type for a material which previously constituted the principle material of the container.

2. Increasing a container's weight per unit or use of product after January 1, 1991.

3. Packaging changes that adversely affect the potential for the rigid plastic packaging container to be recycled or to be made of postconsumer material. The Board may review any information provided by the manufacturer to determine if the packaging change adversely affects the potential for the rigid plastic packaging container to be recycled or to be made of postconsumer material.

(D) For the purposes of calculating source reduction, the stated weight of a non-source reduced container used for comparison purposes must be be weight of the actual non-source reduced container used for twelve consecutive months. If the non-source reduced container has not been used for twelve consecutive months, the product manufacturer must provide information to the Board to support its claim if the Board requests supporting documentation as described in Section 17946.5. In addition, the stated weight of the source reduced container must be no greater than the weight of the actual container used for the duration that the source reduction compliance option is used.

1. If the source reduction of the container was achieved by manufacturing the container with a different resin than was used for the non-source reduced container, the new container is considered source reduced for the purpose of this program.

2. Any source reduction achieved by changing the rigid plastic packaging container to a flexible plastic container may be credited to other containers as part of the averaging method of compliance described in Section 17944 (b), Container Requirements.

3. If a rigid plastic packaging container for a specific product is entirely eliminated and the same product is sold in California without any packaging, the source reduction may be credited to other containers as part of the averaging method of compliance described in Section 17944(b), Container Requirements.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 40170, 42300, 42301, 42310, 42330 and 42340, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
2. Change without regulatory effect amending subsections (b)(12)(B) and (b)(22) filed 3–24–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).
3. Amendment of subsections (b)(26)(A)–(B) filed 9–17–2001 as an emergency; operative 9–17–2001 (Register 2001, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–15–2002 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsections (b)(26)(A)–(B) refiled 1–16–2002 as an emergency; operative 1–16–2002 (Register 2002, No. 3). A Certificate of Compliance must be transmitted to OAL by 5–16–2002 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–16–2002 order transmitted to OAL 2–28–2002 and filed 4–10–2002 (Register 2002, No. 15).
6. Change without regulatory effect repealing subsections (a)(26)(A)–(B) and relettering subsections filed 1–31–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 5).

§ 17944. Container Requirements.

(a) I am a product manufacturer responsible for ensuring that rigid plastic packaging containers comply with program requirements. What standards must these containers meet?

On or after January 1, 1995, all rigid plastic packaging containers sold or offered for sale in the state must meet one of the following criteria:

(1) Be made from at least 25 percent postconsumer material.

(2) Be recycled at one of the following rates:

(A) All product–associated rigid plastic packaging containers must have a 45 percent recycling rate, or

(B) All particular–type rigid plastic packaging containers must have a 45 percent recycling rate.

(3) Be reusable or refillable.

(4) Be a source reduced container.

(5) Be a container which contains floral preservative and is subsequently reused by the floral industry for at least two years. This compliance option is only available for containers used by the floral industry in California. Similar containers sold to nurseries, landscapers, retail stores, and other outlets that are not wholesale or retail flower sellers or growers do not qualify for this compliance option.

For purposes of this section, rigid plastic packaging containers that are "sold or offered for sale" in the state refers to rigid plastic packaging containers that are manufactured on or after January 1, 1995, and subsequently sold or offered for sale in California.

(b) Must every rigid plastic packaging container, that is not the subject of waiver pursuant to Section 17944.2(a) or exempt pursuant to Section 17944.5(a) of this Article, meet one of the compliance options listed in subdivision (a) of this section?

No, every rigid plastic packaging container must not individually meet one of the compliance standards. A product manufacturer may achieve compliance for its containers based on an average. This average shall only be allowed for rigid plastic packaging containers for which the same compliance option is used. Averaging may be calculated using either data specific to containers sold and recycled in California or containers sold and recycled nationwide. Manufacturers may average the source reduction, postconsumer material, refill, or reuse options to express compliance for the containers they use.

Averaging may be based on the manufacturer's entire product line or any sub–lines determined by the manufacturer. If averaging is used, every rigid plastic packaging container must be included in an average or comply through another compliance alternative.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42301, 42310, 42326, 42330 and 42340, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
2. New subsection (a)(5) filed 5–30–97; operative 5–30–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. Change without regulatory effect repealing subsections (a)(2)(A)–(B), relettering subsections and amending subsection (a)(5) filed 1–31–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 5).

§ 17944.2. How Will Waivers Be Granted?

(a) Which rigid plastic packaging containers are eligible for waivers from this program?

Waivers are allowed under the following conditions:

(1) The postconsumer content compliance option is waived for rigid plastic packaging containers if they cannot meet the postconsumer material requirement of § 17944 of this Article and remain in compliance with applicable state and federal regulations, including those adopted by the United States Food and Drug Administration. Containers waived under this condition must comply under another compliance option.

(2) The postconsumer content compliance option of § 17944 of this Article is waived for rigid plastic packaging containers if it is technologically infeasible to use 25 percent postconsumer content. Containers waived under this condition must comply under another compliance option.

(3) All requirements of § 17944 of this Article are waived for a product manufacturer if by January 1, 1995, 50 percent, by number, of the product manufacturer's rigid plastic packaging containers sold or offered for sale in California, contain at least 25 percent postconsumer material, and all the manufacturer's containers will be in compliance using any option listed in Section 17944 on or before January 1, 1996.

(4) All requirements of § 17944 of this Article are waived for an introduced product or package, pursuant to § 17943, for 12 months immediately after the date on which it is first sold or offered for sale in California.

(b) I am a product manufacturer. How do I receive a waiver?

(1) To receive a waiver for your rigid plastic packaging containers pursuant to Section 17944.2(a), you may only petition the Board as part of the compliance verification and auditing process described in Sections 17944.2 and 17947 of this Article. You must submit to the Board by certified mail a written request containing the information below, in order for the Board to consider granting a waiver:

the rigid plastic packaging container(s) for which the waiver is being requested, the basis for the waiver, and the name, mailing address, and telephone number of the person to whom the Board shall direct future communications relating to the petition.

Petitions to the Board for a waiver pursuant to Section 17944.2(a)(5) above must also include the following:

a signed affidavit stating that the product held by the container was introduced into commerce in California after January 1, 1995, and that the product conforms to the "introduced" definition. The affidavit must include the date on which the product was first sold or offered for sale in California. The product manufacturer must supply documentation to substantiate the date of entry to the California marketplace, such as evidence of a California–based media campaign.

(2) Pursuant to section (a)(3) of this section, the Board will grant a general waiver for all product manufacturers that use rigid plastic packaging containers if less than 60 percent of California's single family households have access to curbside collection programs which include beverage container recycling, as described in (a)(3) of this section. You may not petition the Board for this waiver. The Board will consult the Department of Conservation's, Division of Recycling biannually to obtain the information necessary to determine whether this waiver should go into effect. This information shall be made public at the meetings of the California Integrated Waste Management Board and/or the Local Assistance and Planning Committee meetings held in the months of January and July of each year.

(3) Product manufacturers who want a waiver pursuant to Section 17944.2(a)(4) above shall not petition the Board for a waiver. If the Board requests certification and documentation from a product manufacturer that wants to be granted this waiver, the product manufacturer may demonstrate at that time that 50 percent, by number, of its rigid plastic packaging containers sold or offered for sale in California contained at least 25 percent postconsumer material during the calendar year 1995, and all of the manufacturer's containers are in compliance using any option listed in Section 17944 of this Article on or before January 1, 1996.

(c) How will the Board inform a product manufacturer if its petition for a waiver has been accepted or rejected?

Upon receipt of a product manufacturer's petition for a waiver, the Board will review the petition and will convey its finding to the product manufacturer within 60 days. All Board responses shall be in the form of written correspondence directed to the product manufacturer's designated contact person.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
2. Change without regulatory effect repealing subsections (a)(3), (a)(6) and (b)(4) filed 3–24–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).
3. Change without regulatory effect renumbering former subsections (a)(4)–(5) to (a)(3)–(4) after repeal of former subsection (a)(3) in prior action filed 3–28–97; effective 4–23–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).
4. Editorial correction of HISTORY 3 (Register 97, No. 17).

§ 17944.5. Exempt Rigid Plastic Packaging Containers.

(a) Which rigid plastic packaging containers are exempt from the requirements of this Article?

Pursuant to Public Resources Code § 42340, the following containers are exempt from the requirements of this Article:

(1) Rigid plastic packaging containers produced in or out of the state which are destined for shipment to other destinations outside the state and which remain with the products upon that shipment. "Destined for shipment to other destinations outside the state" means that the sale of the rigid plastic packaging container to the final end user occurs outside California,

(2) Rigid plastic packaging containers that contain drugs, cosmetics, food, medical devices, medical food, or infant formula as defined in the federal Food, Drug and Cosmetic Act (21 U.S.C. 301 et seq.),

(3) Rigid plastic packaging containers that contain products regulated by the federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.),

(4) Rigid plastic packaging containers that are manufactured for use in the shipment of hazardous materials and are prohibited from being manufactured with used material by federal packaging material specifications and testing standards set forth in Section 178.509 of Title 49 of the Code of Federal Regulations, or are subject to testing standards set forth in Sections 178.600 to 178.609, inclusive, of Title 49 of the Code of Federal Regulations, or to which recommendations of the United Nations on the transport of dangerous goods are applicable.

(b) I am a product manufacturer. Must I petition the Board to verify that my rigid plastic packaging containers are exempt from the requirements of this Article?

No, you are not required to petition the Board to verify that your rigid plastic packaging containers are exempt. If requested by the Board to certify compliance pursuant to section 17946 of this article, you must submit to the Board by certified mail a written response containing the information below:

the rigid plastic packaging container(s) for which the exemption is being claimed, the basis for the exemption, and the name, mailing address, and telephone number of the person to whom the Board shall direct future communication relating to the exemption.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42310, 42326 and 42340, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
2. Change without regulatory effect amending subsection (a)(4) filed 3–18–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 12).
3. Change without regulatory effect amending subsection (a)(2) filed 3–24–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).

§ 17945. Who Must Comply With These Regulations?

(a) Who is responsible for ensuring that the containers regulated by this program are in compliance with the requirements of this Article?

(1) Product manufacturers, pursuant to Section 17943(b)(12) of this Article are responsible for compliance with the requirements of the rigid plastic packaging container program.

(2) Product manufacturers that are responsible only for products exempt under section 17944.5 are required to comply only with section 17944.5(b).

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42301 and 42325, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).

§ 17946. Who Must Certify That Compliance With This Article Is Met?

(a) Who must submit certifications?

Product manufacturers, pursuant to Section 17943(b)(12) of this Article, and only upon notification from the Board as described in this section, are required to certify to the Board that the containers that they use comply with the rigid plastic packaging container requirements if they sell or offer for sale a product in a rigid plastic packaging container that is sold to a final end–user in California.

Upon the Board's request, a product manufacturer must submit a Board–supplied product manufacturer certification containing information that includes, but is not limited to, the information described in section (i) below.

A product manufacturer must, in addition, submit a container manufacturer certification if the product manufacturer chooses compliance based on the postconsumer content or source reduction compliance options, pursuant to this section and Sections 17944 and 17946.5 of this Article.

Container manufacturers must supply a certification to product manufacturers that includes the information described in section (h) below, if the container manufacturer produces rigid plastic packaging containers that either

(1) Meet the postconsumer material compliance option, or

(2) Meet the source reduction compliance option where the source reduction was achieved by reducing the weight of the containers used for a specific amount (ounces, grams, etc.) of product.

Proprietary information included in a certification submitted to the Board as required by this Article shall not be made available to the general public. The Board's procedures for protection of proprietary information can be found in section 17948.

(b) When must certifications be submitted?

The Board may request a completed certification from a product manufacturer once per calendar year or once per a product manufacturer's compliance measurement period, pursuant to Section 17943(b)(15) of this Article. The Board shall not initiate requests for certifications until January 1, 1996, and will not require a product manufacturer to submit evidence of its compliance until 90 days after the end of the calendar year or measurement period established pursuant to Section 17943(b)(15).

(c) Where can I get a certification form?

As part of the Board's notification to product manufacturers that they shall submit a compliance certification, the Board will include a product manufacturer certification form and a container manufacturer certification form. The Board will request that compliance certification be made by certified mail.

(d) How will the Board determine which product manufacturers are to submit a rigid plastic packaging container certification form and how will the Board notify product manufacturers of its determination?

In addition to random selection, the Board may use the following criteria to determine when to request a certification form from a product manufacturer: container type, product type held by the container, company size, or receipt of information that causes the Board to suspect that a container is not in compliance. The Board will request a certification of compliance from a product manufacturer in writing.

(e) How long do I have to respond to a Board request for a completed certification forms?

A product manufacturer's completed certification forms must be postmarked no later than 90 calendar days from the date on which the Board's request arrived via certified mail. Product manufacturers may, in writing prior to the due date, request an extension of up to an additional 30 days to respond to the Board's request for certification. An extension may be granted by the Board if the product manufacturer provides the Board with documentary evidence to support its request based on criteria such as corporate acquisitions, corporate reorganizations, difficulty obtaining container information, or catastrophic acts of God, or other criteria deemed acceptable upon the Board's evaluation.

(f) As a product manufacturer, how will I know if my certification forms are complete?

The Board will review the certification forms to determine (1) the completeness of the certification forms; and (2) if not complete, any additional information or documentation needed. The Board will then, via certified mail, notify the product manufacturer as to the completeness of the forms. The Board's notice will state whether any additional information or documentation is required. The product manufacturer will have 30 days after the receipt of the notice to provide the required information or documentation.

(g) If I am a product manufacturer and I wish to claim compliance through the source reduction or postconsumer content options, as described in Section 17944 of this Article, who must provide certification to the Board: I or the container manufacturer?

When the basis for compliance is either the postconsumer material option or the source reduction compliance option where the reduction was achieved by a simple decrease in container weight, then the container manufacturer must provide certification to the product manufacturer. If either of these two compliance options are claimed, you must request the appropriate container manufacturer(s) to complete a Board–supplied container manufacturer certification form. This form will be provided to you with the original request for certification from the Board or at your request. This form must be completed by the container manufacturer, and must accompany your product manufacturer certification form when sent to the Board. The required information to substantiate either of these two compliance claims is described in section (h) below.

Alternatively, if the container manufacturer provides you with all the information described in section (h) below as part of standard business procedures, then that same information may be submitted to the Board in lieu of a completed container manufacturer form supplied by the Board. As with the Board–supplied container manufacturer certification, the information supplied by the container manufacturer to you must be submitted with any product manufacturer certification that is submitted to the Board.

The product manufacturer is responsible for compliance with the requirements in Section 17944, but the container manufacturer is responsible for ensuring the accuracy of any information it provides to you.

(h) If I am a container manufacturer, what type of information must I provide in my certification?

You must provide, at a minimum, the following information:

(1) Your company's name, mailing address, and telephone number, and the name and title of the person responsible for supplying required information;

(2) The name, address, and telephone number of the product manufacturer at whose behest you are completing the certification form and the name and title of the person at that company who requested that you complete a certification form. If you supply a standard form to all customers expressing compliance with either the postconsumer material or source reduction compliance options as described in (g) of this section and which includes the information required in this section, then you do not need to provide the information in the previous sentence;

(3) For compliance with the postconsumer material option, state the following: the percentage of postconsumer material in the containers in question, the total weight of resin used to manufacture the specified containers, and the total weight of postconsumer resin used to manufacture the specified containers.

(4) For compliance with the source reduction option that was achieved by a simple reduction in container weight, state the following: the percentage of weight reduction for the containers, and the average weight of the containers of the packaging line before and after source reduction occurred.

(5) Any other information the Board determines is necessary to verify compliance.

(6) The certification must be submitted under penalty of perjury, according to the following format:

"I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct."

_____ _____

(Date) (Signature)

(i) If I am a product manufacturer, what type of information must I provide in my certification?

The information submitted on a Board–supplied product manufacturer certification form shall include, but not be limited to, the following:

(1) Your company's name, mailing address, and telephone number, and the name and title of the person responsible for supplying the required information;

(2) The advertised name of your product containers regulated by this article and the resin type used for the containers;

(3) The compliance option, as described in Sections 17943 and 17944 of this Article, used to attain compliance or a statement that the product container is not in compliance with program requirements. The information you are required to provide depends on the compliance option used.

(A) For compliance with the postconsumer material option, state the percentage of postconsumer material in the containers for which you claim compliance.

(B) For compliance with any of the recycling rate options, state which recycling rate option was used, the recycling rate achieved, and a description of the products held by the containers that have achieved the stated rate.

(C) For compliance with the reuse option, state the average number of times the container was reused.

(D) For compliance with the reuse option, state the average number of times the container was refilled.

(E) For compliance with the source reduction option where the source reduction was achieved by either concentrating the product, or achieved by a combination of concentrating the product and reducing the weight of the container that holds the product, you must provide the following:

1. The percentage the container was source reduced, and

2. The average weight per unit of product or the average weight per use of product before the source reduction was made and the average weight per unit of product or the average weight per use of product after the source reduction was made.

(4) Any other information the Board determines is necessary to verify compliance.

(5) The certification must be submitted under penalty of perjury, according to the following format:

"I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct."

HISTORY

1. New section filed 11-4-94; operative 12-5-94 (Register 94, No. 44).
2. Change without regulatory effect amending subsection (a)(2) filed 3-24-97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).
3. Amendment of subsections (a) and (e), new subsection (f), subsection relettering and amendment of newly designated subsections (g) and (h)(2) filed 6-2-2003 as an emergency; operative 6-2-2003 (Register 2003, No. 23). A Certificate of Compliance must be transmitted to OAL by 9-30-2003 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 6-2-2003 emergency amendment by operation of Government Code section 11346.1(f) (Register 2004, No. 3).
5. Amendment of subsections (a) and (e), new subsection (f), subsection relettering and amendment of newly designated subsections (g) and (h)(2) filed 1-12-2004; operative 1-12-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 3).

§ 17946.5. Documentation Requirements.

The Board may require product manufacturers and container manufacturers to submit to the Board supporting documentation that substantiates their compliance claims following the receipt of a certification. Except as otherwise stated, documentation to substantiate a compliance claim must be provided for the preceding calendar year.

Proprietary information included in a supporting documentation submitted to the Board as required by this Article shall not be made available to the general public. The Board's procedures for protection of proprietary information can be found in subsection 17948(i).

(a) I am a product manufacturer. What information must I provide to substantiate the certification claims made in response to Section 17946?

The information necessary to substantiate compliance varies depending upon the compliance option selected.

(1) For rigid plastic packaging containers for which the postconsumer material compliance option is claimed, the product manufacturer must provide, at a minimum, the following information:

(A) Certification from the container manufacturer stating the total weight of postconsumer resin in the containers for which compliance is claimed and the total weight of all resin used in the containers for which compliance is claimed. If later requested by the Board, the container manufacturer must provide copies of shipment orders, bills of lading, purchase orders, or other evidence of receipt of postconsumer resin during the previous calendar year for the manufacture of the containers for which compliance is claimed,

(B) The formula and data used to calculate the percentage of postconsumer material in the container. The following formulas may be used, if mathematically appropriate for the subject containers, or the product manufacturer may supply its own appropriate formula:

For a single or multiple container lines:

$$\text{Percent of Postconsumer Material} = \frac{\text{total weight of postconsumer resin used in all containers}}{\text{total weight of postconsumer resin used in all containers + total weight of all other resins used in all containers}} \times 100$$

To comply under this option the percent of postconsumer must be equal to or greater than 25.

(C) Any other information from the product manufacturer necessary to substantiate the product manufacturer's claim of compliance with this option.

(2) For rigid plastic containers for which the source reduction compliance option is claimed, the product manufacturer must provide, at a minimum, the following information:

(A) The percentage the container has been source reduced,

(B) The container weight per unit or use of product of the non-source reduced container and the container weight per unit or use of product for the container for which source reduction is claimed,

(C) The formula and data used to calculate the percentage that the containers were source reduced. The following formulas may be used, if mathematically appropriate for the subject containers, or the container manufacturer may supply its own appropriate formula:

Formula to calculate the percentage of a single packaging line:

$$\text{Percent Source Reduced} = \frac{\left(\frac{W_n}{U_n} - \frac{W_s}{U_s}\right)}{\left(\frac{W_n}{U_n}\right)} \times 100$$

Formula to calculate the percentage of source reduction for multiple packaging lines:

$$\text{Percent Source Reduced} = \frac{\sum_i N_i \left(\frac{W_{n_i}}{U_{n_i}} - \frac{W_{s_i}}{U_{s_i}}\right)}{\sum_i N_i \left(\frac{W_{n_i}}{U_{n_i}}\right)} \times 100$$

where:

W_n = average weight or volume capacity of the non-source reduced containers

U_n = units or uses of product per non-source reduced container

W_s = average weight or volume capacity of the source reduced containers

U_s = units or uses of products per source reduced container

i = each container line complying with this source reduction option

N_i = total annual number of containers in container line *i* complying with the source reduction option

To comply under this option the Percent Source Reduced must be equal to or greater than 10.

(D) Any other information from the product manufacturer necessary to substantiate the product manufacturer's claim of compliance with this option.

(3) For rigid plastic packaging containers for which the reuse compliance option is claimed, the product manufacturer must provide, at a minimum, the following information:

(A) A statement of the measurement period that was used to quantify the amount that the identified containers were reused, and a quantitative description of how that measurement period was determined;

(B) Copies of sales reports or other evidence that show the following:

1. The total volume or weight of the product sold in the original containers in the established measurement period, and

2. The total volume or weight of the replacement product sold.

Sales reports of the product sold in the original rigid plastic packaging container and sales reports of the replacement product must be identified separately; and

3. If the replacement product is of a different strength than the original product, the product manufacturer must provide the appropriate conversion factor. The conversion factor shall explain the number of uses per weight unit or volume unit of product for both the original product and for the replacement product.

(C) The formula and data used to calculate the number of reuses achieved for the containers. The following formulas may be used, if mathematically appropriate for the subject containers, or the product manufacturer may supply its own appropriate formula:

Formula to calculate the number of reuses for a given measurement period for a single container line:

$$\text{Average Reuse Per Container Liner} = \frac{\text{(number of replacement product packages sold)}}{\text{(number of original containers sold)}} \times n$$

where:

n = the number of times the replacement product packages will fill the original container to accomplish the same number of units or uses of product held by the original container.

Formula to calculate the average number of reuses for a given measurement period for multiple container lines:

$$\text{Average Reuse Per Container} = \frac{\Sigma R_i}{\Sigma O_i}$$

where:

i = each container line seeking this compliance option

R_i = total number of units or uses sold in replacement products packages calculated by multiplying the number of units or uses in each replacement package by the number of replacement packages sold during the measurement period.

O_i = total number of units or uses sold in original containers calculated by multiplying the number of units or uses in each original container by the number of original containers sold during the measurement period.

To comply under this option, the Average Reuse Per Container must be equal to or greater than 5.

(D) Any other information from the product manufacturer necessary to substantiate the product manufacturer's compliance claim with this option.

NOTE: This option will demonstrate compliance for the original containers only; the replacement product container must comply under another option.

(4) For rigid plastic packaging containers for which the refill compliance option is claimed, the product manufacturer must provide, at a minimum the following information:

(A) A statement of the measurement period that was used to quantify the amount that the identified containers were refilled, and a quantitative description of how that measurement period was determined;

(B) Copies of sales reports or other evidence which shows the following:

1. The total number of containers sold during the measurement period.

2. The total number of original containers used by the product manufacturer during the established measurement period.

(C) The formula and data used to calculate the number of refills achieved for the containers. The following formulas may be used, if mathematically appropriate for the subject containers, or the product manufacturer may supply its own appropriate formula:

Formula to calculate the number of refills for a given measurement period for a single container:

$$\text{Average Refills Per Container} = \frac{\text{number of containers sold during the measurement period}}{\text{number of new original containers used by the product manufacturer during the measurement period}}$$

Formula to calculate the number of refills for a given measurement period for multiple container lines:

$$\text{Average Refills Per Container} = \frac{\text{total weight of all containers sold during the measurement period}}{\text{total weight of all new original containers used during the measurement period}}$$

To comply with this option, the Average Refills Per Container must be equal to or greater than 6.

(F) Any other information from the product manufacturer necessary to substantiate the product manufacturer's compliance claim with this option.

(5) For rigid plastic containers for which the particular type or product associated recycling rate compliance option is claimed, the product manufacturer must show the recycling rate for that specific particular type of container sold in California and the number of those containers collected in California for recycling. At a minimum, the product manufacturer must do the following:

(A) Present to the Board in writing for its approval the methodology used to determine the sales and recycling figures. This methodology must explain in detail how the figures were derived or obtained. The Board must approve of the methodology prior to its use to determine a particular type or product associated recycling rate. Beginning for compliance year 1996, for any given calendar year, if a product manufacturer elects to base compliance on this option, the methodology must have been submitted to the Board by July 1 of the previous year. A product manufacturer may use the same methodology that the Board adopts to determine the aggregate recycling rate if the product manufacturer can demonstrate how the method is appropriate and comparable.

The Board shall notify the product manufacturer within 60 days of the postmark of the request as to whether the methodology is acceptable. If a methodology is determined to be unacceptable, the Board will provide the rationale for why the methodology is not acceptable and provide suggestions as to how the proposed methodology could be altered to be made acceptable.

(B) Once a methodology has been approved, that same methodology must be used to determine the figures submitted as part of a compliance claim. If the approved methodology is not used and the manufacturer selects this compliance option, the Board may reject the product manufacturer's compliance claim. The methodology remains valid to determine compliance in future years, unless it is modified by the product manufacturer without the Board's approval. Procedures for obtaining authorization for modifying a methodology are identical to those for establishing the initial methodology as stated in this section. The Board may request original data.

(C) Product manufacturers that use the particular type recycling rate to comply with this program may designate any person as the entity to design the methodology, perform the study, and submit supporting documentation to the Board on behalf of the product manufacturers who are using the particular type rigid plastic packaging containers.

(D) Any other information from the product manufacturer necessary to substantiate the product manufacturer's compliance claim with this option.

(E) To comply under this option, the recycling rate must be equal to or greater than 45 percent.

(6) Product manufacturers using the floral industry compliance option, as specified in section 17944(a)(5), shall submit to the Board for review and approval a methodology showing how affected containers will meet the two year reuse criteria. For 1997, the product manufacturer shall submit the proposed methodology to the Board on or before July 1, 1997. For subsequent years, the manufacturer shall submit the proposed methodology to the Board on or before July 1 of the calendar year immediately prior to the year the manufacturer intends to use this compliance option.

The methodology shall include:

(A) The proposed method used to determine the number of containers sold to the floral industry in California;

(B) The proposed method used to determine the total number of containers sold in California; and

(C) The proposed method used to determine the average reuse (in years) of the containers purchased by the floral industry in California. One acceptable method would be a statistically valid survey of the product manufacturer's floral industry customers, to be conducted by an independent contractor. If this method is used, a copy of the proposed survey form must be included in any submittals to the Board.

(7) Based upon information received related to subdivisions (1) through (6) of this section, the Board may request additional information as it deems necessary.

(b) Can a product manufacturer switch the option it uses to attain compliance for its rigid plastic packaging containers?

A product manufacturer may change the option it uses to attain compliance for its rigid plastic packaging containers one time per calendar year or other established measurement period.

(c) When must I submit supporting documentation to the Board?

Following receipt of your compliance certification, the Board may request that you submit documentation to support your compliance claim. You must submit supporting documentation at the Board's request. If the Board wants you to submit supporting documentation, the Board will mail a request and you will have 60 days following the postmarked date to supply the information. Supporting documentation shall be submitted to the Board by certified mail. If the Board does not request supporting documentation, you should not include it with your compliance certification.

(d) How long must I keep the records required by these regulations?

For all compliance standards used by a product manufacturer other than source reduction, all documentation supporting any compliance claim must be available for at least four years following the end of the compliance period. For source reduction compliance claims, the supporting documentation for the baseline year as specified in subdivision (a)(2) of this section must be available to the Board for at least four years after the product is no longer sold in California.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42310, 42320, 42321 and 42325, Public Resources Code.

HISTORY

1. New section filed 11-4-94; operative 12-5-94 (Register 94, No. 44).
2. New subsections (a)(6)-(a)(6)(C), renumbering and amendment of former subsection (a)(6) to new subsection (a)(7), and amendment of NOTE filed 5-30-97; operative 5-30-97 pursuant to Government Code section 11343.4(d) (Register 97, No. 22).
3. Amendment of subsection (d) filed 2-2-2000 as an emergency; operative 2-2-2000 (Register 2000, No. 5). A Certificate of Compliance must be transmitted to OAL by 6-1-2000 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 2-2-2000 order transmitted to OAL 6-1-2000 and filed 7-11-2000 (Register 2000, No. 28).

§ 17947. Auditing.

(a) Will the Board audit my certifications?

The Board may audit your certifications. The Board may ask you for supporting documentation as described in Sections 17946 and 17946.5 of this Article.

(b) How will the Board request supporting documentation?

To obtain the information, the Board will mail a request to you. The Board will list the information it needs and explain why the Board needs the information. You will have 60 days following the postmarked date on the Board's request to supply the information.

(c) How will the Board conduct an audit?

If the Board decides to conduct an audit of your records to determine compliance with program requirements, the audit will be conducted based on information you provide to the Board. The Board may request supplemental information from you during the course of the audit, if necessary. The Board will mail you the results within 60 days of the date that the Board receives any supplemental information requested.

(d) What if I fail to provide requested information to the Board?

If you fail to provide the requested information in accordance with this Article, you may be subject to the fines and penalties set forth in Section 17949 of this Article.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42320 and 42321, Public Resources Code.

HISTORY

1. New section filed 11-4-94; operative 12-5-94 (Register 94, No. 44).

§ 17948. Proprietary Information.

(a) How will the Board handle confidentiality of information?

(1) Upon the request of a manufacturer or trade association, the Board shall not disclose information, required by Section 17948 as it read prior to January 1, 1997, related to individual manufacturers, to the extent that it may legally be withheld from disclosure. Information related to individual manufacturers may be withheld from disclosure:

(A) if it is found to contain proprietary information pursuant to Public Resources Code Section 42323;

(B) to the extent provided by Government Code Sections 6254(k) and 6255; and

(C) if it constitutes a trade secret as referenced in Public Resources Code Section 40062, Civil Code Section 3426 et seq., and Government Code Section 6254.7.

(2) If the Board receives a written request from a member of the public that the Board disclose data claimed to be trade secret, confidential or proprietary information, or if the Board, upon its own initiative, seeks to disclose such data, the Board shall inform the provider of the information in writing that disclosure of the data is sought, and that a determination is being made as to whether any or all of the information has been properly identified as trade secret, confidential or proprietary information.

(A) If the Board determines that the information is not trade secret, confidential or proprietary information, the Board shall notify the person who furnished the information by certified mail. The person who furnished the information shall have 30 days after receipt of this notice to provide the Board with a complete justification and statement of the grounds on which the trade secret, confidential or proprietary information claim is being made. The justification and statement shall be submitted to the Board by certified mail. The deadline for filing the justification may be extended by the Board upon a showing of good cause made prior to the deadline specified for its receipt.

1. The justification and statement submitted in support of a claim of trade secret, confidential or proprietary information shall include, but is not limited to, the following:

a. a specific description of the data claimed to be entitled to treatment as trade secret, confidential or proprietary information;

b. a statement as to whether it is asserted that the data is a trade secret, is confidential or proprietary information, that disclosure of the data would result in harmful effects on the person's competitive position, and if so, the nature and extent of such anticipated harmful effects;

c. any statutory or regulatory provisions under which the claim of trade secret, confidentiality or proprietary is asserted;

d. the period of time for which trade secret, confidential or proprietary treatment is requested;

e. the extent to which the data has been disclosed to others and whether its trade secret, confidential or proprietary status has been maintained or its release restricted;

f. trade secret, confidentiality or proprietary determinations, if any, made by other public agencies as to all or part of the data and a copy of any such determination, if available.

2. Documentation in support of a claim of trade secret, confidential or proprietary information, as specified in subdivision 1. of this section, may be submitted to the Board prior to the time disclosure is sought.

(B) The Board shall determine whether the information is protected as trade secret, confidential or proprietary information within 15 days after receipt of the justification and statement or, if no justification and statement is filed, within 45 days of the notice required by subdivision (A). The Board shall notify the person who furnished the information and any

party who has requested the information pursuant to a public records request of the determination, by certified mail.

(C) If the Board determines that the information is not protected as trade secret, confidential or proprietary information, the notice required by subdivision (B) shall also specify a date, not sooner than 15 days after the date of mailing of the notice, when the information shall be made available to the public.

(3) Except as provided in subdivisions (1) and (2), the Board may release information submitted and designated as trade secret, confidential or proprietary information to the following under the following conditions:

(A) Other governmental agencies, and the Legislature may receive information that has been compiled or aggregated from confidential information, but does not reveal the specific sources of the information, when the information has been requested in connection with a local enforcement agency's or the Board's responsibilities under this division or for use in making reports.

(B) To the state or any state agency in judicial review for enforcement proceedings involving the person furnishing the information.

(4) Should judicial review be sought of a determination issued in accordance with section (2), either the person requesting the data or the person making the claim of trade secret, confidential or proprietary information status in relation to the data, may be made a party to the litigation to justify the determination.

NOTE: Authority cited: Section 6253, Government Code. Sections 40502 and 42325, Public Resources Code. Reference: Sections 6250 et seq., Government Code. Sections 40062 and 42323, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
2. Change without regulatory effect amending section heading, repealing subsections (a)–(h)(2), relettering subsections, and amending newly designated subsection (a)(1) filed 3–24–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).

§ 17948.5. Letters of Non–Objection.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42310 and 42323, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
3. Change without regulatory effect repealing section filed 3–24–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 13).

§ 17949. Violations and Penalties.

(a) What may result if I provide the Board with a false or misleading certification?

Pursuant to Public Resources Code 42322, within 30 days of the Board having made a determination that an entity provided the Board with a false or misleading certificate, the Board shall refer that entity to the Attorney General for prosecution for fraud.

(b) What may result if I do not comply with the program requirements?

Any violation is a public offense and is punishable by a fine not to exceed $100,000. In addition, violators may be subject to a civil penalty not to exceed $50,000 per violation. Total fines and penalties are not to exceed $100,000 per annum for each violator. Annually, on and after July 1, 1996, the Board shall publish a list of all violators of these requirements and the amount of the fines they were assessed.

(c) What are the penalties for not complying with program requirements?

Penalties for specified violations of program requirements follow.

Violation	*Description of Violation*	*Penalty*
(1) CCR Section 17944; *PRC* Section 42310	Product manufacturer did not comply with container requirements. Penalty determined by degree of noncompliance.	$5,000—$50,000 See Subsection (d).
(2) *CCR* Section 17946	Product manufacturer did not submit certification by due date.	$1,000—$50,000 See Subsection (e).
(3) *CCR* Section 17946	Product manufacturer did not submit complete or accurate certification by due date. Degree of incompleteness or inaccuracies include, but are not limited to, misreporting exemptions; failure to account for all products; failure to account for subsidiaries and divisions; lack of container manufacturer's verification of number of containers sold or weight of containers; inconsistencies in information from product manufacturer and container manufacturer; lack of signatures; mathematical inaccuracies.	$1,000—$50,000
(4) *CCR* Section 17946; *PRC* Section 42321	Product manufacturer submitted false or misleading information on certification.	Referral to Attorney General for prosecution for fraud within 30 days of discovery by Board; maximum fine, $100,000.

(d) For violation (1) how will the degree of noncompliance be determined?

The degree of noncompliance will be determined according to the following point system where the amount of violation will be determined according to the following formula: $50,000 minus $1,800 times number of points or [$50,000—($1,800 x number of points)].

(e) For violation (2), what criteria will be used to determine penalties for certifications submitted late?

Certifications submitted late will be assessed the following penalties:

Days Late	*Amount of Penalty*
1–30	$1,000
31–60	$5,000
More than 60	Up to $50,000
	(Considered nonresponsive)

(f) Are there mitigating factors that the Administrative Law Judge or Board may consider in reducing the penalty amount for any violation?

Yes. The Administrative Law Judge or the Board may consider, but is not limited to considering, evidence of the following, as provided by the product manufacturer:

1. Impact on diversion and sustainable markets.
2. Size of company.
3. Degree of cooperation or noncooperation, including documented efforts to obtain container manufacturer's documentation.
4. Technological feasibility of compliance.
5. History of previous compliance.

NOTE: Authority cited: Sections 40502 and 42325, Public Resources Code. Reference: Sections 42310, 42321 and 42322, Public Resources Code.

HISTORY

1. New section filed 11–4–94; operative 12–5–94 (Register 94, No. 44).
2. Amendment of section heading, repealer of former subsections (c)–(e) and new subsections (c)–(f) filed 6–2–2003 as an emergency; operative 6–2–2003 (Register 2003, No. 23). A Certificate of Compliance must be transmitted to OAL by 9–30–2003 or emergency language will be repealed by operation of law on the following day.
3. Reinstatement of section as it existed prior to 6–2–2003 emergency amendment by operation of Government Code section 11346.1(f) (Register 2004, No. 3).
4. Amendment of section heading, repealer of former subsections (c)–(e) and new subsections (c)–(f) filed 1–12–2004; operative 1–12–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 3).

Article 4. Recycled Content Newsprint

§ 17950. Regulatory Effect of Questions and Answers.

For the purposes of this Article, both the question and answer in each section have regulatory effect for implementation and enforcement. In addition to the regulations in this Article, statutory provisions contained in Sections 40502 and 42750 through 42791 of the Public Resources Code govern the Recycled–Content Newsprint Program.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42760, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).

§ 17952. Purpose and Definitions.

(a) What is the purpose of these regulations? These regulations explain what recycled–content newsprint requirements consumers and suppliers of newsprint must meet, and what procedures consumers and suppliers of newsprint must follow to report and certify recycled–content newsprint use. These regulations only pertain to newsprint use within the state of California.

(b) Definitions. Additional definitions may be found in Article 1, Chapter 15, Part 3 of Division 30 of the Public Resources Code.

(1) The *Board* is the California Integrated Waste Management Board.

(2) A *commercial printing and publishing operation* is a business located in California, which uses newsprint in its printing or publishing operation. A *commercial printer* is further defined as a person whose business is classified in the Standard Industrial Classifications Code (SIC), Sections 2752, 2754, or 2759, which are incorporated herein by reference. A *commercial publisher* is further defined as a person whose business is classified in the Standard Industrial Classifications Code (SIC), Sections 2711, 2721, 2731, or 2741, which are incorporated herein by reference.

(3) A *consumer of newsprint* means a person, as defined in Public Resources Code section 40170, who uses newsprint in a commercial printing or in a commercial publishing operation.

Public Resources Code 40170 defines "person" as individual, firm, association, copartnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever.

(4) *Delivery time* is the time between placement of a newsprint order and receipt of that order by a consumer of newsprint.

(5) *Grade* is a class or level of quality of paper or pulp which is ranked, or distinguished from other papers or pulps, on the basis of its use, appearance, quality, manufacturing history, raw materials, or a combination of these factors. Some grades have been officially identified and described and thus are ranked. Others are commonly recognized but lack official definition.

(6) *Groundwood Pulp* means a material that is produced by taking debarked pulpwood, and forcing it against a revolving grindstone in the presence of water. The abrasive action of the stone reduces the wood to pulp. No chemicals are used in the production of groundwood except for possible bleaching.

(7) *Machine Finish* is any finish obtained on a paper machine. It may be that of a sheet of paper as it leaves the last drier or as it leaves the calendar stack. It may also be a dry or water finish. When used in conjunction with the name of a grade or type of paper, a machine finish has less than the maximum range of smoothness.

(8) *May* means a provision is permissive.

(9) A *metric ton* is 1000 kilograms. To convert pounds to metric tons, divide the number of pounds by 2,204.6.

(10) *Must* means a provision is mandatory.

(11) *Newsprint* means uncoated paper, whether supercalendered or machine finished, of the type generally used for, but is not limited to, the publication of newspapers, commercial advertising inserts, directories, or commercial advertising mailers, which is made primarily from mechanical woodpulps combined with some chemical woodpulp. "Newsprint" includes paper made from old newspapers, which have been deinked, using the recycled pulp in lieu of virgin pulp. "Newsprint" includes all grades of paper sold as newsprint, supercalendered (SC) uncoated groundwood, or machine finished (MF) uncoated groundwood.

Grades of newsprint may include, but are not limited to:

(1) Newspaper Newsprint: 52.1 g/m^2 through 45.0 g/m^2

(2) Lightweight Newsprint: 45.0 g/m^2 and lower

(3) Supercalendered and machine finished uncoated groundwood newsprint grades, as follows:

(a) Hi–Brite Newsprint: 48.8 g/m^2 and higher, brightness greater than 65%

(b) CPO Newsprint: 45.0 g/m^2 through 48.7 g/m^2 brightness greater than 65%

(c) Rotogravure Newsprint: 40.0 g/m^2 and higher, roughness less than 60 Sheffield.

(12) A *newsprint manufacturer* is in the business of making newsprint.

(13) A *newsprint supplier* is a broker, dealer, or seller of 5 metric tons or more of newsprint per year for use in California. Consumers who supply other consumers with newsprint are not considered suppliers for the purposes of this Article.

(14) *Quoted price* is defined as the actual purchase price for newsprint; i.e. the price agreed upon by the buyer and the seller, verbally or in writing, which would consummate a sale or purchase.

(15) *Recycled Content Newsprint* means newsprint in which not less than 40 percent of its fiber consists of postconsumer wastepaper.

(16) A *Reporting Period* is from January 1 through December 31 of any given year.

(17) A *shipment* is defined as any quantity of newsprint, regardless of mode of transportation, which is accompanied by an invoice, bill of lading, shipment order, purchase order, or other evidence of shipment. A physical record for every shipment must be received by the company using the newsprint in its commercial printing or publishing operation.

(18) *Supercalendered* is a finish obtained by passing paper between rolls of a supercalender under pressure. The resulting finish will vary depending upon the raw material used in the paper and the pressure exerted upon it, from that of the highest English finish to a highly glazed surface.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42750, 42753, 42754, 42755 and 42756, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code sections 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending subsections (b)(2), (b)(11) and (b)(11)(3) filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17954. Who Must Comply with These Regulations?

Who must comply with these regulations? You must comply with these regulations if you are:

1. A person, as defined by Public Resources Code section 40170, located in California, or
2. A newsprint supplier who is a person, as defined above, who supplies newsprint which will be used in California, or
3. A newsprint manufacturer who is a person, as defined above, who produces newsprint, which will be used in California.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42750, 42753 and 42772, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending item 3. filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17956. Who Must Certify?

These certification requirements apply to printers and publishers, located in California, who use newsprint in their operations. Printing or publishing operations located outside of California are not required to comply with these regulations.

(a) Printer/Publisher Certification of Recycled–Content Newsprint Use to the Board.

(1) If you own or operate a commercial printing establishment located in California, you must annually submit to the Board a completed form CIWMB 430 "Newsprint Consumer Certification" (11/00), which is incorporated herein by reference. (See Appendix A.) This form is due to the Board on March 1 of each year.

(2) If you own or operate a commercial publishing operation located in California, which also owns or operates a commercial printing operation, you must annually submit a completed Newsprint Consumer Certification, form CIWMB 430 (11/00), to the Board.

(3) Any person owning or operating more than one commercial printing or commercial publishing operation in California may submit one certification for all of its operations. All of the information required by Section 17958(b) of this Article must be itemized for each establishment included in the certification.

(4) If you own or operate a commercial printing operation located in California, but do not do any printing, you are not required to submit a Newsprint Consumer Certification, form CIWMB 430 (11/00), to the Board.

(b) Supplier Certification of Recycled–Content Newsprint to Consumers or other Suppliers.

If, at any time during a year, you supply recycled–content newsprint to commercial printers/publishers located in California, or to other suppliers who may in turn supply such establishments, you must comply with Section 17960 of this Article. Suppliers of newsprint are held accountable for certification according to Section 17960, regardless of their location.

(c) Manufacturer Certification of the Recycled–Content of its Newsprint to the Board.

If you are a person manufacturing recycled–content newsprint for use in California, you must submit a letter to the Board certifying the metric tons of postconsumer wastepaper and/or deinked pulp received or produced at each of your mills producing recycled–content newsprint for use in California during each reporting period. You must also certify to the Board the metric tons of recycled–content newsprint, by grade, which were produced at each of your mills that were shipped for use in California during each reporting period. This letter of certification will be due on March 1 of every year for each reporting period (January 1 through December 31).

(d) Manufacturer Certification of the Recycled–Content to Suppliers/Consumers.

If you are a person manufacturing recycled–content newsprint for use in California, you must certify that the newsprint you ship for use in California is recycled–content newsprint.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42753, 42772, 42773, 42774 and 42775, Public Resources Code.

History

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending subsections (a)(1), (2) and (4) filed 1–11–94 pursuant to title 1, section 100, California Code of Regulations (Register 94, No. 2).
3. Amendment of subsections (a)(1)–(2) and (a)(4) filed 1–16–96; operative 2–15–96 (Register 96, No. 3).
4. Change without regulatory effect amending subsections (a)(1)–(2) and (a)(4) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
5. Change without regulatory effect amending subsections (a)(1), (a)(2), and (a)(4) filed 6–6–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 23).
6. Change without regulatory effect amending subsections (a)(1), (a)(2), (a)(4) and (c) filed 9–14–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 38).
7. Change without regulatory effect amending section filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17958. Newsprint Consumer Requirements.

(a) I am a consumer of newsprint. What must I do to comply with these regulations? If you are a consumer of newsprint, to comply with these regulations you must:

1. Satisfy the minimum recycled–content newsprint use requirements in Table One below, and

2. Certify to the Board by March 1 of each year that you are meeting these requirements. The first certification is due to the Board by March 1, 1992 for 1991's use. Certification information is listed in subsection (b) of this section.

TABLE ONE: RECYCLED–CONTENT NEWSPRINT USE REQUIREMENTS

On and After	Required Use
January 1, 1991	25 percent
January 1, 1994	30 percent
January 1, 1996	35 percent
January 1, 1998	40 percent
January 1, 2000	50 percent

(b) I am a consumer of newsprint located in California. What information must I send to the Board each year for my certification? By March 1 of each year, you must send the following information to the Board on the Board–supplied Newsprint Consumer Certification Form #430 (11/00):

1. Your name, mailing address, physical address, and telephone number;

2. The total metric tons of newsprint not containing forty (40) percent postconsumer fibers used during the preceding calendar year; and

3. The total in metric tons of recycled–content newsprint used during the preceding calendar year;

(c) I am a consumer of newsprint. What records must I keep to comply with these regulations? To comply with these regulations, consumers of newsprint must keep:

1. A copy of every shipment order, bill of lading, invoice, purchase order, or other evidence of shipment,

2. A copy of the annual Newsprint Consumer Certification Form #430 (11/00), that you send to the Board, and

3. A copy of any supplier certification you have received.

(d) How long must consumers of newsprint keep the records required by these regulations? You must keep the records for 3 years after the date of the certification and make them available to the Board upon request.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42760, 42770 and 42782, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Amendment of subsection (b), repealer of subsection (b)(4) and amendment of subsection (c)(2) filed 1–16–96; operative 2–15–96 (Register 96, No. 3).
3. Change without regulatory effect amending subsections (b) and (c)2. filed 9–14–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 38).
4. Change without regulatory effect amending subsections (b), (b)2. (c) and (c)2. filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17960. Newsprint Supplier Requirements.

(a) I am a newsprint supplier. When I certify the metric tons of recycled–content newsprint in every shipment to a consumer or other supplier of newsprint, what information must I include? When you certify the metric tons of recycled–content newsprint in every shipment to a newsprint consumer or supplier, you must include:

1. Your name, mailing address, and telephone number,

2. The name and physical address of the consumer or supplier to whom you are sending the newsprint,

3. The name of the newsprint grade, and the date(s) of shipment,

4. Total in metric tons, by grade, of recycled–content newsprint shipped, and

5. Total in metric tons, by grade, of newsprint containing less than forty (40) percent postconsumer wastepaper shipped.

6. If a shipment contains no recycled–content newsprint, the supplier shall so certify.

(b) I am a newsprint supplier who has supplied consumers or other suppliers with recycled–content newsprint. What records must I keep to comply with these regulations? You must keep the following records for each shipment of newsprint you make to a consumer or other supplier of newsprint:

1. The manufacturer's name, address, and mill of production for each grade of newsprint received in each shipment,

2. The name and mailing address of the person from whom you received each shipment prior to your supplying it to others,

3. The name and mailing address of the consumer or supplier to whom you shipped the newsprint,

4. The name of the newsprint grade(s) supplied in each shipment, and the dates of shipment,

5. Total, in metric tons, of each grade of newsprint containing less than forty (40) percent postconsumer wastepaper contained in each shipment,

6. Total, in metric tons, of each grade of recycled–content newsprint contained in each shipment, and

7. Copies of any certifications you send to consumers of newsprint, or to other suppliers.

(c) As a newsprint supplier, how long must I keep the records required by these regulations? If you are a newsprint supplier, you must keep records for 3 years after the date of each certification and make them available to the Board upon request.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42772 and 42780, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending subsections (b)5.–7. filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17962. Newsprint Manufacturer Requirements.

(a) I manufacture recycled–content newsprint, which is used in California. What must I do to comply with these regulations? If you manufacture recycled–content newsprint, which is used in California, you must:

(1) Certify the metric tons of recycled–content newsprint contained in each shipment made to consumers or suppliers, by grade, for use in California. If a shipment contains no recycled–content newsprint, you shall so certify.

(2) Certify to the Board by March 1 of each year the metric tons of postconsumer waste paper and/or deinked pulp received or produced at each of your mills producing recycled–content newsprint for use in California during each reporting period.

(3) Certify to the Board by March 1 of each year the metric tons of recycled–content newsprint, by grade, which were produced at each of your mills, which were shipped for use in California, during each reporting period.

(b) As a manufacturer of recycled–content newsprint, what records must I keep to comply with these regulations? If you are a recycled–content newsprint manufacturer, you must keep copies of any certification you send to suppliers, consumers, or the Board.

(c) As a manufacturer of recycled–content newsprint, how long must I keep the records required by these regulations? You must keep the records for 3 years after the date of the certification and make them available to the Board upon request.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42772, 42780, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending subsections (a)–(a)(1) and (c) filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17964. Quality Standards.

(a) What quality standards does the recycled–content newsprint have to meet? The Board shall establish the comparable quality standards, which the recycled–content newsprint must meet.

(b) How will the Board set its comparable quality standards? In July of each year, the Board will survey newsprint manufacturers who annually sell more than 5,000 metric tons of recycled–content newsprint for use in California. The Board will request samples from each of these manufacturers for each grade of recycled–content newsprint that they produce.

The Board will then conduct testing following the methods of the Technical Association of the Pulp and Paper Industry (TAPPI), and will establish the standards based on the results of the testing. The TAPPI Test Methods T414, T452, and T425, 1986, are incorporated herein by reference, and listed in Table Two below. (See section (e) for additional information about the TAPPI methods).

TABLE TWO: TAPPI TEST METHODS

Specification	*Test Method*	*Units*
Average of all brightness tests	T452	Percent
Average of all opacity tests	T425	Percent
Average of all cross–machine tear strength tests	T414	Grams

(c) The Board will use the following method to calculate the comparable quality standard for each of the specifications in the newspaper news-

print and lightweight newsprint grades:

Sum of the test results from samples submitted by manufacturers	=	_____ (1)
Number of manufacturers submitting samples	=	_____ (2)
Divide (1) by (2)	=	_____ (3)
Multiply (3) by 0.98	=	_____ (4)

The figure on line (4) is the minimum comparable quality standard for these grades.

(d) The Board will use the following method to calculate the comparable quality standard for each of the specifications in the supercalendered and machine finished uncoated groundwood grades:

Sum of the test results from samples submitted by manufacturers	=	_____ (1)
Number of manufacturers submitting samples	=	_____ (2)
Divide (1) by (2)	=	_____ (3)
Multiply (3) by 1.00	=	_____ (4)

The figure on line (4) is the minimum comparable quality standard for these grades.

(e) Where can I find the TAPPI methods for sampling procedures, and the test methods for brightness, printing opacity and cross–machine tear strength? You can find the test methods (T414, T425, T452) in a book called *TAPPI Test Methods*, Volumes 1 and 2, 1986, published by the Technical Association of the Pulp and Paper Industry, P.O. Box 105113, Atlanta, Georgia, 30348. TAPPI methods can also be found in the Annual Book of the American Society of Testing Materials (ASTM) OM–87, Volume 15.09, 1988.

(f) When will the Board make available the comparable quality standards? The Board will make available the comparable quality standards by November 30 of each year.

(g) For what time period will these comparable quality standards apply? The comparable quality standards made available by November 30 of each year will apply throughout the following calendar year.

NOTE: Authority cited: Sections 40502 and 42775(a), Public Resources Code. Reference: Section 42775(a) and (b), Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending subsections (a)–(b) filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17966. Comparable Price.

How do I know if the price I have to pay for recycled–content newsprint is a comparable price? The price for a grade of recycled–content newsprint is comparable if the quoted price for the recycled–content newsprint is less than or equal to the quoted price for newsprint which is not recycled–content newsprint. These price comparisons shall be grade–specific and for similar quantities.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42760, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).

§ 17968. Availability Within a Reasonable Period of Time.

(a) How will I know if the delivery time promised by a newsprint manufacturer or supplier for recycled–content newsprint is reasonable?

(1) A reasonable delivery time for recycled–content newsprint for a commercial publisher shall be forty–five (45) calendar days.

(2) A reasonable delivery time for recycled–content newsprint for a commercial printer shall be calculated by adding the delivery times in days for all deliveries of newsprint of that grade received by the printer in the prior 30 days, dividing the result by the number of deliveries, and multiplying this result by 1.1. If the quoted delivery time is less than or equal to the final result of your calculation, the quoted delivery time is reasonable.

(b) What if I have not received a shipment of that grade of newsprint in the previous 30 days? If you have not received a shipment of that grade of newsprint within the last 30 days, add all the delivery times for the last 90 days for the calculation. If you have not received a shipment in the last 90 days, substitute delivery times of a comparable grade of newsprint and complete the calculation.

(c) What if I have never received a shipment of that grade of newsprint or any comparable grades? If you have never received a shipment of that grade or any grade comparable, the recycled–content newsprint shall be considered available within a reasonable period of time if the quoted delivery time does not prevent you from performing the job for which you need the newsprint.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42760, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).

§ 17970. Auditing.

(a) Will the Board conduct audits of my certifications? The Board may conduct audits of your certifications. The Board may either ask you for additional information, or the Board may conduct an on–site audit.

(b) How will the Board conduct a request for additional information? To get the information, the Board will send you a request by certified mail. The Board will list the information the Board needs and explain why the Board needs the information. You will have thirty days to supply the information.

(c) How will the Board conduct an on–site audit? If the Board decides to audit your records to determine compliance with the statutory requirements, either Board staff or an auditor will conduct the audit. The Board will send you the results within thirty days of the date on which the audit was performed.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42771, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).

§ 17972. Failure to Meet Goals.

(a) I am a consumer of newsprint. What happens if I cannot meet the recycled–content newsprint use requirements for any reporting period? If you cannot meet the recycled–content newsprint use requirements for any reporting period, you must give the specific reasons why you did not meet them when you file your certification for that reporting period.

There are only three acceptable reasons, pursuant to Public Resources Code section 42773, for not meeting the recycled–content newsprint use requirements:

1. The recycled–content newsprint did not meet the quality standards established by the Board as defined in Section 17964 of this Article;

2. The recycled–content newsprint was not available at a comparable price, as defined in Section 17966 of this Article, to that for newsprint which is not recycled–content newsprint; or

3. The particular grade of recycled–content newsprint would not have been available in a reasonable time as defined in Section 17968 of this Article.

(b) I was not able to meet the recycled–content newsprint use requirements for a reporting period. In my certification, I am going to use one of the reasons listed above to explain why I did not meet the requirements for recycled–content newsprint use. What steps do I have to take to make this certification in good faith? To make this certification in good faith, you must provide documentation, as described in Public Resources Code section 42773, showing that you contacted newsprint suppliers for the purpose of obtaining recycled–content newsprint. You must list all newsprint suppliers with whom you had purchase discussions, or producers that offered to sell you recycled–content newsprint within the preceding twelve months, on the Board supplied Newsprint Consumer Certification Form #430 (11/00).

(c) I was not able to meet the recycled–content newsprint use requirements for a reporting period. What records do I have to keep to document my claim?

1. If you claim that you did not meet the recycled–content newsprint use requirements because recycled–content newsprint was not available at a comparable price to newsprint which is not recycled–content newsprint, you must keep invoices for the newsprint you purchased for your use and copies of the quoted prices which you received for recycled–content newsprint during that particular reporting period.

2. If you claim that you did not meet the recycled–content newsprint use requirements because the recycled–content newsprint did not meet the comparable quality standards during a particular reporting period, it is your responsibility to document your claim. Examples of documentation include, but are not limited to:

(i) Technical specifications or a letter of certification from the manufacturer of that newsprint demonstrating that the newsprint does not meet the quality standards, or

(ii) A letter of notification to the Board within two days of the date you conclude that the use requirements will not be met. The Board may conduct TAPPI tests, identified in section 17964—Table Two of this Article, to assist you in substantiating your claim. If testing is required, the Board shall inform you of proper shipping and handling procedures for the samples based on the provisions of the particular test to be used.

3. If you are a commercial publisher, and you claim that a grade of recycled–content newsprint was not available within a reasonable period of time during a particular reporting period, you must keep copies of the quoted delivery times which you are claiming were unreasonable.

If you are a commercial printer, and you claim that a grade of recycled–content newsprint was not available within a reasonable period of time during a particular reporting period, you must keep copies of the calculations used to establish your reasonable delivery time for that grade of newsprint and the quoted delivery times which you are claiming were unreasonable.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 42760 and 42773, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Amendment of subsection (b) filed 1–16–96; operative 2–15–96 (Register 96, No. 3).
3. Change without regulatory effect amending subsection (b) filed 9–14–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 38).
4. Change without regulatory effect amending subsections (a)2., (b) and (c)–(c)1. filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17974. Penalties.

What can happen to me if I make a false or misleading certification or I do not comply with the statutory requirements?

(a) Any person who does not comply with the statutory requirements for this program may be found guilty of an infraction, and/or may be subject to civil penalties. The Board may assess civil penalties of up to $1,000 per violation, subject to notice and hearing.

(b) Late filers and non–filers of Newsprint Consumer Certifications (Form 430) shall be subject to the graduated penalty structure below:

1. Any Consumer of Newsprint who files a certification at least 45 days late will be assessed a $500 civil penalty.

2. Any Consumer of Newsprint who files a certification more than 90 days late and/or fails to file will be assessed a $1,000 civil penalty.

(c) Any civil penalties assessed against a late or non–filer of the Form 430 shall be assessed by the Executive Director.

(d) A Consumer of Newsprint may appeal the penalty assessed above to the full Board within ten (10) working days of receipt of the Notice of Penalty. This appeal must be made in writing and must be addressed to the Executive Director of the Board. The Executive Director shall calendar the appeal for hearing by the Board within thirty (30) days of receipt of the written notification by the Consumer of Newsprint.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 42790 and 42791, Public Resources Code.

HISTORY

1. New section filed 4–7–92; operative 4–7–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 18).
2. Change without regulatory effect amending form filed 1–11–94 pursuant to title 1, section 100, California Code of Regulations (Register 94, No. 2).
3. Amendment of forms filed 1–16–96; operative 2–15–96 (Register 96, No. 3).
4. Change without regulatory effect moving form to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
5. Amendment filed 12–22–99; operative 1–21–2000 (Register 99, No. 52).

Article 5. Recycled Content Trash Bag Program

§ 17975. Regulatory Effect of Questions and Answers.

(a) What is the regulatory effect of the questions and answer format? Both the question and answer in each section have regulatory effect for purposes of implementation and enforcement. In addition to the regulations in this Article, statutory provisions contained in Sections 42290 through 42297 of the Public Resources Code (PRC) govern the Recycled Content Trash Bag Program.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Section 42291, Public Resources Code.

HISTORY

1. New article 5 and section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of section and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).

§ 17976. Purpose and Definitions.

(a) What is the purpose of these regulations? These regulations explain the requirements for each manufacturer and wholesaler of trash bags and each supplier of recycled plastic postconsumer material (RPPCM) which is used to manufacture trash bags which are intended for sale or distribution in California. Also included are procedures manufacturers and wholesalers of trash bags and suppliers of recycled plastic postconsumer material (RPPCM) must follow to meet reporting and certification requirements. These regulations pertain to plastic trash bags which are intended for sale or distribution, or which are sold within California to recycled plastic postconsumer material (RPPCM) used to manufacture plastic trash bags which are sold or intended for sale or distribution in California and other plastic products manufactured by a plastic trash bag manufacturer intended for sale in California.

(b) Definitions. The following definitions, and the definitions found in Public Resources Code section 42290 apply to the regulations in this Article.

(1) "Actual postconsumer material (APCM)" means the weight, in pounds, of the postconsumer material used in a feedstock to manufacture trash bags. For example, the weight of actual postconsumer material in 1000 pounds of 100% postconsumer material feedstock would be 1000 pounds. However, the weight of APCM in 1000 pounds of resin blended from 70% postconsumer material and 30% non–postconsumer material would be 700 pounds (1000 x 0.70 = 700).

(2) "Annual aggregate use" is the sum of all actual postconsumer material (APCM) used to manufacture plastic products, either just the plastic trash bags or all of a manufacturer's plastic products that are used as a basis for compliance pursuant to section 17979. For example, if the manufacturer chooses section 17979(a)(1)(A)1 to show compliance, and if 10 million pounds of regulated trash bags are intended for sale in California, at least 1 million pounds APCM must be used to manufacture plastic trash bags intended for sale in California during that reporting period. Furthermore, the APCM may be used in some plastic trash bags and not in others so long as the cumulative use of APCM in plastic trash bags intended for sale in California exceeds 1 million pounds for the reporting period. If the manufacturer uses section 17979(a)(1)(A)2 to show compliance and 10 million pounds of regulated trash bags and 90 million pounds of other plastic products were manufactured and intended for sale in California, at least 30 million pounds (0.30 x (10+90) = 30) APCM

must be used to manufacture all of those products during that reporting period.

(3) "Authorized certification signature" means the signature of any one of the following persons who has been designated by the entity to sign a certification on its behalf:

For a corporation—A responsible corporate officer or manager authorized to make management decisions which govern the operation of the certifying facility.

For a partnership or sole proprietorship—The general partner or sole proprietor.

For a government agency—Either the principal executive officer or a designated elected official who is authorized to obligate the entity for purposes of this certification.

(4) "The Board" means the California Integrated Waste Management Board.

(5) "Manufacturer" means a person who manufacturers plastic trash bags for sale in this state. This includes persons who produce plastic trash bags or convert plastic film into trash bags for sale in this state.

(6) "May" means a provision is permissive.

(7) "Must" means a provision is mandatory.

(8) "Plastic trash bag" means a bag that is manufactured for intended use as a container to hold, store, or transport materials to be discarded, composted, or recycled, including, but not limited to, garbage bags, composting bags, lawn and leaf bags, can–liner bags, kitchen bags, compactor bags, and recycling bags.

A plastic trash bag does not include a grocery sack or any other bag that is manufactured for intended use as a container to hold, store, or transport food.

A plastic trash bag does not include any plastic bag that is used for the purpose of containing either of the following wastes:

(a) "Hazardous waste," as defined in Section 25117 of the Health and Safety Code.

(b) "Medical waste," as defined in Section 25023.2 of the Health and Safety Code.

(9) "Postconsumer material" means a finished product which would normally be disposed of as a solid waste, having completed its intended end–use and product life cycle. "Postconsumer material" does not include manufacturing and fabrication scrap.

(10) "Proximate prior usage" means the collected finished product which the postconsumer material was derived from prior to its being processed into recycled plastic postconsumer material for use in a recycled content trash bag. For example, the proximate prior usage of the postconsumer material may have been, dry–cleaner bags, grocery or produce bags, agricultural film, or stretch wrap.

(11) "Recycled plastic postconsumer material (RPPCM)" means a plastic feedstock which is used to manufacture trash bags which contain postconsumer material. RPPCM may contain any amount (1–100%) of postconsumer material; however, compliance will be determined based on the APCM content of the trash bags.

(12) "Regulated bags" means plastic trash bags, as defined, intended for sale in California, which are at or above 0.70 mil thickness.

(13) "Reporting Period" is from January 1 through December 31 of any calendar year.

(14) A "shipment" is defined as any quantity of trash bags or recycled plastic postconsumer material, regardless of mode of transportation, which is accompanied by an invoice, bill of lading, shipment order, or other evidence of shipment.

(15) A "Supplier" means any person who provides recycled plastic postconsumer material (RPPCM) to a manufacturer of plastic trash bags.

(16) "Wholesaler" means any person who purchases plastic trash bags from a manufacturer for resale in this state. This includes all persons who sell or resell regulated plastic trash bags to retailers, distributors, commercial or industrial users, or governmental entities in California.

NOTE: Authority cited: Section 40502 and 42297, Public Resources Code. Reference: Sections 42290 and 42291, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of section and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17977. Who Must Comply With These Regulations?

(a) Who must comply with these regulations? You must comply with these regulations if you are:

(1) A manufacturer or wholesaler of regulated trash bags, or

(2) A supplier of RPPCM who sells material to a manufacturer of regulated trash bags.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42290, 42291, 42292, 42293 and 42294, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsections (a)(1)–(2) and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending subsection (a)(2) filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17978. Who Must Certify?

Trash bag manufacturers and wholesalers of trash bags must certify annually to the Board on Board–supplied form CIWMB 57 "Plastic Trash Bag Manufacturer Certification" and form CIWMB #58 "Plastic Trash Bag Wholesaler Certification", respectively, which are described in Sections 17979 and 17979.5, and which are incorporated herein by reference. Suppliers of RPPCM must certify annually to the regulated trash bag manufacturers to whom they sell material. The supplier certification form will not be provided by the Board.

(a) Annual Aggregate Certification Requirements for Manufacturers of Trash Bags—

If you are a manufacturer of regulated trash bags, you must comply with the requirements described in Public Resources Code (PRC) sections 42291, 42292 and 42293. You must annually submit to the Board a completed Trash Bag Manufacturer Certification Form #57 on or before March 1 (to cover the preceding reporting period) of each year.

(b) Certification Requirements for Wholesalers of Trash Bags—

If you are a wholesaler of trash bags, you must comply with the requirements described in PRC section 42294. You must annually submit to the Board a completed Wholesaler of Trash Bag Certification Form #58 on or before March 1 (to cover the preceding reporting period) of each year.

(c) Certification Requirements for Suppliers of RPPCM—

If you are a supplier of RPPCM who sells material to a manufacturer of regulated trash bags, you must annually provide each manufacturer with the information described in PRC section 42292 and in Section 17980 of this Article. This report is due to each regulated trash bag manufacturer to whom you supplied RPPCM by February 1, (to cover the preceding reporting period) of each year.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42290, 42291, 42292 and 42293, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of first paragraph and subsection (a), new subsection (b), subsection relettering, and amendment of newly designated subsection (c) and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending first paragraph filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
4. Change without regulatory effect amending section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17979. Requirements for Manufacturers of Regulated Trash Bags.

(a) Manufacturers of Regulated Trash Bags—

(1) I am a manufacturer of regulated trash bags. What must I do to comply with these regulations? To comply with these regulations, you must:

(A) Certify to the Board by March 1 of each year one of the following:

1. That you met the annual aggregate use requirements that plastic trash bags intended for sale in California contained APCM equal to at least 10 percent by weight of the regulated trash bags.

2. That you met the annual aggregate use requirement that 30 percent of the weight of the material used in all of your plastic products intended for sale in California is APCM.

3. Were exempt from meeting the requirements because all of the regulated trash bags you sold in California during the previous reporting period were either:

i. below the minimum gauge standard, or were

ii. hazardous or medical waste bags, or were

iii. non–plastic trash bags.

(B) Provide information upon request to anyone who purchases your trash bags and who must comply with these regulations, that will enable the purchaser to fulfill its certification requirements.

(C) Inform suppliers of RPPCM that the RPPCM being purchased will be reported on a certification to the Board in compliance with these regulations.

(2) I am a manufacturer of regulated trash bags. What information must I send to the Board each year in my certification?

On or before March 1 of each year you must send the following information to the Board for the preceding reporting period in your Trash Bag Manufacturer Certification Form #57:

(A) Identification—

Your company name, headquarters mailing address, every physical address where regulated trash bags were manufactured, contact person, and telephone number.

(B) Certification Information—

1. Total number of plastic trash bags intended for sale in California,

2. Total tons of plastic trash bags intended for sale in California,

3. Total tons of actual postconsumer material used to manufacture all plastic trash bags intended for sale in California, if claiming compliance through section 17979(a)(1)(A)1,

4. Total number of regulated trash bags intended for sale in California,

5. Total tons of regulated trash bags intended for sale in California, if claiming compliance through section 17979(a)(1)(A)1,

6. Total tons of material used to manufacture all plastic products intended for sale in California, if claiming compliance through section 17979(a)(1)(A)2,

7. Total tons of APCM used to manufacture all plastic products intended for sale in California, if claiming compliance through section 17979(a)(1)(A)2,

8. A description of any minimum recycled content mandate(s) of any other local, state, or federal government agencies with which you are required to comply, and the total tons of APCM used to comply with these mandates.

9. The number of regulated trash bags and the tons of regulated trash bags which originated from each physical location from which the manufacturer shipped regulated trash bags,

10. If you produce your own RPPCM, total tons of RPPCM produced during the reporting period, and, for each location where RPPCM is produced: tons of RPPCM, APCM content of RPPCM, and proximate prior usage of APCM,

11. The name and physical location of each supplier of RPPCM,

12. The quantity and proximate prior usage of, and the actual postconsumer material content of, RPPCM purchased for use in regulated trash bags, and

13. A list of any company(ies) to whom you sold RPPCM during the previous reporting period.

(C) Accompanying Documentation

Accompanying documentation, such as, results of an independent audit or certification program regarding your regulated trash bags or the RPPCM you purchased, may be attached.

(D) If applicable — Manufacturer's Justification of Non–compliance

If a manufacturer of regulated trash bags is unable to obtain sufficient amounts of RPPCM because the material did not meet the quality standards established by the Board or the RPPCM was not available within a reasonable period of time, the manufacturer shall so certify. The information required to make such claims is identified in Sections 17980.5, 17981, 17982 and/or 17983, and 17983.5 of this Article, as applicable.

Additional recordkeeping requirements regarding such claims are in Sections 17982 and/or 17983 of this Article.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42291, 42292 and 42293, 42298, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of section heading, section and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending subsection (a)(1)(A)1. Table One and NOTE filed 5–17–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 20).
4. Change without regulatory effect amending section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
5. Change without regulatory effect amending subsections (a)(2), (a)(2)(B)10. and (a)(2)(B)12. filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).
6. Change without regulatory effect amending subsections (a)(1)(A)2. and (a)(2)(B)13. filed 2–4–2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 6).

§ 17979.1. Recycled Plastic Postconsumer Material That Cannot Be Used for Compliance.

Any certification of RPPCM used for compliance with these requirements shall not include any materials that are certified or used for compliance with any other California or federal requirement that requires the use or reporting of RPPCM for plastic products.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Section 42290.5, Public Resources Code.

HISTORY

1. Change without regulatory effect adding new section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
2. Change without regulatory effect amending section heading filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17979.3. Exemption For Trash Bags Using Adhesive, Heat Affixed Straps; Petition for Variance.

NOTE: Authority cited: Sections 40502, 42297 Public Resources Code. Reference: Section 42298, Public Resources Code.

HISTORY

1. Change without regulatory effect adding new section filed 5–17–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 20).
2. Amendment filed 5–15–97; operative 5–15–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 20).
3. Change without regulatory effect repealing section filed filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17979.5. Requirements for Wholesalers of Regulated Trash Bags.

(a) Wholesalers of Regulated Trash Bags — Wholesalers of regulated trash bags who are not also manufacturers of trash bags shall be guided by the following provisions:

(1) I am a wholesaler of regulated trash bags who is not also a manufacturer of trash bags. What information must I send to the Board each year in my certification? On or before March 1 of each year, you must send the following information to the Board for the preceding reporting period on your Trash Bag Wholesaler Certification Form #58:

(A) Your company name, headquarters mailing address, every physical address from which regulated trash bags were shipped, telephone number, and contact person,

(B) A list of each manufacturer and each other wholesaler from whom you purchased regulated trash bags during the previous reporting period, and,

(C) The number of regulated trash bags and the tons of regulated trash bags shipped from each physical location which were intended for sale or distribution or sold in California for which you are certifying.

(2) I am a wholesaler of regulated trash bags who is not also a manufacturer of regulated trash bags. Must I provide information to other wholesalers regarding the trash bags I sell? Yes, you must provide information upon request to any wholesaler to whom you sell regulated trash bags and who must comply with these regulations. The information must enable the wholesaler to fulfill its certification requirements.

(A) You must also inform manufacturers and wholesaler of regulated trash bags that the trash bags being purchased will be reported on a certification to the Board in compliance with these regulations.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42290, 42291, 42292, 42293 and 42294, Public Resources Code.

HISTORY

1. New section filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
2. Change without regulatory effect amending subsection (a)(1) filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17980. Requirements for Suppliers of Recycled Plastic Postconsumer Material (RPPCM) for Use in Regulated Trash Bags.

(a) I am a supplier of RPPCM who has sold material to a manufacturer of regulated trash bags who is required to comply with these regulations. What must I do to comply with these regulations?

To comply with these regulations you must:

Provide each regulated trash bag manufacturer with a statement identifying:

(1) the quantity and proximate prior usage of RPPCM sold for use in the regulated trash bags sold to the manufacturer,

(2) the actual postconsumer material (APCM) content of RPPCM sold for use in the regulated trash bags sold to the manufacturer, and

(3) any other information required of the manufacturer by the Board for the purposes of inclusion in the annual certification to the Board.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42292 and 42293, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of section heading, subsection (a) and NOTE, repealer of subsections (a)(1)–(4), and new subsections (a)(1)–(3) filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section heading and section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17980.5. What If I Determine During A Reporting Period That I Cannot Meet The Recycled Plastic Postconsumer Material (RPPCM) Content Requirements?

(a) I am a manufacturer of regulated trash bags. Will the Board provide me with any assistance if I determine, during a reporting period, that I may not or cannot meet the RPPCM content requirement? If at any time during a reporting period, you determine you may not meet the RPPCM content requirement, you must contact the Board within ten (10) calendar days of making the determination. The Board will supply you with information regarding additional suppliers of RPPCM. Following receipt of the information from the Board, you are required to make a good–faith effort to purchase RPPCM to meet the use requirement from each supplier on the Board–provided list. A good–faith effort must be made with each supplier on the Board's list, in addition to those suppliers you have done business with or are otherwise aware of prior to making the certification in Section 17981.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42290, 42291, 42292 and 42293, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of section and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section heading and section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17981. Failure To Meet Recycled Plastic Postconsumer Material (RPPCM) Content Requirements.

(a) I am a manufacturer of regulated trash bags. What must I do if I do not meet the regulatory requirements for any reporting period? If you are unable to obtain sufficient amounts of RPPCM within any reporting period because (1) it did not meet the RPPCM quality standards promulgated by the Board or (2) it was not available within a reasonable period of time, you must certify that fact to the Board.

(b) Must I provide documentation if I am requesting an exemption due to the lack of availability or due to the low quality of RPPCM? Yes, required documentation to support as claim for a quality exemption may be found in Section 17982(f) and required documentation to support a claim for an availability exemption may be found in Section 17983(b).

(c) Must records be kept to document a claim? Yes, records must be kept to assist you in documenting your certification. (See Section 17983.5 of this Article).

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42290, 42291, 42292 and 42293, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsection (a), new subsection (b), subsection relettering, and amendment of newly designated subsection (c) and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section heading and section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17982. Minimum Recycled Plastic Postconsumer Material (RPPCM) Quality Standards.

(a) What are the Board's minimum recycled plastic postconsumer material quality standards for regulated trash bags? The following recycled postconsumer plastic material quality standards have been developed by the Board for regulated trash bags. The Board will make available the quality standards by December 31 of each year and they will apply for a maximum of two years. The test methods to be used by the Board to determine whether the standards are being met are included with each characteristic, whenever applicable. These minimum specifications are for the plastic RPPCM blended with a minimum of thirty percent (30%) APCM.

(1)	Moisture:	750 parts per million (ppm) maximum.
	Test Method:	ASTM D–4019–88 or equivalent method.
(2)	Contamination:	A specification mutually agreed upon by the trash bag manufacturer and supplier of RPPCM.
	Test Method:	A test method mutually agreed upon by the trash bag manufacturer and supplier of RPPCM.
(3)	Pellet uniformity:	The total number of pellets in a one gram sample must not vary more than ten percent (+/– 10%) from the average number for five samples.
	Test Method:	A simple count.
(4)	Specific gravity:	Resin must be within one percent (+/– 1%) of a specific gravity mutually agreed upon by the trash bag manufacturer and resin manufacturer.
	Test method:	ASTM D–792–91, ASTM D–1505–90 or equivalent.

(5) Melt Index: HDPE base resin – 0.25–0.85
LDPE base resin – 0.25–2.5
LLDPE base resin – 0.5–2.5, and
the melt index must not vary by more than fifteen percent (+/– 15%) within a shipment, and it must be within thirty percent (+/– 30%) from shipment to shipment over the length of the contract.

Test method: ASTM D–1238–88, or equivalent.

The ASTM test methods D–4019–88: Standard Test Method for Moisture in Plastics By Coulometry, D–792–91: Standard Test Methods for Density and Specific Gravity (Relative Density) of Plastics By Displacement, D–1505–90: Standard Test methods for Density of Plastics by the Density–Gradient Technique, D–1238–88: Standard Test methods for Flow Rates of Thermoplastics by Extrusion Plastometer are incorporated herein by reference.

(b) Where can I find the ASTM test methods? You can find ASTM test methods in the annually updated book called Annual Book of ASTM Standards, (ASTM) Section 8, Volume 08.01, published by the American Society for Testing and Materials, 1919 Race Street, Philadelphia, PA 19103–1187, the noted sections of which are herein incorporated by reference. All ASTM tests must be performed with the most recently approved methods. The non–ASTM test methods have yet to be standardized or are self–evident.

(c) What if a mutually agreeable specification cannot be reached between buyer and seller of the RPPCM? If a mutually agreed upon specification cannot be reached in good faith, the trash bag manufacturer must purchase and use RPPCM which meets any past or present specification for RPPCM that the manufacturer has previously used to purchase material.

(d) What if an equivalent test method is mutually agreed upon between buyer and seller of RPPCM and the RPPCM for sale does not pass the test? As long as the equivalent test method was mutually agreed upon by buyer and seller, an exemption claim based upon the failure to purchase the material will be accepted and evaluated by Board staff. If, however, an equivalent lest method is not agreed upon, or problems arise with the test method after an agreement is reached, a trash bag manufacturer may not make a certification pursuant to Section 17981 based on the failure to purchase the material for which the test method was inadequate.

(e) What if a trash bag manufacturer produces its own RPPCM? If a trash bag manufacturer produces enough RPPCM to meet the RPPCM use requirement, the manufacturer may not claim an exemption. If, however, the manufacturer can produce only a portion of the RPPCM it needs to comply with the requirements of this program, the manufacturer may file a request for a exemption if the failure to meet the use requirement was due to the quality or availability of the RPPCM offered for sale.

(f) I wish to certify that I was not able to meet the regulatory requirements because the RPPCM available to me did not meet the Board's quality standards. What must I do to make this certification? For each shipment or sample of RPPCM you rejected or refused to purchase on the basis that it did not meet the Board's minimum RPPCM quality standards, it is your responsibility to document your claim. Required documentation includes all of the following, but is not solely limited to these items:

(1) The list of the suppliers of RPPCM with whom you had purchase discussions after you realized that you might not meet the regulatory requirements,

(2) Any and all specifications and test methods which were mutually agreed upon between you and your RPPCM suppliers,

(3) Independent test results, product specifications, a letter of certification, or other documentation from each supplier of RPPCM you rejected or refused to purchase on the basis that it did not meet the Board's minimum RPPCM quality standards, demonstrating that the material does not meet the quality standards,

(4) Performance of ASTM tests, identified in Section 17982(a) of this Article, may be conducted by the Board to assist you in substantiating your claim. If testing is to be done, the Board shall inform you of proper shipping and handling procedures for samples based on the provisions of the particular test to be used,

(5) A written explanation describing the circumstances leading to your decision to reject or refuse to purchase every sample or shipment of rejected or refused RPPCM, and,

(6) A written explanation from the supplier of any sample or shipment of RPPCM describing the quality of the particular material which was rejected or refused by you.

(g) Will the Board periodically review its RPPCM quality standards? Yes, the Board will review its RPPCM quality standards whenever the Board determines it is necessary. The standards will be reviewed at least once every two years until the year 2000.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42291, 42295 and 42297, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsections (a)–(a)(2) and (a)(4)–(b), new subsections (c)–(e), subsection relettering, and amendment of newly designated subsections (f)–(g) and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section heading and section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 17983. Availability Within a Reasonable Period of Time.

(a) What is a reasonable period of time for shipment of RPPCM? The RPPCM shall be considered available within a reasonable period of time if the quoted shipment time will not prevent you from manufacturing the regulated trash bags with RPPCM or the shipment of RPPCM will arrive within sixty (60) days of the RPPCM order date.

(b) I must certify that I was not able to meet the regulatory requirements because RPPCM was not available to me within a reasonable period of time. What records must I keep to document my certification? If you claim that you did not meet the regulatory requirements because RPPCM was not available within a reasonable period of time, it is your responsibility to document each claim. Required documentation for each claim includes, but is not limited to, all of the following:

(1) Copies of your production schedule indicating the date the RPPCM was needed to maintain your production of regulated trash bags,

(2) The quoted shipment times that you are claiming were unreasonable, order date, and quoted delivery date,

(3) RPPCM storage inventory at the regulated trash bag manufacturing facility where the material was to be shipped indicating the material was not otherwise available,

(4) The volume of RPPCM requested in the order,

(5) A written explanation describing the circumstances contributing to your need to claim an exemption based on the availability of RPPCM,

(6) A written explanation from the supplier of RPPCM describing the availability of the particular material at the time of your negotiations, and,

(7) Additional facts to substantiate that the volume ordered and the timeframe for delivery that were requested were reasonable under normal business practices.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42291, 42295 and 42297, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsections (b) and (b)(4), new subsections (b)(5)–(6), subsection renumbering, and amendment of NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

4. Change without regulatory effect amending subsection (b)(2) filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17983.5. Recordkeeping Requirements.

(a) I am a manufacturer or wholesaler of regulated trash bags. What records must I keep to comply with these regulations? To comply with these regulations, you must keep:

(1) A copy or record of every shipment order, bill of lading, or other evidence of shipment of regulated trash bags you sold to a retailer, distributor, wholesaler, broker, commercial or industrial user, or governmental entity,

(2) A copy or record of every shipment order, bill of lading, or other evidence of shipment of regulated trash bags you purchased from a manufacturer or wholesaler of trash bags,

(3) A copy or record of every shipment order, bill of lading, or other evidence of shipment of RPPCM you purchased or that you sold to another trash bag manufacturer which identifies the APCM contained in the RPPCM,

(4) A copy or record of any documentation you are using to verify a claim for an exemption based upon your assertion that the RPPCM did not meet the quality standards or was not available within a reasonable period of time,

(5) A copy of every annual Certification Form #57 or #58 sent to the Board,

(6) A copy of every certification, or other legal document, required by other local, state, or federal government agencies to satisfy minimum recycled content mandates for trash bags or other plastic products,

(7) A certification, or other legal document, with an authorized certification signature, as defined in Section 17976(b)(3) of this Article from each supplier of postconsumer material identifying the material as postconsumer material as defined by PRC section 41970(c), and the quantity purchased during the preceding calendar year.

(8) A copy of each statement received from a supplier of RPPCM identifying the quantity and proximate prior usage of, and the actual postconsumer material content of each shipment of RPPCM purchased and any other information the Board requires for purposes of inclusion in the annual certification, and,

(9) Any mutually agreed upon quality standard or delivery time for RPPCM.

(b) I am a supplier of RPPCM. What records must I keep to comply with these regulations? To comply with these regulations, you must keep:

(1) A copy or record of every shipment order, bill of lading, or other evidence of shipment of RPPCM you sold to a manufacturer of regulated trash bags,

(2) A copy or record of every shipment order, bill of lading, or other evidence of shipment of postconsumer material obtained from a hauler, collector, other RPPCM supplier, or collection program.

(3) A certification, or other legal document, signed by a person of authority, from each supplier of postconsumer material identifying the material as postconsumer material as defined by PRC section 41970(c).

(4) A copy of every annual Certification Form #57 or #58 sent to the Board, or other report or certification sent to a manufacturer of regulated trash bags, and,

(5) A copy of each statement required to accompany each type of RPPCM sold to a manufacturer of trash bags which identifies the quantity and proximate prior usage of, and the actual postconsumer material content of, each shipment of that RPPCM type and any other information the Board requires of suppliers for purposes of inclusion in the trash bag manufacturers annual certification.

(c) How long must I keep these records? All records must be kept for three (3) years after the date of certification. The records must be made available to the Board upon request.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Sections 42290, 42291, 42292, 42293 and 42295, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsections (a)–(a)(4), (a)(6)–(7), (b)–(b)(2), and (b)(4), new subsections (a)(8)–(9) and (b)(5), and amendment of NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect amending section filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Change without regulatory effect amending subsections (a)(5) and (b)(4) filed 11–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 46).

§ 17984. Auditing.

(a) Will the Board conduct audits related to my certifications? The Board may include audits related to your certifications. The Board may either request additional information, or the Board may conduct an on–site audit. Each manufacturer, wholesaler or supplier required to provide certification or any information pursuant to this chapter shall be subject to audit by the Board.

(b) How will the Board request additional information? The Board will send you a request for additional information by certified mail. The Board will list the information it needs and explain the need for the information. You will have thirty (30) days from the date of receipt of the request to supply the information.

(c) How will the Board conduct an on–site audit? If the Board decides to audit your records or facilities to determine compliance with the regulatory requirements, either Board staff or the Board's designee will conduct the audit.

NOTE: Authority cited: Sections 40502 and 42297, Public Resources Code. Reference: Section 42295, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsection (a) and NOTE filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).

§ 17985. Penalties.

(a) What may result if I provide the Board with a false or misleading certification? Any person who provides the Board with a false or misleading certification may be prosecuted for fraud by the Attorney General.

(b) What may result if I do not comply with the regulatory requirements? The Board shall publish a list of those not in compliance with the requirements of this Article. Manufacturers and wholesalers of regulated trash bags and suppliers of RPPCM who do not comply with these statutes or regulations may be referred to the Attorney General for prosecution.

NOTE: Authority cited: Sections 40502, 41955 and 42297, Public Resources Code. Reference: Section 42296 and 42297, Public Resources Code.

HISTORY

1. New section filed 3–9–94; operative 3–9–94 (Register 94, No. 10).
2. Amendment of subsection (b) and NOTE and new forms CIWMB #57 and #58 filed 3–24–95; operative 3–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 12).
3. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
4. Change without regulatory effect amending subsection (b) filed 3–11–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

Article 6. At–Store Recycling Program Recordkeeping, Reporting and Measurement

§ 17987. Scope.

These regulations provide guidance to stores subject to the requirements of the At–Store Recycling Program Law (Public Resources Code Sections 42250 et seq.). Under this law, stores, as defined, shall provide at–store recycling opportunities for plastic carryout bags provided to customers by the stores at the point–of–sale, and shall maintain records describing the collection, transport and recycling of plastic bags collected for a minimum of three years. These regulations are designed to clarify the recordkeeping requirements of the law.

NOTE: Authority cited: Sections 40502 and 42252, Public Resources Code. Reference: Section 42252, Public Resources Code.

HISTORY

1. New article 6 (sections 17987–17987.5) and section filed 7–30–2007 as an emergency; operative 7–30–2007 (Register 2007, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–28–2008 or emergency language will be repealed by operation of law on the following day.
2. New article 6 (sections 17987–17987.5) and section refiled 1–28–2008 as an emergency; operative 1–28–2008 (Register 2008, No. 5). A Certificate of Compliance must be transmitted to OAL by 4–28–2008 or emergency language will be repealed by operation of law on the following day.
3. New article 6 (sections 17987–17987.5) and section refiled 4–28–2008 as an emergency; operative 4–28–2008 (Register 2008, No. 18). A Certificate of Compliance must be transmitted to OAL by 7–28–2008 or emergency language will be repealed by operation of law on the following day.

§ 17987.1. Applicability.

These regulations do not cover retail establishments that do not meet the definition of a store, nor bags that are not plastic carryout bags, as defined. The requirements of the At–Store Recycling Program Law apply only to stores as defined in this Article that provide plastic carryout bags to customers at the point–of–sale.

NOTE: Authority cited: Sections 40502 and 42252, Public Resources Code. Reference: Sections 42250, 42251 and 42252, Public Resources Code

HISTORY

1. New section filed 7–30–2007 as an emergency; operative 7–30–2007 (Register 2007, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–28–2008 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–28–2008 as an emergency; operative 1–28–2008 (Register 2008, No. 5). A Certificate of Compliance must be transmitted to OAL by 4–28–2008 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 4–28–2008 as an emergency; operative 4–28–2008 (Register 2008, No. 18). A Certificate of Compliance must be transmitted to OAL by 7–28–2008 or emergency language will be repealed by operation of law on the following day.

§ 17987.2. Definitions.

The following definitions apply to the regulations in this Article.

(a) "Board" means the California Integrated Waste Management Board.

(b) "Co–Mingled Recycling Rate" means the percentage of plastic carryout bags recycled relative to other film plastic material recycled as determined by periodic waste characterization studies performed by or on behalf of the Board.

(c) "Compostable Carryout Bag" means a bag provided by a store to customers at the point–of–sale that meets the American Society of Testing and Material Standard D6400 for degradation through biological processes or degrades from the action of naturally occurring microorganisms including, but not limited to, bacteria, fungi and algae. This definition includes any bag labeled in compliance with Chapter 5.7 (commencing with Section 42355) of the Public Resources Code.

(d) "Designated Reporting Party or Parties" means a person authorized by an operator to maintain and report the records and data required by this Article. An operator may have more than one designated reporting party.

(e) "Local Jurisdiction" means a county, city, city and county, district, public authority, public agency, and any other political subdivision or public corporation in the state, but does not include the state government.

(f) "Manufacturer" means the producer or generator of a plastic carryout bag sold to a store in California.

(g) "Measurement Period" means the twelve month period beginning on January 1 and ending December 31 of each calendar year.

(h) "Operator" means a person in control of, or having daily responsibility for, the daily operation of a store, as defined in this Article, which may include, but is not limited to, the owner, lessee, or franchisee. An operator may have control of more than one store.

(i) "Person" means any natural person, corporation, partnership, limited liability company, firm, association, or sole proprietorship.

(j) "Plastic Carryout Bag" means a plastic carryout bag provided by a store to a customer at the point of sale. A compostable carryout bag is not a plastic carryout bag for purposes of this Article.

(k) "Store" means a retail establishment that provides plastic carryout bags to its customers as a result of the sale of a product and that meets either of the following requirements:

(1) Meets the definition of a "supermarket" as found in this Article.

(2) Has over 10,000 square feet of retail space that generates sales or use tax pursuant to the Bradley–Burns Uniform Local Sales and Use Tax Law (Part 1.5 (commencing with Section 7200) of Division 2 of the Revenue and Taxation Code) and has a pharmacy licensed pursuant to Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code.

(l) "Supermarket" means a full–line, self–service retail store with gross annual sales of at least two million dollars ($2,000,000), and which sells a line of dry grocery, canned goods, or nonfood items and some perishable items.

NOTE: Authority cited: Sections 40502 and 42252, Public Resources Code. Reference: Sections 42250 and 42252, Public Resources Code.

HISTORY

1. New section filed 7–30–2007 as an emergency; operative 7–30–2007 (Register 2007, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–28–2008 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–28–2008 as an emergency; operative 1–28–2008 (Register 2008, No. 5). A Certificate of Compliance must be transmitted to OAL by 4–28–2008 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 4–28–2008 as an emergency; operative 4–28–2008 (Register 2008, No. 18). A Certificate of Compliance must be transmitted to OAL by 7–28–2008 or emergency language will be repealed by operation of law on the following day.

§ 17987.3. Recordkeeping.

(a) Each operator or its designated reporting party or parties shall maintain the following records:

(1) A record of all shipments of plastic carryout bags to the store or stores.

(2) An operator or its designated reporting party or parties shall maintain one of the following types of records depending on whether it is reporting on the actual weight of plastic carryout bags or is reporting an estimated weight based on the co–mingled recycling rate:

(a) A record of the weight of all plastic carryout bags recycled or transported; or

(b) A record of the weight of all film plastic recycled or transported. This weight shall include all plastic carryout bags that are co–mingled with other types of film plastic.

(3) A copy of every form or report required to be filed with the Board.

(4) Operators or designated reporting parties using the co–mingled recycling rate shall maintain any records describing the calculation(s) of the weights of recycled plastic carryout bags and other film plastic materials.

(b) Each operator shall be responsible for maintaining the records required by this Article. An operator may allow its designated reporting party to maintain required records, but the operator shall ultimately be responsible for making all records available to the Board or local jurisdiction within 30 calendar days after receiving a written request. If records are made available for in–person inspection by the Board or a local jurisdiction, such records shall be made available during normal working hours.

(c) Each operator shall retain all required records for a minimum of three (3) years after the submission of an annual report required by this Article. If an operator is using a designated reporting party to maintain records, it shall ensure that the designated reporting party retains records for the minimum three (3) years. An operator, at its discretion, may ensure the record retention through a contract.

NOTE: Authority cited: Sections 40502 and 42252, Public Resources Code. Reference: Sections 42250 and 42252, Public Resources Code.

HISTORY

1. New section filed 7–30–2007 as an emergency; operative 7–30–2007 (Register 2007, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–28–2008 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 1–28–2008 as an emergency; operative 1–28–2008 (Register 2008, No. 5). A Certificate of Compliance must be transmitted to OAL by 4–28–2008 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 4–28–2008 as an emergency; operative 4–28–2008 (Register 2008, No. 18). A Certificate of Compliance must be transmitted to OAL by 7–28–2008 or emergency language will be repealed by operation of law on the following day.

§ 17987.4. Filing of Annual Report.

(a) Each operator or designated reporting party shall submit the required information enumerated in this section to the Board no later than April 1 of each year for the previous measurement period.

(b) For the 2007 measurement period, operators or designated reporting parties shall be required to only report for the six–month period beginning July 1, 2007 and ending December 31, 2007. An operator or designated reporting party may report for a longer period during the 2007 calendar year at its discretion.

(c) An operator with multiple store locations may submit one annual report for all of its stores. A designated reporting party shall submit a separate form and data sheet for each operator.

(d) Notwithstanding sub–section (c), a designated reporting party who is reporting on behalf of twenty–five (25) or more operators may submit one annual report including the information required by the section for all of its operators. Designated reporting parties submitting an annual report in this manner shall report the information required by this section and shall include a listing of each operator's name, mailing address, telephone number and contact name.

(e) Each operator or its designated reporting party or parties shall report the following information to the Board. The co–mingled recycling rate may be utilized to calculate weights where applicable.

(1) The full and complete name of the designated reporting party if applicable.

(2) The mailing address of the designated reporting party if applicable.

(3) The contact name and telephone number for the designated reporting party if applicable.

(4) The full and complete name of the operator.

(5) The mailing address of the operator.

(6) The contact name and telephone number of the operator.

(7) The name of the store(s), if different from the name of the operator.

(8) The addresses of stores, distribution centers, warehouses or other locations where reported transactions occurred.

(9) The weight of plastic carryout bags purchased.

(10) The weight of plastic carryout bags collected and recycled or sent for recycling by the operator or designated reporting party or parties.

(11) The names and addresses of the recyclers utilized by the operator or designated reporting party or parties.

(f) The operator or its designated reporting party or parties shall submit a certification form or other declaration that the information was submitted under penalty of perjury, according to the following format:

"I certify under penalty of perjury under the laws of the State of California that the information and data contained herein are true and correct."

(Signature) (Date)

(g) An operator or designated reporting party may either directly report the weight of plastic carryout bags or film plastic materials recycled by the operator's store or stores by use of the co–mingled recycling rate. If the co–mingled recycling rate is used by an operator or designated reporting party to calculate the weight of plastic carryout bags and other film plastic materials that was recycled by the operator's store or stores, then calculated weights shall be reported to the Board as part of the annual report.

(h) The Board shall, at least once per measurement period, calculate and publish a co–mingled recycling rate. The co–mingled recycling rate shall be calculated through waste characterization studies that determine the percentage of plastic carryout bags relative to other film plastic materials collected for recycling.

(i) Although an operator may use a designated reporting party or parties to submit the information required in this section, an operator is nevertheless responsible for compliance with the reporting and other requirements of this Article and may be subject to penalties for non–compliance due to the action or non–action of its designated reporting party or parties.

HISTORY

1. New section filed 7–30–2007 as an emergency; operative 7–30–2007 (Register 2007, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–28–2008 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–28–2008 as an emergency; operative 1–28–2008 (Register 2008, No. 5). A Certificate of Compliance must be transmitted to OAL by 4–28–2008 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 4–28–2008 as an emergency; operative 4–28–2008 (Register 2008, No. 18). A Certificate of Compliance must be transmitted to OAL by 7–28–2008 or emergency language will be repealed by operation of law on the following day.

§ 17987.5. Submittal of Confidential, Proprietary Data or Trade Secrets.

The submittal of data or information to the Board that is confidential, proprietary or a trade secret under applicable California law shall will be subject to the provisions of Title 14, California Code of Regulations, Article 4 (commencing with Section 17041).

NOTE: Authority cited: Sections 40502 and 42252, Public Resources Code. Reference: Section 42252, Public Resources Code.

HISTORY

1. New section filed 7–30–2007 as an emergency; operative 7–30–2007 (Register 2007, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–28–2008 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–28–2008 as an emergency; operative 1–28–2008 (Register 2008, No. 5). A Certificate of Compliance must be transmitted to OAL by 4–28–2008 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 4–28–2008 as an emergency; operative 4–28–2008 (Register 2008, No. 18). A Certificate of Compliance must be transmitted to OAL by 7–28–2008 or emergency language will be repealed by operation of law on the following day.

Chapter 4.5. Farm and Ranch Solid Waste Cleanup and Abatement Grant Program

Article 1. Authority

§ 17990. Scope.

(a) These regulations implement the Farm and Ranch Solid Waste Cleanup and Abatement Grant Program, a grant program for local agencies for purposes of cleaning up and abating the effects of solid waste that is illegally disposed of on farm or ranch property. Regulations contained herein are promulgated pursuant to Public Resources Code (PRC) Chapter 2.5 of Part 7 of Division 30.

(b) Notwithstanding any other provision, the grant program shall be funded from the following funds:

(1) The Integrated Waste Management Fund;

(2) The California Tire Recycling Management Fund;

(3) The California Used Oil Recycling Fund.

(c) The Board shall be authorized to expend the money in the Farm and Ranch Solid Waste Cleanup and Abatement Account for the grant program upon appropriation by the Legislature in the annual Budget Act.

(d) Each year, as part of the annual report required to be submitted pursuant to Section 40507, the Board shall report to the Governor and the Legislature on the actions it has taken under the grant program and the number of illegal sites that have been cleaned up and abated pursuant to the grant program.

NOTE: Authority cited: Sections 48100, 48103 and 48104, Public Resources Code. Reference: Section 48100, Public Resources Code.

HISTORY

1. New chapter 4.5 (articles 1–5, sections 17990–17994.3), article 1 (section 17990) and section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

Article 2. Definitions

§ 17991. Definitions.

For the purposes of this Chapter:

(a) "Agreement" means the written document, any amendment(s) and written change orders thereto, which is signed by the Board or its designated representative and the grant recipient and which defines the terms, provisions and conditions governing the grant.

(b) "Applicant" means a local agency, resource conservation district, or Native American tribe applying for a grant for cleanup and/or abatement administered by the California Integrated Waste Management Board.

(c) "Board" means the California Integrated Waste Management Board.

(d) "Farm and/or Ranch property" means a piece of property, publicly or privately owned, that is used for rangeland or agricultural activities such as, but not limited to commercial livestock and crop production, horticulture, aquaculture, silviculture, floriculture, vermiculture and viticulture. Farm or ranch property need not have active sales or production but shall be appropriately zoned or otherwise authorized for agricultural activities. Farm or ranch property includes appurtenant easements or right–of–ways such as, but not limited to, public roads and utilities.

(e) "Grant recipient or grantee" means an applicant whose grant application has been awarded and who has executed a grant agreement pursuant to Public Resources Code section 48101(c).

(f) "Illegal disposal site" means:

(1) A disposal site that is not permitted and not exempt from obtaining a permit and is not a closed site as defined section 20164 of Title 27, Division 2 of California Code of Regulations on which cleanup may be required to abate a nuisance or protect public health and safety and/or the environment.

(g) "Local agency" means the enforcement agency, or other municipal department, that is designated to implement this Chapter by a county or city or a joint powers authority consisting of cities and counties and formed pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code.

(h) "Native American tribe" has the same meaning as tribe, as defined in subdivision (b) Section 44201 of the Public Resources Code.

(i) "Nuisance" includes anything which is injurious to human health or is indecent or offensive to the senses and interferes with the comfortable enjoyment of life or property, and affects at the same time an entire community, neighborhood, or any considerable number of persons although the extent of the annoyance or damage inflicted upon an individual may be unequal and which occurs as a result of the storage, removal, transport, processing or disposal of solid waste.

(j) "Resource conservation district" is a "special district" of the state of California, set up under PRC, Division 9, which is a locally governed agency with it's own locally appointed, independnet board of directors.

(k) "Remedial action" means any action to abate, prevent, minimize, stabilize, mitigate, or eliminate a threat to public health and safety and/or the environment.

(*l*) "Responsible party" includes any individual, firm, limited liability company, association, partnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever who by contract, agreement or otherwise arranged for the transportation to and/or disposal of solid waste at the illegal disposal site;

The term "responsible party", as defined above, may only be construed within the context of this Chapter and Public Resources Code sections 48100 et seq. and shall not be interpreted under any other local, state, or federal statute.

(m) "Threat" or "threaten" means a condition creating a probability of substantial harm, when the probability and potential extent of harm make it reasonably necessary to take immediate action to prevent, reduce, or mitigate damages to persons, property, natural resources, or the public health or safety.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Sections 48100, 48102 and 48106, Public Resources Code.

HISTORY

1. New article 2 (section 17991) and section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending subsection (b), adopting new subsections (h) and (j) and relettering subsections filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

Article 3. Eligibility Requirements

§ 17992.1. Purpose.

The Board may award grants directly from the account to local agencies. Grants shall be used to assist the Board in complying with Public Resources Code section 48100 et seq.

NOTE: Authority cited: Sections 48100, 48101(a) and 48103, Public Resources Code. Reference: Sections 48100 and 48101(a), Public Resources Code.

HISTORY

1. New article 3 (sections 17992.1–17992.4) and section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 17992.2. Funding Eligibility.

(a) Grant funds may be used only for remedial actions at illegal disposal sites or to reimburse qualifying property owners for eligible costs incurred by remedial actions to their property.

(b) Grant funds may be used only for those eligible remedial actions pursuant to section 17992.4.

NOTE: Authority cited: Sections 48100, 48101(b) and 48103, Public Resources Code. Reference: Section 48101(b), Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending subsection (a) filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17992.3. Site Eligibility.

(a) Candidate sites may be eligible for funding only if:

(1) The site is an illegal disposal site as defined in section 17991; and

(2) The site is on a farm and/or ranch property as defined in section 17991; and

(3) The responsible party either cannot be identified, located, or pay for timely and proper remediation; and

(4) Remedial action is required to protect public health and safety and/or the environment, or to abate a nuisance; and

(5) Neither the applicant nor the private property owner was responsible for the illegal disposal of solid waste on the farm or ranch property.

NOTE: Authority cited: Sections 48100, 48102 and 48106, Public Resources Code. Reference: Sections 48102 and 48106, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending subsection (a)(5) filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17992.4. Eligible and Ineligible Remedial Actions.

(a) Remedial actions that are appropriate for the use of funds include, but are not limited to: waste removal and disposal and related actions; drainage controls; grading; slope and foundation stabilization; excavation, revegetation, recycling, and site security. Public education to prevent reoccurrence of the illegal disposal is eligible for funding only if included with any of the above eligible remedial actions.

(b) Ineligible remedial actions include, but are not limited to: closure as defined in Section 20164 of Title 27, Division 2 of the California Code of Regulations; ground water remediation; operation and maintenance of leachate, surface water, or vadose zone monitoring systems; closure and postclosure maintenance services; improvements to property for postclosure land uses; preparation of closure or postclosure maintenance plans; removal, abatement, cleanup or otherwise handling of hazardous substances as defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 [42 U.S.C. section 9601(14)].

NOTE: Authority cited: Sections 40502, 48025, 48100 and 48103, Public Resources Code. Reference: Sections 40502 and 48025, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

Article 4. Grant Process

§ 17993.1. Grant Application Filing Period.

Application packages for grant funding shall be accepted on a continual basis and will be reviewed, scored and ranked quarterly. Application packages received by the Board on or before January 1, April 1, July 1, and October 2 will be considered for award in the quarter commencing on that date.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Section 48100, Public Resources Code.

HISTORY

1. New article 4 (sections 17993.1–17993.7) and section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 17993.2. Grant Amounts.

(a) The Board shall not fund more than two hundred thousand dollars ($200,000) per fiscal year for any applicant. If a grant is awarded to a joint powers authority, the joint powers authority and all the cities and counties it represents are limited to a maximum of two hundred thousand dollars ($200,000) per fiscal year. No single cleanup or abatement project shall exceed fifty thousand dollars ($50,000).

(b) The Board shall not fund administrative costs of grantees, which exceed seven (7) percent of the grant.

(c) The Board or the Department of Finance may audit the recipient's records and/or any contractor or subcontractor regarding moneys received pursuant to this Article.

NOTE: Authority cited: Sections 48100, 48101(a) and 48103, Public Resources Code. Reference: Section 48101(a), Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending subsections (a) and (b) filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17993.3. Contents of the Grant Application Package.

(a) A complete application package for cleanup and abatement work shall include, but is not limited to, all of the following elements:

(1) A Farm and Ranch Solid Waste Cleanup and Abatement Grant Application Cover Sheet, provided by the CIWMB, (CIWMB 634) 02/03, See Appendix A;

(2) A copy of an adopted resolution from the applicant's governing body, authorizing the submittal of the application and identifying the title of the individual authorized to execute any agreements, contracts and requests for payment to carry out the project;

(3) A description of the following:

(a) the need and overall objective of the project(s),

(b) innovative programs within the jurisdiction to discourage illegal dumping,

(c) any other funds available to cleanup the site(s),

(d) any funds used in the past to remediate problems at the site(s),

(e) the proposed method to evaluate the success of the project, and

(f) previous experience remediating similar sites;

(4) Site Characterization Form (CIWMB 635) (02/03), (See Appendix A) for each site proposed for remediation activities;

(5) A vicinity map showing the location of each site;

(6) The existing zoning description and designation for the parcel of each site proposed to cleanup;

(7) A signed and notarized affidavit or letter from the property owner stating that they were not responsible for the illegal dumping or degradation of the environment which the grant is proposing to remediate;

(8) A statement that a responsible party cannot be identified, or located, or can pay for timely and proper remediation.

(9) A Work Plan describing the proposed tasks needed to remediate each site, including recycling activities, and an implementation schedule for the proposed tasks; and

(10) A cost estimate for each site which provides a task description, staffing information, duration of each task, a per–hour–cost of each task as well as a total cost for the project.

(b) A complete application package to reimburse costs previously incurred by a farm or ranch property owner shall include all elements in subsection (a), except for 17993.3(a)(3), 17993(a)(9), and 17993(a)(10). In addition, the following elements shall be included in the application for reimbursement:

(1) A description of the following:

(a) the initial need and overall objective of the project(s) at the time it was remediated,

(b) innovative programs within the jurisdiction to discourage illegal dumping,

(c) any other funds available to reimburse costs previously incurred to cleanup the site(s),

(d) any funds used in the past to remediate problems at the site(s),

(e) the success of the project; and

(2) A description of the tasks taken to remediate the site, including the total amount of material removed, types and quantities of waste disposed and recycled, disposal, recycling, and photographs of the project; and

(3) The cost and receipts associated with each task in remediating the site, including costs associated with disposal, recycling, equipment and labor.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Section 48100, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending section filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17993.4. Review of Grant Applications.

(a) Board staff shall review each grant application package to verify that it is complete pursuant to section 17993.3 and meets the eligibility requirements pursuant to Article 3 of this Chapter.

(b) If the application package is complete and indicates eligibility it will be reviewed and evaluated by the Board based on criteria set forth in sections 17993.5.

(c) The Board shall notify the applicant within twenty days (20) of receipt if the application package is determined to be incomplete. The Board may request additional information related to the grant application required by section 17993.3. The applicant will have a minimum of ten (10) working days, or an additional time period specified by the Board in writing, to submit the requested information to the Board. If the specified timeframe is not met, the application will be disqualified from consideration for a grant during the current grant cycle.

(d) The Board shall notify the applicant within fifteen days (15) from the date that the application is deemed complete if the application package does not meet the eligibility requirements. Written notice of the reason for ineligibility will be sent to the applicant.

NOTE: Authority cited: Sections 48100, 48101 and 48103, Public Resources Code. Reference: Section 48103, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 17993.5. Grant Criteria.

The criteria listed below will be used to evaluate each complete application.

(a) Demonstrated the need for the project.

(b) Measurable goals and objectives in the Work Plan.

(c) Descriptions by task of the activities to be undertaken to achieve the objectives.

(d) Description of a method to evaluate the success of the project and determine whether objectives were accomplished.

(e) Demonstration that the project is cost effective. Preference will be given to applicants who use cost savings, such as, use of volunteer labor, in–kind services, and recycling options.

(f) Detail that expenses are reasonable with all program elements are itemized in the budget.

(g) Present complete and clear proposal setting forth deadlines and evidence that applicant or its contractor have sufficient staff resources, technical expertise, and experience managing grant programs.

(h) The quality, cost–effectiveness and innovation of the applicant's programs designed to discourage illegal waste disposal and to encourage the proper waste disposal in permitted solid waste disposal facilities.

(i) The level of health and safety threats or environmental concerns and public nuisance described in the application.

(j) The environmental soundness and practicality of the proposal.

(k) The maximization of available funds.

(*l*) The applicant's ability to adequately remediate the site with available funds.

(m) The availability of other funds to cleanup the site.

(n) Evidence of a green procurement policy, requiring applicants to use recycled content products, recycled or reusable products, or engage in other waste reduction activities where appropriate and feasible.

NOTE: Authority cited: Sections 48100, 48102 and 48103, Public Resources Code. Reference: Section 48103, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending subsections (h) and (*l*) filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17993.6. Local Agency Grant Agreement for Cleanup.

(a) If the Board approves the grant award, the grant recipient and the Board shall enter into a written grant agreement which contains a description of the project(s) as approved, and which identifies and ensures compliance with this chapter and which incorporates all standard terms and conditions required of state agency agreements.

(b) Payment for work performed by the grantee will be made only after the following conditions have been met and approved by the Board:

(1) completion of the site remedial action as proposed, and

(2) submission of a report on the types and quantities of waste disposed and recycled, and the costs associated with disposal, recycling, equipment and labor.

(c) The grant recipient must obtain prior written approval from the Board, or its designated representative, for any changes to grant agreement. All requests must include a description of the proposed change(s) and the reason(s) for the change(s).

(d) Upon determination by the Board that the recipient has failed to comply with the terms of grant agreement the Board may terminate the grant in whole, or in part, at any time prior to the date of completion. The Board shall notify the recipient in writing of the reasons for the termination of the grant and the effective date of the termination within five (5) working days of the determination.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Section 48101, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending subsection (a) filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17993.7. Grant Agreement for Reimbursements.

A grant agreement for reimbursement to a property owner shall include all elements of 17993.6 except for (b) and (c). In addition, the following shall be included:

(a) Payment shall be made only after the site has been fully remediated

(b) The grantee shall disperse the funds, within sixty days (60) of receipt, to the property owner.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Section 48101, Public Resources Code.

HISTORY

1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending section heading and subsection (b) filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

Article 5. Property Owner Grant Application Request

§ 17994.1. Request Process for Cleanup.

(a) A farm or ranch property owner may initiate the process for a grant application by submission of the following information to the applicant for consideration:

(1) A letter requesting that the applicant apply for a grant under this Chapter on the farmer's or rancher's behalf. The letter shall include the name, mailing address and phone number of the property owner and the approximate type and quantity of waste disposed on the property; and

(2) A vicinity map showing the location of each site and access points to the parcel of each site being requested for cleanup or reimbursement under the grant.

(3) A signed and notarized affidavit or letter from the property owner stating that they were not responsible for the illegal dumping or degradation of the environment which the grant is proposing to remediate.

(b) The applicant has forty–five (45) days, from receipt of the grant application request, to review the request, conduct a site visit and provide a written determination that the owner is or is not eligible for funds under the Farm and Ranch Solid Waste Cleanup and Abatement Grant program.

(c) If the applicant determines that the property owner is not eligible for a grant, it shall provide the property owner with the reasons. The reasons shall be provided within forty–five (45) days of the receipt of the application request.

(d) Once the applicant determines the property owner's application request is complete, it shall submit a grant application to the Board within sixty (60) days.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Sections 48100 and 48103, Public Resources Code.

HISTORY

1. New article 5 (sections 17994.1–17994.3) and section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending article heading and section filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

§ 17994.2. Request Process for Reimbursement of Prior Cleanups.

A farm or ranch property owner may initiate the process for a grant application for reimbursement of prior cleanups. If the owner requests reimbursement, the owner shall apply pursuant to 17994.1 and include the following information:

(1) A description of the tasks taken to remediate the site, including the total amount of material removed, types and quantities of waste disposed and recycled, and photographs of the project; and

(2) The cost and receipts associated with each task in remediating the site, including costs associated with disposal, recycling, equipment and labor.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Sections 48100 and 48103, Public Resources Code.

HISTORY
1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 17994.3. Property Owner Appeal Rights.

(a) If the applicant determines that the property owner is responsible for the illegal waste disposal, the property owner may appeal the decision to the governing body with jurisdiction over the applicant.

(b) The property owner shall submit an appeal to the governing body within fifteen (15) days of receipt of determination of responsibility.

(c) The appeal shall describe the factual basis for the appeal and shall include all relevant documentation.

(d) The governing body shall determine whether or not to overturn the applicant decision within forty–five (45) days of receipt.

NOTE: Authority cited: Sections 48100 and 48103, Public Resources Code. Reference: Section 48100, Public Resources Code.

HISTORY
1. New section filed 6–30–2000; operative 6–30–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Change without regulatory effect amending section filed 5–28–2003 pursuant to section 100, title 1, California Code of Regulations (Register 2003, No. 22).

Chapter 5. Enforcement of Solid Waste Standards and Administration of Solid Waste Facility Permits; Loan Guarantees

Article 1. Definitions and General Provisions

§ 18010. Scope.

(a) This chapter is adopted pursuant to and for the purpose of implementing the California Integrated Solid Waste Management Act of 1989 (ACT) commencing with Section 40000 of the Public Resources Code (PRC), as it may be amended from time to time. These regulations should be read together with the Act.

(b) This Chapter implements those provisions of the Act relating to solid waste facilities and disposal sites, and application of minimum standards for solid waste handling and disposal (Chapter 3 of this Division, and 27 CCR Division 2, Subdivision 1 (§20005 et seq.)) to such facilities. Nothing in this chapter is intended to limit the authority of the enforcement agency or the board to enforce the minimum standards as they apply to collection, storage, and removal of solid wastes pursuant to the provisions of Sections 43209 and 43300 of the Public Resources Code (PRC). Nothing in this Chapter is intended to limit the authority of the state or local health agencies.

NOTE: Authority cited for Chapter 5 (Sections 18010–18354, not consecutive): Sections 40502, 43020, 43200 and 43214, Public Resources Code (PRC). Reference: Sections 43200–45601, Public Resources Code.

HISTORY
1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of chapter 5 heading filed 10–11–96; operative 10–11–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 41).
3. Change without regulatory effect amending subsection (b) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

§ 18011. Definitions.

(a) Unless the context otherwise requires, the following definitions shall govern construction of this Chapter:

(1) "Abandoned site" means a site where there is no responsible party as determined by the local enforcement agency and the board.

(2) "Act" means the California Integrated Solid Waste Management Act of 1989.

(3) "Applicant" means the proposed operator of a facility.

(4) "Certified" means submitted and stated under oath, affirmation, or penalty of perjury.

(5) "Certification" means certification by the Board of an enforcement agency pursuant to Section 43200 of the Public Resources Code and Articles 2.1, and 2.2 of this Chapter.

(6) "Closed site" means a solid waste disposal site that has ceased accepting waste and has documentation that closure was conducted in accordance with applicable statutes, regulations, and local ordinances in effect at the time.

(7) "Decertification" means an action by the California Integrated Waste Management Board which withdraws, partially or fully, prior certification(s) issued to the enforcement agency. This action modifies the enforcement agency's authority within its jurisdiction.

(8) "Enactment" means a federal, state, regional, or local statute, ordinance, regulation, permit, or similar provision having the force of law.

(9) " Enforcement action" means an action of the enforcement agency or the board, taken pursuant to the act or this chapter, including, but not limited to issuing a notice and order, a cease and desist order, cleanup or abatement order, or a corrective action order; to institute a proceeding to modify, suspend, or revoke a permit; to institute a judicial proceeding to obtain an injunction; or to institute a judicial action to obtain civil penalties.

(10) "Evaluation workplan" means a type of corrective action specified by the Board. The action requires the LEA to develop a schedule to address jurisdictional compliance issues identified during the LEA evaluation process. The evaluation workplan is subject to Board approval.

(11) "Facility" means a solid waste facility as defined in Public Resources Code Section 40194 or disposal site as defined in Public Resources Code Section 40122.

(12) "Facility operator" means the operating unit, and other person(s) who through a lease, franchise agreement or other arrangement with the owner of the property is granted the approval to operate a solid waste facility, disposal site, transfer or processing station, composting station, or solid waste handling system, or the owner of the property.

(13) "Illegal site" means a solid waste disposal site that is not permitted and not exempt from obtaining a permit and is not a closed site.

(14) "Inactive site" means a site that is temporarily idle, for a specific period due to known circumstance and not part of the normal operation pattern contained in the solid waste facilities permit.

(15) "Local Agency" means a local public agency or department of a county or a city, a joint powers jurisdiction, or a special district.

(16) "Local Enforcement Agency" (LEA) means an enforcement agency with board certification(s) totally separate from the operating unit(s) of the local governing body. An LEA is a comprehensive solid waste enforcement agency which performs permitting, inspection, and enforcement duties for solid waste handling, and permitted, closed, abandoned, exempt, illegal, and inactive facilities. An LEA is solely responsible for carrying out solid waste enforcement in its jurisdiction as defined in 14 CCR Division 7, 27 CCR Division 2, Subdivision 1 (§20005 et seq.) and Division 30 of the Public Resources Code. Upon certification(s) the LEA shall have full power to execute the Act and the regulations adopted hereto.

(17) "Operating unit" means a local agency within the jurisdiction of the designating local governing body that operates, causes to operate, or administers contracts or agreements for any portion of a facility or solid waste handling and disposal system.

(18) "Operation" means those activities governed by the EA notification tier requirements set forth in sections 18103–18103.3.

(19) "Owner of the property" means the person or persons owning the fee interest in the property and the person or persons owning any leasehold interest in the property.

(20) "Permit" means a solid waste facilities permit.

(21) "Property" means the real property on which a facility or disposal site, any part thereof, or any support structure exists or is proposed to exist, including any portion of such real property that is not occupied by the facility or any support structure but that is contained within the legal description of the land on which the facility is located as that description is set forth in the most recently recorded deed.

(22) "Regional LEA" means an enforcement agency certified by the Board pursuant to Article 2.1 of this Chapter, with permitting, inspection and enforcement duties within multiple counties.

(23) "Violation" means a lack of compliance with a particular standard, permit term or condition, or other applicable solid waste law or regulation. A violation may be indicated by the checking of a box in the violation column of an inspection report or by other written documentation. The documentation shall indicate the specific standard, permit term or condition, or other solid waste law or regulation not in compliance.

NOTE: Authority cited: Sections 40502, 43020, 43200, 43214 and 43231, Public Resources Code. Reference: Sections 43200–45042, Public Resources Code.

HISTORY

1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a)(1) and (a)(14) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

[The next page is 795.]

3. Change without regulatory effect amending subsection (a)(14) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Amendment of subsection (a)(19) and new subsection (a)(20) filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).
5. New subsections (a)(7) and (a)(9), subsection renumbering and amendment of NOTE filed 7–25–2002; operative 8–24–2002 (Register 2002, No. 30).
6. New subsection (a)(22), subsection renumbering and amendment of NOTE filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18012. Mailing and Delivery.

Except as otherwise provided in this chapter, any requirement of this chapter that a document be transmitted, delivered, provided, or sent to any person shall be satisfied in one of the following ways: by personal delivery to the person, by personal delivery to an address the person has given, or by first class United States mail, postage prepaid, to an address the person has given.

NOTE: Authority cited: Sections 40502, 43020, 43200 and 43214, Public Resources Code. Reference: Sections 43200–45601, Public Resources Code.

HISTORY

1. Amendment of NOTE filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).

§ 18013. Mailing Documents to the Board.

HISTORY

1. Change without regulatory effect repealing Section 18013 filed 8–17–89 pursuant to Section 100, Title 1, California Code of Regulations (Register 89, No. 35). For prior history, see Register 81, No. 21).

§ 18020. Maintenance of Files.

(a) Every enforcement agency shall maintain a file on each disposal site and facility within its jurisdiction. These files shall include all solid waste facilities that have been granted a permit or that are or have been the subject of an application for a permit. The file on each facility or site shall contain all applications, permits, notices, orders, reports, correspondence, and other documents pertaining to the facility or site, which have been initiated or received by the enforcement agency. However, the enforcement agency, pursuant to Section 44102 of the Public Resources Code, shall separately maintain all papers relating to the facility or site for which a request for confidential treatment has been made, and such papers shall be suitably protected until such time as it has been determined that confidential treatment is not required.

(b) The file for each facility or site shall bear a number which is determined and assigned by the board.

(c) Each enforcement agency shall maintain a current list of all files it maintains. The list shall be available for public inspection upon request.

(d) All files and their contents shall be retained by the enforcement agency for as long as a facility or disposal site physically exists, and until written discard approval is given by the board.

(e) Upon certification each LEA shall maintain a separate and current chronological log of the legal and enforcement actions, taken pursuant to 14 CCR Division 7, 27 CCR Division 2, Subdivision 1 (§20005 et seq.) and Parts 4 and 5 of Division 30 of the Public Resources Code. This log shall be retained by the LEA as a file, and shall include at a minimum the following information: facility or site name, address, facility number, the action type, the date issued, and the outcome of the action(s).

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 40062, 43200, 43209, 45000, 45200, 45201, 45300 and 45301, Public Resources Code.

HISTORY

1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a), (b) and (e) and amendment of NOTE filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsection (e) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

Article 2. Designation of a Local Agency and the Appointment of Hearing Panels or Hearing Officer

§ 18050. Scope.

This Article sets forth the requirements for the designation of a local agency as an enforcement agency, and the establishment of hearing panels or selection of a hearing officer pursuant to the California Integrated Solid Waste Management Act of 1989. A local governing body of a city, county, or a joint powers body may designate a single local agency to be its enforcement agency pursuant to Section 18051 of this Article. Upon board approval of the designation and certification(s) of the local agency pursuant to Articles 2.0, 2.1, and 2.2 of this Chapter, the designated local agency shall become the local enforcement agency (LEA) in the designated jurisdiction. A local governing body may enter into a contract or joint powers agreement with another LEA for permitting, inspection, and enforcement duties within its territorial jurisdiction. This action is subject to board approval of the designation and certification of the contract LEA or the joint powers LEA.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–45601, Public Resources Code.

HISTORY

1. Amendment of article heading and section text filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending article heading and section filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18051. Designation of a Local Agency.

Each local governing body that wishes to designate a local agency shall so notify the board. The notice of designation, by the local governing body of a local agency, shall be part of a designation information package (DIP) which includes the following information:

(a) A completed form CIWMB 1000 "Notice of Designation of Local Agency" (1994), which is incorporated herein by reference (See Appendix A.);

(b) A cover letter requesting approval of the designation by the board;

(c) Copies of all resolutions and other official documents necessary to establish the manner in which Article 1 of Chapter 2 (commencing with Section 43200) and Chapter 4 (commencing with 44308) of the Public Resources Code and Section 18060 of this Chapter have been satisfied;

(d) An organizational chart documenting the separation of the designated agency from public agencies or departments that are the operating units under the local governing body;

(e) An organizational chart documenting the organization of the designated agency;

(f) An identification of each required hearing panel or hearing officer pursuant to Section 18060 and 18081(e)(2) of this Chapter;

(g) A tabulation of city resolutions including the listing of all city names, their populations, and the percent of cities and populations approving the designation for the jurisdiction;

(h) An enumeration of every solid waste facility and disposal site in the jurisdiction including permitted, closed, abandoned, exempt, illegal, and inactive facilities. The enumeration shall include the site address or location, the owner(s) and operator(s) name(s), address(es), and site/emergency telephone numbers, and shall state whether the site or facility lies within the unincorporated area of the jurisdiction, or within an incorporated city and the city name; and

(i) An enumeration of every solid waste handling and collection operator in the jurisdiction. The enumeration shall include the requirements of 14 CCR 17332.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200 and 43203 through 43207, Public Resources Code.

HISTORY

1. Amendment of section heading and text filed 12–7–91; operative 12–7–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of section filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsection (a) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
4. Change without regulatory effect amending subsection (c) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
5. Change without regulatory effect amending subsection (f) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18052. Redesignation of Existing LEAs.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200 and 43203–43207, Public Resources Code.

HISTORY

1. Repealer and new section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Repealer filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

§ 18053. Distribution of Notice of Designation.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Section 66796.21, Government Code.

HISTORY

1. Repealer filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).

§ 18054. Review of Designation.

(a) Upon receipt of the designation information package (DIP), pursuant to Section 18051, the board staff shall, within 45 days, review the designation and notify the local agency and the designating local governing body in writing whether or not the proposed DIP is complete and accepted by the board staff. Should the DIP be incomplete, the local governing body and/or its designated local agency shall provide to the board the specific missing information thereby starting a new 45 day review period from the date of resubmittal.

(b) The board shall use the following criteria when reviewing designations:

(1) the designated agency shall demonstrate capability and experience in the enforcement of public health and environmental regulations;

(2) the designation and certification must be consistent with the enforcement scheme contemplated in the Countywide Integrated Waste Management Plan upon its adoption and the LEA's Enforcement Program Plan (EPP); and

(3) The designated local agency shall fully comply with certification requirements pursuant to Article 2.1 of this chapter.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200, 43203 and 43204, Public Resources Code.

HISTORY

1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a), (b)(1) and (b)(2) and repealer and new subsection (b)(3) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

§ 18055. Effective Date of Designation.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–43219, Public Resources Code.

HISTORY

1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Repealer filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

§ 18056. Local Governing Body Withdrawal of LEA Designation.

(a) A designation of an LEA may be withdrawn by the local governing bodies that originally made the designation. Notice of the withdrawal shall be given to the board a minimum of 90 days in advance of the desired effective date of the withdrawal. This shall be done by a local governing body resolution or other official document in the same manner the designation was made. The notice of withdrawal shall specify whether a new local agency is to be designated, or whether the local governing body intends to have the Board become the new enforcement agency. If the notice of withdrawal provides that a new local agency is to be designated, then the withdrawal of designation shall be expressly conditioned on board approval of the new designation. If the notice of withdrawal states that it is the local governing body's intention for the board to become the new enforcement agency, then the withdrawal of designation should not become effective until the Board notifies the local governing body that it is prepared to assume responsibility as the enforcement agency. The Board shall provide such notification on or before: (1) the end of the current fiscal year; or (2) 90 days after the notice of withdrawal is given to the Board, whichever is later. The Board shall then become the enforcement agency.

(b) All enforcement actions, pending violations, orders of corrections, request for technical reports, or other enforcement agency efforts to achieve compliance with state requirements (including LEA enforcement actions and state minimum standards and permits) which were in effect under the departing LEA shall remain in effect under the jurisdiction of the new enforcement agency.

(c) Notice of designation of a new local agency shall be made in the manner specified in Section 18051.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43203, 43206 and 43216, Public Resources Code.

HISTORY

1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsection (a) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Amendment of section heading and section filed 7–25–2002; operative 8–24–2002 (Register 2002, No. 30).

§ 18060. Appointment of Hearing Panel(s) or Hearing Officers.

(a) Before the board can approve a designation, the designated local agency's local governing body shall appoint a hearing panel or hearing officer. The hearing panel shall be composed of either members of the local governing body or an independent hearing panel pursuant to Section 18081(e)(2). There shall be an independent hearing panel or hearing officer when in the jurisdiction of the enforcement agency there exists a publicly owned or operated solid waste facility or disposal site.

(b) Notice of the appointment of a hearing panel(s) or hearing officer shall be given the board and shall include the following:

(1) The name of each member and her or his position in the local governing body. If an independent hearing panel is appointed pursuant to Section 44308 of the Public Resources Code, an indication of which person is the technical expert in solid waste management, which person is the member of the local governing body, and which person is the representative of the public at large;

(2) the address to which filings and correspondence shall be mailed;

(3) indication whether each hearing panel was appointed pursuant to Section 44308(a)(1) or (a)(2) of the Public Resources Code; and

(4) the date, terms and conditions of the appointment.

(c) Notices of appointments to vacant positions on the hearing panel or hearing officer shall be given in the same manner.

(d) When the board serves as the enforcement agency, hearing panels shall be as set forth in Public Resources Code Section 44309.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200 and 44308, Public Resources Code.

HISTORY

1. Amendment filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a), (b)(1) and (b)(3), repealer of subsection (b)(4) and subsection renumbering, and amendment of subsection (c) and NOTE filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsections (b)(1), (b)(3) and (d) and amending NOTE filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).

4. Change without regulatory effect amending section heading and subsections (a)–(b) and (c) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

Article 2.1. LEA Certification Requirements

§ 18070. Scope.

(a) This article sets forth the LEA certification types, the requirements for certification and certification maintenance including, but not limited to: technical expertise, adequacy of staff resources, adequacy of budget resources, training, and the LEA's Enforcement Program Plan (EPP), which the designated local agency shall develop, submit for board approval, and adopt pursuant to Public Resources Code Section 43209(e) and Section 18077 of this Chapter, and the periodic review of the LEA certification(s) pursuant to Article 2.2 of this Chapter.

(b) After certification(s) is issued and upon board approval, the designated local agency shall become the sole LEA in its jurisdiction, and shall maintain and comply with its board approved EPP to exercise its statutory power and authority pursuant to Division 30 of the Public Resources Code, 14 CCR Division 7, and 27 CCR Division 2, Subdivision 1 (§20005 et seq.). The LEA shall enforce the state and local minimum standards for solid waste collection, handling, storage, and disposal for the protection of the air, water, and land from pollution and nuisance, and for the protection of the public health and safety, and the environment. This Article also addresses board directories of hearing panels or hearing officers and enforcement agencies.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–45601, Public Resources Code.

HISTORY

1. Repealer and adoption of new section, article heading and NOTE filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsection (b) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Change without regulatory effect amending subsection (b) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18071. Types of Certification.

(a) The Board may approve a designated local agency and issue certification(s) to the local agency in one or more of the following types of certifications:

(1) Type "A": permitting, inspection, and enforcement of regulations at solid waste disposal sites;

(2) Type "B": permitting, inspection, and enforcement of regulations at solid waste transformation facilities;

(3) Type "C": permitting, inspection, and enforcement of regulations at transfer and processing stations, materials recovery facilities, and composting facilities; and

(4) Type "D": inspection and enforcement of litter, odor, and nuisance regulations at solid waste landfills.

(b) In jurisdictions where LEAs lack a certification to permit a new type of facility, the permit application, for that type of facility, shall be filed by the applicant with the board. The LEA shall, within 120 days of the permit application, obtain certification for this facility type, or the board shall review the performance of the LEA pursuant to Section 18051 and Article 2.2 of this Chapter and compliance with Public Resources Code Section 43201.

(c) An LEA lacking a specific certification type pursuant to 18071(a) may submit a new complete EPP for board review and request issuance of an additional certification to perform permitting, inspection, and enforcement duties in another jurisdiction, or inspection and enforcement duties in its jurisdiction, both pursuant to Article 2.1 of this Chapter, and subsequent to board approval.

(d) When in the LEA's jurisdiction only one permitted solid waste disposal facility exists and its permit is surrendered, the LEA shall retain its type "A" certification, unless the LEA certification is withdrawn by the board.

(1) For LEAs to be issued type "D" certification they shall be required to have type "A" certification.

(e) A designated local agency shall demonstrate that it meets the certification requirements for each certification type requested. The LEA shall maintain compliance with the requirements of this Chapter.

(f) Sections 18071 through 18075 of this Article set forth the LEA certification requirements pursuant to Public Resources Code Section 43200.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–43204 and 43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a), (b) and (e) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

§ 18072. Technical Expertise.

(a) Performance of permitting, inspection, and enforcement duties and responsibilities of comprehensive solid waste enforcement issues shall reside solely within an LEA. The LEA shall have one or more full time staff members dedicated solely for solid waste issues. For all certification types the dedicated staff shall be composed of at least one registered environmental health specialist (REHS), pursuant to Sections 106600 through 106735 of the Health and Safety Code. Additional staff for permitting, inspection, and enforcement duties may be a REHS(s), or person(s) meeting the requirements of Sections 106635 of the Health and Safety Code, as certified by the LEA program director or manager.

(1) The REHS shall have experience and training in solid waste enforcement. This experience and training shall be current and subsequent to the enactment of the California Integrated Waste Management Act of 1989 commencing with Section 40000 of the PRC.

(2) The REHS experience and training shall include the following:

(A) permitting and closure/postclosure duties as described in 14 CCR 18082;

(B) inspection duties as described in 14 CCR 18083; and

(C) enforcement duties as described in 14 CCR 18084.

(3)(A) For type "A" certification, pursuant to 14 CCR 18071(a)(1), LEA review of documents or reports generated pursuant to engineering requirements of Public Resources Code Division 30 and 27 CCR Division 2, Subdivision 1 (§20005 et seq.), beyond the technical abilities of the LEA's staff, shall be performed by public and private entities as specified in the LEA's EPP, whose staff meet the following definitions contained in 27 CCR 20164: "Certified Engineering Geologists," "Registered Civil Engineer," and "Soil Engineer."

(B) The LEA review in subsection (a)(3)(A) may be contracted for by the LEA or the LEA may use appropriate CIWMB staff to perform those duties.

(4) For type "B" and "C" certifications, pursuant to 14 CCR 18071(a)(2 and 3), LEA review of documents or reports generated pursuant to engineering requirements of Public Resources Code Division 30 and 14 CCR Division 7, may be performed by public and private entities, as specified in the LEA's EPP, under contract to the LEA, which meet the following definitions contained in 27 CCR 20164: "Certified Engineering Geologists," "Registered Civil Engineer," and "Soil Engineer."

(b) Counties or cities may have contracts or joint powers agreements pursuant to Government Code, section 6500 et. seq. or as authorized by law, with another county, city, or a joint powers jurisdiction LEA to provide permitting, inspection, and enforcement duties and responsibilities in the designated jurisdiction of the local governing body(s), with approval of the board. The above contracts or joint powers agreements shall preclude conflict of interest between the cities or counties, their designated LEA, or the LEA's consultants and facility operators in the jurisdiction. The following consulted professionals defined in 27 CCR 20164 shall not be facility operators or consultants for solid waste facilities or disposal sites within the LEA's jurisdiction unless approved by the board: "Certified Engineering Geologists," "Professional Land Survey-

or," "Registered Civil Engineer," "Registered Geologist," and "Soil Engineer."

(c) Any opinion, report, analysis, or other deliverable provided to an LEA through contract or joint powers agreement shall be endorsed, affirmed or denied by the contracting LEA.

(d) Notwithstanding subsection (a), designated local agencies for jurisdictions having a population of less than 50,000 persons and existing LEAs whose jurisdictional population grows beyond 50,000 persons, but does not exceed 80,000 persons, may alternately implement the following staffing provisions to demonstrate their technical expertise and adequacy of staff resources.

(1) staffing shall be determined and submitted for board approval pursuant to 14 CCR 18073; and

(2) permitting, inspection, and enforcement duties, for a designated local agency having demonstrated its adequacy of staff resources with one or less full time staff member, shall be performed by one individual REHS.

(e) Designated local agencies, which elect subsection (d) to fulfill staffing requirements, shall be issued temporary certification(s) by the board.

(1) This temporary certification(s) shall expire upon conclusion of the LEA performance evaluation by the board.

(2) The LEA shall be issued full certification(s) by the board when the evaluation confirms LEA compliance with Article 2.2 of this Chapter.

(f) LEAs with one or less staff members shall, upon the loss of staff, provide staff resources meeting the requirements of this section within 90 days, or the board shall become the enforcement agency within the LEA's jurisdiction until another local designated agency is approved and issued certification(s) by the board.

(g) The LEA shall resume temporary certification(s) status when staff is replaced pursuant to subsection (f) until the requirements of subsection (e)(1) and (2) are met.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–43204, 43207 and 43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsection (a), new subsections (a)(1)–(a)(2)(C) and subsection renumbering, amendment of subsection (b), and new subsections (d)–(g) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Amendment filed 6–18–97; operative 7–18–97 (Register 97, No. 25).
4. Change without regulatory effect amending subsections (a), (a)(3)(A), (a)(4) and (b) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
5. Amendment of subsection (d) filed 8–10–2004; operative 9–9–2004 (Register 2004, No. 33).
6. Change without regulatory effect amending subsection (a) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18073. Adequacy of Staff Resources.

(a) The LEA shall demonstrate the adequacy of its staff resources by submitting documentation of the following analyses:

(1) the number and type of operating and non–operating solid waste facilities, disposal sites, and collection and handling equipment;

(2) the number of annual compliance and projected complaint inspections based on the previous year's records and anticipated additions or deletions;

(3) the time allocation requirements of local agency staff for:

(A) inspections, travel, research, analysis of findings, and documentation;

(B) enforcement activities including warnings, notices, meetings, hearings, legal proceedings, and documentation;

(C) permit activities including reviews, modifications and revisions, and closure or postclosure activities, including applications and plan reviews, site evaluations and investigations, and documentation;

(D) corrective actions including: review and approval of site investigations, assessments, characterizations, remediation alternatives, and corrective measures;

(E) training including field, meetings, seminars, workshops, courses, and literature reviews;

(F) management including day to day operation scheduling, and supervision; and

(G) support staff both technical and non–technical.

(4) The staff resources shall be computed based on a Full Time Equivalence (FTE) not to exceed 230 eight hour work days per year per person. The FTE baseline hours shall be identified in the EPP.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–43204 and 43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a) and (a)(2) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

§ 18074. Adequacy of Budget Resources.

(a) The LEA shall maintain a budget accounting process capable of identifying expenditures and revenues which are adequate to fulfill their LEA duties and responsibilities pursuant to its board approved EPP, this chapter, and Part 4 and 5 of Division 30 of the Public Resources Code. Additionally, LEAs shall, at the beginning of each fiscal year upon adoption by the local governing body, submit to the board supporting information demonstrating budget adequacy.

(1) The LEA shall use methods that demonstrate adequate budget resources for implementing the provisions of this Article. The LEA shall account for all anticipated expenditures, including but not limited to the following:

(A) staffing pursuant to 14 CCR 18073;

(B) monitoring and testing materials and equipment;

(C) health and safety protection equipment and materials for staff;

(D) travel and per diem for training seminars, conferences, etc.;

(E) enforcement actions including staff time and independent legal counsel costs to preclude conflict of interest and lack of timely initiation of legal actions pursuant to 14 CCR 18051(b)(6) and 14 CCR 18084;

(F) consultant and technical support;

(G) transportation; and

(H) agency overhead.

(2) LEAs shall identify their revenue by sources and amounts. Sources may include, but are not limited to:

(A) Funds from LEA Grant(s) Account;

(B) Permitting Fee(s);

(C) Inspection or Service Fee(s);

(D) Post Closure Fee(s);

(E) Tipping and Tonnage Fee(s);

(F) 5 Year Permit Review Fee(s);

(G) General Fund; and

(H) Other (specify).

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200–43204, 43207 and 43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).

§ 18075. Training Requirements.

(a) LEA personnel shall be trained in solid waste enforcement. The LEA's training program shall be coordinated with the board as well as other state and local agencies, be part of the LEA's Enforcement Program Plan pursuant to 14 CCR 18077, and provide specific training in the following areas:

(1) permitting, inspection, and enforcement duties and responsibilities pursuant to Public Resources Code Division 30, Parts 4 and 5, 14 CCR Division 7 and 27 CCR Division 2, Subdivision 1 (§20005 et seq.), and local ordinances and resolutions relating to solid waste collection, handling, processing, storage, and disposal;

(2) inspection techniques and scheduling;

(3) preparation for hearing panel or hearing officer and court proceedings;

(4) administration practices within a solid waste enforcement program;

(5) monitoring equipment, data evaluation, and interpretation of the results as related to solid waste enforcement;

(6) attendance of board approved seminars and workshops;

(7) field staff health and safety training in the categories of: planning of field inspections, safety equipment, on-site procedures, decontamination and hazard recognition, and avoidance; and

(8) for type "A" certification, specific training in performance standards pursuant to 27 CCR 20695, when applicable.

NOTE: Authority cited: Sections 40502, 43020, 43200 and 43214, Public Resources Code. Reference: Sections 43200–43204 and 43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a) and (a)(5)–(a)(7) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsections (a)(1) and (a)(8) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Change without regulatory effect amending subsection (a)(3) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18076. Request for and Review of Certification.

(a) Within 45 days of receipt of a request for certification(s), the board shall notify the requesting local agency in writing as to whether the request in the form of an Enforcement Program Plan (EPP) pursuant to Section 18077 of this Chapter is:

(1) complete and accepted and shall be reviewed; or

(2) the EPP is incomplete and what specific information is missing, and needs to be submitted to the board to provide for a complete EPP. The board will require the agency to provide the specific missing information, thereby starting a new 45 day process from the date of resubmittal.

(b) When an EPP is complete and accepted, the board shall have 60 days from the date of the acceptance, to conduct a review of the designation and certification information in the EPP.

(1) The board shall issue a certification(s) decision stating which types of certification are to be issued or denied, and that the designation and EPP are approved or disapproved. A copy of the board decision shall be sent to the requesting agency, its local governing body, and all appropriate State agencies.

(2) If during the review process the board finds any specific deficiencies, it shall notify the requesting agency within 45 days from the date of acceptance for review. A new 60 day review period shall begin on the date of resubmittal.

(c) The board may elect to issue temporary LEA certification(s) and/or designation approval for specific time periods.

(d) After approval of the EPP, the board shall periodically review the LEA's enforcement program plan (EPP) and its implementation of the permitting, inspection, and enforcement programs pursuant to Public Resources Code Sections 43209 and 43214.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Section 43200–43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (a), (a)(2) and (b)(2), repealer and new subsection (c), new subsection (d) and amendment of NOTE filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).

§ 18077. Enforcement Program Plan (EPP).

(a) The LEA shall develop, adopt, and submit for board approval an EPP pursuant to Public Resources Code Section 43209(e). The EPP shall embody the designation and certification requirements and demonstrate that the LEA meets all the requirements pursuant to Public Resources Code Sections 43200, 43203, 43207, and 43209, 14 CCR Division 7, Chapters 3 and 5, and 27 CCR Division 2, Subdivision 1 (Section 20005 et seq.). At a minimum, the EPP shall include the following written components:

(1) a certification request letter;

(2) an accepted designation information package (DIP) pursuant to 14 CCR Section 18051;

(3) a statement of EPP goals and objectives;

(4) a copy of the enabling ordinance(s) or resolution(s) for the LEA jurisdictional authority;

(5) a copy of all local solid waste collection, handling, storage, and disposal statutes or ordinances;

(6) a comprehensive list of all types of solid waste facilities and disposal sites, and solid waste handling and collection vehicles within the jurisdiction;

(7) a time task analysis demonstrating the adequacy of staff resources pursuant to 14 CCR Section 18073;

(8) a demonstration of staff technical expertise;

(9) an operating budget demonstrating adequacy of budget resources pursuant to 14 CCR Section 18074;

(10) a detailed staff training procedure pursuant to 14 CCR Section 18075;

(11) a procedure manual for solid waste facility permitting and closure or postclosure;

(12) a procedure manual for random and unannounced inspection and investigation, compliance assurance, enforcement, and hearing panel or hearing officer utilization; and

(13) a procedure manual for disposal site identification, assessment, and corrective actions.

NOTE: Authority cited: Sections 40502, 43020, 43200 and 43214, Public Resources Code. Reference: Sections 43200–43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsection (a)(2), repealer of subsection (a)(4) and subsection renumbering, new subsection (a)(7), repealer and new subsections (a)(8) and (a)(9) and subsection renumbering, new subsection (a)(11), and repealer and new subsections (a)(12) and (a)(13) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsection (a) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Amendment filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).
5. Change without regulatory effect amending subsection (a)(12) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18078. Directory of Enforcement Agencies, Hearing Panels, and Hearing Officers.

The board shall maintain a statewide directory of hearing panels, hearing officers and local enforcement agencies as approved and issued certification(s) by the board. The directory shall include a description of the jurisdiction and mailing address of each and shall be open to the public inspection pursuant to Article 4 of Chapter 1 of this division. The board shall promptly respond to inquiries by the public regarding the identity or location of an enforcement agency, hearing panel, or hearing officer.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43200, 43201, 43204, 44800 and 44801, Public Resources Code.

HISTORY

1. Renumbering and amendment of former section 18070 to section 18078 filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Relocation and amendment of Form 1000 (including illustration of Designation and Certification Process) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
4. Change without regulatory effect amending section heading and section filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

Article 2.2. LEA Performance Standards, Evaluation Criteria, and Duties and Responsibilities

§ 18080. Scope.

This Article, pursuant to Public Resources Code Section 43214, sets forth the LEA's duties and responsibilities, performance standards, certification maintenance requirements, and board evaluation of LEAs.

NOTE: Authority cited: Sections 40502, 43020, 43200 and 43214, Public Resources Code. Reference: Sections 43209, 43214, 43215, 43216 and 43219, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Repealer of subsection (a) designator filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18081. LEA Performance Standards and Evaluation Criteria.

(a) In performing its permitting, closure and postclosure, inspection, and enforcement functions, the LEA shall meet its duty requirements and comply with the standards pursuant to Public Resources Code Division 30, Parts 4, 5, and 6; 14 CCR Division 7, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.) and its EPP. Deviation from these standards may result in a performance review by the board pursuant to Public Resources Code Sections 43214, 43215 and 43219, including establishment of LEA compliance schedules or withdrawal of designation and certification(s) approvals. The board's evaluation and decisions will consider the severity of the deviation(s) as related to the potential negative impacts on public health, safety or the environment.

(b) The LEA shall be assessed for compliance with the certification requirements pursuant to Article 2.1 and 2.2 of this Chapter, Public Resources Code Section 43209, and its board–approved EPP.

(c) All facilities and disposal sites within the LEA's jurisdiction shall:

(1) be in compliance with the state minimum standards and either the terms and conditions of the solid waste facility permits, the board–approved final closure and postclosure maintenance plans, have completed postclosure maintenance and monitoring pursuant to 27 CCR Sections 21180 and 21900, or have ceased operation prior to January 1, 1988; and

(2) be permitted, exempted, governed by board–approved final closure and postclosure maintenance plans, or have completed postclosure maintenance and monitoring pursuant to 27 CCR Sections 21180 and 21900; or

(3) be under appropriate enforcement action(s) pursuant to 14 CCR Section 18084 to remedy any violations.

(d) All operations within the LEA's jurisdiction shall:

(1) be in compliance with the state minimum standards, as applicable; and

(2) meet notification requirements as applicable; or

(3) be under appropriate enforcement action(s) pursuant to 14 CCR Section 18084 to remedy any violations.

(e) All LEA's shall retain their certification(s) and designation approvals by maintaining compliance with their board–approved EPP and this Chapter.

(1) The LEA shall provide for, obtain, and maintain the necessary technical, safety and regulatory equipment, clothing and vehicles for field inspectors. The LEA shall identify in its board–approved EPP what constitutes "necessary" for staff safety and field monitoring, measurement, inspection, and enforcement requirements for all its solid waste enforcement duties and responsibilities and its certification(s).

(2) When in the jurisdiction of the EA there exists a publicly owned or operated solid waste facility or disposal site, the local governing body shall maintain an independent hearing panel or hearing officer for permit, enforcement and appeal purposes, as per Section 18060 of this Chapter and Sections 44308 through 44310 of the Public Resources Code.

(3) The LEA/EA shall provide for technical review of corrective actions and postclosure land use pursuant to Sections 43500–43510 and 45000 of the Public Resources Code.

(4) The components of the EPP shall be reviewed and amended by the LEA annually or more frequently as determined by the board to reflect any changes. The amended components shall be submitted to the board for approval.

(f) The LEA/EA shall perform all applicable duties related to the California Environmental Quality Act, Public Resources Code Sections 21000 et. seq.

NOTE: Authority cited: Sections 40502, 43020, 43200, 43203 and 43214, Public Resources Code. Reference: Sections 43200–43204, 43207 and 43209, Public Resources Code.

HISTORY

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsections (d)(1), (d)(2) and (d)(4) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsection (a) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Amendment filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).
5. Change without regulatory effect amending subsection (e)(2) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18082. LEA Duties and Responsibilities for Permitting and Closure or Postclosure.

(a) The LEA/EA shall implement the solid waste facility permitting regulations pursuant to Public Resources Code Division 30, Parts 4 and 5, 14 CCR Division 7, Chapter 5, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and its EPP, where applicable, as follows:

(1) applications:

(A) verify the submission of required documents, site and personnel information, and fees;

(B) evaluate the application documents for accuracy and conformity to the EPP and the appropriate state standards cited in subsection (a) of this Section;

(C) review for short and long term environmental impacts, damage, and proposed mitigation measures;

(D) decide whether or not to accept the application and proceed with a proposed permit for board approval;

(E) initiate appropriate public notice and comment period; and

(F) submit copies of the above documents, notices, comments, and responses to the board.

(2) proposed permits:

(A) prepare permits with specific conditions for design, operation, and adverse environmental effect, monitoring and mitigation;

(B) submit proposed permits to the board and the applicant;

(C) allow a waiting period for review, concurrence, or objection by the board, and modification by the LEA/EA as required;

(D) issue or deny the issuance of the solid waste facilities permit, upon satisfactory conclusion of the above process; and

(E) the LEA/EA shall act upon applications and plans to generate a proposed solid waste facilities permit within the required regulatory and/or statutory time frames.

(3) closure and postclosure:

(A) pursuant to Public Resources Code Division 30 Parts 4 and 5 and 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and the EPP, the LEA/EA shall require any person owning or operating a solid waste landfill to submit for LEA/EA and board approval the following:

1. plans for the landfill closure and postclosure maintenance;
2. estimates of closure and postclosure maintenance costs; and
3. evidence of financial mechanisms to insure adequate availability of funds.

History

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsection (a)(3)(A) filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsections (a) and (a)(3)(A) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Amendment of section and NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

§ 18083. LEA Duties and Responsibilities for Inspections.

(a) Pursuant to Public Resources Code Division 30, Parts 4 and 5, and 14 CCR Division 7, Chapters 3 and 5, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and its EPP, the LEA/EA shall inspect and investigate solid waste collection, handling, and storage, solid waste facilities, operations and disposal sites and equipment to verify compliance with the state minimum standards, solid waste facilities permits, and related state solid waste laws and regulations within their purview for the protection of the environment and the public health and safety. The LEA/EA shall perform these inspections and related duties as required below, and forward inspection reports to the operator and/or owner, and the board within 30 days of the inspection:

(1) weekly, for sites operating on performance standards pursuant to 27 CCR Section 20695;

(2) monthly, for all active and inactive facilities, and for illegal sites and facilities, pending abatement by enforcement action(s);

(3) at the frequency required by the state minimum standards for each type of operation regulated under the EA Notification tier.

(4) quarterly, for closed sites, abandoned sites, and sites exempted pursuant to 27 CCR Section 21565. For closed sites, inspections shall be made until no potential threat exists to public health and safety or the environment. This determination shall be subject to board approval. For the purposes of this subsection, the enumeration, and the workload analysis, a closed site means a site that has ceased accepting waste and, should be closed, is undergoing closure, or has met applicable closure requirements;

(A) the board may approve an alternate inspection frequency for these sites where such an action will not result in adverse impact on public health and safety and the environment.

(5) if an LEA has been designated as the EA for waste tire facilities or entered into an agreement with the board through a grant program to inspect waste tire facilities, major waste tire facilities shall be inspected annually and minor waste tire facilities shall be inspected at least once every two and a half years pursuant to 14 CCR Section 18443;

(6) upon receipt of a complaint or emergency notification which cannot be resolved off–site;

(7) as necessary, pursuant to the EPP, upon receipt of a solid waste facilities permit application, revision, review, RFI amendment, or closure/postclosure plan; and

(8) pursuant to the EPP, for solid waste handling and collection equipment.

(b) As specified in their EPP pursuant to Section 18077, the LEA/EA shall conduct any of the above inspections, whenever possible, without prior notice to the owner or operator, on randomly selected days, during normal business hours or the site's operating hours.

NOTE: Authority cited: Sections 40502, 43020, 43200 and 43214, Public Resources Code. Reference: Sections 43200, 43209, 43218, 44100 and 44101, Public Resources Code.

History

1. New section filed 12–17–91; operative 12–17–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 13).
2. Amendment of subsection (a), repealer of subsection (a)(1) and subsection renumbering, new subsection (a)(2), repealer and new subsections (a)(3)–(a)(7), new subsection (b) and amendment of NOTE filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Change without regulatory effect amending subsections (a), (a)(1) and (a)(3) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
4. Amendment filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).
5. Amendment filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18084. LEA Duties and Responsibilities for Enforcement.

(a) If during an inspection, investigation, or at any other time, the LEA/EA finds a solid waste facility, operation, or disposal site, is in violation of state minimum standards, the terms and conditions of a permit, or any related state solid waste laws or regulations within their purview, the LEA/EA shall enforce the applicable provisions as required by PRC Division 30, 14 CCR Division 7, Chapter 5, Article 4, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and its EPP. The LEA/EA enforcement actions shall address the following categories of violations:

(1) operational violations, pursuant to 14 CCR Division 7, Chapter 3 and 3.1, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and Division 30 of the Public Resources Code;

(2) emergency violations, pursuant to subsection (1) above which present an imminent threat to public health and safety, or the environment an require immediate action pursuant to Part 5, Division 30 or the Public Resources Code;

(3) permit violations, pursuant to Public Resources Code Division 30 Part 4, Chapter 3 and 14 CCR Division 7, Chapter 5, and 27 CCR, Division 2, Subdivision 1 (§20005 et seq.);

(4) closure and postclosure violations, pursuant to Public Resources Code Division 30, Part 4, Chapter 2, Articles 3 and 4, Part 5, and 27 CCR, Division 2, Subdivision 1 (§20005 et seq.);

(b) LEA/EA enforcement action options include, but are not limited to 14 CCR Division 7 Chapter 5, Article 4, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and Public Resources Code Division 30 Parts 4 and 5.

(c) If in the course of an enforcement action, the LEA/EA deems legal counsel to be necessary to achieve enforcement, compliance, relief, or the assessment of monetary penalties through the courts, the LEA/EA shall utilize legal counsel which will be prepared to initiate legal proceedings within 30 days of notification.

(d) If the LEA fails to take appropriate enforcement action to cause an operator to correct violations, or to abate an imminent threat to public health and safety or the environment, the board may take appropriate enforcement action pursuant to PRC sections 45012, 43216.5, and CCR Title 14 section 18350, and also investigate the LEA's designation and/or certification pursuant to PRC section 43214. The board shall apply the following two general criteria to determine if the LEA is taking appropriate enforcement action:

(1) Criterion 1: If the operator is making timely progress toward compliance, then the LEA is taking appropriate action and criterion 2 need not be applied. If the operator is not making timely progress, then criterion 2 shall be applied. In determining whether or not the operator is making timely progress, the board shall consider the following:

(A) The operator's success or lack thereof in accomplishing specific tasks within the timeframes specified in a compliance schedule, or a notice and order.

(B) Information presented by the LEA supporting reasonable deadline extensions in cases where the operator has made a good faith effort to comply, but a delay in compliance has been caused by extenuating circumstances outside the operator's and LEA's control. Examples of extenuating circumstances outside the operator's and LEA's control include acts of God such as inclement weather, earthquakes, etc. Information regarding reasonable deadline extensions due to delays in obtaining discretionary permits or other government agency approvals where the operator's actions or failure to act was not the cause of the delay may also be taken into consideration.

(C) Information presented by the LEA supporting reasonable deadline extensions in cases where the operator has made a good faith effort to correct a landfill gas migration violation, but the assessment of the extent of migration has revealed a problem of a much larger magnitude than originally anticipated, necessitating a larger control system that will take a correspondingly longer length of time to design and install.

(2) Criterion 2: If the LEA is increasing its enforcement response by taking additional action pursuant to its EPP and, if applicable, a previous-

ly issued N&O, then the LEA is considered to be taking appropriate action. If the LEA is not increasing its enforcement response by taking additional action, then the LEA is not considered to be taking appropriate action.

2. Relocation of Form 1000 (including illustration of Designation and Certification Process) from section 18084 to section 18078 filed 10–26–94; operative 10–26–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 43).
3. Editorial correction of HISTORY 1 (Register 95, No. 19).
4. Change without regulatory effect amending subsections (a), (a)(1), (a)(3), (a)(4), (b) and (d) filed 3–8–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
5. Amendment of section and NOTE filed 4–12–2001; operative 5–12–2001 (Register 2001, No. 15).

Article 2.3. Board Actions over LEAs

§ 18085. Ground for Board Actions over LEAs.

An LEA's failure to fulfill one or more of the following responsibilities and /or obligations under Public Resources Code Division 30, Part 4, Chapter 2 (the "Solid Waste Facilities Chapter of the Waste Management Act") and/or these implementing regulations shall constitute sufficient ground(s) for any of the board actions set forth in 14 CCR 18086, including but not limited to:

(a) Failure of the LEA to comply with one or more of the Performance Standards referenced in Public Resources Code Section 43214 and/or its implementing regulation, 14 CCR 18081, including but not limited to:

(1) Failure of the LEA to maintain compliance with the certification requirements referenced in 14 CCR 18072–75, including but not limited to technical expertise, adequacy of staff resources, adequacy of budget resources, and training;

(2) Failure of the LEA to enforce facility compliance with one or more of the state minimum standards at solid waste facilities within the jurisdiction of the LEA, as referenced in Public Resources Code Section 43214(c);

(3) Failure of the LEA to maintain compliance with and/or implement one or more of the components of the LEA's Enforcement Program Plan, as referenced in 14 CCR 18077; and

(4) Failure of the LEA to perform all applicable duties related to the California Environmental Quality Control Act.

(b) Failure of the LEA to fulfill one or more of its duties and/or responsibilities as referenced in Public Resources Code Section 43209 and/or its implementing regulations, including but not limited to:

(1) LEA Duties and Responsibilities for Permitting and Closure or Postclosure, as referenced in 14 CCR 18082;

(2) LEA Duties and Responsibilities for Inspections, as referenced in 14 CCR 18083; and

(3) LEA Duties and Responsibilities for Enforcement, as referenced in 14 CCR 18084.

(c) When public health and safety or the environment is threatened, the Board shall, within 10 days of notifying the LEA, become the enforcement agency until another local agency is designated locally, approved and certified by the board pursuant to PRC Section 43214(c).

NOTE: Authority cited: Sections 40502, 43020, 43200, 43203 and 43214, Public Resources Code. Reference: Sections 43200–43209, 43214, 43218, 43500–43606, 44001–44017, 44100, 44101, 44300, 44301 and 44500–45601, Public Resources Code.

HISTORY

1. New article 2.3 (sections 18085–18088) and section filed 7–25–2002; operative 8–24–2002 (Register 2002, No. 30).

§ 18086. Types of Board Actions over LEAs.

If the Board finds that an LEA is not fulfilling one or more of its responsibilities and/or obligations under Public Resources Code Division 30, Part 4, Chapter 2 (the "Solid Waste Facilities Chapter of the Waste Management Act") and/or these implementing regulations, then the Board, in accordance with Public Resources Code Section 43215 and 43216.5, may take one or more of the following actions:

(a) Assume responsibility for specified LEA duties by partially or fully decertifying an LEA, either permanently or through a temporary suspension. Such an assumption of responsibility shall only extend to the LEA duties so specified by the board. The board may charge for operations pursuant to PRC 43212(a) while performing enforcement agency duties.

(b) Conduct more frequent inspections and evaluations within an LEA's jurisdiction.

(c) Establish a schedule and probationary period for improved performance by an LEA, and/or call for the submission of an evaluation workplan.

(d) Withdrawal of the Board's approval of the local governing body's designation of the LEA.

(e) Implement any other measures which may be determined by the Board to be necessary to improve LEA compliance.

NOTE: Authority cited: Sections 40502, 43020, 43200, 43214, 43215 and 43216.5, Public Resources Code. Reference: Sections 40500–40510 and 43200–43219, Public Resources Code.

HISTORY

1. New section filed 7–25–2002; operative 8–24–2002 (Register 2002, No. 30).

§ 18087. Process for Board Actions over LEAs.

(a) Notice: Notice of the hearing shall be sent by first–class mail and deposited in the mail at least thirty (30) days prior to the hearing. The notice shall be sent to the LEA's most current address as specified in the completed Form CIWMB 1000 "Notice of Designation of Local Agency" currently on file with the Board. If written notice has been provided the Board that the LEA is represented by an attorney in the proceeding, the notice of the hearing shall additionally be mailed to such attorney.

(b) Public Hearing: The hearing shall be open to the public. The Chair or other presiding officer may provide an opportunity during the hearing for nonevidentiary public comment relevant to the matter being heard by the Board. The Chair or other presiding officer may impose reasonable limitations on the number of public speakers commenting, and on the nature and length of the comment period.

(c) Admission of Evidence: A party shall be afforded the opportunity to present evidence and testimony on all relevant issues. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of the evidence over objection in civil actions.

(d) Final Action by the Board: The Board's decision will consider the severity of the deviation(s) as related to the potential negative impacts on public health, safety or the environment. The Board will announce its decision at the conclusion of the hearing. A written decision will be prepared thereafter, which shall include a statement of the factual and legal basis of the decision. A copy of the written decision shall be sent to the LEA in the same manner as set forth in subsection (a), above, within ten (10) days of the conclusion of the hearing.

NOTE: Authority cited: Sections 40502, 43020, 43200, 43214, 43215 and 43216.5, Public Resources Code. Reference: Sections 40500–40510 and 43200–43219, Public Resources Code.

HISTORY

1. New section filed 7–25–2002; operative 8–24–2002 (Register 2002, No. 30).

§ 18088. Board Acting as Enforcement Agency.

The Board, when acting as the enforcement agency, may enter into agreements or contracts as its discretion with any certified local enforcement agency for the purpose of delegating its enforcement agency duties

within any jurisdiction until a local agency is designated, approved and certified by the Board.

NOTE: Authority cited: Sections 40502, 43020 and 43200, Public Resources Code. Reference: Sections 43216 and 43216.5, Public Resources Code.

HISTORY

1. New section filed 7–25–2002; operative 8–24–2002 (Register 2002, No. 30).

Article 2.3. LEA Grants

§ 18090.0. Purpose and Scope.

The purpose of the LEA Grant Program is to provide grants to LEAs to carry out the solid waste facilities permit and inspection program.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New article 2.3 (sections 18090.0–18094.0) and section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18090.1. Grant Eligibility.

Grants shall be awarded only to LEAs and regional LEAs that are certified pursuant to Article 2.1 of this Chapter. Eligibility for a grant is dependent on Board approval of final accountings for previously awarded LEA Grants.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18090.2. Grant Award.

(a) The total amount of grants made by the Board pursuant to this article shall not exceed, in any one fiscal year, the amount specified by law.

(b) The total grant amount shall be distributed among the applicants on a pro–rata basis with each LEA receiving a Board established base grant, in no event less than $15,000, plus an additional amount based on the population of the jurisdictions served by the LEA and the number of active, permitted solid waste facilities located within those jurisdictions.

(c) Each Regional LEA shall receive a base grant multiplied by the number of counties for which the LEA is responsible, plus an additional amount based on the population of the jurisdictions served by the Regional LEA and the number of active, permitted solid waste facilities located within those jurisdictions.

(d) All population statistics will be obtained through the most current annually revised Department of Finance Report on Population Estimates for California Cities and Counties.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18090.3. Use of LEA Grant Funds.

(a) LEA grant funds shall be used exclusively for the purpose of carrying out the approved solid waste facilities permit and inspection program. Any unauthorized use of LEA grant funds may result in the termination of the grant agreement, repayment of funds and/or return of all unused portions of the grant to the Board.

(b) Any unused portions of an LEA grant awarded pursuant to this article for a designated fiscal year shall be returned to the Board.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18091.1. Grant Application.

(a) Applications for LEA grants will be accepted by mail during the time period specified in the application package. Applications sent by facsimile transmission or hand–delivered applications will not be accepted.

(b) An LEA or Regional LEA that is eligible for a grant award pursuant to Section 18090.1 of this Chapter, shall submit a grant application to the Board. The purpose of the grant application is to identify the local agency positions authorized to administer the grant program and to provide the Board the basis on which to evaluate appropriate grant use. The grant application shall include the following:

(1) A Statement of Use describing the program's goals or objectives and stating how the grant funds will be used to implement the program;

(2) A Budget Report listing all proposed grant expenditures, which may include the cost of staffing, third party contracts, training, travel and purchase of equipment or materials; and

(3) A certified copy of an approved resolution from each applicant's governing body authorizing submittal of the application and identifying the position of the individual who is authorized to execute all agreements and other documents necessary to carry out the program.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18092.0. Review of Grant Application.

(a) Board staff shall review each grant application to verify that it is complete and satisfies the criteria contained within Section 18091.1 of this Chapter.

(b) Board staff may request additional information related to the grant application required pursuant to Section 18091.1 of this Chapter. The applicant will have ten (10) working days, or an additional time period specified by Board staff to submit the requested information.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18093.0. Grant Requirements.

(a) The grant recipient and the Board shall enter into a written grant agreement that defines the grant term; contains a description of the approved program; and ensures compliance with the conditions specified in this Article.

(b) The grant recipient shall submit a final report on or before one hundred–twenty (120) days following completion of the grant cycle. The report shall include any amendments to the grant program; provide a description of the implementation of the program; and, provide detailed expenditure information that enables the Board to determine the specific use of all grant funds.

(c) Grant recipients shall comply with all applicable federal, state and local laws, ordinances, regulations and permits.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18093.1. Payment of Grant Funds.

(a) Grants will be awarded annually each year subject to the availability of funds.

(b) Grant recipients will be advanced ninety percent (90%) of their grant funds. All grant funds must be placed in an interest–bearing account with a fully insured financial institution. The grantee shall track interest accrued on the advance payment. Interest earned from the account shall be used only for eligible grant related expenses or returned to the Board.

(c) The Board will withhold ten percent (10%) of the total grant funds until satisfactory completion of the project and approval of grantee's final report and payment request.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

§ 18094.0. Auditing.

(a) The Board, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Grant. Grant recipients shall maintain such re-

cords for possible audit for a minimum of three (3) years after final payment unless a longer period of records retention is stipulated, or until resolution of issues which may arise as a result of any audit, litigation, or claim negotiation.

(b) Grant recipients shall maintain an accounting system which utilizes generally accepted accounting principles and practices. In addition to accounting records, all source documents associated with the accounting records shall be maintained. Source documents include, but are not limited to, bid summaries, contracts with the grant recipient, change orders showing approval by a city or county engineer, purchase orders, invoices, paid warrants, time sheets, labor distribution reports and payroll registers.

NOTE: Authority cited: Section 43231, Public Resources Code. Reference: Sections 43230 and 43232, Public Resources Code.

HISTORY

1. New section filed 8–26–2002; operative 9–25–2002 (Register 2002, No. 35).

Article 3.0. Regulatory Tier Requirements

§ 18100. Scope.

(a) This Article sets forth the method of application for a tiered solid waste facilities permit, procedures for review and action on an application package, and other requirements associated with regulatory tiers. This Article also includes provisions regarding permit maintenance following issuance and other requirements associated with solid waste handling operations. Similar provisions regarding a full solid waste facilities permit can be found in Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2.0–3.2 of the California Code of Regulations (commencing with section 21570).

(b) The provisions of this Article shall apply only to those operations and facilities as specified in the minimum standards set forth in Chapters 3.0 or 3.1 of Division 7 of this Title.

(c) The submittal of an enforcement agency notification (in accordance with section 18103) or issuance of a tiered permit supersedes any previously submitted enforcement agency notification or issued tiered permit.

(d) Specific provisions relating to the different types of regulatory tiers may be found below as follows:

(1)	Excluded	section 18102
(2)	Notification of Enforcement Agency	sections 18103 – 18103.3
(3)	Registration Permit	sections 18104 – 18104.9; and
(4)	Standardized Permit	sections 18105 – 18105.11.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New article 3.0 (sections 18100–18105.11) and section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect repealing first paragraph filed 10–26–95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 43).
3. Amendment of section and NOTE filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 18101. Definitions.

Unless incorporated by reference or by statute, the definitions in this Article govern only the construction of this Article.

(a) "Acceptance for filing" means the enforcement agency has determined that the application is complete and correct and the specified permit action time frames contained in this Article commence.

(b) "Annual loading" is the maximum amount of waste/material to be handled by an operation annually.

(c) "Change in operation" means any change to a facility's operations noted in the application, including, but not limited to, change in facility description, change in materials handled, change in quantity of material handled, or change in operating hours in which the operator intends to operate outside of normal business hours.

(d) "Complete" means all information required as part of a solid waste facilities permit application submitted pursuant to this Article has been provided.

(e) "Correct" means all information provided by the applicant as part of a solid waste facilities permit application submitted pursuant to this Article is accurate, exact, and fully provides the applicable filing requirement information for the solid waste facility for which a permit is being sought.

(f) A "full permit" is a solid waste facilities permit obtained pursuant to procedures set forth in Article 3.1 of this Chapter.

(g) A "location map" means a map showing the general location of the operation at a scale size minimally equivalent to 1:24,000 USGS topological quadrangle.

(h) "Operation" means the receipt and processing of solid waste.

(i) "Peak loading" is the largest projected waste/material quantity to be received by an operation on any day of operation.

(j) "Regulatory tier" is a type of regulatory oversight pursuant to procedures set forth in this Article and Article 3.1. Tier types include: excluded, enforcement agency notification, registration permit, standardized permit, and full permit.

(k) A "site map" means a map showing the existing or planned layout of the operations, including, but not limited to, operations areas and their relationships to property boundaries, buffer zones, adjacent land uses, proposed drainage systems, any excavation areas, site access, and any other portions of the site dedicated to a specific use. The site map shall be at a scale size of 1″ = 200′, and indicate the zoning within 1000′, of the facility. Where feasible, structures located on adjacent properties should be identified on the site map or location and distances to the nearest structures shall be included.

(l) A "tiered permit" is a type of solid waste facilities permit obtained pursuant to procedures set forth in Articles 3.0 and 3.1 of this Chapter. A tiered permit is a solid waste facilities permit other than a full permit with reduced application and permit processing requirements.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18102. Excluded Solid Waste Handling.

Operators of excluded operations designated by the minimum standards set forth in Division 7 of this Title are not required to notify the enforcement agency or submit an application for a solid waste facilities permit. Nothing in this section precludes the enforcement agency or the board from inspecting an excluded operation to verify that the operation is being conducted in a manner that qualifies as an excluded operation or taking any appropriate enforcement action.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 43020, 44100(a), 44101(a) and 45200, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18103. Enforcement Agency Notification.

(a) The enforcement agency notification provisions of this Article shall apply only to operations as specified in the minimum standards set forth in Chapters 3 or 3.1 of Division 7 of this Title.

(b) Sections 18103.1 through 18103.3 establish the requirements for compliance with enforcement agency notification as follows:

(1)	Filing Requirements	section 18103.1;
(2)	Record Keeping Requirements	section 18103.2; and
(3)	Termination of Operation	section 18103.3.

(c) Operations authorized to use the enforcement agency notification tier are required to operate in accordance with the minimum standards set forth in Chapters 3 or 3.1 of Division 7 applicable to that operation.

(d) Nothing in this section precludes the enforcement agency or the board from the following: inspecting an operation to verify that the operation is being conducted in a manner that qualifies for the enforcement agency notification tier; inspecting to verify that the operation is in compliance with the minimum standards; or, taking any appropriate enforcement action, including the use of a 'notice and order.'

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 43020, 44100(a), 44101(a) and 45200, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18103.1. Filing Requirements.

(a) Any operator proposing to engage in solid waste handling pursuant to an enforcement agency notification shall notify the enforcement agency of its intent to operate in writing prior to commencing operations. This written notification shall be legible and include the following information:

(1) The name, address, and phone number of the proposed operation; the name, address, and phone number where the operator can be contacted if these differ from the operation site; and, the name, address, and phone number of the owner if these differ from the operator.

(2) The section in Chapters 3 or 3.1 of Division 7 of this Title authorizing eligibility for this tier and a description of the facility's operations, including but not limited to, volume and hours of wastes/material handled, peak and annual loading, and hours of operation.

(3) Documentation that the operator has notified the local planning department with jurisdiction over the site of its intent to commence operations. Documentation may include, proof of compliance with CEQA, correspondence from the local planning department that compliance with the California Environmental Quality Act is not required for the operation to obtain local land use approval or written notice to the local planning department of the operator's intent to commence operations.

(4) A statement by the owner and operator certifying under penalty of perjury that the information which they have provided is true and accurate to the best of their knowledge and belief.

(b) The notification shall be mailed to the enforcement agency "return receipt requested."

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 43020, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Amendment filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
3. Change without regulatory effect amending subsections (a) and (b) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 18103.2. Record Keeping Requirements.

The enforcement agency shall retain the notification received pursuant to section 18103.1 which shall be publicly available during normal business hours. The enforcement agency shall forward a copy of the notification to the board within five days of receipt. The enforcement agency shall retain a copy of the notification for a minimum of one year after the facility is known to have ceased operations.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 43020, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18103.3. Termination of Operation.

Any person intending to cease operations shall notify the enforcement agency in writing at least 15 days prior to the cessation of operations.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Section 43020, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18104. Registration Permit.

(a) The registration permit provisions of this Article shall apply only to solid waste facilities as specified in the minimum standards set forth in Chapters 3 or 3.1 of Division 7 of this Title.

(b) A registration permit shall be deemed to incorporated by reference, as terms and conditions of the permit, all minimum standards applicable to it, as set forth in Chapters 3 or 3.1, of Division 7.

(c) Sections 18104.1 through 18104.9 establish the requirements for a registration permit as follows:

(1) Filing Requirements	section 18104.1;
(2) Enforcement Agency Processing Requirements	section 18104.2;
(3) Record Keeping Requirements	section 18104.3;
(4) Completeness Appeal	section 18104.4;
(5) Change in Operation	section 18104.5;
(6) Change in Owner	section 18104.6;
(7) Permit Review & Reissuance	section 18104.7;
(8) Suspend/Revoke	section 18104.8, and
(9) Voiding of a Registration Permit	section 18104.9.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021, 43000–45802 and 50000–50002, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18104.1. Filing Requirements.

Any operator proposing to operate a solid waste facility pursuant to a registration permit shall file an application using form CIWMB 83 "Registration Permit Application" (rev. 12/96), which is incorporated herein by reference, with the enforcement agency. The application shall be accompanied by the fee specified by the enforcement agency pursuant to Public Resources Code Section 44006(c). (See Appendix A.) This application shall contain the following information:

(a) The name and address of the enforcement agency, and the section in Chapters 3 or 3.1 of Division 7 of this Title authorizing eligibility for this tier.

(b) General description of the facility including, but not limited to name, location, site map, and location map.

(c) Facility information, including, but not limited to, volume and type of waste/material; handled, peak and annual loading, hours of operation, traffic, facility size, site capacity, and operating area.

(d) Operator information, including identification of the land owner, his/her address and telephone number; identification of the facility operator, his/her address and telephone number; and the address(es) at which process may be served upon the operator and owner.

(e) Conformance finding information as follows:

(1) Until a countywide or regional agency integrated waste management plan has been approved by the board, the application shall include statements that: the facility is identified and described in or conforms with the County Solid Waste Management Plan, or otherwise complies with Public Resources Code Section 50000; and that the facility is consistent with the city or county General Plan.

(2) After a countywide or regional agency integrated waste management plan has been approved by the board, the application shall include a statement that: the facility is identified in either the countywide siting element, the nondisposal facility element, or in the Source Reduction and Recycling Element for the jurisdiction to be identified in any of these elements pursuant to Public Resources Code Section 50001.

(f) The owner and operator shall each certify under penalty of perjury that the information which they have provided is true and accurate to the best of their knowledge and belief.

(g) Evidence that the application form was provided to the director of the local agency that oversees local use planning for the jurisdiction in which the site is located.

(h) List of all public hearings and other meetings open to the public that have been held or copies of notices distributed that are applicable to the proposed solid waste facilities permit action.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021, 43000–45802 and 50000–50002, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending first paragraph filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
3. Change without regulatory effect amending first paragraph and subsections (e)(1) and (f) filed 2–6–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 6).
4. Amendment of first paragraph and subsections (e)(1)–(2) and new subsections (g) and (h) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18104.2. Enforcement Agency Processing Requirements.

(a) Upon receipt of an application filed pursuant to Section 18104.1, the enforcement agency shall mark the application with the date of receipt.

(b) The enforcement agency shall notify every person who has submitted a written request to be notified of any application.

(c) Within 30 days of receipt, the enforcement agency shall review the application to determine whether it meets the requirements of Section 18104.1.

(d) If the enforcement agency finds the application is complete and correct pursuant to Section 18104.1, it shall be accepted for filing and stamped with the date and time of acceptance.

(e) The enforcement agency shall provide notice pursuant to Title 27 Section 21660.3 prior to issuance of the solid waste facilities permit.

(f) When an application is accepted for filing, the enforcement agency shall issue a registration permit by mailing an executed form CIWMB 81 "Registration Permit" (rev. 1/95), which is incorporated herein by reference, to the applicant. Form CIWMB 81, along with a copy of the accepted application, must be mailed to the applicant within five days of filing. (See Appendix A.)

(g) The enforcement agency shall provide a copy of the registration permit to the board and to any person who has so requested in writing.

(h) If the enforcement agency finds that the application is not complete and correct pursuant to 18104.1, it shall not be accepted for filing. A copy of the rejected application accompanied by an explanation shall be mailed to the applicant within five days.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending subsection (e) filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).
3. Amendment of subsections (a) and (c), new subsection (e) and subsection relettering filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18104.3. Record Keeping Requirements.

(a) The enforcement agency shall maintain a current list of all pending applications at its offices. The list shall be publicly available during normal business hours.

(b) Written public comments on an application shall be retained by the enforcement agency.

(c) The enforcement agency shall forward copies of any written public comments received on an application to the board with the registration permit submitted pursuant to section 18104.2(f).

(d) Subsequent to the transmittal of the registration permit to the board, the enforcement agency shall within five days of receipt provide a copy of any additional written public comments to the board unless the comment clearly states that a copy has already been provided to the board.

(e) If an application is denied, the enforcement agency shall retain public comments received on that application for a period of 2 years. If a previously denied permit is approved, all comments received shall be forwarded to the board with the copy of the registration permit submitted under subsection (c) above.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18104.4. Completeness Appeal.

If an application is determined to be incomplete, the applicant may appeal that determination to the enforcement agency within 15 days of the date that notification was received. Such an appeal must be in writing and specify the grounds for the appeal. A final written determination on the appeal shall be made by the hearing panel or hearing officer designated pursuant to section 44800 of the Public Resources Code, no later than 60 days after receipt of the applicant's appeal.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending section filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18104.5. Change in Operation.

A new registration permit application shall be submitted when an operator proposes a change in operation or to transfer his/her permit for the same operation to another operator, or if the enforcement agency determines that a change in facility operations has occurred.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18104.6. Change in Owner.

(a) An operator shall notify the enforcement agency in writing if a person, who owns property on which the solid waste facility is located, is encumbering, selling, transferring, or conveying the property, or part thereof; or allowing the property, or part thereof, to be encumbered, sold, transferred, or conveyed. The operator shall notify the enforcement agency at least 15 days prior to such action by the owner, or within 7 days of receiving notice of such action by the owner, whichever comes first. The enforcement agency shall transmit a copy of the notification to the board within five days of receipt.

(b) Any information provided pursuant to subdivision (a) of this section shall not be a matter of public record and shall be considered confidential until such time as the owner's encumbering, selling, transferring, or conveying of the property, occurs.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 6255, Government Code; and Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18104.7. Permit Review & Reissuance.

(a) Every registration permit shall be reviewed at least once every five years from the date of issuance or reissuance.

(b) The enforcement agency shall notify the operator 60 days before the registration permit is due for review.

(c) No fewer than 35 days before the registration permit is due for review, the operator shall submit either a certification that the information

contained in the controlling registration permit is current, or shall file a new application pursuant to Section 18104.1.

(d) If an operator files a certification as specified in subsection (c) above or a new application pursuant to Section 18104.1, the enforcement agency shall follow the procedures set forth in Sections 18104.2 and 18104.3.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 44015, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Amendment of subsections (b)–(d) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18104.8. Suspend/Revoke.

Any registration permit may be suspended or revoked by the enforcement agency for cause pursuant to section 44305 or 44306 of the Public Resources Code. Any such action shall be undertaken by the enforcement agency using the procedures set forth in Article 2, Chapter 4 of the Public Resources Code (section 44305 *et seq.*).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 44305–44310, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending section and NOTE filed 6–21–2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 25).

§ 18104.9. Voiding of a Registration Permit.

Every registration permit shall be void 30 days after cessation of operations. Any operator who intends to cease operations shall notify the enforcement agency of his/her last proposed date of operation at least 15 days in advance. The enforcement agency shall forward a copy of this notification to the board within 7 days. "Cessation of operations" does not include temporary operational shutdowns which are seasonal or intermittent in nature.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18105. Standardized Permit.

(a) The standardized permit provisions of this Article shall apply only to solid waste facilities as specified in the minimum standards set forth in Chapters 3 or 3.1 of Division 7 of the Title.

(b) A standardized permit obtained pursuant to this Article shall contain only those terms and conditions applicable to the type of facility receiving it as set out in the minimum standards for that type of facility.

(c) Sections 18105.1 through 18105.11 establish the requirements for a standardized permit as follows:

(1) Filing Requirements	section 18105.1;
(2) Enforcement Agency Processing Requirements	section 18105.2;
(3) Record keeping Requirements	section 18105.3;
(4) Completeness Appeal	section 18105.4;
(5) Board Processing Requirements	section 18105.5;
(6) Appeal of Decision	section 18105.6;
(7) Change in Operation	section 18105.7;
(8) Change in Owner	section 18105.8;
(9) Permit Review	section 18105.9;
(10) Suspend/Revoke	section 18105.10; and
(11) Voiding of a Standardized Permit	section 18105.11.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18105.1. Filing Requirements.

Any operator proposing to operate a solid waste facility eligible for a standardized permit shall file an application in duplicate with the enforcement agency accompanied by the fee specified by the enforcement agency pursuant to Public Resources Code Section 44006(c). This application shall contain the following information:

(a) The name and address of the enforcement agency, and the section in Chapters 3 or 3.1 of Division 7 of this Title authorizing eligibility for this tier.

(b) General description of the facility including, but not limited to name, location, site map, and location map.

(c) Facility information, including, but not limited to, volume and types of waste/material handled, peak and annual loading, hours of operation, traffic, facility size, site capacity, and operating area.

(d) Operator information, including identification of the land owner, his/her address and telephone number; identification of the facility operator, his/her address and telephone number; and the address(es) at which process may be served upon the operator and owner.

(e) A Report of Facility Information that contains all of the information required by the applicable section(s) of Article 3.2, Chapter 5, of this Division.

(f) One of the following:

(1) Evidence that there has been compliance with the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code, regarding the facility; or,

(2) Information on the status of the application's compliance with the California Environmental Quality Act regarding the facility. Once there has been compliance with the California Environmental Quality Act regarding the facility, evidence of compliance shall be submitted to the enforcement agency.

(g) Conformance finding information as follows:

(1) Until a countywide or regional agency integrated waste management plan has been approved by the board, the application shall include statements that: the facility is identified and described in or conforms with the County Solid Waste Management Plan, or otherwise complies with Public Resources Code Section 50000; and that the facility is consistent with the city or county General Plan.

(2) After a countywide or regional agency integrated waste management plan has been approved by the board, the application shall include a statement that: the facility is identified in either the countywide siting element, the nondisposal facility element, or in the Source Reduction and Recycling Element for the jurisdiction in which it is located; or, that the facility is not required to be identified in any of these elements pursuant Public Resources Code Section 50001.

(h) The owner and operator shall each certify under penalty of perjury that the information provided is true and accurate to the best of their knowledge and belief.

(i) Evidence that the application form was provided to the director of the local agency that oversees local use planning for jurisdiction in which the site is located.

(j) List of all public hearings and other meetings open to the public that have been held or copies of notices distributed that are applicable to the proposed solid waste facilities permit action.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021, 43000–45802 and 50000–50002, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

2. Change without regulatory effect amending subsections (c), (d) and (g)(1)–(2) filed 2–6–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 6).
3. Amendment of first paragraph and subsections (g)(1)–(2) and new subsections (i) and (j) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18105.2. Enforcement Agency Processing Requirements.

(a) Upon receipt of an application filed pursuant to Section 18105.1, the enforcement agency shall mark the application with the date of receipt.

(b) The enforcement agency shall notify every person who has submitted a written request to be notified of any application.

(c) Within 30 days of receipt, the enforcement agency shall review the application to determine whether it meets the requirements of Section 18105.1.

(d) If the enforcement agency finds the application is complete and correct pursuant to 18105.1(a–e) and (g–h), it shall be accepted for filing.

(e) The application shall be stamped with the date and time of acceptance.

(f) If the enforcement agency finds that the application is not complete and correct pursuant to 18105.1(a–e) and (g–h), it shall not be accepted for filing. A copy of the rejected application accompanied by explanation shall be mailed to the applicant within five days.

(g) Within fifteen days of acceptance of an application for filing:

(1) The enforcement agency shall evaluate the information provided in the application and the proposed facility to determine whether or not the facility will be able to operate in compliance with the applicable minimum standards and standardized solid waste facilities permit terms and conditions.

(2) The enforcement agency shall provide notice pursuant to Title 27 Section 21660.3.

(3) If the enforcement agency finds that the application and facility meet the requirements set forth in subdivision (g)(1) of this section then the enforcement agency shall forward the proposed standardized permit, application package, and the results of any analysis to the board. The enforcement agency shall further provide the applicant with a copy of the proposed standardized permit submitted to the board. In addition, the enforcement agency shall provide a copy of the proposed standardized permit to any person who has so requested in writing.

(4) If the enforcement agency finds that the application or facility do not meet the requirements set forth in subdivision (g)(1) of this section, the enforcement agency shall reject the application. A copy of the rejected application accompanied by an explanation shall be mailed to the applicant.

(h) If evidence of compliance with the California Environmental Quality Act, as required by Section 18105.1(f), has not been submitted within 15 days of acceptance of the application as complete, then the decision required by Section 18105.2(g) shall be held in abeyance until compliance with this requirements has been demonstrated. Unless waived by the applicant pursuant to Public Resources Code Section 44008, if evidence of compliance with the California Environmental Quality Act has not been submitted within 120 days of the application's acceptance for filing, the enforcement agency shall reject the application and not issue the standardized permit.

(i) Once the board has concurred in the issuance of the proposed standardized permit, pursuant to Section 18105.5, the enforcement agency shall issue the standardized permit.

(j) If the board objects to the proposed standardized permit, the enforcement agency shall notify the applicant in writing of the board's decision, and the reasons for that decision, within five days of receipt of that decision.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Amendment of subsections (a), (c) and (g)(1), new subsection (g)(2), subsection renumbering and amendment of subsections (h)–(i) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18105.3. Record Keeping Requirements.

(a) The enforcement agency shall maintain a current list of all pending applications at its offices. The list shall be publicly available during normal business hours.

(b) Written public comments on an application shall be retained by the enforcement agency.

(c) The enforcement agency shall forward copies of any written public comments received on a pending application to the board with the proposed standardized permit submitted pursuant to section 18105.2(g).

(d) Subsequent to the transmittal of the proposed standardized permit, the enforcement agency shall within five days of receipt provide a copy of any additional written public comments to the board, unless the comment clearly states that a copy has already been provided to the board.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18105.4. Completeness Appeal.

If an application is determined to be incomplete, the applicant may appeal that determination to the enforcement agency within 15 days of the date that notification was received. Such an appeal must be in writing and specify the grounds for the appeal. A final written determination on the appeal shall be made by the hearing panel or hearing officer designated pursuant to section 44800 of the Public Resources Code, no later than 60 days after receipt of the applicant's appeal.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending section filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18105.5. Board Processing Requirements.

(a) The board shall mark the proposed standardized permit with the date of receipt.

(b) The board shall evaluate the application package and the proposed standardized permit for compliance with the requirements set forth by section 18105.1 and 18105.2(g).

(c) Within 30 days of receipt of a proposed standardized permit, the board shall either concur in or object to the issuance of the proposed standardized permit.

(d) If the proposed standardized permit contains terms and conditions not authorized by the minimum standards and the permit is otherwise in conformance with these regulations, any additional unauthorized terms and conditions shall be stricken. The board shall concur in the edited standardized permit.

(e) Within 7 days of the decision to concur in or object to a proposed standardized permit, the board shall notify the enforcement agency of its determination in writing. If the board objects, the reasons for the objection shall be provided to the enforcement agency.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18105.6. Appeal of Decision.

(a) Any applicant may appeal the decision of the enforcement agency taken pursuant to section 18105.2(g)(3) or of the Board taken pursuant to section 18105.5 to the enforcement agency within 15 days of the date

that the decision was received. Such an appeal must be in writing and specify the grounds for the appeal. A final written determination on the appeal shall be made by the hearing panel or hearing officer designated pursuant to section 44800 of the Public Resources Code, no later than 60 days after receipt of the applicant's appeal.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending subsection (a) filed 10–17–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 42).

§ 18105.7. Change in Operation.

A new standardized permit application shall be submitted when an operator proposes a change in operation or to transfer his/her permit for the same operation to another operator, or if the enforcement agency determines that a change in facility operations has occurred.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18105.8. Change in Owner.

(a) An operator shall notify the enforcement agency in writing if a person, who owns property on which the solid waste facility is located, is encumbering, selling, transferring, or conveying the property, or part thereof; or allowing the property, or part thereof, to be encumbered, sold, transferred, or conveyed. The operator shall notify the enforcement agency at least 15 days prior to such action by the owner, or within 7 days of receiving notice of such action by the owner, whichever comes first. The enforcement agency shall transmit a copy of the notification to the board within five days of receipt.

(b) Any information provided pursuant to subdivision (a) of this section shall not be a matter of public record and shall be considered confidential until such time as the owner's encumbering, selling, transferring, or conveying of the property, occurs.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Section 6255, Government Code; and Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).

§ 18105.9. Permit Review and Reissuance.

(a) Every standardized permit shall be reviewed at least once every five years from the date of issuance or reissuance.

(b) The enforcement agency shall notify the operator 60 days before the standardized permit is due for review.

(c) No fewer than 35 days before the standardized permit is due for review, the operator shall submit either a certification that the information contained in the controlling solid waste facilities permit is current, or shall file a new application pursuant to Section 18105.1.

(d) If an operator files a certification as specified in subsection (c) above or a new application pursuant to Section 18105.1, the enforcement agency shall follow the procedures set forth in Sections 18105.2 and 18105.3 and the board shall follow the procedures set forth in Section 18105.5.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 44015, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending subsection (d) filed 6–21–2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 25).
3. Amendment of subsections (b)–(d) filed 3–14–2007; operative 4–13–2007 (Register 2007, No. 11).

§ 18105.10. Suspend/Revoke.

Any standardized permit may be suspended or revoked by the enforcement agency for cause pursuant to section 44305 or 44306 of the Public Resources Code. Any such action shall be undertaken by the enforcement agency using the procedures set forth in Article 2, Chapter 4 of the Public Resources Code (section 44305 *et seq.*).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 44305–44310, Public Resources Code.

HISTORY

1. New section filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect amending section and NOTE filed 6–21–2002 pursuant to section 100, title 1, California Code of Regulations (Register 2002, No. 25).

§ 18105.11. Voiding of a Standardized Permit.

Every standardized permit shall be void 30 days after cessation of operations. Any operator who intends to cease operations shall notify the enforcement agency of his/her last proposed date of operation at least 15 days in advance. The enforcement agency shall forward a copy of this notification to the board within 7 days. "Cessation of operations" does not include temporary operational shutdowns which are seasonal or intermittent in nature.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020, 43021 and 43000–45802, Public Resources Code.

HISTORY

1. New section and forms CIWMB 81 and 83 filed 3–1–95; operative when the minimum standards to be set forth in Chapters 3.0 or 3.1 of Division 7 of this Title are filed with the Secretary of State and become effective and operative (Register 95, No. 9).
2. Change without regulatory effect moving forms to section 18831, appendix A filed 4–2–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 14).

§ 18207. Proposed Permit; Board Review.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code. Reference: Sections 44007-44010 and 44014, Public Resources Code.

HISTORY

1. New subsection (c) filed 10-31-77 as an emergency; effective upon filing. Certificate of Compliance included (Register 77, No. 45).
2. Change without regulatory effect amending section filed 5-17-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Amendment of subsection (a) and new subsection (d) filed 7-15-93; operative 7-15-93 (Register 93, No. 29).
4. Repealer filed 6-18-97; operative 7-18-97 (Register 97, No. 25).

§ 18208. Issuance of Permit; Final Environmental Determination.

(a) Upon compliance with the Act and this article, and upon the concurrence of the board, the enforcement agency may make findings and issue the permit as provided in subsection (a) of Public Resources Code section 44014. The permit shall specify the person authorized to operate the facility and the boundaries of the facility. The permit shall contain such conditions as are necessary to specify a design and operation for which the applicant has demonstrated in the proceedings before the enforcement agency and the board the ability to control the adverse environmental effects of the facility.

(1) As used herein, "design" means the layout of the facility (including numbers and types of fixed structures), total volumetric capacity of a disposal site or total throughput rate of a transfer/processing station, transformation facility, or composting facility, vehicular traffic flow, and patterns surrounding and within the facility, proposed contouring, and other factors that may be considered a part of the facility's physical configuration.

(2) As used herein, "operation" means the procedures, personnel, and equipment utilized to receive, handle and dispose of solid wastes and to control the effects of the facility on the environment.

(b) (Reserved)

(c) Copies of the permit (including conditions specified therein), findings, and any document setting forth the enforcement agency's final environmental determination shall be provided the board and any person who has requested in writing that such copies be provided.

Comment: In filing an application for a new permit or permit revision, the applicant will be required to specify the proposed design and operation of the facility, to describe any anticipated environmental consequences of the specified design and operation, and to propose measures to minimize and mitigate any adverse environmental effects. The permit that is issued would specify the measures found by the agency to be necessary, for a facility of given design and operation, to satisfy the requirements of the Act for protection of the environment. Accordingly, the permit would limit the facility to the design and operation that corresponds to those measures. Any significant change in design or operation would require revision of the permit. See section 18211. In order to avoid the need to revise a permit for each minor change in operation, the conditions should be drafted to accommodate fluctuations without requiring a permit revision, so long as such changes do not necessitate additional measures to control their environmental effects.

NOTE: Authority cited: Sections 40502 and 43200, Public Resources Code. Reference: Sections 44012 and 44014, Public Resources Code.

HISTORY

1. Amendment of subsection (a) filed 8-3-77 as an emergency; effective upon filing (Register 77, No. 32).
2. Certificate of Compliance filed 11-1-77 (Register 77, No. 45).
3. Change without regulatory effect amending section filed 5-17-91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
4. Amendment of subsection (a)(1) and NOTE filed 7-15-93; operative 7-15-93 (Register 93, No. 29).

§ 18209. Denial of Permit.

(a) The enforcement agency shall deny the permit when any of the following occur:

(1) The enforcement agency determines that the proposed facility is not consistent with the county solid waste management plan or cannot conform to the state standards.

(2) The Board has objected to the proposed permit and either:

(A) there are less than 45 days remaining before the statutory deadline for action on the application and the applicant declines to waive the deadline; or

(B) the enforcement agency determines that it will be impossible to propose a permit that will be mutually satisfactory to the enforcement agency, the board, and the applicant. The enforcement agency may deny the permit under any other circumstances provided by law.

(b) Upon denial of a permit, the enforcement agency shall give written notice of the denial to the applicant, the board, and any other person who has requested in writing that such notice be given. Notice to the applicant shall be accompanied by a form request for a hearing, which the applicant may use to obtain a hearing before the hearing panel or hearing officer.

(c) An applicant who desires a hearing on the denial of a permit shall file with the enforcement agency a written request for a hearing. The enforcement agency shall provide the board with copies of the request, the statement of issues, and the notice of defense within five business days of service upon the applicant.

Article 3.1.1. Temporary Solid Waste Facilities Permits

§ 18218. Scope and Applicability.

(a) The Legislature has determined that a substantial number of persons are carrying out solid waste handling and composting activities in violation of current law due to changing trends in local solid waste handling and collection practices and state regulation of solid waste handling and composting activities. The Legislature has directed that the California Integrated Waste Management Board (Board) adopt regulations to enable such persons to obtain temporary solid waste facilities permits to authorize the continued operation of such facilities for a limited period to provide them time to obtain permanent solid waste facilities permits pursuant to the Integrated Waste Management Act (the Act) and Board regulations.

(b) The purpose of this article is to authorize an enforcement agency, upon the concurrence of the Board's Executive Director, to issue a temporary solid waste facilities permit, to the operator of an eligible facility that is required to have a solid waste facilities permit but has not obtained such a permit.

(c) This article establishes procedures by which operators may apply for a temporary solid waste facilities permit and informs operators of eligible facilities and enforcement agencies of those procedures.

(d) This article establishes standards and other regulatory requirements for facilities operating under a temporary solid waste facilities permit.

(e) This article establishes procedures for enforcement agency and Board consideration of applications for temporary solid waste facilities permits, for Board concurrence in or objection to proposed permits, and enforcement agency issuance or denial of permits.

(f) This article does not restrict any facility or recycling center, as defined in 17402.5(d) of Title 14, California Code of Regulations (14 CCR), from conducting recycling activities in accordance with applicable law.

(g) This article does not limit the authority of the state or a local agency, including the Board and an enforcement agency, to enforce State Minimum Standards and all other provisions of the Act and Board regulations within their respective jurisdictions.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New article 3.1.1 (sections 18218–18218.9) and section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.1. Definitions.

In addition to the definitions set forth in the Act or in sections 17381, 17402, and 17852 of the 14 CCR, the following definitions apply exclusively to this article:

(a) "Temporary Solid Waste Facilities Permit" or "Temporary Permit" means a solid waste facilities permit issued pursuant to this article.

(b) "Solid Waste Transfer or Processing Station" means a Transfer/Processing Facility that receives 15 tons or more of solid waste or 200 tons or more of construction and demolition debris [defined at 14 CCR 17381(e)] or construction and demolition wood mulch [defined at 14 CCR 17381(f)] per operating day for the purpose of storing, handling or processing some or all of the material prior to transferring the material to another solid waste operation or facility. Solid waste transfer or processing station does not include activities excluded from regulation in 14 CCR 17402.5.

(1) In determining the tonnage of solid waste received by a facility, the following materials shall be excluded: recyclable materials received by a recycling center located within the facility, including without limitation beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a defined physical barrier or are otherwise separated from solid waste handling activities in a manner approved by the enforcement agency.

(2) If a facility does not weigh the solid waste, construction and demolition debris or construction and demolition wood mulch received, the tonnage shall be determined using a volumetric conversion factor.

(c) "Composting Facility" means a Compostable Material Handling Facility that processes, transfers, or stores compostable material. Handling includes composting, screening, chipping and grinding, and storage activities related to the production of compost, compost feedstocks, and chipped and ground materials, and as more fully described at 14 CCR 17852(a)(12). Composting facility does not include activities excluded from regulation in 14 CCR 17855.

(d) "Eligible Facility" means a solid waste transfer or processing station or a composting facility that has been in continuous operation since January 1, 2007 or earlier and for which a solid waste facilities permit issued pursuant to the Act and Board regulations is required as of January 1, 2008, but has not yet been issued by the enforcement agency having jurisdiction.

(e) "Facility" means either a Solid Waste Transfer or Processing Station or a Composting Facility, as defined in this article.

(f) "In Operation" means that the facility is actively engaged in the business of solid waste handling or compostable materials handling.

(g) "Permanent Solid Waste Facilities Permit" means a solid waste facilities permit issued pursuant to the Act except a temporary permit issued pursuant to this article.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.2. Authority to Issue Temporary Permits.

(a) Pursuant to this article, an enforcement agency may issue a temporary permit that authorizes the operator of an eligible facility to continue operating for a limited time until it obtains a permanent solid waste facilities permit or July 1, 2010, whichever comes first.

(b) An enforcement agency may not accept an application for a temporary permit after May 9, 2008 (the "final application date").

(c) A temporary permit issued under this article shall expire on June 30, 2010 or on the effective date of the permanent solid waste facilities permit respecting the facility, whichever comes first.

(d) A temporary permit may not authorize any increase in the amount of materials handled at a facility or any change in the types of materials handled or in the manner they are handled, based on the facility's operations during calendar year 2007, except as the enforcement agency may determine that such changes are necessary to protect the public health and safety and the environment or to comply with state minimum standards applicable to the facility.

(e) A temporary permit may not authorize a facility to increase, or change the location of, the area devoted to solid waste handling activities or compostable materials handling activities beyond that utilized during calendar year 2007, except as the enforcement agency may determine that such increase or change is necessary to protect the public health and safety and the environment or to comply with state minimum standards applicable to the facility.

(f) A facility to which a temporary permit has been issued may not be moved from its location as of January 1, 2008 to another location on a different parcel of real property during the term of the permit.

(g) Neither ownership nor the operation of a facility to which a temporary permit has been issued may be transferred to another person during the term of the permit except as provided in Title 27, California Code of Regulations, Sections 21630 and 21670.

(h) Except as expressly provided otherwise in this article, facilities operating under a temporary permit shall comply with the Act and Board regulations applicable to such facilities.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.3. Requirement to Obtain a Temporary Permit.

(a) The operator of an eligible facility shall obtain a temporary permit pursuant to this article or a permanent solid waste facilities permit pursuant to the Act and Board regulations or shall immediately cease the activities for which a permit is required.

(b) An operator of an eligible facility, if it elects to apply for a temporary permit, shall submit a complete and correct application for such permit to the enforcement agency no later than the final application date.

(c) If an enforcement agency, acting pursuant to Public Resources Code Section 44002, issues a cease and desist order to the operator of an eligible facility prior to the final application date ordering the operator to cease operating a solid waste facility without a solid waste facilities permit, it shall, upon receipt of a complete and correct application for a temporary permit under this article, stay the effect of that portion of the order that directs the operator to cease operating a solid waste facility without the required solid waste facilities permit. The term of the stay shall run from the enforcement agency's determination that the application is complete and correct to its issuance of the temporary permit, in which case the enforcement agency's order to cease operating a solid waste facility without the necessary permit has no further effect, or its denial of the temporary permit and the completion of any appeals to the local hearing panel or hearing officer and the Board, in which case the cease and desist order shall be given its full force and effect. Notwithstanding, the effect of the cease and desist order will not be stayed if the enforcement agency determines the continued operation of the facility during the period of the stay may pose an imminent and substantial threat to the public health and safety and the environment.

(d) The operator of a facility operating pursuant to a temporary permit shall obtain a permanent solid waste facilities permit from the enforcement agency having jurisdiction, or cease the activities for which a solid waste facilities permit is required, on or before June 30, 2010.

[NOTE: A person who is conducting solid waste handling activities or composting who is not required to obtain a solid waste facilities permit may be required to notify the enforcement agency. See, for example, 14 CCR §§ 17403.3, 17383.3, 17383.4, 17383.7, 17857.1, and 17862.1.]

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.4. Standards Applicable to Facilities.

(a) The operator of a solid waste transfer or processing station for which a temporary permit has been issued must comply with the requirements of 14 CCR, division 7, chapter 3, articles 6.2 [Operating Standards], 6.3 [Record Keeping Requirements], and 6.35 [Additional Operating Requirements for Facilities Only].

(b) The operator of a composting facility for which a temporary permit has been issued must comply with the requirements of 14 CCR, division 7, chapter 3.1, articles 5 [Composting Operation and Facility Siting and Design Standards], 6 [Composting Operating Standards], and article 8 [Composting Operation and Facility Records]. If material is held at the composting facility longer than 7 days, the operator must also comply with the requirements of 14 CCR, division 7, chapter 3.1, article 7 [Environmental Health Standards].

(c) The owner or operator of a facility for which a temporary permit has been issued shall agree to allow the enforcement agency and the Board to inspect the facility at any time during normal business hours. The enforcement agency shall inspect the facility at least monthly and may inspect more frequently, as it deems appropriate. Inspections will be unannounced and unscheduled.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.5. Notification of Availability of a Temporary Permit.

Each enforcement agency shall attempt to notify the operators of all potential eligible facilities within its jurisdiction of the availability of temporary permits. The failure of an enforcement agency to so notify an operator of an eligible facility shall not excuse an operator from timely compliance with this article.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.6. Application for a Temporary Permit.

(a) The operator of an eligible facility who desires to obtain a temporary permit pursuant to this article shall file a complete and correct application for such permit on or before the final application date.

(b) The application must describe the solid waste handling and composting activities to be authorized under the temporary permit sought by the operator of the eligible facility. Those activities shall be substantially identical to those conducted by the operator during calendar year 2007, although the operator may decrease the amount of materials handled or make other changes that enhance the protection of the public health and safety or reduce the facility's impacts on the environment. In no case

shall the solid waste handling or composting activities be changed in a way that would subject the proposed permit to evaluation under the California Environmental Quality Act (CEQA), Public Resources Code, sections 21000 et seq. The application must contain sufficient verifiable information regarding the solid waste handling and composting activities at the facility during 2007 to satisfy the enforcement agency that the activities proposed under the temporary permit are substantially identical to those conducted at the facility during calendar year 2007.

(c) The application for a temporary permit for a transfer and processing facility shall contain the following:

(1) Application For Solid Waste Facilities Permit/Waste Discharge Requirements Form (27 CCR, Division 2, CIWMB E-1-77, Version 8-04, Appendix 1 (incorporated herein by reference)). The applicant shall specify on the application that it is intended for a temporary permit.

(2) name(s) of the operator and owner.

(3) schematic drawing of the facility, including buildings and other structures, showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, loading, and parking areas.

(4) descriptive statement of the manner in which activities are currently conducted at the facility and proposed to be conducted under the temporary permit.

(5) days and hours that the facility operates. If the hours of waste receipt differ from the hours of material processing, each set of hours must be stated. For facilities with continuous operations, indicate the start of the operating day for purpose of calculating amount of waste received per operating day. The operator may also indicate whether or not, and when, other activities, such as routine maintenance will take place, if those activities will occur at times other than those indicated above.

(6) total acreage contained within the operating area and total area that is to be included within the solid waste facilities permit.

(7) facility design capacity including the assumptions, methods, and calculations performed to determine the total capacity.

(8) information showing the types and the daily quantities of solid waste received during 2007. If tonnage was calculated from records stated in cubic yards, include the conversion factor used. The information submitted shall be in the form of verifiable business records, such as certified scale records, weight tags, receipts, bills of sale, disposal receipts, and other records acceptable to the enforcement agency. The information shall include records (if available) or good faith estimates (if records are not available) of the daily quantities of "putrescible wastes" and "residuals" (as defined in subdivision (a)(21) of Section 17402 and in subdivision (b)(1) of Section 17402.5 of 14 CCR, respectively) during calendar year 2007.

(9) description of the methods used by the facility to comply with each applicable state minimum standard as described in 14 CCR 18218.4.

(10) volume of quench or process water and the planned method of treatment, and disposal of any wastewater.

(11) description of provisions to handle unusual peak loading.

(12) description of transfer, recovery and processing equipment, including classification, capacity and the number of units.

(13) method for final disposal of the solid waste.

(14) method for the storage and removal of salvaged material.

(15) resumes of manager of the organization which will operate the facility.

(16) Fire Prevention, Control and Mitigation Plan which contains the following:

(A) Description of the measures the operator will take to prevent fires and to control and extinguish fires at the site.

(B) Identification and description of the equipment the operator will have available (on site and readily available off-site) to control and extinguish fires.

(C) Description of the measures the operator will take to mitigate the impacts of any fire at the site to the public health and safety and the environment.

(D) Description of the arrangements the operator has made with the local fire control authority having jurisdiction to provide fire prevention, control and suppression.

(E) Discussion of the ability of the local fire control authority to suppress fires at the site in light of the authority's personnel, expertise and equipment, the availability of water, access to the site and to flammable materials on the site, the nature of flammable materials on the site, the quantity and dimensions of materials on the site, and the potential for subsurface fires in accumulations of flammable materials on the site.

(17) The operator shall certify whether the facility is included within the Nondisposal Facility Element of the applicable Countywide Solid Waste Management Plan. If not, the operator shall acknowledge that the facility must be included in such plan before a permanent solid waste facilities permit will be issued.

(18) The owner and operator shall each certify under penalty of perjury that the information provided is true and accurate to the best of their knowledge and belief.

(19) Evidence that a copy of the completed application was provided to the director of the local agency that oversees local land use planning for the jurisdiction in which the facility is located.

(20) List of all public hearings and other meetings open to the public that have been held or copies of notices distributed that are applicable to the proposed solid waste facilities permit action.

(d) The application for a temporary permit for a composting facility shall contain the following:

(1) Application For Solid Waste Facilities Permit/Waste Discharge Requirements Form (27 CCR, Division 2, CIWMB E-1-77, Version 8-04, Appendix 1 (incorporated herein by reference)). The applicant shall specify on the application that it is intended for a temporary registration permit.

(2) name(s) of the operator and owner.

(3) A descriptive statement of the operations currently conducted at the facility and proposed to be conducted under the temporary permit.

(4) A schematic drawing of the facility, including any buildings and other structures, showing layout and general dimensions of all processes utilized in the handling and processing of materials including, but not limited to, unloading, storage, processing, parking, and loading areas.

(5) A description of methods used to control leachate, litter, odors, dust, rodents, and insects.

(6) A description of the emergency provisions for equipment breakdown or power failure.

(7) A description of the storage capacity and maximum and average length of time compostable materials will be stored at the facility.

(8) A description of compostable materials handling equipment used at the facility including type, capacity, and number of units.

(9) Information demonstrating the operations of the facility during 2007 in cubic yards, including without limitation compostable materials and feedstock received, processed and stored on the site and finished materials stored on the site. The information submitted shall be in the form of verifiable business records, such as certified scale records, weight tags, receipts, bills of sale, disposal receipts and other records acceptable to the enforcement agency.

(10) A description of provisions to handle unusual peak loadings.

(11) A description of the method for storage and final disposal of nonrecoverable or nonmarketable residues.

(12) A description of the water supplies for process water required.

(13) Identification of person(s) responsible for oversight of facility operations.

(14) An Odor Impact Minimization Plan pursuant to 14 CCR 17863.4.

(15) Fire Prevention, Control and Mitigation Plan which contains the following:

(A) Description of the measures the operator will take to prevent fires and to control and extinguish fires at the site.

(B) Identification and description of the equipment the operator will have available (on site and readily available off-site) to control and extinguish fires.

(C) Description of the measures the operator will take to mitigate the impacts of any fire at the site to the public health and safety and the environment.

(D) Description of the arrangements the operator has made with the local fire control authority having jurisdiction to provide fire prevention, control and suppression.

(E) Discussion of the ability of the local fire control authority to suppress fires at the site in light of the authority's personnel, expertise and equipment, the availability of water, access to the site and to flammable materials on the site, the nature of flammable materials on the site, the quantity and dimensions of materials on the site, and the potential for subsurface fires in accumulations of flammable materials on the site.

(16) The operator shall certify whether the facility is included within the Nondisposal Facility Element of the applicable Countywide Solid Waste Management Plan. If not, the operator shall acknowledge that the facility must be included in such plan before a permanent solid waste facilities permit will be issued.

(17) The owner and operator shall each certify under penalty of perjury that the information provided is true and accurate to the best of their knowledge and belief.

(18) Evidence that a copy of the completed application was provided to the director of the local agency that oversees local use planning for the jurisdiction in which the facility is located.

(19) List of all public hearings and other meetings open to the public that have been held or copies of notices distributed that are applicable to the proposed solid waste facilities permit action.

(e) If an operator of an eligible facility fails to submit a complete and correct application to the enforcement agency by the final application date, the enforcement agency shall take appropriate enforcement action.

(NOTE: The information provided to comply with 18218.6(c)(8) and (d)(9) shall be substantial enough to provide a complete description of the specific waste types and amounts received. The description could include: a list of waste types and amounts; specific collection methods used such as curbside, commercial recycling bins, office recycling; the nature of the waste such as the percentage of putrescible materials mixed in the material; percentage of material that is sent for further processing or disposal; and similar information.)

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.7. Enforcement Agency Processing Requirements for a Temporary Permit.

(a) Upon receipt of an application for a temporary permit on or before the final application date, the enforcement agency shall mark on the application form the date of its receipt.

(1) Within 20 days from receipt, the enforcement agency shall (i) review the application to determine whether it meets the requirements of section 18218.6 and (ii) notify the applicant in writing of any deficiencies in the application.

(2) Within 10 days from its receipt of notice that the application is deficient, the applicant may submit to the enforcement agency revised or additional materials to correct the deficiencies in the application.

(3) Within 5 days from its receipt of such revised or additional materials, the enforcement agency shall (i) determine if the application, as revised and supplemented, meets the requirements of section 18218.6 and (ii) take the action specified in subdivision (b) or (c) of this section, as appropriate.

(b) If the enforcement agency finds that the application is not complete and correct pursuant to section 18218.6, the enforcement agency shall reject the application and mail a copy of the rejected application, together with an explanation of the basis for its rejection, to the applicant.

(c) If the enforcement agency finds the application is complete and correct pursuant to section 18218.6, the enforcement agency shall accept the application for filing, stamp the application form with the date and time of its acceptance and notify the applicant in writing that its application has been accepted for filing.

(d) Within 15 days of the enforcement agency's acceptance of an application for filing:

(1) The enforcement agency shall evaluate the information provided in the application and shall inspect the facility to determine whether or not the facility will be able to operate in compliance with the applicable standards.

(2) If the enforcement agency finds that the application and facility meet the requirements set forth in this article, the enforcement agency shall prepare a proposed temporary permit and shall submit the proposed permit, the application package, and the results of any analysis of the proposed permit to the Board. The enforcement agency shall also deliver a copy of the proposed temporary permit to the applicant.

(3) If the enforcement agency finds that the application or facility do not meet the requirements set forth in this article, the enforcement agency shall deny the application and the enforcement agency shall mail a copy of the denied application to the applicant, together with an explanation of the basis for its denial.

(e) If the Executive Director of the Board concurs in the issuance of the proposed temporary permit, the enforcement agency shall issue the permit within 5 days from its receipt of notice of Board concurrence.

(f) If the Executive Director of the Board objects to the proposed permit, the enforcement agency shall notify the applicant in writing of the Executive Director's decision and the basis for the Executive Director's objection and shall deny the application within 5 days from its receipt of that decision.

(g) If the enforcement agency denies an application for a temporary permit, whether as a result of its own determination or the objection of the Executive Director, the operator may appeal to the applicable hearing panel or hearing officer pursuant to Public Resources Code, section 44300. Upon a timely appeal, the denial of the application shall be suspended pending completion of the hearing and the issuance of a decision by the hearing panel or hearing officer and any subsequent appeal to the Board.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.8. Board Processing Requirements.

(a) Board staff shall evaluate the application package and the proposed temporary permit for compliance with the requirements set forth in this article.

(b) Within 15 days of the Board's receipt of a proposed temporary permit, the Executive Director of the Board shall either concur in or object to the issuance of the proposed temporary permit.

(c) The Executive Director of the Board shall concur in the issuance of a temporary permit unless he/she makes any of the following determinations:

(1) The application package that the enforcement agency submitted to the Board with a proposed temporary solid waste facilities permit is incomplete.

(2) The information provided by the applicant and the enforcement agency to demonstrate the nature and level of solid waste handling activities or compostable materials handling activities at the facility in 2007 does not justify the activities proposed at the facility under the proposed temporary permit, is not credible due to a lack of verification or other reasons, or is contradicted and discredited by credible evidence provided to the Executive Director.

(3) The enforcement agency's proposed temporary permit developed pursuant to this article does not insure that the facility will be able to oper-

ate consistent with applicable standards, as determined by the Executive Director.

(d) The failure of an eligible facility to be specified in the Nondisposal Facility Element of the applicable Countywide Solid Waste Management Plan is not grounds for the Executive Director to object to a proposed temporary permit in that the issuance of a temporary permit does not constitute the establishment or expansion of a solid waste facility for the purposes of Public Resources Code Section 50001.

(e) If the Executive Director objects to a proposed temporary permit, he/she shall accompany his/her objection with an explanation of the basis for his/her decision, which may suggest amendments that may correct the deficiencies in the proposed temporary permit; however, such suggestions do not constitute approval of the proposed temporary permit subject to incorporation of the suggestions.

(f) Within seven days from the Executive Director's concurrence in, or objection to, a proposed temporary permit, the Board staff shall notify the enforcement agency of the Executive Director's determination in writing. If the Executive Director objects, the reasons for the objection shall be provided to the enforcement agency.

NOTE: Authority cited: Section 44002.1, Public Resources Code. Reference: Section 44002.1, Public Resources Code.

HISTORY

1. New section filed 3–10–2008 as an emergency; operative 3–10–2008 (Register 2008, No. 11). Pursuant to Public Resources Code section 44002.1(d), a Certificate of Compliance must be transmitted to OAL by 6–30–2010 or emergency language will be repealed by operation of law on the following day.

§ 18218.9. Form of Temporary Permit.

For purposes of this article, the following form shall be used by an enforcement agency when issuing a temporary permit. This form shall be accurately and fully completed by the enforcement agency and shall not be modified. The enforcement agency shall sign and issue the permit only after it has received written notice of concurrence in the proposed permit by the Executive Director of the Board.

State of California — California Integrated Waste Management Board

TEMPORARY SOLID WASTE FACILITIES PERMIT

Name of Facility:

Type of Facility: Solid Waste Transfer or Processing Station
Composting Facility

Name and Address of Enforcement Agency:

Signature of Local Enforcement Agency Approving Officer: Date of Issuance:

Printed Name and Title of Approving Officer:

This permit has been issued by the enforcement agency in accordance with Article 3.1.1,Chapter 5, Division 7, Title 14, of the California Code of Regulations. This permit incorporates by reference, as terms and conditions of the permit, all minimum standards applicable to it, as set forth in Division 7, Title 14, of the California Code of Regulations. These minimum standards include, but are not limited to the following:

The facility for which this permit has been issued may only be operated in accordance with the description provided in the attached application package, date _____, which is hereby incorporated by reference. This permit shall expire on the effective date of a solid waste facilities permit issued to the operator of the facility or June 30, 2010, whichever comes first.

[NOTE: An enforcement agency may contact CIWMB Permitting and LEA Support Division for assistance in completing this form. An electronic version of this form is available on the CIWMB website at http://www.ciwmb.ca.gov/LEAcentral.]

HISTORY

1. New section filed 7–15–93; operative 7–15–93 (Register 93, No. 29).
2. Repealer of section and Appendix I filed 6–30–95; operative 7–30–95 (Register 95, No. 26).

§ 18221. Report of Station Information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect adding section 18221 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 18221.5. Facility Plan.

Each operator of a Medium Volume Transfer/Processing Facility, or Direct Transfer Facility that is required to obtain a Registration Permit, as set forth in sections 17403.4 and 17403.6 and Title 14, Division 7, Chapter 5.0, Article 3.0, (commencing with section 18100) shall, at the time of application, file a Facility Plan or "Plan" with the EA as required in section 17403.8 of this Title. In order to maintain the permit, the operator must file amendments as necessary to maintain the accuracy of the Facility Plan required in section 174093.8 of this Title. Such amendments, or lack thereof, may become the basis for changes in the permit or for revocation of the permit. A Plan shall contain the following:

(a) name(s) of the operator, owner, and the company they represent, if applicable;

(b) schematic drawing of the building and other structures showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, loading, and parking areas;

(c) descriptive statement of the manner in which activities are to be conducted at the facility;

(d) days and hours that the facility is to operate. If the hours of waste receipt differ from the hours of material processing, each set of hours may be stated. For facilities with continuous operations, indicate the start of the operating day for purpose of calculating amount of waste received per operating day. The operator may also indicate whether or not, and when, other activities, such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(e) total acreage contained within the operating area;

(f) facility design capacity including the assumptions, methods, and calculations performed to determine the total capacity;

(g) information showing the types and the daily quantities of solid waste to be received. If tonnage was figured from records of cubic yards, include the conversion factor used;

(h) description of the methods used by the facility to comply with each state minimum standard contained in sections 17406.1 through 17419.2;

(i) anticipated volume of quench or process water and the planned method of treatment, and disposal of any wastewater;

(j) description of provisions to handle unusual peak loading;

(k) description of transfer, recovery and processing equipment, including classification, capacity and the number of units;

(*l*) planned method for final disposal of the solid waste;

(m) planned method for the storage and removal of salvaged material;

(n) resume of management organization which will operate the facility.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 18221.6. Transfer/Processing Report.

Each operator of a Large Volume Transfer/Processing Facility that is required to obtain a Full Solid Waste Facility Permit, as set forth in Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2.0–3.2, (commencing with section 21570) shall, at the time of application, file a Transfer/Processing Report or "Report" with the EA as required in section 17403.9 of this Title. In order to maintain an existing permit, the operator must file amendments as required in section 17403.9 of this Title and re–title the document as a Transfer/Processing Report. Such amendments, or lack thereof, may become the basis for changes in the permit or for revocation of the permit. A Report shall contain the following:

(a) name(s) of the operator, owner, and the company they represent, if applicable;

(b) facility specifications or plans, to include: a site location map, a site map, and identification of adjacent land uses and distances to residences or structures that are nearby and are within 1000 feet of the facility property line;

(c) schematic drawing of the building and other structures showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, loading, and parking areas;

(d) descriptive statement of the manner in which activities are to be conducted at the facility;

(e) days and hours the facility is to operate. If the hours of waste receipt differ from the hours of material processing, each set of hours may be stated. For facilities with continuous operations, indicate the start of the operating day for purpose of calculating amount of waste received per operating day. The operator may also indicate whether or not, and when, other activities, such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(f) total acreage contained within the operating area;

(g) facility design capacity including the assumptions, methods, and calculations performed to determine the total capacity;

(h) information showing the types and the daily quantities of solid waste to be received. If tonnage was figured from records of cubic yards, include the conversion factor used;

(i) description of the methods used by the facility to comply with each state minimum standard contained in sections 17406.1 through 17419.2;

(j) anticipated volume of quench or process water, and the planned method of treatment, and disposal of any wastewater;

(k) description of provisions to handle unusual peak loading;

(*l*) description of transfer, recovery and processing equipment, including classification, capacity and the number of units;

(m) planned method for final disposal of the solid waste;

(n) planned method for the storage and removal of salvaged material;

(o) resume of management organization which will operate the facility;

(p) list of permits already obtained, and the date obtained or last revised.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 3–5–99; operative 3–5–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 11).

§ 18222. Report of Disposal Site Information.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. Change without regulatory effect adding section 18222 filed 8–17–89 pursuant to section 100, title 1, California Code of Regulations (Register 89, No. 35).
2. Change without regulatory effect amending section filed 5–17–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 27).
3. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 18223. Facility Plan for Medium Volume Construction and Demolition/Inert Debris Processing Facilities and Medium Volume C&D Wood Debris Chipping and Grinding Facilities.

(a) Each operator of a medium volume CDI debris processing facility or medium volume C&D wood debris chipping and grinding facility that is required to obtain a Registration Permit, as set forth in CCR, Title 14, Division 7, Chapter 3.0, Article 5.9, sections 17383.5 or 17383.3, and CCR, Title 14, Division 7, Chapter 5.0, Article 3.0, commencing at section 18100 et seq., shall file with the EA, together with its application for a Registration Permit, a CDI Debris Processing Facility Plan or C&D Wood Debris Chipping and Grinding Plan, as applicable. The Plan shall contain the following:

(1) Names of the operator and owner, and the key employee responsible for operation of the site;

(2) Schematic drawing all buildings and other structures showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, loading, and parking areas;

(3) Descriptive statement of the manner in which activities are to be conducted at the facility;

(4) Days and hours that the facility is to operate. If the hours of debris receipt differ from the hours of material processing, each set of hours shall be stated. For facilities with continuous operations, indicate the start of the operating day for purpose of calculating amount of debris received per operating day. The operator may also indicate whether or not, and when, other activities, such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(5) Total acreage contained within the operating area;

(6) Facility design capacity including the assumptions, methods, and calculations performed to determine the total capacity;

(7) Information showing the types and the daily quantities of debris to be received. (In any calculations necessary as part of the plan, amounts shall be figured in tons. If tonnage is figured from cubic yards, include the conversion factors used as approved by the EA;

(8) Estimates of the amount of residual to be generated on a monthly basis and the amount of material salvaged and/or recycled;

(9) Description of the methods used by the facility to comply with each State Minimum Standard required by CCR, Title 14, Division 7, Chapter 3.0, Article 5.9;

(10) Anticipated volume of quench or process water and the planned method of treatment, and disposal of any wastewater;

(11) Description of provisions to handle unusual peak loading;

(12) Description of transfer, recovery and processing equipment, including classification, capacity and the number of units;

(13) Planned method for final disposition of debris received at the facility, including but not limited to materials being transferred to other facilities or operations for further processing, recycled materials, and solid waste;

(14) Planned method for the storage and removal of salvaged material;

(15) Resume of management organization which will operate the facility;

(16) The operator shall record and retain records of any serious injury to the public occurring on-site and any complaint of adverse health effects to the public attributed to operations. Serious injury means any injury that requires inpatient hospitalization for a period in excess of 24 hours or in which a member of the public suffers a loss of any member of the body or suffers any degree of permanent disfigurement; and

(17) The operator shall retain a record of training and instruction completed in accordance with Article 6.2, section 17410.3.

(18) A copy of the operator's Injury and Illness Prevention Plan (as applicable under current law).

(19) Fire Prevention, Control and Mitigation Plan ("Plan") which contains the following:

(A) Description of the measures the operator will take to prevent fires and to control and extinguish fires at the site;

(B) Identification and description of the equipment the operator will have available (on site and readily available off-site) to control and extinguish fires;

(C) Description of the measures the operator will take to mitigate the impacts of any fire at the site to the public health and safety and the environment;

(D) Description of the arrangements the operator has made with the local fire control authority having jurisdiction to provide fire prevention, control and suppression;

(E) Discussion of the ability of the local fire control authority to suppress fires at the site in light of the authority's personnel, expertise and equipment, the availability of water, access to the site and to flammable materials on the site, the nature of flammable materials on site, the quantity and dimensions of materials on the site, and the potential for subsurface fires in accumulations of flammable materials on the site.

(F) Evidence that the operator has submitted the Plan to the local fire control authority for review and that the authority has found it to be in compliance with the authority's applicable requirements.

(b) The operator must file amendments as necessary to maintain the accuracy of the Plan. Such amendments may become the basis for revisions to the Registration Permit for the facility. Failure to submit timely amendments may be cause for suspension or revocation of the permit.

NOTE: Authority cited: Section 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7-10-2003; operative 8-9-2003 (Register 2003, No. 28).
2. Change without regulatory effect amending subsection (a) filed 6-29-2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 27).

§ 18223.5. Facility Reports for Construction and Demolition/Inert or Inert Debris Facilities and Large Volume C&D Wood Debris Chipping and Grinding Facilities.

(a) Each operator of a large volume CDI debris processing facility or inert debris processing facility, or large volume C&D wood debris chipping and grinding facility that is required to obtain a Full Permit, as set forth in CCR, Title 14, Division 7, Chapter 3.0, Article 5.9, sections 17383.6, or 17383.8, or 17383.3 and Title 27, CCR, Division 2, Subdivision 1, Chapter 4, commencing with section 21450, shall file with the EA, together with its application for a Full Permit, a CDI Debris Processing Facility Report or Inert Debris Processing Facility Report, as applicable. The Report shall contain the following:

(1) Names of the operator and owner, and the key employee responsible for operation of the site;

(2) Schematic drawing all buildings and other structures showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, loading, and parking areas;

(3) Descriptive statement of the manner in which activities are to be conducted at the facility;

(4) Days and hours that the facility is to operate. If the hours of debris receipt differ from the hours of material processing, each set of hours shall be stated. For facilities with continuous operations, indicate the start of the operating day for purpose of calculating amount of debris received per operating day. The operator may also indicate whether or not, and when, other activities, such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(5) Total acreage contained within the operating area;

(6) Facility design capacity including the assumptions, methods, and calculations performed to determine the total capacity;

(7) Information showing the types and the daily quantities of debris to be received. If tonnage was figured from records of cubic yards, include the conversion factor used;

(8) In any calculations necessary as part of the plan, amounts shall be figured in tons. If tonnage is figured from cubic yards, include the conversion factors used as approved by the EA;

(9) Description of the methods used by the facility to comply with each State Minimum Standard required by CCR, Title 14, Division 7, Chapter 3.0, Article 5.9, commencing at section 17380;

(10) Anticipated volume of quench or process water and the planned method of treatment, and disposal of any wastewater;

(11) Description of provisions to handle unusual peak loading;

(12) Description of transfer, recovery and processing equipment, including classification, capacity and the number of units;

(13) Planned method for final disposition of debris received at the facility, including but not limited to materials being transferred to other facilities or operations for further processing, recycled materials, and solid waste;

(14) Planned method for the storage and removal of salvaged material;

(15) Resume of management organization which will operate the facility;

(16) List of permits already obtained, and the date obtained or last revised;

(17) The operator shall record and retain records of any serious injury to the public occurring on–site and any complaint of adverse health effects to the public attributed to operations. Serious injury means any injury that requires inpatient hospitalization for a period in excess of 24 hours or in which a member of the public suffers a loss of any member of the body or suffers any degree of permanent disfigurement; and

(18) The operator shall retain a record of training and instruction completed in accordance with, Article 6.2, section 17410.3.

(19) A copy of the operator's Injury and Illness Prevention Plan (as applicable under current law).

(20) Fire Prevention, Control and Mitigation Plan ("Plan") which contains the following:

(A) Description of the measures the operator will take to prevent fires and to control and extinguish fires at the site;

(B) Identification and description of the equipment the operator will have available (on site and readily available off–site) to control and extinguish fires;

(C) Description of the measures the operator will take to mitigate the impacts of any fire at the site to the public health and safety and the environment;

(D) Description of the arrangements the operator has made with the local fire control authority having jurisdiction to provide fire prevention, control and suppression;

(E) Discussion of the ability of the local fire control authority to suppress fires at the site in light of the authority's personnel, expertise and equipment, the availability of water, access to the site and to flammable materials on the site, the nature of flammable materials on site, the quantity and dimensions of materials on the site, and the potential for subsurface fires in accumulations of flammable materials on the site.

(F) Evidence that the operator has submitted the Plan to the local fire control authority for review and that the authority has found it to be in compliance with the authority's applicable requirements.

(b) The operator must file amendments as necessary to maintain the accuracy of the Report. Such amendments may become the basis for revisions to the Full Permit for the facility. Failure to submit timely amendments may be cause for suspension or revocation of the permit.

NOTE: Authority cited: Section 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–10–2003; operative 8–9–2003 (Register 2003, No. 28).

§ 18223.6. Disposal Facility Plan.

Each operator of an Inert Debris Type A Disposal Facility that is required to obtain a Registration Permit pursuant to Title 14 CCR, section 17388.4 shall, at the time of application, file a Disposal Facility Plan with the EA. In order to maintain the permit, the operator must file amendments as necessary to maintain the accuracy of the Plan. Such amendments, or lack thereof, may become the basis for changes in the permit or for revocation of the permit. A Disposal Facility Plan shall contain the following:

(a) Name(s) of the operator, owner, and the company they represent, if applicable;

(b) Scaled schematic drawing of the building and other structures showing layout and general dimensions of the operations area, including but not limited to, unloading, storage, loading, and parking areas;

(c) Descriptive statement of the manner in which activities are to be conducted at the facility;

(d) Days and hours of operation. If the hours of waste receipt differ from the hours of material processing, each schedule may be stated. For facilities with continuous operations, indicate the start of the operating day for the purpose of calculating the amount of waste received per operating day. The operator may also indicate whether or not, and when, other activities such as routine maintenance will take place, if those activities will occur at times other than those indicated above;

(e) Total acreage contained within the operating or disposal areas;

(f) Facility design capacity, including the assumptions, methods, and calculations performed to determine the total capacity;

(g) Information indicating the types and daily quantities of waste or debris to be received. If tonnage is determined from records of cubic yardage, include the conversion factor used in the calculation;

(h) Description of methods used by the facility to comply with each State Minimum Standard;

(i) Anticipated volume of quench or process water and the planned method of treatment and disposal of any wastewater;

(j) Description of provisions to handle unusual peak loading;

(k) Description of transfer, recovery and processing equipment, including classification, capacity and the number of units.

(l) Planned method for final disposal of the solid waste;

(m) Planned method for the storage and removal of salvaged material.

(o) Resume of management organization that will operate the facility.

(p) A description of road building and seasonal tipping pad design.

(q) A description of a program to prevent the acceptance of unapproved materials and hazardous wastes.

(r) A description of the planned method for storage and removal of prohibited wastes.

(s) A copy of the operator's Injury and Illness Prevention Plan (as applicable under current law).

NOTE: Authority cited: Sections 40502, 43020, 43021 and 48007.5, Public Resources Code. Reference: Sections 40053, 43020, 43021 and 48007.5, Public Resources Code.

HISTORY

1. New section filed 12–26–2003; operative 2–24–2004 (Register 2003, No. 52).
2. Editorial correction of HISTORY 1 (Register 2004, No. 2).

§ 18224. Report of Contaminated Soil Disposal Site Information.

Each operator of a contaminated soil disposal facility that is required to obtain a Standardized Solid Waste Facilities permit, as set forth in section 17362.3, shall, at the time of application, file a Report of Contaminated Soil Disposal Site Information with the enforcement agency. A Report of Contaminated Soil Disposal Site Information shall contain the following:

(a) A descriptive statement of the manner in which the operation is to be conducted at the site.

(b) Information showing the types and concentrations of chemical constituents, and the quantities of contaminated soil to be received.

(c) A schematic drawing of the facility showing layout and general dimensions of the operations area, including, but not limited to, unloading, storage, disposal, and parking.

(d) A description of the proposed methods used to control litter, nuisances, odors, noise impacts, dust, and other public health and safety and environmental hazards.

(e) Indication of the approximate total acreage contained within the operations area and either the total estimated capacity in tons indicating in place densities assumed, or the capacity in cubic yards. Also include

a projection of the life expectancy of the site based on current and/or anticipated loadings.

(f) The general location of the proposed disposal site shown on a map of at least the scale size equivalent to a 1:24,000 USGS topographical quadrangle. Such map shall show points of access to the site.

(g) A plot plan which delineates the legal boundaries for which clear title is held by the applicant and/or any parcels which are leased. Copies of lease agreements shall be submitted and substantiation shall be shown that the disposal site owner is cognizant of the disposal operations and the responsibilities assigned to the site owner by the standards.

(h) Identification on the plot plan of the specific limits of the existing and planned disposal area(s) showing relationships to the property boundary lines and adjacent land uses surrounding the site, distances to the nearest structures shall be identified.

(i) A description of the sequence of development stages of the disposal site facility, giving tentative implementation schedules for development, usage, site completion and closure. Describe the extent of change which will occur in areas which will be excavated for the placement of contaminated soil.

(j) A map showing the existing topographical contours of the property and proposed final elevations of the completed disposal site.

(k) If known, a description of the uses of the site after termination of disposal operations, including the time frame for implementation of such use.

(*l*) Resume of management organization which will operate the disposal site.

(m) Compilation of the conditions, criteria, and requirements established by the various approval agencies having jurisdiction over the disposal site.

(n) A listing of permits already obtained and the date obtained or last revised.

NOTE: Authority cited: Sections 40502, 43020, and 43021 of the Public Resources Code. Reference: Sections 43020 and 43021 of the Public Resources Code.

HISTORY

1. New section filed 3–25–96; operative 4–24–96 (Register 96, No. 13).

§ 18225. Nonhazardous, Nonputrescible, Industrial Solid Waste Codisposal Plan.

With an application for a permit, the operator of a facility shall file a Nonhazardous, Nonputrescible, Industrial Solid Waste Codisposal Plan with the EA, as required in section 17369(b) of Article 5.7. In order to maintain the permit, the operator must file amendments as necessary to maintain the accuracy of the facility Plan required in section 17369(b). Such amendments, or lack thereof, may become the basis for revocation of the permit. A Plan shall contain the following information, and may be derived from the Operation Plan approved by DTSC:

(a) name(s) of the operator and owner;

(b) scaled schematic drawing of the operations area, including but not limited to the active codisposal unit(s), and any DTSC/RWQCB approved closed waste management units, which contain nonhazardous, nonputrescible, industrial solid waste codisposed with hazardous waste;

(c) days and hours of operation for the disposal of nonhazardous, nonputrescible, industrial solid waste. For facilities with continuous operations, indicate the start of the operating day for the purpose of calculating the amount of nonhazardous, nonputrescible, industrial solid waste received per operating day.

(d) total acreage contained within the operating codisposal unit(s);

(e) unit design capacity;

(f) The operator of a facility shall demonstrate to the EA, pursuant to Title 27 California Code of Regulations section 20918, that there is no potential for adverse impacts on public health and safety or the environment based on a projection of methane gas generation. This information shall be certified in writing by a registered civil engineer or registered geologist.

(g) The operator shall demonstrate evidence of acceptable closure and postclosure maintenance plans by providing written verification of compliance with DTSC, Title 22, Chapter 14 or Chapter 15, closure and postclosure maintenance plan requirements, if applicable, as they may be amended from time to time.

(h) Notwithstanding anything to the contrary in Title 27, California Code of Regulations, Division 2, Chapter 6 (commencing with Section 22200), the operator shall demonstrate evidence of acceptable closure and postclosure maintenance cost, and operating liability financial assurance mechanisms by providing written verification of compliance with DTSC, Title 22, Division 4.5, Chapter 14, Article 8 (commencing with Section 66264.140) financial assurance requirements, or Chapter 15, Article 8 (commencing with Section 66265.140), if applicable, as they may be amended from time to time.

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 40053, 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 7–31–2000 as an emergency; operative 10–1–2000 (Register 2000, No. 31). A Certificate of Compliance must be transmitted to OAL by 1–29–2001 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–29–2001 as an emergency; operative 1–29–2001 (Register 2001, No. 5). A Certificate of Compliance must be transmitted to OAL by 5–29–2001 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 5–17–2001 as an emergency; operative 5–30–2001 (Register 2001, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–27–2001 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 9–24–2001 as an emergency; operative 9–28–2001 (Register 2001, No. 39). A Certificate of Compliance must be transmitted to OAL by 1–28–2002 or emergency language will be repealed by operation of law on the following day.
5. New section refiled 12–11–2001 as an emergency; operative 1–23–2002 (Register 2001, No. 50). A Certificate of Compliance must be transmitted to OAL by 5–23–2002 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 12–11–2001 order, including amendment of first paragraph and new subsections (g) and (h), transmitted to OAL 4–10–2002 and filed 5–21–2002 (Register 2002, No. 21).

§ 18226. Report of Nonhazardous Ash Disposal Site Information.

(a) Each operator of a nonhazardous ash disposal/monofill facility that is required to obtain a Standardized Solid Waste Facility Permit, as set forth in section 17377.3, shall, at the time of application, file a Report of Nonhazardous Ash Disposal Site Information with the enforcement agency. A Report of Nonhazardous Ash Disposal Site Information shall contain all of the information required in Title 27, California Code of Regulations, section 21600 with the exception of subsections: (b)(3)(A), (b)(4)(E), and (b)(8)(B).

NOTE: Authority cited: Sections 40502, 43020 and 43021, Public Resources Code. Reference: Sections 43020 and 43021, Public Resources Code.

HISTORY

1. New section filed 9–26–97; operative 9–26–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 39).

§ 18227. Report of Composting Site Information.

Each operator of a compostable material handling facility that is required to obtain a Compostable Materials Handling Facility Permit, as specified in Title 27, California Code of Regulations, Division 2, Subdivision 1, Chapter 4, Subchapter 1 and Subchapter 3, Articles 1, 2, 3, and 3.1 (commencing with section 21450), shall, at the time of application, file a Report of Composting Site Information with the EA as required by section 17863 of this Title. A Report of Composting Site Information shall contain the following:

(a) A description of the processes to be used, including estimated quantities of feedstocks, additives, and amendments.

(b) A descriptive statement of the operations conducted at the facility.

(c) A schematic drawing of the facility showing layout and general dimensions of all processes utilized in the production of compost including, but not limited to, unloading, storage, processing, parking, and loading areas.

(d) A description of the proposed methods used to control leachate, litter, odors, dust, rodents, and insects.

(e) A description of the proposed emergency provisions for equipment breakdown or power failure.

(f) A description of the storage capacity and anticipated maximum and average length of time compostable materials will be stored at the facility.

(g) A description of compostable materials handling equipment used at the facility including type, capacity, and number of units.

(h) Anticipated annual operation capacity for the facility in cubic-yards.

(i) A description of provisions to handle unusual peak loadings.

(j) A description of the proposed method for storage and final disposal of nonrecoverable or nonmarketable residues.

(k) A description of the water supplies for process water required.

(*l*) Identification of person(s) responsible for oversight of facility operations.

(m) A description of the proposed site restoration activities, in accordance with section 17870.

(n) An Odor Impact Minimization Plan pursuant to section 17863.4.

NOTE: Authority cited: Sections 40502, 43020, 43021 and 43209.1, Public Resources Code. Reference: Sections 43020, 43021 and 43209.1, Public Resources Code.

HISTORY

1. New section filed 4–4–2003; operative 4–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 14).
2. Change without regulatory effect amending first paragraph and subsections (m) and (n) filed 8–23–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

Article 3.3. Financial Responsibility for Operating Liability Claims

§ 18230. Scope and Applicability.

NOTE: Authority cited: Sections 40502 and 43040, Public Resources Code. Reference: Section 43040, Public Resources Code.

HISTORY

1. New section filed 4–2–92; operative 7–1–92 (Register 92, No. 17).
2. Repealer of article 3.3 (sections 18230–18245) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to financial responsibility for solid waste disposal facility operating liability claims have been relocated to title 27, division 2.

§ 18231. Definitions.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 18277. Release From Postclosure Maintenance.

NOTE: Authority cited: Sections 40502 and 43020, Public Resources Code; and Section 66796.22(d), Government Code. Reference: Section 66796.22(d), Government Code; and Sections 43020, 43021, 46022 and 46026, Public Resources Code.

HISTORY

1. New section filed 8–18–89 as an emergency; operative 8–18–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL, within 120 days or emergency language will be repealed by operation of law on 12–18–89.
2. New section refiled 12–8–89 as an emergency; operative 12–18–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–17–90.
3. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
4. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
5. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

Article 3.5. Financial Responsibility for Closure and Postclosure Maintenance

§ 18280. Scope and Applicability.

HISTORY

1. New section filed 8–17–89 as an emergency; operative 8–17–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–15–89.
2. Editorial correction of HISTORY 1 (Register 89, No. 51).
3. New section refiled 12–8–89 as an emergency; operative 12–15–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–16–90.
4. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Amendment of subsection (b) and NOTE filed 7–12–93 as an emergency; operative 7–12–93 (Register 93, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–93 or emergency language will be repealed by operation of law on the following day.
7. Amendment of subsection (b) and NOTE refiled 11–9–93 as an emergency; operative 11–9–93 (Register 93, No. 46). A Certificate of Compliance must be transmitted to OAL by 4–26–93 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 11–9–93 order transmitted to OAL 3–8–94 and filed 4–19–94 (Register 94, No. 16).

9. Repealer of article 3.5 (sections 18280–18298) and section filed 6–18–97; operative 7–18–97 (Register 97, No. 25). Regulations pertaining to financial responsibility for closure and postclosure maintenance have been relocated to title 27, division 2.

§ 18281. Definitions.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Sections 43500–43610, Public Resources Code.

HISTORY

1. New section filed 8–17–89 as an emergency; operative 8–17–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–15–89.
2. Editorial correction of HISTORY 1 (Register 89, No. 51).
3. New section refiled 12–8–89 as an emergency; operative 12–15–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–16–90.
4. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order including amendment of subsection (s) and (w) and addition of subsection (o) transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. New subsection (g), subsection relettering, and amendment of NOTE filed 2–2–93; operative 2–2–93 pursuant to Government Code section 11346.2(d) (Register 93, No. 6).
7. Change without regulatory effect amending section filed 2–2–93 pursuant to section 100, title 1, California Code of Regulations (Register 93, No. 6).
8. New subsections (a)–(a)(2), (c), (k) and (v), repeal of subsections (s)–(s)(2) and subsection relettering filed 12–31–93 as an emergency; operative 12–31–93 (Register 93, No. 53). A Certificate of Compliance must be transmitted to OAL by 3–31–94 or emergency language will be repealed by operation of law on the following day.
9. New subsections (a)–(a)(2), (c), (k), and (v), repealer of subsections (s)–(s)(2) and subsection redesignation refiled 4–29–94 as an emergency; operative 4–29–94 (Register 94, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–29–94 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 4–29–94 order transmitted to OAL with amendments 8–29–94 and filed 10–12–94 (Register 94, No. 41).
11. Repealer filed 6–18–97; operative 7–18–97 (Register 97, No. 25).

§ 18282. Amount of Required Coverage.

NOTE: Authority cited: Section 40502, Public Resources Code. Reference: Section 43501, Public Resources Code.

HISTORY

1. New section filed 8–17–89 as an emergency; operative 8–17–89 (Register 89, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 12–15–89.
2. Editorial correction of HISTORY 1 (Register 89, No. 51).
3. New section refiled 12–8–89 as an emergency; operative 12–15–89 (Register 89, No. 51). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 4–16–90.
4. New section refiled 3–22–90 as an emergency; operative 3–22–90 (Register 90, No. 17). A Certificate of Compliance must be transmitted to OAL within 120 days (by 7–20–90) or emergency language will be repealed by operation of law on 7–21–90.
5. Certificate of Compliance as to 3–22–90 order transmitted to OAL 5–17–90 and filed 6–18–90 (Register 90, No. 34).
6. Amendment filed 12–31–93 as an emergency; operative 12–31–93 (Register 93, No. 53). A Certificate of Compliance must be transmitted to OAL by 3–31–94 or emergency language will be repealed by operation of law on the following day.
7. Amendment refiled 4–29–94 as an emergency; operative 4–29–94 (Register 94, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–29–94 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 4–29–94 order transmitted to OAL with amendments 8–29–94 and filed 10–12–94 (Register 94, No. 41).
